<sup>(1)</sup> Includes adjustments through May 2015

\* Excludes Capital Construction expenditures

**Revenue Summary**

The Department of Human Services (DHS) is funded with a mix of General Fund, Other Funds and Federal Funds revenues. Almost all of the General Fund is used as match or to meet state maintenance of effort requirements to receive Federal Funds. Other Funds revenues come from a wide variety of sources such as nursing home provider taxes, child care development funds, grants, unitary tax assessment, collections of overpayments, estate collections, third party recoveries, fees, and charges for services.

The largest single Federal Funds source is the Supplemental Nutrition Assistance Program (SNAP) at \$2.5 billion; the benefits are reflected in the budget as Nonlimited Federal Funds. Some of the Federal Funds subject to expenditure limitation include the Title XIX Medicaid program, Temporary Assistance to Needy Families (TANF); Title IV-B Child Welfare Services; Title IV-E Foster Care and Adoption Assistance; Title XX Social Services Block Grant; Developmentally Disabled Services Act (DDSA) funds; Family Violence Prevention grant funds; Older Americans Act funds; Nutrition Services Incentive Program (NSIP) funds; Rehabilitation Act grants; and Basic 110, Section 633, and Section 711 Rehabilitation funds. Some of these sources are capped block grants (e.g., TANF, Social Services Block Grant); others provide federal matching funds as partial reimbursement of state costs (e.g., Medicaid, Foster Care, and Adoption Assistance).

Three major methodologies are used to project revenues for the department: 1) the category of expenditures based on estimated Average Daily Populations (ADP) and Cost per Case (CPC) is primarily used for federal entitlement grants, 2) grant cycles and where they fall within the biennium are considered for block grants; assumptions based on the results of prior grant averaging and the anticipated effect of the federal budget

process both are used to project the amount of funds that will be received, and 3) the historical receipt trends method is used for Other Funds sources such as collections of overpayments and fees unless the agency has additional information, such as anticipated special projects that would increase revenue or a temporary need for additional staff that will change the projections for a specific time period.

## **Summary of Human Services Subcommittee Action**

The mission of DHS is to help Oregonians, in their own communities, achieve safety, well-being, and independence through services that protect, empower, respect choice, and preserve dignity. DHS is responsible for the care of some of Oregon's most vulnerable citizens – children, families, people with intellectual and developmental disabilities, and seniors. DHS also serves Oregonians at times when they are most in need – when they have experienced abuse, when they are hungry, and when they are homeless.

DHS's budget is divided into five distinct programs areas: Child Welfare, Self-Sufficiency, Vocational Rehabilitation, Aging and People with Disabilities, and Intellectual/Developmental Disabilities. These program areas are supported by Central Services, Shared Services, and Program Design Services.

The Subcommittee approved a budget of \$2,698,473,400 General Fund, \$496,095,693 Other Funds, \$4,493,398,541 Federal Funds, \$2,514,345,331 Federal Funds Nonlimited (\$10,202,312,965 total funds) and 8,033 positions (7,893.67 FTE). This is an 8.4 percent total funds increase from the 2013-15 Legislatively Approved Budget.

The Subcommittee discussed and reviewed packages used to build the Governor's Budget, stakeholder budget requests, and the agency's repricing ("reshoot") adjustments for caseload, cost-per-case, and other changes since budget development began in early 2014. Caseload and associated cost adjustments are based on the Spring 2015 forecast. Also included in the Subcommittee's recommended budget are 2013-15 interim actions that have an impact on the agency's 2015-17 budget.

To support the repurposing of General Fund within the budget and prioritize finite resources, the adopted budget includes two strategies proposed in the Governor's Budget. The first removes standard inflation on base expenditures and the second applies a 3.0 percent across-the-board vacancy factor. Collectively, these actions provide \$47.9 million General Fund to balance the overall budget and require careful management of spending and positions.

### **Central Services, Shared Services, State Assessments and Enterprise-wide Costs**

Central Services include functions directly related to policy and program in the agency, such as the director's office, communications, portions of budget and human resources, and the Governor's Advocacy Office.

Shared Services provide a number of support functions, including information technology, financial services, budget, human resources, facilities, and procurement. Some of these functions are housed in the Oregon Health Authority (OHA) and some in DHS, but all shared services units support both agencies. The two agencies have a joint governance model under which service-level agreements define the relationship between the agency providing the service and the agency receiving the service. Shared Services funding is all Other Funds, based on revenues received from

other parts of DHS and from OHA for purchased services. DHS' Shared Services budget includes the Shared Services Administration; Budget Center; Office of Forecasting, Research and Analysis; Office of Financial Services; Office of Human Resources; Office of Facilities; Office of Imaging and Records Management; Office of Contracts and Procurement; Internal Audit and Consulting Unit; Office of Payment Accuracy and Recovery; Rules Coordinator; and the Office of Adult Abuse Prevention and Investigations.

Statewide Assessments and Enterprise-wide Costs (SAEC) contains statewide assessments including various Department of Administrative Services' assessments/charges (e.g., State Data Center, Risk Management, Chief Financial Office), Central Government Services Charges, Oregon State Library, and Secretary of State audits. It also includes the budgets for rent, debt service, and computer replacements.

For these three programs, the Subcommittee approved a budget of \$221,982,004 General Fund, \$147,556,709 Other Funds, \$202,128,354 Federal Funds (\$571,667,067 total funds) and 758 positions (736.17 FTE). This is an 8.2 percent total funds increase from the 2013-15 Legislatively Approved Budget.

Along with eliminating standard inflation and applying a higher vacancy rate, the Subcommittee's budget includes a transfer of funding (\$1,080,000 General Fund and \$1,080,000 Federal Funds) for volunteer transport to the Oregon Health Authority's Medical Assistance Programs. It also contains changes to positions that, in total, add two permanent positions (2.00 FTE) and \$241,330 General Fund, \$858,698 Other Funds expenditure limitation, and \$189,748 Federal Funds expenditure limitation.

The budget adds \$2,845,794 General Fund to align expenditures with updated cost allocations or revenues. Some federal funding streams, such as Social Services Block Grant, are almost fully subscribed by direct program costs. Technical adjustments and transfers, including an adjustment to statewide assessments prior to an end of session reconciliation, account for an increase of \$1,806,063 General Fund (\$4,234,672 total funds) and four positions (4.00 FTE).

Changes in DHS facilities costs are driving an increase of \$3,104,579 General Fund (\$6,209,158 total funds). Several leases have not been renewed, forcing the agency to find new office space, typically at higher costs. Combined with already planned consolidations/relocations, this is driving increased costs. Staff increases approved in the current biennium and position growth in the budget are also influencing space needs.

In Package 201, the budget funds the DHS portion of the REAL+D project to design, build, and implement a tool to collect, report, and analyze data on race, ethnicity, language, and disability. Another budget adjustment linked to OHA is the realignment of positions in the performance excellence program between the agencies, with four positions shifting from DHS to OHA.

The Subcommittee approved Package 121 - Oregon Enterprise Data Analytics. This package is funded at \$3.8 million total funds, comprised of \$946,393 General Fund, \$1,889,626 Other Funds, \$943,233 Federal Funds, and 13 positions (8.45 FTE). The package supports integration and analysis of client and customer service information across state agencies and programs. While some ad-hoc efforts are already underway, this investment will provide coordination, consolidation, and clear ownership (accountability) for that work. One area of specific emphasis will be data collection and analysis in the Self Sufficiency program, particularly in TANF, as General Fund made available in the TANF redesign initiative was allocated in the budget plan to fund this package.

The Subcommittee's budget includes \$0.4 million total funds and one permanent position (0.88 FTE) associated with implementation of House Bill 2393, which supports recovering public assistance overpayments from lottery winnings. This is also part of the TANF reinvestment plan.

#### Program Design

During 2013-15, certain staff in each program were consolidated into a single agency-wide program design unit. Functions within the unit include quantifying desired agency outcomes, measuring the outcomes, designing programs to achieve the outcomes, implementing the design through business and IT processes, and systematically reviewing whether the processes are being implemented as designed and how well the outcomes are being achieved.

The Subcommittee approved a budget of \$30,441,568 General Fund, \$410,196 Other Funds, \$35,961,799 Federal Funds (\$66,813,563 total funds) and 236 positions (236.00 FTE). This is a 42.8 percent total funds decrease from the 2013-15 Legislatively Approved Budget. The decrease is due to the phase-out of the department's curtailed Modernization Project, which included a significant amount of Other Funds and Federal Funds expenditure limitation. The General Fund budget is 31.2 percent higher than in the 2013-15 Legislatively Approved Budget. More than half of the increase is due to the backfill of empty Federal Funds expenditure limitation, in part because of a disproportionate allocation of federal revenues.

The Subcommittee's budget eliminates standard inflation for Services and Supplies and Special Payments, and assumes a 3.0 percent vacancy rate, allowing \$0.6 million General Fund (\$1.2 million total funds) to be repurposed for other budget needs. It adjusts for the rebalance in December 2014, as well as the transfer of a component for long term care annual reporting from Aging and People with Disabilities to Program Design Services.

It adds \$750,000 General Fund (\$7.5 million total funds) for initial planning to improve eligibility determination systems for non-MAGI (Modified Adjusted Gross Income) Medicaid programs (Package 103). Planning efforts are eligible for 90/10 enhanced federal match over the next three years and the agency plans to return in the 2016 Legislative Session with a project update and a request for additional funding. The project was reviewed by the Ways and Means Subcommittee on Information Technology, which recommended incremental and conditional approval of the package. Specific details for required next steps under the project have been documented and transmitted to the agency.

The budget establishes one permanent position (1.00 FTE) and provides \$79,725 General Fund and \$79,725 Federal Funds expenditure limitation to support ongoing child welfare quality control and improvement efforts. It removes \$13.5 million Federal Funds expenditure limitation that lacks corresponding revenue and backfills a portion of this with \$3.8 million General Fund to realign the budget. It repurposes positions to eliminate five double-filled positions. The budget also makes technical adjustments, including the transfer of some positions to other programs.

#### Self-Sufficiency Program

Self-Sufficiency Programs (SSP) provide assistance for low-income families to help them meet critical needs while helping them become self-supporting. The major programs in this area are: Supplemental Nutrition Assistance Program (SNAP); Temporary Assistance to Needy Families (TANF); Employment Related Day Care (ERDC); the Refugee Program; and Youth Services.

DHS administers these programs through coordination and collaboration with families and individuals as well as community partners, and through direct services provided by state staff. Field staff provides program services and benefits to clients through more than 100 field and branch offices throughout the state.

General Fund supports 11.7 percent of this budget, Other Funds 2.9 percent, and Federal Funds 85.4 percent. The major source of Other Funds is federal Child Care Development Fund dollars transferred from the Department of Education for the Employment Related Day Care program. The budget also includes child support recoveries and client trust account funds from client resources, such as federal Supplemental Security Income disability payments. Overpayment recovery revenues are also used to offset General Fund.

Funding for SNAP benefits is the single largest source and use of Federal Funds in SSP. SNAP benefits are projected at \$2.5 billion for the 2015-17 biennium. Federal Funds also help pay for program administrative costs, on a 50.0 percent state/50.0 percent federal basis.

Other Federal Funds come from capped or formula-based block grants, payments for partial reimbursement of eligible state costs, and miscellaneous grants for specific amounts and purposes. Oregon receives \$166.8 million a year from the base federal TANF block grant, which pays for cash assistance, JOBS services, child care, and other self-sufficiency programs, as well as child welfare services such as foster care and residential care.

The Subcommittee approved budget for SSP is \$403,519,001 General Fund, \$100,138,332 Other Funds, \$437,409,828 Federal Funds, \$2,514,345,331 Federal Funds Nonlimited (\$3,455,412,492 total funds) and 2,039 positions (2,029.49 FTE). This is a 0.1 percent total funds decrease from the 2013-15 Legislatively Approved Budget, however, for General Fund the budget is an 18.9 percent increase, primarily due to a significant investment in the Employment Related Day Care (ERDC) program.

The budget eliminates standard inflation for Services and Supplies and Special Payments, and assumes a 3.0 percent vacancy rate, allowing \$9.2 million General Fund (\$12.3 million total funds) to be repurposed for other budget needs. The budget transfers food-related programs from the Oregon Housing and Community Services Department (OHCS), adding \$1.8 million General Fund and \$1.8 million Federal Funds. The committee also restored and continued what was originally a one-time General Fund appropriation of \$450,000 to the Oregon Food Bank, to further augment those food programs. The budget also provides \$1.0 million General Fund to continue and expand a 2013-15 investment in the statewide 211 system. On the revenue side, the budget assumes DHS will receive \$24.0 million in TANF contingency funds, which replaces General Fund need (Package 090), and contains \$10 million in TANF carry forward, resulting in an additional \$10 million General Fund savings (Package 801). Since the federal TANF law continues to be up for reauthorization or extension, it is possible that the provision regarding contingency funds could change during the 2015-17 biennium, so there is some risk assumed in the use of these funds.

The budget includes the 2015-17 biennium impacts of December 2014 Emergency Board actions, including cost per case increases, caseload decreases and a technical adjustment, which moved Services and Supplies funding from Child Welfare into the Self Sufficiency program, resulting in a \$32.7 million General Fund savings. The budget also accounts for caseload savings anticipated from the Spring 2015 forecast, resulting in an additional \$13.9 million General Fund savings.

The Subcommittee provided \$21.7 million General Fund and 17 positions (17.00 FTE) for TANF redesign efforts and implementation of House Bill 3535 (2015) (Packages 101 and 113). This is part of an overall TANF reinvestment of \$30.0 million General Fund, which also maintains Self-Sufficiency staffing 75.8 percent of the workload model. The reinvestment plan covers funding to raise the income limits for clients exiting TANF, reduce the ERDC co-pay for three months while exiting TANF, provide transition payments to families who are exiting TANF, eliminate deprivation as an eligibility requirement, expand the caretaker relative definition, expand contracts for pre and post TANF services, Increase

flexibility in issuing support services to prevent TANF entry, provide training required to implement changes, maintain the workload model and expand intensive client services, support evaluation strategies and data analytics, improve EBT card security by adding names on replacement cards (House Bill 2392), and access lottery prizes for overpayment recovery (House Bill 2393).

The budget contains a \$45.0 million General Fund appropriation for the Employment Related Daycare (ERDC) program to bring provider rates up to the 75th percentile of the market study, allow between 700 and 800 more families to participate in the program and to implement changes required in House Bill 2015 (2015). Other supported program changes include protecting eligibility for 12 months, allowing working student parents to access ERDC, allowing self-employed parents to access ERDC, lowering co-pay for using higher quality providers, giving incentives to high quality providers caring for subsidy children, funding program infrastructure and system costs, and changing ERDC exit eligibility from 185.0 percent to 250.0 percent of the federal poverty level.

The budget makes some technical adjustments and transfers, reducing Other Funds expenditure limitation by \$9.0 million and provides \$189,374 General Fund for one position (0.88 FTE) to implement House Bill 2392 (2015).

### Child Welfare

Child Welfare program services are provided to children reported to be abused or neglected and families who are impacted by abuse dynamics; typically substance abuse and domestic violence. DHS is required by statute to assess reports of alleged child abuse or neglect, complete comprehensive safety assessments of children, assess parent or caregiver capacity to protect, and determine whether child abuse or neglect has occurred. Primary funding for Child Welfare Programs (including Child Safety, Well Being, Child Safety, and Permanency) consists of General Fund and various federal resources derived from the United States Department of Health and Human Services.

The Subcommittee approved budget is \$470,861,862 General Fund, \$22,838,433 Other Funds, \$449,789,894 Federal Funds (\$943,490,189 total funds) and 2,598 positions (2,550.30 FTE). This is a 2.8 percent total funds increase from the 2013-15 Legislatively Approved Budget.

The budget eliminates most standard inflation for Services and Supplies and Special Payments, and assumes a 3.0 percent vacancy rate, allowing \$13.5 million General Fund (\$29.0 million total funds) to be repurposed for other budget needs. The budget includes the 2015-17 biennium impacts of December 2014 Emergency Board actions (\$6.0 million General Fund savings, and a \$103,000 Other Funds increase), including the transfer of General Fund Services and Supplies to the Self Sufficiency program, the transfer of funds from the Oregon Department of Transportation (ODOT) for Driver's Education courses for foster children, and the transfer out of the Child and Adolescent Needs and Strengths (CANS) program to the Oregon Health Authority.

To build in caseload and cost per case changes from the Spring 2015 forecast, the budget includes \$8.1 million General Fund (\$11.0 million total funds) and adds 71 positions (71.00 FTE) to maintain Child Welfare staffing at 85.9 percent of the workload model. While overall caseloads are flat, the workload associated with both screening and assessment is becoming more complex and time consuming, especially with alternative responses to be determined and assigned if a family meets differential response criteria. The package also includes an increase in the federal portion of the Federal Medicaid Assistance Percentage (FMAP) rate, which determines the federal share of eligible program expenditures, saving \$1.1 million General Fund. It also reduces \$1.9 million General Fund for guardianship subsidies, corrects inflation (\$1.8 million total funds) for

Behavioral Rehabilitative Services rates (BRS) to keep those rates at agreement levels, and makes certain technical adjustments and transfers (\$1.7 million total funds).

The Subcommittee approved \$250,000 General Fund to cover the startup and ongoing base costs for a youth shelter project in Lane County. The funding will pay for rehabilitation of an existing building, initial staff support, and program supplies. The project will help stabilize and assess high risk youth who are unable to stay at home or in foster care, with a goal of minimizing exposure to or progression through both the child welfare and juvenile justice systems. The budget also adds \$1.6 million General Fund for the Homeless and Runaway Youth program, which supports local programs providing services such as street outreach, day drop-in, and overnight shelters for unaccompanied minors.

#### Vocational Rehabilitation

The Office of Vocational Rehabilitation Services (OVRS) works with businesses, schools and community programs to assist youth and adults with disabilities, other than blindness, to obtain, maintain or advance in employment.

The Subcommittee approved budget is \$20,694,165 General Fund, \$2,320,512 Other Funds, \$74,158,866 Federal Funds (\$97,173,543 total funds) and 253 positions (249.28 FTE). This is a 0.5 percent decrease from the 2013-15 Legislatively Approved Budget.

The budget eliminates most standard inflation for Services and Supplies and Special Payments, and assumes a 3.0 percent vacancy rate, allowing \$532,023 General Fund (\$2.5 million total funds) to be repurposed for other budget needs. In Package 119, the Subcommittee also approved 19 permanent positions (19.00 FTE), which will clear all double-filled positions within the program. The funding from Special Payments, made available by managing costs and client services, have been covering the cost of the double-fills and will be shifted to the Personal Services expenditure category as part of the adjustment.

#### Aging and People with Disabilities

The Aging and People with Disabilities (APD) program assists seniors and people with disabilities of all ages to achieve well-being through opportunities for community living, employment, family support and services that promote independence, choice and dignity. APD administers Oregon's Medicaid long-term care program primarily under the Community First Choice Option (K Plan) under Section 1915(k) of the Social Security Act. Oregon Project Independence (OPI) provides in-home services outside of the Medicaid program. Federal Older American Act services include help with abuse prevention, caregiver supports, medication management, nutrition services, legal issues, and other services

The Subcommittee approved a \$2,953,451,473 total funds budget, which is 18.2 percent higher than the 2013-15 Legislatively Approved Budget. The budget contains \$862,154,849 General Fund, \$186,445,596 Other Funds, \$1,904,851,028 Federal Funds, and 1,251 positions (1,241.28 FTE). While the budget includes some actions to reduce General Fund need and offset costs, about half of the budget growth is due to caseload/workload while a significant portion is tied to addressing other budget needs. Due to concerns about increases in caseload volume and caseload costs, the Subcommittee approved the following budget note:

#### **Budget Note:**

The Department of Human Services is directed to report to the Joint Committee on Ways and Means during the 2016 Legislative Session on ways to ensure services to older adults and people with disabilities and people with intellectual and developmental disabilities remain

sustainable into the future with a goal of capping biennial general fund budget growth at 10.0 percent. Issues explored should include, but are not limited to, service eligibility, income eligibility criteria, and service array or level of services offered. For identified options, the report will cover associated fiscal impacts, potential implementation timelines, state law or rule changes required, experiences from or comparisons to other states, and the likelihood of obtaining any needed federal authorization.

The Department will also report on cost per case and caseload trends, for both the Aging and People with Disabilities and the Intellectual and Developmental Disabilities programs, to the Interim Joint Committee on Ways and Means in September 2015.

The Subcommittee approved budget includes the 2015-17 biennium impacts of Emergency Board actions from May, September, and December 2014. It also eliminates standard inflation for Services and Supplies and Special Payments, and assumes a 3.0 percent vacancy rate, allowing \$6.3 million General Fund (\$15.1 million total funds) to be repurposed for other budget needs.

The budget includes adjustments to account for overall caseload growth and cost per case changes based on the Spring 2015 forecast. It also includes adjustments (increases) to workload models for the APD field offices and Area Agencies on Aging (AAAs); APD workload is at 90.0 percent of the workload model with the AAAs at 95.0 percent equity. General Fund costs are partially offset by a higher FMAP rate.

The Subcommittee's recommendation includes \$14.4 million General Fund (\$48.0 million total funds) to cover the initial costs associated with implementing U.S. Department of Labor (USDOL) Fair Labor Standards Act rule changes affecting home care workers. Additional future costs are anticipated to be addressed by a special purpose appropriation to the Emergency Board to be included in the omnibus end-of-session bill. A portion of the final regulations are in a state of uncertainty at this time, due to pending litigation at the federal level. As information becomes available, DHS will report to the Legislative Assembly on the final legal decisions, the effects of those decisions on DHS in-home programs, department plans for implementing needed programmatic changes, and updated fiscal impacts associated with the changes.

Funding for Package 107, which covers the next phase of development and implementation of a streamlined and integrated Statewide Adult Abuse and Report Writing System, is not included in this recommendation, since it has a bonding component; funding will be addressed in an omnibus bill if bonding is approved. Project cost, which is based on updated estimates from the third party vendor that refined the project business case, is \$5.6 million total funds, with \$1.4 million of that amount covered by General Fund and the remainder from bond proceeds. An estimated \$0.8 million General Fund will be needed to cover debt service on those bonds in 2015-17. While not part of House Bill 5026, the General Fund for this project has been included in the overall budget plan for DHS. The project was reviewed by the Ways and Means Subcommittee on Information Technology, which recommended incremental and conditional approval of the package. Specific details for required next steps under the project have been documented and transmitted to the agency.

The budget plan includes the following changes, some of which are program reductions, to repurpose General Fund within the budget plan:

- A fund shift of \$5.0 million General Fund to Federal Funds to reflect claiming additional funding for new program eligibles under the Affordable Care Act.
- Elimination of \$2.0 million General Fund used to maintain federal Older Americans Act funding and programs.

- Elimination of \$1.95 million General Fund paying for the Innovation Fund; this was a new initiative in 2013-15. This action retains \$350,000 General Fund in the budget to continue support for Our House’s community-based program in the Portland area.
- Elimination of \$2.8 million General Fund supporting the Gatekeeper program; this was another new, discretionary expenditure for 2013-15. The program trains customer contact employees to recognize signs that an older person may need help.
- Elimination of \$1.8 million General Fund paying for Aging and Disability Resource Connection (ADRC) options counseling. The program helps consumers and families identify options and supports for long-term care, toward promoting informed decision-making.
- Addition of \$1.6 million General Fund as a one-time expenditure to pay back property taxes for seniors eligible for hardship relief stemming from changes made to the Senior and Disabled Property Tax Deferral Program (House Bill 2510 and House Bill 2489) during the 2013 session. It is estimated about 200 households still need assistance.

The budget increases Home and Community Based Care provider rates for Residential, Assisted Living and In-Home Agencies by 2.5 percent annually, driving increases of \$6.7 million General Fund and \$15.8 million Federal Funds.

The Subcommittee approved \$200,000 General Fund to support a statewide community-based needs assessment, which is intended to provide valuable data to help Department of Human Services and agency partners to effectively address the social, educational, and health disparities experienced by members of the deaf, deaf-blind, deaf-plus, and hard of hearing communities. Accurate and useful data will assist in prioritizing unmet needs and identifying possible collaborations, strategies, and interventions to help meet these needs. In developing the assessment, the Department will work with the Oregon Deaf and Hard of Hearing Services Program (ODHHSP) advisory committee to ensure appropriate and adequate data will be collected through surveys, key interviews and focus groups with community members and community meetings.

In carrying out this work, the Department should execute a contract with a vendor who has demonstrated experience working with the Deaf, DeafBlind, Deaf-Plus and hard of hearing populations. The assessment and its resulting report, which will be provided to the Legislature, will contain data on demographics, as well as the status of availability and access to communications using qualified interpreters, reporters, and assistive devices in a variety of settings. In addition, it will include information regarding the types of barriers that make it harder for these Oregonians to graduate from high school, enter and complete college, earn a livable wage, be healthy, and be safe from abuse. Finally, strategies to address needs and barriers will be identified and described.

The budget includes a total of \$24,442,985 General Fund in DHS to continue funding investments made in senior programs during the 2013 Special Session; some portions of the overall \$42.4 million General Fund commitment are budgeted in other agencies. Under this spending plan, the overall 2015-17 funding for the base OPI program is at \$20.1 million; the current OPI pilot expansion project serving younger people with disabilities is continued with an additional \$6 million General Fund. The components of the senior commitment are as follows:

**\$42 Million General Fund Senior Commitment  
2015-17 Spending Plan**

**Department of Human Services**

Item	Item Description	Amount
A	Enhanced Oregon Project Independence (OPI) funding for individuals 60 and over	\$ 10,300,000
B	OPI pilot to expand coverage for younger persons with disabilities	\$ 6,000,000
C	Geriatric medication competency training pilot	\$ 3,300,000
	Training on Alzheimer's/dementias	
	Training for caregivers on challenging behaviors	
	First responder training on Alzheimer's/dementias	
	Increase access to caregiver training statewide	
D	Re-establish annual reporting for long term care	\$ 734,800
E	Personal Incidental Fund (PIF) from \$60 per month, plus annual inflation	\$ 539,728
F	HB 4151 (2014) - Elder Abuse Task Force Recommendation	\$ 241,330
G	AAAs - Replace Older Americans Act lost due to sequestration cuts	\$ 2,077,127
H	AAAs - Evidence based health promotion/disease prevention	\$ 1,250,000
<b>DHS Total</b>		<b>\$ 24,442,985</b>

**Oregon Health Authority**

Item	Item Description	Amount
I	Geriatric/disability/mental health and addiction specialists for each county	\$ 6,153,914
J	Collect/analyze data through the Behavioral Risk Factor Surveillance System (BRFSS)	\$ 104,234
K	Lifeline Dental Network	\$ 160,000
<b>OHA Total</b>		<b>\$ 6,418,148</b>

**Long Term Care Ombudsman**

Item	Item Description	Amount
L	SB 1553 (2014) - Public Guardianship Program	\$ 2,171,212
<b>LTCO Total</b>		<b>\$ 2,171,212</b>

**Oregon Department of Transportation**

Item	Item Description	Amount
M	Enhance funding for elder and disabled transit services	\$ 9,400,000
<b>ODOT Total</b>		<b>\$ 9,400,000</b>

**TOTAL - ALL AGENCIES \$42,432,345**

The caregiver training initiative (Item C above) funded by DHS (Aging and People with Disabilities Department) using the trainings provided by Oregon Care Partners should be continued for the 2015-17 biennium to further realize the investments made during 2013-15. A total of \$3.3 million General Fund is approved for DHS to extend the caregiver training initiative designed to provide consistent, standardized, and evidence-based training across all segments of the long term care services and supports (LTCSS) continuum. The growing population of seniors

and people with disabilities requires a well-trained workforce and the development of additional community resources for both professional and family caregivers.

#### Individuals with Intellectual/Developmental Disabilities

The Intellectual/Developmental Disabilities (I/DD) program area serves over 21,000 children and adults with intellectual and developmental disabilities throughout their life span. This program's mission is to help individuals be fully engaged in life and, at the same time, address any critical health and safety needs. The state, counties, brokerages, providers, families and self-advocates are all critical parts of Oregon's Developmental Disabilities service system that focuses on individuals with I/DD living in the community and having the best quality of life at any age. Oregon no longer has an institutional facility for persons with developmental disabilities, so all clients are served in the community. Most of these services are administered under Medicaid waivers.

General Fund makes up 32.6 percent of the I/DD budget, with most of the General Fund used to match federal Title XIX Medicaid dollars. Other Funds revenue supports 1.7 percent of the overall budget, coming primarily from clients' contributions towards their care and estate recoveries. Federal matching funds for the Medicaid program are determined by the FMAP rate, which determines the federal share of eligible program expenditures. The program match rate changes each federal fiscal year.

The Subcommittee approved budget is \$688,819,951 General Fund, \$36,385,915 Other Funds, \$1,389,098,772 Federal Funds (\$2,114,304,638 total funds) and 898 positions (851.15 FTE). This is a 17.5 percent total funds increase from the 2013-15 Legislatively Approved Budget. While the budget includes some actions to reduce General Fund need and offset costs, about half of the budget growth is due to caseload/workload while a significant portion is tied to addressing other budget needs. Caseload growth is projected at about 13.0 percent between biennia; this growth and increases in cost per case prompted the budget note previously documented in the APD section of this budget report.

The budget includes elimination of standard inflation for Services and Supplies and Special Payments, and assumes a 3.0 percent vacancy rate, allowing \$16.7 million General Fund (\$51.2 million total funds) to be repurposed for other budget needs. It also includes adjustments to account for caseload growth and cost per case changes based on the Spring 2015 forecast. Adjustments (increases) to workload models for the Community Developmental Disability Programs (CCDPs) and brokerages align with that growth. General Fund need is partially offset by a higher FMAP rate.

The budget includes \$3.6 million General Fund (\$10.0 million total funds) to cover initial costs associated with implementing U.S. Department of Labor (USDOL) Fair Labor Standards Act rule changes affecting personal support workers. Additional future costs are expected to be covered by a special purpose appropriation to the Emergency Board to be included in the omnibus end of session bill. A portion of the final regulations are in a state of uncertainty at this time, due to pending litigation at the federal level.

The budget includes funding to improve employment outcomes for people with intellectual and developmental disabilities; \$4.3 million General Fund will help increase capacity for Vocational Rehabilitation to serve the I/DD population and increase availability of benefits counseling and enhance provider transformation through proven practices. Oregonians with I/DD are underrepresented in Oregon's workforce and this investment builds on the 2013-15 Employment First investment and outcomes.

The budget plan includes two adjustments for the Stabilization and Crisis Unit (SACU) program. To develop provider agency capacity for serving people with I/DD that have significant, long-term challenges but who are not in crisis, \$0.8 million total funds and two limited duration positions (1.76 FTE) are recommended. To address safety and staffing concerns within the SACU program, \$5.7 million General Fund (\$13.4 million total funds) and 127 permanent positions (84.26 FTE) are added to support a float pool to cover staffing gaps and reduce overtime. Crisis and Outreach Teams (COAT) are also established to be first responders to critical incidents.

The Subcommittee's budget adds \$8.5 million General Fund and \$26.7 million total funds to increase I/DD provider (non-bargained employees not including transportation) service rates by 4.0 percent effective January 1, 2016. It also includes \$40,000 General Fund to restore inflation and maintain the Family to Family networks.

Consistent with ORS 427.345, the budget adds \$92,500 General Fund to be paid into the community housing ("Fairview") trust account. This reflects the fair market value of former Eastern Oregon Training Center property that was transferred to the City of Pendleton under Senate Bill 671 (2015). The budget does not make any other adjustments to the trust, leaving the balance of about \$6 million intact.

The budget removes \$3.8 million General Fund related to a now-completed contract with Umatilla County for transitional services for Community Developmental Disability Programs. Finally, the budget assumes \$900,000 General Fund savings from an effort to validate the assessment tool the agency uses to determine the level of service needed by developmentally disabled clients.

## Legislatively Approved 2015-2017 Key Performance Measures

**Agency: HUMAN SERVICES, DEPARTMENT of**

Mission: Assisting people to become independent, healthy and safe.

Legislatively Proposed KPMs	Customer Service Category	Agency Request	Most Current Result	Target 2016	Target 2017
1 - OVRS CLOSED - EMPLOYED – The percentage of Office of Vocational Rehabilitation Services (OVRS) consumers with a goal of employment who are employed.		Approved KPM	60.00	66.00	66.00
2 - TANF FAMILY STABILITY – The percentage of children receiving TANF who entered foster care.		Approved KPM	0.68	0.50	0.50
3 - TANF RE-ENTRY - The percentage of Temporary Assistance for Needy Families (TANF) cases who have not returned within 18 months after exit due to employment.		Approved KPM	64.20	65.00	65.00
4 - SNAP (Supplemental Nutrition Assistance Program) UTILIZATION - The ratio of Oregonians served by SNAP to the number of low-income Oregonians.		Approved KPM	96.40	85.00	85.00
5 - SNAP (Supplemental Nutrition Assistance Program) ACCURACY - The percentage of accurate SNAP payments		Approved KPM	95.83	96.60	96.60
6 - ENHANCED CHILD CARE - The percentage of children receiving care from providers who are receiving the enhanced or licensed rate for child care subsidized by DHS		Approved KPM	61.80	65.00	65.00
7 - ABSENCE OF REPEAT MALTREATMENT - The percentage of abused/neglected children who were not subsequently victimized within 6 months of prior victimization.		Approved KPM	95.50	96.00	96.00
8 - TIMELY REUNIFICATION - The percentage of foster children exiting to reunification within 12 months of foster care entry.		Approved KPM	66.00	70.60	75.20
9 - TIMELINESS OF ADOPTION ONCE LEGALLY FREE: Percent of Legally free children adopted in less than 12 months		Approved KPM	42.60	48.20	53.70
10 - LTC NEED PREVENTION - Percentage of seniors (65+) needing publicly-funded long term care services.		Approved KPM	3.13	3.10	3.10

**Agency: HUMAN SERVICES, DEPARTMENT of**

Mission: Assisting people to become independent, healthy and safe.

Legislatively Proposed KPMs	Customer Service Category	Agency Request	Most Current Result	Target 2016	Target 2017
11 - LTC RECIPIENTS LIVING OUTSIDE OF NURSING FACILITIES – The percentage of Oregonians accessing publicly-funded long-term care services who are living outside of nursing facilities.		Approved KPM	85.10	87.00	87.00
12 - DEVELOPMENTAL DISABILITY SUPPORT SERVICES - The percentage of eligible adults who are receiving adult support services within 90 days of request.		Approved KPM	56.00	98.00	98.00
13 - PEOPLE WITH DISABILITIES LIVING AT HOME – The percentage of individuals enrolled in the Intellectual/Developmental disabilities program who are receiving services in their own home.		Approved KPM	54.44	80.00	80.00
14 - SUPPORTED EMPLOYMENT - Increase the number of individuals who receive developmental disability services in supported employment.		Approved KPM	2,472.00		
15 - ABUSE OF PEOPLE WITH DEVELOPMENTAL DISABILITIES - The percentage of people with developmental disabilities experiencing abuse.		Approved KPM	2.47	2.20	2.20
16 - ABUSE OF SENIORS AND PEOPLE WITH DISABILITIES - The percentage of seniors and adults with physical disabilities experiencing abuse.		Approved KPM	0.59	2.20	2.20
17 - CUSTOMER SERVICE - Percentage of customers rating their satisfaction with DHS above average or excellent: overall, timeliness, accuracy, helpfulness, expertise, availability of information.	Accuracy	Approved KPM	57.98	75.00	75.00
17 - CUSTOMER SERVICE - Percentage of customers rating their satisfaction with DHS above average or excellent: overall, timeliness, accuracy, helpfulness, expertise, availability of information.	Availability of Information	Approved KPM	55.88	75.00	75.00
17 - CUSTOMER SERVICE - Percentage of customers rating their satisfaction with DHS above average or excellent: overall, timeliness, accuracy, helpfulness, expertise, availability of information.	Expertise	Approved KPM	56.73	75.00	75.00
17 - CUSTOMER SERVICE - Percentage of customers rating their satisfaction with DHS above average or excellent: overall, timeliness, accuracy, helpfulness, expertise, availability of information.	Helpfulness	Approved KPM	84.00	75.00	75.00
17 - CUSTOMER SERVICE - Percentage of customers rating their satisfaction with DHS above average or excellent: overall, timeliness, accuracy, helpfulness, expertise, availability of information.	Overall	Approved KPM	85.00	75.00	75.00

**Agency: HUMAN SERVICES, DEPARTMENT of**

Mission: Assisting people to become independent, healthy and safe.

Legislatively Proposed KPMs	Customer Service Category	Agency Request	Most Current Result	Target 2016	Target 2017
17 - CUSTOMER SERVICE - Percentage of customers rating their satisfaction with DHS above average or excellent: overall, timeliness, accuracy, helpfulness, expertise, availability of information.	Timeliness	Approved KPM	76.00	75.00	75.00
18 - PLACEHOLDER: SERVICE EQUITY		Approved KPM			
19 - CHILDREN SERVED BY CHILD WELFARE RESIDING IN PARENTAL HOME: The percent of children served in Child Welfare on an average daily basis (In Home and Foster Care) who were served while residing in their parent's home.		Approved KPM	24.40	30.00	33.00
20 - TANF JOBS PLACEMENTS: The percentage of clients who achieve job placement each month compared to those anticipated to achieve placement.		Approved KPM	113.00	100.00	100.00
8 - TIMELINESS AND PERMANENCY OF REUNIFICATION OF CHILDREN		Legislative Delete	144.70	90.00	
9 - TIMELINESS OF FOSTER CARE RELATED ADOPTIONS		Legislative Delete	88.00	31.20	
13 - PEOPLE WITH DISABILITIES IN COMMUNITY SETTINGS – The percentage of individuals with developmental disabilities who live in community settings of five or fewer.		Legislative Delete	98.90	80.00	

**LFO Recommendation:**

Approve KPMs #1, 3, 4, 5, 6, 7, 10, 11, 12, 15, and 17 with targets as shown. Approve delete/new (replacement) requests for current KPMs #2, 8, 9, 13, 14, and 16 with targets as displayed (targets for #14 are intended to be blank, as they are under development). Approve brand new KPMs #19 and 20, with targets as shown. Also, please note that KPM #18 is being continued as a placeholder for developing a measure to assess the agency's ability to reduce disparities in client outcomes. Direct the Department of Human Services, as the agency works to align KPMs with its performance-based management system for the 2017-19 budget cycle, to further refine the consistency of measurement components, displays, and comparisons.

**Sub-Committee Action:**

The Subcommittee approved the LFO recommendation on key performance measures.

BUDGET REPORT AND MEASURE SUMMARY

CARRIER: Sen. Burdick

**Joint Committee On Ways and Means**

---

**Action:** Do Pass The A-Eng Bill.

**Action Date:** 07/03/15

**Vote:**

**Senate**

**Yeas:** 11 - Burdick, Devlin, Girod, Hansell, Johnson, Monroe, Roblan, Shields, Steiner Hayward, Whitsett, Winters

**Nays:** 1 - Thomsen

**House**

**Yeas:** 11 - Buckley, Gomberg, Huffman, Komp, McLane, Nathanson, Rayfield, Read, Smith, Whitsett, Williamson

**Nays:** 1 - Whisnant

**Prepared By:** Michelle Deister, Legislative Fiscal Office

**Reviewed By:** Linda Ames, Legislative Fiscal Office

### **Summary of Revenue Changes**

The Oregon Health Authority anticipates revenues from licensing fees on medical marijuana growers and processors to be approximately \$4 to \$5 million during the 2015-17 biennium.

The Department of Revenue's expenses are funded from gross marijuana tax proceeds received by the Department with the remainder to be deposited into the Oregon Marijuana Account as directed under House Bill 2041. There is no statutory cap on the level of administrative and enforcement expense that the Department may retain.

Revenue to support OLCC regulatory functions will be recovered from licensees after startup costs borrowed from the liquor fund are fully repaid with Marijuana Tax proceeds. The recommended budget anticipates an estimated average license fee of between \$4,000-\$4,500 on recreational marijuana licensees, which include growers, wholesalers, processors, and retailers. In addition, marijuana handlers will pay a license fee to cover costs of an education program and background check; this construct is similar to what is required of liquor servers. Licenses are on an annual basis, and revenue is estimated to begin to materialize in April of 2016.

### **Summary of Capital Construction Subcommittee Action**

This budget bill includes Other Funds expenditure limitation necessary for a number of agencies to implement House Bill 3400, House Bill 2041, Senate Bill 460 and Senate Bill 844, all related to marijuana programs. The affected agencies include the Oregon Liquor Control Commission,

Oregon Health Authority, Department of Human Services, Department of Revenue, and Department of Agriculture. The Subcommittee approved a total of \$17.5 million Other Funds expenditure limitation across the five agencies, and approved 77 positions (54.90 FTE). Specific agency details are described below.

#### Oregon Liquor Control Commission

A total of \$1,339,610 Other Funds expenditure limitation for Measure 91 start-up costs in the current biennium were approved by the December 2014 Emergency Board (\$583,000 and 4 positions) and via approval of Senate Bill 5543 the 2013-15 budget reconciliation bill passed in March of 2015 (\$756,610 and three positions), respectively. The budget approved by the Subcommittee for the Oregon Liquor Control Commission (OLCC) assumes continuation of these 7 positions, as well as phased-in costs related to inspectors, accountants, administrative assistants, and services and supplies costs.

The approved budget for the 2015-17 biennium is \$3.8 million Other Funds for personal services, \$4.5 million Other Funds for services and supplies and 30 positions (24.91 FTE). Personnel carried forward from 13-15 include the program manager, three operations and policy specialists, a compliance specialist, administrative support, and a public affairs specialist. This was augmented with the following:

- Eleven regulatory specialists (inspectors – four of which are limited duration) to be phased in as licensing infrastructure comes on line;
- A phased-in compliance specialist, responsible for handling appeals on license denials and violations, also limited duration;
- A Compliance Specialist to manage product labeling standards and testing lab certification;
- Four accounting staff, also phased in, and responsible for the following:
  - Insurance bonding requirements of those liable for tax payments – though OLCC isn't responsible for collecting the tax, bonding responsibilities still fall to OLCC under HB 3400;
  - Auditing functions related to traceability system related to agency compliance efforts
  - Licensing fee payment and administration of the Marijuana Control and Regulation Fund
  - Support to the Department of Revenue providing traceability system information to support marijuana tax collection accuracy.
- Three administrative support personnel, responsible for licensing services, hearings and violations;
- A limited duration human resources analyst;
- A limited duration compliance specialist related to manage appeals related to licensing denials and violations; and
- A procurement and contract specialist for the additional services and supplies that will be required by the agency's additional employees.

One-time services and supplies costs included in the recommended budget are:

- Development, procurement and management of the agency's traceability system amounting to \$1.9 million;
- Office set up for new employees;
- Purchase of vehicles for additional enforcement staff and inspections;
- Repayment of start-up costs incurred in the 2013-15 biennium; and
- Consulting costs related to expertise in product labeling, impairment, and other specialty information needs.

Ongoing costs include OLCC administrative overhead, IT systems maintenance and licensing, Department of Justice costs, state government service charges, and additional expenses in telecommunications, travel, and employee training due to the number of new staff.

It should be noted that the number of licensees may be influenced by licensing fee amounts levied; in turn, the total number of licensees will influence the fee amount (e.g. the more licensees over which to spread costs, the lower the individual fees). The recommended budget for OLCC assumes 749 licenses, not including marijuana handlers, and is anticipated to result in an estimated average fee of approximately \$4,500.

The following budget note is recommended:

**Budget Note**

When setting fees for the recreational marijuana program, the Oregon Liquor Control Commission shall consider the following:

- Fees charged should provide for sustainable operations in the 2017-19 biennium and beyond;
- Fees charged should consider the relative size and scale of operation for all classes of licenses (growers, processors, wholesalers and retailers); and
- Fees charged to licensees should not be lower than those charged by the Oregon Health Authority for equivalent medical marijuana license classes.

The Oregon Liquor Control Commission shall report quarterly to the Legislative Fiscal Office on the number of license applications, the number of licenses approved, fee amounts received, marijuana program expenditures, and progress on implementing technology initiatives associated with the recreational marijuana program.

**Oregon Health Authority**

The Subcommittee approved a budget for the Oregon Health Authority (OHA) medical marijuana program that includes \$5.8 million Other Funds expenditure limitation and 25 positions (19.58 FTE) that will be paid using fee revenues generated by licensing growers, processors, and dispensaries. A portion of the expenditures (\$1.3 million) will be passed through to Shared Services in both OHA and the Department of Human Services to support positions in the Office of Information Services and the Background Check Unit (15 positions and 6.26 FTE).

Staffing is included to do inspections and enforcement related to grow sites, processors, and dispensaries, including work related to the early start of retail sales in dispensaries. Fourteen full-time Compliance Specialists positions (11.17 FTE) are included to do this work. The three positions related to the early start of retail sales in dispensaries are limited duration.

The approved budget includes staff to manage the program, including policy, rule-making, communication and education. Other staff will ensure the accountability of tracking and product reporting, including the monitoring and tracking of necessary fiscal and auditing functions, as well as conduct data analysis and process improvement. The budget includes 10 full-time permanent positions (8.19 FTE) for these functions. One additional limited duration position (0.22 FTE) is included to staff the Task Force on Medical and Public Health Research of Cannabis, as required in Senate Bill 844. The agency has made their best estimate of specific position classifications needed for the various functions. However, as they implement the program they may find that they need a somewhat different mix of classifications.

OHA anticipates using the OLCC tracking system, rather than building their own. The agency expects to pay OLCC roughly \$300,000 for the use of the system during the 2015-17 biennium, although this estimate is preliminary. Other costs include system work related to reporting, as well as the development of a licensing system to handle growers, processors and dispensaries. A total of 12 positions (3.67 FTE) in the Office of Information Services and \$0.9 million Other Funds expenditure limitation will be needed during the 2015-17 biennium. Only four positions will continue into the 2017-19 biennium. It should be noted that discussions between OHA and OLCC regarding the use of the tracking system are at a very preliminary stage. At this point OHA is hopeful that this arrangement will work, but it is possible that additional constraints may be identified at a later date.

The budget includes \$0.4 million Other Funds and three positions (2.59 FTE) in the Department of Human Services Shared Services, to conduct background checks.

The agency expects to use a portion of the current ending balances for the existing medical marijuana program and dispensary program, in order to start work on implementing these new responsibilities before fee revenues are received. The agency expects to report back to the Joint Committee on Ways and Means during the 2016 legislative session on program implementation, including expenditures and fee levels, and the program budget can be adjusted as needed at that time.

#### Department of Human Services

The approved budget includes \$0.4 million Other Funds and three positions (2.59 FTE) in the Department of Human Services Shared Services, to conduct background checks. This will be paid by the Oregon Health Authority.

#### Department of Revenue

The Subcommittee approved a \$1,864,453 Other Funds expenditure limitation increase and the establishment of the following permanent full-time positions: one Operations and Policy Analyst 2 (0.83 FTE) and one Operations and Policy Analyst 3 (0.83 FTE) for program development; one Economist 3 for data analysis (0.25 FTE); one Accountant 3 for revenue receipts and distributions (0.19 FTE); and one Administrative Specialist 2 for tax return processing (0.67 FTE). One limited duration Public Affairs Specialist 2 position for education and outreach (0.38 FTE) was also established. Personal service costs total \$511,214 with associated services and supplies of \$232,993 and capital outlay of \$20,246. The 2017-19 roll-up costs total \$1,153,321 Other Funds and include five positions (3.75 FTE).

Additionally, \$1.1 million of Other Funds expenditure limitation was established for adding point-of-sale functionality to the Department's ongoing Core Systems Replacement project (CSR), which is a commercial-off-the-shelf product. This is a one-time expenditure for a vendor payment that is to be phased-out of the agency 2017-19 biennial budget. This is funding in addition to, and to be tracked separate from, the Article XI-Q bond funding for the CSR project, which is the primary source of funding for all four phases of the project.

Ongoing contracted vendor operations and maintenance cost is estimated to be \$100,000 for the 2015-17 biennium and \$200,000 for the 2017-19 biennium. Additionally, the CSR point-of-sale functionality may require contract changes and additional costs for project management, organizational change management, and independent quality assurance services. Such costs may need to be part of a separate budget request, once final costs are determined.

The Department of Administrative Services is requested to unschedule \$1.1 million of expenditure limitation related to the CSR project that may only be scheduled upon the joint approval of the Office of the State Chief Information Officer and the Legislative Fiscal Office, after a more detailed evaluation of the information technology implementation plan for this project enhancement.

The CSR point-of-sale functionality would be implemented by January 1, 2017, as part of the project's Phase-III roll-out. Even though the bill specifies that the tax is effective January 2016 for retail sales, it is assumed that retail sales will not begin until the fourth quarter of 2016, as that is anticipated to be when legal marijuana would likely first be available for sale at licensed retail establishments. The Department will begin processing tax returns from medical dispensaries one quarter after the October 2015 start date or January 4, 2016. From that date until the January 1, 2017 Core Systems Replacement project implementation, tax returns will be processed manually using legacy information technology applications.

The Department anticipates a high compliance rate by marijuana retailers due to licensure requirements and other regulatory authorities of Oregon Liquor Control Commission; therefore no resources are added for enforcement. Additionally, no new resources were added for revenue collection activities, which the Department states can be absorbed within its current budget.

The agency may require additional Other Funds expenditure limitation in addition to the amount approved by the Subcommittee to process tax payments made in cash. Federal banking restrictions limit the ability of marijuana businesses to obtain bank accounts. Therefore, most, if not all, tax payments under the measure will likely be in the form of cash, which will necessitate changes to the agency cash collection and handling procedures, which could include infrastructure upgrades for building (Salem or satellite office) security. Agency-wide administrative overhead charges were also not included in the Other Funds expenditure limitation approved by the Subcommittee.

#### Department of Agriculture

The Subcommittee approved a \$212,641 Other Funds expenditure limitation increase and the establishment of one Natural Resource Specialist 3 position (1.00 FTE) to serve as the Department of Agriculture's Marijuana Policy Analyst. The position will act as coordinator to work and consult with state agencies and others on marijuana issues as required by marijuana implementing legislation passed this session. \$25,000 Other Funds for Capital Outlay expenditures is added on a one-time basis. The position was added to the Administration Division as it will work on issues that touch all three of the agency's program areas including food safety, weights and measures, pesticides, laboratory testing, nurseries, interaction with other agricultural commodities, as well as market access and development. Revenue for the Other Funds comes through a transfer from the Oregon Liquor Control Commission.

**Revenue Summary**

General Fund supports about 89 percent of the budget for the Long Term Care Ombudsman (LTCO). Most of the remainder is federal Older Americans Act funds received from the Department of Human Services (DHS) as Other Funds. Per Senate Bill 626 (2013), the agency has begun to receive civil penalty revenue from DHS to help cover costs of work under that legislation, which expanded the LTCO’s duties to include advocating for residents of care facilities who have mental illness or developmental disabilities.

**Summary of Human Services Subcommittee Action**

The Office of the Long Term Care Ombudsman (LTCO) is a federally-mandated consumer protection program under the federal Older Americans Act. Its mission is to enhance the quality of life, improve the level of care, protect the individual’s rights, and promote the dignity of each Oregon citizen living in a long term care facility. The LTCO supports a network of certified volunteers to investigate and resolve complaints for those who live in Oregon’s nursing facilities, residential care facilities, assisted living facilities, and adult foster homes. Program duties were recently expanded by Senate Bill 626 (2013) to cover facilities serving individuals who have mental illness or intellectual and developmental disabilities. Under Senate Bill 1553 (2014), the agency became responsible for providing guardian and conservator services for eligible persons without relatives or friends willing or able to serve as guardians or conservators.

The Human Services Subcommittee approved a budget of \$6,806,634 total funds, consisting of \$6,086,984 General Fund, \$719,650 Other Funds, and 25 positions (24.50 FTE). The approved budget is 51.7 percent above the Legislatively Approved Budget due to the expansion of the agency’s

duties during the 2013-15 biennium. Additionally, the Subcommittee approved the reclassification of the agency director position from a Principal Executive Manager E to a Principal Executive Manager F; this change is also the result of expanded scope.

#### Long Term Care Ombudsman - 010

The Subcommittee approved Package 070: Revenue Shortfalls. This package reduces Other Funds revenue and expenditure limitation by \$194,639 to align the budget with projected revenues and results in a loss of 0.34 full-time equivalent position. The agency's Older Americans Act federal dollars passed through DHS have been affected by federal sequestration; funding was already flat and not keeping up with inflation.

The Subcommittee approved Package 101: Restore Position Lost in OF Shortfall. A Program Analyst 2 was reduced from full-time to part-time (0.66 FTE) in Package 070 to balance with projected Older Americans Act revenue. This package restores the position back to 1.00 FTE by adding \$59,325 General Fund.

The Subcommittee approved Package 102: Position 1140009 to 1.0 FTE. This package increases funding for the agency's data (research) analyst position from 0.75 full-time equivalent to 1.00 full-time equivalent by adding \$24,914 General Fund and \$8,306 Other Funds expenditure limitation. The expansion of the agency as a result of the new Residential Facilities Ombudsman program and the Oregon Public Guardian programs is increasing workload for data collection and reporting.

The Subcommittee approved Package 801: LFO Analyst Adjustments. This package includes five adjustments:

- (1) An adjustment to the vacancy savings calculation to reflect the agency's growth in positions and a turnover rate of eight percent each year. The changes for this budget structure are decreases of \$18,322 General Fund and \$3,887 Other Funds.
- (2) To account for funding received under the Senior Medicare Patrol program, an increase in expenditure limitation of \$103,334 Other Funds because federal grant funds are expected to be continued through May 31, 2018. The program educates seniors, their families, and caregivers on health care fraud, error, and abuse. The federal dollars are authorized under the Older Americans Act, with funding passed through DHS and recorded as Other Funds in the LTCO budget.
- (3) The agency has begun to receive civil penalty revenue from DHS to help cover costs of work under SB 626 (2013) that expanded the LTCO's duties to include advocating for residents of care facilities who have mental illness or developmental disabilities. About \$40,000 in Other Funds revenue is projected to be in the 2015-17 beginning balance, with an additional \$90,000 estimated to come in over the course of the biennium. This adjustment uses \$80,000 Other Funds to replace (free up) General Fund in several Services and Supplies accounts. Since this is still a new and relatively untested revenue stream, a balance of the projected revenue is left for potential later use, assuming it estimates are correct.
- (4) Retention of \$40,000 of the General Fund resources made available by the use of civil penalties revenue as a placeholder for information technology (IT) related expenditures. The agency has recently identified two issues in the IT arena: 1) Increasing costs for telecommuting associated with new staff that are regionally located and 2) Loss of a volunteer that was providing IT systems services free of charge. The agency is evaluating both issues to determine the best next steps; one possibility may be to seek an outside assessment of the current state of the agency's IT systems and service options to maintain those systems. Next steps will likely be determined before the end of the session, at which point the placeholder can be reevaluated if necessary.

- (5) A change in the classification of the agency head position from a Principal Executive Manager E (salary range 33X) to a Principal Executive Manager F (salary range 35X). The Department of Administrative Services determined the position should be reclassified to account for the expanded scope and complexity of the ombudsman's duties. As the budgeted rate on the position matches a rate within the salary range of the new classification, no budget adjustment is required.

Public Guardian and Conservator Program - 020

The Subcommittee approved Package 801: LFO Analyst Adjustments. This package makes an adjustment to the vacancy savings calculation to reflect the agency's growth in positions and a turnover rate of eight percent each year. The change for this budget structure is a decrease of \$5,552 General Fund.

### **Bureau of Labor and Industries**

Authorized Positions	0	0	3	3
Full-time Equivalent (FTE) positions	0.00	0.00	2.25	2.25

## **Revenue Summary**

The Bureau of Labor and Industries (BOLI) is authorized to assess civil penalties for violations of sick leave law as contemplated in Senate Bill 454. However, BOLI is not able to predict revenue from penalties at this time due to a lack of long-term history with sick leave ordinances, the discretion of the Commissioner in assessing penalties, and the potential difference between the amounts assessed versus eventually collected.

