HAGNR Exhibits

Wed 4:56 PM

I suppose HB2469

I have a small 5 acre homestead and growing my own garden and small farm, animals. I fear GE crops and believe they are dangerous to my health and my family (I see my friends children dieing of intestinal disorders more frequently and blame gmo produce) Please support any legislation that promotes organic and non-gmo products and protects my choices.

Sent via the Samsung Galaxy S@ 5 mini, an AT&T 4G LTE smartphone