## **Summary of Human Services Subcommittee Action**

Senate Bill 454 requires most employers having ten or more employees to implement a sick time policy allowing an employee to earn, accrue, donate or use up to 40 hours of paid sick time per year. Most employers who employ fewer than ten employees are required to implement an unpaid sick time policy. Employers located in Portland are required to comply with the same provisions, except they would be required to provide up to 40 hours of paid sick time if they have six or more employees.

This bill appropriates \$1,421,547 General Fund for three agencies: BOLI, the Department of Human Services (DHS), and the Oregon Health Authority (OHA). There is also a Federal Funds expenditure component for DHS and OHA that will be accounted for those agencies' respective budget bills or an omnibus reconciliation bill, if needed.

The State of Oregon employs about 1,675 temporary employees (in various agencies) for three or more months during a biennium, who do not currently receive sick leave. Based on average wages and average hours worked by these employees, the cost to all agencies combined is estimated to be \$1.0 million total funds during the 2015-17 biennium. Those appropriations or expenditure limitations have not been included in this bill. However, as agencies incur these costs they may return to the Emergency Board or a future legislative session to request any associated budget adjustments.

The Subcommittee also discussed potential fiscal impacts to public universities, K-12 schools, and community colleges.

#### Bureau of Labor and Industries

Senate Bill 454 requires subject employers to maintain certain records related to the accrual and use of sick time by employees, and to provide written notice to employees of the requirements of sick time law. BOLI will be responsible for processing and investigating complaints regarding paid sick time provisions and enforcement of the law with employers found to be out of compliance. Utilizing its experience with enforcing the City of Portland's sick time ordinance as a base line, BOLI anticipates an additional 440 complaints, approximately 15.0 percent of which would result in a formal investigation.

The Subcommittee approved \$145,081 General Fund for a Training and Development Specialist 2 limited duration position (0.75 FTE) for the 2015-17 biennium to respond and assist in employer compliance inquiries and efforts. The Department anticipates that many employers will have questions about the new sick leave law, generating inquiries with the Technical Assistance for Employers program at BOLI and requiring revisions to training materials, handbooks, and website information.

The Subcommittee approved \$125,005 General Fund for one permanent full-time Civil Rights Field Representative 2 position (0.75 FTE) for additional anticipated workload related to complaints and investigations. Finally, \$132,793 General Fund was approved for one permanent full-time Compliance Specialist 2 position (0.75 FTE) in the Wage and Hour Division for related investigations.

These three positions result in a \$402,879 General Fund appropriation (\$337,030 Personal Services; \$65,849 Services and Supplies).

#### Department of Human Services and Oregon Health Authority

Home care workers and personal support workers, through the Department of Human Services (DHS) and Oregon Health Authority (OHA), currently accrue up to 32 hours of paid time off annually. The bill would increase allowable paid time off by up to 8 hours per employee, for a maximum accrual of 40 hours of paid time off a year. The Home Care Commission is directed to establish a paid sick time policy which is anticipated to distinguish how paid sick time, vacation time and other forms of paid time off will be accommodated. The cost to DHS for these home care workers and personal support workers is estimated to be \$1.0 million General Fund and \$2.3 million Federal Funds in the 2015-17 biennium. The corresponding cost to OHA is only \$3,094 General Fund and \$5,550 Federal Funds. The General Fund appropriations are included in this bill, with the Federal Funds expenditure limitation for each agency to be addressed in other budget bills, if needed.

Local providers that contract with DHS and OHA may incur additional costs associated with this bill, which may result in price increases with the state's contracts for programs, including the Oregon Developmental Disabilities Services and the Aging and People with Disabilities programs. The rates the state pays providers are based on a client's needs using various assessment tools. Some rates include an allowance for personal time off and/or other administrative costs. Some rates, such as nursing facility rates use cost-based reimbursement and rates are set prospectively using retrospective costs. Some employees in nursing facilities are now covered by a union and some home-like settings may have fewer than ten employees (or six employees in Portland), so these employees would be excluded as this bill is written. However some other providers will be affected by the bill and may ask for payment increases in their contracts. The noted uncertainty surrounding this measure's impact to local provider contracts suggests that DHS and/or OHA may need to return to the Emergency Board if budgeted resources prove insufficient to cover the actual costs of these contracts.

**Revenue Summary**

House Bill 3503 appropriates \$1,895,450 General Fund to the Department of Corrections and \$104,550 General Fund to the Department of Human Services to carry out the provisions of the bill.

**Summary of Public Safety Subcommittee Action**

House Bill 3503 directs the Department of Corrections (DOC) to establish a Family Sentencing Alternative Pilot Program in partnership with circuit courts, participating county community corrections agencies, and the Department of Human Services (DHS). It specifies the requirements of defendants entering the program. It authorizes the court to sentence a defendant to probation with mandatory participation in the program for

the first 12 months of probation and allows additional conditions as part of the sentence. It requires DHS and community corrections agencies to cooperate with DOC in implementing the program. The participating counties are Deschutes, Jackson, Marion, Multnomah, and Washington.

The measure requires DHS and DOC jointly to submit a report on the program to interim committees of the Legislative Assembly no later than January 1, 2017. The pilot sunsets in 2025.

#### Department of Corrections

The Subcommittee recommended appropriating \$1,895,450 General Fund to the Department of Corrections' Community Corrections program to establish the Family Sentencing Alternative Pilot Program. The appropriation will fund probation officers in community corrections agencies participating in the pilot program as well as services to defendants in the pilot program, for a total of \$1,772,759. The remaining funding supports one permanent full-time Administrative Specialist position (0.79 FTE) in Community Corrections, \$108,624 in Personal Services and \$14,067 for Services and Supplies. The position is responsible for establishing and coordinating the pilot program, and would begin December 1, 2015.

#### Department of Human Services

The Subcommittee recommended appropriating \$104,550 General Fund to the Department of Human Services' Child Welfare program, establishing Federal Funds expenditure limitation of \$44,655 in the same program, and establishing one permanent full-time Operations and Policy Analyst 3 position (0.75 FTE) to coordinate the implementation of the pilot program. The position is established effective January 1, 2016.

## **Position Summary**

Authorized Positions	0	0	0	0	
Full-time Equivalent (FTE) positions	0.00	0.00	0.00	0.00	

## **Revenue Summary**

House Bill 2618 appropriates \$528,450 General Fund and increases Federal Funds expenditure limitation by \$890,218 to provide the Department of Human Services (DHS) with revenue to pay the higher retirement rate associated with police and fire employees for certain employees within the department. Federal revenues are matching funds through Title XIX Medicaid.

## **Summary of Human Services Subcommittee Action**

House Bill 2618 extends Public Employees Retirement System (PERS) police and fire benefits to employees who work in the Stabilization and Crisis Unit (SACU) within DHS. The program consists of twenty-three residential homes serving very vulnerable and behaviorally challenged individuals with intellectual or developmental disabilities.

Employees classified as police and fire under PERS statutes can retire at an earlier age and have a higher benefit factor used in calculating their retirement benefits. This classification affects the age and years of service an employee must work in order to be eligible for retirement. Typically, state employees are eligible for retirement at age 58 (if hired before 1/1/96) or 60 (if hired after 1/1/96). An employee classified as police and fire is eligible for retirement at the age of 55. The police and fire classification also reduces the required amount of service years from 30 to 25.

The Subcommittee approved a \$528,450 General Fund appropriation and increased Federal Funds expenditure limitation by \$890,218 for DHS to provide the resources necessary to pay the higher retirement rate (police and fire instead of general service) that DHS will be charged for the SACU employees who have been reclassified as police and fire employees under this bill.

## Revenue Summary

Senate Bill 774 appropriates \$1,000,000 General Fund to the Department of Human Services (DHS) for the 2015-17 biennium to help the Home Care Commission adopt a statewide plan.

## Summary of Human Services Subcommittee Action

Senate Bill 774 directs the Home Care Commission (HCC) to adopt a statewide plan to address increasing participation in the home care registry, increasing the number of home care workers, continuing creation of a career ladder to help home care workers become more skilled and gain certifications, conducting orientation sessions for home care workers, and developing an outreach and marketing strategy. The bill encourages implementation of a single online application for all home care workers to apply to the registry and assignment of a universal provider number to each home care worker. The bill requires DHS to report, beginning in 2015, to an interim legislative committee by December 1st each year on the status of implementing an online application and assigning unique provider numbers to home care workers. An existing HCC subcommittee is charged with investigating the feasibility and benefits of certifying home care workers, ways to remove barriers to entry in the workforce, strategies for creating a career ladder, and ways to increase the number of home care workers on the registry. The bill requires the HCC to report the findings of this investigation to an interim legislative committee by November 16, 2015.

### Aging and People with Disabilities

The Subcommittee approved the appropriation of \$1,000,000 General Fund to DHS to carry out the provisions of the bill. DHS expects the components of the statewide plan may include workforce development activities, which may include contracts with Workforce Investment Boards and partnerships with community colleges, along with marketing and communications efforts.

				\$ Change	% Change
General Fund Limited	\$ -	\$ -	\$ 175,707	\$ 175,707	0.75%
Total	\$ -	\$ -	\$ 175,707	\$ 175,707	0.75%

## **Position Summary**

Authorized Positions	0	0	1	1
Full-time Equivalent (FTE) positions	0.00	0.00	0.75	0.75

## **Revenue Summary**

A General Fund appropriation in the amount of \$175,707 funds the measure.

## **Summary of Capital Construction Subcommittee Action**

The Subcommittee approved a \$175,707 General Fund appropriation to the Office of the Governor and the establishment of one limited duration Principal Executive Manager F position (0.75 FTE) and associated Services and Supplies to staff the Task Force on Legal Representation in Childhood Dependency. This includes the cost for reimbursement for non-legislative task force members. This is a one-time appropriation that is to be phased-out of the agency 2017-19 biennial budget. The bill has an emergency clause and is effective on passage.

Senate Bill 222 extends the sunset from June 30, 2015 to June 30, 2018 on statutes that temporarily codify current practice authorizing the Department of Human Services (DHS) child welfare case workers to appear in juvenile court dependency proceedings without counsel at hearings required by ORS 419B.305 and proceedings where the district attorney appears on behalf of the state.

If this bill does not become law and the sunset is not extended, the fiscal impact of providing full representation for DHS is projected to be roughly \$7.3 million total funds (\$5.1 million General Fund and \$2.2 Federal Funds) for the 2015-17 biennium. The majority of this amount would be for Department of Justice legal expenses (\$7.2 million). The Public Defense Services Commission could see an increase in costs due to additional issues being presented in court by counsel representing DHS.

Although ORS 9.320 requires state agencies to appear in court proceedings with attorney general counsel, in practice, due to resource constraints, DHS child welfare case workers appear in court without counsel in post-jurisdictional, uncontested hearings. If and when a hearing becomes

contested, the proceeding is set over to allow DHS to appear with counsel. Pre-jurisdictionally, case workers appear without counsel when the state is represented by the district attorney, except in those cases where the position of DHS and the district attorney are not in alignment. During the 2014 Session, this practice was codified until June 30, 2015 [see House Bill 4156 (2014)].

In addition to the extension of the sunset, this measure establishes an 18-member Task Force on Legal Representation in Childhood Dependency. The task force is charged with recommending models to ensure adequate representation for children and parents served by the child welfare system. The task force is required to submit a report to the Legislature by July 15, 2016. The task force sunsets on December 31, 2017.

The fiscal impact of this bill on DHS is estimated to be indeterminate and could be more than minimal depending on how much time agency participants will need to spend on task force activities. As DHS is a key player in the juvenile court proceedings that are the focus of this bill, it is also likely that other agency staff may be asked to help gather and analyze data to provide the task force with necessary decision support materials.

This bill has a minimal fiscal impact on the Public Defense Services Commission, Oregon Judicial Department, and Department of Justice.

**Revenue Summary**

House Bill 2250 appropriates \$144,705 General Fund to the Department of Human Services (DHS) to carry out the provisions of the bill. In addition, DHS will charge fees according to the fee schedule that is currently in place to help cover costs of background and criminal records checks. Also, the bill anticipates \$177,000 Federal Funds from the Centers for Medicare and Medicaid Services National Background Check Grant for the development of a Criminal Records Information Management System accounting module.

**Summary of Capital Construction Subcommittee Action**

House Bill 2250 provides clarification on state electronic fingerprint capture requirements and continues the process of consolidating background and criminal records check rule-making authority in the Department of Administrative Services (DAS) originally started in House Bill 3168 (2013). In addition, the bill shifts some Clearinghouse program activities from the Oregon State Police (OSP) to DHS. OSP will continue to

perform the background check processing, including the FBI portion, while DHS will be responsible for communicating with service providers requesting background checks and determining the fitness of the subject individuals. The fitness determinations will now be handled on a case-by-case basis, consistent with guidance and factors established by DAS through administrative rule.

Oregon State Police – Criminal Justice Information Systems

The Subcommittee approved a decrease of \$90,049 Other Funds expenditure limitation and the elimination of 0.59 FTE to adjust for the shift of the Clearinghouse program activities to DHS.

Department of Human Services – Shared Services and Statewide Assessments and Enterprise-wide Costs

For Shared Services, the Subcommittee approved an increase in Other Funds expenditure limitation of \$117,981 and the establishment of one permanent full-time position (0.80 FTE; phased-in) in the background check unit to carry out the provisions of the bill.

In the Statewide Assessments and Enterprise-wide Costs budget structure, the Subcommittee approved an appropriation of \$144,705 General Fund and increases in expenditure limitation of \$187,768 Other Funds and \$177,000 Federal Funds. Most of the General Fund will support the Shared Services' position and the remainder of the General Fund and Other Funds revenue from background check fees will be used to pay Oregon State Police for background check processing. The Federal Funds will cover costs for the development of a Criminal Records Information Management System accounting module.

## **Summary of Capital Construction Subcommittee Action**

House Bill 5005 limits the maximum amount of bonds and third party financing agreements state agencies may issue and the amount of revenue state agencies may raise from such issuance. The proceeds from the issuance of bonds are included as revenues in agency budgets. This bill also allocates the federal tax-exempt private activity bond volume cap allowed under the Internal Revenue Code of 1986, as amended, to certain state agencies and the Private Activity Bond Committee established in ORS 286A.615.

The Subcommittee reviewed amendments to House Bill 5005 for the following purposes:

- 1) The Subcommittee approved a Higher Education Coordinating Commission (HECC) Article XI-G general obligation bond authorization of \$145,781,600 which approves seven new projects for public universities and reauthorizes eight projects approved during previous legislative sessions for community colleges capital construction financing, including a change in the specified project for Mt. Hood Community College. Projects are described later in this report.
- 2) The Subcommittee approved a reauthorization Article XI-G general obligation bonds for the Oregon Health and Science University (OHSU) Cancer Institute project approved during the 2014 Legislative Session. The authorization in the 2013-15 biennium was for a combination of Article XI-G bonds and lottery revenue bonds. However, the amount of Article XI-G bonds reauthorized for 2015-17 was increased to \$200,035,000 which includes \$198,000,000 in project costs and \$2,035,000 in bond issuance costs, with no lottery revenue bonds authorized for the project. The project involves expansion of the OHSU Knight Cancer Institute including construction of research, clinical, and other related facilities. The bond proceeds will be used to construct a research building on the Schnitzer Campus which will include wet laboratory facilities, bio-computing space, and research support facilities; and for additional floors in the Center for Health and Healing II (CHH II) building already planned for construction for clinical trial space. OHSU will match the Article XI-G bonds with donated funds.
- 3) The Subcommittee approved an Oregon Business Development Department Article XI-M (Seismic Rehabilitation of Public Education Buildings) general obligation bond authority of \$176,870,000 and authority for Article XI-N (Seismic Rehabilitation of Emergency Services Buildings) general obligation bonds of \$30,440,000.
- 4) The Subcommittee provided to the Oregon Department of Education Article XI-P general obligation bond authority of \$126,210,000, which includes \$125,000,000 in net proceeds and \$1,210,000 in bond issuance costs, to fund grants to school districts for capital costs including construction, improvement, remodel, maintenance or repair of facilities, and acquisition of equipment.
- 5) The Subcommittee approved Article XI-Q general obligation bond authority of \$369,640,000 for capital projects owned or operated by the state. A table listing all projects comprising the Article XI-Q authorization is included later in this report.
- 6) The Subcommittee provided to the Oregon Department of Transportation Article XI, Section 7 general obligation bond authority of \$35,475,000 to fund various highway improvement projects throughout the state.

- 7) The Subcommittee approved a \$100,000,000 authorization to the Department of Veterans' Affairs for issuance of Article XI-A general obligation bonds.
- 8) The Subcommittee approved Higher Education Coordinating Commission Article XI-F (1) general obligation bond authorization of \$70,985,000 to provide bond financing for Public Universities' (Portland State University and Oregon State University) self-supporting capital construction projects including \$53,680,000 for one new project, as well as reauthorization of two projects approved during previous legislative sessions. Projects are described later in this report.
- 9) The Subcommittee approved a \$10,000,000 authorization to the Department of Environmental Quality for issuance of Article XI-H general obligation bonds.
- 10) The Subcommittee approved a \$30,520,000 authorization to the Water Resources Department for issuance of Article XI-I (1) general obligation bonds to fund loans for water development projects.
- 11) The Subcommittee approved a Housing and Community Services Department Article XI-I (2) general obligation bond authority of \$25,000,000. In addition, the Subcommittee approved Housing and Community Services Department direct revenue bond authority of \$300,000,000 and pass-through revenue bond authority of \$250,000,000.
- 12) The Subcommittee approved the State Department of Energy's Article XI-J general obligation bond authority of \$25,000,000 and approved its direct revenue bond authority of \$20,000,000.
- 13) The Subcommittee approved Department of Administrative Services Lottery Revenue Bond limit of \$201,795,000. A complete list of lottery revenue bond projects can be found in House Bill 5030.
- 14) The Subcommittee approved an authorization of \$393,160,000 in Department of Transportation Highway User Tax revenue bonds for eligible construction projects.
- 15) The Subcommittee approved an Oregon Business Development Department direct revenue bond authority of \$30,000,000 and pass-through revenue bond authority of \$200,000,000 for Industrial Development bonds and \$10,000,000 for the Beginning and Expanding Farmer Loan Program.
- 16) The Subcommittee approved an Oregon Facilities Authority pass-through revenue bond authority of \$950,000,000.

Detail of projects authorized for the Higher Education Coordinating Commission through bond financing is included below.

## **Higher Education Coordinating Commission**

### HECC - Public Universities

The Subcommittee approved 12 new bond-funded projects for public universities at a total cost of \$298,440,000. Two additional projects approved in the 2013-15 biennium were reauthorized at \$17,305,000. The projects are included in the budget for HECC.

### All Public Universities

The Subcommittee approved the following project for the seven public universities that formerly comprised the Oregon University System (OUS) and adopted a budget note:

- Capital renewal, code compliance, and safety: approved \$65,770,000 Article XI-Q bonds to maintain facilities and keep the deferred maintenance backlogs from growing. These projects do not involve acquisition of buildings, structures, or land. The approved amount includes \$65,000,000 for project costs and \$770,000 for issuance costs. HECC initially will allocate funds to the individual universities based on square footage in education and general services facilities, following past OUS practice. Debt service on the Article XI-Q bonds will be paid with General Fund.

#### **Budget Note:**

The Higher Education Coordinating Commission, in collaboration with the seven public universities and the Department of Administrative Services, shall submit a report by December 31, 2015 to the Legislative Fiscal Office that identifies whether and how revisions in statute and/or administrative rules are needed to better enable universities to use capital repair and renewal funds to implement disability access improvements.

### Eastern Oregon University

The Subcommittee approved the following project:

- Hunt Hall Demolition and Site Renovation: approved \$3,040,000 Article XI-Q bonds to demolish an existing building that has exceeded its useful life. The project also involves upgrades to parking, campus roadways and pathways, compliance with Americans with Disabilities Act accessibility requirements, upgrades to campus communication network distribution, and restoration of historic campus features. The approved amount includes \$2,985,000 for project costs and \$55,000 for cost of issuing the bonds. Debt service on the bonds will be paid with General Fund.

### Oregon Institute of Technology

The Subcommittee approved the following project:

- Center for Excellence in Engineering and Technology, Phase One: approved \$785,000 Article XI-G bonds and \$10,395,000 Article XI-Q bonds for construction of a laboratory and classroom building adjacent to Cornett Hall. The approved amount includes \$10,920,000 for project costs and \$260,000 for costs of issuing the bonds. The university will use funds from campus auxiliaries and a legal settlement for the constitutionally required fifty percent match against the Article XI-G bonds. Debt service on the bonds will be paid with General Fund.

### Oregon State University

The Subcommittee approved the following three projects for a total of \$62,380,000.

- Forest Science Complex: approved \$30,140,000 Article XI-G bonds for renovation of Peavey Hall Classroom Building and construction of a new research facility to house an applied research center in wood products engineering and manufacturing. The approved amount includes \$29,702,970 for project costs and \$437,030 for costs of issuing the bonds. The university will use gift funds for the constitutionally required fifty percent match against the Article XI-G bonds. Debt service on the bonds will be paid with General Fund.
- Marine Studies Campus, Phase One: approved \$25,155,000 Article XI-G bonds to construct a research, classroom, and academic building at the Hatfield Marine Science Center in Newport. The facility constitutes the first phase in an effort to expand the university's marine studies academic and research programs. The approved amount includes \$24,752,475 for project costs and \$402,525 for costs of issuing the bonds. The university will use gift funds for the constitutionally required fifty percent match against the Article XI-G bonds. Debt service on the bonds will be paid with General Fund.
- Modular Data Center: reauthorized \$7,085,000 Article XI-F (1) bonds originally authorized as Article XI-Q bonds in the 2013-15 Legislatively Approved Budget to create small data centers throughout the campus intended to support research, instructional, and administrative activities. The approved amount includes \$7,000,000 for project costs and \$85,000 for costs of issuing the bonds. Debt service on the Article XI-F (1) bonds will be paid by loan repayments made by the university to HECC, which are expected to be supported through the university's tuition revenue.

### Portland State University

The Subcommittee approved the following three projects for a total of \$124,780,000.

- Neuberger Hall Deferred Maintenance and Renovation: approved \$10,220,000 Article XI-G bonds and \$50,660,000 Article XI-Q bonds to completely renovate and upgrade an academic and administration facility built in the 1960s. The approved amount includes \$60,000,000 for project costs and \$880,000 for costs of issuing the bonds. The university will use gift funds and other funds for the constitutionally required fifty percent match against the Article XI-G bonds. Debt service on the bonds will be paid with General Fund.
- Broadway Housing Purchase: approved \$53,680,000 Article XI-F (1) bonds to purchase a ten story housing facility currently owned by the PSU Foundation. The building was constructed in 2003 by a limited liability corporation under contract with the university and financed by

City of Portland economic development revenue bonds. Issuance of State of Oregon general obligation bonds will allow the university to purchase the building from its foundation at a lower interest rate than the foundation is paying on the city bonds. The approved amount includes \$53,000,000 for project costs and \$680,000 for costs of issuing the bonds. Debt service on the Article XI-F (1) bonds will be paid by loan repayments made by the university to HECC, which are expected to be supported through the university's housing and dining fees, retail space rent receipts, and university general fund revenues.

- University Center Land Purchase: reauthorized \$10,220,000 Article XI-F (1) bonds originally authorized in the 2013-15 Legislatively Approved Budget for purchase of land under the university-owned University Center building. The approved amount includes \$10,000,000 for project costs and \$220,000 for costs of issuing the bonds. Debt service on the Article XI-F (1) bonds will be paid by loan repayments made by the university to HECC, which are expected to be supported through the university's savings from lease payments that will no longer be incurred.

#### Southern Oregon University

The Subcommittee approved the following project:

- Britt Hall Renovation: approved \$4,785,000 Article XI-Q bonds for renovation and seismic upgrades to an administration, classroom, and student services building. The approved amount includes \$4,717,500 for project costs and \$67,500 for costs of issuing the bonds. Debt service on the bonds will be paid with General Fund.

#### University of Oregon

The Subcommittee approved the following three projects for a total of \$37,795,000.

- Klamath Hall Renovation: approved \$6,325,000 Article XI-G bonds and \$6,075,000 Article XI-Q bonds to renovate one floor and add an additional floor to an academic and research building to accommodate increased enrollment in chemistry and other sciences. The approved amount includes \$12,250,000 for project costs and \$150,000 for costs of issuing the bonds. The university will use institutional funds for the constitutionally required fifty percent match against the Article XI-G bonds. Debt service on the bonds will be paid with General Fund.
- College and Careers Building: approved \$17,275,000 Article XI-G bonds for construction of a new office and classroom building that will house the College of Arts and Sciences and the Career Center. The approved amount includes \$17,000,000 for project costs and \$275,000 for costs of issuing the bonds. The university will use gift funds, grants, and other funds for the constitutionally required fifty percent match against the Article XI-G bonds. Debt service on the bonds will be paid with General Fund.
- Chapman Hall Renovation: approved \$2,550,000 Article XI-G bonds and \$5,570,000 Article XI-Q bonds to remodel and seismically upgrade Chapman Hall, which houses the university's Honors College. The approved amount includes \$8,000,000 for project costs and \$120,000 for costs of issuing the bonds. The university will use gift funds, grants, and other funds for the constitutionally required fifty percent match against the Article XI-G bonds. Debt service on the bonds will be paid with General Fund.

## Western Oregon University

The Subcommittee approved the following project:

- Natural Sciences Building Renovation: approved \$6,015,000 Article XI-Q bonds to renovate and seismically upgrade the Natural Sciences Building for use by the physical and natural sciences programs following the relocation of chemistry, anatomy, and physiology programs to another building. The approved amount includes \$5,940,000 for project costs and \$75,000 for costs of issuing the bonds. Debt service on the bonds will be paid with General Fund.

## HECC - Community Colleges

The Subcommittee approved one new community college bond-funded project at a cost of \$1,710,000 and reauthorized eight projects originally approved in the 2013-15 biennium at a total cost of \$53,331,600. Expenditure limitation for these projects is included in the budget for HECC. Amounts approved for projects funded with Article XI-G bonds include project and bond issuance costs.

- Linn-Benton Community College Alternative Fuels Center: approved \$1,710,000 lottery-backed bonds for construction of a training and research center focused on transition to a more efficient, lower-cost, and cleaner transportation system. The approved amount includes \$1,500,000 for project costs and \$210,000 for issuance and other costs. Debt service will be paid with Lottery Funds.
- Blue Mountain Community College Animal Science Education Center: reauthorized \$3,331,350 in Article XI-G bonds to construct new facilities for animal science and agriculture programs. The project includes classrooms and office buildings, indoor and outdoor arenas, a hay barn, horse pens, and mare motels, tack storage lockers, and round pens. Match for the Article XI-G bonds will come from a district bond levy approved in May 2015. The approved amount includes project and bond issuance costs.
- Columbia Gorge Community College Advanced Technology Center, Phase Two: reauthorized \$7,320,000 in Article XI-G bonds for construction of a facility on the Hood River campus to support science, technology, engineering, and mathematics programs. Match for the Article XI-G bonds will come from fundraising and proceeds of a possible 2016 district bond levy. The approved amount includes project and bond issuance costs.
- Klamath Community College Student Success and Career-Technical Center: reauthorized \$7,850,000 Article XI-G bonds for construction of a new facility housing a research library and computer labs, a testing center, tutoring and advising areas, and space for GED, Adult Basic Education, and English as a Second Language programs. The project will also expand the Career Technical Education center for auto and diesel mechanics and construction management programs. When originally approved, match for the Article XI-G bonds was anticipated to come from a combination of college reserve funds, foundation and federal grants, and district general obligation bonds. Currently the college is working with its partners to raise funds. The approved amount includes project and bond issuance costs.
- Mt. Hood Community College Technology Innovation Center: reauthorized \$8,000,000 in Article XI-G bonds to replace an aging Industrial Technology facility with space for applied technologies, including automotive, machine tool, and emerging technologies and classroom space. At the request of the college, this project replaces the College Student Services Enhancement project approved in 2013. The college plans a local bond levy in 2016 to provide match for the Article XI-G bonds. The approved amount includes project and bond issuance costs.

- Rogue Community College Health and Science Center: reauthorized \$8,000,000 Article XI-G bonds to increase space for health science programs by constructing new facilities or buying and remodeling existing ones. As reauthorized, the project also allows the college to acquire land for the facility. Match for the Article XI-G bonds is expected to come from partnership contributions, grants, and capital campaign contributions. The approved amount includes project and bond issuance costs.
- Southwestern Oregon Community College Health and Science Technology Building: reauthorized \$8,000,000 Article XI-G bonds for construction of a new facility with laboratory, classroom, and auxiliary space for expansion of allied health and science programs. The facility will support increased use of technology and distance education in health and science programs. Match for the Article XI-G bonds is expected to come from private grants and donations and, if necessary, revenues from a district bond levy. The approved amount includes project and bond issuance costs.
- Treasure Valley Community College Workforce Vocational Center: reauthorized \$2,830,250 Article XI-G bonds for construction of a new facility to expand space for welding training and to house Natural Resource, Renewable Energy, Wild Land Fire, Construction Trades, and Waste Water Management programs. Match for the Article XI-G bonds is expected to come from fund raising or proceeds from district bonds or a district bond levy. The approved amount includes project and bond issuance costs.
- Umpqua Community College Industrial Technology Building: reauthorized \$8,000,000 Article XI-G bonds to construct a new facility on campus for automotive, manufacturing, construction, and welding technology programs. The college had planned to match the Article XI-G bonds with proceeds from a district bond levy which was defeated by the voters in May 2013. Alternatives for generating the match from grants, donations, and other sources are being explored. A 2016 bond levy is under consideration. The approved amount includes project and bond issuance costs.

## **Summary of Revenue Changes**

The General Fund appropriations made in the bill are within resources available as projected in the May 2015 economic and revenue forecast by the Department of Administrative Services, Office of Economic Analysis, supplemented by transfers from various agency accounts to the General Fund for general governmental purposes as authorized in Senate Bill 501, plus other actions to reduce state agency expenditures.

## **Summary of Capital Construction Subcommittee Action**

Senate Bill 5507 appropriates General Fund to the Emergency Board for general purpose and targeted special purpose appropriations, and makes other adjustments to individual agency budgets and position authority as described below.

## Emergency Board

The Emergency Board allocates General Fund and provides Lottery Funds, Other Funds, and Federal Funds expenditure limitation to state agencies for unanticipated needs in approved agency budgets when the Legislature is not in session. The Subcommittee appropriated \$30 million General Fund to the Emergency Board for general purposes.

Senate Bill 5507 makes seven special purpose appropriations to the Emergency Board, totaling \$182.3 million General Fund:

- \$120 million General Fund for state employee compensation changes.
- \$40 million General Fund for the Oregon Health Authority or the Department of Human Services for caseload costs or other budget challenges that the agencies are unable to mitigate. Known potential challenges include costs associated with federal fair labor standards act rule changes affecting home care and personal support workers; these are estimated to be around \$17 million but will depend in part on pending litigation and programmatic changes. Another unknown element is the full impact of second fiscal year costs for nursing facility rates that may fluctuate based on bed reduction targets; \$4.9 million of rate inflation was originally set aside as part of the Governor's budget to stimulate a discussion on aligning nursing facility cost increases with Oregon Health Plan inflation rates.
- \$10.7 million General Fund for allocation to state agencies for compensation changes driven by collective bargaining for workers who are not state employees. Allocations related to child care, adult foster care, homecare, and personal support workers are anticipated.
- \$6.5 million General Fund for Department of Administrative Services to be allocated, if necessary, to fund changes in Department of Administrative Services Enterprise Technology Services (ETS) rates and assessments. A budget note in SB 5502, the budget bill for the Department of Administrative Services, required the State Chief Information Officer to recommend during the 2016 Regular Session a new funding formula for ETS that refocuses charges to state agencies on fees for service and deemphasizes the use of assessments, which fund all positions regardless of reductions in services delivered, demonstrate how reductions in services purchased by state agencies would be reflected in reductions in operating expenses, and include price list adjustments needed for implementation of a new revenue formula at the start of second year of the biennium.
- \$3 million General Fund for Education, early learning through post-secondary.
- \$2 million General Fund for Department of Justice, Defense of Criminal Convictions caseload costs.
- \$100,000 General Fund for Department of Human Services (DHS), to be used – if warranted – for completing provider audits, compliance work, or reporting activities. These potential actions are specifically tied to a budget note providing direction regarding wage increases for direct care workers serving people with intellectual and developmental disabilities. The budget note is included in the DHS section of this budget report.

If these special purpose appropriations are not allocated by the Emergency Board before December 1, 2016, any remaining funds become available to the Emergency Board for general purposes.

## Adjustments to Approved 2015-17 Budgets

### **OMNIBUS ADJUSTMENTS**

Omnibus adjustments reflect budget changes in multiple agencies based on reductions in Department of Administrative Services' assessments and charges for services, Audits Division assessments, Attorney General rates, and debt service. Total savings are \$30.1 million General Fund, \$0.7 million Lottery Funds, \$28.5 million Other Funds, and \$11.1 million Federal Funds.

### **ADMINISTRATION**

#### Department of Administrative Services

The Subcommittee approved a one-time \$951,393 Other Funds expenditure limitation increase and establishment of six limited-duration positions (1.71 FTE) for the Chief Human Resources Office to review the Human Resource Information System project (HRIS). The positions will review and update the preparations in the current project for business processes realignment that will be necessary with the adoption and deployment of any new HR IT system, review and update existing IT modernization plans, and study and improve conversion planning for implementation of HRIS. The Department will report initial findings of this review to the appropriate subcommittees of the Joint Committee on Ways and Means during the 2016 legislative session.

The Subcommittee also approved a \$293,314 Other Funds expenditure limitation increase and the addition of two positions for Shared Financial Services to accommodate service provision for the Department of Geology and Mineral Industries, which will now have financial functions carried out by DAS.

The Subcommittee also approved continuing to give nonlimited authority to DAS to make Other Funds expenditures necessary to disburse general obligation bonds sold during the 2013-15 biennium for the benefit of public universities. Disbursement of future bond sales will be done by the Higher Education Coordinating Commission (HECC), but during the 2013-15 biennium, the Department of Administrative Services (DAS) was given initial authority to disburse these proceeds. As the bond project duties related to issuance of Article XI-F and XI-G general obligation bonds transition from DAS to HECC per House Bill 3199, both agencies were given nonlimited authority to disburse proceeds of bonds issued during 2013-15. The total amount of undisbursed proceeds as of June 30, 2015 from 2013-15 bond sales is \$196,523,642. The initial estimate of the amount of 2013-15 proceeds DAS will disburse in 2015-17 per agreements with public universities is \$145,875,000, with HECC assumed to disburse \$50,648,642. These amounts will likely change once the timing of final transition from DAS to HECC is known.

Senate Bill 5507 includes one-time General Fund appropriations to the Department of Administrative Services for the following purposes:

- \$1,100,000 for disbursement to the National Urban Housing and Economic Community Development Corporation (NUHECDC) for implementation of an affordable homes, skills training, and jobs for unemployed prior-offenders, at-risk youth, and veterans. NUHECDC is directed to provide written status reports to the Department of Administrative Services and the Legislative Fiscal Officer each quarter during the 2015-17 biennium to document progress in meeting the program's objectives of providing affordable housing for low to

moderate income Oregonians; skill training for prior-offenders, at-risk youth, and veterans; and job placement for those with barriers to quality employment.

- \$850,000 for disbursement to the Pine Valley Fire District for a new location and facility to house the Fire Department in the City of Halfway, Oregon.
- \$100,000 for disbursement to the City of Medford to pay for the completion of a feasibility study on development of a conference center in the Medford area. This project could grow beyond a simple conference center and, if feasible, could include sports and recreation components.
- \$90,000 for disbursement to the City of Gold Hill for engineering work needed to construct the Gold Hill Whitewater Park at Ti'lomikh Falls on the Rogue River. The Whitewater Park is being built into the new Gold Hills Parks Master Plan. The goal of the project is to turn Gold Hill into a whitewater destination. The engineering of the whitewater project will be completed in 2015. Permitting and fundraising for construction is expected to take two years. Construction of the whitewater features is expected to take two months. The goal is to finish the park before the 2016 Olympics and to have a local paddler trained at the site competing in the 2020 Olympics.

The Subcommittee added \$15,556,140 Other Funds expenditure limitation for one-time cost of issuance and special payments associated with the disbursement of proceeds from Lottery Bond sales; projects are detailed below and approved in House Bill 5030. Cost of issuance for these projects totals \$456,140. There is no debt service allocated in the 2015-17 biennium, as the bonds will not be sold until the Spring of 2017. Total debt service on all the projects described below is estimated at a total of \$2,919,215 Lottery Funds for the 2017-19 biennium.

- \$750,000 Other Funds for disbursement to Concordia University for the construction of the Faubion prekindergarten through grade eight school.
- \$1,250,000 Other Funds for disbursement to the Elgin Health District for a rural health care clinic.
- \$1,000,000 Other Funds for disbursement to Open Meadow for the construction of a new facility for the Open School in Portland.
- \$1,000,000 Other Funds for disbursement to the Boys and Girls Clubs of Portland Metropolitan Area for a new Boys and Girls Club in Rockwood.
- \$500,000 Other Funds for disbursement to the City of Grants Pass for the Riverside Park renovation project.
- \$1,000,000 Other Funds for disbursement to the Mountain West Career Technical Institute for the Career Technical Education Center in Salem.
- \$2,000,000 Other Funds for disbursement to Wheeler County for the construction of an underground fiber optic telecommunication line from Condon to Fossil.
- \$1,500,000 Other Funds for disbursement to the Port of Umatilla for facilities development at the Eastern Oregon Trade and Event Center in Hermiston.
- \$3,000,000 Other Funds for disbursement to Trillium Family Services for improving and expanding the Children's Farm Home near Corvallis which houses the Secure Adolescent Inpatient Program.
- \$1,600,000 Other Funds for disbursement to the Port of Morrow for development of an Early Childhood Development Center at the workforce training center at the Port of Morrow.

- \$1,500,000 Other Funds for disbursement to the City of Tigard for the Hunziker Development Project.

Senate Bill 5507 includes a one-time \$400,000 General Fund appropriation to the Department of Administrative Services for a community-based organization, the YWCA of Greater Portland, to administer the Family Preservation Program (FPP) at Coffee Creek Correctional Facility. The FPP works with the Department of Corrections (DOC) to serve the best interests of the children of incarcerated parents by increasing therapeutic visitation between children and parents. The YWCA of Greater Portland is expected to provide facilitated case management including:

- Participation of a qualified mental health professional with training and experience with persons who have experienced trauma,
- Parenting skills training, including information on child development and attachment,
- Intensive communication between parents and the guardian or caregiver of the child,
- Facilitation of transportation of program participants to and from the prison,
- Facilitation of lodging to program participants when determined to be appropriate,
- Referrals to home visiting services and attorney services,
- Assistance in navigating state agency processes and nonprofit resources, and
- Reporting to the Legislature on measurable outcomes related to the welfare of the participating children and recidivism of participating incarcerated parents.

While the YWCA of Greater Portland will implement the program, DOC also has a role in the program's success. A budget note is included in the DOC section of this report to clarify the DOC role in administering the Family Preservation Program.

#### Office of the Governor

The Office of the Governor is increased by \$1,332,517 Lottery Funds for the establishment of five regional solutions coordinator (PEM/F) positions (4.92 FTE). Three of these positions were in the Office of the Governor on a limited-duration basis during the 2013-15 biennium. The other two positions were in the Oregon Business Development Department on a limited-duration basis during the 2013-15 biennium.

The Office of the Governor is increased by \$500,000 General Fund for federal programs coordination. The increase includes one PEM/G position (1.00 FTE) for the program, as well as any needed services and supplies. This function had previously been housed in the Oregon Business Development Department.

#### Public Employees Retirement System

The Subcommittee increased the Other Funds expenditure limitation by \$509,960 for the estimated fiscal impacts of House Bill 3495 (\$284,960) and Senate Bill 370 (\$225,000).

The Department of Administrative Services is expected to unschedule \$509,960 of expenditure limitation that may only be scheduled based upon the joint approval of the Office of the State Chief Information Officer and the Legislative Fiscal Office and after a more detailed evaluation of the information technology implementation plans for these two measures.

### Department of Revenue

The Subcommittee approved funding for the second of a four phase project to replace most of the agency's core information technology systems (Core Systems Replacement project). The second phase includes: personal income, transit, self-employment, Senior Property Deferral, and estate and trust tax programs. The scheduled implementation date for this phase is December 1, 2015.

The Subcommittee approved \$25,929,440 of Other Funds expenditure limitation and the establishment of 33 permanent full-time positions (33.00 FTE), which is to be mostly financed with Article XI-Q bonds approved in House Bill 5005 (\$19 million). Project revenues also include an estimated \$6.9 million in bond proceeds that were authorized and issued during the 2013-15 biennium, but remained unexpended.

The Other Funds budget includes: personal services of \$7 million; \$532,500 for facility costs; \$12.6 million for vendor contract payments; \$1.3 million for an independent quality assurance; \$592,900 for project management costs; \$532,500 for change leadership; \$279,000 for hardware and software; and \$3 million for a contingency reserve.

Unless otherwise approved by the Legislature or the Emergency Board, the positions budgeted for the Core Systems Replacement (CSR) project are established as permanent full-time positions under the following conditions: (a) the positions will be abolished on or before the completion of the project; (b) the positions are to remain in the Core System Replacement program (i.e., CSR summary cross reference) and may not be transferred to any other program or used for any other purpose other than the development to the Core System Replacement project; and (c) the positions may not be included in any permanent finance plan action.

The Subcommittee approved \$3,935,414 General Fund for the agency's payments to the Department of Administrative Services for State Data Center charges related to phase-I of the project (\$1.3 million), vendor contract maintenance costs to support the ongoing maintenance of the vendor product after installation (\$2.4 million), and non-bondable expenditures related to phase-II of the project (\$240,000).

The Subcommittee approved \$3,684,413 in additional General Fund Debt Service to support repayment of Article XI-Q General Obligation bond proceeds approved in House Bill 5005.

Other Funds expenditure limitation of \$375,000 is included for the cost of issuance of the bonds.

The Subcommittee adopted the Joint Committee on Ways and Means – Information Technology Subcommittee recommendations for the Core Systems Replacement project:

- Continue to work closely with and regularly report project status to the Office of the State Chief Information Officer and the Legislative Fiscal Office throughout the project's lifecycle.
- Continue to follow the Joint State CIO/LFO Stage Gate Review Process.
- Report back to the Joint Interim Committee on Ways and Means on project status in the Fall of 2015 (on readiness to proceed with the CSR Project's Rollout 2 in December 2015), and to the Joint Committee on Ways and Means during the 2016 legislative session.

- Utilize the Office of the State CIO’s Enterprise Project and Portfolio Management system as it is deployed for all project review, approval, project status, and QA reporting activities throughout the life of the Core Systems Replacement Project, to include information on the new Fraud Analytics and Detection project planning and execution activities funded by package 151.

The Subcommittee also approved funding for the implementation of the Property Valuation System project, which is a commercial-off-the-shelf solution for an integrated appraisal application.

The Subcommittee approved \$1,880,000 of Other Funds expenditure limitation for project costs and the establishment of one permanent full-time position (0.92 FTE), which is to be financed with Article XI-Q bonds approved in House Bill 5005. This includes personal services of \$175,260; \$56,704 for capital outlay; \$1.5 million for vendor contract payments; and \$150,000 for an independent quality assurance.

Other Funds expenditure limitation of \$80,000 is included for the cost of issuance of the bonds.

The Subcommittee approved \$71,843 in General Fund Debt Service to support repayment of Article XI-Q General Obligation bond proceeds approved in House Bill 5005.

The Department of Administrative Services is expected to unschedule \$1.5 million of Other Funds expenditure limitation that may only be scheduled based upon the joint approval of the Office of the State Chief Information Officer, Department of Administrative Services – Chief Financial Office, and the Legislative Fiscal Office.

The Subcommittee adopted the Joint Committee on Ways and Means – Information Technology Subcommittee recommendations for the Property Valuation project:

- Continue to work closely with and regularly report project status to the OSCIO and LFO throughout the lifecycle of the proposed DOR Property Valuation System (PVS) project.
- Follow the Joint State CIO/LFO Stage Gate Review Process.
- Hire/retain or contract for qualified project management services with experience in planning and managing projects of this type, scope, and magnitude.
- Update the Business Case and foundational project management documents as required.
- Work with OSCIO to acquire Independent Quality Management Services as required to conduct an initial risk assessment, perform quality control reviews on the Business Case and foundational project management documents as appropriate, and perform ongoing, independent quality management services as directed by the OSCIO.
- Submit the updated Business Case, project management documents, initial risk assessment, and QC reviews to the OSCIO and LFO for Stage Gate Review.
- Report back to the Legislature on project status during the 2016 legislative session and/or to interim legislative committees as required.
- Utilize the Office of the State CIO’s Enterprise Project and Portfolio Management system as it is deployed for all project review, approval, project status, and closeout reporting activities throughout the life of the DOR PVS project.

### Secretary of State

The Subcommittee approved omnibus budget adjustments that include a \$1,149,279 total reduction in state agency assessments and billings for the Audits Division. Secretary of State revenues after this reduction remain sufficient to fully support the legislatively adopted budget for the Division and the Secretary of State.

### Treasurer of State

The Subcommittee adopted the following budget note related to the intermediate term pool investment program, with the expectation that the State Treasurer also report on what education and training can be provided local governments on the benefits and risks associated with investing in the intermediate term pool. The Subcommittee also expressed an interest in being provided a comprehensive list of state agencies that should be considered candidates for making investments in the existing state intermediate term investment pool:

#### **Budget Note:**

The State Treasurer is requested to report to the interim Joint Committee on Ways and Means during Legislative Days in November 2015 on local and tribal government investment opportunities in the intermediate term pool or other intermediate term pooled investment options offered by the State Treasurer.

The report is to define how, and when, the program will be implemented; how investments will be made, overseen, and administered; the status of development of administrative rules; and how the program compares to the existing state intermediate term investment pool.

The cost of administering the program is to be detailed, including both State Treasury and third party costs, and the basis on which local and tribal governments will be charged.

The agency is to identify the potential level of participation, both immediate and over the long-term, as well as the level of potential investment. The agency is to report on the number of pending and signed investment agreements. The agency is to identify how it will accommodate future demand for program growth as well as any short-term program capacity or resource constraints issues.

## **CONSUMER AND BUSINESS SERVICES**

### Public Utility Commission

House Bill 2599 (2015) relates to termination of electric or natural gas service. It requires utilities that provide electricity or natural gas service to prepare reports on processes the utilities use to not terminate for non-payment utility service to homes during very hot or very cold weather. To ensure legislative review of these reports, the Subcommittee approved the following budget note:

#### **Budget Note:**

The Public Utility Commission is directed to collect reports from the governing boards of all independent utilities in the state on each utility's program to ensure health and safety of vulnerable Oregonians during possible utility shutoffs that might take place during extreme weather situations. The Public Utility Commission will present a summary of the reports to the appropriate committees during the 2016 legislative session.

## ECONOMIC AND COMMUNITY DEVELOPMENT

### Oregon Business Development Department

The Subcommittee increased Oregon Business Development Department expenditures by \$257,767,573, including \$4,089,357 General Fund, \$1,500,000 Lottery Funds, \$227,178,216 Other Funds, and \$25,000,000 Nonlimited Other Funds.

Lottery Funds increases include \$1 million to supplement funding for the Regional Accelerator Innovation Network, and \$500,000 for transfer to the Oregon Growth Fund managed by the Oregon Growth Board. The additional funds for the Regional Accelerator Innovation Network bring total Lottery Funds support for the Network to \$2 million. Lottery Funds expenditures approved in this bill for the two programs are approved on a one-biennium basis and will be phased out in the development of the agency's 2017-19 biennium current service level budget.

Other Funds budget adjustments were approved for bond-funded programs approved in Senate Bill 5005 and House Bill 5030. The Other Funds expenditure limitation increases approved include:

- \$175 million of net Article XI-M general obligation bond Other Funds proceeds for seismic rehabilitation grants for schools. The proceeds are projected to finance approximately 115 school seismic rehabilitation projects during the 2015-17 biennium, and represent a more than eleven-fold increase over the \$15 million level of school seismic rehabilitation grant funding provided in the 2013-15 biennium. The Subcommittee also added \$4,089,357 General Fund to pay debt service on the bonds. The debt service funds are projected to allow the State Treasurer to issue \$50 million of net bond proceeds in the Spring of 2016, and the remaining \$125 million of bond proceeds in Spring of 2017. Debt service costs for the school seismic bonds are expected to total \$28.7 million General Fund, per biennium, when the costs fully phase in beginning in the 2017-19 biennium. The Subcommittee added \$1,870,000 Other Funds for the costs of issuing the Article XI-M bonds. These costs are paid from the gross proceeds of the bond sale. The agency may need to add staff to manage grant award activity associated with the Spring 2017 bond sale.
- \$30 million of net Article XI-N general obligation bond Other Funds proceeds for seismic rehabilitation grants for emergency services facilities. The proceeds are projected to finance approximately 50 emergency services facility seismic rehabilitation projects during the 2015-17 biennium, and represent a doubling of the \$15 million level of emergency services facility seismic rehabilitation grant funding provided in the 2013-15 biennium. The bonds will be issued in the Spring of 2017. Debt service costs for the emergency services facility seismic bonds are expected to total \$4.9 million General Fund, per biennium, when the costs fully phase in beginning in the 2017-19 biennium. The Subcommittee added \$440,000 Other Funds for the costs of issuing the Article XI-N bonds. These costs are paid from the gross proceeds of the bond sale.
- \$18 million of net Lottery bond Other Funds proceeds for deposit to the Special Public Works Fund, a revolving loan fund. The \$18 million total includes \$5 million specifically dedicated to finance levee inspection and repair projects as authorized by Senate Bill 306. The remaining \$13 million of bond proceeds may be applied to any eligible Special Public Works Fund projects. The funding designated for levees is projected to support approximately 17 levee projects, and the undesignated funding is projected to support an additional 11 projects. Because the bonds will be issued in the Spring of 2017, most project activity will occur after the end of the current biennium. Debt service costs for the Lottery bonds are expected to total \$3.8 million Lottery Funds, per biennium, when the costs fully phase in beginning in the 2017-19 biennium. The Subcommittee added \$323,147 Other Funds for the costs of issuing the Lottery bonds. These

costs are paid from the gross proceeds of the bond sale. The \$18 million of bond proceed expenditures were added to the agency budget as Nonlimited Other Funds, and as such, are not included in the expenditure limitation increases included in the bill.

- \$7 million of net Lottery bond Other Funds proceeds for deposit to the Brownfields Redevelopment Fund, a revolving loan fund. The funding is projected to support approximately 27 brownfields redevelopment projects. Because the bonds will be issued in the Spring of 2017, most project activity will occur after the end of the current biennium. Debt service costs for the Lottery bonds are expected to total \$1.5 million Lottery Funds, per biennium, when the costs fully phase in beginning in the 2017-19 biennium. The Subcommittee added \$129,239 Other Funds for the costs of issuing the Lottery bonds. These costs are paid from the gross proceeds of the bond sale. The \$7 million of bond proceed expenditures were added to the agency budget as Nonlimited Other Funds, and as such, are not included in the expenditure limitation increases included in the bill.
- \$13 million of net Lottery bond Other Funds proceeds for Regional Solutions capital construction priority projects identified by Regional Solutions Advisory Committees. The funding is projected to support approximately 28 capital construction projects in ten of the state's eleven Regional Solutions regions. The projects are funded with a combination of \$995,000 of Lottery bond proceeds remaining from the Spring 2015 bond sale and \$12,005,000 of new bond proceeds from Lottery bonds that will be issued in the Spring of 2017. Because most of the funding will become available late in the biennium, most project activity will occur after the end of the current biennium. Debt service costs for the Lottery bonds are expected to total \$2.6 million Lottery Funds, per biennium, when the costs fully phase in beginning in the 2017-19 biennium. The Subcommittee added \$243,677 Other Funds for the costs of issuing the Lottery bonds. These costs are paid from the gross proceeds of the bond sale. The Subcommittee approved \$13 million of support to fund projects on the identified Regional Solutions project list that total more than \$14 million in costs. The project list is posted on the Oregon Legislative Information System website with the Capital Construction Subcommittee July 3, 2015 meeting materials. The agency is directed to best apply the available funding toward the project list identified costs, taking into consideration other possible funding sources available for individual projects. If the agency determines that funds would be better utilized to support other projects not on the identified project list, it must obtain legislative approval to do so before the lottery bonds are issued. The agency is also expected to work with the Governor's Office to allow the agency to review proposed Regional Solutions projects to ensure they meet certain criteria, including: supporting job growth and retention, obtaining leverage from other sources, possessing a clear business plan for sustainability without additional state funding, meeting regional priorities recommended by a Regional Solutions Advisory Committee, and, if bond proceeds are requested as the funding source, qualifying as a capital construction project.
- \$4.5 million of net Lottery bond Other Funds proceeds for cultural capital construction projects. The funding is specifically dedicated as follows: \$2 million for the Oregon Shakespeare Festival, \$1.5 million for the Portland Japanese Garden, \$600,000 for Oregon Public Broadcasting, and \$400,000 for the Aurora Colony Museum. The bonds will be issued the Spring of 2017. Debt service costs for the Lottery bonds are expected to total approximately \$956,000 Lottery Funds, per biennium, when the costs fully phase in beginning in the 2017-19 biennium. The Subcommittee added \$68,184 Other Funds for the costs of issuing the Lottery bonds. These costs are paid from the gross proceeds of the bond sale. The \$4,568,184 of bond proceeds and costs of issuance expenditures were added to the agency's Arts and Cultural Trust Other Funds expenditure limitation.

- \$1,562,157 of net Lottery bond Other Funds proceeds for repairs and upgrades to the Port of Brookings Harbor dock. The bonds will be issued in the Spring of 2017. Debt service costs for the Lottery bonds are expected to total approximately \$300,000 Lottery Funds, per biennium, when the costs fully phase in beginning in the 2017-19 biennium. The Subcommittee added \$41,812 Other Funds for the costs of issuing the Lottery bonds. These costs are paid from the gross proceeds of the bond sale. The \$1,603,969 of bond proceeds and costs of issuance expenditures were added to the agency's Infrastructure Finance Authority Other Funds expenditure limitation.

#### Housing and Community Services Department

Other Funds expenditure limitation is increased by \$10 million for additional payments anticipated due to the passage of House Bill 3257, which extended until 2018 the period under which an additional \$5 million annually could be collected from residential electricity consumers for low income bill payment assistance. The funds are collected from utilities, transferred to the Housing and Community Services Department, and distributed to eligible Oregonians by local Community Action agencies under contract.

Other Funds expenditure limitation for the Housing and Community Services Department is increased by \$585,000, attributable to cost of issuance for \$40 million in Article XI-Q bonds issued for affordable housing development. The housing to be developed with the bonds will be targeted to low income individuals and families, pursuant to the provisions of House Bill 2198. That bill directs the Department to distribute the resources available based on criteria including geography, market data, need, and other factors, and directs the Department to develop the housing with the advice of the State Housing Council and to work with stakeholders to achieve objectives that include reducing project costs and reaching underserved communities. It is assumed that the investment will result in an estimated 1,600 units of new affordable housing developed. Expenditure limitation for a period of six years for the project amount (\$40 million) is located in House Bill 5006.

Other Funds expenditure limitation in the amount of \$2,551,972 is included to enable the Housing and Community Services Department to expend proceeds from Lottery bonds for preservation of affordable housing with expiring federal subsidies. Of this amount, \$2.5 million is attributable to project costs, and \$51,972 is related to cost of issuance.

Eligible projects for which these funds can be expended are defined as the following:

- Privately owned multi-family rental properties where at least 25% of the units are subsidized by a project-based rental assistance contract through the USDA Rural Development or the US Department of Housing and Urban Development;
- Existing manufactured housing communities to be acquired by a mission-based non-profit organization, resident cooperative, tenants' association, housing authority, or local government; or
- Public housing projects undergoing a preservation transaction which involves a comprehensive recapitalization, and which will secure ongoing rental subsidies.

Other Funds expenditure limitation in the amount of \$20,307,817 is included to enable the Housing and Community Services Department to expend proceeds from Lottery bonds for the purpose of financing construction of housing for individuals with mental illness or addiction disorders. Of this amount, \$20 million is attributable to project costs, and \$307,817 is related to cost of issuance. This limitation applies to the 2015-17 biennium only, as the project is not anticipated to be recurring. To the extent that proceeds are not fully expended for mental health

housing in 2015-17, the 2017-19 agency request budget should include a request that limitation for remaining proceeds be carried forward into the 2017-19 biennium. The Housing and Community Services Department will develop a process similar to but separate from its existing “Notice of Funds Availability” that is currently used to identify partners and financing for affordable housing projects. The Oregon Health Authority will work with the Housing and Community Services Department (HCSD) throughout the process of utilizing the \$20 million of bonding proceeds for the development of housing for individuals with mental illness or addictions disorders. The Oregon Health Authority will continue to work with their partners, including the National Alliance on Mental Illness (NAMI) and the Oregon Residential Provider Association (ORPA), as well as other stakeholders, to set up a workgroup that will be responsible for providing recommendations on project priorities to HCSD.

#### Department of Veterans’ Affairs

Additional one-time General Fund in the amount of \$500,000 is appropriated to the Oregon Department of Veterans’ Affairs for support for County Veterans’ Service Officers. This is in addition to the \$246,046 General Fund investment above the 2015-17 current service level that was included in the Department’s budget bill, Senate Bill 5539. With this increase, the amount of General Fund directed to County Veterans’ Service Officers for the 2015-17 biennium will total \$4.7 million, \$4.2 million of which is intended to be ongoing in future biennia.

## **EDUCATION**

#### Department of Education

The Subcommittee approved a net increase of \$51,990,543 General Fund and \$66,009,457 million Lottery Funds for the State School Fund. The increase reflects three separate actions:

- An increase of \$105,782,400 General Fund represents the increase due to the “trigger” included in the State School Fund bill (House Bill 5017) which directed to the State School Fund 40 percent of any General Fund increase in the 2015-17 revenue estimates between the March 2015 and the May 2015 forecasts;
- An additional \$12,217,600 General Fund is made available for the State School Fund beyond the amount resulting from the “trigger”; and
- A decrease of \$66,009,457 General Fund and a corresponding \$66,009,457 Lottery Funds increase is recommended to balance the use of available Lottery Funds across the entire state budget.

The Legislature assumes the State Land Board will increase the distribution from the Common School Fund from the current four percent to a five percent distribution which results in an estimated increase of \$27,544,741 of revenue available to districts through the school funding formula. If the State Land Board takes this action, there will be an equivalent of just over \$7.4 billion in combined General Fund, Lottery Funds, and these additional Common School Funds resources for the 2015-17 biennium.

House Bill 5017, the State School Fund bill, split the amount available to be distributed from the State School Fund between the two school years on an even basis or \$3,629,130,346 in each school year. The Subcommittee approved placing all of the additional State School Fund resources made available in this bill to be distributed in 2016-17, the second school year of the biennium. This results in a split between the two school years of 49.2 percent for 2015-16 and 50.8 percent for 2016-17.

The Subcommittee approved a one-time \$3,300,000 General Fund increase in the appropriation for the Department of Education’s nutrition programs relating to the Farm to School program under ORS 336.431. This increase is over and above the current \$1,219,189 General Fund appropriation included in the Department of Education’s budget bill (House Bill 5016) for this program. It is anticipated that grants under this program will be changed by language in Senate Bill 501 that is intended to increase participation in the program by school districts. The Department of Education may use up to two percent of the total funding for the Farm to School program under ORS 336.431 for the administration of the program. Of the remaining amount, the Department is instructed to allocate approximately 80% of the remaining funding for the noncompetitive grants and approximately 20% of the remaining funding for competitive grants.

The Subcommittee increased the funding for Relief Nurseries in the Early Learning Division by a one-time \$700,000 General Fund appropriation. This brings the total amount of state funding for Relief Nurseries to \$8,300,000 General Fund.

The Subcommittee approved a one-time increase of \$500,000 General Fund for the new leadership program designed to recruit and train “district turnaround leaders” to assist schools and districts to increase their overall achievement measures. This increase and the amount included in the budget bill for the Oregon Department of Education (House Bill 5016) brings the total amount of funding for this program to \$2,000,000 General Fund.

The Subcommittee approved the establishment of an Other Funds expenditure limitation of \$126,210,000 for the proceeds of Title XI-P general obligation bonds, which are for grants to assist school districts with their capital costs of facilities. The grant, funded with bond proceeds, provided to each district must be matched by the district to finance capital costs for projects that have received voter approval for locally issued bonds. State bond proceeds may not be used for operating costs of the district. The bonding bill (House Bill 5005) includes the authorization for issuing \$125,000,000 of Title XI-P bonds. Costs of issuance are estimated at \$1,210,000 Other Funds.

**Budget Note:**

The Department of Education is instructed to use \$500,000 General Fund from the Early Intervention/Early Childhood Special Education (EI/ECSE) budget to support two to four communities in developing pathways from screening to services to make it easier for families to receive services that screening identifies. Use of this funding is aligned with best practices for how EI/ECSE programs should address the needs of children and their families who do not meet the legal requirements for eligibility and connect them to other services and supports. The Early Learning Council shall report on the progress and outcomes of this work to the appropriate legislative committee and include any recommendations for the 2017 legislative session.

**Budget Note:**

Given the expanded Healthy Families Oregon home visiting funding added to the Early Learning Division’s budget, the Early Learning Division and the Oregon Health Authority are instructed to:

- Develop a set of outcome metrics connected to evidence of impact for consideration by the Early Learning Council and the Oregon Health Policy Board that any home based service that receives state dollars must meet in order to continue to receive state funds, effective July 1, 2016;
- Develop a plan and timeline for integrating the state’s professional development system for early learning providers with the emerging professional development system for home visitors; and
- Develop a common program agnostic screening tool to identify potential parent/child risk factors and intake form for families who are eligible for home visiting services and require implementation by state funded home visiting programs by July 1, 2016.

The Early Learning Division and the Oregon Health Authority shall report on progress to the appropriate legislative committee.

**Budget Note:**

The Department of Education is instructed to survey school districts on the financial effects of the: (1) adaptation of new instructional hour minimums, (2) mandated full scheduling of 92 percent of students, and (3) projections for programs and personnel possibly eliminated in order to comply with these mandates at current budget levels. The Department is to report back to the Joint Committee on Ways and Means by February 1, 2016.

**Higher Education Coordinating Commission**

The Subcommittee approved a one-time \$1,500,000 General Fund appropriation to fund academic counselors at community colleges during the second academic year of the biennium. Community Colleges currently have limited academic counseling services in place. With the potential of more students as a result of the tuition waiver grant program established in Senate Bill 81, there is concern that those limited resources will be stretched even further. Prior to the distribution of these funds, the Higher Education Coordinating Commission is to report to the Joint Committee on Ways and Means during the 2016 legislative session or to the Emergency Board what factors or variables will determine the distribution of these funds.

The Subcommittee approved the establishment of a \$1,542,827 Other Fund expenditure limitation for a grant to the Linn Benton Community College for the construction and capital expenditures for the Advanced Transportation Technology Center. This Center is established to advance statewide transportation energy policy as well as to provide education and training of students at the Community College. The project is to include an automotive technician training center with an alternative fuel area, a heavy transportation/diesel training center, an innovation center, and an anaerobic digester for renewable gas production. The Other Funds expenditure limitation increase represents the \$1,500,000 state share of the project cost and \$42,827 for the cost of issuing the bonds. Both of these items are funded through the sale of Lottery bonds.

The Subcommittee approved \$2,500,000 General Fund for the College of Forestry at Oregon State University to operate a center for the manufacturing and design of advanced wood products in cooperation with the University of Oregon. The \$2.5 million represents a partial biennium of expenses, and as such, state support for the center rolls up to \$3,400,000 in the 2017-19 biennium. The Subcommittee also approved \$300,000 General Fund on a one-time basis for use by Eastern Oregon University for costs associated with starting a collegiate wrestling program.

The Subcommittee approved a one-time \$350,000 General Fund appropriation to the Higher Education Coordinating Commission (HECC) for a grant to the College Inside program. This is a program designed to allow incarcerated students obtain a two-year college degree that is transferable to a four-year university.

The Subcommittee approved a one-time \$350,000 General Fund appropriation to Higher Education Coordinating Commission (HECC) for a grant to the College Possible organization. This program provides mentoring, coaching, and other assistance to low income students to encourage them to go to college and help them apply for college and financial aid.

The Subcommittee approved a \$62,300 General Fund appropriation for use by Oregon Solutions at Portland State University to pay the expenses of the Task Force on the Willamette Falls Navigation Canal and Locks as they conduct the work directed in SB 131.

The Subcommittee clarified that of the \$151,390,838 General Fund increase approved for the Public University Support Fund program area in House Bill 5024, \$41,095,238 was for continuation of the tuition buy down funding provided to public universities in House Bill 5101 (2013 Special Session).

The Subcommittee approved a \$4,477,055 increase in the Other Funds expenditure limitation for payment of the costs of issuing Article XI-F general obligation bonds, Article XI-G general obligation bonds, and Article XI-Q general obligation bonds on the behalf of community colleges and public universities.

The Subcommittee also approved giving the Higher Education Coordinating Commission (HECC) nonlimited authority to make Other Funds expenditures necessary to disburse general obligation bonds sold during the 2013-15 biennium for the benefit of public universities. Disbursement of future bond sales will be done by HECC, but during the 2013-15 biennium the Department of Administrative Services (DAS) was given initial authority to disburse these proceeds. As the bond project duties related to issuance of Article XI-F and XI-G general obligation bonds transition from DAS to HECC per House Bill 3199, both agencies were given nonlimited authority to disburse proceeds of bonds issued during 2013-15. The total amount of undisbursed proceeds as of June 30, 2015 from 2013-15 bond sales is \$196,523,642. The initial estimate of the amount of 2013-15 proceeds HECC will disburse per agreements with public universities in 2015-17 is \$50,648,642, with DAS disbursing \$145,875,000. These amounts will likely change once the timing of final transition from DAS to HECC is known.

#### Oregon Health & Science University

The Subcommittee approved the establishment of a \$200,035,000 Other Funds expenditure limitation for DAS to disburse Article XI-G bond proceeds to the Oregon Health and Science University (OHSU) to fund Knight Cancer Institute capital construction costs. In addition, the Subcommittee approved an \$8,522,485 General Fund appropriation to pay debt service on XI-G bonds issued during the 2015-17 biennium for the Knight Cancer Institute project.

House Bill 3199 (2015) provided that the Department of Administrative Services (DAS) would continue to make debt service payments on behalf of OHSU on legacy debt issuance, including \$30,909,888 debt service paid with Tobacco Master Settlement Agreement (TMSA) funds. To accommodate this requirement, the Subcommittee approved providing DAS with \$38,689,306 Other Funds expenditure limitation to make debt

service payments. Revenue for making \$7,779,418 debt service payments on non-TMSA supported Article XI-F bond debt will be provided by OHSU.

## **HUMAN SERVICES**

### Department of Human Services

To support two pilot projects in the Child Welfare program, the Subcommittee approved \$800,000 General Fund and increased Federal Funds expenditure limitation by \$160,000; funding is approved on a one-time basis with future program support or integration dependent on resources and pilot outcomes. The following budget note, which lays out the goals and expectations for the pilot projects, was also approved:

#### **Budget Note:**

The Department of Human Services is directed to work with community-based organizations to develop and implement two pilot programs, one serving a rural part of the state and the other one serving an urban area, to improve the quality and effectiveness of foster care for children and wards who have been placed in the Department's legal custody for care, placement, and supervision. The programs shall target youth who have experienced multiple foster care placements and who are at significant risk of suffering lifelong emotional, behavior, developmental, and physical consequences due to disrupted and unsuccessful placements in the foster care system. The following services for foster parents shall be included in the programs: trauma-informed, culturally appropriate care training; behavioral supports; ongoing child development and parent training; 24-hour, daily on-call caregiver support; respite care; tutoring; and assistance with locating immediate and extended healthy, biological family members.

Each pilot program will have an advisory group that includes at least one individual who has experienced multiple placements in the foster care system and at least one foster parent. The legislative expectation is that at least \$800,000 of the total funding for the pilots will be provided directly to community-based organizations to deliver program services. On or before May 1, 2017, the Department shall report to the legislative committees having authority over the subject areas of child welfare and juvenile dependency regarding the status of the pilot programs and, to the extent possible, placement outcomes for children and wards who participated in the pilot program and children and wards not receiving pilot program supports. The Department will also provide an update on the pilot projects as part of its budget presentation during the 2017 legislative session.

To provide and test targeted community college career pathway training opportunities for Temporary Assistance for Needy Families and Employment Related Day Care clients, the Subcommittee approved \$500,000 General Fund for a one-time pilot project in Jackson and Josephine counties. Eligible clients will be in enrolled training programs that match up with in-demand, high wage job openings, such as in the healthcare or information technology areas. Clients will receive a scholarship/stipend to help augment Pell grants, with average awards expected to be about \$2,000 per client; about 150 clients are estimated to participate in the program over the biennium. The pilot project is a joint effort between the Rogue Workforce Partnership, the Oregon Employment Department, and the Department of Human Services.

The Subcommittee approved \$350,000 General Fund to provide transitional (one-time) funding for the Home Care Commission's private pay registry. This program, which enables private payers to buy home care services through the home care registry, was authorized by House Bill 1542 (2014) and is expected to be fee supported once fully up and running in January 2016.

The Subcommittee approved \$1,800,000 General Fund to restore a reduction made in the primary budget bill for the Department (House Bill 5026). The funding will provide ongoing support for options counseling provided through the Aging and Disability Resource Connection (ADRC). The program helps people identify their long term care needs and preferences, understand the service options available to them, and make decisions about their care.

The Subcommittee approved \$400,000 General Fund, on a one-time basis, to increase support funding for the Oregon Hunger Response Fund (Oregon Food Bank); between funding in both the DHS and the Housing and Community Services Department budgets, a total of \$3.2 million General Fund is now appropriated in the 2015-17 biennium to help the fund fight hunger.

The Subcommittee approved \$150,000 General Fund to provide ongoing support for the Hunger Task Force, which is charged with advocating for hungry persons, and contributing to the implementation and operation of activities and programs designed to alleviate or eradicate hunger in Oregon. House Bill 2442 (2015) designates the Department of Human Services as the entity in administering the state policy on hunger and also requires the agency to support and staff the task force, based upon the availability of legislatively approved funding for such purposes.

To cover Phase II development and implementation of a streamlined and integrated Statewide Adult Abuse and Report Writing System, the Subcommittee approved \$2,277,037 General Fund and \$3,355,000 Other Funds expenditure limitation (\$5.6 million total funds). Phase I planning funding was approved by the Emergency Board in May 2014, based upon demonstrated need for a stable, integrated adult abuse data and report writing system to deal with Oregon's growth in an aging population, an annual increase of 5-8% in abuse referrals, and an increased need for services across all demographics. The Other Funds portion of the project will be financed with Article XI-Q bonds; the General Fund amount includes \$839,543 to cover debt service payments in the second year of the biennium.

The Department will continue its work on the project according to direction from the Joint Ways and Means Subcommittee on Information Technology, which recommended incremental and conditional project approval. Required actions under that guidance include, but are not limited to, working closely with and regularly reporting project status to the Office of the State Chief Information Officer (OSCIO) and Legislative Fiscal Office (LFO), while following the joint OSCIO/LFO Stage Gate Review Process. A detailed list of next steps and requirements was transmitted to the agency. The Department of Administrative Services is expected to unschedule the General Fund and Other Funds expenditure limitation for the project pending finalization of a controlled funding release plan that is tied to planning needs and the completion of certain stage gate requirements. Funding may be rescheduled with the joint approval of the OSCIO, the Chief Financial Office, and LFO.

House Bill 5026 included a rate increase for providers serving people with Intellectual and Developmental Disabilities (IDD). To ensure clarity of legislative direction regarding implementation of the rate increase, the Subcommittee adopted the following budget note:

**Budget Note:**

It is the intent of the Legislature that \$26.7 million total funds in provider rate increases approved in House Bill 5026 (budget bill for the Department of Human Services) result in wage increases for direct care staff serving people with intellectual and developmental disabilities (IDD). The legislative expectation is that compensation (wages and/or benefits) for direct care staff in programs serving people with IDD should be increased by at least 4% during the 2015-17 biennium.

During the 2016 legislative session, an informational hearing will be scheduled for IDD community providers to present the actions they have taken or plan to take to meet budget note requirements. On a parallel track and prior to seeking an allocation from the special purpose appropriation, the Department of Human Services will compile information on any complaints received regarding wage increases and consult with legal counsel and contract staff to determine the best, yet most cost-effective, approach to address potential provider non-compliance. The Department will also report to the Joint Committee on Ways and Means during the 2017 legislative session on activity related to and progress made under this budget note.

For the same program, the Subcommittee approved the budget note set out below on exploring a provider assessment component to help fund IDD programs. Along with the required reporting, and depending on assessment's content or results, the Department may also work with the appropriate interim policy committee on potential statutory changes.

**Budget Note:**

The Department of Human Services shall work with the intellectual and developmental disabilities (IDD) provider community and appropriate state and federal agencies to assess the feasibility, potential benefits, and potential drawbacks of a provider assessment, or transient lodging tax, on the provider organizations serving adults with IDD, with the goal of maximizing federal matching funds for IDD services and addressing the direct care workforce shortage. The Department shall report the results of its assessment to the Legislature by December 1, 2015.

**Oregon Health Authority**

Senate Bill 5507 approves \$10,000,000 one-time General Fund resources to provide grants to safety net providers, through the Safety Net Capacity Grant Program. This program will provide grants to community health centers, including Federally Qualified Health Centers and Rural Health Centers, as well as School-Based Health Centers, with the goal of providing services for children not eligible for any current state program. The agency will need to develop an application process for these competitive grants; develop a process to award the grants, including amounts to fund education and outreach to the target population; develop a process for clinics to report services rendered; provide reporting to the Legislature and stakeholders; and include a stakeholder engagement process to advise the program development and implementation. The agency expects to fund two full-time positions out of this total funding, in order to implement the program as described.

Because of the continuing transition of the Oregon Health Plan caseload, the Subcommittee recognized the increased risk of caseload forecast changes. A special purpose appropriation of \$40 million is made to the Emergency Board for caseload costs or other budget challenges in either the Oregon Health Authority (OHA) or Department of Human Services. The Subcommittee included two budget notes related to the Oregon Health Plan:

**Budget Note:**

The Oregon Health Authority shall engage in a rural hospital stakeholder process to gather input on potential transformation strategies to ensure that Oregon's small and rural hospitals continue to be sustainable in the future. Potential transformation strategies could include grant or bridge funding, transformation pilot programs, or incentive programs to assure funding stability for hospitals and access to health care services for rural Oregonians. Based on the work with stakeholders, OHA will develop a set of recommendations.

OHA shall report to the Joint Committee on Ways and Means Committee during the 2016 legislative session on any hospital assessment revenues received for the 2013-15 biennium and available for use in 2015-17. The revenue may include assumed hospital assessment revenue in the OHA 2015-17 budget or any additional hospital assessment revenue not included in the OHA budget, that could potentially be used to fund one or more of the strategies recommended, but not to exceed \$10 million. The agency should include in that report any information on federal matching resources that may be available for those strategies.

**Budget Note:**

The Oregon Health Authority is directed to prepare a report in collaboration with the Employment Department stating the number of Oregonians enrolled in the Oregon Health Plan while employed at least 260 hours in any calendar quarter by a company with 25 or more employees. This report should be presented to the interim Joint Committee on Ways and Means, Subcommittee on Human Services no later than January 2016.

The Subcommittee approved a one-time appropriation of \$160,000 General Fund for OHA to contract with the Dental Lifeline Network, or other qualified organization, for development and operation of a Donated Dental Services program to benefit needy, disabled, aged, and medically compromised individuals. The program will establish a network of volunteer dentists, including dental specialists, to donate dental services to eligible individuals, establish a system to refer eligible individuals to appropriate volunteers, and develop and implement a public awareness campaign to educate individuals about the availability of the program. The program will report to OHA at least annually the number of people served, procedures during the year, procedures completed, and the financial value of the services completed. The funding is part of a commitment to spending on senior programs that originated in the 2013 special session.

The Subcommittee approved \$200,000 General Fund for providing fresh Oregon-grown fruits, vegetables, and cut herbs from farmers' markets and roadside stands to eligible low-income seniors under the Senior Farm Direct Nutrition Program. Another \$100,000 General Fund was added for the same purpose for eligible individuals through the Women, Infants and Children Program. Both these program enhancements are one-time.

General Fund was increased by \$600,000 for school-based health centers. This funding will provide state grants of \$300,000 to three new school-based health centers that recently completed their planning processes. It will also allow the agency to provide \$300,000 of funding to existing school-based health centers to bring all centers closer to parity in state funding.

Other Funds expenditure limitation is increased by \$137,152 to increase the staffing level for the Pesticide Analytical Response Center by one half-time position (0.50 FTE). Funding for the position will come as a special payment from the Department of Agriculture supported by an increase in pesticide product registration fees.

The Subcommittee directed the Oregon Health Authority to collaborate with the Department of Consumer and Business Services and the University of Oregon, in the following budget note:

**Budget Note:**

The Oregon Health Authority, in collaboration with the Department of Consumer and Business Services, shall work with the University of Oregon on the vaccination program for meningitis. The Department of Consumer and Business Services shall ensure timely insurance coverage is covering appropriate costs for those with insurance. The Oregon Health Authority shall, within existing emergency preparedness funds, work with the University of Oregon on funding appropriate costs. The Oregon Health Authority and the University of Oregon shall report to the appropriate legislative committee the final cost of the program including any additional funding needs by December 2015 and any recommendations to ensure effective and efficient response to any future events.

Lottery bond proceeds of \$20 million were approved for the development of housing for individuals with mental illness or addiction disorders, through the Housing and Community Services Department (HCSD). OHA will work with HCSD throughout the process used to identify partners and financing for projects. OHA will continue to work with their partners, including the National Alliance on Mental Illness and the Oregon Residential Provider Association, as well as other stakeholders, to set up a workgroup that will be responsible for providing recommendations on project priorities to HCSD.

Lottery bond proceeds of \$3 million were approved to fund a portion of the costs to build a new sixteen-bed facility for the Secure Adolescent Inpatient Program, run by Trillium Family Services. These funds will be distributed through the Department of Administrative Services. This project will replace old, obsolete facilities at the Children's Farm Home campus near Corvallis. This program serves adolescents at the highest level of mental health acuity in the state, including children on the Oregon Health Plan, and those referred through the Oregon Youth Authority and the Juvenile Psychiatric Security Review Board.

The following budget note was included related to the Addictions and Mental Health programs:

**Budget Note:**

The Oregon Health Authority shall conduct a minimum of five community meetings in a variety of geographic locations across the state. The goal of the community meetings is to capture, understand, and report to the Legislature on the experience of children, adolescents, and adults experiencing mental illness and their ability to access timely and appropriate medical, mental health and human services to support their success in the community. The meetings shall not be restricted to publicly financed services or individuals eligible for public benefits. The focus will be on the entirety of the Oregon mental health system, both public and private. Issues to be considered should include but not be limited to:

- Access to child and adolescent services
- Boarding in hospital emergency rooms
- Access to housing, addiction, and recovery services
- Family support services
- Waiting periods for services

- Workforce capacity
- Affordability for non-covered individuals to access mental health services
- Coordination between behavioral health and physical health services

The Oregon Health Authority shall consult and coordinate with stakeholders to plan and conduct the community meetings. The Oregon Health Authority is expected to report progress and findings to the appropriate legislative committees and the 2016 Legislature.

The Subcommittee included the following direction in regards to fee-for-service (both Medicaid and non-Medicaid) rate increases to addiction treatment providers:

**Budget Note:**

The Oregon Health Authority will use \$3.5 million of the \$6 million included in the new investments for A&D services included in the OHA 2015-17 budget to increase rates to addiction treatment providers. OHA will report the final rate increases to the interim Joint Committee on Ways and Means by November 2015.

**Long Term Care Ombudsman**

The Subcommittee added \$100,000 General Fund on a one-time basis to provide interim support for the agency as it continues to ramp up new programs, including advocacy for residents of independent living sections of Continuing Care Retirement Communities as required under Senate Bill 307 (2015). The agency has also been undergoing a leadership transition and is facing challenges in volunteer recruitment; the additional funding will allow the Long Term Care Ombudsman to contract or to make a short-term hire for program development expertise to focus on these needs over the first year of the biennium.

**JUDICIAL BRANCH**

**Oregon Judicial Department**

The Subcommittee increased Judicial Department expenditures by \$40,955,000, including \$700,000 General Fund, and \$40,255,000 Other Funds.

The Subcommittee appropriated \$100,000 General Fund to increase funding for the Oregon Law Commission. This action raises total General Fund support for the Oregon Law Commission in the 2015-17 biennium budget to \$331,319, a 45.3 percent increase over the 2013-15 biennium funding level. The Subcommittee also added a one-time General Fund appropriation of \$600,000, for support of the Oregon State Bar Legal Services Program (a.k.a., Legal Aid). The General Fund appropriation will supplement the \$11,900,000 of Other Funds support for Legal Aid provided in Senate Bill 5514, and is approximately a 5 percent increase over the base funding level.

The Subcommittee approved Other Funds expenditure limitation increases for county courthouse capital construction projects funded through the Oregon Courthouse Capital Construction and Improvement Fund (OCCCIF). The legislatively adopted budget includes \$27,775,000 of Article XI-Q bond proceeds authorized in House Bill 5005 for the courthouse capital construction projections funded through the OCCCIF. The approved

bond proceeds include \$17.4 million for the Multnomah County Central Courthouse project, \$2.5 million for the Jefferson County Courthouse project, and \$7,875,000 for the Tillamook County Courthouse project.

The Legislature previously authorized Article XI-Q bonds for the Multnomah County and Jefferson County projects in the 2013-15 biennium budget. The Subcommittee increased the OCCCIF Other Funds expenditure limitation by \$39.8 million to allow expenditures of up to \$19.9 million of bond proceeds and of up to \$19.9 million of required county matching funds for these two projects. The Subcommittee did not approve Other Funds expenditure limitation for the Tillamook County Courthouse project. The Judicial Department will report to the Joint Committee on Ways and Means or to the Emergency Board on the Tillamook County Courthouse project, and request Other Funds expenditure limitation for the project, prior to distributing any money from the OCCCIF for the Tillamook County Courthouse project.

The Subcommittee also increased the Judicial Department operations Other Funds expenditure limitation for operations by \$455,000, for the cost of issuance of Article XI-Q bonds for OCCCIF projects.

## **NATURAL RESOURCES**

### Department of Agriculture

The Subcommittee approved a \$25,000 General Fund increase to the Predator Control program, bringing the program total to \$447,718 General Fund, as well as, a \$30,000 General Fund increase to the Wolf Compensation and Grant Assistance program, bringing the program total to \$233,000 General Fund.

The Subcommittee also approved a \$1,747,018 Other Funds expenditure limitation increase to support enhancements to the Pesticides program. The enhancements include the addition of 6 positions (5.26 FTE) to the program. The positions will be made up of four pesticide investigators (NRS 3), one customer service representative (NRS 3), and one case reviewer (NRS 4). The additional investigative staff is needed to manage existing caseload requirements. Other enhancements include laboratory testing and sampling of pesticides, as well as, modification of the existing investigation and case management database. An additional \$108,326 Other Funds was approved to increase the ODA staffing level for the Pesticide Analytical Response Center (PARC) by 0.50 FTE. ODA also increased the existing transfer made to the Oregon Health Authority (OHA) by \$137,152 Other Funds to increase the ODA paid OHA staffing level for the Pesticide Analytical Response Center by 0.50 FTE. Revenue to support these various Other Funds increases will come from increases in pesticide product registration fees approved in House Bill 3459.

### Department of Environmental Quality

The Subcommittee approved \$280,000 General Fund for a Portland Harbor Statewide Coordination policy position. According to the Governor's requested budget, this is a senior-level policy position that will be housed in DEQ, but will report to the Governor's natural resources policy advisor. This Operations and Policy Analyst 4 position will be phased in on January 1, 2016 (0.75 FTE). In addition, \$110,092 Other Funds expenditure limitation and one half-time NRS 3 position (0.50 FTE) was approved for implementation of the residential asbestos inspection program established by Senate Bill 705, which passed earlier this session.

### Department of Fish and Wildlife

The Subcommittee approved allowing the Oregon Department of Fish and Wildlife to retain \$5,000 General Fund savings from Department of Administrative Services' assessment reductions that will be used to pay for the study in Senate Bill 779. This study is to determine whether ORS 497.006 should be amended to allow additional members of the uniformed services to be considered resident persons for the purpose of purchasing licenses, tags, and permits issued by the State Fish and Wildlife Commission.

The Subcommittee approved a one-time General Fund appropriation of \$500,000 to improve and protect sage grouse habitat through actions, such as juniper removal, that improve the resilience of sagebrush habitat to wildfire.

The Subcommittee also approved a \$25,000 General Fund increase in state support for the Predator Control program, bringing the state support total to \$453,365 General Fund.

### Department of Forestry

The Subcommittee approved a one-time appropriation of \$809,377 General Fund to the Fire Protection Division of the Oregon Department of Forestry (ODF) for sage grouse habitat protection and improvement. This amount is in addition to amounts contained in the agency's budget bill for the same purposes. The appropriation includes \$109,377 for a limited-duration, half-time (0.50 FTE) Natural Resource Specialist 1 position and associated services and supplies to provide administrative support and technical training to rangeland protection associations. The appropriation also includes \$700,000 for grants to support rangeland wildfire threat reductions. The grant funding is for eligible services, supplies, and equipment expenditures of rangeland fire protection associations and counties in addressing rangeland wildfire management and suppression on unprotected or under-protected lands. The funding is to be implemented consistent with wildfire-related provisions of Oregon's plan for addressing the conservation of the greater sage grouse and rural community vitality. Oregon will provide the funding to the Oregon Watershed Enhancement Board, which will oversee the grant program in conjunction with other ODF grant programs.

### Department of Land Conservation and Development

The Subcommittee approved the reduction of the General Fund appropriation made to the Department of Land Conservation and Development for the Southern Oregon Regional Pilot Program (SORPP) in the agency's 2013-15 budget (SB 5530, 2013) in the amount of \$194,000 and the re-establishment of that amount as a one-time General Fund appropriation in the 2015-17 biennium. The funding is a portion of the amount established by policy option package 107 in the agency's 2013-15 budget for the purpose of carrying out Executive Order 12-07 that the agency will not expend during the 2013-2015 biennium and that the grant recipient counties have requested to be moved forward to the 2015-17 biennium to allow additional time for the grant-funded work to be completed.

The Subcommittee approved the appropriation of \$300,000 General Fund to establish a SageCon Coordinator, a limited duration Natural Resource Specialist 5 position, to lead staff participating in the SageCon Governance and Implementation Teams. The position will work closely with and take direction primarily from the Governor's Office to provide overall leadership and direction for state agencies working with public and private stakeholder interests in the energy, agricultural, and conservation sectors.

### Department of State Lands

Senate Bill 5507 increases the Federal Funds expenditure limitation in anticipation of an Environmental Protection Agency (EPA) wetlands grant in an amount up to \$133,000. The Department expects notification on the grant in October 2015. The Department of Administrative Services (DAS) is expected to unschedule the limitation until such time as State Lands notifies DAS and the Legislative Fiscal Office that the funds are awarded. There is an additional federal limitation increase for EPA grant carryforward in the amount of \$28,488.

### Parks and Recreation Department

Several adjustments are made in the Parks and Recreation Department (OPRD) budget to reflect the June 2015 Parks and Natural Resources (Measure 76) Lottery Funds forecast, an increase of \$3 million over the March 2015 forecast. The distribution is \$300,000 for property acquisition, \$500,000 for facilities maintenance, \$58,314 for direct services, and \$362,326 to satisfy the constitutionally directed 12% to local governments. The remainder of the increase is applied to the ending balance. There is also an increase in Other Funds of \$98,740 in direct services to keep funding and ending balances in proportion with approximate percentages of lottery and other funds expenditures.

A \$970,000 fund shift from Federal Funds to Lottery Funds reimburses OPRD for using M76 Lottery Funds to secure acquisition of the Beltz Farm in 2014-15. A subsequent federal grant frees up the lottery dollars for carry-forward expenditure limitation in park development. The State Historic Preservation Office is provided an increase in Federal Funds expenditure limitation of \$70,425. The limitation will be used to pass through two federal Maritime Heritage grants that local entities have been awarded.

The 2015-17 OPRD budget included \$912,494 non-Measure 76 lottery funds to provide debt service on the Willamette Falls bonding in the 2013-15 budget. The debt service is eliminated as it is not needed; the \$5 million bond request has been satisfied with cash instead.

Other Funds expenditure limitation is increased by \$11,716,805 for three lottery bond-funded purposes. There is no debt service in the 2015-17 biennium as the bonds will not be sold until the Spring of 2017. Debt service in 2017-19 is \$2.2 million non-Measure 76 Lottery Funds.

The Portland Parks and Recreation Department is to receive \$1,500,000 lottery bond proceeds passed through the Parks and Recreation Department for the Renew Forest Park project. The cost of issuance for this project is \$42,071 Other Funds.

The Main Street Revitalization Grant program is funded with \$2,500,000 lottery bond proceeds. OPRD will design, develop, administer, account for, and monitor the new grant program, beginning late in the 2015-17 biennium. Because new positions will be needed to manage the grants, OPRD will need to request funding for them during the 2016 legislative session. The cost of issuance for this bond sale is \$51,972 Other Funds.

Lottery bond proceeds in the amount of \$7,500,000 will be applied to the Willamette Falls Riverwalk project in Oregon City. The cost of issuance is \$122,761 Other Funds.

### Water Resources Department

The Subcommittee approved the establishment of Other Funds expenditure limitation for the Water Resources Department for the expenditure of lottery bond proceeds as follows:

- \$2,000,000 one-time Other Funds expenditure limitation for the purpose of making grants and paying the cost of direct services for the qualifying costs of planning studies performed to evaluate the feasibility of developing a water conservation, reuse, or storage project, as described in ORS 541.566, and \$47,477 one-time Other Funds expenditure limitation for the payment of bond issuance costs from Lottery bond proceeds from the Water Conservation, Reuse, and Storage Investment Fund established under ORS 541.576. The bonds are anticipated to be issued at the end of the 2015-17 biennium and, therefore, no debt service expenditures are anticipated in the 2015-17 biennium. The cost of debt service for the 2017-19 biennium is estimated to be \$418,891.
- \$750,000 one-time Other Funds expenditure limitation for the expenditure of Lottery bond proceeds for facilitation of the preparation of place-based integrated water resources strategies as described by Section 2(2) of Senate Bill 266 (2015) from the Water Supply Fund established by Chapter 906, Section 10(1), Oregon Laws 2009. The bonds are anticipated to be issued at the end of the 2015-17 biennium and, therefore, no debt service expenditures are anticipated in the 2015-17 biennium. The cost of debt service for the 2017-19 biennium is estimated to be \$156,831
- \$11,000,000 one-time Other Funds expenditure limitation for the purpose of making grants or entering into contracts to facilitate water supply projects in the Umatilla Basin and for the payment of professional services such as third-party contract administration and quality control contracts related to the projects from the Water Supply Fund established by Chapter 906, Section 10(1), Oregon Laws 2009. The bonds are anticipated to be issued at the end of the 2015-17 biennium and, therefore, no debt service expenditures are anticipated in the 2015-17 biennium. The cost of debt service for the 2017-19 biennium is estimated to be \$2.3 million.
- \$1,000,000 one-time Other Funds expenditure limitation for the purpose of making one or more grants to individuals or entities to repair, replace, or remediate water wells in the Mosier Creek area from the from the Water Supply Fund established by Chapter 906, Section 10(1), Oregon Laws 2009. The bonds are anticipated to be issued at the end of the 2015-17 biennium and, therefore, no debt service expenditures are anticipated in the 2015-17 biennium. The cost of debt service for the 2017-19 biennium is estimated to be \$190,071.
- \$280,433 one-time Other Funds expenditure limitation for the payment of bond issuance costs for the three items above from the Water Supply Fund established by Chapter 906, Section 10(1), Oregon Laws 2009. The cost of debt service for the 2017-19 biennium is estimated to be \$2.3 million.
- \$6,362,979 one-time Other Funds expenditure limitation for the purpose of carrying out sections 1 to 15 of Chapter 784, Oregon Laws 2013 and the payment of bond issuance costs from the Water Supply Development Fund established under ORS 541.656. Of the total, \$112,979 is for bond issuance costs.

The Subcommittee approved the establishment of \$30,000,000 one-time Other Funds expenditure limitation for the expenditure of general obligation bond proceeds from bonds issued under of Article XI-I (1) for the purposes provided in ORS 541.700 to 541.855 and for the payment of bond issuance costs from the Water Development Loan Fund.

The Subcommittee approved the establishment of Other Funds expenditure limitation in the amount of \$520,000 for bond issuance costs and \$1,201,865 for debt service payments associated with the issuance of bonds issued under of Article XI-I (1) for the purposes provided in ORS 541.700 to 541.855 from the Water Development Loan Administration and Bond Sinking Fund established under ORS 541.830.

### Oregon Watershed Enhancement Board

The Subcommittee approved a \$200,000 Federal Funds expenditure limitation increase to the Grants program from Pacific Coastal Salmon Recovery Fund (PCSRF) monies to increase the amount of PCSRF funding transferred to the Oregon Department of Fish and Wildlife (ODFW) to a total of \$9,511,859, which is the amount anticipated to be transferred by the Oregon Watershed Enhancement Board to ODFW in Senate Bill 5511, the budget bill for the Oregon Department of Fish and Wildlife. Miscommunication during development of the two agencies' request budgets prevented confirmation of matching amounts.

The Subcommittee also directed the Oregon Watershed Enhancement Board to increase the total amount of Lottery Funds from the Watershed Conservation Grant Fund made for weed grants by \$500,000, on a one-time basis. These additional Grant funds are to be used to improve sage grouse habitat through landowner actions to inventory, treat, and reduce plant invasive species threats to sage grouse habitat and rural economic values and restore native plant habitat. OWEB is directed to work with the Department of Agriculture, local weed boards, and other local delivery mechanisms in getting this additional \$500,000 on the ground improving sage grouse habitat in the shortest time possible.

## **PUBLIC SAFETY**

### Department of Corrections

Article XI-Q bonding in the amount of \$14.2 million is included in House Bill 5005 and capital construction expenditure limitation is approved in House Bill 5006. The bonding covers continued work at the Department's backlog of deferred maintenance. Specifically the funding addresses 25 priority 1, statewide projects. The bonds will be issued in 2017, with debt service beginning in the 2017-19 biennium at \$3.7 million General Fund. This bill includes Other Funds expenditure limitation for cost of issuance in the amount of \$254,568.

Senate Bill 5507 includes a one-time \$400,000 General Fund appropriation to the Department of Administrative Services for a community-based organization, the YWCA of Greater Portland, to administer the Family Preservation Program (FPP) at Coffee Creek Correctional Facility. The program description is in the Department of Administrative Services section of this report.

While the YWCA of Greater Portland will implement the program, the DOC also has a role in the program's success. The following budget note is intended to clarify the DOC role in administering the FPP:

#### **Budget Note:**

The Department of Corrections is directed to work with the YWCA to serve the best interests of the children of incarcerated parents by facilitating enriched visitation, parenting education, and family support. Cooperation will include:

- DOC staff assisting in the referral of high-risk offenders to the program and conferring with the Department of Human Services about referral of possible high-risk children,
- Providing adequate program space for twice-monthly therapeutic, face-to-face parent and child visiting sessions for a minimum of three hours per session,
- Facilitating parent-teacher conferences and parent-caregiver communication and visitation, and
- Providing appropriate outcome data to the YWCA.

### Criminal Justice Commission

The 2015-17 budget for the Criminal Justice Commission is increased by \$5,000,000 General Fund to enhance the \$35 million General Fund provided for Justice Reinvestment Initiative grants in the agency's budget bill, Senate Bill 5506. This appropriation brings the total available for the program in 2015-17 to \$40 million.

### Department of Justice

The Department of Justice generates the majority of its Other Funds revenue from charges to state agencies for legal services. The 2013-15 biennium Attorney General rate was \$159 per hour and generated an estimated \$139.1 million. The 2015-17 Attorney General rate for the legislatively adopted budget is \$175 and is estimated to generate \$153.3 million. This is a \$14.2 million increase (10.2 percent). The change to the Legal Services rate in agency budgets is addressed as part of this measure.

The Subcommittee approved funding for the second "execution phase" (design, construction, testing, and implementation) of the agency's child support information technology replacement project (Child Support Enforcement Automated System, or CSEAS). While the project is still in the latter stages of the initial planning phase, the agency plans to move into the execution phase of the project during the 2015-17 biennium. Application system source code, database design documentation, system documentation, and other necessary artifacts from California, Michigan, and New Jersey will be acquired to facilitate the development of the new system. The project will also begin requirements validation and conduct Joint Application and Joint Technical Design sessions prior to the designing of the new system. The project will then work on the system design and construction of the new system, including data conversion and migration planning, and eventually application testing and implementation.

However, because the agency has not completed all required planning phase activities and documentation, and because it has not received Stage Gate #3 Office of the State Chief Information Officer endorsement of its foundational project management documentation (including a readiness and ability assessment), the execution phase of the project cannot actually begin until the agency first satisfactorily completes all remaining planning phase activities, including the completion of all the Joint Committee on Ways and Means – Information Technology Subcommittee recommendations for the CSEAS project (see below). Until these funding conditions are met, almost all "execution phase" funding will remain unscheduled (see below direction that funds be unscheduled).

The Subcommittee approved \$15,209,670 of Other Funds expenditure limitation for project costs, which is to be financed with Article XI-Q bonds approved in House Bill 5005. The Subcommittee also approved \$29,997,991 Federal Funds expenditure limitation and the establishment of 22 permanent full-time positions (21.13 FTE). This includes personal services of \$3.6 million and services and supplies of \$41.8 million. The amount for services and supplies includes \$35.3 million total funds of contractor payments for: project management, including organization change management services; implementation; independent quality assurance; and independent verification and validation.

Project revenues also include an estimated \$2.9 million in bond proceeds that were authorized and issued during the 2013-15 biennium but remained unexpended. Associated Other Funds expenditure limitation, which was not part of the agency's request, may be requested at a future date.

The Department of Administrative Services is expected to unschedule \$10.7 million of Other Funds expenditure limitation and \$20.8 million Federal Funds expenditure limitation that may be scheduled based upon the joint approval of the Office of the State Chief Information Officer and

the Legislative Fiscal Office. The agency is to submit a report on its compliance, as part of a request to schedule funds, with the Joint Committee on Ways and Means – Information Technology Subcommittee recommendations for the CSEAS project (see below) as well as submit a rebaselined budget for the project.

The Department of Administrative Services is requested to establish a new Summary Cross Reference in the Oregon Budget Information Tracking System for the Child Support Enforcement Automated System program in order to segregate all project costs from the Child Support Division and other Division's operating costs.

Unless otherwise approved by the Legislature or the Emergency Board, the positions budgeted for the project are established as permanent full-time positions under the following conditions: (a) the positions will be abolished on or before the completion of the project; (b) the positions are to remain in the CSEAS program (i.e., CSEAS summary cross reference) and may not be transferred to any other program or used for any other purpose other than the development to the CSEAS project; and (c) the positions may not be included in any permanent finance plan action.

Other Funds expenditure limitation of \$205,330 is included for the cost of issuance of the bonds.

The Subcommittee appropriated \$2,407,587 in additional General Fund Debt Service to support repayment of Article XI-Q General Obligation bond proceeds approved in House Bill 5005.

The Subcommittee adopted the Joint Committee on Ways and Means – Information Technology Subcommittee recommendation for the CSEAS project:

- Work with the Office of the State Chief Information Officer (OSCIO) and LFO to finalize a corresponding incremental funding release plan that is based upon completing all remaining foundational documentation deficiencies and stage gate 2 and 3 requirements.
- Regularly report project status to the OSCIO and LFO throughout the project's lifecycle.
- Continue to follow the Joint State CIO/LFO Stage Gate Review Process.
- Utilize a qualified project manager with experience in planning and managing programs and projects of this type, scope, and magnitude.
- Work with the OSCIO to obtain independent quality management services. The contractor shall conduct an initial risk assessment and respond to DOJ feedback, perform quality control reviews on the key CSEAS Project deliverables including the business case, individual cost benefit/alternatives analysis documents, and foundational project management documents as appropriate, and perform ongoing, independent quality management services as directed by the OSCIO.
- Provide both OSCIO and LFO with copies of all QA vendor deliverables.
- Submit the updated detailed business case, all project management documents, initial risk assessment, and quality control reviews to the OSCIO and LFO for stage gate review.
- Work with OSCIO and LFO to conduct a formal readiness/ability assessment at stage gate 3 to validate readiness and ability to proceed to the execution phase of the project.
- Utilize the Office of the State CIO's Enterprise Project and Portfolio Management (PPM) System as it is deployed for all project review, approval, and project status and QA reporting activities throughout the life of the CSEAS Project. Legislative approval to proceed with the

CSEAS Project will be dependent upon OSCIO and LFO concurrence that DOJ is both ready and able to initiate project execution activities.

The Subcommittee established a \$2 million General Fund special purpose appropriation to the Emergency Board for the Defense of Criminal Convictions as a contingency for potential caseload increases.

The Subcommittee also appropriated \$240,550 General Fund to support the Oregon Crime Victims Law Center. This will bring total funding for the program to \$367,800 for the biennium, including \$77,250 General Fund of existing General Fund and \$50,000 Other Funds from the renewal of a state grant.

#### Oregon Military Department

Senate Bill 5507 includes \$89,563 General Fund and \$358,253 Federal Funds expenditure limitation for three permanent full-time federal operations and maintenance (FOMA) positions (3.00 FTE). These are 3 of 8 positions eliminated from the Portland Air National Guard (PANG) base in 2009 budget cuts, which brought the FOMA workforce to 18, of 26 National Guard authorized positions. In 2013 the Legislature restored the 8 positions as Limited Duration (LD). This funding restores 3 of the LD positions as permanent. The National Guard pays 80% of the cost, General Fund covers the rest. The restored positions will maintain liquid jet fuel receiving, storage, and distribution for all 21 F-15's at PANG; maintain pesticide and herbicide certifications to keep grassy areas in compliance with Port of Portland mandated wildlife standards, which are meant to deter birds from the airfield; and maintain HVAC systems for climate control of critical communications equipment, as well as base fire alarm systems.

Also included is \$250,000 one-time General Fund for the Oregon Military Museum for creation of exhibits and other capital expenditures directly related to the establishment and maintenance of the museum.

Two projects are approved for Article XI-Q bonding (House Bill 5005) and capital construction expenditure limitation (House Bill 5006). The first project is a new Joint Forces Headquarters facility to be located in Salem. Two-thirds of the total bonds will be sold in 2016 and the remainder in 2017. Debt Service in 2015-17 is approved in this bill at \$434,833 General Fund. Second is expansion of the Oregon Youth Challenge Armory in Bend. Those bonds will be issued in 2017, with debt service beginning in the 2017-19 biennium. Cost of issuance is \$153,000 for the two projects; expenditure limitation is included in this bill. Debt service for the two projects in 2017-19 is \$2.3 million General Fund.

#### Department of State Police

The Subcommittee increased the Other Funds expenditure limitation in the Fish and Wildlife Enforcement Division by \$993,640 for capital equipment replacements costs. Expenditure limitation is increased by \$78,830 Other Funds in the Administrative, Agency Support, Criminal Justice Information systems, and Office of the State Fire Marshal Other Funds limitation to pay for costs associated with reclassifying fourteen positions in the Firearms Background Check program to better address complexity and volume of firearm background checks.

Measure 76 Lottery Funds for Fish and Wildlife Enforcement are increased by \$278,788 for fish and wildlife enforcement. Fish and Wildlife troopers are reduced by (0.50) FTE due to the phase-in of one position approved for patrolling the Columbia River late in the 2015-17 biennium.

The Subcommittee approved nine position reclassifications in the Forensic Services division and one position reclassification in the Administrative Services division. These position reclassifications will better address workload issues associated with evidence handling and chain of custody in the laboratories, will properly align workload and responsibilities in the Administrative Services division, and do not require additional expenditure limitation to accomplish.

Federal Funds expenditure limitation is increased by \$1,163 in the administrative services, agency support, criminal justice information services, and the office of the State Fire Marshal to balance expenditures to federal grant revenues.

#### Oregon Youth Authority

Article XI-Q bond issuance totaling \$49 million for the 10-Year Strategic Facilities Plan is approved in House Bill 5005. House Bill 5006 authorizes Other Funds capital construction expenditure limitation in the same amount. \$33 million of the bonds will be sold in 2016 and the rest in 2017. General Fund Debt Service in 2015-17 is \$3,115,428, approved in this bill. Other Funds expenditure limitation in the amount of \$1,055,565 for cost of issuance expense is also included in this bill. Debt Service in 2017-19 will be \$8.6 million.

A \$1 placeholder for Federal Funds Debt Service Nonlimited is added; it was not included in the agency's budget report. The dollar acts as a base in the event the state needed to issue taxable bonds. If such bonds were issued, the federal Build America Bonds program could offset part of the additional associated interest costs.

## **TRANSPORTATION**

#### Department of Aviation

The Subcommittee approved the move of 0.20 FTE from the Operations program to the Search and Rescue program in the Department of Aviation. This shift aligns staff and resources in the Search and Rescue program. Other Funds expenditure limitation is reduced by \$22,537 in the Operations Division and is increased in the Search and Rescue Division in the same amount.

#### Department of Transportation

The Subcommittee approved the increase of \$130,000 General Fund for the Oregon Department of Transportation's Seniors and People with Disabilities Transportation Program; the funding is part of a commitment to spending on senior programs that originated in the 2013 special session. This program distributes funds to counties, transit districts, and tribes that provide transportation services for older adults and people with disabilities.

The Subcommittee approved an increase in Other Funds expenditure limitation in ODOT's Transportation Program Development section of \$45,000,000 in lottery bond proceeds for ConnectOregon VI. In addition, the limitation is increased by \$653,540 for cost of issuance expenses. There is no debt service in the 2015-17 biennium as the bonds will not be sold until the Spring of 2017. Debt service in 2015-17 is \$8,317,100 Lottery Funds.

Other Funds expenditure limitation is increased in the Rail Division by \$10,000,000 for lottery bond proceeds for the Coos Bay Rail line. In addition, the limitation is increased by \$226,194 for cost of issuance expenses. There is no debt service in the 2015-17 biennium as the bonds will not be sold until the Spring of 2017. Debt service in 2017-19 is \$1,865,288 Lottery Funds.

The Subcommittee approved an Other Funds expenditure limitation of \$475,000 for cost of issuance of \$35,000,000 in General Obligation bonds for seven highway safety improvement projects. There is no debt service in the 2015-17 biennium as the bonds will not be sold until the Spring of 2017. Debt service in 2017-19 is \$5,135,799 General Fund.

The measure gives approval to the agency to move four positions (4.00 FTE) from the Information Services Branch to the Procurement Branch within ODOT's Central Services Division to align purchasing functions agency-wide.

### **Adjustments to 2013-15 Budgets**

#### **Oregon Health Authority**

Other Funds expenditure limitation for the Public Employees' Benefit Board for the 2013-15 biennium was increased by \$45 million. This will allow the agency to pay premiums and claims costs for the rest of the biennium.

#### **Department of Land Conservation and Development**

The Subcommittee approved the reduction of the General Fund appropriation made to the Department of Land Conservation and Development for the Southern Oregon Regional Pilot Program (SORPP) in the agency's 2013-15 budget (Senate Bill 5530, 2013) in the amount of \$194,000 and the re-establishment of that amount as a one-time General Fund appropriation in the 2015-17 budget. The funding is a portion of the amount established by policy option package 107 in the agency's 2013-15 budget for the purpose of carrying out Executive Order 12-07 that the agency will not expend during the 2013-15 biennium and that the grant recipient counties have requested to be moved forward to the 2015-17 biennium to allow additional time for the grant-funded work to be completed.

#### **Commission on Judicial Fitness and Disability**

The Subcommittee transferred \$5,000 of General Fund from administration to extraordinary expenses in the 2013-15 biennium budget, to fund costs directly associated with the investigation of complaints and the prosecution of cases.

## **Position Summary**

Authorized Positions	0	3	3
Full-time Equivalent (FTE) positions	0.00	1.50	1.50

\* Excludes Capital Construction expenditures

## **Revenue Summary**

House Bill 4042 appropriates \$1,624,636 General Fund and provides \$65,348 Other Funds expenditure limitation; the Other Funds revenue is tied to the agency's cost allocation process. In future biennia, there will be Other Funds revenue from indirect federal cost recoveries.

## **Summary of Subcommittee Action**

House Bill 4042 requires the Department of Human Services (DHS) to establish a General Assistance (GA) project, beginning July 1, 2016, to serve a maximum of 200 people per month who are enrolled in the medical assistance program, who have disabilities that meet Presumptive Medicaid disability criteria, and who are experiencing homelessness. DHS is also directed to convene an advisory group that includes representatives from nonprofit agencies advocating for and providing services to low income individuals. The Department will work with the advisory group to compile a list of attorneys to help appeal adverse federal disability determinations and to develop metrics for evaluating program success.

The program would provide clients up to \$545 per month for housing, up to \$90 per month for utilities, and \$60 per month for personal incidental funds (PIF). These benefit amounts are based on recommendations from the 2014 Oregon General Assistance Study. Pursuit of Social Security benefits will be a condition of eligibility and clients will be required to sign an Interim Assistance Reimbursement agreement similar to the State Family Pre-SSI/SSDI program before benefits are issued. Housing payments, utility payments, and PIF expenditures would be recovered from clients' Supplemental Security Income (SSI) lump sum payments when and if benefits are awarded; DHS expects about 80% of project participants will be eligible.

### Aging and People with Disabilities

The Subcommittee appropriated \$1,542,919 General Fund for two permanent positions (1.00 FTE) (a Human Services Specialist 1 and an Office Specialist 2) to assist clients in obtaining housing by working with local community action agencies and to assist clients with the Social Security Administration (SSA) application and appeals process. This funding also includes the funding necessary to provide the housing, utility, and PIF payments for the GA recipients.

### DHS Shared Services

For the Office of Financial Services, the Subcommittee approved \$65,348 Other Funds expenditure limitation and one position (0.50 FTE) to provide resources necessary to implement the system through which payments will be processed and tracked in order to recover expenses from the federal government; a permanent Accounting Tech 3 will perform these duties.

### State Assessments and Enterprise-Wide Costs

The Subcommittee appropriated \$81,717 General Fund to this program area for costs associated with the position approved for Shared Services/Office of Financial Services.

## **Revenue Summary**

Senate Bill 1515 appropriates \$369,031 General Fund to the Department of Human Services (DHS) to implement and administer the bill. Federal Medicaid match will cover \$253,564 in DHS expenditures. Some of the DHS budget (mix of General and Federal Funds) will go to pay for legal work; these funds are received and spent by the Department of Justice (DOJ) as Other Funds. The Other Funds expenditure limitation in DHS is associated with the agency's cost allocation process for shared support services.

## **Summary of Subcommittee Action**

Effective July 1, 2016, Senate Bill 1515 tightens mandatory licensing, certification, authorization, regulation and enforcement standards and criteria for Child-Caring Agencies (CCA) to make explicit and strengthen the Department of Human Services' (DHS) oversight of these facilities,

and to increase legislative oversight of DHS regarding these facilities. Currently there are about 200 individual licensed programs and facilities. The bill creates the statutory authority to bring regulatory action on CCAs licensed by DHS. It expands the definition of child to include 18 to 20 year olds and creates a new definition of abuse for a child in care.

The bill also increases the accountability of the department to investigate a wide range of concerns about CCAs and holds the department accountable for the safety, health and wellbeing of children in their programs. Failure to investigate and hold CCAs accountable may provide grounds for official misconduct charges. The bill requires DHS to report to an interim committee by December 1, 2016 on the cost and feasibility of national accreditation and to report and make recommendations by October 1, 2016 on the cost, feasibility and design of a Center of Continuous Improvement for CCAs.

## **Department of Human Services**

### Child Welfare

The Subcommittee appropriated \$140,000 General Fund and added \$140,000 Federal Funds expenditure limitation. These funds will be paid to DOJ to cover legal costs related to contested case hearings, rulemaking, interpreting laws, and legal advice.

### DHS Shared Services

To help resolve incidents or reports related to child-caring agencies, the Subcommittee approved an Other Funds expenditure limitation of \$96,659 for a permanent position (0.50 FTE) within the Office of Adult Abuse Prevention and Investigation. This Investigator 3 position will respond to allegations of abuse, assure appropriate assessments are completed, and communicate with law enforcement and other agencies.

### Statewide Assessments and Enterprise-Wide Costs

The Subcommittee appropriated \$115,121 General Fund to this program area for Statewide Assessments and Enterprise-Wide Costs to support costs associated with the position in Shared Services; since the work is considered protective services, there is no Medicaid match allowed.

### DHS Program Design Services

The Subcommittee approved \$113,910 General Fund and \$113,564 Federal Funds expenditure limitation for two positions (1.00 FTE) to provide the resources for two permanent Compliance Specialist 3 positions in the Office of Licensing and Regulatory Oversight to help implement the bill's provisions around licensing and regulatory actions. The bill specifically requires the agency to maintain a minimum staff of five full-time equivalent employees who are responsible for licensing, inspections, and investigations.

Since this program starts up mid-biennium, the 2017-19 pricing for DHS costs covered in this bill will be higher and are estimated to be about \$1.3 million total funds. The bill requires development of a workload model that may also influence future costs and the types of positions needed to complete the work.

## **Department of Justice**

The Subcommittee approved a \$176,018 Other Funds expenditure limitation increase and the establishment of one permanent full-time Senior Assistant Attorney General position (0.50 FTE) within the Civil Enforcement Division (0.50 FTE). The position will be hired by July 1, 2016. This Division's Child Advocacy Section will bill DHS for actual legal services related to: administrative rule development; litigation of contested case hearings; court litigations; child abuse investigations; foster home certifications; and other related legal advice. The workload and number of cases is indeterminate at this time; however, DOJ estimates one complex case per month, based on recent experience. Additional resources may need to be requested from either the Emergency Board, or the Legislature, if actual cases, or other workload issues, exceed the agency's initial estimate. The 2017-19 cost of the position is estimated to be \$340,035 Other Funds (1.00 FTE).

## **Summary of Revenue Changes**

The General Fund appropriations made in the bill are within resources available as projected in the February 2016 economic and revenue forecast by the Department of administrative Services Office of Economic Analysis.

## **Summary of Capital Construction Subcommittee Action**

Senate Bill 5701 is the omnibus budget reconciliation bill for the 2016 legislative session, implementing the statewide rebalance plan that addresses changes in projected revenues and expenditures since the close of the 2015 session. The Subcommittee approved Senate Bill 5701 with amendments to reflect budget adjustments as described below.

## **Statewide Adjustments**

### **EMPLOYEE COMPENSATION DISTRIBUTION**

The Subcommittee approved allocation of \$120 million General Fund to state agencies for employee compensation. The General Fund appropriation is expected to cover about 93% of the statewide estimate of costs for compensation and benefit changes agreed to through collective bargaining or other salary agreements. Total compensation adjustments include \$120 million General Fund, \$3.2 million Lottery Funds, \$111.7 Other Funds, and \$55.9 million Federal Funds. Lottery Funds, Other Funds, and Federal Funds expenditure limitations are calculated at fully-funded amounts.

### **OTHER STATEWIDE ADJUSTMENTS**

Other statewide adjustments include adjustments for Pension Obligation Bond (POB) payments and fully funding the General Fund need of employee compensation for small agencies. POB adjustments generated a net savings of \$4.3 million Total Funds, including General Fund savings of \$487,281. A portion of the savings was used to fully fund the General Fund collective bargaining agreement costs (\$243,932) of small agencies.

Section 116 of the budget bill reflects the changes, as described above, for each agency. These adjustments are not addressed in the agency narratives, although they are included in the table at the beginning of the budget report.

## **Emergency Board**

As part of the 2015-17 biennium statewide rebalance plan, Senate Bill 5701 adjusts the Emergency Board's general purpose and special purpose appropriations as described as follows:

- Increases the General Purpose Emergency Fund by \$2,000,000 for general governmental purposes, increasing the total amount available to the Emergency Board for the remainder of the 2015-17 interim to \$32,000,000.
- Eliminates a special purpose appropriation for state agencies of \$120 million, and makes corresponding General Fund appropriations to various state agencies for state employee compensation changes.
- Reduces the special purpose appropriation for state agencies of \$10.7 million, with General Fund appropriations of \$10.0 million to the Department of Human Services (\$9,502,291) and the Oregon Health Authority (\$497,562) for compensation changes driven by collective bargaining for workers who are not state employees.
- Reduces the \$3,000,000 special purpose appropriation for education by \$1,373,879 and uses these funds as part of the \$1,900,000 General Fund appropriation to the Higher Education Coordinating Commission to help fund 2015-17 compensation agreements for classified staff at Portland State University, Eastern Oregon University, Southern Oregon University, Western Oregon University, and the Oregon Institute of Technology. Details on how much each university receives is found under the Higher Education Coordinating Commission section of this budget report.
- Eliminates the \$17,540,357 General Fund special purpose appropriation to the Emergency Board for the mixed delivery preschool program established in House Bill 3380 (2015), with a corresponding appropriation to the Oregon Department of Education for the same purpose.
- Eliminates a \$6,865,921 special purpose appropriation for college readiness and appropriates most of these resources to the Oregon Department of Education, Chief Education Office, and the Higher Education Coordinating Commission for transitional services and supports, between secondary and post-secondary education.
- Reduces the special purpose appropriation of \$6 million for fire costs, and appropriates \$2,054,823 to the Department of Forestry for that purpose.
- Eliminates the \$1.8 million special purpose appropriation for the Department of Revenue and appropriates \$1,360,125 to the Property Tax Division of the Department of Revenue, primarily due to cover a revenue shortfall in the County Assessment Function Funding Assistance Account.
- Establishes a \$3,000,000 special purpose appropriation to be allocated to the Department of Corrections for operations support. The Department may request funds to finance continued activation of minimum security beds at the Deer Ridge Correctional Institution.
- Establishes a \$2,000,000 special purpose appropriation to be allocated to the Department of Corrections. The Department may request funds to finance continued activities and positions associated with improvements to housing and treatment for the seriously mentally ill.
- Establishes a special purpose appropriation for the Emergency Board of \$2,000,000 to be allocated to state and local governments that incurred costs not reimbursed by the federal government related to the armed occupation of the Malheur National Wildlife Refuge. The Department of Administrative Services and the Legislative Fiscal Office are directed to work with state and local government units to identify and validate reimbursable costs related to the incident.

## Adjustments to 2015-17 Agency Budgets

### ADMINISTRATION

#### Department of Administrative Services

The Subcommittee approved a technical adjustment to move Other Funds expenditure limitation, intended to pay for treasury fees that had been spread to programs in the 2015-17 legislatively adopted budget, back into the Other Funds expenditure limitation established in Senate Bill 5502 for Treasury Fees. These adjustments net to a zero overall change in the total Other Funds budget approved for the Department of Administrative Services (DAS).

The Subcommittee approved a number of budget adjustments related to a multi-part reorganization of DAS and the Oregon State Chief Information Officer (OSCIO) information technology (IT) related functions. A budget note required DAS to report on proposed changes to operations and rates for Enterprise Technology Services (ETS), which includes the state data center. During the 2015 session, the Legislature also passed House Bill 3099, which transferred substantial authority and responsibility surrounding statewide IT operations and policies from the DAS Director to the OSCIO. To implement House Bill 3099, the OSCIO has proposed significant changes in organizational structures. Under this reorganization there will be five sections: ETS; Enterprise Security Office; Office of Strategic IT Governance; Enterprise Shared Services; and the DAS Chief Information Office (CIO), which will be responsible for meeting DAS's IT needs, such as help desk support. While the DAS CIO will remain under the authority of the OSCIO, it will report to the DAS Deputy Chief Operating Officer. In addition, three administrative positions that did budget work in ETS were transferred to DAS Business Services and seven other ETS administrative positions were moved to the CIO.

The budget adjustments required to implement the IT reorganization and new OSCIO responsibilities, as well as to address the ETS budget note, affected a number of DAS program areas. These net adjustments by program area include: ETS decreased Other Funds by \$39,863,385 and 70 positions (64.00 FTE); CIO increased Other Funds by \$29,841,240 and 37 positions (34.06 FTE); Chief Operating Office increased Other Funds by \$12,171,544 and 38 positions (37.58 FTE); DAS Business Services increased Other Funds by \$644,351 and 3 positions (3.00 FTE); and Enterprise Goods and Services increased Other Funds by \$474,682 and 4 positions (2.32 FTE).

As part of the IT reorganization, a new structure was proposed for IT procurement and vendor management with dual responsibility between Enterprise Goods and Services and OSCIO. This new structure was reviewed by the Joint Committee on Ways and Means as well as the Joint Legislative Committee on Information Management and Technology (JLCIMT). The JLCIMT recommended conditional, temporary approval of the request for the remainder of the biennium. Specifically, the JLCIMT recommended that DAS and OSCIO:

1. Conduct an assessment to identify and evaluate the alternative State IT procurement-related organizational/operating models in use by other states across the nation. The assessment report should provide the raw findings and include, but not be limited to, the roles, responsibilities, accountability, staffing levels, and costs associated with:
  - (a) The most predominant organizational/operating models in use across the nation as compared to the shared IT vendor management program proposed within this request, and

- (b) A full transfer of state IT procurement duties, functions, and powers from DAS and the DAS Director to the State Chief Information Officer.
2. Submit the assessment report and a status report on IT vendor management program progress to date to the Legislative Fiscal Office in November 2016.
3. Jointly present the assessment report and status report on IT vendor management program progress to the JLCIMT and the Emergency Board during the December 2016 Legislative Days.

The Subcommittee approved six new positions associated with the new IT vendor management arrangement as limited duration to ensure the new arrangement was temporary and that DAS/OSCIO would need to return to the Legislature for funding for the 2017-19 biennium.

Other Funds expenditure limitation established in Senate Bill 55 (2015) was reduced by \$196,206 and the three positions established by the bill were reduced by a combined 0.99 FTE due to delays in implementing the legislation. None of the three positions will be hired until after the 2016 legislative session.

The Subcommittee also added two limited duration positions to implement House Bill 4135 to accomplish the coordination requirements and manage the production of electronic records as directed by the bill. An Information Systems Specialist 8 position (0.63 FTE) was added to provide the initial outreach, education, and coordination of the new policies with state agencies. An Operations and Policy Analyst 2 (0.63 FTE) was added to handle the query writing and production of records for DAS and to assist agencies in the querying and production of their records. The positions are added as limited duration to allow DAS to assess appropriate work load and classification. Positions needed to manage ongoing work will be proposed as part of the Governor's Budget for 2017-19. The Subcommittee determined that DAS can pay for the two positions in 2015-17 with existing Other Funds expenditure limitation and revenue.

The Subcommittee also approved one-time General Fund appropriations to DAS for the following purposes:

- \$1,000,000 for disbursement to the Holly Theater in Medford for the Holly Theater Restoration Project.
- \$650,000 for disbursement to the Salem Area Mass Transit District to provide free bus passes to state employees working in the Capitol Mall area and to operate an Airport Road Express Shuttle between the State Motor Pool and the Capitol Mall.
- \$500,000 for disbursement to Clackamas County for repairs at the Willamette Falls Locks and Canal.
- \$500,000 for disbursement to the City of Cornelius to help build the multi-use Cornelius Place project which includes a library, low income senior housing, and a YMCA.
- \$300,000 for disbursement to Verde for the Cully Park project in Northeast Portland's Cully neighborhood.
- \$250,000 for disbursement to Worksystems Inc. to recapitalize a tuition loan program first funded in 2011 for loans to students participating in commercial driver license training. These loans are not part of a state program and funding is provided only to establish the private program. This is the second one-time General Fund appropriation made for this purpose; the same entity received a one-time grant of \$400,000 for this purpose in 2011.
- \$200,000 for disbursement to Douglas County to partially reimburse public safety costs associated with the October 1, 2015 incident at Umpqua Community College.

- \$200,000 for disbursement to Portland Playhouse for renovation and restoration of Portland Playhouse's theater in Portland's King neighborhood.

The Subcommittee added \$3,059,680 Other Funds expenditure limitation for one-time costs of issuance and special payments associated with the disbursement of proceeds from the sale of \$3,000,000 in lottery bonds for the City of Warrenton to rebuild a dock used by Pacific Seafood at the site of a seafood processing facility that burned down in June 2013. The processing facility was built in 1941 and acquired, along with the dock, by Pacific Seafood in 1983. The lottery bonds are approved in House Bill 5201. There is no debt service allocated in the 2015-17 biennium, as the bonds will not be sold until the spring of 2017. Debt service for 2017-19 is estimated at \$675,152 Lottery Funds. The Subcommittee also increased Other Funds expenditure limitation by \$55,000 to pay the cost of issuing \$2,500,000 Article XI-Q bonds for repairs and improvements at the Oregon State Fair.

Other Funds limitation was increased by \$453,681 to allow planning for the Human Resources Information System (HRIS) replacement project to continue through May 2016. DAS is to bring any request for additional funding needed to complete stage gate 3 planning through the end of the current biennium to the May 2016 meeting of the Emergency Board. In addition, DAS shall bring a plan to adjust rates and assessment charges for the second year of the biennium to fund both the HRIS planning project and new positions established as a part of the IT reorganization operationalized in Senate Bill 5701. A \$6,500,000 General Fund special purpose appropriation to the Emergency Board for this purpose may be allocated to pay General Fund increases associated with assessment and rate increases.

### **Oregon Liquor Control Commission**

The Subcommittee approved an Other Funds expenditure limitation in the amount of \$1,117,762 for the Oregon Liquor Control Commission to implement the provisions of House Bill 4014, Senate Bill 1511, and Senate Bill 1598. Three permanent regulatory specialist positions and four permanent administrative specialist positions are anticipated to be needed due to an increase in the assumed number of licensees as medical marijuana producers are authorized to transfer excess marijuana to recreational retail outlets, and to cover costs associated with the additional number of people working in the marijuana industry that will be required to have work permits and training. Services and supplies expenditures include \$350,000 for updates to the agency's "What's Legal" public information platform and associated outreach. Of the total amount, \$350,665 Other Funds expenditure limitation is for costs associated with Senate Bill 1598; if that bill is not enacted, this expenditure limitation is to be unscheduled by the Department of Administrative Services Chief Financial Office.

A technical adjustment was approved to convert four limited duration liquor regulatory specialists approved as part of House Bill 5047 to permanent status. This adjustment will have no effect on expenditure limitation in the 2015-17 biennium.

### **Public Employees Retirement System**

The Subcommittee increased expenditure limitation for the Financial and Administrative Services Division by \$100,000 Other Funds for a shortfall in the Secretary of State audit charges assessment budget. In addition, increased expenditure limitation in the amount of \$6,601,170 Other Funds was approved for the Financial and Administrative Services Division for the Office of the State Chief Information Officer Enterprise Technology Services assessment.

The Subcommittee approved a one-time increase in Other Funds expenditure limitation of \$1,255,601 for the Public Employees Retirement System (PERS) Individual Account Program (IAP) information technology project. In addition, the Department of Administrative Services is to schedule all currently unscheduled Other Funds expenditure limitation for the project. The project is to move the administration of the IAP from a third-party administrator to the agency. A re-baselining of the project shows that initial project development costs have increased from \$2.9 million to \$6.1 million. The agency anticipates requesting an estimated \$1.9 million during the 2017-19 biennium to complete project development. The Joint Legislative Committee on Information Management and Technology (JLCIMT) recommendations were also approved.

A one-time increase in Other Funds expenditure limitation of \$1,659,976 was approved for information technology enhancements to the jClarety retirement system. JLCIMT recommendations were also approved. The Subcommittee directed the Department of Administrative Services to unschedule the entire \$1.7 million until the conditions set forth by JLCIMT are satisfied.

### **Department of Revenue**

The Subcommittee reduced the expenditure limitation for the Core Systems Replacement project by \$500,000 Other Funds (recreational marijuana tax proceeds) to account for contract savings for the recreational marijuana module. The original development cost was estimated at \$1 million in House Bill 5047 (2015).

Other Funds expenditure limitation for the Property Tax Division was reduced by \$500,000 because the limitation is in excess of the operational needs of the program and is without an underlying revenue source.

The Subcommittee approved a \$373,841 General Fund reduction and a reduction of 2.60 FTE for the Senior Citizens' and Disabled Citizens' Property Tax Deferral program. This technical adjustment will have no impact on the program, which is statutorily funded with Other Funds (Senior and Disabled Property Tax Deferral account). This is part of an effort to better align the agency's budget with actual program funding.

The General Fund appropriation for the Property Tax Division was increased by \$1.4 million in personal services and FTE on existing positions was increased by 7.20. This appropriation is to backfill Other Funds revenue shortfalls in the County Assessment Function Funding Assistance Account, but only for Department of Revenue Valuation Section (\$1.1 million), and for a reduction in county contract mapping services (\$240,986). A \$1.8 million reduction in Other Funds expenditure limitation was previously included in the agency's legislatively adopted budget. The 2017-19 biennial cost is estimated to be \$1.9 million General Fund.

The Subcommittee approved an increase of \$2,052,807 in Other Funds expenditure limitation (recreational marijuana tax) and the establishment of four permanent full-time Accounting Technician 2 positions (2.92 FTE) and one limited duration Principal Executive Manager B position (0.75 FTE) for the recreational marijuana program. In addition, an Economist 3 position, approved as part of House Bill 5047 (2015), is moved from permanent full-time to limited duration. Personal services costs total \$481,063, with \$653,792 in services and supplies and \$917,952 in capital outlay. Of the \$2.1 million expenditure limitation, \$633,920 is one-time limitation for program start-up and facility construction costs. The 2017-19 biennial cost is estimated to be \$1.4 million Other Funds. This request is for the processing of cash payments related to the recreational marijuana program; however, the Subcommittee's expectation is that this is to be done in an integrated fashion with the agency's current banking, Electronic Funds Transfer, and miscellaneous cash receipting of non-recreational marijuana taxes.

The Subcommittee approved an increase in Other Funds expenditure limitation of \$874,747 for the Core Systems Replacement project. It was estimated that there were \$6.9 million in bond proceeds for the project carried forward from the 2013-15 biennium; however, that figure was only recently revised to \$7,804,187. The Department of Administrative Services is directed to unschedule the entire \$874,747 pending the review and approval of the need for the expenditure limitation by the Legislative Fiscal Office.

### **Secretary of State**

The Subcommittee established a \$347,900 General Fund appropriation and one limited-duration position (0.25 FTE) to replace the Oregon Elections System for Tracking and Reporting (ORESTAR) Election Night Reporting module. The agency will use the funds to acquire a commercially-available off-the-shelf (COTS) product to replace an existing ORESTAR Election Night Reporting module that was developed in-house. The replacement system will offer expanded capabilities, including tabulation of local election vote counts and graphical and map-based display capabilities. A temporary project manager position was approved. The new system is expected to be fully operational in time for the 2016 General Election. The appropriation is approved on a one-time basis and will be phased out in the agency's 2017-19 biennium budget.

### **State Treasurer**

The Subcommittee reduced Other Funds expenditure limitation for the Debt Management Division by \$500,000 for a Rockefeller Foundation grant that the agency no longer receives.

## **CONSUMER AND BUSINESS SERVICES**

### **Department of Consumer and Business Services**

The Subcommittee approved an increase in the Other Funds limitation for the reclassification of positions in three divisions. The individual changes impacted ten positions. The adjustments included increased Other Funds expenditure limitation of \$32,660 in the Building Codes Division, \$30,878 in the Workers' Compensation Division, and \$108,488 in the Insurance Division, for a total of \$172,026. The additional expenditure limitation allows the agency to make position adjustments as approved by the Office of the Chief Human Resources Officer at the Department of Administrative Services without compromising the maintenance of the agency's ratio of supervisory to non-supervisory positions, as required under House Bill 4131 (2012).

The Subcommittee approved an increase in the Other Funds expenditure limitation of \$379,219 for the establishment of four new positions (2.52 FTE) in the Building Codes Division. These positions include a Plans Examiner 2 position to be housed in Salem and three Inspector positions (Mechanical, Plumbing, and Electrical) to be housed at the Eastern Region Office located in Pendleton. The positions will address ongoing workload increases of the Building Codes Division as the economy continues to recover.

A net decrease in Other Funds expenditure limitation of \$321,655 was made as a result of position adjustments in the Marketplace and Shared Services Divisions related to the operation of the Health Insurance Marketplace. Thirteen limited duration Program Analyst 2 positions were eliminated (-7.52 FTE) and six permanent, full-time positions (4.02 FTE) were established (one Outreach and Education Manager and five Program Analyst 2 positions). These changes result in a reduction of seven positions and \$558,617 Other Funds expenditure limitation in the

Marketplace Division. This reduction was partially offset by an increase in Other Funds expenditure limitation of \$236,962 in the Shared Services Division to cover the costs of converting one part-time, limited duration Operations and Policy Analyst 4 position to a full-time, permanent position (0.50 FTE) and to add an additional Procurement and Contract Specialist 3 position (0.67 FTE).

The Subcommittee approved a \$6.4 million reduction in Other Funds expenditure limitation in order to reconcile the budget of the Health Insurance Marketplace with actual and anticipated expenditures of the program, which have been significantly different than what was anticipated in the legislatively adopted budget. The changes include reductions in anticipated expenditures due to pre-payment of contracts prior to the transfer of the insurance marketplace from Cover Oregon to the Department of Consumer and Business Services (DCBS), changes in information technology contracts, lower than anticipated personal services costs, and a reduction in anticipated payments for tax reporting errors. These reductions are partially offset by increases in legal fees and new information technology contracts.

A \$1,732,528 Other Funds expenditure limitation increase was approved for additional marketing and outreach activities of the Oregon Health Insurance Marketplace. This additional expenditure limitation will be unscheduled until DCBS completes its review and analysis of the 2016 open enrollment year campaign and its plan for the 2017 open enrollment year campaign. The legislatively adopted budget included a budget note instructing the agency to complete a plan and report on each of the publicity and publication campaigns either upcoming or implemented for the Health Insurance Marketplace Program. DCBS submitted a publicity and publication plan and report to the Interim Joint Committee on Ways and Means in January 2015; however, that plan and report did not contain detailed information for the 2017 open enrollment year campaign since the agency had not yet completed its review of the 2016 plan. The additional funding, once rescheduled, will allow the agency to maintain the same level of expenditures during the 2017 open enrollment year as in 2016.

Discussions also took place regarding pharmacy benefit managers. The Subcommittee approved the following budget note.

**Budget Note:**

The purpose of this budget note is to clarify the Department of Consumer and Business Services' (DCBS) authority to regulate pharmacy benefit managers (PBMs). DCBS is directed to convene a workgroup to develop recommendations for rulemaking regarding PBM compliance. Based on those recommendations, the agency will draft rules regarding PBM compliance and report to the appropriate legislative policy committees by November 1, 2016. The report should include the draft rules, as well as any statutory changes or clarifications necessary to fully implement the draft rules, including fee recommendations for administration of the program.

Draft rules must include, but are not limited to:

- Notification system that includes a method for informing PBMs of new regulations, and for informing PBMs of complaints, investigations, and possible sanctions
- Investigation procedures
- Fees, fines, and resolution process that includes:
  - Overall schedule of fees and fines
  - Provisions for warnings before fines, based on circumstances

- Possible escalation of fine for multiple occurrences including combining multiple occurrences into a single complaint or enforcement action, or multiple claims related to a single reason or cause
- Setting a maximum annual per PBM fine
- Exceptions based on type of violation or other criteria
- A reasonable time to re-enter compliance
- Other provisions consistent with DCBS' existing enforcement authority and procedures

### **Bureau of Labor and Industries**

Technical adjustments are included to reflect the budget recommended to the Joint Committee on Ways and Means by the Transportation and Economic Development Subcommittee during the 2015 regular session. Multiple amendments to Senate Bill 5517 were considered during the legislative review process, and the amendment that was submitted to and adopted by the Joint Committee on Ways and Means did not properly reflect the budget recommended by the Subcommittee. The adjustments reduce the General Fund appropriation to the agency by \$113,604, increase Other Funds expenditure limitation by \$206,871, and increase Federal Funds expenditure limitation by \$2,696, for a total funds adjustment of \$95,963.

### **Oregon Public Utility Commission**

The Subcommittee increased the agency's Other Funds expenditure limitation by \$170,226 and authorized one permanent position (0.63 FTE) to increase analytic capacity to address additional agency responsibilities resulting from legislative changes to the Renewable Portfolio Standard made during the 2016 Legislative session.

## **ECONOMIC AND COMMUNITY DEVELOPMENT**

### **Oregon Business Development Department**

The Subcommittee reduced the General Fund appropriation for debt service by \$1,328,407, and established a \$1,330,500 Other Funds expenditure limitation for general obligation bond debt service. Debt service for general obligation bonds is paid by the General Fund; however, the agency will substitute \$1,330,500 of Article XI-M and Article XI-N bond proceeds, and interest earned on those proceeds, to pay debt service, in lieu of General Fund. The proceeds are from bonds originally issued for the Seismic Rehabilitation Grant program in 2010, 2011, and 2012. These proceeds were not used for seismic projects and will instead be used to offset debt service costs in the current biennium.

The Subcommittee increased Lottery Funds support by \$1.5 million. This includes an increase for employee compensation changes and \$960,514 Lottery Funds, approved on a one-time basis, for new or expanded programs. The Subcommittee increased Lottery Funds support for the Oregon Wave Energy Trust by \$200,000, bringing current-biennium support to \$450,000 Lottery Funds. Lottery Funds were increased by \$400,000 to reapprove funding for replacement of the Port of Port Orford Cannery Building for one more biennium. Funding for this project was initially approved in the 2013-15 biennium. The Subcommittee also approved \$100,000 of Lottery Funds to conduct a Willamette Valley Intermodal Hub Feasibility Study, to evaluate the viability of a strategic intermodal hub to optimize container shipment of Oregon agricultural products.

Lottery Funds totaling \$260,514 and two positions (1.00 FTE) were approved to address administrative costs associated with the expansion of grant activity in the Seismic Rehabilitation Grant Program. The Department will need to fill the newly-established positions for three years beginning July 1, 2016, and will include a policy option package in its 2017-19 biennium budget request to convert the two approved positions from permanent to limited-duration status. The Department is also instructed to report to the Legislative Fiscal Office, following each sale of Article XI-M or Article XI-N general obligation bonds, on the projects and dollar amounts of project grants financed by the bond sale, as well as on the amount of bond proceeds budgeted for agency administrative costs.

The Subcommittee established a \$1 Other Funds expenditure limitation for the American Manufacturing Innovation District, and increased Other Funds by \$54,868 for cost of issuance of lottery revenue bonds for this project. The American Manufacturing Innovation District is a collaborative effort between government, industry, and academic institutions to invest in manufacturing infrastructure to promote advanced manufacturing. A total of \$2.5 million of lottery revenue bond proceeds are authorized for this project in House Bill 5202, which also authorizes \$5 million of Article XI-G bond proceeds for distribution to Portland Community College (PCC) in support of this project. The Subcommittee limited expenditure of bond proceeds to \$1, pending a joint presentation with PCC of a business plan for developing the District. Debt service costs for the lottery revenue bonds authorized for this project are projected to total approximately \$535,000 Lottery Funds per biennium, beginning in the 2017-19 biennium. Because the bonds will not be issued until spring 2017, there will be no debt service payments due in the current biennium.

The Subcommittee also approved a technical correction to the budget for the State Small Business Credit Initiative (SSBCI) program. This correction increases Other Funds expenditure limitations in the Business, Innovation and Trade Division by \$388,773, and reduces the Division's Federal Funds expenditure limitations by the same amount. The SSBCI is funded from a federal grant the agency secured in 2011 that provided Federal Funds for revolving loan programs. It was noted when the grant was received that administrative costs for the program would transition to Other Funds over time, as the grant money was loaned out and the loan repayments were re-categorized as Other Funds. The Subcommittee added this anticipated fund shift, which had not been included in the agency's budget, to the bill.

Federal Funds expenditure limitation was increased for the Business, Innovation and Trade Division by \$450,000 for expenditure of funds received under the Year 4 State Trade and Export Promotion grant program. This increase more than offsets the \$388,773 Federal Funds expenditure limitation decrease for SSBCI and results in a net increase of \$61,227 for the Business, Innovation and Trade Division Federal Funds expenditure limitation.

Finally, the Subcommittee approved a budget adjustment to increase Nonlimited Other Funds expenditures by \$5,820,000. This adjustment reflects a greater level of loan repayments than originally anticipated in the budget. Loan repayments are not limited in the agency budget. The adjusted level of Nonlimited Other Funds in the Infrastructure Finance Authority will include approximately \$24.2 million of loan repayments.

### **Employment Department**

A technical adjustment is included for the Employment Department to more accurately reflect the amount expected to be utilized by the agency from \$85 million in modernization funds appropriated to the agency through the federal Social Security Act. Close of session budget reconciliation adjustments resulted in more dollars being available from the Supplemental Employment Department Administrative Fund for

Department operating expenditures. This adjustment does not change the overall amount of the agency's recommended budget, merely the source from which the Department can make expenditures. As such, the appropriation of modernization funds made to the Department is decreased by \$17 million; sufficient Other Funds expenditure limitation exists to enable the Department to make equivalent expenditures from a combination of Supplemental Employment Department Administrative Funds and the Special Administrative Fund.

### **Housing and Community Services Department**

The Subcommittee approved an increase in General Fund of \$2,727,660 for counseling services associated with the Oregon Foreclosure Avoidance Program. The 2015-17 legislatively adopted budget included \$1.4 million General Fund, which was estimated to be sufficient through February 2016. The Housing and Community Services Department was directed to report back to the Legislature on program utilization, foreclosure rates, and actual monthly expenditures to counseling agencies. The additional General Fund is included for program expenditures for the remainder of the 2015-17 biennium, as follows: \$2.36 million for counseling services provided on a fee-for-service basis as indicated via contract with the Housing and Community Services Department; \$233,333 for legal aid services for counseling clients with particularly complicated circumstances; and \$127,480 for agency program administration, with the understanding that the Department of Administrative Services will unschedule \$275,000 of the amount. Funding for the program is not anticipated to be ongoing, although the agency may request funding for consideration during the 2017-19 budget process.

Also included is a one-time General Fund appropriation in the amount of \$10 million to the Housing and Community Services Department to be utilized as follows: \$8 million is for homelessness assistance and prevention services through the Emergency Housing Assistance (EHA) program and \$2 million is to the State Housing Assistance program (SHAP) for operational support for emergency shelters and supportive services to shelter residents. Funding for the EHA program is spent as Other Funds by the Department, and is reflected in an additional \$8 million in Other Funds expenditure limitation.

Other Funds expenditure limitation in the amount of \$2,554,868 is included to enable the Housing and Community Services Department to expend proceeds from the sale of lottery bonds for preservation of affordable housing with expiring federal subsidies. Of this amount, \$2.5 million is attributable to project costs and \$54,868 is related to cost of issuance. Eligible projects for which these funds can be expended are defined as the following:

- Privately owned multi-family rental properties where at least 25% of the units are subsidized by a project-based rental assistance contract through the U.S. Department of Agriculture Rural Development or the U.S. Department of Housing and Urban Development;
- Existing manufactured housing communities to be acquired by a mission-based non-profit organization, resident cooperative, tenants' association, housing authority, or local government; or
- Public housing projects undergoing a preservation transaction which involves a comprehensive recapitalization and which will secure ongoing rental subsidies.

### **Oregon Department of Veterans' Affairs**

The Subcommittee approved an increase in Federal Funds expenditure limitation of \$499,999. The Oregon Department of Veterans' Affairs (ODVA) received a 2015 grant from the U.S. Department of Veteran's Affairs in the amount of \$500,000 for transportation of Oregon veterans in highly rural areas to medical appointments. Awards of \$50,000 per county will be used to preserve and maintain transportation programs established with the 2014 federal grant award. The counties receiving funds are Baker, Gilliam, Grant, Harney, Lake, Malheur, Morrow, Sherman,

SB 5701 A

Wallowa, and Wheeler. ODVA acts as the applicant and grantee on behalf of the counties, and will pass through funds and monitor compliance with grant requirements. The grant is for a period of one year and requires no matching funds or additional positions for administration. A placeholder amount of \$1 in Federal Funds expenditure limitation was included in the legislatively adopted budget for the agency.

## **EDUCATION**

### **State School Fund**

The Subcommittee approved a decrease of \$39,553,391 General Fund and an increase of \$39,553,391 Lottery Funds for the State School Fund. These changes reflect the balance of available General Fund and Lottery Funds for the overall state budget and maintains the amount of \$7,376 million total funds for the State School Fund for the 2015-17 biennium.

### **Department of Education**

The Subcommittee approved changes in the Federal Funds expenditure limitations for agency operations for federal grants received by Department of Education as described below:

- An increase of \$7,130,223 for a three-year federal grant from the U.S. Department of Education's Office of Innovation and Improvement. The purpose of the grant is to increase the number of high-quality charter schools by providing assistance to potential charter schools for planning, program design, and initial operations. Funds will also be used to share best practices among all charter schools and sponsoring districts. One limited duration position (0.63 FTE) was approved relating to the grant.
- An increase of \$1,160,860 for three separate child nutrition grants from the U.S. Department of Agriculture. The three grants were the Professional Standards Training grant (\$138,915), the Team Nutrition grant (\$203,563), and the Tier 2 Direct Certification Improvement grant (\$818,382). A limited duration position (0.63 FTE) was approved for the Tier 2 Direct Certification Improvement grant.

The Subcommittee approved an increase of \$515,200 Other Funds expenditure limitation to cover costs of an increase in the number of students participating in the Hospital Program. The agency is required to provide and pay for the costs of educational services for children, through age 21, who are expected to be hospitalized for an extended period of time. This increase will be funded through an increased distribution from the State School Fund. Also approved was a transfer of \$51,458 General Fund from the breakfast and summer food programs under Grant-in-Aid to agency Operations for the administration of the Farm-to-School program. A one-time increase in the Other Funds expenditure limitation of \$2,030,515 for the Oregon School for the Deaf was approved for deferred maintenance, including replacement of the School's Heating Ventilation Air Conditioning, or HVAC, system. The source of funds for this includes moneys set aside from the sale of the School for the Blind property, income from the rental of school facilities, and the anticipated sale of a vacant parcel of school property. The Department of Administrative Services is instructed to unschedule this increase until the final cost of the project is determined and the sale of the vacant property is completed.

To ensure that debt service payments on education-related Lottery Bonds are funded from the proper sources, the Subcommittee approved changes to the amount of Lottery Fund resources allocated to the Department of Education. House Bill 5016, the 2015 appropriation bill for the agency, allocated the entire \$1,434,927 required for debt service payments from the Oregon Education Fund. The actual allocation is \$593,395 from the Oregon Education Fund and the remaining \$841,532 is from the Administrative Services Economic Development Fund.

The Subcommittee approved an increase of \$3,130,000 General Fund for the Oregon Department of Education's agency operations to fully fund the Assessment and Accountability unit. The 2015-17 budget for this unit was inadvertently underfunded by \$3,771,938 General Fund and needs these funds to meet its responsibilities and commitments. This budget gap is resolved by transferring \$930,000 General Fund from the Grant-in-Aid budget in unallocated resources and an increase of \$2,200,000 in new General Fund resources. The remaining \$641,938 is to be found by the agency in savings in its existing agency operations budget, including holding positions vacant in the unit. There is also a transfer of \$2,000,000 in excess Federal Funds expenditure limitation from the Grant-in-Aid budget to Operations, and an additional increase of \$1,971,397 in Federal Funds expenditure limitation to match the amount of federal funding available for this function.

General Fund increases for existing programs were approved as described below:

- Funding for the Oregon Pre-Kindergarten program was increased by \$5.3 million, bringing the total General Fund resources for this program to \$145.3 million.
- Funding for the Early Intervention and Early Childhood Special Education programs was increased by \$5,393,340 General Fund. This increase reflects, in part, the growth in these two programs at a rate greater than estimated at the end of the 2015 session. Total General Fund resources for these programs, including this increase, is \$155.8 million.
- The Relief Nurseries program was increased by \$300,000 General Fund, bringing the total General Fund available for the 2015-17 biennium to \$8.6 million. This additional funding and the \$700,000 General Fund appropriated by chapter 837, section 109, Oregon Laws 2015 should be considered permanent for the purposes of developing the 2017-19 budget.

One-time General Fund appropriations were approved by the Subcommittee for new programs and grants as described below:

- \$260,000 General Fund for a grant to the Burnt River School District for the Burnt River Integrated Agriculture/Science Research Ranch program. This program provides educational opportunities to students from outside the district, including from the Portland area, and provides a number of educational services outside of the core curriculum common to all high school students, including natural resource studies, agricultural experience, water quality monitoring, animal husbandry, sustainable rangeland science, forest restoration, and organic food production.
- \$400,000 General Fund for grants to organizations which provide training and assistance relating to culturally relevant educational practices authorized as eligible services under the Network for Quality Teaching and Learning under House Bill 4033. Grants of equal value are to be provided to two organizations: (1) Center for Culturally Responsive Practices and (2) Teaching with Purpose.
- \$95,000 General Fund appropriation for a grant to the World of Speed organization for the High School Automotive Career Technical Education program. The organization partners with Clackamas Community College and area high schools to provide automotive related career technical education (CTE). Other high schools have expressed interest and the \$95,000 would be used to match other contributions to the program, assisting with cost of transporting students to the facility for classes, and other program costs.

The Subcommittee eliminated the \$17,540,357 General Fund special purpose appropriation to the Emergency Board for the mixed delivery preschool program established in House Bill 3380 (2015) and directly appropriated the same amount to the Oregon Department of Education for

the same purpose. The intent is for this funding to be distributed to four to six Early Learning Hubs that demonstrate that the Hub and the providers in their service area are prepared to implement the mixed delivery preschool model beginning in September 2016. In developing the 2017-19 current service level budget for this program, only the full two-year costs of this appropriation should be factored into the calculation. Any further expansion to add new Early Learning Hubs should be a separate policy decision made by the Legislature during the 2017 session. In addition to the annual report to the Legislature required in House Bill 3380 (2015), the agency is instructed to report to the Emergency Board prior to June 1, 2016 on which Early Learning Hubs were selected, the number of preschool providers estimated to be delivering the program, the estimated number of children that will be served under the program, and an update on the various cost components of the program.

One permanent Research Analyst 3 position (0.63 FTE) was approved to manage and analyze information collected through the Class Roster data from school districts under House Bill 2644 (2013). The agency will identify the funding from existing resources for the 2015-17 biennium.

### **Higher Education Coordinating Commission**

The Subcommittee approved a one-time \$1,800,000 General Fund appropriation to the Higher Education Coordinating Commission (HECC) for a grant to Umpqua Community College (UCC) to address the issues resulting from the shooting incident on the UCC campus on October 1, 2015. The funding may be used for: (1) staff, including security staff; (2) upgrading security communications equipment, door locks, and campus lighting; (3) upgrading the campus's network fiber system to accommodate the new communications equipment; and (4) other costs related to the October 1st incident. HECC is to report back to the Legislature as part of its budget presentation to the Joint Committee on Ways and Means in 2017 on how these resources were expended. Also approved was a one-time \$4,250,000 General Fund appropriation to HECC for a grant to UCC for the construction or renovation of a replacement for Snyder Hall where the shooting incident took place. The College is currently not using the classroom space in the building and is relying on temporary structures to replace some of the space.

The Subcommittee recognized the Community Colleges' needs regarding campus and student security and safety issues which were illustrated, in part, by the shooting incident at UCC. The Governor has appointed a workgroup to recommend actions and investments for security and safety at Community College and other Post-Secondary institutions. Based on the recommendations of the workgroup and the Community Colleges, the Legislature will address this issue during the 2017 session.

An \$804,506 increase in Other Funds expenditure limitation was approved by the Subcommittee for payment of the costs of issuing General Obligation bonds on behalf of community colleges and public universities. This increase represents the estimated amount required if all of the bonds authorized for the 2015-17 budget cycle are issued by the end of the current biennium.

The Subcommittee also approved three one-time General Fund appropriations to HECC to be allocated to Oregon State University. The first appropriation is \$800,000 for the Northwest National Marine Renewable Energy Center to serve as match for federal funds for the Pacific Marine Energy Center South Energy Test Site. The federal government has made an initial \$5 million available to fund a competitive grant to further develop a wave energy test facility, with the expectation that a 25% local match will be provided. HECC is only to release the funds if Oregon State University is awarded the grant. The second appropriation is \$100,000 for endophyte research which is to be matched by private dollars. These funds are to be used only for endophyte research in support of Oregon's fiber and straw export industry. A report to the Legislative Fiscal Office on how the funds were used in support of endophyte research and what was made possible by this additional influx of funds should be made by December 31, 2016. The third is \$100,000 for the purpose of establishing an endowed scholarship fund through the Oregon State

University Foundation. The scholarship must be used to support students engaged in research associated with Amyotrophic Lateral Sclerosis (ALS).

The Subcommittee approved a one-time General Fund appropriation of \$1,900,000 for the four technical and regional universities, along with Portland State University, to help fund new compensation agreements for classified staff. HECC is directed to distribute the following amounts to the following universities: Portland State University - \$400,000; Eastern Oregon University - \$251,559; Southern Oregon University - \$468,591; Western Oregon University - \$485,646; and Oregon Institute of Technology - \$294,204.

**Budget Note:**

The Subcommittee recognizes that the Current Service Level (CSL) is intended to estimate the cost of legislatively approved programs in the upcoming biennium. In 2009, the Joint Committee on Way and Means approved the adoption of a CSL model for the Community College Support Fund (CCSF) to reflect health benefit and retirement costs expected to exceed the Department of Administrative Services standard inflation rate.

To ensure consistency in post-secondary state support CSL calculations, the Department of Administrative Services (DAS) and the Legislative Fiscal Office (LFO) are directed to develop, in consultation with the Higher Education Coordinating Commission and the seven public universities, an estimated cost of applying the Community College Support Fund model to the Public University Support Fund, the Agricultural Experiment Station, the Extension Service, the Forest Research Laboratory, and Public University State Programs. The estimate will include data elements that the public universities will be required to submit to HECC in order to implement the model.

DAS and LFO will provide the estimated cost to implement the Community College Support Fund CSL model for Public University state support to the Emergency Board, through the Legislative Fiscal Office, by July 1, 2016.

**Chief Education Office**

The Chief Education Officer, in cooperation with other education agencies, has completed the steps necessary to receive Stage Gate 3 approval to move forward on the development of the Statewide Longitudinal Data System (SLDS). This means the project staff have completed the required project management documents with approval from the State's Chief Information Officer. As a result, the Subcommittee approved \$5,505,280 General Fund for the project development and staff for this biennium. Based on the project's schedule, this will leave one quarter's worth of development costs for 2017-19. Ongoing costs for the Data System, starting in 2017-19, are estimated to be roughly \$3.0 million per biennium, including staff for the operation, data integration, and maintenance, as well as the network-related costs due to the Department of Administrative Services (DAS). Also approved were 3 new permanent positions (1.75 FTE) and an additional 1.86 FTE to continue three existing limited duration positions for the remainder of the biennium. Two of these three limited duration positions, the Project Director and Systems Integration positions, are made permanent. DAS is instructed to unschedule \$495,000 of this appropriation, which represents the project contingency funds. The agency can make a request to DAS and the Legislative Fiscal Office to reschedule these contingency funds if need arises before the end of the biennium. The Chief Education Office is instructed to report to the Emergency Board prior to October 1, 2016 on the project's progress and expenditures.

### **Teacher Standards and Practices Commission**

Senate Bill 78 (2015) appropriated \$200,000 General Fund to the Teacher Standards and Practices Commission to be transferred to the Teacher Education Program Accreditation Account. This funding was intended to support grants for teacher education programs that incur costs associated with national teacher accreditation. According to current accounting practices, the agency needs to expend the \$200,000 as “Other Funds,” requiring an Other Funds expenditure limitation increase of \$200,000 so these grants may be awarded.

### **Various Agencies**

The Subcommittee approved the transfer of \$2.0 million General Fund from the Oregon Department of Education (ODE) to the Higher Education Coordinating Commission (HECC). These funds had been part of a larger investment in Career and Technical Education (CTE) and Science Technology Engineering and Mathematics (STEM) programs appropriated to ODE in House Bill 5016 (2015). One component of this CTE and STEM investment was a program related to post-secondary success to provide start-up funding and support services for the recruitment, retention, and attainment of underserved students in post-secondary programs related to high-demand fields including, but not limited to, health sciences, computer science, engineering, high tech manufacturing, precision agriculture, and advanced food processing. This program is more appropriately administered by HECC.

The Subcommittee approved one-time increases in the General Fund appropriations for the Chief Education Office, HECC, and ODE for student transitional services and supports between secondary and post-secondary education. This distribution reflects, in part, the product of a workgroup organized by HECC to recommend what services should be funded by a \$6,865,921 General Fund special purpose appropriation made in Senate Bill 418 (2015). This bill eliminates the special purpose appropriation and uses some of these resources to fund transitional services under House Bill 4076. Additionally, a total of \$4,025,000 is appropriated for transitional services and supports between secondary and post-secondary education as outlined below.

	<b>General Fund Appropriation</b>
<b>Chief Education Office</b>	
Summer summit for high school and post-secondary staff including counselors and financial aid staff	\$ 300,000
Local collaboration between high school counselors and post-secondary advisors	\$ 700,000
<b>Higher Education Coordinating Commission (HECC)</b>	
Community College support for improved Developmental Education models	\$ 600,000
Community College support for development and alignment of Career Pathways	\$ 600,000
Expansion of eMentoring for Oregon Promise students	\$ 120,000
Statewide expansion of FAFSA Plus	\$ 105,000
Subscription of Signal Vine connecting with students via two-way texting	\$ 100,000
Evaluation and tracking implementation of transitional supports and services in this bill	\$ 50,000
<b>Oregon Department of Education</b>	
License for College and Career Readiness counselor training modules	\$ 50,000
Expansion of AVID or similar program for high schools	\$ 1,400,000
<b>Total</b>	<b>\$ 4,025,000</b>

## HUMAN SERVICES

### **Oregon Commission for the Blind**

The Subcommittee approved one-time increases of \$680,109 General Fund, \$199,049 Other Funds, and \$3,248,343 Federal Funds to purchase vending machine equipment for the agency's Business Enterprise Program. The Department of Administrative Services is expected to unschedule these amounts, which may only be rescheduled based upon the successful request of federal reallocation funds from the U.S. Department of Education.

### **Oregon Health Authority**

Senate Bill 5701 adjusts the Oregon Health Authority (OHA) budget for updated pricing of program caseloads, costs, and revenues to "rebalance" the budget. This information was presented at the January 2016 meeting of the Interim Joint Committee on Ways and Means. The agency's rebalance plan resulted in an overall General Fund shortfall of \$37.6 million. This net position included budget problems of \$129.7 million General Fund related to increases in caseload and other program costs. Savings of \$67.1 million General Fund resulted from a change in the federal match rate, as well as from additional revenues from a number of sources. In addition, the agency is planning to implement management actions to decrease costs by \$25 million General Fund. These include an acceleration of the redetermination process next year, a delay in fee-for-service rate adjustments, and enhanced savings from program integrity efforts, including fraud detection.

The rebalance plan increases Federal Funds expenditure limitation by almost \$1 billion, mostly related to the increased caseload forecast. There are also a number of technical adjustments included in the rebalance. While these normally net to zero for the agency as a whole, in this case there is a transfer of 14 positions from the Department of Human Services to OHA.

As discussed during the 2015 legislative session, the agency has implemented an agency restructure as a part of this rebalance. The new structure is designed to promote health care transformation, including integration of physical, behavioral, and dental health. This structure better reflects the new work of coordinated care organizations, as well as public health programs aligned with system transformation. Most significantly, the old Medical Assistance Programs (MAP) and Addictions and Mental Health (AMH) are eliminated in the restructure, with MAP and community mental health and addictions programs moving to the new Health Systems Division (HSD). The Oregon State Hospital (OSH) will now be its own budget structure.

As a part of the agency restructure, a thorough review of positions was conducted. Partly historical, dating back a number of years, and partly as a result of the implementation of health care transformation and the Affordable Care Act when many staff were brought on to perform time-sensitive tasks, the agency found itself with many staff but without appropriate position authority. In addition, as health care transformation moved forward, the agency needed fewer positions in some areas but more and/or different kinds of positions in other areas. The true-up included in the rebalance resolves issues of permanent staff not having position authority, as well as limited duration staff that had been used for on-going functions and priorities now becoming permanent positions. Overall, the changes are budget neutral and result in a reduction of two positions and an increase of 9.52 FTE.

The agency continues to face a number of budget risks that were not explicitly included in the rebalance plan. These include changes to caseloads, prescription drug costs, increased Aid and Assist population in the Oregon State Hospital, and costs of pending litigation. The special purpose appropriation of \$40 million that was established during the 2015 legislative session for OHA or the Department of Human Services will remain in place to address caseload costs or other budget challenges that the agencies are unable to mitigate.

The Subcommittee approved the agency's rebalance plan, with one notable exception. Costs of \$17 million General Fund related to the Medicaid Oregon eligibility (ONE) system were not funded at this time. These are costs to maintain the old eligibility system for litigation purposes after the contract with Oracle expires in March 2016. In addition to rebalance adjustments, the Subcommittee approved \$25 million of additional hospital assessment revenue that is remaining from the program ending September 30, 2015, which will be used in the budget in place of General Fund.

Overall, the adjustments made in Senate Bill 5701 result in an increase in the agency's total funds budget of \$1.1 billion, a reduction of General Fund of \$1.5 million, and an increase of 21 positions (22.88FTE). These numbers do not include budget changes related to employee compensation cost changes, which total \$20.8 million General Fund and \$37.8 million total funds, and are also included as part of Senate Bill 5701.

A more detailed description by program area follows.

## Health Systems Division

The budget adjustments in Senate Bill 5701 reflect a net \$8.3 million decrease in General Fund in the Health Systems Division (HSD), with a \$75.4 million increase in Other Funds expenditure limitation and a \$964.7 million increase in Federal Funds expenditure limitation.

The rebalance plan for HSD approved by the Subcommittee includes increased caseload costs of \$84.4 million General Fund. Caseload forecasts are up primarily because redeterminations have been delayed several times over the past year. With the recent implementation of the new ONE eligibility system, the agency anticipates catching up on redeterminations over the next year. While the caseload forecasts have attempted to build in the timing of these redeterminations, forecast risks will remain higher than usual until the data has settled down over an extended period of time and there is good historical information on which to base the forecasts. Other costs include \$10.7 million General Fund for an increase in the Medicare Part D clawback required by the Centers for Medicare and Medicaid Services (CMS). Medicare Part B premiums have also increased, resulting in a General Fund need of \$7.2 million. Oregon pays these premiums for clients that are eligible for both Medicare and Medicaid. Eight additional Federally Qualified Health Centers (FQHCs) are moving to the alternative payment methodology, resulting in a one-time cost of \$3.1 million General Fund.

The rebalance plan includes a General Fund need of \$20.9 million General Fund for the new ONE eligibility system. Additional refinement of operational and maintenance costs for the system have resulted in a need for \$3.9 million General Fund above what is currently budgeted. The remaining \$17 million represents the costs to maintain the old eligibility system for litigation purposes after the contract with Oracle expires in March 2016. The Subcommittee did not approve that \$17 million General Fund in the final budget.

The rebalance plan includes a total of \$63.4 million General Fund savings in HSD. This includes a \$10.2 million savings resulting from an increase in the federal match rate for Oregon, and \$11.8 million freed up by an increase in the tobacco tax revenue forecast for the biennium. In addition, \$25 million of Other Funds are left over from 2013-15 and can be used to replace General Fund for the current biennium. Settlements and drug rebate revenues are coming in about \$15 million above budget and will replace General Fund as well. Finally, caseloads related to forensics patients living in the community went down slightly for a savings of \$1.4 million.

The rebalance plan includes management actions to decrease costs by \$25 million General Fund, all in HSD. These include an acceleration of the redetermination process next year, a delay in fee-for-service rate adjustments, and enhanced savings from program integrity efforts, including fraud detection. Finally, the rebalance includes an additional \$964.7 million in Federal Funds expenditure limitation, primarily because of the increased caseload. An addition of \$40.4 million Other Funds expenditure limitation results from the additional revenues discussed above.

In addition to rebalance adjustments, the Subcommittee adjustments include the addition of \$35 million of additional hospital assessment revenue that remains from the assessment program that ended September 30, 2015. Of the total, \$25 million will be used to replace General Fund in the 2015-17 budget, while the remaining \$10 million Other Funds has been approved for one-time investments in rural hospital transformation and sustainability as outlined below. These recommendations were brought forward by a workgroup required by a Senate Bill 5507 (2015) budget note.

For investment in rural health provider workforce capacity, it is expected that at least \$1.5 million Other Funds will be used to support the work of Oregon's Graduate Medical Education Consortium.

Investments in small and rural hospital transformation strategies include: establish transitional post-acute care programs (cost of \$4 to \$7 million over three years), establish virtual clinics in communities with acute primary care shortages (cost of up to \$1.1 million), and provide education for rural providers on population health (cost of \$100,000). Costs associated with each option available to rural hospitals will depend on the number of hospitals that pursue each option. Rural hospitals have the flexibility to select one or more options depending on local needs. The funding for hospital programs will be distributed through OHA, to the Oregon Association of Hospitals Research and Education Foundation, which will collaborate with OHA to identify related baseline and outcome data on each project and report that data to OHA as well as provide the funding to implement each of the projects available to rural hospitals.

The following budget note was approved by the Subcommittee.

**Budget Note:**

The Oregon Health Authority shall identify and track related outcomes on each project that is implemented as a result of the \$10 million investment in rural hospital transformation and sustainability, shall provide regular updates to the Legislative Fiscal Office and the Department of Administrative Services Chief Financial Office, and shall report back to the Joint Committee on Ways and Means during the 2017 legislative session on the implementation and status of the projects, outcomes to date, costs to date, as well as recommended policies which will improve population health outcomes in rural Oregon.

The Subcommittee included \$2 million General Fund for the Medicaid Primary Care Loan Repayment Program. This program was funded in the 2013-15 biennium, but not in the current biennium. The budget also includes \$0.5 million General Fund for negotiated compensation cost changes for non-state employees. As discussed above, most of the special purpose appropriation of \$10.7 million, which had been set aside for this purpose, was distributed to OHA and the Department of Human Services.

The Subcommittee included \$900,000 of one-time General Fund for planning and start-up costs related to providing medical assistance for additional children in Oregon. The following budget note was approved.

**Budget Note:**

The Oregon Health Authority is directed to develop a plan and recommendations for extending medical assistance to children not eligible under ORS 414.231(3) including: eligibility criteria, coverage options, enrollment estimates, issues of equity and inclusion, integration with other programs, outreach, administrative and staffing changes, phasing options, and cost estimates. In developing the recommendations, the agency is expected to engage stakeholders and legislators, and utilize information on experiences in other states. The agency will report back to the appropriate committees during the 2017 legislative session on their plan and recommendations.

**Oregon State Hospital**

The rebalance plan approved by the Subcommittee for the Oregon State Hospital (OSH) includes \$2.7 million General Fund to finish the implementation of the Avatar system, the electronic health record system at the hospital. Much of the Avatar system has been completed and adopted into the normal workflow processes. This includes the Clinician Work state, Lab Management, and Food and Nutrition Services.

However, the Medication Management and the Billing modules have not yet been fully implemented and adopted into the workflow processes. Implementation of the medication management module will allow the use of automated dispensing of medication, as well as electronic medication administration records. A recent Secretary of State audit noted the importance of finishing this work, both from an efficiency and patient safety perspective. The Billing module will assist in more accurate and timely reimbursement requests to Medicare, Medicaid, and third party insurance providers. The agency has contracted with a company to assist with the final adoption and implementation of these parts of the system.

The rebalance plan also includes the transfer of \$10 million General Fund from OSH to Statewide Assessments and Enterprise-wide Costs (SAEC). This funding was put in the OSH budget to be used for cost allocation purposes once the agency had done a thorough review of cost allocation issues within OSH and agreed with CMS on a new cost allocation plan. Once cost allocation is actually implemented, the funding will need to be in SAEC.

Although the agency believed it was too early to bring forward as a formal request, there is risk to the Oregon State Hospital budget. The Aid and Assist population at the hospital continues to grow and may ultimately result in the need to open an additional ward. The agency is in the process of implementing several investments that are expected to ease the pressure from this population, and so at this point is not requesting any funding. OSH is also closely monitoring the use of overtime, particularly as it relates to staff use of the federal Family and Medical Leave Act, and may eventually request additional positions to deal with these issues.

#### Public Health

The Subcommittee approved an Other Funds expenditure limitation of \$4.0 million and two permanent positions (1.00 FTE) for a youth marijuana-use prevention pilot project as required in House Bill 4014. The one-time funding for this program will be transferred from the Oregon Liquor Control Commission Account, to be repaid out of marijuana tax revenues. This evidence-based pilot project will serve as a basis for establishing a statewide program during the 2017-19 biennium. The distribution of marijuana taxes during the 2017-19 biennium may be adequate to fund the statewide program, but if not, the agency will need to request additional funding to operate an ongoing program.

The agency anticipates establishing a new fee for medical marijuana processors, and increasing the fee on growers, effective April 1, 2016. These fees are necessary to pay for the increased costs to the program with the changes that resulted during the 2015 session. The increased expenditure limitation was included in the agency's 2015-17 legislatively adopted budget.

The agency anticipates a fiscal impact from House Bill 4014 and Senate Bill 1511, which make changes to both the medical marijuana and recreational marijuana systems. In addition to the pilot project discussed above, House Bill 4014 requires the agency to issue receipts to medical marijuana registry applicants on the same day that they are received. This is expected to require additional staff. Senate Bill 1511 allows producers, processors, and distributors that currently are limited to medical marijuana only to choose to operate in both the medical and recreational markets. In that case, both the licensing revenue and the regulatory functions related to those entities will move to the Oregon Liquor Control Commission (OLCC). In the short run, this will create additional workload for program staff in Public Health, as paperwork is completed to allow the entities to shift. In the long run, OHA estimates up to a \$5.6 million loss of revenue during the 2015-17 biennium, as producers, processors, and dispensaries opt to be licensed and registered by OLCC. While the agency would also experience some cost reductions as less regulatory work would be required, it is likely that the revenue reduction would occur sooner than the costs can be reduced. The overall effects cannot be estimated accurately at this time.

The agency expects to include the necessary adjustments to expenditure limitation, as well as adjustments to numbers and classifications of positions needed, in the rebalance they will submit during the fall of 2016. In their rebalance report, the agency will also report on the estimated revenue loss and its program impact. A number of on-going core public health programs are funded with fee revenue generated through the medical marijuana program. If revenues are inadequate to fund these programs, General Fund could be required to continue these programs, or the programs would need to be reduced or discontinued. These programs include state support for local public health departments, the Safe Drinking Water Program, Emergency Medical Services, and others.

One full-time position (0.38 FTE) was approved for the Prescription Drug Monitoring Program for workload associated with House Bill 4124.

#### Central and Shared Services/Statewide Assessments and Enterprise-Wide Costs

The rebalance plan approved by the Subcommittee for the administrative units of the agency includes \$0.6 million General Fund for mass transit costs and treasury fees that were not included in the original budget. In the future, these need to be incorporated in the budget build process.

Debt service is also included within these budget units. The Oregon State Hospital Replacement Project is expected to close out with a surplus of \$3.7 million in bond proceeds. This surplus will be used to pay down debt service and free up General Fund. Another \$0.4 million Other Funds expenditure limitation has been identified by the Department of Administrative Services as available to pay debt service on these bonds, also freeing up General Fund.

#### Department of Human Services

The 2015-17 budget for the Department of Human Services (DHS) is built around nine budget structures and five appropriations. The budget structures reflect five direct program areas: Self Sufficiency (SS); Child Welfare (CW); Vocational Rehabilitation (VR); Aging and People with Disabilities (APD); Intellectual and Developmental Disabilities (IDD); and four program support functions: Program Design Services (PDS), Central Services (CS), Shared Services (Shared), and State Assessments and Enterprise-wide Costs (SAEC).

The majority of the DHS budget adjustments approved by the Subcommittee are driven by actions needed to rebalance the agency's budget. At the January 2016 meeting of the Interim Joint Committee on Ways and Means, the agency presented a rebalance report indicating a significant funding need – \$71.7 million General Fund – to sustain programs for the remainder of the biennium. This projection incorporates a number of issues affecting the agency's budget, including caseload changes, increases in cost per case, and other program changes or issues arising since the 2015 legislative session.

The biggest drivers of the budget deficit are caseload costs in the APD and IDD programs, some of which are compounded by collective bargaining actions and federal regulations. While these issues were identified as budget risks during the 2015 session and handled either directly in the budget or through special purpose appropriations, some costs were not adequately estimated. In addition to costs, the DHS rebalance calculation does factor in caseload savings in Temporary Assistance for Needy Families (TANF) and from federal match rate changes. The approved rebalance plan addresses part of the budget gap by directly adding \$37.4 million General Fund to the budget; however, this leaves about \$34.9 million General Fund associated with APD and IDD caseload costs unfunded (as of the current projection; the unfunded amount may change as expenditures are recorded and projections evolve).

The special purpose appropriation of \$40 million that was established during the 2015 legislative session for DHS or OHA has been left untouched and continues to be available for the Emergency Board to allocate to help cover caseload costs or other budget challenges that the agencies are unable to mitigate. However, if demand ends up being greater than the amount of funding set aside, other legislative action may be required early in the 2017 session. DHS will continue to closely monitor caseload counts and costs in all programs, while continuing to develop long term solutions to ensure budget sustainability.

Regarding sustainability, the budget report for House Bill 5026 (2015), contained a budget note directing the agency to report, during the 2016 legislative session, on ways to ensure program sustainability specifically for the APD and IDD programs. This direction was in response to concerns about budget growth and increases in both caseload volume and costs. The agency engaged an external consultant to support the development of independent and unbiased options for program sustainability. The final report, produced by the Lewin Group, was received on February 10, 2016, and identifies potential strategies for “bending the cost curve” in these programs. Suggestions primarily revolve around changing eligibility, modifying services, and increasing participant cost-share. Input from stakeholders was included in the report; while they acknowledge that projected program costs are unsustainable, there are varying perspectives on how best to deal with costs.

Legislative members expressed frustration with the report, as it had a limited amount of modeling, was unable to capture all potential budget drivers, and did not result in a list of succinct options for potential action. Both the Lewin Group and DHS indicated this was primarily due to time and data constraints. A group of legislators, primarily from the policy and budget committees overseeing human services issues, is committed to working with the agency and stakeholders to develop policy and program change options discrete enough to be fully vetted and priced for potential budget action in the 2017 legislative session. DHS has also identified some areas where it can start to make some changes, mostly around best practices for assessing client needs and validating that the most appropriate services/service levels are being authorized. To formalize these efforts, the Subcommittee adopted the following budget note:

**Budget Note:**

- 1) The Department of Human Services is directed to take steps to provide policy and budget options for decision making that will be required during the 2017 legislative session to ensure future sustainability of the APD and IDD programs. Steps include further refinement, analysis, and pricing of viable options or ideas brought forth by the agency, stakeholders, and other interested parties; the focus should be on ways to control caseload growth and utilization. The agency will reach out to legislators, stakeholders, and partners to assist in this effort. In developing sustainability proposals, the Department shall prioritize options that minimize impacts on consumers and providers. The Department will also formally report, at a minimum, to the Emergency Board during Legislative Days in May and December 2016 on progress made under both parts of this budget note. The agency may also be requested to report to interim legislative policy committees on human services.
- 2) In addition to the work described above, the Department is also directed to take immediate actions that may help contain costs without changing the current service system structure and that do not require statutory changes. The agency’s action plan includes:
  - Review and correct, if needed, the relationship between assessment tools and program eligibility criteria;
  - Take action to more efficiently align service authorization with people’s needs, also consider appropriate limits;

- Work to limit use of overtime in service plans; but the agency should take into account workforce shortage areas, the needs of consumers, and changes to current consumer provider relationships;
- Continue discussions with CMS to prevent the conversion of natural support to paid support, with consideration for parental responsibility; and
- Further restrict the live-in program to prohibit live-in service plans when the individual lives in their family's home or the family lives with the individual and is served by that relative (they would still be served in the hourly program).

Overall, the adjustments made in Senate Bill 5701 increase agency's budget by just under \$350.0 million total funds; comprised of \$36,651,673 General Fund, \$27,557,059 Other Funds expenditure limitation, and \$285,760,479 Federal Funds expenditure limitation. The associated staffing changes result in a net increase of 16 positions (7.23 FTE). These numbers do not include budget changes related to statewide employee compensation, which total \$27.5 million General Fund (\$60.6 million total funds), and are also included as a part of Senate Bill 5701.

In addition to caseload cost underfunding and caseload forecast/cost volatility, there are other budget risks. These include costs associated with the approved settlement agreement for the *Lane v. Brown* lawsuit (reduce number of clients in sheltered workshops) and other legal expenses; federal changes to funding streams, program requirements, and possible sequestration; and impacts of economic changes, such as a recession.

A more detailed description of each program area's budget adjustments follows. For context regarding caseload changes, the 2015-17 legislatively adopted budget was based on the spring 2015 caseload forecast; the rebalance adjustments in Senate Bill 5701 factor in caseload and cost changes tied to the fall 2015 forecast, published in January 2016.

#### Self Sufficiency

The budget adjustments approved by the Subcommittee for the Self Sufficiency (SS) program reflect a decrease of \$36.7 million General Fund (and total funds) and 1 position (no FTE change).

The fall 2015 forecast projects the 2015-17 overall Supplemental Nutrition Assistance Program (SNAP) caseload to be 5.3% lower than earlier estimates. Embedded in the net decrease is a decrease in the number of SS households receiving SNAP, while the number of Aging and People with Disabilities households receiving SNAP continues to grow. Caseloads in the TANF cash assistance programs are down 11.6% from the spring numbers, at a biennial average of 24,787 families. Overall caseload savings of \$37.0 million General Fund are included in the agency's rebalance calculation and used to offset costs in other programs.

While the 2015-17 budget included significant investments in, and changes to, the Employment Related Day Care (ERDC) program, the agency estimates an additional \$709,327 General Fund is needed to fully cover costs of collective bargaining for day care providers. This amount includes \$600,000 for AFSCME child care providers that was not part of the agency's original rebalance request. The costs are covered with an allocation from the \$10.7 million General Fund special purpose appropriation for collective bargaining costs for workers who are not state employees.

Technical adjustments and transfers account for a decrease of \$0.5 million total funds for this program, most of which aligns the budget between SS and support functions. This action is consistent with past budgeting practices which have made these budget changes as part of the first rebalance after the budget was approved; similar adjustments are approved in other programs. Two part-time positions are also combined into one full-time position to better meet program needs.

The Subcommittee approved \$130,000 General Fund, on a one-time basis, for distribution to the Oregon Food Bank. Through purchase of a refrigerated truck, the funding will support expansion of the Fresh Alliance initiative. This food recovery program picks up donations of perishable food (nearing end of shelf life) from grocery stores and then makes that food available to hunger-relief agencies.

### Child Welfare

For Child Welfare (CW), the Subcommittee approved a decrease of \$0.5 million General Fund, an increase of \$0.3 million Other Funds expenditure limitation, an increase of \$1.8 million Federal Funds expenditure limitation, and a decrease of 1 position (no FTE change).

Forecasts for individual caseloads within CW have fluctuated slightly between the spring and fall forecasts, with associated budget changes primarily due to an increase in cost per case. A net increase of \$1.9 million General Fund and \$4.4 million total funds is identified as being needed to fund caseloads, most of which is attributed to the Well Being program. The rebalance does include savings from a change in the Federal Medical Assistance Percentage (FMAP), decreasing the need for General Fund. Based on the latest federal estimates, the 2015-17 biennial average FMAP rate will increase from 64.21% to 64.37%, which reduces the state contribution and draws down additional federal dollars. This change will also affect other agency programs.

The agency's rebalance proposal included the establishment of a budget mechanism (\$19.5 million Other Funds expenditure limitation) to fully convert the General Fund budget for the Supporting, Preserving and Reunifying Families (SPRF) program into Other Funds. To avoid overstating the overall budget for this program, the approved rebalance plan does not include this adjustment. If, closer to the end of the 2015-17 biennium, DHS estimates it will underspend its General Fund budget for SPRF, the agency can request the legislature to approve paying those excess dollars into the SPRF fund (converted into Other Funds).

Technical adjustments and transfers are approved for this program, which generally align the budget between CW and support functions. A position action is included to combine two part-time positions into one full-time position to better meet program needs.

### Vocational Rehabilitation

The budget approved by the Subcommittee for Vocational Rehabilitation (VR) reflects increases of \$3.3 million General Fund, \$8.5 million Federal Funds expenditure limitation, and 8 positions (9.89 FTE).

The fall 2015 forecast projects the 2015-17 VR caseload to be about 1% lower than the spring estimate. Any potential savings associated with fewer clients is masked by higher than projected costs per case, which have grown by 16.3% from the spring 2015 forecast. Higher costs continue to be driven by an increase in the number of clients with cognitive and psychosocial disabilities who have complex needs that are more challenging to meet.

To maintain the program and cover these costs without activating the Order of Selection (priority wait list), the program estimates needing about \$7.5 million General Fund, since base federal dollars are capped. However, the rebalance plan uses \$8.5 million in one-time federal reallocation dollars to cover these costs for the 2015-17 biennium; these resources would need to be backfilled with General Fund in the 2017-19 budget to sustain program services. Another \$1.0 million of the one-time monies would cover costs associated with implementation of the federal Workforce Innovation and Opportunities Act (WIOA).

Technical adjustments and transfers account for an increase of \$3.3 million total funds and 11 positions (9.92 FTE); the dollars and the positions are associated with moving work tied to the Governor's Executive Order 15-01 and the Employment First policy package from Intellectual and Developmental Disabilities to VR. This position increase is partially offset by other actions converting part-time positions to full-time.

#### Aging and People with Disabilities

For the Aging and People with Disabilities (APD) program, the Subcommittee approved budget increases of \$33.5 million General Fund, \$17.2 million Other Funds expenditure limitation, and \$119.3 million Federal Funds expenditure limitation; no position changes were needed. The increases cover all but about \$8.7 million General Fund (plus corresponding Federal Funds expenditure limitation) of the agency's current projected budget shortfall associated with caseload costs. As noted previously, it is expected that most of these costs can be addressed via an allocation from the special purpose appropriation to the Emergency Board.

Caseloads in long-term care facilities are slightly above the level funded in the legislatively adopted budget. In-home and community-based facilities' caseloads are essentially flat, while nursing facilities' caseloads are 3.2% higher. Since nursing care is more expensive, that increase is driving a need for \$7.0 million General Fund and \$23.0 million total funds. A portion of these costs are offset by net savings in nursing facility rates of \$1.8 million General Fund (\$6.0 million total funds). Rates are anticipated to be lower in the second year of the biennium based on projected bed reduction targets; rates were pegged to those targets under House Bill 2216 (2013).

A key budget driver related to APD caseloads are costs per case associated with in-home care. Labor agreements and actions required by federal regulations are increasing hourly costs, while higher acuity and need levels are influencing service levels (hours per client). For some program services, cost per case has grown by as much as 15% over the spring forecast estimate. The approved rebalance plan covers \$13.8 million General Fund for overtime pay for home care workers that is being driven by federal labor regulations. Due to wage increases for these same workers, \$3,351,396 General Fund is added and is supported by an allocation from the \$10.7 million General Fund special purpose appropriation for compensation changes driven by collective bargaining for workers who are not state employees. In the approved rebalance plan, savings in community-based care are used to offset some of the in-home need.

Collective bargaining (rate increases) for adult foster care is behind an increase of \$1,241,568 General Fund (\$4.2 million total funds); this increase is also covered by an allocation from the special purpose appropriation for non-state worker collective bargaining. After allocations made in both the DHS and OHA budgets as part of Senate Bill 5701, there is \$700,147 remaining in that special purpose appropriation. It is anticipated that DHS and OHA will request this funding once outstanding bargaining issues are resolved; actual costs may vary based on outcomes.

APD's rebalance plan also includes \$4.0 million General Fund in savings due to the FMAP change noted previously, and another \$5.0 million General Fund savings tied to accessing more federal dollars for newly eligible clients.

To meet federal program requirements, the agency needs \$16.6 million Other Funds expenditure limitation for waived case management services. The approved limitation will help separately track program expenditures and receive the allowed higher match rate.

An expenditure limitation of \$7.0 million Federal Funds is included in the plan to reflect expenditures allowed under OHA's Designated State Health Program (DSHP) waiver associated with Oregon Project Independence.

Technical adjustments and transfers account for a net decrease of \$2.3 million total funds.

#### Intellectual and Developmental Disabilities

The rebalance changes approved by the Subcommittee for the Intellectual and Developmental Disabilities (IDD) program are increases of \$33.2 million General Fund and \$112.3 million Federal Funds expenditure limitation; positions were reduced by 11 (9.92 FTE). The increases cover all but about \$26.2 million General Fund (plus corresponding Federal Funds expenditure limitation) of the agency's current projected budget shortfall associated with caseload costs. As noted previously, it is expected that most of these costs can be addressed via an allocation from the special purpose appropriation to the Emergency Board.

Both caseloads and cost per case in IDD programs are expected to be higher than the previous forecast, driving an overall increase of \$64.6 million General Fund (\$210.3 million total funds). Caseload counts, particularly for children, are well over the spring 2015 forecast. This continues to be directly related to the K Plan, as under that state plan option services must be provided to all eligible applicants. Costs per case also continue to grow as they are driven by assessed client needs and no longer subject to any monetary caps.

The approved rebalance plan includes \$3.0 million General Fund to restore a reduction action taken during 2015-17 budget development. This amount was offered up by the agency as a reduction during session, but was attributed to the wrong program; if left in place the cut eliminates staff supporting children's programs. Participation rate changes for brokerage case management are driving an increase of \$2.1 million General Fund; the Department has a plan to improve participation rates going forward through provider training.

Labor agreements and federal rule changes also drive costs for IDD. Collective bargaining (rate increases) for adult foster care drives an increase of \$2,066,520 General Fund (\$7.0 million total funds). This change is covered by an allocation from the special purpose appropriation for non-state worker collective bargaining. Another allocation from the same source of \$2,133,480 General Fund (\$7.0 million total funds) is also approved to pay bargained wage increases for personal support workers. To address overtime rules also affecting personal support workers, \$3.2 million General Fund is added; this is part of a \$17 million General Fund need (APD and IDD combined) for this issue identified during the 2015 legislative session.

Some savings are available to help partially offset costs. In some parts of the program, Medicaid participation rates have improved and are projected to reduce General Fund spending by \$5.6 million. The change in the FMAP rate is anticipated to save \$4.6 million General Fund.

Technical adjustments and transfers reduce the IDD budget by \$4.6 million General Fund (\$6.2 million total funds) and 11 positions (9.92 FTE), most of which is moving the VR portion of the additional Employment First resources approved for 2015-17 from IDD to VR.

### Program Design Services

In Program Design Services (PDS), the Subcommittee approved a decrease of \$0.2 million General Fund, an increase of \$7.6 million Other Funds expenditure limitation, an increase of \$40.9 million Federal Funds expenditure limitation, and an increase of 32 positions (13.70 FTE). These adjustments include some small technical adjustments, but the changes mostly consist of budget increases needed to cover the next phase of the agency's Integrated Eligibility (IE) information technology project.

In House Bill 5026 (2015), DHS received \$750,000 General Fund (\$7.5 million total funds) for planning to improve eligibility determination systems for non-MAGI (Modified Adjusted Gross Income) Medicaid programs. These programs primarily serve clients in the APD and IDD programs. However, after planning work and a changing information technology landscape due to implementation of OHA's OregonONEligibility (ONE) system, the project approved by the Subcommittee will enhance ONE to support eligibility determinations for the non-MAGI Medicaid programs, plus the Supplemental Nutrition Assistance Program (SNAP), Temporary Assistance for Needy Families (TANF), and Employment Related Day Care (ERDC) programs.

The additional project funding in Senate Bill 5701 is \$47.9 million total funds. When coupled with the previously authorized planning money, the overall 2015-17 project budget represents about 43% of the overall estimated project cost of \$130 million total funds. Based on current federal match estimates, about 85% of project costs will be covered by federal dollars. In House Bill 5202, the Joint Ways and Means Subcommittee on Capital Construction approved \$7.5 million in proceeds from Article XI-Q Bonds to cover the state share of the project for the current biennium. DHS estimates that the project will take 33 months to execute, with completion targeted for the end of 2018. The 2017-19 state share of the project is estimated at about \$15 million and includes debt service on the 2015-17 bonds. The staffing component of the project is 35 limited duration positions (15.83 FTE), primarily consisting of project managers and operations/policy analysts. These resources would supplement permanent employees (information technology, fiscal, policy, management) that are located in both DHS and OHA; some of these resources had been previously approved for work on other system improvement initiatives and the ONE project.

Both the Joint Committee on Ways and Means Subcommittee on Human Services and the Joint Legislative Committee on Information Management and Technology (JLCIMT) reviewed the project. The JLCIMT recommended incremental, conditional approval of the request and set out several action items, in its recommendation to the Joint Committee on Ways and Means, which were adopted. The Subcommittee approved the project with the understanding that the funding will be unscheduled until the Legislative Fiscal Office and the Chief Financial Office of the Department of Administrative Services approve rescheduling; agency compliance with the JLCIMT recommendations will be key to making expenditure limitation available. Depending on project progress and timing, the Department may be asked to report during the interim to the Emergency Board and/or JLCIMT.

### Central Services

The budget adjustments, associated with technical change and transfers, included in Senate Bill 5701 for Central Services, are net decreases of \$0.3 million total funds and one position (1.00 FTE).

### Shared Services

The Subcommittee approved a net decrease of \$0.8 Other Funds expenditure limitation and 10 positions (5.44 FTE) for Shared Services. Included in this adjustment is the transfer of 11 positions (7.37 FTE) from the Provider Audit Unit within the Office of Payment Accuracy and Recovery

into OHA Central Services. This change is consistent with guidance from the federal Centers for Medicare and Medicaid Services regarding this unit's responsibility for auditing Medicaid providers.

#### Statewide Assessments and Enterprise-wide Costs

The budget adjustments approved by the Subcommittee include technical adjustments and transfers accounting for an increase of \$5.6 million General Fund (\$9.1 million total funds), primarily to align the assessment budget with 2015-17 policy package changes in program budget structures. There is also an adjustment to align with positions being moved to OHA from DHS Shared Services.

The approved rebalance plan includes \$118,318 General Fund (\$277,566 total funds) to cover Treasury fees. Due to an oversight during 2015-17 budget development, this line item, which is driven by the cost of banking services, was not adequately funded in the base budget. Also accounted for is an adjustment to capture and spend lease revenue, which reduces the need for both General and Federal Funds resources. To match up with the APD budget, \$2.5 million Other Funds expenditure limitation is added to support the budget mechanism for recording waived case management expenditures.

The agency's 2015-17 budget includes \$839,543 General Fund for debt service associated with the Central Abuse Management (formerly known as the Statewide Adult Abuse Data and Report-Writing System) and assumes a bond sale early in the biennium. Current project timing indicates the sale will not need to occur until spring 2017. Based on that timeframe, the debt service is eliminated because it is not needed; this savings amount is not included as a resource within the DHS rebalance plan.

## **JUDICIAL BRANCH**

### **Commission on Judicial Fitness and Disability**

The Subcommittee increased the General Fund appropriation for extraordinary expenses by \$172,000, equivalent to a 74.8% increase over the level of General Fund in the Commission's 2015-17 legislatively adopted budget. The funds were appropriated to pay the Commission's costs incurred from the investigation and prosecution of two charges of judicial misconduct. The action increases the General Fund appropriation for extraordinary expenses to \$189,753. The revised funding level covers the costs-to-date identified by the Commission, and provides an additional amount of approximately \$20,000 for projected Commission costs associated with the Supreme Court review of the cases. The agency will need to request additional funding later in the biennium, if the costs of completing the two current cases exceed projection, or if the Commission approves any additional cases for formal investigation. If the full appropriation is not needed, any remaining funds will be available to cover extraordinary expenses in the 2017-19 biennium. The General Fund increase was approved on a one-time basis and will be phased out in the development of the agency's 2017-19 budget.

### **Judicial Department**

The Subcommittee approved increases in total Judicial Department expenditures of \$17,454,547. The expenditure changes include a General Fund increase of \$8,389,259. Budget adjustments include employee compensation adjustments plus the specific items identified below.

The Subcommittee increased the General Fund appropriation for judicial compensation by \$630,000 for the 2015-17 biennium cost of providing a \$5,000 per year salary increase to all statutory judges, beginning on January 1, 2017. The salary increase is enacted by Senate Bill 1597, the 2016 session program change bill. The fiscal impact of the salary increase will increase to \$2,520,000 General Fund beginning with the 2017-19 biennium, when it will be in effect for the full biennium.

A \$200,000 General Fund increase was approved for the Oregon State Bar Legal Assistance Program (Legal Aid) for legal assistance in housing-related issues. As is the practice with unrestricted General Fund appropriations for Legal Aid, this supplemental funding is approved on a one-time basis and will be phased out in the development of the 2017-19 budget. The General Fund appropriation increases combined total 2015-17 biennium state support for Legal Aid, from both Other Funds (court filing fees) and General Fund sources, to \$12,700,000.

The Subcommittee increased the Other Funds expenditure limitation for the State Court Technology Fund (SCTF) by \$5,330,000 for costs of maintaining and supporting state court electronic systems and providing electronic service and filing services. The expenditure limitation increase largely reflects a higher rate of electronic filing of court documents than was anticipated when the Chief Justice's recommended budget was developed. The Department uses SCTF moneys to pay electronic filing charges and does not charge participating parties who file the documents. The SCTF is projected, following this authorization and the mid-biennium transfer of legacy technology fee revenues to the SCTF as required by Senate Bill 1597, to have a 2015-17 biennium ending balance exceeding \$860,000. SCTF resources are not, however, projected to cover costs in subsequent biennia without action to either increase SCTF revenues or reduce ongoing operating costs.

A \$2,800,000 Other Funds expenditure limitation increase was approved for the planning and design of a new Lane County Courthouse facility through the Oregon Courthouse Capital Construction and Improvement Fund (OCCCIF). This expenditure limitation amount allows for expenditures of up to \$1.4 million of Article XI-Q bond proceeds and of up to \$1.4 million of required county matching funds for the Lane County Courthouse project. Project bonds are authorized in House Bill 5202. The approved bond authority is in addition to the bond proceeds that were previously authorized for the 2015-17 biennium: \$17.4 million for the Multnomah County Central Courthouse project, \$2.5 million for the Jefferson County Courthouse project, and \$7,875,000 for the Tillamook County Courthouse project. Debt service costs for the Article XI-Q bonds authorized for the Lane County Courthouse project are projected to total approximately \$233,000 General Fund per biennium, beginning in the 2017-19 biennium. Because the bonds will not be issued until the spring of 2017, there will not be debt service payments due in the current biennium.

The approval of Article XI-Q bonds for planning and design of the Lane County Courthouse does not create or imply any commitment to provide state funds for the construction of the facility. The Subcommittee also increased the Judicial Department operations Other Funds expenditure limitation by \$45,000 for the cost of issuance of Article XI-Q bonds for planning and design of the Lane County Courthouse facility.

The Subcommittee approved the following budget note concerning courthouse funding through the Oregon Courthouse Capital Construction and Improvement Fund:

### **Budget Note:**

The Chief Justice or his designee is requested to present a report to the Emergency Board, no later than December 2016, with a priority ranking and the projected costs of courthouse capital construction projects for which he may, within the next twelve years, request state funding support from the Oregon Courthouse Capital Construction and Improvement Fund. The report shall include recommendations for stabilizing biennial funding request amounts over the ten-year period beginning with the 2019-21 biennium.

### **Public Defense Services Commission**

The Subcommittee increased the General Fund appropriation for the Contract and Business Services Division by \$18,834. The appropriation funds payment of a Secretary of State service charge that was omitted from the agency budget in error.

## **LEGISLATIVE BRANCH**

The Subcommittee approved a net-zero General Fund rebalance. The adjustments include reductions to agency budgets to account for higher than anticipated reversions from the 2013-15 biennium, a \$180,000 increase for chamber improvements, and an increase of \$6.7 million in Legislative Administration for facilities projects. Unused bond proceeds of \$2.4 million are used to pay debt service in lieu of General Fund. The facilities projects will be the beginning of a \$50 million Capitol project that will make improvements to the mechanical, electrical, and plumbing systems; address security and life safety issues; and increase accessibility for people with disabilities. It is expected to take three years for all of the improvements to be completed. House Bill 5202 includes \$30 million in Article XI-Q bonds to continue the project into the 2017-19 biennium. The expenditure limitation for those bond proceeds are included in House Bill 5203, which is the bill for all capital construction limitations. The Subcommittee approved an Other Funds expenditure limitation of \$460,000 for the cost of issuance for the bonds. There is no debt service in the current biennium.

The Subcommittee also approved two new Other Funds expenditure limitations related to the Oregon Capitol Foundation. The Foundation is now a separate entity from the Legislative Administration Committee. The limitations include \$300,000 for the History Gateway and \$25,000 for expenses related to operations for the Foundation.

## **NATURAL RESOURCES**

### **Department of Agriculture**

The Subcommittee established a Federal Funds expenditure limitation of \$175,000 in the Administrative and Support Services program area to accommodate the awarding of a federal grant to be used for wolf depredation compensation claims, and for nonlethal preventative techniques.

The Subcommittee also increased Federal Funds expenditure limitation by \$1,700,000 and made a one-time \$539,338 General Fund appropriation as state match to pay for eradication efforts related to the Asian Gypsy Moth, a non-native invasive species, which was found in northwest Portland. The majority of the eradication project would occur during May and June of this year. On January 14, 2016, the U.S. Department of

Agriculture (USDA) notified the Department that \$1.7 million in federal funding would be made available for the eradication project. In the past, USDA has provided only 50% of eradication funding.

The Subcommittee also acknowledged that the Department anticipates increasing the wholesale seed dealer license from \$500 to \$750 in May 2016, and increasing the veterinary product registration fee from \$75 to \$100 in June 2016. The Other Funds revenues from these increases will be used, in part, to fund program compensation increases.

### **Columbia River Gorge Commission**

The Subcommittee increased the General Fund appropriation made to the Columbia River Gorge Commission by \$11,308 to match the amount provided to the Commission by the State of Washington for the 2015-17 biennium for operational costs. Included in the \$11,308 increase is \$6,000 for costs related to a once every five year audit; this amount is considered to be one-time and is not to be included in the base budget for 2017-19 budget development. The Subcommittee also eliminated the Commission's \$5,000 Other Funds expenditure limitation provided in the adopted Oregon budget since any non-General Fund revenues received by the Commission are expended through the Washington budget.

### **Department of Environmental Quality**

The Subcommittee approved a one-time \$100,000 General Fund appropriation for sampling, testing, and monitoring Harmful Algae Blooms. Of the total, \$30,000 will be used to purchase testing equipment so that samples do not need to be sent out of state for processing.

The Subcommittee also approved \$230,000 General Fund, on a one-time basis, to provide information for the 2017 legislative session on how a market-based carbon reduction system would work in Oregon. The money would be used to hire a full-time limited duration Operations and Policy Analyst 4 position (0.58 FTE). In addition, \$50,000 is to cover costs for an economic consultant to assist with research data and analysis. The DEQ work is to include:

- (1) Identify the type, scope, and design of the greenhouse gas emissions cap necessary to link with other jurisdictions and meet the state's greenhouse gas emissions reduction goals.
- (2) Assess how a market-based program would interact with existing programs, such as the Renewable Portfolio Standard, the Clean Power Plan, and the Clean Fuels program, and achieve the state's greenhouse gas emissions reduction goals.
- (3) Study and evaluate how existing market-based programs in other jurisdictions control leakage and how those methods might be adapted to align with Oregon's economy and business sectors.
- (4) Study and evaluate how existing market-based programs address potential impacts and benefits to disadvantaged populations and rural communities and how those methods might be adopted to Oregon.

The Subcommittee approved a \$2,500,000 General Fund appropriation to expand the Department's current Oregon Air Toxics Program. This will allow the immediate focus of increased air toxics monitoring efforts on cadmium, arsenic, and chromium hotspots in Portland, as well as, expand air toxics monitoring across the state. In addition, the increased funding will allow DEQ to develop a risk-based approach to air permitting for industrial sources through rulemaking. Over time this will allow DEQ to modify existing air permits to be risk-based. The air toxics monitoring funded through this appropriation uses moss collection and analysis to map pollution levels in Portland communities and develop maps of hot spots. This funding will allow the Department to purchase and set up two additional full air toxics monitoring stations that can be directed at areas with high levels of air toxics that are identified. A Natural Resources Specialist 3 position, three Natural Resources Specialist 2 positions, a

Chemist 2 position, and a Chemist 3 position are added as permanent positions for the monitoring and analysis work. DEQ will also use the funding to develop, through rulemaking, an Oregon specific air toxics program that ensures industrial hot spots are sufficiently controlled. During this process, discussions with local governments about their potential roles and involvement, either formally or informally, may occur. To work on this part of the program, six permanent positions were added (Principal Executive Manager E, Program Analyst 3, Natural Resources Specialist 4, Natural Resources Specialist 3, Operations and Policy Analyst 1, and Public Affairs Specialist 2). In all, 12 permanent positions (7.00 FTE) were added, with total Personal Services costs of \$1,266,789, Services and Supplies costs, including Professional Services, of \$883,211 and \$350,000 in Capital Outlay for monitoring equipment. This program is estimated to have a 2017-19 roll-up cost of \$3,626,239 General Fund.

### **Department of Fish and Wildlife**

The Subcommittee approved a one-time increase of \$180,000 Other Funds expenditure limitation to continue two limited-duration Natural Resource Specialist 2 positions authorized for one year in Senate Bill 5544 (2015). These two positions work with landowners to improve and protect sage grouse habitat.

### **Department of Forestry**

The Subcommittee approved an increase of \$23,115,122 in the General Fund appropriation made to the Department of Forestry, Fire Protection Division for the payment of emergency firefighting costs associated with the 2015 forest fire season. This amount is dedicated to the following specific uses:

- Unbudgeted emergency fire costs (\$19,558,783)
- Fire protection district deductibles (\$677,886)
- Training provided to Oregon National Guard troops (\$500,000)
- Oregon State Treasury loan interest (\$323,630)
- Severity resources (\$2,054,823)

The portion of the General Fund appropriation to the Department of Forestry included above for severity resources is offset by a reduction of the same amount in the special purpose appropriation that had been established for this purpose. In addition, Other Funds expenditure limitation is increased by \$56,334,408, which includes \$55,172,387 for unbudgeted emergency fire costs and \$1,162,021 for fire protection district deductibles.

The Subcommittee approved a decrease in the General Fund appropriation of \$238,581 and a decrease in the Other Funds expenditure limitation of \$726,392 made to the Oregon Department of Forestry for the payment of debt service. These amounts were originally included in the agency's budget for the payment of debt service obligations on bonds that were anticipated to be issued at the end of the 2013-15 biennium, but were not. This is a technical adjustment to remove the excess General Fund and Other Funds expenditure limitation from the agency's budget. An increase of \$45,000 Other Funds expenditure limitation was approved for the payment of bond issuance costs related to Article XI-Q General Obligation bonds to replace an equipment warehouse for the East Lane Fire Protection District.

The Subcommittee approved a General Fund appropriation of \$704,286 and an increase in the Other Funds limitation of \$813,594 for the implementation of a procurement and payment system replacement. The new system is intended to be an end-to-end solution for the agency, replacing its current ad-hoc system of manual and semi-automated information systems and processes. The funding includes the establishment of

four, 15-month, limited-duration positions (Project Manager 3, Information Systems Specialist 6, Accountant 1, and Procurement and Contract Specialist 3). The Subcommittee approved the project with the understanding that the funding will be uncheduled until the Legislative Fiscal Office (LFO) and the Chief Financial Office of the Department of Administrative Services approve rescheduling and that the agency comply with recommendations made by the Joint Legislative Committee on Information Management Technology (JLCIMT).

Recommendations include direction that the agency proceeds through the standard Stage Gate 3 process, including updated business case and other foundational documents. The agency will ensure that the independent quality management services contractor conducts an updated risk assessment and perform quality control reviews on the documents noted above. The agency will report back to JLCIMT or Emergency Board on project status in September 2016.

### **Department of Land Conservation and Development**

The Subcommittee approved an increase in the Other Funds expenditure limitation of \$216,000 to allow the agency to expend sub-grant funding received from the Oregon Office of Emergency Management made available through the Federal Emergency Management Agency. These funds will be used to aid in the development of local pre-disaster mitigation plans of local governments, including the cities of Albany, Medford, and Beaverton, Tillamook County, and cities within Tillamook County. A portion of this amount will be used to establish a limited duration Planner 2 position for 16 months (0.67 FTE).

### **Department of State Lands**

In the fall of 2015, sump pumps and the associated drainage pipe failed at the Department of State Lands' headquarters building in Salem. The Department made emergency, stop-gap repairs. The Subcommittee approved a one-time \$85,919 increase to the Capital Improvement Other Funds expenditure limitation for the repairs to date. Additional permanent repairs will be needed next summer; the Department will seek another expenditure limitation increase at an Emergency Board meeting.

The Department was awarded a U.S. Environmental Protection Agency grant for Wetland Program Development in the amount of \$347,502. During the 2015 legislative session, \$133,000 in one-time Federal Funds expenditure limitation was approved and uncheduled for this grant, pending retroactive approval to apply for the grant. This amount was intended to provide sufficient expenditure limitation for work through March, 2016. The Subcommittee approved the additional \$214,502 in one-time Federal Funds expenditure limitation to enable the Department to complete the work.

A reduction in Attorney General charges to reflect reduced rates in the legislatively adopted budget was inadvertently made to the Capital Improvement limitation and should have been made to the Common School Fund limitation. Other Funds expenditure limitation is decreased by \$176,890 for the Common School Fund and an increase of the same amount is made to Capital Improvements.

### **Water Resources Department**

The Subcommittee approved an increase in General Fund of \$705,288 to facilitate a groundwater study for the greater Harney Valley in coordination with the U.S. Geological Survey. The funding will support the establishment of a permanent Natural Resource Specialist position (\$130,288), one-time funding of \$400,000 for the drilling and construction of ten observation wells for data collection, and one-time funding of \$175,000 for the cost-sharing provisions of the groundwater study.

### **Oregon Watershed Enhancement Board**

The Subcommittee increased the Measure 76 Lottery Funds expenditure limitation for operations by \$40,123 to pay the costs of reclassifying the Administrative Manager position from an Administrative Specialist 2 to a Principal Executive Manager A and reclassifying the Capacity Coordinator from an Operations Policy Analyst 3 to an Operations Policy Analyst 4. The reclassifications are due to increased duties that resulted from an agency reorganization. These reclassifications were reviewed and supported by Department of Administrative Services Human Resources. In addition, Measure 76 Lottery Funds expenditure limitation was increased by \$17,329 to correct an error that omitted capital mall security assessments in the legislatively adopted budget for 2015-17.

## **PUBLIC SAFETY**

### **Department of Corrections**

The October, 2015 male prison population forecast was as much as 200 beds higher than the April 2015 forecast, which was the basis for the 2015-17 budget. In response to the higher forecast, the Subcommittee approved \$2,558,694 General Fund and 6 new correctional officer positions (4.46 FTE) to shift the 787 Deer Ridge Correctional Institution minimum security inmates to the medium security facility, which will be operated as minimum housing. Of this amount, \$1,821,701 is a one-time expense. As the additional recently-forecasted inmates enter the system, there will be other housing units within the facility available to accommodate them. The additional costs for 200 more beds for the rest of the biennium is about \$6.9 million.

A special purpose appropriation to the Emergency Board in the amount of \$3 million can fund part of the remaining need. There will be two more forecasts before the end of the biennium, April and October 2016. Whatever unfunded amount remains can be considered as part of the Department's agency-wide budget rebalance that typically occurs during the long legislative session as part of the current biennium final statewide budget reconciliation.

In response to an investigation of housing and treatment conditions for seriously mentally ill inmates by the federal protection and advocacy entity, Disability Rights Oregon, the Department requested \$8.2 million General Fund for architectural and staffing changes. The Subcommittee approved \$3,139,557 General Fund for construction and staffing that will provide the identified inmates more out-of-cell time and increased mental health therapy and counseling. The direct appropriation includes \$1,031,676 for permanent staff, including 4 registered nurses and a project manager (3.33 FTE); reclassification of a corporal to a sergeant; and associated services and supplies. The remaining \$2,107,881 General Fund is for one-time construction expenses for a modular building for treatment and office space on the Oregon State Penitentiary grounds and for changes inside the mental health unit of the penitentiary.

In addition, a special purpose appropriation to the Emergency Board in the amount of \$2 million will be available for the Department to request as they need additional staff. Any unfunded balance can be considered as part of the Department's agency-wide budget rebalance that typically occurs during the long legislative session as part of the current biennium final statewide budget reconciliation.

The Subcommittee approved redirecting unused Junction City Correctional Institution bond funding and unneeded cost of issuance funds for various Department of Corrections bond sales to Other Funds debt service. The total Other Funds limitation is \$2,094,636.

Pilot project General Fund that was intended to be one-time is phased out from the Offender Management and Rehabilitation unit within the Department. The reduction is \$1,009,135.

### **Criminal Justice Commission**

The Criminal Justice Commission was awarded \$370,000 in one-time grant funding from the U.S. Department of Justice, Office of Justice Programs and Bureau of Justice Assistance for technical assistance financing in support of Oregon's Justice Reinvestment implementation. The funds were made available to Oregon by a pass-through agreement with the Vera Institute of Justice, a private nonprofit research center for justice policy and practice. The funding was included in the agency's 2015-17 Federal Funds expenditure limitation, but because the Vera Institute is not a federal agency, the funding should have been included as Other Funds expenditure limitation. This technical adjustment increases Other Funds and decreases Federal Funds expenditure limitations by \$370,000.

### **Oregon Department of Justice**

The Subcommittee approved an increase of \$254,493 Other Funds expenditure limitation for the Department of Justice (DOJ) Criminal Justice Division and the authorization of two limited duration positions (1.08 FTE) for the Fusion Center. Funding for the positions would come from two separate federal grants received by the Oregon Military Department Office of Emergency Management (State Homeland Security Program for \$121,334 and the Urban Area Security Initiative for \$133,159). The grants are one-time in nature and require no state matching funds.

The Subcommittee approved an increase of \$129,405 Other Funds expenditure limitation for the DOJ Criminal Justice Division and the authorization of one limited duration position (0.25 FTE) for a traffic safety resource prosecutor with an emphasis on marijuana. The position is funded for six months beginning in April of 2016. The source of the grant is the U.S. Department of Transportation National Highway Traffic Safety Administration received by the Oregon Department of Transportation.

The Subcommittee approved an increase of \$184,714 Other Funds expenditure limitation for the DOJ General Counsel Division and the authorization of one permanent full-time position (0.63 FTE) for a marijuana civil legal services attorney. The revenue source to support the attorney is the legal services rate billed to state agencies. The 2017-19 biennial cost of the position is \$316,891.

An increase of \$12,613,368 Federal Funds expenditure limitation for the DOJ Crime Victims Services Division, as well as the authorization of two limited duration positions (1.42 FTE) for an increase in Victim of Crime Act (VOCA) assistance funding was approved. The grant increase will add one-time funding to existing direct service/non-profit providers, district attorney prosecutor-based victim assistance programs, child assessment centers, and other system investments. These are formula grants that require no state matching funds; however, a federal requirement does require sub-grantees to provide 20% matching funds. According to the Department, for this request, no additional state funds will be required to help sub-grantees meet their matching funds requirement.

The Subcommittee approved \$676,971 General Fund for the establishment of an elder abuse program in the Criminal Justice Division. The program will be staffed by one permanent full-time Senior Assistant Attorney General (Elder Abuse Resource Prosecutor) (0.63 FTE) and two

Criminal Investigator positions (1.25 FTE). The positions will assist local law enforcement with elder abuse cases, as well as provide statewide outreach and training. Personal services costs for the positions total \$457,573 and services and supplies costs total \$219,398. The 2017-19 biennial cost of the program is estimated to be \$1.2 million General Fund.

A change in the preliminary schedule for the DOJ Child Support Division's Child Support Enforcement Automated System (CSEAS) information technology project, which was completed after the close of the 2015 session, has increased the total cost of ownership and impacted the project's 2015-17 legislatively adopted budget, resulting in a shortfall of bonding authority, expenditure limitation(s), and cash liquidity.

The original feasibility study for the CSEAS project estimated total development costs at \$92.7 million and recurring costs after development of \$23.6 million for a total cost of ownership (TCO) of \$116.3 million (through fiscal year 2026). The rebaselined TCO is now estimated at \$122.7 million, which includes \$12 million in ongoing operations and maintenance costs. The Subcommittee approved \$3,086,760 of Other Funds expenditure limitation for project costs, which is to be financed with Article XI-Q bonds approved in House Bill 5202, and the establishment of 10 permanent part-time positions (1.31 FTE). Four reclassifications of existing permanent full-time positions was also approved.

Unless otherwise approved by the Legislature or the Emergency Board, the positions budgeted for the project are established as permanent fulltime positions under the following conditions: (a) the positions will be abolished on or before the completion of the project; (b) the positions are to remain in the CSEAS program (i.e., CSEAS summary cross reference) and may not be transferred to any other program or used for any other purpose than the development of the CSEAS project; and (c) the positions may not be included in any permanent finance plan action.

The Subcommittee appropriated \$1,161,194 in additional General Fund Debt Service to support repayment of Article XI-Q General Obligation bond proceeds approved in House Bill 5202. Other Funds expenditure limitation of \$123,240 is included for the cost of issuance of the bonds. The Subcommittee approved \$34,683 General Fund for repayment of interest costs for a short-term Treasury loan. The Department of Administrative Services was directed to unschedule \$3,086,760 Other Funds expenditure limitation (Article XI-Q bond project proceeds) and to schedule \$3,632,932 Other Funds and \$6,864,723 Federal Funds for the second quarter of calendar year 2016.

In absence of a comprehensive, integrated, and rebaselined master schedule, which is necessary to determine the project budget, and final Stage Gate 3 approval, the Subcommittee recommended a conservative, controlled release funding approach for the project. The recommendation provides full project funding through June 30, 2016, at which point the agency will need to request additional expenditure limitation from the Emergency Board. This recommendation will allow the agency to initially proceed to Stage Gate 3; however, the project should not operate for an extended period of time until "Stage Gate 3" review is officially completed and full endorsement granted. The Subcommittee adopted the Joint Legislative Committee on Information Management and Technology recommendations for the project.

The Subcommittee also approved the following budget note:

**Budget Note:**

The Department of Justice is to report at each meeting of the Emergency Board and the Interim Joint Committee on Information Management and Technology at each interim meeting with detailed project status reports (performance against plan) on the Child Support Enforcement Automated System (CSEAS). As part of the agency's report for the Emergency Board meeting in May of 2016, the agency is

SB 5701 A

to: (a) justify why an advisory steering committee is an appropriate form of governance; (b) provide a detailed cost-benefit analysis of the decision to use a private vendor vs. Department of Administrative Services State Data Center; (c) provide a justification for the indirect agency administrative charges to the CSEAS project, which may need to be repurposed and used for a general project contingency fund; and (d) report on improvements to quality assurance and agency status reporting.

### **Oregon Military Department**

The Other Funds expenditure limitation for the Community Support program was increased, on a one-time basis, by \$2,442,000 for the reimbursement of firefighting expenditures incurred during the 2015 fire season.

The 2015-17 legislatively adopted budget inadvertently made a General Fund reduction to services and supplies that should have been applied to personal services. The reduction is \$57,929 within the Administration division. Moving it to the right budget category will enable the agency to correctly build the 2017-19 budget.

The Subcommittee approved \$80,000 Other Funds expenditure limitation for the purpose of paying cost of issuance expenses associated with Article XI-Q bond authority approved for rehabilitating facilities at the Umatilla Depot site to prepare it for use as a Regional Training Center. The Umatilla site will replace the facility currently used on the Western Oregon University campus.

### **Department of Public Safety Standards and Training**

The Subcommittee approved an increase in Other Funds expenditure limitation of \$959,000 and the addition of three limited-duration positions (1.74 FTE) to support programs and activities in the Department of Public Safety Standards and Training's (DPSST) Center for Policing Excellence, funded by an Edward Byrne Memorial Justice Assistance Grant through the Criminal Justice Commission.

The agency's Federal Funds expenditure limitation was increased by \$2,497,563. This net-zero technical correction changes a revenue-only transfer between DPSST and the Department of Justice to a pass-through expenditure, a budgetary change required in order to ensure full reimbursement of costs related to the federal High Intensity Drug Trafficking Area program operated by the state Department of Justice.

The Subcommittee increased the agency's Other Funds expenditure limitation by \$2,790,195, and authorized twelve permanent positions (8.00 FTE) to add four basic police and two basic corrections classes to the agency's training calendar to meet demand during the 2015-17 biennium.

### **Oregon State Police**

The Subcommittee increased the agency's General Fund appropriation by \$1,320,216 and increased its Other Funds expenditure limitation by \$6,911,613 for Federal Emergency Management Agency-reimbursable expenses incurred during numerous mobilizations coordinated by the State Fire Marshal during the 2015 fire season in Oregon.

The Subcommittee increased the agency's General Fund appropriation by \$1,000,000 and authorized 12 positions (6.63 FTE) to increase staff capacity and reduce wait times and backlogs in the Firearm Instant Check System program.

## **TRANSPORTATION**

### **Department of Aviation**

The Subcommittee approved an increase of \$265,000 in Other Funds expenditure limitation for the Operations Division to purchase grant management software to implement and manage the agency's grant-making program established by House Bill 2075 (2015).

### **Department of Transportation**

The Subcommittee increased the agency's Other Funds expenditure limitation by \$6,231,467 to fund road repairs and clean-up expenses at seventeen sites across the state where wildfires damaged and forced the closure of roadways during the 2015 fire season. Other Funds expenditure limitation was increased in the Local Government program by \$2,000,000 toward reconstruction of the Juntura Cut-Off Road in Harney County, and by \$51,804 for cost of issuing the Lottery Bonds to finance the project.

A net-zero technical adjustment of \$1,354,734 was approved to move cost of issuance expenditure limitation for debt associated with highway safety improvements, the Coos Bay Rail Link, and ConnectOregon VI into the correct program budgets. A second net-zero technical adjustment of \$138,433 was approved to move legislatively-approved state government service charge reductions into the correct program budgets for the 2015-17 biennium.

The Subcommittee reduced the General Fund appropriation for debt service to the Department of Transportation by \$5,194,781. A bond sale anticipated for May, 2015 was postponed until May, 2016, reducing the debt service required in the 2015-17 biennium. General Fund was also reduced by \$47,835 to reflect the completion of the Driver and Motor Vehicles' veteran information sharing project with the Department of Veterans' Affairs.

## Oregon Legislative Emergency Board

Sen. Peter Courtney, Senate Co-Chair  
Rep. Tina Kotek, House Co-Chair

### Certificate

May 25, 2016

Pursuant to the provisions of ORS 291.328, and acting under the authority of ORS 8.105; ORS 291.326(1)(a), (b), (c), and (d); ORS 276.390; ORS 291.371; and ORS 291.375; this hereby certifies that the Emergency Board, meeting on May 25, 2016, took the following actions:

- 1. Commission on Judicial Fitness and Disability**  
Acknowledged receipt of a report on compensation plan changes.
- 2. Public Defense Services Commission**  
Deferred consideration of a request to fund salary increases.
- 3. Department of Education**  
Acknowledged receipt of a report on the implementation of the mixed delivery preschool program.
- 4. Department of Education**  
Approved the submission of a federal grant application to the U.S. Department of Health and Human Services in an amount of up to \$75,000 for a Child Care and Development Block Grant Implementation Research and Evaluation Planning Grant.
- 6. Department of Education**  
Allocated \$273,062 from the Emergency Fund established by section 1, chapter 837, Oregon Laws 2015 to supplement the appropriation made to the Department of Education by section 1(1), chapter 759, Oregon Laws 2015, Operations, for grants to school districts to improve Internet connectivity and access, with the understanding the Department of Administrative Services will unschedule that amount until school districts and the Department of Education have been notified of the approval of the federal funding.
- 7. Higher Education Coordinating Commission**  
Acknowledged receipt of a report on 2016-17 proposed increases to resident undergraduate tuition and mandatory fees at public universities.
- 8. Higher Education Coordinating Commission**  
Acknowledged receipt of a report relating to the distribution of funding for Community College academic counselors.

- 9. Department of Human Services**  
Approved the submission of a federal grant application to the U.S. Department of Health and Human Services in the amount of \$206,000 per year for two years to enhance adult protective services.
- 10. Department of Human Services**  
Approved the submission of a federal grant application to the U.S. Department of Health and Human Services in the amount of \$200,000 per year for two years to enhance the state's system for providing information on and access to long term services and supports.
- 11. Department of Human Services**  
Acknowledged receipt of a report from the Department of Human Services on program sustainability options and actions.
- 12. Oregon Health Authority**  
Acknowledged receipt of a report on the Oregon Health Plan 1115 waiver renewal for 2017-22.
- 13. Oregon Health Authority**  
Acknowledged receipt of a report on recommendations regarding the Medicaid Management Information System and related systems and interfaces.
- 14. Oregon Health Authority**  
Approved, retroactively, the submission of a supplemental federal grant application to the Centers for Disease Control and Prevention in the amount of up to \$2.7 million for one year beginning August 1, 2016 for the Epidemiology and Laboratory Capacity Program grant to combat antibiotic-resistant organisms and diseases as well as the Zika virus.
- 15. Oregon Health Authority**  
Approved, retroactively, the submission of a federal grant application to the Centers for Disease Control and Prevention in the amount of up to \$250,000 a year for two years beginning September 1, 2016 for the Models for Collaboration for State Chronic Disease and Oral Health Programs grant to develop chronic disease prevention projects that integrate activities from both chronic disease and oral health programs.
- 16. Oregon Health Authority**  
Approved the submission of a federal grant application to the Centers for Disease Control and Prevention in the amount of up to \$3.5 million a year for five years beginning January 1, 2017 for the Emerging Infections Program grant to help monitor and prevent foodborne diseases, invasive bacterial infections, influenza, pertussis, human papillomavirus virus (HPV) disease, and healthcare-associated infections.
- 17. Oregon Health Authority**  
Approved the submission of the following three related federal grant applications by the Oregon Health Authority to the Substance Abuse and Mental Health Services Administration: 1) the Strategic Prevention Framework for Prescription Drugs grant in

the amount of \$373,616 a year for five years beginning January 1, 2017 to support and complement existing infrastructure building work partnering with coordinated care organizations to deliver provider and patient education to prevent prescription drug misuse; 2) the Grant to Prevent Prescription Drug/Opioid Overdose-Related Deaths in the amount of \$1 million a year for five years beginning January 1, 2017 to reduce the number of prescription drug/opioid overdose-related deaths and adverse events by training first responders and other key community sectors in prevention strategies, including the purchase and distribution of naloxone; and 3) the Targeted Capacity Expansion: Medication Assisted Treatment-Prescription Drug and Opioid Addiction grants cooperative agreement in the amount of \$1 million a year for five years beginning January 1, 2017 to expand and enhance access to integrated medication assisted treatment (e.g. buprenorphine, methadone, naltrexone) for individuals with opioid use disorder.

**18. Board of Nursing**

Increased the Other Funds expenditure limitation established for the Board of Nursing by section 1, chapter 439, Oregon Laws 2015, by \$244,452 and authorized the establishment of two full-time permanent positions (1.58 FTE) for personnel reclassifications and increased workload requirements.

**19. Department of Justice**

Acknowledged receipt of a report on the Child Support Enforcement Automated System information technology project, with instructions, and directed the agency to report to the Emergency Board in September of 2016.

**20. Department of Justice**

Increased the Federal Funds expenditure limitation established for the Department of Justice by section 13, chapter 837, Oregon Laws 2015, by \$2,538,107 for supplemental funding for the Child Support Enforcement Automated System information technology project, with the understanding that the Department of Administrative Services will un-schedule the limitation increase and will only re-schedule upon the joint approval of the Office of State Chief Information Officer, Chief Financial Officer, and Legislative Fiscal Office.

**21. Department of Public Safety Standards and Training**

Increased the Other Funds expenditure limitation established for the Department of Public Safety Standards and Training by section 2, chapter 658, Oregon Laws 2015, by \$337,000 for crisis intervention training for first responders.

**22. Department of Public Safety Standards and Training**

Increased the Other Funds expenditure limitation established for the Department of Public Safety Standards and Training by section 2, chapter 658, Oregon Laws 2015, by \$100,000 for additional training for 911 telecommunicators.

**23. Military Department**

Increased the Other Funds expenditure limitation established for the Military Department by section 2(4), chapter 594, Oregon Laws 2015, Community support, by \$256,000 and increased the Federal Funds expenditure limitation established for the

Military Department by section 3(3), chapter 594, Oregon Laws 2015, Community support, by \$518,000 for supplemental funding for the Oregon Youth Challenge Program.

**24. Military Department**

Increased the Federal Funds expenditure limitation established for the Military Department by section 3(3), chapter 594, Oregon Laws 2015, Community support, by \$270,000 for supplemental federal funds received for the STARBASE Program.

**25. Military Department**

Allocated \$170,000 from the Emergency Fund established by section 1, chapter 837, Oregon Laws 2015 to supplement the appropriation made to the Military Department by section 1(2), chapter 594, Oregon Laws 2015, Operations, for roof repairs at the Forest Grove and Kliever armories, and directed the Department to use \$500,000 of one-time General Fund savings available within current appropriations for the state's 50% share of the roof repairs.

**26. Department of State Police**

Approved the submission of a federal grant application to the U.S. Department of Justice in the amount of \$1.04 million over three years to establish a computerized system to track the inventory and processing of sexual assault forensic evidence kits in possession of the Department of State Police.

**27. Department of State Police**

Approved, retroactively, the submission of a federal grant application to the U.S. Department of Justice in the amount of \$9.4 million for up to eighteen months to replace the CrimeVue criminal history database and messaging system.

**28. Department of State Police**

Established a General Fund appropriation for the Department of Administrative Services and allocated \$73,053 from the Emergency Fund established by section 1, chapter 837, Oregon Laws 2015 and \$2,000,000 from the special purpose appropriation made to the Emergency Board by section 109 (1), chapter 82, Oregon Laws 2016, to the newly established appropriation for costs associated with the unlawful occupation of the Malheur National Wildlife Refuge in Harney County, for distribution to state and local agencies to reimburse for expenses incurred during the occupation; and increased the Other Funds expenditure limitation established for the Department of State Police by section 2(1), chapter 696, Oregon Laws 2015, Patrol services, criminal investigations and gaming enforcement, by \$874,188 in order to receive reimbursements due the agency from the Department of Administrative Services.

**29. Criminal Justice Commission**

Approved, retroactively, the submission of a federal grant application to the U.S. Department of Justice in the amount of up to \$1.75 million for three years to support Oregon's Justice Reinvestment efforts.

**30. Department of Corrections**

Acknowledged receipt of a report on female and male prison population trends and system bed capacity.

**31. Department of Corrections**

Allocated \$1,973,714 from the special purpose appropriation made to the Emergency Board by section 41(1), chapter 82, Oregon Laws 2016 to supplement the appropriation made to the Department of Corrections by section 1(1), chapter 655, Oregon Laws 2015, Operations and health services; allocated \$261,870 from the special purpose appropriation made to the Emergency Board by section 41(1), chapter 82, Oregon Laws 2016 to supplement the appropriation made to the Department of Corrections by section 1(2), chapter 655, Oregon Laws 2015, Administration, general services and human resources; allocated \$764,416 from the special purpose appropriation made to the Emergency Board by section 41(1), chapter 82, Oregon Laws 2016 to supplement the appropriation made to the Department of Corrections by section 1(3), chapter 655, Oregon Laws 2015, Offender management and rehabilitation; and authorized the establishment of 33 positions (18.64 FTE); for the Department to continue activating minimum security prison beds at the Deer Ridge Correctional Institution.

**32. Department of Corrections**

Allocated \$100,000 from the Emergency Fund established by section 1, chapter 837, Oregon Laws 2015 to supplement the appropriation made to the Department of Corrections by section 1(1), chapter 655, Oregon Laws 2015, Operations and health services; allocated \$900,000 from the Emergency Fund established by section 1, chapter 837, Oregon Laws 2015 to supplement the appropriation made to the Department of Corrections by section 1(2), chapter 655, Oregon Laws 2015, Administration, general services and human resources; and increased the Other Funds expenditure limitation established for the Department of Corrections by section 2(1), chapter 655, Oregon Laws 2015, Operations and health services, by \$100,000 to begin preparing the Oregon State Penitentiary-Minimum to house women offenders in the current biennium.

**33. Oregon Business Development Department**

Approved, retroactively, the submission of a federal grant application to the U.S. Small Business Administration in the amount of \$562,500 for funds available under the State Trade Expansion Program (STEP), and authorized the agency to submit future annual applications for STEP program grants if those grants: 1) are used to expand the Oregon Trade Promotion Program; 2) do not require the state to maintain any funded program levels after expiration of the grant; and 3) do not include match requirements that require additional Lottery Funds support or a reduction in the agency's other program services.

**34. Oregon Business Development Department  
Higher Education Coordinating Commission**

Acknowledged receipt of a report on a business plan for the American Manufacturing Innovation District; increased the Other Funds expenditure limitation established for the Oregon Business Development Department by section 1(8), chapter 82, Oregon Laws 2016, for the American Manufacturing Innovation District, by \$2,499,999; increased the Other Funds capital construction expenditure limitation established for the Higher

Education Coordinating Commission by section 7, chapter 67, Oregon Laws 2016, for the American Manufacturing Innovation District building at Portland Community College, by \$4,999,999; and increased the Other Funds expenditure limitation established for the Higher Education Coordinating Commission by section 5(1), chapter 642, Oregon Laws 2015, Operations, degree authorization and private career schools, by \$70,000; for development of the Oregon Manufacturing Innovation Center, with the understanding the agencies will present a progress report on the Oregon Manufacturing Innovation Center to the Joint Committee on Ways and Means during the 2017 session.

**36. Housing and Community Services Department**

Approved, retroactively, the submission of two federal grant applications to the U.S. Treasury in the combined amount of \$94,535,564 for assistance to Oregonians affected by foreclosure.

**37. Employment Department**

Approved, retroactively, the submission of a federal grant application to the U.S. Department of Labor in the amount of \$250,000 for the expansion and diversification of registered apprenticeship opportunities in Oregon.

**38. Columbia River Gorge Commission**

Allocated \$5,000 from the Emergency Fund established by section 1, chapter 837, Oregon Laws 2015, to supplement the appropriation made to the Columbia River Gorge Commission by section 1, chapter 189, Oregon Laws 2015, to match the operational budget of the Commission as provided by the State of Washington for the 2015-17 biennium.

**40. Department of Geology and Mineral Industries**

Acknowledged receipt of a report on the progress of the tactical IT remediation plan; allocated \$554,808 from the Emergency Fund established by section 1, chapter 837, Oregon Laws 2015 to supplement the appropriation made to the Department of Geology and Mineral Industries by section 1, chapter 657, Oregon Laws 2015 for implementation of the plan; authorized the establishment of two positions (1.00 FTE); and increased the Other Funds expenditure limitation established for the Department of Geology and Mineral Industries by section 2(2), chapter 657, Oregon Laws 2015, Mined land reclamation, by \$64,754 for the Mined Land Reclamation and Regulation program.

**41. Department of Fish and Wildlife**

Approved, retroactively, the submission of a federal grant application to the U.S. Fish and Wildlife Service in the amount of \$1 million to acquire a forest conservation easement for 1,751 acres near Ashland, Oregon.

**42. Department of Environmental Quality**

Approved the submission of a federal grant application to the U.S. Environmental Protection Agency in the amount of \$250,000 for pollution prevention technical assistance services as well as projects that reduce and eliminate pollution from water, air, and land.

- 43. Department of Environmental Quality**  
Allocated \$225,000 from the Emergency Fund established by section 1, chapter 837, Oregon Laws 2015, to supplement the appropriation made to the Department of Environmental Quality by section 1(1), chapter 593, Oregon Laws 2015, Air Quality, to acquire metals and particulate monitoring equipment.
- 44. Department of Forestry**  
Allocated \$2,176,549 from the special purpose appropriation made to the Emergency Board by section 5, chapter 809, Oregon Laws 2015, to supplement the appropriation made to the Department of Forestry by section 1(1), chapter 809, Oregon Laws 2015, Fire protection, for the payment of the catastrophic fire insurance premium for the 2016 fire season.
- 46. Department of Forestry**  
Allocated \$250,000 from the Emergency Fund established by section 1, chapter 837, Oregon Laws 2015, to supplement the appropriation made to the Department of Forestry by section 1(2), chapter 809, Oregon Laws 2015, Private forests, to provide additional preventative treatments for Phytophthora Ramorum infestations and for a \$50,000 grant to the Association of Oregon Counties.
- 47. Parks and Recreation Department**  
Approved, retroactively, the submission of a federal grant application to the U.S. Fish and Wildlife Service in the amount of \$500,000 for the purchase of land by the Southern Oregon Land Conservancy for habitat conservation.
- 48. Parks and Recreation Department**  
Increased the Other Funds expenditure limitation established for the Parks and Recreation Department by section 1(3), chapter 303, Oregon Laws 2015, Park development, by \$615,500 for the expenditure of two grants awarded the agency by the Marine Board.
- 49. Parks and Recreation Department**  
Increased the Federal Funds expenditure limitation established for the Parks and Recreation Department by section 4(3), chapter 303, Oregon Laws 2015, Community support and grants, by \$29,214 to correct an error in the allocation of Federal Funds expenditure limitation in prior legislation.
- 51. Department of Agriculture**  
Approved, retroactively, the submission of a federal grant application by the Department of Agriculture to the U.S. Food and Drug Administration in the amount of \$700,000 for designing a program to enhance produce safety to prepare for implementation of new FDA food safety rules.
- 52. Department of Transportation**  
Increased the Other Funds expenditure limitation established for the Department of Transportation by section 5(2), chapter 761, Oregon Laws 2015, Maintenance and emergency relief programs, by \$16,966,375 and by section 5(8), chapter 761, Oregon

Laws 2015, Local government program, by \$10,732,666 for highway repair costs resulting from winter storm damage due to the 2015-16 winter season.

**53. Department of Transportation**

Approved, retroactively, the submission of a federal grant application to the U.S. Federal Transit Administration in the amount of \$75.7 million for improvements to Abernethy Bridge on I-205, I-84 at Ladd Canyon, and I-5 between the Kuebler Interchange and Delaney Road.

**54. Department of Transportation**

Approved, retroactively, the submission of a federal grant application to the U.S. Federal Transit Administration in the amount of \$8,524,250 for vehicle replacements in rural transit districts, construction of bike lockers and electric vehicle charging stations at the Salem Baggage Depot, and a maintenance facility addition to a transit center in The Dalles.

**55. Department of Transportation**

Approved, retroactively, the submission of a federal grant application to the U.S. Federal Railroad Administration in the amount of \$750,000 to implement the use of Positive Train Control technology.

**56. Department of Transportation**

Approved, retroactively, the submission of a federal grant application to the U.S. Federal Highway Administration in the amount of \$75,000 to develop a manual for standardized railroad best practices.

**57. Department of Transportation**

Approved, retroactively, the submission of a federal grant application to the U.S. Federal Highway Administration in the amount of \$350,000 to develop a system to store underground utility location data, acquire technology that identifies the location and important attributes of utilities, and make revisions to the Utility Conflict Matrix.

**58. Department of Transportation**

Approved, retroactively, the submission of a federal grant application to the U.S. Federal Highway Administration in the amount of \$150,000 to acquire equipment used in non-destructive testing of concrete bridge decks and tunnel liners.

**59. Department of Consumer and Business Services**

Increased the Other Funds expenditure limitation established for the Department of Consumer and Business Services by section 3, chapter 592, Oregon Laws 2015 by \$558,617 to reverse a reduction in Other Funds expenditure limitation that was erroneously taken by prior legislation, and acknowledged receipt of a report on the operation of the Oregon Health Insurance Marketplace.

**60. Office of the Governor**

Acknowledged receipt of a report on the Office of the Governor organizational structure and Key Performance Measures.

- 61. Department of Administrative Services**  
Increased the Other Funds expenditure limitation established for the Department of Administrative Services by section 2(4), chapter 654, Oregon Laws 2015, Chief Human Resource Office, by \$6,520,731; authorized the establishment of 22 limited duration positions (9.17 FTE) and the extension of six existing limited duration positions through the end of the biennium (4.29 FTE), including the reclassification of one to a Principal Executive Manager (PEM) G; adjusted state agency budgets by allocating \$4,292,256 from the special purpose appropriation made to the Emergency Board by section 52, chapter 837, Oregon Laws 2015; increased Lottery Funds expenditure limitations by \$95,628; increased Other Funds expenditure limitations by \$3,357,479; and increased Federal Funds expenditure limitations by \$1,489,374; to adjust state agency budgets to fund assessment increases related to continuation of the Human Resources Information System project and staffing adjustments related to the previously approved DAS Information Technology reorganization per the attached table.
- 62. Department of Administrative Services**  
Established a \$2,336,040 Other Funds Capital Construction expenditure limitation for the Department of Administrative Services to replace the roof at the Department of Environmental Quality and Public Health laboratory, and established a \$4,000,000 Other Funds Capital Construction expenditure limitation for the Department of Administrative Services for capital and tenant improvements at the 550 Building.
- 63. Department of Administrative Services**  
Acknowledged receipt of a report on compensation plan changes and position allocations.
- 64. Department of Administrative Services**  
Approved the 2017-19 uniform rent rates as proposed by the Department of Administrative Services and required under ORS 276.390.
- 65. Department of Revenue**  
Deferred consideration of a funding request for the Property Valuation System information technology project, and directed the agency to report to the Emergency Board in September of 2016 on the status of the project.
- 66. Department of Revenue**  
Increased the Other Funds expenditure limitation established for the Department of Revenue by section 2(1), chapter 596, Oregon Laws 2015, Administration, by \$379,481 and authorized the establishment of five permanent full-time positions (2.71 FTE) for the Recreational Marijuana Program.
- 68. Department of Revenue**  
Acknowledged receipt of a report on the availability of data for tax research and forecasting purposes, and directed the agency to report to the Emergency Board in September of 2016 with an updated status report.

## **Summary of Emergency Board Action**

**May 2016**

The Legislative Emergency Board met on May 25, 2016 and considered an agenda of 62 items. The Emergency Board approved allocations from the general purpose Emergency Fund in response to eight separate requests, totaling \$2.6 million. Another four requests were allocated funds from special purpose appropriations made to the Emergency Board that totaled \$11.5 million. Additional details on these allocations are described below. After the Emergency Board actions, the balance in the general purpose Emergency Fund is \$29.6 million. An additional \$51.8 million remains in various special purpose appropriations, including \$40 million for caseload costs or other unbudgeted expenses of the Oregon Health Authority and the Department of Human Services. Unused special purpose appropriations become available for any lawful use by the Emergency Board on December 1, 2016.

The agenda included 17 items that requested additional 2015-17 biennium authority to spend Lottery Funds, Other Funds, and Federal Funds. The Emergency Board approved expenditure limitation increases of approximately \$95,628 Lottery Funds, \$55 million Other Funds (including \$27.6 million for the Department of Transportation) and \$4.8 million Federal Funds (including \$2.5 million for the Department of Justice). The Emergency Board also authorized the establishment of 64 positions (33.1 FTE) and the extension of six currently existing positions through the end of the biennium (4.29 FTE).

The agenda also included 15 agency reports which the Emergency Board acknowledged receiving. The Emergency Board heard 22 requests for the submission of federal grant applications (13 of which were on a consent agenda). The Emergency Board also deferred taking action on two requests for allocations from the Emergency Fund.

The following is a summary of significant Emergency Board actions taken at the May 2016 meeting:

### **EDUCATION**

- Acknowledged receipt of a report by the Department of Education on the implementation of the mixed delivery preschool program.
- Allocated \$273,062 from the Emergency Fund to the Department of Education for grants to school districts to improve internet connectivity and access.
- Acknowledged receipt of reports by the Higher Education Coordinating Commission on 2016-17 academic year University tuition and mandatory fee increases for resident undergraduates and on the distribution of funding for Community College academic counselors.
- Approved the submission of a federal grant application by the Department of Education for

child care related implementation research and evaluation planning.

### **HUMAN SERVICES**

- Acknowledged receipt of a report by the Department of Human Services on program sustainability options and actions.
- Acknowledged receipt of reports by the Oregon Health Authority on the Oregon Health Plan 1115 waiver renewal for 2017-22 and on the Medicaid Management Information System and related systems and interfaces.
- Approved the submission of federal grant applications by the Department of Human Services for the enhancement of adult protective services and for enhancing the state's system for

providing information on and access to long term services and supports.

- Approved the submission of federal grant applications by the Oregon Health Authority for epidemiology and laboratory capacity for infectious diseases, chronic disease and oral health, emerging infections, and prescription drug and opioid addiction/overdose prevention.
- Increased the Other Funds expenditure limitation for the Board of Nursing by \$244,452 for the establishment of two permanent positions (1.58 FTE) and the reclassification of six other positions to address workload increases.

#### **PUBLIC SAFETY and JUDICIAL BRANCH**

- Acknowledged receipt of a report by the Department of Corrections on female and male population trends and system bed capacity.
- Allocated \$3 million from a special purpose appropriation made to the Emergency Board to the Department of Corrections to continue activating minimum security prison beds at the Deer Ridge Correctional Institution, authorized the establishment of 33 positions (18.64 FTE), and indicated that remaining unfunded prison capacity needs would be addressed at a future Emergency Board meeting this interim or during the 2017 session.
- Allocated \$1 million from the Emergency Fund to the Department of Corrections and increased the agency's Other Funds expenditure limitation by \$100,000 to begin preparing the Oregon State Penitentiary-Minimum to house women offenders in the 2015-17 biennium.
- Acknowledged receipt of a report by the Department of Justice on the Child Support Enforcement Automated System (CSEAS) and increased the Federal Funds expenditure limitation by \$2,538,107 for the project to cover expenditures through October 2016.
- Increased the Other Funds expenditure limitation for the Department of Public Safety Standards and Training by \$100,000 for additional training of 911 tele-communicators and by \$337,000 for crisis intervention training for first responders.
- Approved the submission of a federal grant application by the Department of State Police for a grant in the amount of \$9.4 million to replace the CrimeVue criminal history database and messaging system.
- Allocated \$2 million from a special purpose

appropriation made to the Emergency Board for state and local government costs associated with the takeover of the Malheur National Wildlife Refuge in Harney County, allocated \$73,053 from the Emergency Fund for the same purpose, and increased the Other Funds expenditure limitation for the Department of State Police by \$874,188 in order for the agency to receive reimbursement for its costs. The allocations were made to the Department of Administrative Services for distribution to eligible state and local government units.

- Allocated \$170,000 from the Emergency Fund to the Military Department for roof repairs at the Forest Grove and Kliever-Portland armories and directed the agency to use \$500,000 of one-time General Fund savings available in the current budget to match the federal funding to complete the roof repairs.
- Increased the Other Funds expenditure limitation for the Military Department by \$256,000 and the Federal Funds expenditure limitation for the Military Department by \$518,000 for the Oregon Youth Challenge Program.
- Increased the Federal Funds expenditure limitation for the Military Department by \$270,000 for the STARBASE Program.
- Approved the submission of federal grant applications by the Criminal Justice Commission for the Justice Reinvestment program and by the Department of State Police for SAFE kit inventory, tracking, and reporting.
- Acknowledged receipt of a report by the Commission on Judicial Fitness and Disability on compensation plan changes.
- Deferred taking action on a request by the Public Defense Services Commission to fund proposed salary increases.

#### **NATURAL RESOURCES**

- Allocated \$5,000 from the Emergency Fund for the Columbia River Gorge Commission to match the 2015-17 budget provided by the State of Washington for Commission operations as required by interstate compact.
- Acknowledged receipt of a report by the Department of Geology and Mineral Industries on the progress of the tactical IT remediation plan, allocated \$554,808 from the Emergency Fund for the plan, authorized the establishment of two positions (1.00 FTE), and increased the Other

Funds expenditure limitation for the Department by \$64,754 for the Mined Land Reclamation and Regulation program.

- Allocated \$225,000 from the Emergency Fund for the Department of Environmental Quality to acquire metals and particulate monitoring equipment.
- Allocated \$2,176,549 from a special purpose appropriation made to the Emergency Board for fire severity resources to the Department of Forestry for the purchase of catastrophic fire insurance for the 2016 fire season.
- Allocated \$250,000 from the Emergency Fund for the Department of Forestry to augment and add to existing resources for the treatment of Sudden Oak Death.
- Increased the Other Funds expenditure limitation for the Parks and Recreation Department by \$615,500 for grants received from the Marine Board.
- Increased the Federal Funds expenditure limitation for the Parks and Recreation Department by \$29,214 to correct a technical error in personal services from the 2016 session.
- Approved the submission of a federal grant application by the Parks and Recreation Department for purchase of land by the Southern Oregon Land Conservancy for habitat conservation.
- Approved the submission of federal grant applications by the Department of Fish and Wildlife for the acquisition of a conservation easement on 1,751 acres near Ashland, by the Department of Environmental Quality for pollution prevention, and by the Department of Agriculture for Food Safety Modernization Act implementation.

#### **ECONOMIC and COMMUNITY DEVELOPMENT**

- Acknowledged receipt of a report by the Oregon Business Development Department and the Higher Education Coordinating Commission on a business plan for the American Manufacturing Innovation District, increased the Other Funds expenditure limitation for the Oregon Business Development Department by \$2,499,999 for the project, increased the Other Funds Capital Construction expenditure limitation for the Higher Education Coordinating Commission by \$4,999,999 for the project, and increased the Other Funds expenditure limitation for the Higher

Education Coordinating Commission by \$70,000 for the development of the Oregon Manufacturing Innovation Center.

- Approved the submission of a federal grant application by the Oregon Department of Business Development for the State Trade Expansion Program and authorized the agency to submit future grants for the same program under certain specified conditions.
- Approved the submission of two federal grant applications by the Housing and Community Services Department totaling \$94.5 million under the Hardest Hit program to assist Oregonians at risk of experiencing mortgage foreclosure.
- Approved the submission of a federal grant application by the Employment Department to support expansion and diversification of registered apprenticeship.

#### **TRANSPORTATION**

- Increased the Other Funds expenditure limitation for the Department of Transportation by \$16,966,375 for the Maintenance and Emergency Relief programs and by \$10,732,666 for the Local Government program for costs associated with repairing highways due to 2015-16 winter storm damage.
- Approved the submission of a federal grant application by the Department of Transportation in the amount of \$75.7 million under the federal FASTLANE program for three interstate highway projects.
- Approved the submission of federal grant applications by the Department of Transportation for bus facilities, positive train control, railroad best practices, utility solutions, and bridge and tunnel testing.

#### **CONSUMER and BUSINESS SERVICES**

- Acknowledged receipt of a report by the Department of Consumer and Business Services on the Oregon Health Insurance Marketplace program and increased the Other Funds expenditure limitation for the Department by \$558,617 to correct a double counted reduction from the 2016 session.

#### **ADMINISTRATION**

- Acknowledged receipt of a report by the Office of the Governor on its organizational structure and Key Performance Measures.

- Increased the Other Funds expenditure limitation for the Department of Administrative Services, Chief Human Resources Office by \$6,520,731; authorized the establishment of 22 limited duration positions (9.17 FTE) and the extension of six existing limited duration positions through the end of the current biennium (4.29 FTE); and adjusted state agency budgets by allocating \$4,292,256 from a special purpose appropriation made to the Emergency Board for Department of Administrative Services' assessment increases, increased the Lottery Funds expenditure limitation of state agencies by \$95,628, the Other Funds expenditure limitations by \$3,357,479, and the Federal Funds expenditure limitations by \$1,489,374 for assessment increases related to continuation of the Human Resources Information System project and other adjustments related to previously approved Department IT reorganization effects.
- Established an Other Funds Capital Construction expenditure limitation in the amount of \$2,336,040 for the Department of Administrative Services for a roof replacement at the Department of Environmental Quality and Public Health laboratory and established an Other Funds Capital Construction expenditure limitation in the amount of \$4,000,000 for the Department of Administrative Services for tenant improvements at the 550 Building.
- Acknowledged receipt of a report by the Department of Administrative Services on compensation plan changes.
- Acknowledged receipt of a report by the Department of Administrative Services on uniform rent rates for the 2017-19 biennium and to recommend to the next Legislative Assembly that agency budgets include sufficient spending authority to cover the rent costs as required by ORS 276.390.
- Increased the Other Funds expenditure limitation for the Department of Revenue by \$379,481, authorized the establishment of five permanent positions (2.71 FTE), and authorized the movement of an existing manager position from limited duration to permanent status for the recreational marijuana tax cash management program.
- Deferred taking action on a request by the Department of Revenue to allocate funds from the Emergency Fund for the Property Valuation System.
- Acknowledged receipt of a report by the Department of Revenue on GenTax data availability for research purposes.

## Oregon Legislative Emergency Board

Sen. Peter Courtney, Senate Co-Chair  
Rep. Tina Kotek, House Co-Chair

### Certificate

September 23, 2016

Pursuant to the provisions of ORS 291.328, and acting under the authority of ORS 8.105; ORS 291.326(1)(a), (b), (c), and (d); ORS 276.390; ORS 291.371; ORS 286A.160(3); and ORS 291.375; this hereby certifies that the Emergency Board, meeting on September 23, 2016, took the following actions:

**1. Judicial Department**

Acknowledged receipt of a report on a compensation plan change.

**2. Judicial Department**

Approved, retroactively, the submission of a federal grant application to the U.S. Department of Health and Human Services in the amount of \$500,000 per year for a five-year term to support activities to help meet the requirements of the Indian Child Welfare Act.

**3. Higher Education Coordinating Commission**

Approved, retroactively, the submission of a federal grant application to the U.S. Department of Labor in the amount of \$1,010,000 to improve Information Technology services to dislocated workers.

**4. Higher Education Coordinating Commission**

Approved, retroactively, the submission of a federal grant application to the U.S. Department of Labor in the amount of \$3,200,000 to grow and diversify opportunities for apprenticeship programs.

**7. Department of Human Services**

Approved, retroactively, the submission of a federal grant application to the U.S. Department of Education in the amount of up to \$5,000,000 over five years to help prepare students with disabilities for postsecondary education and competitive integrated employment.

**8. Oregon Health Authority**

Approved, retroactively, the submission of a federal grant application to the Centers for Disease Control and Prevention in the amount of up to \$3,000,000 over three years to supplement the existing currently funded Prescription Drug Overdose Prevention for States Grant.

- 9. Oregon Health Authority**  
Approved the submission of a federal grant application to the U. S. Department of Agriculture in the amount of \$7,500,000 to update the Oregon Women, Infants, and Children program information technology platform.
- 10. Department of Justice**  
Increased the Federal Funds expenditure limitation established for the Department of Justice by section 13, chapter 837, Oregon Laws 2015, Child Support Enforcement Automated System, by \$824,282 for the Child Support Enforcement Automated System program, with instructions.
- 11. Department of Justice**  
Increased the Other Funds expenditure limitation established for the Department of Justice by section 2(3), chapter 692, Oregon Laws 2015, Civil Enforcement Division, by \$3,347,973; increased the Other Funds expenditure limitation established for the Department of Justice by section 2(6), chapter 692, Oregon Laws 2015, General Counsel Division, by \$2,467,038 and authorized the establishment of four limited duration positions (1.50 FTE); increased the Other Funds expenditure limitation established for the Department of Justice by section 2(7), chapter 692, Oregon Laws 2015, Trial Division, by \$1,374,950; and authorized the transfer of \$1,500,000 from the Other Funds expenditure limitation established for the Department of Justice by section 2(5), chapter 692, Oregon Laws 2015, Crime Victims’ Services Division, to the Other Funds expenditure limitation established for the Department of Justice by section 2(3), chapter 692, Oregon Laws 2015, Civil Enforcement Division, for various agency costs.
- 12. Department of Justice**  
Approved, retroactively, the submission of a federal grant application to the U.S. Department of Justice in the amount of \$1,000,000 for improving outcomes for child and youth victims of sex and labor trafficking.
- 13. Department of Public Safety Standards and Training**  
Increased the Federal Funds expenditure limitation established for the Department of Public Safety Standards and Training by section 3, chapter 658, Oregon Laws 2015, by \$390,592 for expenditure of a grant award from the federal Assistance to Firefighters Grant Program.
- 14. Department of Corrections**  
Acknowledged receipt of a report on female and male prison population trends and system bed capacity.
- 15. Housing and Community Services Department**  
Increased the Other Funds expenditure limitation established for the Housing and Community Services Department by section 2, chapter 747, Oregon Laws 2015, by \$1,286,569 and authorized the establishment of 17 limited duration positions (8.25 FTE) for administration of Hardest Hit Funding awarded by the U.S. Department of the Treasury.

**16. Department of Veterans' Affairs**

Approved, retroactively, the submission of a federal grant application to the U.S. Department of Veterans' Affairs in the amount of up to \$500,000 for transportation of veterans in highly rural areas to medical appointments; and increased the Federal Funds expenditure limitation established for the Department of Veterans' Affairs by section 4, chapter 616, Oregon Laws 2015, by \$500,000 to accommodate award of the grant, with the understanding the Department of Administrative Services will unschedule the limitation increase until the agency is notified that its application for the grant has been successful.

**17. Department of Veterans' Affairs**

Approved the submission of a federal grant application to the U.S. Department of Veterans' Affairs in the amount of up to \$150,000 for hiring and retention of nursing staff at State Veteran's Homes; increased the Federal Funds expenditure limitation established for the Department of Veterans' Affairs by section 4, chapter 616, Oregon Laws 2015, by \$150,000; and increased the Other Funds expenditure limitation established for the Department of Veterans' Affairs by section 3(1), chapter 616, Oregon Laws 2015, by \$150,000, to accommodate award of the grant and required state match, with the understanding the Department of Administrative Services will unschedule the limitation increases until the agency is notified that its application for the grant has been successful.

**18. Department of Forestry**

Acknowledged receipt of a preliminary report on the 2016 fire season.

**19. Department of Geology and Mineral Industries**

Approved, retroactively, the submission of a federal grant application to the Federal Emergency Management Agency in the amount of \$972,670 for LIDAR acquisition, geologic hazard mapping, risk assessments, and outreach activities.

**20. Department of Geology and Mineral Industries**

Approved the submission of a federal grant application to the U.S. Geological Survey in the amount of \$300,000 for the 2017 State Geological Survey project.

**21. Department of Geology and Mineral Industries**

Increased the Federal Funds expenditure limitation established for the Department of Geology and Mineral Industries by section 3, chapter 657, Oregon Laws of 2015, by \$1,400,000 for increased LIDAR program work through federal grants and contracts for services, and authorized the establishment of one limited duration position (0.38 FTE) to assist with FEMA Cooperating Technical Partners grant.

**22. Department of State Lands**

Increased the Federal Funds expenditure limitation established for the Department of State Lands by section 2(2), chapter 335, Oregon Laws 2015, South Slough National Estuarine Research Reserve operations, by \$329,000 to implement a grant award received from the National Oceanic and Atmospheric Administration for the remodeling of the Estuarine and Coastal Sciences Laboratory.

- 23. Department of State Lands**  
Increased the Other Funds expenditure limitation established for the Department of State Lands by section 1(3), chapter 335, Oregon Laws 2015, South Slough National Estuarine Research Reserve operations, by \$118,000 to implement the initial portion of an integrated assessment grant from the University of Michigan for a land use and zoning analysis for lands within the Coos Bay Estuary Management Plan.
- 24. Parks and Recreation Department**  
Approved, retroactively, the submission of a federal grant application to the U.S. Bureau of Land Management in the amount of \$20,000 for costs associated with a position to digitize archeological site forms and a position associated with the management of cultural resources.
- 25. Parks and Recreation Department**  
Acknowledged receipt of a report on workgroup recommendations for allowing all-terrain vehicle operation on state highways.
- 26. Department of Transportation**  
Approved the submission of a federal grant application to the Federal Railroad Administration in the amount of up to \$1,200,000 to install a Positive Train Control system on state-owned passenger trains.
- 27. Department of Transportation**  
Approved, retroactively, the submission of a federal grant application to the Federal Highway Administration in the amount of up to \$55,560 to develop nature-based design solutions to address coastal erosion problems.
- 28. Department of Transportation**  
Acknowledged receipt of a report on the federal REAL ID Act, with instructions.
- 29. Department of Aviation**  
Increased the Other Funds expenditure limitation established for the Department of Aviation by section 1(1), chapter 329, Oregon Laws 2015, Operations, by \$52,680 and increased the Federal Funds expenditure limitation established for the Department of Aviation by section 2(1), chapter 329, Oregon Laws 2015, Operations, by \$472,120 for costs to implement phase I of an update to the Oregon Aviation Plan.
- 30. Department of Consumer and Business Services**  
Acknowledged receipt of a follow-up report to the 2016 and 2017 marketing and outreach plans for the Oregon Health Insurance Marketplace.
- 31. Department of Consumer and Business Services**  
Approved, retroactively, the submission of a federal grant application to the U.S. Department of Health and Human Services for the planning and implementation of insurance market reforms, and increased the Federal Funds expenditure limitation established for the Department of Consumer and Business Services by section 2, chapter 592, Oregon Laws 2015, by \$97,749 for the implementation of the federal grant.

- 32. Board of Psychologist Examiners**  
Increased the Other Funds expenditure limitation established for the Board of Psychologist Examiners by section 1, chapter 334, Oregon Laws 2015, by \$85,000 for costs associated with administrative hearings and Attorney General fees.
- 33. Department of Revenue**  
Increased the Other Funds expenditure limitation established for the Department of Revenue by section 2(6), chapter 596, Oregon Laws 2015, Senior Property Tax Deferral, by \$368,735 and authorized the increase of full-time equivalents by 2.10 FTE for the Senior Citizens' and Disabled Citizens' Property Tax deferral programs.
- 34. Department of Administrative Services**  
Acknowledged receipt of a report on compensation plan changes as required under ORS 291.371.
- 35. Department of Administrative Services**  
Acknowledged receipt of a report on the state's certificates of participation and Article XI-Q general obligation bond debt service savings as a result of refinancing.
- 36. Department of Administrative Services**  
Authorized the establishment of one permanent Accounting Technician 3 position (0.46 FTE) to provide payroll functions for the Department of Consumer and Business Services.
- 37. Public Employees Retirement System**  
Acknowledged receipt of a report on a statutory review for simplifying and reducing the costs of the statutory benefits structure and its administration.
- 38. Public Employees Retirement System**  
Increased the Other Funds expenditure limitation established for the Public Employees Retirement System by section 1(1), chapter 595, Oregon Laws 2015, Administrative and operating expenses, by \$381,074 for a third party information security assessment.
- 39. Oregon Liquor Control Commission**  
Increased the Other Funds expenditure limitation established for the Oregon Liquor Control Commission by section 1(3), chapter 600, Oregon Laws 2015, Capital improvements, by \$920,000 to address unanticipated structural defects and remediate hazards discovered during the course of work to repair and replace sections of roof at Oregon Liquor Control Commission facilities.
- 40. Legislative Administration Committee**  
Increased the Other Funds expenditure limitation established for the Legislative Administration Committee by section 65(11), chapter 82, Oregon Laws 2016, by \$60,000 for costs associated with the operational expenses of the Oregon State Capitol Foundation.

**41. Legislative Fiscal Office for Department of Education**

Established a reservation of \$5,000,000 in the Emergency Fund established by section 1, chapter 837, Oregon Laws 2015 for the purpose of reimbursing school districts and Education Service Districts for costs relating to testing for elevated levels of lead for water fixtures which are used for drinking, food preparation, and other uses leading to human consumption.

**42. Legislative Fiscal Office for Military Department**

Allocated \$100,000 from the Emergency Fund established by section 1, chapter 837, Oregon Laws 2015 to supplement the appropriation made to the Military Department by section 1(3), chapter 594, Oregon Laws 2015, Emergency management, to capitalize the Fuel Storage Facility Compatibility Fund.

## Summary of Emergency Board Action

September 2016

The Legislative Emergency Board met on September 23, 2016 and considered an agenda of 40 items. The Emergency Board approved one allocation from the general purpose Emergency Fund and established a new reservation within the general purpose Emergency Fund in the amount of \$5 million. No allocations from special purpose appropriations made to the Emergency Board were requested. Additional details on these actions are described below. After the Emergency Board actions, the unallocated and unreserved balance in the general purpose Emergency Fund is \$24.3 million. An additional \$51.8 million remains in various special purpose appropriations, including \$40 million for caseload costs or other unbudgeted expenses of the Oregon Health Authority and the Department of Human Services. Unused special purpose appropriations become available for any lawful use by the Emergency Board on December 1, 2016.

The agenda included 16 items that requested additional 2015-17 biennium authority to spend Other Funds and Federal Funds. The Emergency Board approved expenditure limitation increases of approximately \$10.6 million Other Funds and \$4.2 million Federal Funds. The Emergency Board also authorized the establishment of 23 positions (10.59 FTE) and the extension of five currently existing positions (2.10 FTE).

The agenda also included nine agency reports which the Emergency Board acknowledged receiving. The Emergency Board heard 14 requests for the submission of federal grant applications (10 of which were on a consent agenda).

The following is a summary of significant Emergency Board actions taken at the September 2016 meeting:

### EDUCATION

- Established a reservation of \$5 million within the general purpose Emergency Fund for the Department of Education to be distributed to school districts and Education Service Districts for the costs related to testing for elevated levels of lead in water fixtures which are used for drinking, food preparation, and other uses leading to human consumption. The distribution is anticipated to be made at the December 2016 meeting of the Emergency Board after data on the number of tests submitted is collected.
- Approved, retroactively, the submission of a federal grant application by the Higher Education Coordinating Commission to the U.S. Department of Labor in the amount of \$1,010,000 to improve Information Technology services to dislocated workers.

- Approved, retroactively, the submission of a federal grant application by the Higher Education Coordinating Commission to the U.S. Department of Labor in the amount of \$3,200,000 to grow and diversify opportunities for apprenticeship programs.

### HUMAN SERVICES

- Approved, retroactively, the submission of a federal grant application by the Department of Human Services to the U.S. Department of Education in the amount of up to \$5,000,000 over five years to help prepare students with disabilities for postsecondary education and competitive integrated employment.
- Approved, retroactively, the submission of a federal grant application by the Oregon Health Authority to the Centers for Disease Control and Prevention in the amount of up to \$3,000,000

over three years to supplement the existing currently funded Prescription Drug Overdose Prevention for States Grant.

- Approved the submission of a federal grant application by the Oregon Health Authority to the U. S. Department of Agriculture in the amount of \$7,500,000 to update the Oregon Women, Infants, and Children program information technology platform.

#### **PUBLIC SAFETY and JUDICIAL BRANCH**

- Acknowledged receipt of a report by the Department of Corrections on female and male population trends and system bed capacity.
- Increased the Federal Funds expenditure limitation for the Department of Justice by \$824,282 for the Child Support Enforcement Automated System (CSEAS) project to cover expenditures through December 2016.
- Increased the Other Funds expenditure limitation for the Department of Justice by \$7,189,961 for various agency costs and approved the transfer of \$1,500,000 Other Funds expenditure limitation from the Crime Victims' Services Division to the Civil Enforcement Division, and authorized the establishment of four limited duration positions (1.50 FTE) for the General Counsel Division.
- Approved, retroactively, the submission of a federal grant application by the Department of Justice to the U.S. Department of Justice in the amount of \$1,000,000 for improving outcomes for child and youth victims of sex and labor trafficking.
- Increased the Federal Funds expenditure limitation for the Department of Public Safety Standards and Training by \$390,592 for expenditure of a grant award from the federal Assistance to Firefighters Grant Program.
- Allocated \$100,000 from the Emergency Fund to the Military Department to capitalize the Fuel Storage Facility Compatibility Fund.
- Acknowledged receipt of a report by the Judicial Department on compensation plan changes.
- Approved, retroactively, the submission of a federal grant application by the Judicial Department to the U.S. Department of Health and Human Services in the amount of \$500,000 per year for a five-year term to support activities to help meet the requirements of the Indian Child Welfare Act.

#### **NATURAL RESOURCES**

- Acknowledged receipt of report by the Department of Forestry on the 2016 fire season.
- Approved, retroactively, the submission of a federal grant application by the Department of Geology and Mineral Industries to the Federal Emergency Management Agency in the amount of \$972,670 for LIDAR acquisition, geologic hazard mapping, risk assessments, and outreach activities.
- Approved the submission of a federal grant application by the Department of Geology and Mineral Industries to the U.S. Geological Survey in the amount of \$300,000 for the 2017 State Geological Survey project.
- Increased the Federal Funds expenditure limitation for the Department of Geology and Mineral Industries by \$1,400,000 for increased LIDAR program work through federal grants and contracts for services and authorized the establishment of one limited duration position (0.38 FTE) to assist with FEMA Cooperating Technical Partners grants.
- Increased the Federal Funds expenditure limitation for the Department of State Lands by \$329,000 to implement a grant award received from the National Oceanic and Atmospheric Administration for the remodeling of the Estuarine and Coastal Sciences Laboratory.
- Increased the Other Funds expenditure limitation for the Department of State Lands by \$118,000 to implement the initial portion of an integrated assessment grant from the University of Michigan for a land use and zoning analysis for lands within the Coos Bay Estuary Management Plan.
- Approved, retroactively, the submission of a federal grant application by the Parks and Recreation Department to the U.S. Bureau of Land Management in the amount of \$20,000 for costs associated with a position to digitize archeological site forms and a position associated with the management of cultural resources.
- Acknowledged receipt of a report by the Parks and Recreation Department on workgroup recommendations for allowing all-terrain vehicle operation on state highways.

#### **ECONOMIC and COMMUNITY DEVELOPMENT**

- Increased the Other Funds expenditure limitation for the Housing and Community Services Department by \$1,286,569 and authorized the

establishment of 17 limited duration positions (8.25 FTE) for administration of Hardest Hit Funding awarded by the U.S. Department of the Treasury.

- Approved, retroactively, the submission of a federal grant application by the Department of Veterans' Affairs to the U.S. Department of Veterans' Affairs in the amount of up to \$500,000 for transportation of veterans in highly rural areas to medical appointments; and increased the Federal Funds expenditure limitation by \$500,000 to accommodate award of the grant, with the understanding the Department of Administrative Services will unschedule the limitation increase until the agency is notified that its application for the grant has been successful.
- Approved the submission of a federal grant application by the Department of Veterans' Affairs to the U.S. Department of Veterans' Affairs in the amount of up to \$150,000 for hiring and retention of nursing staff at State Veteran's Homes; increased the Federal Funds expenditure limitation by \$150,000; and increased the Other Funds expenditure limitation by \$150,000 to accommodate award of the grant and required state match, with the understanding the Department of Administrative Services will unschedule the limitation increases until the agency is notified that its application for the grant has been successful.

#### **TRANSPORTATION**

- Approved the submission of a federal grant application by the Department of Transportation to the Federal Railroad Administration in the amount of up to \$1,200,000 to install a Positive Train Control system on state-owned passenger trains.
- Approved, retroactively, the submission of a federal grant application by the Department of Transportation to the Federal Highway Administration in the amount of up to \$55,560 to develop nature-based design solutions to address coastal erosion problems.
- Acknowledged receipt of a report by the Department of Transportation on the federal REAL ID Act.

- Increased the Other Funds expenditure limitation for the Department of Aviation by \$52,680, and increased the Federal Funds expenditure limitation for the Department of Aviation by \$472,120 for costs to implement phase 1 of an update to the Oregon Aviation Plan.

#### **CONSUMER and BUSINESS SERVICES**

- Acknowledged receipt of a follow-up report by the Department of Consumer and Business Services on the 2016 and 2017 marketing and outreach plans for the Oregon Health Insurance Marketplace.
- Approved, retroactively, the submission of a federal grant application by the Department of Consumer and Business Services to the U.S. Department of Health and Human Services for the planning and implementation of insurance market reforms, and increased the Federal Funds expenditure limitation by \$97,749 for the implementation of the federal grant.
- Increased the Other Funds expenditure limitation for the Board of Psychologist Examiners by \$85,000 for costs associated with administrative hearings and Attorney General fees.

#### **ADMINISTRATION**

- Increased the Other Funds expenditure limitation for the Department of Revenue by \$368,735 and authorized the increase of full-time equivalents by 2.10 FTE for the Senior Citizens' and Disable Citizens' Property Tax deferral program.
- Acknowledged receipt of a report by the Department of Administrative Services on compensation plan changes.
- Acknowledged receipt of a report by the Department of Administrative Services on the state's certificates of participation and Article XI-G general obligation bond debt service savings as a result of refinancing.
- Authorized the establishment of one permanent Accounting Technician 3 position (0.46 FTE) for the Department of Administrative Services to provide payroll functions for the Department of Consumer and Business Services.
- Increased the Other Funds expenditure limitation for the Public Employees Retirement System by \$381,074 for a third party information security assessment.

- Acknowledged receipt of a report by the Public Employees Retirement System on a statutory review for simplifying and reducing the costs of the statutory benefits structure and its administration.
- Increased the Other Funds expenditure limitation for the Oregon Liquor Control Commission by \$920,000 to address unanticipated structural defects and remediate hazards discovered during the course of work to repair and replace sections

of roof at Oregon Liquor Control Commission facilities.

**LEGISLATIVE BRANCH**

- Increased the Other Funds expenditure limitation for the Legislative Administration Committee by \$60,000 for costs associated with the operational expenses of the Oregon State Capitol Foundation.

## Oregon Legislative Emergency Board

Sen. Peter Courtney, Senate Co-Chair  
Rep. Tina Kotek, House Co-Chair

### Certificate

December 14, 2016

Pursuant to the provisions of ORS 291.328, and acting under the authority of ORS 8.105; ORS 291.326(1)(a), (b), (c), and (d); ORS 291.371; ORS 291.375; and ORS 656.612(6); this hereby certifies that the Emergency Board, meeting on December 14, 2016, took the following actions:

**1. Secretary of State**

Allocated \$324,782 from the special purpose appropriation made to the Emergency Board by section 4(1), chapter 688, Oregon Laws 2015 to supplement the appropriation made to the Secretary of State by section 1(3), chapter 688, Oregon Laws 2015, Elections Division - Distribution to counties, for the costs associated with maintaining voter registration records pursuant to chapter 8, Oregon Laws 2015.

**2. Judicial Department**

Acknowledged receipt of a report on potential courthouse capital construction project funding requests.

**5. Public Defense Services Commission**

Allocated \$4,055,962 from the Emergency Fund established by section 1, chapter 837, Oregon Laws 2015 to supplement the appropriation made to the Public Defense Services Commission by section 1(2), chapter 615, Oregon Laws 2015, Professional services, for trial-level public defense.

**6. Teacher Standards and Practices Commission**

Increased the Other Funds expenditure limitation established for the Teacher Standards and Practices Commission by section 1, chapter 602, Oregon Laws 2015 by \$358,049 for increased fingerprinting, legal, and credit card related costs.

**7. Department of Education**

Allocated \$2,058,554 from the Emergency Fund established by section 1, chapter 837, Oregon Laws 2015 to supplement the appropriation made to the Department of Education by section 1(1), chapter 759, Oregon Laws 2015, Operations, for the purpose of reimbursing school districts and Education Service Districts for costs relating to testing for elevated levels of lead for water fixtures which are used for drinking, food preparation, and other uses leading to human consumption, with the understanding that the Department of Administrative Services will unschedule \$400,000 of the allocation until the final amount required for this purpose is determined.

- 8. Department of Education**  
Approved, retroactively, the submission of a federal grant application to the U.S. Department of Education in the amount of \$2,100,221 to develop an alternative science assessment for students with severe cognitive disabilities.
- 9. Higher Education Coordinating Commission**  
Allocated \$1,414,193 from the Emergency Fund established by section 1, chapter 837, Oregon Laws 2015 to supplement the appropriation made to the Higher Education Coordination Commission by section 1(1), chapter 642, Oregon Laws 2015, Higher Education Coordinating Commission operations, for the purpose of a grant to the Portland Community College for completion of the final five quarters of the program for former nursing students of the ITT Technical Institute, with the understanding that the Department of Administrative Services will unschedule the allocation until final cost estimates are available for review by the Chief Financial Office and the Legislative Fiscal Office.
- 10. Department of Human Services**  
Allocated \$10,624,903 from the special purpose appropriation made to the Emergency Board by section 35(1), chapter 837, Oregon Laws 2015 to supplement appropriations made to the Department of Human Services, approved the transfer of General Fund appropriations, increased and transferred Other Funds expenditure limitations, increased and transferred Federal Funds expenditure limitations, transferred positions, and established permanent positions; per the attached table.
- 11. Department of Human Services**  
Acknowledged receipt of a report on program sustainability options and actions.
- 12. Oregon Health Authority**  
Allocated \$29,375,097 from the special purpose appropriation made to the Emergency Board by section 35(1), chapter 837, Oregon Laws 2015 to supplement appropriations made to the Oregon Health Authority, approved the transfer of General Fund appropriations, increased and transferred Other Funds expenditure limitations, transferred and established positions; with the understanding that the Department of Administrative Services will unschedule Federal Funds expenditure limitation; per the attached table.
- 13. Oregon Health Authority**  
Established a General Fund appropriation for the Department of Administrative Services and allocated \$659,392 from the Emergency Fund established by section 1, chapter 837, Oregon Laws 2015 to the newly established appropriation for distribution to the University of Oregon (\$589,806), Lane Community College (\$19,000), and Lane County Health Department (\$50,586) to reimburse for expenses incurred as a result of the meningitis vaccination program in Lane County.
- 14. Oregon Health Authority**  
Acknowledged receipt of a report on the new investments for behavioral health.

- 15. Department of Public Safety Standards and Training**  
Established a General Fund appropriation for the Department of Public Safety Standards and Training and allocated \$596,000 from the Emergency Fund established by section 1, chapter 837, Oregon Laws 2015 to the newly established appropriation for the cost of repairing emergency fire and life safety systems at the Public Safety Academy.
- 16. Department of Justice**  
Increased the Other Funds expenditure limitation established for the Department of Justice by section 10, chapter 837, Oregon Laws 2015, Child Support Enforcement Automated System, by \$1,804,679, and increased the Federal Funds expenditure limitation established for the Department of Justice by section 13, chapter 837, Oregon Laws 2015, Child Support Enforcement Automated System, by \$5,647,521, for the Child Support Enforcement Automated program.
- 18. Department of Justice**  
Approved, retroactively, the submission of a federal grant application to the U.S. Department of Justice in the amount of \$1,342,520 for the October 1, 2015 shooting incident at Umpqua Community College and increased the Federal Funds expenditure limitation established for the Department of Justice by section 3(3), chapter 692, Oregon Laws 2015, Crime Victims' Services Division, by \$1,342,520 to accommodate award of the grant.
- 19. Department of Corrections**  
Acknowledged receipt of a report on female and male prison population trends and system bed capacity.
- 20. Department of Corrections**  
Allocated \$2,000,000 from the special purpose appropriation made to the Emergency Board by section 42(1), chapter 82, Oregon Laws 2016 to supplement the appropriation made to the Department of Corrections by section 1(1), chapter 655, Oregon Laws 2015, Operations and health services, and authorized the establishment of 23 positions (11.69 FTE) for improvements to services provided in the Behavioral Health Unit at the Oregon State Penitentiary.
- 21. Department of Corrections**  
Denied the request for an allocation of \$3,800,000 from the Emergency Fund to equip and staff the Oregon State Penitentiary Minimum Security Facility by June 1, 2017 to serve as an additional women's prison to accommodate the current and forecast women's prison population.
- 22. Oregon Business Development Department**  
Increased the Federal Funds expenditure limitation established for the Oregon Business Development Department by section 4(1), chapter 694, Oregon Laws 2015, Business, innovation and trade, by \$421,875 for the State Trade Expansion Program.

- 23. Parks and Recreation Department**  
Increased the Federal Funds expenditure limitation established for the Parks and Recreation Department by section 4(3), chapter 303, Oregon Laws 2015, Community support and grants, by \$500,000 for a grant to the Southern Land Conservancy for land acquisition.
- 24. Parks and Recreation Department**  
Increased the Other Funds expenditure limitation established for the Parks and Recreation Department by section 1(4), chapter 303, Oregon Laws 2015, Direct services, by \$865,953, and increased the Lottery Funds expenditure limitation established for the Parks and Recreation Department by section 2(4) chapter 303, Oregon Laws 2015, Direct services, by \$288,651 for the expenditure of funds to pay for the repair of damages due to December 2015 storm events.
- 25. Department of State Lands**  
Increased the Other Funds expenditure limitation established for the Department of State Lands by section 1(1), chapter 335, Oregon Laws 2015, Common School Fund programs, by \$3,709,000 for ongoing legal and professional services costs related to the Portland Harbor Superfund Site.
- 26. Department of Geology and Mineral Industries**  
Approved, retroactively, the submission of a federal grant application to the U.S. Geologic Survey in the amount of \$162,818 for collection of LIDAR data in the Upper John Day area.
- 27. Department of Forestry**  
Acknowledged receipt of a report on the 2016 fire season, allocated \$1,768,628 from the special purpose appropriation made to the Emergency Board by section 5(1), chapter 809, Oregon Laws 2015 to supplement the appropriation made to the Department of Forestry by section 1(1), chapter 809, Oregon Laws 2015, Fire protection; increased the Other Funds expenditure limitation established for the Department of Forestry by section 2(2), chapter 809, Oregon Laws 2015, Fire protection, by \$10,178,762 for the processing of payments for fire season costs; and recommended that General Fund appropriations of \$6,791,209 for large fire costs, \$333,568 for interest expenses, and \$532,278 for district deductible costs be included in an early 2017 session budget rebalance bill.
- 28. Oregon Watershed Enhancement Board**  
Increased the Other Funds expenditure limitation established for the Oregon Watershed Enhancement Board by section 6(1), chapter 659, Oregon Laws 2015, Operations, by \$65,000 for a grant to Tillamook county for a pilot program to apply conditional use review to wetland restoration in areas zoned for exclusive farm use.
- 29. Department of Transportation**  
Approved the transfer of \$180 million Other Funds expenditure limitation to support projects in the Statewide Transportation Improvement Program, per the attached table.

- 30. Department of Consumer and Business Services**  
Acknowledged receipt of a report on workers' compensation premium assessment rates.
- 31. Department of Administrative Services**  
Acknowledged receipt of a report on compensation plan changes as required under ORS 291.371.
- 32. Department of Administrative Services**  
Approved the transfer of \$5,750,000 Other Funds expenditure limitation from the Other Funds expenditure limitation established for the Department of Administrative Services by section 2(5), chapter 654, Oregon Laws 2015, Enterprise Technology Services, to the Other Funds expenditure limitation established for the Department of Administrative Services by section 2(3), chapter 654, Oregon Laws 2015, Chief Information Office; increased the Other Funds expenditure limitation established for the Department of Administrative Services by section 2(3), chapter 654, Oregon Laws 2015, Chief Information Office, by \$6,975,000; and increased the Other Funds expenditure limitation established for the Department of Administrative Services by section 2(5), chapter 654, Oregon Laws 2015, Enterprise Technology Services, by \$11,501,225; for expenditures related to the consolidation of IT security functions, costs of implementing a new telephone system, and accommodating growth in data storage and licensing costs at the state data center.
- 33. Department of Administrative Services**  
Acknowledged receipt of a report on information technology procurement.
- 34. Department of Revenue**  
Acknowledged receipt of a report on the implementation of the Property Valuation System technology project.
- 35. Department of Public Safety Standards and Training**  
Approved, retroactively, the submission of a federal grant application to the U.S. Department of Homeland Security in the amount of \$500,000 for the purchase of a mobile fire training unit.
- 36. Public Defense Services Commission**  
Acknowledged receipt of a report on compensation plan changes.
- 37. Legislative Fiscal Office**  
Transferred unallocated balances in the amount of \$7,693,230 from special purpose appropriations made to the Emergency Board to the Emergency Fund appropriation legal citation, per the attached table.

## Summary of Emergency Board Action

December 2016

The Legislative Emergency Board met on December 14, 2016 and considered an agenda of 34 items. The Emergency Board approved five allocations from the Emergency Fund, including one from a reservation established at the Board's September 2016 meeting. Five allocations from special purpose appropriations made to the Emergency Board were approved. The Board also approved a request made by the Legislative Fiscal Office to consolidate all unallocated special purpose appropriations into the Emergency Fund. Typically, special purpose appropriations not used by a specified date become available for any purpose allowed by the Emergency Board. The unused amounts are consolidated for ease of access during the next legislative session. After the Emergency Board actions in December, the unallocated Emergency Fund balance (including the \$7.7 million in transferred unused special purpose appropriations) is \$28.3 million.

The agenda included 11 items that requested additional 2015-17 biennium authority to spend Lottery Funds, Other Funds, and Federal Funds. The Emergency Board approved expenditure limitation increases of approximately \$381 million Other Funds (\$339 million for the Oregon Health Authority rebalance), \$8.1 million Federal Funds, and \$0.3 million Lottery Funds. The Emergency Board also authorized the establishment of six permanent positions (11.18 FTE).

The agenda included ten agency reports which the Emergency Board acknowledged receiving. The Emergency Board also heard 4 requests for the submission of federal grant applications, all of which were approved.

The following is a summary of significant Emergency Board actions taken at the December 2016 meeting:

### **EDUCATION**

- Allocated \$2,058,554 from a reservation established within the Emergency Fund for the Department of Education to be distributed to school districts and Education Service Districts for the costs related to testing for elevated levels of lead in water fixtures which are used for drinking, food preparation, and other uses leading to human consumption.
- Allocated \$1,414,193 from the Emergency Fund to the Higher Education Coordinating Commission for a grant to Portland Community College for completion of the final five quarters of the program for former nursing students of the ITT Technical Institute in Portland.
- Approved, retroactively, the submission of a federal grant application by the Department of Education to the U.S. Department of Education for an Enhanced Assistance Grant to develop an

alternative science assessment for students with severe cognitive disabilities; the agency was notified that it did not receive the grant after submitting the request to the Emergency Board.

- Increased the Other Funds expenditure limitation for the Teacher Standards and Practice Commission by \$358,049 for increased fingerprinting, legal, and credit card related costs.

### **HUMAN SERVICES**

- Allocated \$10,624,903 from a special purpose appropriation made to the Emergency Board to the Department of Human Services for caseload costs or other budget challenges, increased the agency's Other Funds expenditure limitation by \$6,706,289, increased the Federal Funds expenditure limitation by \$226,939, and authorized the establishment of one permanent

position (0.25 FTE) to rebalance the Department's 2015-17 budget.

- Allocated \$29,375,097 from a special purpose appropriation made to the Emergency Board to the Oregon Health Authority for caseload costs or other budget challenges, increased the agency's Other Funds expenditure limitation by \$338,848,484, approved other transfers between appropriations and expenditure limitations, with the understanding that the Department of Administrative Services will un-schedule \$751,500,655 Federal Funds limitation, and authorized the establishment of five permanent positions (10.93 FTE) to rebalance the agency's 2015-17 budget.
- Allocated \$659,392 from the Emergency Fund to the Department of Administrative Services for distribution to the University of Oregon, Lane Community College, and the Lane County Health Department for expenses incurred as a result of the meningitis vaccination program in Lane County.
- Acknowledged receipt of a report from the Oregon Health Authority on the new behavioral health investments.
- Acknowledged receipt of a report from the Department of Human Services on program sustainability options and actions.

#### **PUBLIC SAFETY and JUDICIAL BRANCH**

- Allocated \$596,000 from the Emergency Fund to the Department of Public Safety Standards and Training to pay for emergency repairs to fire life safety systems, and deferred consideration of a request to fund additional training classes until the 2017 legislative session.
- Increased the Other Funds expenditure limitation for the Department of Justice by \$1,804,679 and the Federal Funds expenditure limitation by \$5,647,521 for the Child Support Enforcement Automated System (CSEAS) project to cover expenditures through June 2017.
- Approved, retroactively, the submission of a federal grant application by the Department of Justice to the U.S. Department of Justice and increased the Federal Funds expenditure limitation by \$1,342,520 for expenses related to the Umpqua Community College shooting incident.
- Approved, retroactively, the submission of a federal grant application by the Department of

Public Safety Standards and Training to the U.S. Department of Homeland Security in the amount of \$500,000 for the purchase of a mobile fire training unit.

- Acknowledged receipt of a report from the Department of Corrections on female and male prison population trends and system bed capacity.
- Allocated \$2,000,000 from a special purpose appropriation made to the Emergency Board to the Department of Corrections to reduce isolation and improve the care of seriously mentally ill adults in custody in the Behavioral Health Unit at the Oregon State Penitentiary.
- Denied a request by the Department of Corrections for an allocation of \$3,800,000 from the Emergency Fund to reactivate the Oregon State Penitentiary Minimum Security Facility by June 2017 in order to provide a second women's prison to accommodate the current prison population and the anticipated population growth reflected in the October 2016 prison population forecast.
- Allocated \$4,055,962 from the Emergency Fund to the Public Defense Services Commission for trial-level public defense costs.
- Acknowledged receipt of a report from the Public Defense Services Commission on compensation plan changes.
- Acknowledged receipt of a report from the Judicial Department on potential courthouse capital construction project funding requests.

#### **NATURAL RESOURCES**

- Acknowledged receipt of a report from the Department of Forestry on the 2016 fire season, allocated \$1,768,628 from a special purpose appropriation made to the Emergency Board for fire severity, increased the Other Funds expenditure limitation by \$10,178,762 for the processing of payments for fire season costs, and recommended that General Fund appropriations of \$6,791,209 for large fire costs, \$333,568 for interest expenses, and \$532,278 for district deductible costs be included in an early 2017 session budget rebalance bill.
- Increased the Federal Funds expenditure limitation for the Parks and Recreation Department by \$500,000 for a grant to the Southern Oregon Land Conservancy.

- Increased the Other Funds expenditure limitation for the Parks and Recreation Department by \$865,953 and the Lottery Funds expenditure limitation by \$288,651 for the expenditure of funds to pay for the repair of damages due to December 2015 storm events.
- Increased the Other Funds expenditure limitation for the Department of State Lands by \$3,709,000 for ongoing legal and professional services costs related to the Portland Harbor Superfund Site.
- Approved, retroactively, the submission of a federal grant application by the Department of Geology and Mineral Industries to the U.S. Geologic Survey in the amount of \$162,818 for the collection of LIDAR data in the Upper John Day area.
- Increased the Other Funds expenditure limitation for the Oregon Watershed Enhancement Board by \$65,000 for a grant to Tillamook County.

#### **ECONOMIC and COMMUNITY DEVELOPMENT**

- Increased the Federal Funds expenditure limitation for the Oregon Business Development Department by \$421,875 for the State Trade Expansion program.

#### **TRANSPORTATION**

- Approved the transfer of \$180,000,000 in excess Other Funds expenditure limitations from the Department of Transportation's Bridge and Local Government programs to the Preservation, Safety/Operations, and Modernization programs to meet the agency's projected expenditure limitation needs for the Statewide Transportation Improvement Program.

#### **CONSUMER and BUSINESS SERVICES**

- Acknowledged receipt of a report from the Department of Consumer and Business Services on workers' compensation premium assessment rates.

#### **ADMINISTRATION**

- Allocated \$324,782 from a special purpose appropriation made to the Emergency Board to the Secretary of State for payments to counties for the costs associated with maintaining voter registration records.
- Approved the transfer of \$5,750,000 Other Funds expenditure limitation from the Department of Administrative Services' Enterprise Technology Services to the Office of the State Chief Information Officer, increased the Other Funds expenditure limitation for the Office of the State Chief Information Officer by \$6,975,000, and increased the Other Funds expenditure limitation by \$11,501,225 for Enterprise Technology Services for expenditures related to the consolidation of IT security functions, costs of implementing a new telephone system, and accommodating growth in data storage and licensing costs at the state data center.
- Acknowledged receipt of a report from the Department of Administrative Services on compensation plan changes.
- Acknowledged receipt of a report from the Department of Administrative Services on the status of the information technology procurement management program.
- Acknowledged receipt of a report from the Department of Revenue on the Property Valuation System.

#### **LEGISLATIVE BRANCH**

- Approved the transfer of \$7,693,230 from unallocated balances of special purpose appropriations made to the Emergency Board to the Emergency Fund legal citation resulting in an Emergency Fund ending balance of \$28,258,206.

Emergency Fund Balance Summary		
	Agency Requests	Full Committee Action

## **2017-19 Governor's Recommended Budget (GRB)**

### **Oregon Department of Human Services Message from DHS Director Clyde Saiki**

One of Oregon's greatest responsibilities is ensuring the health and well-being of her people, particularly for the most vulnerable populations. While the economy is rebounding, and the state's job growth and unemployment rate are outperforming the national average, there are still families being left behind in the recovery. Hours and wages reflect an uneven pace of recovery, particularly in rural Oregon. Access to affordable housing continues to be barrier statewide. The high cost of child care may prevent families from returning to work or puts undue economic burden on them. Hunger is still an issue for Oregon children and families. For young people, the transition from school to higher education or work is difficult, particularly for people with disabilities. Oregon has a higher rate of youth entering the foster care system and higher-than-average abuse while in foster care.

To address the multitude of issues families face, the state plays a major role in effective interventions with children, youth, and vulnerable adults and families that can prevent or reduce the impact of toxic stress and break the generational cycles of poverty, child abuse, drug and alcohol dependence, and domestic violence.

The mission of the Department of Human Services (DHS) is to help Oregonians in their own communities achieve safety, well-being and independence through services that protect, empower, respect choice and preserve dignity. DHS is responsible for the care of some of Oregon's most vulnerable citizens – children, youth, families, older adults and people with physical, intellectual and developmental disabilities. DHS is also responsible for serving Oregonians at times when they are most in need – when they have experienced abuse, when they are hungry, when they are homeless.

DHS's success in that effort depends upon nearly 8,000 employees across the state, as well as upon thousands of community and service delivery partners, all of whom are dedicated to supporting and improving the lives of Oregonians.

The agency works to achieve the following goals:

- Every Oregon child and youth in our care deserves to grow up safely -- with support for success in school;
- Every Oregon adult deserves to live in safety – free from abuse, neglect and financial exploitation;
- Every Oregonian has the right to live as independently as possible -- with dignity, choice and self-determination;
- Every Oregonian can work to the best of their abilities to contribute to their family and their community; and
- All Oregonians deserve efficient and effective services from DHS.

DHS maintains its commitment to safety, transparency, and improvements that use the state's resources efficiently and effectively. Every year, more than one million people rely on DHS services to meet their most basic needs, to be safe, to live as independently as possible, and to support their efforts to achieve economic independence.

The Governor's Budget for DHS maintains and enhances the Governor's commitments to achieving key outcomes for Oregonians while responsibly managing inflationary growth. Below is a summary of the key program investments proposed by the Governor to balance the DHS budget and meet the needs of Oregon's most vulnerable residents.

Investments in the **DHS Child Welfare Program** will help improve capacity to provide safe and permanent living environments for foster children of all ages. Child Welfare Programs serve children and families when children are subject to abuse and neglect. Child protection workers respond to all reports of child abuse/neglect. If a child cannot be safe at home, a foster care placement is made. Child Welfare has a renewed focus and energy around keeping children safe and reducing its foster care population, by implementing a system that prevents out-of-home placements and increases a timely and safe return to families. The Governor's Budget:

- Adds \$7.7 million GF for new staff in Child Welfare. This investment supports additional case worker and screening positions to help ensure safety for children and youth who are victims of child abuse and neglect.
- Adds \$4.1 million GF for rate increases for Behavioral Health Service Providers. This package is about child and youth safety as well as maintaining access to this essential part of the system serving Oregon's most needy children. Increases to the rate will help reduce pressure on these important providers as costs increase.
- Adds \$7.9 million GF for rate increases for family foster care providers. Families coming forward to provide foster care has continued to diminish over the last 5 years in part due to the low reimbursement rates. Oregon is currently providing only 40-46% of the actual cost of care, and this increase will help Oregon recruit and retain foster families – providing safe, appropriate placements.
- Adds \$6.9 million GF to support legal representation for case workers. This investment will provide DHS caseworkers with continuous representation which, in turn, will promote attorney-caseworker collaboration, improve caseworker job satisfaction and retention, avoid the risk for unlawful practice of law by case workers, and improve the overall efficiency and cost-effectiveness of the system.
- Continues funding for other core services in order to keep children and youth safe.

Investments in the **Intellectual and Developmental Disabilities Services** program (I/DD) will provide support across the lifespan to Oregonians. The I/DD program strives to support individuals with intellectual and developmental disabilities and their families within communities by promoting and providing services that are person-centered, self-directed, flexible, community inclusive, culturally appropriate, and supportive of the discovery and development of each individual's unique gifts, talents and abilities. As a result of the state's adoption of the Community First Choice Option (or K plan), an increased number of children and adults with I/DD are able to access Medicaid funded, community-based services to meet their needs, instead of having to meet crisis eligibility in order to access the appropriate level of support. The Governor had to make difficult choices in this section of the budget:

- Adds \$22.3 million GF for rate increases for I/DD Direct Service Providers. This funding will increase safety for individuals with intellectual and developmental disabilities because providers will be better able to hire, train and retain adequate staff to meet individuals' needs and assure their health and safety.
- Continues to protect the eligibility requirements for individuals who qualify for assistance by funding anticipated increases in caseloads and cost per case, including GF backfill of changes in the federal match rate for certain grants.

Investments in the **Aging and People with Disabilities (APD) program** will assist a diverse population of older adults and people with physical disabilities to achieve well-being through opportunities for community living, employment, family support and long term services and supports that promote independence, choice and dignity. The program seeks to achieve the following goals: Ensure the safety and protection of the population we serve with a focus on prevention; Facilitate broad awareness of, and easy access to, services; Invest in preventive services to keep people independent, safe and healthy for longer periods of time; Provide person centered services and supports; and serve people in an equitable and culturally sensitive manner. The Governor also had to make difficult choices in this budget:

- Continues funding for Service Priority Levels 1-13. This investment will continue current Medicaid service levels for all clients.
- Protects current caseload and eligibility criteria.
- Supports a staffing level of a net 90.4 percent of the workload model by the end of the biennium, based on the fall 2016 caseload forecast.

Investments in the **Self-Sufficiency Program** help DHS meet the emotional and material needs of program participants, and ensure that every family has an educational or career pathway to economic security before leaving SSP. SSP is designed to provide low-income Oregonians with services to create stability and prepare participants for employment so they are equipped to work their way out of poverty. The programs emphasize the safety and healthy development of children, and often serve to prevent abuse or neglect that may lead to out-of-home placement in the more expensive foster care program. The Governor's Budget maintains current eligibility, timeline and benefit standards for Self-Sufficiency programs:

- Funds the Temporary Assistance for Needy Families time limit at 60 months. TANF is one of the most important programs for stabilizing families, assisting them in returning to work keeping children safely at home with families (and out of the child welfare system).
- Invests \$20.5 million GF into the TANF re-investment initiative (started in 2015-17) under HB 3535. This is a package of policy and program changes to increase family engagement and stability.

The 2017-19 GRB investment for **Vocational Rehabilitation** is \$114 million total funds (\$27 million GF). These services assist Oregonians with disabilities to achieve and maintain employment and independence through a variety of services, and employees provide direct services through a network of local offices across Oregon.

Investments in **DHS Central and Shared Services** will support important programs that assist the Department of Human Services and the Oregon Health Authority, as well as other state programs. The Central Services program provides the leadership and business supports necessary to achieve the mission of the agency. The Governor's Budget:

- Adds \$6.1 million General Fund (GF) to increase staffing for the Background Check Unit. The result of this investment will be faster background checks to assist regulated Oregon employers in meeting their required staffing levels while maintaining health, safety and financial wellness for Oregonians.
- Adds \$9.5 million GF (not including debt service) for two important technology systems, Integrated Eligibility and Centralized Abuse Management. The Integrated Eligibility Project will automate eligibility for non-MAGI Medicaid, ERDC, SNAP and TANF -- modernizing parts of our systems and improving the ability for Oregonians to have a single process of applying for these benefits. The Centralized Abuse Management

System will replace a patchwork of haphazard solutions for records related to adult protective services, mental health investigations and more.

- Adds \$10 million GF Special Purpose Appropriation funding for salaries for non-state employee bargaining

The Governor's Budget includes the following **program reductions** for the Department of Human Services:

- Eliminates the General Assistance program that was passed earlier in 2016 in HB 4042 - \$1.9 million GF.
- Eliminates the Live-In Program in Aging and People with Disabilities as of 7/1/2017 - \$20.8 million GF. The program will convert most clients to the in-home hourly program.
- Eliminates Oregon Project Independence for people with disabilities; in addition, it reduces the remainder of the program expenditures by 75% - \$22 million GF total.
- Holds Nursing Facility rates at the 6/30/2017 level - \$18.3 million GF.
- Implements a partial reduction (50%) in the complex medical add-on for nursing facilities - \$6.6 million GF.
- Eliminates the Family to Family Network for I/DD - \$1.3 million GF.
- Eliminates funding for Regional Programs for I/DD - \$4.8 million GF.
- Expends \$6 million in funding from the Fairview Housing Trust and makes a one-time investment in the DHS I/DD program's K-Plan services.
- Reduces Brokerage and Community Developmental Disabilities Programs (CDDP) equity funding from 95% to 91% - \$3.5 million GF.
- Eliminates the Oregon Enterprise Data Analytics program - \$1 million GF.
- Provides only flat funding for most Services and Supplies (eliminates inflation)
- Reduces DHS Personal Services funding by \$7 million GF.
- Transfers some Information Technology Security positions to the Office of the State Chief Information Officer, based on the Governor's cyber security executive order - \$0.4 million GF.

At the Oregon Department of Human Services, we are serious about our commitment to the clients and customers we serve, as well as our responsibility to be good stewards of taxpayer resources. Governor Brown's Recommended Budget provides investments that will help the agency to put our efforts into strategies that better anticipate and address the needs of the children, youth, families, vulnerable older adults, and people with disabilities we serve.

We look forward to the work ahead to better achieve our mission of safety, well-being and independence for all Oregonians. If you have questions about the GRB, please send them to [communications.dhs@state.or.us](mailto:communications.dhs@state.or.us).

Respectfully submitted.

Clyde Saiki, Director Department of Human Services.

# Oregon Department of Human Services

---

## Overview

The mission of the Department of Human Services (DHS) is to help Oregonians in their own communities achieve safety, well-being and independence through services that protect, empower, respect choice and preserve dignity. As described in more detail in the DHS Director's Letter the following DHS budget is based on the following guiding principles:

- Safety for Children and Vulnerable Adults
- Independence, Dignity, Choice and Self-Determination for Older Adults, People with Disabilities
- Reducing Families and Individuals in Poverty
- Employment for People with Disabilities, and
- Program Performance and Operational Efficiency and Effectiveness

## Funding

The DHS Governor's Budget recommends an investment of \$3.17 billion General Fund and \$11.3 billion Total Funds for the 2017-19 biennium.

DHS TOTAL	GF	OF	FF	TF	POS	FTE
LAB 15-17	\$ 2,778,650,152	\$ 539,197,645	\$ 7,318,100,627	\$ 10,635,948,424	8,061	7,908.29
GB 17-19	\$ 3,173,736,725	\$ 554,442,828	\$ 7,536,336,144	\$ 11,264,515,697	8,294	8,076.56
Difference	\$ 395,086,573	\$ 15,245,183	\$ 218,235,517	\$ 628,567,273	233	168.27
Percent change	14.2%	2.8%	3.0%	5.9%	2.9%	2.1%

Major changes from LAB to GB are driven mainly by:

- Roll up of 15-17 investments
- Standard inflation though most inflation on S&S was removed
- Forecasted Cost per Case and Caseload changes including Child Welfare, state and AAA staffing
- Changes in Federal Fund Match Rates
- Investment in rate increases for certain providers
- Investments in two information technology projects
- Program reductions or flat funding in certain programs

## Strategic Funding Investments and Reductions

The following investments and reductions are proposed in the DHS Governor's Budget:

# Oregon Department of Human Services

---

DHS GB - POPS	GF	OF	FF	TF	Pos	FTE
<b>TOTAL</b>	<b>59,238,738</b>	<b>27,733,872</b>	<b>173,917,222</b>	<b>260,889,832</b>	<b>65</b>	<b>43.12</b>
102 - Centralized Abuse Management	1,920,186	2,207,072	215,911	4,343,169	4	2.83

## **Oregon Department of Human Services**

---

Descriptions of each Policy Option Package (POP) and many reductions are included in the appropriate programs' budget narrative in the following sections of the DHS ARB document.

### **Conclusion**

For the 17-19 biennium, the Governor's Budget is proposing a package of services that promote safety, wellness and the economy for some of Oregon's most vulnerable Oregonians. These investments will help DHS meet the needs of Oregonians in this period of change and growth.

# **Oregon Department of Human Services Central and Shared Services, State Assessments and Enterprise-wide Costs, Program Design Services**

---

## **Overview**

DHS Central, Program Design Services (PDS), Shared Services, and State Assessments and Enterprise-wide Costs (SAEC) provide critical leadership and business supports necessary to achieve the mission of the agency: helping Oregonians achieve well-being and independence through opportunities that protect, empower, respect choice and preserve dignity.

DHS Central, Program Design Services (PDS), Shared Services and SAEC budgets include:

- Payments to DAS and third parties for goods and services that serve the whole agency, such as facility rents, state data center charges, the DAS risk assessment, DAS government service charges, computer replacement, and debt service.
- Payments for DHS share of the cost of services shared with OHA. When the agency split, DHS and OHA agreed to share information technology, financial, investigations, and other services to avoid cost increases and permit a greater focus on improving performance and efficiency.
- The cost of the DHS/OHA shared services provided by DHS. These costs are entirely Other Funds, paid for by the payments described in above and similar payments in the OHA budget. From a Total Fund perspective, these costs are double-counted in the DHS and OHA budgets.
- The cost of DHS central budgets, including the Director, Governor's Ombudsmen, Legislative and communication support, budget, diversity, and human resources.
- Program Design Services employ professionals who specialize in tasks that help the five DHS programs design and implement programs to achieve the agency's outcomes These supporting tasks include:

**Oregon Department of Human Services  
Central and Shared Services,  
State Assessments and Enterprise-wide Costs,  
Program Design Services**

---

- Measuring whether the programs are being implemented the way they are designed
- Measuring how well the outcomes are being achieved
- Conducting research on better ways to achieve the outcomes
- Reporting to our federal and other partners
- Working with IT developers to design better IT systems to support program implementation.
- Improving business processes in delivering services.

The DHS Central, Program Design Service and Shared Services budgets are structured and administered according to the following principles:

*Control over major costs.* DHS centrally manages many major costs. Some of these costs, like many DAS charges, are essentially fixed to the agency. Others, like facility rents, are managed centrally to control the costs. DHS also strongly supports and actively participates in statewide efforts to locate work across the enterprise and install performance management systems to perform administrative functions more efficiently and effectively.

*Customer-driven shared services.* When the agency split, DHS and OHA agreed to maintain many administrative functions as shared services to prevent cost increases, maintain centers of excellence, and preserve standards that help the agencies work together.

DHS and OHA govern their shared services through a joint committee composed of operational leaders of the two agencies. This approach ensures that shared services are prioritized and managed to support program needs. The board and its subgroups have established service level agreements and performance measures for each service, moved staff in and out of shared services to rationalize service delivery, and begun implementing more integrated systems to support the performance of all our employees.

*Performance management system.* DHS has implemented a performance management system containing the following key elements:

**Oregon Department of Human Services  
Central and Shared Services,  
State Assessments and Enterprise-wide Costs,  
Program Design Services**

---

- A clear statement of the outcomes DHS must achieve.
- Descriptions of the processes DHS uses to achieve its outcomes.
- Measures of success for each outcome and process.
- Owners for each measure.
- A quarterly all-leadership review of progress on each measure and strategy.

DHS is now implementing the same system within each program and support service category and revisiting the management system to better align with the agency mission and goals. The system is contained in the Director's Office and is managed by the executive team.

*Centralized infrastructure.* Based on the process maps developed in the performance management system, DHS restructured into five programs - Child Welfare, Self Sufficiency, Developmental Disabilities, Aging and People with Disabilities, and Vocational Rehabilitation. The five programs were given the essential functions to design and implement their programs within the performance management system. DHS then centralized many support services that previously had been performed separately by each program. This was intended to create efficiencies, assigns clear accountability for the performance of support services, and allow targeted investments to improve performance. Better support services ultimately improve performance of all DHS employees and our providers. These centralized programs include Program Integrity, Business Intelligence, Licensing and Regulatory Oversight (OLRO), Continuous Improvement, and Information Technology Business Support Unit (ITBSU) offices. DHS is currently reviewing whether centralization of these services had the intended outcomes. Over the next few months some of these functions (like OLRO and ITBSU) will be returned to the programs if the intended outcomes were not achieved.

Best practices in installing performance management require specific skills - especially in project management, LEAN tools, data analysis, and professional development of managers. DHS has reallocated resources and used savings to make some of these investments, but it must increase these skills as much more needs to be done.

**DHS Central Services**

DHS Central Services consist of the Office of the Director and Policy, the Office of Equity and Multicultural Services (OEMS), the Office of Human Resources, the DHS Office of the Chief Financial Officer and the Office of Communications. These offices provide essential business supports to programs in achieving the department and programs mission, vision and outcomes.

The DHS GB request for Central Services is \$19.3 million General Fund and \$38.0 million Total Funds:

CENTRAL SERVICES	GF	OF	FF	TF	POS	FTE

Below is an overview of the offices within the Central Budget.

**Office of the Director and Policy** is responsible for overall leadership, policy development and administrative oversight for all programs, staff and offices in DHS. These functions are coordinated by the Chief of Staff with the Governor’s Office, the Legislature, other state and federal agencies, partners and stakeholders, communities of color, local governments, advocacy and client groups, and the private sector.

The Chief of Staff also oversees the Governor’s Advocacy Office (GAO) - This office handles client complaints related to DHS services. This office operates independently in the investigations performed and reports directly to the Governor by providing a quarterly report on the status of the complaints. The team in this office works closely with field and central office staff, program staff; the Governor’s Office; key stakeholders; and the DHS Director’s Office to successfully, equitably and respectfully reach a conclusion.

The DHS Director’s Office is also home to Tribal Affairs. We are committed to a positive working relationship with the nine tribes in Oregon. Staff regularly holds meetings with tribal governments through tribal liaisons and continually strives to ensure these communities receive sufficient and appropriate human services.

*The Office of Human Resources* (HR) serves as a strategic partner to its customers in, providing proactive and comprehensive human resources services, in alignment with agency and program mission and goals. HR works closely with internal customers on Workforce Strategies that support agency and program needs and strategies, and building a healthy workplace culture of ongoing development and

**Oregon Department of Human Services  
Central and Shared Services,  
State Assessments and Enterprise-wide Costs,  
Program Design Services**

---

feedback to ensure the agency has a diverse workforce with the right people with the right skills, training, and support to do their work, now and in the future. This office provides essential HR administrative functions and services for DHS and OHA, and supports organizational development and an improved common culture of leadership and engagement across both agencies, through background checks and fitness determinations; personnel records management; leave administration; centralized position administration; safety and risk response and management; staff and management training.

*The DHS Public Affairs Office* is made up of three work units: Communications, Legislative, and Legal. The office provides DHS with unified support and coordination in outreach and communication, legislative action and strategy:

- **Communications Unit** - This office supports the mission by providing accurate information to a diversity of employees, clients, legislators, stakeholders and interest groups, providers and partners, local governments, other state and federal agencies, policymakers, the news media, targeted audiences and the general public. Effective communication is the primary vehicle to demonstrate public transparency, accountability, and trust. The office also provides support to the department's priority projects as defined by the DHS Director and executive team.
- **Legislative Unit** - This unit handles all legislative matters for DHS. This team coordinates all DHS legislative matters with legislative offices, key stakeholders and the Governor's Office. This team supports both field and central office staff providing consultation and support in legislative matters, primarily working with central office staff on policy development for program services. During a legislative session, this unit tracks and assigns all bills related to DHS program and operations. Staff in this unit support the director of DHS, the directors of all program and operations in DHS and the district managers in field offices regarding legislative matters.

**Oregon Department of Human Services  
Central and Shared Services,  
State Assessments and Enterprise-wide Costs,  
Program Design Services**

---

- Legal Unit - This Unit manages all lawsuits, tort claims and subpoenas related to DHS program and operations. Staff in this unit provide expert consultation to DHS field and central office staff, Department of Justice (DOJ) and Department of Administrative Services (DAS) Risk Management in policy related to legal matters. This team ensures timely completion of the required judicial documents to move smoothly through a complicated legal matter.

Hearing and Rules Unit supports all DHS field office and central office programs by managing administrative rules and administrative hearings. This unit provides expert technical support to hearing representatives in DHS field services and liaison to the Office of Administrative Hearings and DOJ regarding DHS notices, hearing requests, and contested case hearings. This unit provides expert technical support to program staff writing rules and rule-related documents and handles rule filing and the public comment process for DHS programs. The Rules Coordinator advises, consults, leads, coordinates and trains staff in drafting, interpreting, defining and developing the intent and scope of administrative rules. In addition, the rules coordinator monitors and reviews contested case orders, trains hearing representatives, assists with legal issues and acts as liaison with the Office of Administrative Hearings to discuss performance measures.

Office of the Deputy Director – Agency Operations - is responsible for Shared Services such as Internal Audits, Business Intelligence, Licensing and Regulatory Oversight, Continuous Improvement, Information Technology (IT) Business Supports, Adult Abuse Prevention and Investigations, Program Integrity, Office of Payment Accuracy and Recovery, and the Chief Financial Officer.

Office of the Chief Financial Officer (OCFO) provides optimal business services to ensure accountability, data driven decisions, and stewardship of resources in support of the mission of DHS. This is done by working closely with DHS and OHA programs and the OHA Chief Financial Officer, to ensure accurate, timely and efficient recording and management of financial resources; culturally

**Oregon Department of Human Services  
Central and Shared Services,  
State Assessments and Enterprise-wide Costs,  
Program Design Services**

---

competent and equitable services; authorizing the redistribution of available resources to meet changing needs; and establishing administrative controls.

*The Office of Equity and Multicultural Services (OEMS)* supports the mission of DHS by providing leadership and direction in supporting equity, diversity and inclusion initiatives throughout the agency. OEMS guides systemic changes to both internal workforce developments as well as improve service delivery to all Oregonians. The office also investigates all claims of discrimination and harassment by staff. The goals of the office include reducing service disparities; ensuring a diverse and culturally competent workforce; removing barriers to a welcoming work environment; and improving life outcomes for all DHS clients. OEMS also provides support to the department’s priority projects as defined by the DHS director and Cabinet.

**Program Design Services (PDS)**

The PDS budget for 2017-19 GB is \$31.2 million General Fund and \$161.6 million Total Funds.

<b>Program Design Services</b>	<b>GF</b>	<b>OF</b>	<b>FF</b>	<b>TF</b>	<b>POS</b>	<b>FTE</b>
LAB 15-17	\$ 31,368,970	\$ 8,007,985	\$ 77,765,397	\$ 117,142,352	270	250.70

**102 Centralized Abuse Management System**

House Bill 4151 requires the state of Oregon and DHS as its agent, to standardize its processes and technology related to abuse of vulnerable adults. Oregon’s current environment for tracking, reporting, analyzing and investigating incidents

**Oregon Department of Human Services  
 Central and Shared Services,  
 State Assessments and Enterprise-wide Costs,  
 Program Design Services**

---

of adult abuse relies on accessing information from ten (10) distinct systems or data sources. Additionally, local offices have created their own one-off mechanisms for supporting the abuse investigation processes, further complicating and decentralizing information. Existing systems limitations include the inability to search across program populations, inhibiting the ability to track perpetrators and/or victims over time and between populations. This heightens the risk of not capturing all abuse allegations.

This POP requests state funds to complete implementation efforts started in the 2015-17 biennium, for an integrated solution which meets HB 4151 criteria and helps protect vulnerable Oregonians. Not funding this POP will limit Oregon’s ability to achieve the capabilities and efficiencies of the proposed integrated solution. The Other Funds in this request are carryover Q-Bonds sold in spring of 2017 and is a one-time request for limitation. The General Fund is the best current estimate of costs of the ongoing operations and maintenance of the new system.

**201 Integrated Eligibility Project**

DHS is seeking continued legislative approval for a project that would transfer human service eligibility determination functionality from Kentucky to add to the new integrated OregONEligibility system. This will impact eligibility for Non-MAGI Medicaid, ERDC, SNAP and TANF programs.

<b>Reductions</b>	<b>GF</b>	<b>OF</b>	<b>FF</b>	<b>TF</b>	<b>POS</b>	<b>FTE</b>

**Overview of Program Design Services**

*Office of Program Integrity (OPI)* conducts analysis and tests to determine whether DHS is implementing programs in the way they were designed and trains

**Oregon Department of Human Services  
Central and Shared Services,  
State Assessments and Enterprise-wide Costs,  
Program Design Services**

---

caseworkers based on their findings to improve program integrity. The Quality Control Unit conducts operational and case reviews, many mandated by state and federal law, to determine how accurately each program is making eligibility and other determinations. The Quality Assurance Unit and CMS Waiver Group conducts field reviews to assess program quality.

The *Office of Business Intelligence (OBI)* compiles reports and conducts research to determine whether DHS programs are achieving their goals and desired outcomes. OBI specializes in managing data to ensure it is accurate, consistent, and useful to programs in assessing their success and making decisions to alter their program design. One important part of this role is managing the agency scorecard of outcome and process measures. OBI also conducts professional research requested by programs to give them a more rigorous foundation for their program design.

*IT Business Supports (ITBSU)* is a bridge between IT technical staff and program staff. Its mission is to help IT technical staff understand program needs so they can construct applications that better support the program, to improve program business processes to maximize the benefits of technology, and to integrate system implications into consideration of program policy changes. This mission requires staff who understand IT systems and language as well as program business processes. ITBSU also directly supports users of DHS systems (many of whom are county and other non-DHS staff) with issues particular to DHS program.

ITBSU's major project is the DHS Integrated Eligibility project – an agency strategy to improve program processes and IT systems to give the agency the ability to: (1) engage with clients in the way that maximizes our ability to help them achieve safety, health and self-sufficiency; (2) support caseworkers with information and tools that allow them determine how to best assist the client and that minimizes their need to perform administrative tasks; and (3) improve the efficiency of DHS operations.

ITBSU is also under review as a centralized service. Based on recent structural reviews of DHS ITBSU will be partially moved back to the programs each unit

**Oregon Department of Human Services  
Central and Shared Services,  
State Assessments and Enterprise-wide Costs,  
Program Design Services**

---

supports leaving just enterprise project staff in ITBSU. This will allow greater accountability to the programs for program related work.

The *Office of Continuous Improvement (OCI)* helps DHS units implement the Lean Daily Management System and conduct business process improvement events. OCI employs project managers and people skilled in Lean tools that assist units in making high-priority process improvements and building their own Lean capacity.

The *Office of Licensing and Regulatory Oversight (OLRO)* licenses many providers of residential care to children, the aging and physically disabled, and people with developmental disabilities. These providers range across the continuum of care and serve clients of multiple DHS programs and other agencies as well as private persons. Through diligent oversight, investigation of complaints and reports of potential abuse, and corrective action, OLRO reduces future instances of unsafe conditions and improves the quality of care. These services are most effective when they are provided in a quality and prevention model aimed at preventing harm in the first place to protect the safety and health of vulnerable Oregonians. In the GB functions of OLRO are being placed back into program where the accountability for the function lies. In this budget only the Child Welfare related staff are left in OLRO. However, those positions will at some point be moved into Child Welfare likely after the review of that system has been completed.

The providers licensed by OLRO, and now program staff, include adult foster homes, assisted living facilities, residential care facilities, nursing homes, supported living and employment programs for people with developmental disabilities, and private child care agency licensing.

**DHS Shared Services**

DHS Shared Services supports both DHS and OHA by providing optimal business services to ensure accountability, data driven decisions, and stewardship of resources. Shared Services are completely Other Funded and provide services to both DHS and OHA. Funding for Shared Services is included in the Shared

<b>GB Build - POPS</b>	GF	OF	FF	TF	POS	FTE
102 - Centralized Abuse Management System	-	157,072	-	157,072	1	0.75
205 - Background Check Unit Workload	-	7,251,800	-	7,251,800	22	11.00

In some cases the shared service investment is only part of the larger POP with the remainder in other program areas.

**102 Centralized Abuse Management System**

House Bill 4151 requires the state of Oregon and DHS as its agent, to standardize its processes and technology related to abuse of vulnerable adults. Oregon’s current environment for tracking, reporting, analyzing and investigating incidents of adult abuse relies on accessing information from ten (10) distinct systems or data sources. Additionally, local offices have created their own one-off mechanisms for supporting the abuse investigation processes, further complicating and decentralizing information. Existing systems limitations include the inability to search across program populations, inhibiting the ability to track perpetrators and/or victims over time and between populations. This heightens the risk of not capturing all abuse allegations. This POP requests state funds to complete implementation efforts started in the 2015-17 biennium, for an integrated solution which meets HB 4151 criteria and helps protect vulnerable Oregonians. Not funding this POP will limit Oregon’s ability to achieve the capabilities and efficiencies of the proposed integrated solution. The Other Funds in this request are carryover Q-Bonds sold in spring of 2017 and is a one time request for

**Oregon Department of Human Services  
Central and Shared Services,  
State Assessments and Enterprise-wide Costs,  
Program Design Services**

---

limitation. The General Fund is the best current estimate of costs of the ongoing operations and maintenance of the new system.

**205 Background Check Unit Workload**

Steadily increasing numbers of background checks per year and growing complexity of work combined with stagnant or decreased staffing for the Background Check Unit (BCU) over the last few biennia have resulted in mounting backlogs and processing timelines for background checks. Groups for whom BCU completes checks include but are not limited to home care workers, personal support workers, subsidized child care providers, child caring agencies, System of Care and SPRF providers, and staff and volunteers from residential care, nursing, and adult foster home facilities. The staff requested in this policy option package would meet currently required needs to maintain timely background checks for all regulated groups handled by BCU, and meet projected needs due to program growth and new federal and state statutes implementing during the 2017-2019 biennium. The result would be faster background checks to assist regulated Oregon employers in meeting their required staffing levels while maintaining health, safety and financial wellness for vulnerable Oregonians through quality background checks. In addition, Department of Human Services (DHS) has identified a variety of expansion options to current background check criteria for DHS and OHA providers whose fitness determination is completed by the Background Check Unit (BCU). These options would provide more intensive background checks by accessing a variety of DHS, state and federal information regarding health, safety, abuse and fraud not currently utilized. The result would be increased health, safety and financial wellness for vulnerable Oregonians. The BCU has authority to charge fees but does not currently do so. A fee for service model is an option to cover some or all costs of the BCU. There is a corresponding POP in the OHA budget for this investment.

**Overview of Shared Services**

DHS Shared Services contains the following key offices and programs:

*Shared Services Administration* provides leadership and direction for shared services offices as well as managing the business continuity planning efforts for both DHS and OHA.

*The Budget Center* provides program and administrative budget planning, financial analysis and technical budget support for DHS and OHA. These services are provided for department leadership, program, policy and field managers, staff and external policymakers.

*The Office of Forecasting, Research and Analysis* provides an independent, externally reviewed, forecast of the usage of DHS and OHA programs used for budget forecasts and legislative decision-making. OFRA also creates an integrated client dataset across programs to facilitate research on the combined effects of DHS and OHA programs. Additionally, OFRA houses the Office of Enterprise Data Analytics (OEDA) which conducts inter-agency research and advanced statistical modeling to answer cross agency operational questions.

*The Office of Financial Services* provides accounting services, administers employee benefits and payroll, prepares financial reports, and collects funds owed to DHS and OHA. This office provides accurate, accountable and responsive financial management and business services to DHS and OHA clients, providers, vendors, stakeholders and employees in support of both agencies' missions and in compliance with state laws and federal policies, rules and regulations.

**Oregon Department of Human Services  
Central and Shared Services,  
State Assessments and Enterprise-wide Costs,  
Program Design Services**

---

*The Office of Human Resources* provides essential HR administrative functions and services for DHS and OHA, and supports organizational development and an improved common culture of leadership and engagement across both agencies, through background checks and fitness determinations; personnel records management; leave administration; centralized position administration; safety and risk response and management; staff and management training; facilitation services and LDMS coaching; HR data analysis and reporting; HR policy administration; and internal communication strategies and resources for managers and staff.

*The Office of Facilities Management* manages 2.7 million square feet of leased property for OHA and DHS statewide, including managing maintenance, remodeling, furniture acquisition and reconfiguration, staff relocations, coordination with DAS and state brokers on lease negotiations, and analysis of the costs and benefits of space utilization, ADA compliance, and energy conservation. OFM also oversees 1300 vehicles used by OHA and DHS staff around the state.

*The Office of Imaging and Records Management* provides document and records management services for DHS and OHA through imaging, electronic workflow, data entry, archiving and retention services.

*The Office of Contracts and Procurement* provides contract and procurement services for DHS and OHA by making purchases, conducting solicitations, and preparing and processing contracts with other government agencies, businesses and service providers.

*The Office of Adult Abuse Prevention and Investigation* conducts and oversees statewide protective services investigations of abuse and neglect, provides technical assistance to community-based mental health and developmental disability programs, and delivers training on investigations and abuse prevention services for DHS and OHA.

*The Internal Audit and Consulting* conducts independent audits on OHA and DHS programs identified in the agencies' risk assessment and audit plan and coordinates the agencies' engagement in and responses to external audits. The Secretary of State

**Oregon Department of Human Services  
Central and Shared Services,  
State Assessments and Enterprise-wide Costs,  
Program Design Services**

---

and federal agencies conduct 30-50 external audits and reviews of DHS/OHA programs each year.

*The Office of Payment Accuracy and Recovery* provides recovery services for DHS and OHA by identifying and recovering moneys paid in error to clients or providers; investigates allegations of fraudulent activities; investigates and recovers state funds expended for services when a third party should have covered the service and the recovery of claims made by a client; and recovers funds from the estates of Medicaid recipients for the cost of cash and medical benefits provided.

**State Assessments and Enterprise-wide Costs (SAEC)**

This budget includes the DAS, ETS, Risk Management and other assessments, debt service, and the DHS rent, computer replacement and shared services funding budgets. The GB for SAEC is \$227.5 million General Fund and \$461.9 million Total Funds.

<b>SAEC</b>	GF	OF	FF	TF
LAB 15-17	\$ 207,796,036	\$ 38,893,219	\$ 171,527,345	\$ 418,216,600
GB 17-19	\$ 227,531,646	\$ 37,673,670	\$ 196,675,731	\$ 461,881,047
Difference	\$ 19,735,610	\$ (1,219,549)	\$ 25,148,386	\$ 43,664,447
Percent change	9.5%	-3.1%	14.7%	10.4%

Note: There are no positions or FTE in the SAEC budget.

Major changes between LAB and CSL include:

<b>GB - POPS</b>	GF	OF	FF	TF	POS	FTE
<b>TOTAL</b>	<b>10,625,157</b>	<b>0</b>	<b>1,221,826</b>	<b>11,846,983</b>	<b>0</b>	<b>0.00</b>
102 - Centralized Abuse Management System	157,072	0	0	157,072	0	0.00

205 - Background Check Unit Workload	6,118,266	0	1,221,826	7,340,092	0	0.00

In general these POPs are in other program areas and the costs included above are for the rent and other assessment costs attached to employee costs in the program area. For the 200 series POPS this includes the funding for the shared services POPs described above.

**Oregon Department of Human Services  
 Central and Shared Services,  
 State Assessments and Enterprise-wide Costs,  
 Program Design Services**

---

This budget does not fund the backfill of Federal Funds with General Funds for performance audits performed by the Secretary of State. The federal government will not pay for performance (as opposed to compliance) audits. The Secretary of State has stated that 49% of their audits are performance audits. At the time of this document they are still in discussion with the federal government to determine what percentage of their work is considered performance audits. This means these audits can only be paid for by General Fund and we can no longer bill performance audits to the federal government. This means the Governor’s budget for DHS does not include funding for performance audits done by the Secretary of State. One option is for SOS to no longer do performance audits on DHS and lower their price list of costs to DHS. Another option is to fund the Secretary of State directly for performance audits. The final option is to backfill the GF DHS will need to comply with the federal policy on performance audits. Because the percentage of performance audits is still in question the amount necessary to fund SOS performance audits of DHS may need to change once the federal government agrees with the SOS proposed allocation of costs to performance audits.

# **Oregon Department of Human Services**

## **Self Sufficiency Programs**

---

### **Overview**

Oregonians access self-sufficiency services when they are in need and have no other alternatives. From all corners of the state, we served over one million Oregonians last year through our Supplemental Nutrition Assistance Program (SNAP). Most Oregonians seeking assistance need help meeting a variety of needs such as nutritious food – over 700,000 just this month – or basic needs such as shelter and utilities costs in addition to basic household supplies such as toothpaste, bedding, and other basic hygiene needs through cash assistance for families with children living in extreme poverty, or assistance with quality child care so parents can remain employed and maintain a path of financial stability. Programs also help low-income families impacted by domestic violence or refugees seeking a safe area to live. Some programs require participation in employment services or job training to help them move to supporting themselves and their families. Families can also receive help to apply for other federal programs (SSI) if employment is not a viable option due to a severe disability.

### **Challenges**

When adequately resourced, staff delivering these programs help break the cycle of poverty and help Oregonians transition to jobs. This keeps families safe and stable, supporting the healthy development of young children. Unfortunately, with program reductions, an economic recession that triggered a dramatic increase in demand for services from Oregonians, and a slow economic recovery, these programs have been significantly challenged to achieve results. Additionally, caseloads remain high especially in SNAP.

Staff at the state and local levels continue to collaborate and build upon existing agency and community partnerships in order to help families find the resources and services they need. There is also a need, and an opportunity, to connect with the multiple redesigns of state systems (Workforce, Early Learning and Health) that touch or should touch families served by the DHS self-sufficiency programs. In particular, the economy is recovering slowly and unevenly creating challenges for people throughout the state to have access to jobs that build a path to self-sufficiency.

### **Seeking Self-Sufficiency**

These programs are designed to help break the cycle of poverty, help Oregonians transition to jobs, support the healthy development of young children and help

## **Oregon Department of Human Services**

### **Self Sufficiency Programs**

---

keep families stable, preventing children from being abused or neglected and from requiring out-of-home placement in more expensive foster care.

In 2015 the Legislature passed HB 3535 and DHS' budget, which, taken together, authorized the Temporary Assistance for Needy Families (TANF) Reinvestment. These two legislative actions—House Bill 3535 and DHS' approved budget—produced a combination of policy and practice changes toward improved outcomes for children and families.

The TANF program has reinvested funds into efforts that maximize the dollars for benefits that are targeted at building participant progression in work related activities, identifying and building on skills and leveraging community collaborations to provide solid foundations that lead not only to employment placement but retention and advancement. The TANF reinvestment work focused in the following four key areas:

- **Benefits Cliff** – reduce number of participants affected by immediate loss of benefits when they become employed by raising TANF exit income limits, allowing for a three month reduced subsidized child care copay, and providing three months of transitional cash benefits.
- **Time Limits** – align the state TANF time clock with the federal TANF time clock and review extensions, which allow families who have reached the 60-month limit to remain on TANF.
- **Re-Engagement** – focus on opportunities for flexibility in the re-engagement processes including good cause, sanction levels, training, and statewide consistency.
- **Community Collaborative Impact** - develop pilot contracts, which allow community resources not currently provided within the TANF program to be utilized, focusing on the ability to provide ongoing family stability, job retention and prevention of TANF re-entry.

For the 17-19 biennium we plan to continue all the program improvements except for the pilot contracts; the pilot contracts will be evaluated based on effective outcomes in order to inform future service planning.

# Oregon Department of Human Services

## Self Sufficiency Programs

The proposed Self Sufficiency Governor’s Budget is \$441.2 million General Fund and \$3.18 billion Total Funds primarily driven by SNAP benefits which are 100% Federal Funds.

SELF SUFFICIENCY	GF	OF	FF	TF	POS	FTE
LAB 15-17	\$ 375,351,073	\$ 99,873,152	\$ 2,958,702,139	\$ 3,433,926,364	2044	2035.49
GB 17-19	\$ 441,153,001	\$ 91,060,426	\$ 2,646,145,265	\$ 3,178,358,692	2046	2045.63
Difference	\$ 65,801,928	\$ (8,812,726)	\$ (312,556,874)	\$ (255,567,672)	2	10.14
Percent change	17.5%	-8.8%	-10.6%	-7.4%	0.10%	0.50%

Major changes from LAB to GB are driven mainly by:

- Backfilling \$34 million in one-time revenues from 2015-17
- Phase in of investments from 2015-17
- Reduction of forecasted SNAP expenditures which are 100% Federal Funds

Reductions	GF	OF	FF	TF	POS	FTE
<b>TOTAL</b>	<b>(12,179,236)</b>	<b>(11,914)</b>	<b>6,935,639</b>	<b>(5,255,511)</b>	0	0.00
1% Additional Vacancy Savings	(1,015,971)	(7,294)	(1,297,633)	(2,320,898)	0	0.00
Remove inflation from S&S	(778,849)	0	(1,203,803)	(1,982,652)	0	0.00
Statewide Reduction to S&S	(372,894)	(4,620)	(562,925)	(940,439)	0	0.00
Statewide AG Reduction	(11,522)	0	0	(11,522)	0	0.00
Assume TANF Contingency Funds Available	(10,000,000)	0	10,000,000	0	0	0.00

While the Self Sufficiency budget does not recommend any further investments outside of CSL, the program continues to work to:

- Continue to build case management capacity to assist families on their path to out of poverty;
- Create a glide path off of TANF to decrease the number of families who return to the program repeatedly and to incentivize employment;
- Improved access to services in local communities; and
- Increase access to quality child care.

Unfortunately the Employment Related Day Care (ERDC) program is anticipated to be reduced from CSL by \$9.3 million dollars or an average of 493 cases per month due to a reduction in Federal Funds that come to DHS as Other Funds via the Department of Education Early Learning Division. This reduction is due to needs within the Early Learning Division and partially offsets the CSL investment in child care subsidies in 2017-19 that begun in 2015-17. The state investment has not changed in the GB.

## **Oregon Department of Human Services Self Sufficiency Programs**

---

### **Conclusion**

These upfront and local investments from 2015-17 that are continued in 2017-19 will, in the short-run, maximize results for clients and further reduce the TANF caseload by maximizing employment outcomes. Improving participation and employment outcomes will also help avoid penalties to the federal government, keeping our limited state dollars in Oregon.

In the long-run, these investments will improve service quality and equity, ensure that DHS clients benefit from coordination with other child and family serving systems (including health, education, and workforce systems), and allow the Department to maximize results for families.

# **Oregon Department of Human Services**

## **Child Welfare Programs**

---

### **Overview**

We provide prevention, protection and regulatory programs for Oregon’s most vulnerable children – keeping them safe and improving their quality of life. Prolonged economic stress is increasingly putting Oregon children in situations that are unsafe. These issues are disproportionately affecting communities of color contributing to their over-representation in both the child welfare and corrections systems. We know that the demand for state-funded services in the future is directly related to our ability to prevent and mitigate these traumas today.

### **Engaging Families**

Our strategies depend on creating an environment that is safe for citizens who are most vulnerable based on family, social and economic issues. We focused our initiatives toward minimizing risk by transforming our interventions to better meet the challenges families are facing. This will enhance our ability to engage individuals who are less able to care for themselves, their families and communities. This creates a stronger continuum of efforts to prevent abuse and neglect, and efforts to hold perpetrators of that abuse and neglect accountable.

Our budget proposal seeks to ensure that Oregonians are safer in the future than they are today by focusing on strategies that have proven to result in the greatest reduction in overall risk. We aim to achieve the following outcomes:

- A clear focus on safety strategies for the most vulnerable citizens in care in Oregon.
- A better array of evidence based interventions with community-based supports for families before, during and after involvement with the Child Welfare system, including strategies to safely and equitably reduce the number of children who experience foster care. This includes available services and supports so children are not at risk for re-entry into foster care and families can be stabilized.

Improved services for children and families disproportionately represented in the child welfare population, targeting culturally appropriate strategies to provide intervention and services, and using decision point analysis to address disparities.

### **Funding Request – Strategic Initiatives**

The Governor’s Budget is proposed to be \$541.6 million General Fund and \$1.05 billion Total Funds for the 17-19 biennium.

# Oregon Department of Human Services

## Child Welfare Programs

CHILD WELFARE	GF	OF	FF	TF	POS	FTE
LAB 15-17	\$ 481,251,155	\$ 23,165,610	\$ 459,015,944	\$ 963,432,709	2,597	2,550.05
GB 17-19	\$ 541,608,088	\$ 24,443,723	\$ 484,724,512	\$ 1,050,776,323	2,718	2,620.15
Difference	\$ 60,356,933	\$ 1,278,113	\$ 25,708,568	\$ 87,343,614	121	70.10
Percent change	12.5%	5.5%	5.6%	9.1%	4.7%	2.7%

Major changes from LAB to GB are driven mainly by:

- Forecasted increases in Caseload and Cost Per Case
- Increase in level of staffing for Child Welfare Services
- Increases in rates for foster parents and BRS providers
- Increased funding for legal representation in Child Welfare

### Strategic Funding Investments

**Children and Families:** Child Welfare services represent a continuum of supports with the ultimate goal of keeping children safe. Historically in Oregon that has equated with removal and placement into foster care. Based on research and feedback from children, youth and families who experience our system, our strategic efforts are refocusing the service continuum to ensure safety while also focusing on child well-being, family stability and, when possible, avoid removal and placement in foster care by supporting families safely parenting their children at home. Post adoption and guardianship support helps sustain permanency for children, again preventing them from returning to foster care.

These strategies include:

1. An increased focus and culture of Safety in Child Welfare;
2. Differential Response - Changing our upfront intervention to more fully engage families building on their strengths and engage them in outcomes that remediate the issues that are challenging the family;
3. Programs that are designed to strengthen, preserve and reunify families involved in the child welfare system, preventing entry into the foster care system and shortening the length of stay for children that do enter;
4. Focusing on addressing disproportionality of children entering and remaining in the foster care system; and
5. Assisting more families in extreme poverty at risk of involvement with Child Welfare;
6. Program funding investments are intertwined in the Child Safety, Child Welfare Design and Delivery, and Permanency Programs

# Oregon Department of Human Services

## Child Welfare Programs

---

GB POPS	GF	OF	FF	TF	POS	FTE
<b>TOTAL</b>	<b>16,958,778</b>	<b>0</b>	<b>21,639,352</b>	<b>38,598,130</b>	<b>0</b>	<b>0.00</b>
108 - Family Foster Care Rate Reimbursement	7,926,190	0	4,857,987	12,784,177	0	0.00
109 - BRS Rates	2,116,547	0	3,823,804	5,940,351	0	0.00
110 - Legal Representation in Child Welfare	6,916,041	0	12,957,561	19,873,602	0	0.00

### 108 Family Foster Care Rate Reimbursement

Reimbursement rates for Family Foster Care have not been adjusted to the cost of living for a decade. In 2009 rates were adjusted to 90% of the cost of care based on a 2007 rate methodology. In 2011, these rates were reduced by an additional 10% due to department budget cuts. Families coming forward to provide foster care has continued to diminish over the last 5 years in part due to the low reimbursement rates. The current daily rate is \$18.90 per day for a child under age 5 years old or \$24.36 per day for a teenager. This is intended to cover the costs of food, shelter, clothing, school supplies, extracurricular activities, etc. Based on the methodology created in 2009 Oregon is currently providing only 40-46% of the actual cost of care. Other states have been sued due to the low rate of family foster care payments and Oregon continues to increase the risk of a class action lawsuit. This investment increases the base rate and is estimated to cover 60% of actual costs.

### 109 BRS rates

Update the rate model for Behavioral Rehabilitation Services (BRS) program to pay contracted providers for cost increases above inflation. Rates directly impact state agencies access to these programs. The BRS rate model has not been kept current since first established in 1998. Simply adding inflation to the previous biennium rate has not kept pace with significantly increasing costs. Some of the most heavily used programs have closed over the past two biennia. More programs have signaled if they don't receive more financial support from the state they will have to close soon. This package is most importantly about child and youth safety as well as maintaining access to this essential part of the system serving Oregon's most needy children. Without increases to the rate state agencies will continue to have pressure on the BRS system as provider costs increase and the rate remains inadequate.

### 110 Legal Representation in Child Welfare

Historically, DOJ's billable hour model has been considered cost-prohibitive in juvenile dependency cases and has been a deterrent to DHS accessing and utilizing

## Oregon Department of Human Services Child Welfare Programs

---

DOJ for full representation—including attendance at all hearings, regular case consultation, impromptu legal advice, and regular participation in case worker training, meetings, and staffing. A block grant model will allow DOJ to manage cases according to a workload method of case assignment with each DOJ attorney carrying a consistent number of weighted cases. In this model, each dependency case is assigned to an attorney who handles it from petition to permanency. This case assignment method will provide DHS caseworkers with continuous representation which, in turn, will promote attorney-caseworker collaboration, improve caseworker job satisfaction and retention, avoid the risk for unlawful practice of law by case workers, and improve the overall efficiency and cost-effectiveness of the system. This POP assumes a Total Fund funding model of just under \$45 million for full representation and assumes the exception to DHS representation in these cases is lifted. If the representation exception is continued and no investment made DHS is still short \$4.5 million GF in order to meet projected CW AG costs in 2017-19.

Reductions	GF	OF	FF	TF	POS	FTE
<b>TOTAL</b>	<b>(22,299,200)</b>	<b>(46,809)</b>	<b>(6,961,040)</b>	<b>(29,307,049)</b>	<b>0</b>	<b>-54.50</b>

### Conclusion

We want to break the cycle that causes harm to individuals and drives Oregonians into expensive state-sponsored programs. Our strategies focus on helping ensure that Oregonians are safer in the future than they are today by increasing resources proven to result in the greatest reduction in overall risk. Though those strategies require some upfront, taxpayer investment, we are committed to being accountable for needed service delivery and performance metrics focused on improvements in the lives of those we serve and long-term reductions in the demand for state services. We know that abuse and neglect will never totally be eliminated, but we believe that Oregon should be a place where our children are safe, and we believe our budget proposal will improve the state's ability to work with individuals and communities to achieve that goal, while reducing the demand for costly state services in the future.

# Oregon Department of Human Services

## Vocational Rehabilitation Programs

---

### Overview

We help Oregonians with disabilities become employed through specialized training and new skills. This includes helping youth with disabilities transition to jobs as they become adults, helping employers overcome barriers to employing people with disabilities, and partnering with other state and local organizations that coordinate employment and workforce programs. A total of 383,381 work age Oregonians experience a disability but only 36 percent are employed. Employment helps people with disabilities become more self-sufficient, involved in their communities and live more engaged, satisfying lives. Investments through this program provide outcomes for individuals, improving their lives, helping them become productive members of our society, contributing to local economies and reducing a reliance on expensive state and federal programs.

The Workforce Innovation and Opportunity Act (WIOA) which passed in July of 2014 reauthorized Title I the State Vocational Rehabilitation Services program and Title VI the Supported Employment program. WIOA makes significant changes to Title I strengthening alignment with core components of the workforce development system, redefining employment outcome to be competitive integrated employment, defining students with disabilities and youth with disabilities as specific populations requiring defined services. Title VI now requires that supported employment be in a competitive integrated setting and places a focus on youth with the most significant disabilities. The act further set aside portions of the federal funds to be dedicated to specific populations as well requiring specific services be delivered to those populations. There is a significant increase in reporting requirements and an emphasis on job retention and credential attainment.

### Current funding levels

The proposed Governor's Budget to operate the Vocational Rehabilitation (VR) program is \$27.0 million General Fund and \$114 million Total Funds for the 17-19 biennium.

<b>OVRs</b>	<b>GF</b>	<b>OF</b>	<b>FF</b>	<b>TF</b>	<b>POS</b>	<b>FTE</b>
LAB 15-17	\$ 24,308,416	\$ 2,327,882	\$ 84,146,036	\$ 110,782,334	261	259.17
GB 17-19	\$ 26,996,950	\$ 2,340,616	\$ 84,634,350	\$ 113,971,916	261	260.25
Difference	\$ 2,688,534	\$ 12,734	\$ 488,314	\$ 3,189,582	0	1.08
Percent change	11.1%	0.5%	0.6%	2.9%	0.0%	0.4%

## Oregon Department of Human Services Vocational Rehabilitation Programs

---

Major changes from LAB to GB are driven mainly by:

Reductions	GF	OF	FF	TF	POS	FTE
<b>TOTAL</b>	<b>(7,567,909)</b>	<b>(4,138)</b>	<b>6,935,095</b>	<b>(636,952)</b>	<b>0</b>	<b>0.00</b>
Use one time ReAllotment	(7,400,000)	0	7,400,000	0	0	0.00
1% Additional Vacancy Savings	(101,870)	(4,138)	(365,445)	(471,453)	0	0.00
Remove inflation from S&S	(41,790)	0	0	(41,790)	0	0.00
Statewide Reduction to S&S	(21,329)	0	(95,667)	(116,996)	0	0.00
Statewide AG Reduction	(2,920)	0	(3,793)	(6,713)	0	0.00

The Governor’s Budget continues funding for Vocational Rehabilitation services. One time funding of \$7.4 million in “reallotment” dollars were used to backfill some of the General Fund dollars added at CSL. Currently OVRS is estimated to be able to meet Maintenance of Effort requirements and draw down all available funds. There is also a possibility of future “reallotment” funding that Oregon would be eligible for under the Governor’s Budget.

However, there is a significant risk that OVRS will need to enter an Order of Selection by the end of the 2017-19 biennium depending on the number of clients that access OVRS services.

### **Conclusion**

As the economy continues to recover, the focus on workforce development, employment and opportunity for *all* Oregonians has increased. The Vocational Rehabilitation program welcomes the opportunity to help the growing number of Oregonians with disabilities meet their employment goals. Over the last two years, employment outcomes for VR clients have increased by 27.4 percent even while caseload is increasing.

Vocational Rehabilitation is committed to achieving the outcomes identified in the Governor’s Executive Order for Employment for People with I/DD and the Lave v. Brown settlement. VR will also continue to identify new ways to enhance its work with the Oregon Workforce Investment Board, Local Workforce Investment Boards, and the Workforce Policy cabinet in the implementation of the OWIB strategic plan and local board’s efforts to better align economic and workforce development activities.

# Oregon Department of Human Services

## Aging and People with Disabilities Programs

---

### Overview

The Department of Human Services Aging and People with Disabilities (APD) program's mission is to assist Oregon's diverse population of older adults and people with disabilities achieve well-being through opportunities for community living, employment, family support, and services that promote independence, choice, and dignity.

The state of Oregon is a leader in long-term care systems and was ranked number three nationally in AARP's latest ranking. In 1981, Oregon received the first waiver nationwide for long-term care services which allowed Oregonians receiving Medicaid to choose services in their own home or in their communities rather than an institutional facility such as a nursing home. In 2013, Oregon transitioned most of its services into the 1915(K) State Plan Option. The K Option provides significant benefits to the state in cost savings while allowing Oregonians to make individual choices to best meet their needs. Oregonians value receiving long-term care services in a non-institutional setting with nearly 88 percent choosing alternatives that allow them to remain independent and safe.

<b>Long Term Care Setting</b> (as of April 2016)	<b># of Recipients</b>	<b>% of LTC Caseload</b>
Nursing Facility	4,221	12.5%
In Home	17,779	52.6%
Community Based Setting	11,815	34.9%
<b>Total</b>	<b>33,815</b>	<b>100%</b>

### Oregon's population is aging

The 65+ population is projected to grow from 502,000 to 950,000 by 2030. While the state prepares for this growth, it must do more than create cost effectiveness in the choices of long-term care. The state must also look at measures Oregonians can implement now to prevent the need for publicly funded long-term care services.

The Department has prepared a strategic budget to focus on continuing modernization and improvements to help Oregonians sustain long-term care services and become more independent and safe.

# Oregon Department of Human Services

## Aging and People with Disabilities Programs

---

### **Funding**

The cost to operate the Aging and People with Disabilities (APD) Governor’s Budget (GB) is \$992 million General Fund and \$3.4 billion Total Funds for the 2017-19 biennium.

<b>AGING AND PEOPLE WITH PHYSICAL DISABILITIES</b>	<b>GF</b>	<b>OF</b>	<b>FF</b>	<b>TF</b>	<b>POS</b>	<b>FTE</b>
LAB 15-17	\$ 897,033,751	\$ 206,960,674	\$ 2,001,265,680	\$ 3,105,260,105	1,246	1,235.28
GB 17-19	\$ 991,999,727	\$ 218,311,152	\$ 2,204,521,559	\$ 3,414,832,438	1,451	1,381.93
Difference	\$ 94,965,976	\$ 11,350,478	\$ 203,255,879	\$ 309,572,333	205	146.65
Percent change	10.6%	5.5%	10.2%	10.0%	16.5%	11.9%

Major changes from LAB to GB are driven mainly by:

- Forecasted Cost per Case and Caseload changes including AAA staff funding
- Changes in Federal Fund Match Rates

<b>GB - POPS</b>	<b>GF</b>	<b>OF</b>	<b>FF</b>	<b>TF</b>	<b>POS</b>	<b>FTE</b>
<b>TOTAL</b>	<b>1,694,922</b>	<b>2,050,000</b>	<b>147,945</b>	<b>3,892,867</b>	<b>2</b>	<b>1.50</b>
102 - Centralized Abuse Management	1,694,922	2,050,000	147,945	3,892,867	2	1.50

### 102 Centralized Abuse Management System

House Bill 4151 requires the state of Oregon and DHS as its agent to standardize its processes and technology related to abuse of vulnerable adults. Oregon’s current environment for tracking, reporting, analyzing, and investigating incidents of adult abuse relies on accessing information from ten (10) distinct systems or data sources. Additionally, local offices have created their own one-off mechanisms for supporting the abuse investigation processes, further complicating and decentralizing information. Existing systems limitations include the inability to search across program populations and inhibiting the ability to track perpetrators and/or victims over time and between populations. This heightens the risk of not capturing all abuse allegations. This POP requests state funds to complete implementation efforts started in the 2015-17 biennium, for an integrated solution which meets HB 4151 criteria and helps protect vulnerable Oregonians. Not funding this POP will limit Oregon’s ability to achieve the capabilities and

## Oregon Department of Human Services Aging and People with Disabilities Programs

efficiencies of the proposed integrated solution. The Other Funds in this request are carryover Q-Bonds sold in spring of 2017 and is a one time request for limitation. The General Fund is the best current estimate of costs of the ongoing operations and maintenance of the new system.

Eliminate OPI for people with disabilities.	(6,000,000)	0	0	(6,000,000)	0	0.00
Reduce OPI by \$10M. APD	(10,000,000)	0	0	(10,000,000)	0	0.00
Reduce OPI by another \$6M. APD	(6,000,000)	0	0	(6,000,000)	0	0.00
Hold nursing facility rates flat at the rate being reimbursed at 6/30/17. (281.08) APD	(18,345,151)	(3,706,229)	(39,719,103)	(61,770,483)	0	0.00
Statewide AG Reduction	(20,328)	(643)	(8,252)	(29,223)	0	0.00

There are several reductions or flat funding of rates within the APD GB that require further clarification:

- Eliminates the General Assistance program, passed in 2016 as HB 4042. House Bill 4042 required the Department of Human Services (DHS) to establish a General Assistance (GA) project, beginning July 1, 2016, to serve a maximum of 200 people per month who are enrolled in the medical assistance program, who have disabilities that meet Presumptive Medicaid disability criteria, and who are experiencing homelessness. DHS was also directed to convene an advisory group that includes representatives from nonprofit agencies advocating for and providing services to low-income individuals. - \$1.9 million GF.

## **Oregon Department of Human Services**

### **Aging and People with Disabilities Programs**

---

- Eliminates the Live-In Program in Aging and People with Disabilities as of 7/1/2017 - \$20.8 million GF. The program will convert most clients to the in-home hourly program. This management action has already started in 2015-17 to address the sustainability of APD programs.
- Eliminates Oregon Project Independence for people with disabilities; in addition, it reduces the remainder of the program expenditures by 75 percent - \$22 million GF total. Oregon Project Independence is funded at \$5.0 million GF which is the Maintenance of Effort criteria for the Older American's Act.
- Holds nursing facility rates at the 6/30/2017 level. Statutorily, rates would increase significantly based on cost reports of the industry. The rate for nursing facilities in the DHS CSL budget for 2017-19 was projected based on a blend of the DRI inflation and the traditional method using cost trending; and was intended to reflect the statutory rate setting methodology. That estimate put the rates at \$294.35 July 2017 and \$307.64 on July 2018. The Governor's budget holds the rate paid on June 30, 2016 at \$281.08 for the entire 2017-19 biennium - \$18.3 million GF.
- Implements a partial reduction (50 percent) in the complex medical add-on for nursing facilities. Currently the complex medical add on is 40 percent of the base rate. This reduction proposes to reduce the complex medical add on to 20 percent of the daily rate - \$6.6 million GF.
- Cuts in half the FTE earned in CSL by state and AAAs due to forecasted caseload growth.

### **Conclusion**

The Governor's Recommended Budget makes difficult choices due to the current budget environment. In addition to the issues stated above, the budget continues investments in APD including but not limited to continuing funding for Service Priority Levels 1-13, protecting current caseload and eligibility criteria, and supports a staffing level of a net 90.4 percent of the workload model by the end of the biennium (based on the fall 2016 caseload forecast). The proposed budget includes services that promote sustainability, safety, and wellness for Oregon's older adults and people with disabilities. These investments will help DHS meet the needs of Oregonians in this period of change and growth.

# **Oregon Department of Human Services**

## **Intellectual and Developmental Disabilities Program**

---

### **Overview**

The Office of Developmental Disabilities Services (ODDS) provides services to cover a lifetime of support to Oregonians with intellectual/developmental disabilities. People with disabilities of all ages want the same opportunities every Oregonian wants: not just to survive but to thrive. They want to live in their own homes and make decisions about daily activities, so they can attend school, work, and religious activities, enjoy recreational activities, and participate fully in their communities. ODDS assists more than 25,000 children, adults, and their families experience the best quality of life possible at all stages of their lifespan. Most individuals with developmental disabilities are eligible for a Medicaid waiver or state plan which allows them to remain in their family home or community instead of an institution. Our mission is to help them be fully engaged in life and at the same time address their critical health and safety needs.

### **History and Future State**

The state of Oregon is recognized nationally as an innovative leader in developing community-based services for individuals with intellectual/developmental disabilities. Oregon is one of only three states that have no state or privately operated institutional level services specifically for people with developmental disabilities. In fact, the majority of individuals with intellectual/developmental disabilities in Oregon are served in their own home or their family's home.

That is the result of two decades of work to aggressively re-balance the intellectual/developmental disabilities system — moving from an institutional model with expensive one-size-fits-all approach — to a self-directed, family involved, individually focused, and less expensive approach to service. Today, consumers and families report a high level of satisfaction through the increased control over services, the ability to more fully integrate in home communities, as well as the benefits of home community life.

Oregon home- and community-based services for people with intellectual and developmental disabilities are provided under several Medicaid authorities, including Community First Choice Option (also known as K-Plan) and five 1915(c) waiver programs. Supports provided under K-Plan include attendant services that support individuals in accomplishing Activities of Daily Living and Instrumental Activities of Daily Living (ADL/IADL), relief care, behavioral

## **Oregon Department of Human Services Intellectual and Developmental Disabilities Program**

---

support services, transportation, environmental modifications, and assistive technology and devices. By moving most services to the K-Plan, most of the caps on services and limits on eligibility for services to those with I/DD were removed based on federal requirements to gain a 6 percent increased federal participation in those programs.

In addition, the Lane v. Brown Settlement has added additional requirements to I/DD programs around placement of those with I/DD into integrated settings and moving away from sheltered workshops which the federal government will no longer support as of April 1, 2019.

To serve the increasing number of people with intellectual and developmental disabilities, maintain those high levels of satisfaction, and to further advance the inclusion of people with intellectual/developmental disabilities in their communities, the system has an urgent need to continue its evolution in a fiscally sustainable manner.

To that end, the Governor's Budget is designed to further improve the customer experience and advance efficiencies to maximize resources. Specifically, it seeks to achieve the following outcomes and goals:

- Ensure the health and safety of individuals served
- Increase provider rates to create a more stable and competent workforce for I/DD services
- Be responsive to emerging consumer demands for individualized, self-directed services and sufficient service choices
- Promote maximum consumer independence and engagement in homes and communities
- Leverage use of available federal funding options
- Address improvements in business practices such as payment and information systems to achieve overall operational efficiencies

# Oregon Department of Human Services

## Intellectual and Developmental Disabilities Program

### Funding

The proposed Governor’s Budget to operate the Intellectual & Developmental Disability (I/DD) program for the 2017-19 biennium is \$893.9 million in General Fund and \$2.7 billion Total Funds.

INTELLECTUAL & DEVELOPMENTAL DISABILITIES	GF	OF	FF	TF	POS	FTE
LAB 15-17	\$ 743,386,397	\$ 31,386,168	\$ 1,548,261,903	\$ 2,323,034,468	887	841.73
GB 17-19	\$ 893,907,067	\$ 28,984,810	\$ 1,789,806,816	\$ 2,712,698,693	894	893.00
Difference (LAB to GB)	\$ 150,520,670	\$ (2,401,358)	\$ 241,544,913	\$ 389,664,225	7	51.27
Percent change (LAB to GB)	20.2%	-7.7%	15.6%	16.8%	0.8%	6.1%

Major changes from LAB to GB are driven mainly by:

- Forecasted cost per case and caseload changes including CDDP and Brokerage funding
- Changes in Federal Fund match rates

GB - POPS	GF	OF	FF	TF	POS	FTE
<b>TOTAL</b>	<b>22,281,720</b>	<b>0</b>	<b>49,045,426</b>	<b>71,327,146</b>	<b>1</b>	<b>1.00</b>
105 - Stable and Competent Workforce for I/DD	22,281,720	0	49,045,426	71,327,146	1	1.00

### 105 Stable and competent workforce for I/DD

Perpetually low wages from an outdated rate model for the I/DD provider workforce has created a record level of turnover and a critical shortage of direct support professionals (DSPs). DSPs provide support for people with I/DD to live and work in a safe and healthy manner as members of their communities. DHS and stakeholders created the existing rate structure based on 2007 fiscal data. This model needs to be updated to align with current economic realities, new minimum wage requirements, new DOL overtime rules, and expectations around service quality, safety, and competency/training requirements. A stable and well trained workforce is critical to the ability of I/DD provider network to providing high quality of services to individuals and ensuring their health and safety. Provider rate structure needs to reflect these requirements and provide adequate compensation to assure that individuals with I/DD are served by competent workers.

## Oregon Department of Human Services Intellectual and Developmental Disabilities Program

---

This POP will:

- Ensure adequate DSP wages that are above minimum wage to reflect DHS' longstanding policy that DSP work is not minimum wage work
- Address compression effect of minimum wage increases on wages of house managers and supervisors
- Address cost impact of new DOL requirements around overtime pay for workers earning less than \$913 a week (\$47,476 a year)
- Provide financial incentives for providers to ensure their staff achieves highest level of training and competency and by making available College of Direct Support training to Oregon DSPs
- Provide one FTE for ODDS to coordinate provider training requirements and programs

Reduce Brokerage and CDDP Equity by additional 2% (91% equity) I/DD	(1,748,708)	0	(1,938,550)	(3,687,258)	0	0.00
Statewide AG Reduction	(8,406)	0	(5,891)	(14,297)	0	0.00

There are several reductions that require further clarification.

- Eliminates the Family to Family Network for I/DD effective 7/1/17. After significant reductions in the Family Support Program were made in 2011, the Family to Family Network program was created. The work accomplished by these networks includes family training, identification of local resources, and general support from one family to another. The networks leverage

## **Oregon Department of Human Services Intellectual and Developmental Disabilities Program**

---

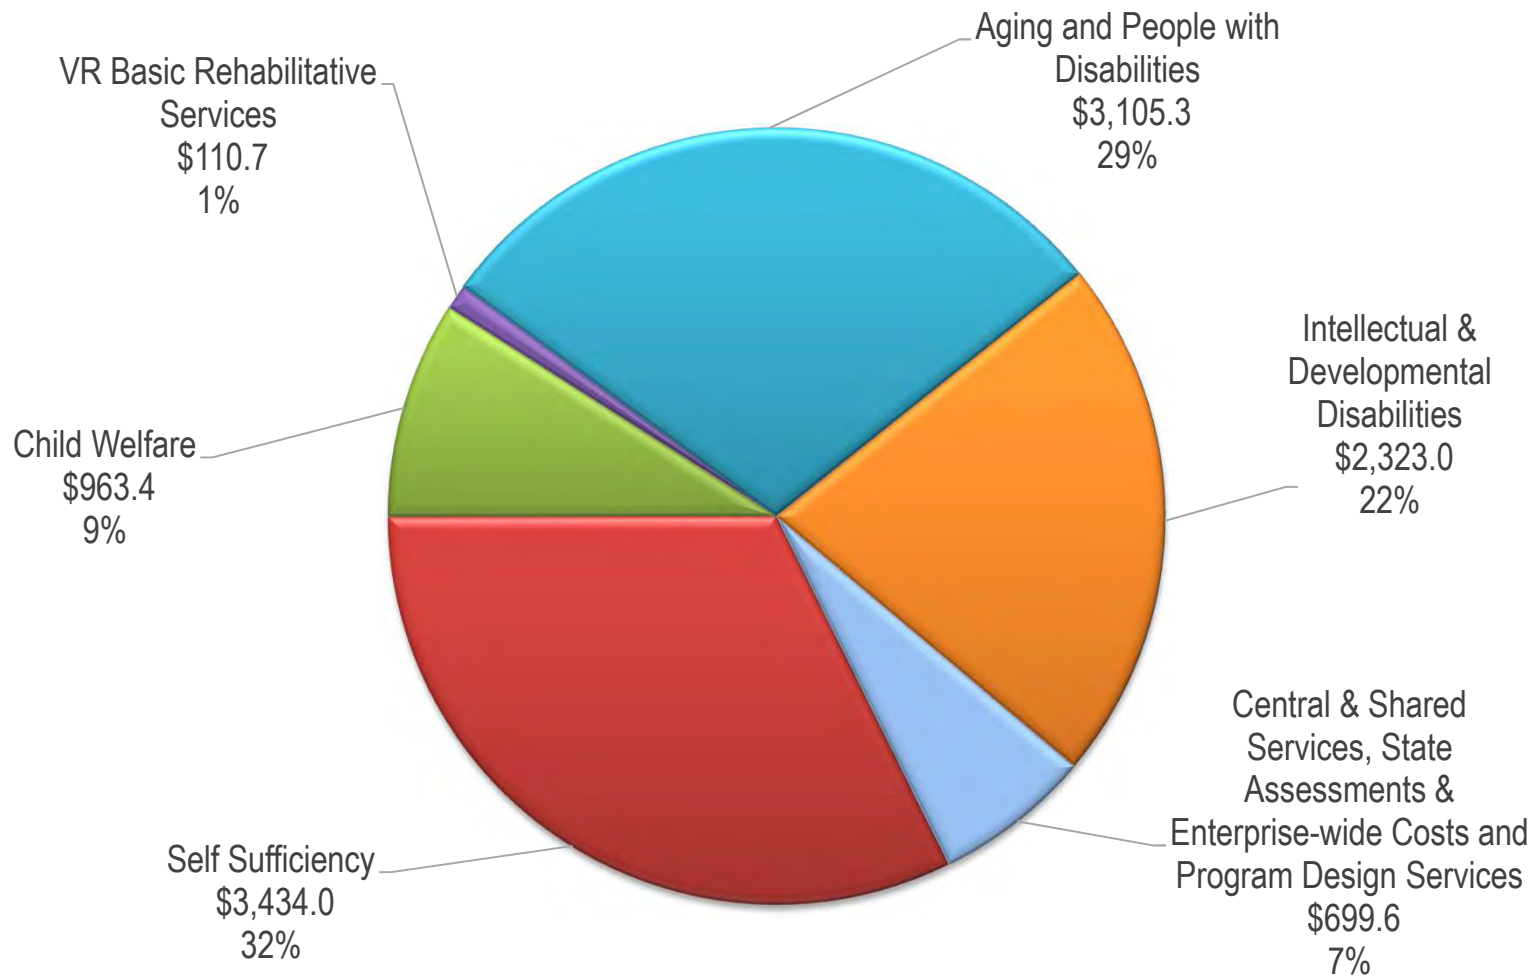

parent time and local resources in an effort to provide support at no cost to DHS/DD - \$1.3 million GF

- Eliminates funding for Regional Programs for I/DD - \$4.8 million GF
- Expends \$6 million in funding from the Fairview Housing Trust and makes a one-time investment in the DHS I/DD program's K-Plan services, leaving approximately \$100k in the trust
- Reduces Brokerage and Community Developmental Disabilities Programs (CDDP) equity funding from 95 percent to 91 percent - \$3.5 million GF

### **Conclusion**

This proposal represents planning that will allow the I/DD system to improve the quality of service it offers to Oregonians with intellectual/developmental disabilities and their families that support them. The primary focus is on sustainable, quality service programming that accounts for the short- and long-term budget realities that shape our implementation planning. Out-of-home placements for people with disabilities can range from \$24,000 to \$156,000 a year. Focusing efforts on helping people with disabilities remain at home or in their community provides not only financial benefits, but better quality throughout their lifespan. ODDS is confident that this plan will maximize resources and strengthen the service system, enhancing its ability to produce results for those we serve.

Salem, OR 97301

Voice: 503-945-5600

Fax: 503-581-6198

February 21, 2017

**The State CFO and ORS require a 10% reduction list for the Governor's budget process. After the GB was issued the Legislative Fiscal Office Required the Department of Human Services to produce a 15% reduction list for the 2017-19 Ways and Means process. Attached is the revised 15% reduction list that includes reductions taken in the Governor's Budget.**

The reduction options presented in this document are not intended to reflect the policy or program recommendations of the agency. The Oregon Department of Human Services (DHS) is acutely aware that the reduction options on this list have significant consequences for Oregonians and the communities in which they live. The agency is -- and has been -- engaged in ongoing search for efficiencies that allow us to reduce costs and maximize resources with minimal impact to clients. We also work to ensure that as services to clients are reduced because of reductions, that we also reduce our infrastructure and administrative overhead concurrently.

### Guiding Principles

In approaching these reductions, DHS was guided by a set of priorities in making proposed reductions. However, to reach the targeted reduction levels for the Department -- which totals more than \$486 million in General Fund -- it was not possible to reflect all of the following principles and priorities in the reduction list:

- For all programs, the agency looked closely at client safety and stability, preserving the infrastructure of programs and the provider-systems that serve clients, maintenance of effort (MOE) issues, legal risk, cross-program impact, cost shifting, and what the reduction would mean in terms of the loss of federal matching funds.
- DHS looked closely at whether repeated reductions to programs no longer made sense, and whether it was time to consider the elimination of some programs in order to preserve others.
- In Child Welfare programs, DHS prioritized prevention activities and services to keep children safe at home and out of foster care over those further into the child welfare system, such as adoption and guardianship.
- In Intellectual and Developmental Disabilities programs, DHS prioritized continuing programs and services for those clients in long-term care. DHS also made every effort to consider reductions that would not move people into higher cost settings but could keep them at home and in their communities.
- In Self Sufficiency, Intellectual and Developmental Disability and Vocational Rehabilitation programs, DHS prioritized services and programs that helped support and preserve family stability and to maintain employment outcomes for Oregonians.
- In Aging and People with Disabilities programs, DHS prioritized keeping as much of Oregon's high-quality system in place as possible -- that is, prioritizing home and community-based services.

1	dhs	VR	Use one time ReAllotment revenues to backfill CSL GF <b>In GB</b>	(7,400,000)		-		(7,400,000)		\$ (14,800,000)	0	0.00	OVRS has successfully been awarded one time ReAllotment funding allowing a partial one time backfill of GF. If possible this reduction should replace the program and position reduction so VR does not enter an order of selection.	7/1/2017
2	dhs	DHS	1% Additional Vacancy Savings in <b>GB</b>	(6,440,675)		(1,233,888)		(6,154,258)		\$ (13,828,821)			This action reduces the funding for personal services in DHS by taking a 1% reduction in personal services funding. This action reduces personal services funding lowering the overall capacity of DHS to complete it's mission.	7/1/2017
3	dhs	DHS	Remove inflation from S&S <b>In GB</b>	(3,045,922)		(1,198,069)		(3,842,276)		\$ (8,086,267)			This action reduces the funding for general inflation in most services and supply line items in DHS. This reduces service and supply funding lowering the overall capacity of DHS to complete it's mission.	7/1/2017
4	dhs	DHS	Disallowed Backfill for Federal Grants <b>In GB</b>	(13,774,780)						\$ (13,774,780)			This action assumes that there will be sufficient federal funding to cover assumed shortfall in capped grants. The agency will be reviewing it's federal grant balances to determine the impact of this reduction closer to the close of the 15-17 budget when ending balances are more clear.	7/1/2017
5	dhs	DHS	Statewide Reduction to S&S <b>In GB</b>	(3,099,387)		(594,899)		(3,212,489)		\$ (6,906,775)			This action reduces the funding for services and supplies in DHS by taking a 3% reduction in services and supplies funding. This reduces service and supply funding lowering the overall capacity of DHS to complete it's mission.	7/1/2017
6	dhs	CW Delivery	Staffing Workload Reduction <b>In GB</b>	(920,440)				(917,676)		\$ (1,838,116)		(9.00)	This reduction is to CSL earned positions. The positions were earned at 24 months but was cut back to 12 months in this reduction. Staffing levels are critical in Child Welfare to ensuring the safety of Oregon Children.	7/1/2017
8	dhs	APD	Reduce the complex medical add-on for nursing facilities by 50%. <b>In GB</b>	(6,590,581)		(1,339,048)		(14,387,840)		\$ (22,317,469)	0	0.00	This reduction would eliminate half of the 40% premium paid to nursing facilities that serve individuals with certain complex medical conditions. Taking this reduction will require a statutory change to implement.	1/1/2018
9	dhs	APD	Eliminate Live-in Program as of July 1 2017 - move consumers to Hourly program. <b>In GB</b>	(20,823,405)		(501,776)		(57,995,710)		\$ (79,320,892)	0	0.00	At the time of this report, there are approximately 350 individuals remaining in the Live-in care program.	7/1/2017
10	dhs	APD Delivery	Equity Model Reduction <b>In GB</b>	(9,680,044)				(6,581,512)		\$ (16,261,556)			This reduction is to CSL earned positions for AAA's at 24 months. Positions were "earned" that are then priced for the contract amount to the providers. This reduced the number of earned positions back to 12 months in this reduction. Staffing levels are critical in Aging and People with Disabilities to ensuring the safety of Oregon Seniors.	7/1/18
11	dhs	APD Delivery	State Staffing Workload Reduction <b>In GB</b>	(5,480,377)				(3,475,794)		\$ (8,956,171)		(58.00)	This reduction is to CSL earned positions. The positions were earned at 24 months but was cut back to 12 months in this reduction. Staffing levels are critical in APD to ensuring the safety of Oregon's aging and people with disabilities.	7/1/2018
12	dhs	CW Delivery	Screening Positions <b>In GB</b>	(6,846,675)				(1,706,686)		\$ (8,553,361)		(45.50)	This reduction is to CSL earned positions. The positions were earned at 24 months but was cut back to 12 months in this reduction. Staffing levels are critical in Child Welfare to ensuring the safety of Oregon Children.	7/1/2017

Priority (ranked with highest priority first)	Agency	SCR or Activity Initials	Program Unit/Activity Description	GF	LF	OF	NL-OF	FF	NL-FF	TOTAL FUNDS	Pos.	FTE	Impact of Reduction on Services and Outcomes	Effective Date
13	dhs	SS	ERDC - Provider Incentive Payments (100% Reduction)	(3,617,587)		-		-		\$ (3,617,587)	0	0.00	Eliminating the provider incentive payment for 3, 4, 5 star providers would limit the number of providers who chose to become star rated. Children benefit from quality child care situations, especially during the critical years of brain development, birth to 5 years old. Star rated providers must meet additional training requirements in several areas including child development to reach a star rating. Data through Western Oregon Teaching institute showed an increase in provider interested in achieving a star rating due the incentive payments available when providing child care to a subsidy child full time.	10/1/2017
14	dhs	SS	TANF - Time Limit 60 Months -Full Family Sanction (No Hardship Exemptions)	(11,092,844)						\$ (11,092,844)			This action establishes a 60 month time limit for TANF receipt for the entire family allowing no exemptions. The current Oregon time limit is 60 months and state statute allows for only the adults needs to be removed from TANF once the 60 month limitation has been reached and the family has no hardship exemption. Oregon's policy provides for the children in the home to continue to receive TANF. For families who have reached the new time-limit, the entire case would close. Some families may see an increase in SNAP benefits as cash benefits end. Ending TANF cash benefits for the entire family may result in family instability and homelessness. Families would have to rely on other community based safety net programs which have already experienced increased demand. During the biennium an average of 1,679 families per month are expected to be impacted. Based on their accrued time, the majority of these family's (970 families) will reach their time limitation in April 2016. Families will also be impacted if they come from another state and the accrued time (alone or in combination with Oregon accrued time) equals to or exceeds 60 months. This action requires an amendment to ORS 412.079.	10/1/17
15	dhs	SS	TANF - Time Limit 48 Months - Removing Adult Only	(7,931,297)		-		-		\$ (7,931,297)	0	0.00	This action would remove the Adult only on the case which would put the child in a TANF no-adult pay standard table, which would lower their grant. This would impact approximately 3,952 Cases.	10/1/2017
16	dhs	SS	NNCR Families: Counting their income towards eligibility	(3,993,135)		-		-		\$ (3,993,135)	0	0.00	By counting the Non-Needy Caretaker Relative Income, this will affect 95% of current NNCR cases, in that they would be over income, and the case would close. The remaining 5% would result in a lower payment amount, as the income they count would be counted dollar for dollar, and reduce their TANF payment by that amount, which also results in a savings.	10/1/2017
17	dhs	SS	Adult Count 50% of SSI Income for TANF Eligibility (Adults Only)	(19,913,411)		-		-		\$ (19,913,411)	0	0.00	This action establishes counting 50% of the SSI Adult's SSI Payment as income towards the TANF grant, which could make them ineligible due to the TANF income limit. 50% of the standard payment for SSI recipients is \$367 which is more than the TANF payment standard for most SSI adult situations with two or fewer children. There could be a small percentage (5%) or so that would be eligible due to special circumstances. Estimated cases closed due to being over the income limit would be 2,151, and approximately 131 cases would be reduced to a lower TANF grant amount.	10/1/2017
18	dhs	I-DD	Eliminate GF only Bedhold payments for 50, 51, and 142	(4,481,850)		-		-		\$ (4,481,850)	0	0.00	Effective 7/1/2017 This reduction proposes to eliminate bedhold payments to residential providers when an individual is temporarily not in care. This impacts service elements 50 (Adult Group Homes), 51 (Adult Supported Living services and 142 (Children's residential services)	7/1/2017

25	dhs	CW Child Safety	Sexual Assault Victims Fund	(78,965)		(518,399)		-		\$ (597,364)	0	0.00	Sexual Assault Victims Services is funding that is specifically designed to assist adult sexual assault survivors with shelter and support services. These services are provided to the community at large, not just Child Welfare involved families. In 2015, Oregon domestic and sexual violence programs answered 134,888 calls for help, a 3 percent increase over 2014. This included calls about domestic violence, sexual assault, stalking and other issues with 1,484 adult sexual assault survivors receiving services. An elimination of these services would leave many adult victims of sexual assault unable to find safety and support.	7/1/2017
26	dhs	CW Child Safety	Domestic Violence Services	(448,251)		(3,316,892)		(2,568,342)		\$ (6,333,485)	0	0.00	Domestic Violence Services is funding that is specifically designed to assist victims of domestic violence and their children in accessing safe shelter, community based services such as hospital accompaniment and support groups, and in an effort to end violence before it begins, programs provide education and awareness events. In 2015, Oregon domestic and sexual violence programs answered 134,888 calls for help, a 3 percent increase over 2014. This included calls about domestic violence, sexual assault, stalking and other issues. These services are provided to the community at large, not just Child Welfare involved families. In 2015 there were 10,196 requests for shelter unmet with no reduction. An elimination of these services would leave many adult victims of domestic violence and their children unable to find safety and support.	7/1/2017
27	dhs	CW Child Safety	Recovering Family Mutual Homes – 30% reduction	(128,964)		(46)		(102,732)		\$ (231,742)	0	0.00	A cut of 30% is larger than appears as these budgets have a Federal match. These services currently provide payment directly to housing for child welfare parents, with their children, coming out of residential A&D treatment settings in three counties. Any cut in these services leads directly to the elimination of housing for individual parents with small children. This reduction will create immediate instability for families whose parent has recently completed A&D treatment. Cutting these services will result in increased barrier to children remaining with their parents which means increases in foster care. Additionally, it will increase length of stay in foster care.	7/1/2017
28	dhs	CW Child Safety	Recovering Family Mutual Homes – additional 15% reduction	(45,137)		(16)		(35,956)		\$ (81,109)	0	0.00	A cut of 15% is larger than appears as these budgets have a Federal match. These services currently provide payment directly to housing for child welfare parents, with their children, coming out of residential A&D treatment settings in three counties. Any cut in these services leads directly to the elimination of housing for individual parents with small children. This reduction will create immediate instability for families whose parent has recently completed A&D treatment. Cutting these services will result in increased barrier to children remaining with their parents which means increases in foster care. Additionally, it will increase length of stay in foster care.	7/1/2017
29	dhs	CW Permanency	Private Adoptions: 25% Cut Description of Services: Fee for services, budgeted at \$1,202,890 per biennium. Payment for placement and supervision services for DHS foster children in in-state and out-of-state adoptive families studied and supervised by private agencies.	(134,951)		-		(165,930)		\$ (300,881)	0	0.00	25% Cut Reduce the number of in-state private agency placements but keep out-of-state private placements at the current level. General applicant Oregon families can get home studies through their local DHS offices (although waiting times will increase), but out-of-state general applicants (non-relatives) would have no means to get a study through their local child welfare office for Oregon children, as ICPC covers home studies with relatives only. Reductions impact the number of adoptive families overall and reduces the overall number of adoptive placements being made.	7/1/2017

36	dhs	SS	ERDC - Reduce caseload cap from 7,762 to an average of 7,262 (500 Cases)	(8,137,500)		-		-		\$ (8,137,500)	0	0.00	Caseload cap is currently 7,762: this would reduce to an average of 7,262. Increase in TANF cases may make it very difficult to get at desired level. This reduction continues the elimination of child care supports for all parents with incomes under 185% of poverty, limiting those supports to only TANF families transitioning to employment; families reapplying for ERDC benefits after a break of less than two calendar months; families with a child in the filing group that is eligible for a current opening in a contracted child care slot or Early Head Start – Child Care Partnership; families that are currently eligible or have been determined eligible for TA-DVS in any preceding three months; or families currently working with Child Welfare (as part of an assessment, open case or transition) and there is an ongoing safety plan in place that states child care is required to keep the child in their home, place the child with a relative or other known adult or when transitioning the child back into the home or out of stranger foster care. This reduction will further impact the ability of parents to maintain employment, the ability of child care providers to provide care and be employed, and the quality of child care children receive. This reduction will impact family child care providers, child care centers, Early Head Start/Head Start and after-school programs and may increase the number of children left home without an appropriate provider. This would affect 1,590 providers. This reduction will reduce the amount of state expenditures that count toward its MOE obligations. ERDC is mainly funded by CCDF federal dollars through an Interagency Agreement with DHS and The Oregon Department of Education (ODE). ODE has a stake in this reduction and has expressed their concern to DHS.	10/1/2017					
37	dhs	I-DD	Reduce the Family to Family Network Program In GB	(642,940)		-		-		\$ (642,940)	0	0.00	Effective 7/1/17 Reduce funding to Family to Family Networks by 50%. This program began in 2012 after 2011 made significant reductions in the Family Support Program. The funding (\$1.3M) supports up to eight networks. The work already accomplished by these groups includes family training, identification of local resources, and general support from one family to another. The networks leverage parent time and local resources in an effort to provide support at no cost to DHS/DD.	7/1/2017					
38	dhs	I-DD	Eliminate the Family to Family Network Program In GB	(642,940)		-		-		\$ (642,940)	0	0.00	Effective 7/1/17 reduce another 50% which would eliminate Family to Family Networks. This program began in 2012 after 2011 made significant reductions in the Family Support Program. The funding (\$1.3M) supports up to eight networks. The work already accomplished by these groups includes family training, identification of local resources, and general support from one family to another. The networks leverage parent time and local resources in an effort to provide support at no cost to DHS/DD.	7/1/2017					
39	dhs	I-DD	Eliminate the Family Support Program	(2,357,887)		-		-		\$ (2,357,887)	0	0.00	Effective 7/1/2017 This program provides a small amount of support that goes a long way to helping family with care of child with developmental disability. Approximately 1,000 children and their families will lose service as a result of this program elimination.	7/1/2017					
40	dhs	I-DD	Eliminate the funded FTE via Workload models for Family Support Program	(276,818)		-		(337,245)		\$ (614,063)	0	0.00	Effective 7/1/2017 The CDDP workload models are funded at 3.47 FTE for the work of Family Support program. If Family Support program is eliminated than the corresponding FTE would be removed.	7/1/2017

42	dhs	I-DD	Eliminate Elliott homes at SACU, staff and expenses	(1,510,672)		(130,457)		(2,393,128)		\$ (4,034,257)	0	(21.12)	Effective 10/1/17 This reduction proposes to close all three Elliott homes. 21.12 FTE are eliminated 10.1.2017. The corresponding 24 positions will be abolished fully in the 19-21 biennium.	10/1/2017
43	dhs	CW Permanency	Contracted Adoption Services - 25% Reduction	(555,920)		-		(516,814)		\$ (1,072,734)	0	0.00	25% Reduction The Multnomah County District Attorney contract, Whitney Investigations contract, and Black Helterline Attorney contract are all essential legal services that will be deferred to the Department of Justice if these contracts are cut or eliminated (see explanation below in the 100% elimination section), so cuts to these contracts in contracted adoption services would result in a cost shift to the DOJ budget. Of the remaining contracted adoption services, leave Oregon Adoption Resource Exchange and Northwest Adoption Resource Exchange intact	7/1/2017
44	dhs	CW Permanency	Permanency: 25% Reduction Post Adoption Services program, impacting supports for over 400 adoptive and guardianship families each year. (IV-B portion of budget)	(47,835)		(14)		(260,458)		\$ (308,307)	0	0.00	25% Reduction Reduce training, library purchases, and support group start-up for information and referral, advocacy and support, and crisis intervention.	7/1/2017
45	dhs	CW Permanency	Permanency: additional 50% Reduction Post Adoption Services program, impacting supports for over 400 adoptive and guardianship families each year. (IV-B portion of budget)	(71,752)		(21)		(390,687)		\$ (462,460)	0	0.00	50% Reduction Eliminate training, library purchases, and support group start-up for information and referral, and crisis intervention only	7/1/2017
46	dhs	SS	TANF - Time Limit 48 Months -Full Family Sanction (No Hardship Exemptions) This is additional of the 60 month	(6,911,642)		-		-		\$ (6,911,642)	0	0.00	This action establishes a 48 month time limit for TANF receipt for the entire family allowing no exemptions. The current Oregon time limit is 60 months and state statute allows for only the adults needs to be removed from TANF once the 60 month limitation has been reached and the family has no hardship exemption. Oregon's policy provides for the children in the home to continue to receive TANF. For families who have reached the new time-limit, the entire case would close. Some families may see an increase in SNAP benefits as cash benefits end. Ending TANF cash benefits for the entire family may result in family instability and homelessness. Families would have to rely on other community based safety net programs which have already experienced increased demand. During the biennium an average of 3,925 families per month are expected to be impacted. Based on their accrued time, the majority of these family's (3,119 families) will reach their time limitation in April 2018. Families will also be impacted if they come from another state and the accrued time (alone or in combination with Oregon accrued time) equals to or exceeds 48 months. This action requires an amendment to ORS 412.079.	10/1/2017

51	dhs	CW Child Safety	Child Safety: Reduce ISRS budget by 15%, eliminating in-home supports for approximately 390 abused children each year.	(1,153,134)		(29,415)		(1,646,212)		\$ (2,828,761)	0	0.00	15% reduction In-Home Safety and Reunification Services (ISRS) provides services to help manage the safety threats within the family, stabilize the family and provide for the immediate safety of children at risk of maltreatment or when children have been placed in protective custody or foster care this service is to help them return to their parents. A 15% reduction to In-Home Safety and Reunification Services will impact child welfare's ability to: 1) safely keep children at home; 2) return children home in a timely manner; and 3) provide the family supports and services to ensure children aren't re-abused and don't re-enter the foster care system. This reduction is estimated to impact approximately 847 children each year who will now need to enter or remain in foster care rather than safely remain in the home with their parents or safely reunify with their parents. This reduction will impact the department's ability to meet Indian Child Welfare Act and other court-ordered requirements. This reduction will also mean more "no reasonable efforts" or "failure to meet active efforts for ICWA children" findings by the courts, which would impact federal funding for Oregon's foster care (out-of-home care) program. In addition to increased costs in foster care, there will be an increase in costs to courts, defense attorneys, Citizen Review Boards, and others involved in the dependency system. Finally, contractors who provide these services will be impacted and may lay off staff.	7/1/2017
52	dhs	CW Child Safety	Child Safety: Reduce Strengthening, Preserving, & Reunifying Families (SPRF) budget by 15%.	(1,851,953)		-		(2,769,776)		\$ (4,621,729)	0	0.00	15% reduction (ALL ARE IDENTICAL DESCRIPTIONS OF IMPACT FOR SPRF) Strengthening, Preserving and Reunifying Families (SPRF) programs provide a broad array of services that are designed to maintain children safely at home with their parents or caregivers, safely and equitably reduce the number of children in the foster care system, reduce child trauma, reduce the length of stay in foster care, and to reduce the referral or reentry rates of families in the Child Welfare system. SPRF also provides services to families with safe children and moderate to high needs through Admin Only cases through Differential Response and this is the only way these families would be able to access Child Welfare services. A reduction in these services will result in approximately 487 children coming into foster care, staying longer periods of time in foster care or coming back to the attention of child welfare. This reduction will also impact the department's ability to meet Indian Child Welfare Act and other court-ordered requirements. This reduction will also mean more "no reasonable efforts" or "failure to meet active efforts for ICWA children" findings by the courts, which would impact federal funding for Oregon's foster care (out-of-home care) program. In addition to increased costs in foster care, there will be an increase in costs to courts, defense attorneys, Citizen Review Boards, and others involved in the dependency system. Finally, contractors who provide these services will be impacted and may lay off staff.	7/1/2017

Children benefit from quality child care situations, especially during the critical years of brain development, birth to 5 years old. Star rated providers must meet additional training requirements in several areas including child development to reach a star rating. Data through Western Oregon Teaching institute showed an increase in the number of providers interested in achieving a star rating due to the incentive payments available when providing child care to a subsidy child full time. The current incentive amounts are 5 star \$90, 4 star \$72, 3 star \$54	10/1/2017
72	dhs	APD	Take management actions to reduce average in-home hours by 10%.	(20,574,722)		(344,182)		(47,299,842)		\$ (68,218,746)	0	0.00	It is anticipated that most in-home consumers would find a way to manage living at home with decreased hours. Homecare Workers would experience less work and less income.	7/1/2017
73	dhs	APD	REDUCE CBC rates by 2.5%.	(6,141,600)		-		(13,838,990)		\$ (19,980,590)	0	0.00	Reducing CBC rates may result in decreased access for Medicaid consumers. Medicaid rates are already substantially below rates facilities may secure from private pay consumers.	7/1/2017
74	dhs	APD	Reduce Nursing Facility Rates to the 55th Percentile from 60th Percentile	(6,740,460)		-		(12,266,748)		\$ (19,007,208)	0	0.00	This would require a statutory change. No impact on consumers or access is anticipated with this reduction. Nursing facilities could likely absorb this without much consequence.	7/1/2017
75	dhs	SS	ERDC - Second reduction to caseload cap from 7,262 to an average of 6,762 (500 Cases)	(8,137,500)		-		-		\$ (8,137,500)			Caseload cap is currently 7,262 after the first reduction. This would reduce to an average of 6,762. Increase in TANF cases may make it very difficult to get at desired level. This reduction continues the elimination of child care supports for all parents with incomes under 185% of poverty, limiting those supports to only TANF families transitioning to employment; families reapplying for ERDC benefits after a break of less than two calendar months; families with a child in the filing group that is eligible for a current opening in a contracted child care slot or Early Head Start – Child Care Partnership; families that are currently eligible or have been determined eligible for TA-DVS in any preceding three months; or families currently working with Child Welfare (as part of an assessment, open case or transition) and there is an ongoing safety plan in place that states child care is required to keep the child in their home, place the child with a relative or other known adult or when transitioning the child back into the home or out of stranger foster care. This reduction will further impact the ability of parents to maintain employment, the ability of child care providers to provide care and be employed, and the quality of child care children receive. This reduction will impact family child care providers, child care centers, Early Head Start/Head Start and after-school programs and may increase the number of children left home without an appropriate provider. This would affect 1,590 providers. This reduction will reduce the amount of state expenditures that count toward its MOE obligations. ERDC is mainly funded by CCDF federal dollars through an Interagency Agreement with DHS and The Oregon Department of Education (ODE). ODE has a stake in this reduction and has expressed their concern to DHS.	10/1/2017

Homecare Workers would experience less work and less income.	1/1/2018
79	dhs	APD	Take management actions to reduce average in-home hours by 25%. (An additional 5%)	(10,287,361)		(172,091)		(23,649,921)		\$ (34,109,373)			It is anticipated that most in-home consumers would find a way to manage living at home with decreased hours. Homecare Workers would experience less work and less income.	7/1/2017
80	dhs	APD	Reduce Nursing Facility Rates to the 50th Percentile from the 55th Percentile	(2,443,147)		-		(4,432,744)		\$ (6,875,891)			This would require a statutory change. No impact on consumers or access is anticipated with this reduction.	7/1/2017
81	dhs	APD	Reduce in-home allowance from \$500 over SSI to \$250 over SSI (1 of 2)	(4,389,120)				(10,241,280)		\$ (14,630,400)			Approximately 2,700 individuals have income form \$250-\$500 over SSI.	10/1/2017
82	dhs	APD	Reduce In-Home allowance from \$250 over SSI to \$0 over SSI. (2 of 2)	(4,169,664)				(9,729,216)		\$ (13,898,880)			Approximately 3,000 individuals have income over the SSI level to \$250 over SSI.	10/1/2017
83	dhs	CW Child Safety	Child Safety: Eliminate Family Support Teams / Addiction Recovery Teams (ART) program, impacting services to approximately 13,400 families and 22,800 abused or neglected children.	(1,511,872)		(208,367)		(2,665,707)		\$ (4,385,946)			A 70% reduction would eliminate the statewide program. Elimination of these services will mean more and longer foster care placements; higher re-abuse rates, a decline in parents entering treatment quickly, and an increase in the number of parents who struggle with sustaining their recovery. It will also increase caseworker workload, including A&D referral, treatment monitoring, transport, client tracking and case management, making it more difficult for caseworkers to meet other state and federal mandates. This would eliminate any ability of DHS to respond to clients in relapse, require more children remain in foster care, and eliminate the majority of personnel who serve as DHS liaison to local treatment providers. Longer stays in foster care will increase costs to the state, result in poorer outcomes for children and poorer treatment outcomes for their parents. This would also result in eliminating approximately 50-55 contracted jobs at local employers. Cutting these services will result in increased barrier to children remaining with their parents which means increases in foster care. Additionally, it will increase length of stay in foster care.	7/1/2017

84	dhs	CW Well Being	Personal Care: 50% This is closely tied to the reduction of Nursing Assessments. Personal Care is a Medicaid State Plan option in Oregon that allows us to maintain children with medical needs safely in a home-like setting.	(1,043,522)		(87,390)		(1,025,006)		\$ (2,155,918)			This is closely tied to the reduction of Nursing Assessments. Personal Care is a Medicaid State Plan option in Oregon that allows us to maintain children with medical needs safely in a home-like setting. Payment is made under this state plan option to compensate the foster care provider for the delegated medical services they perform for the child in their care. These services are matched at the Federal Medical Assistance Percentage (FMAP) rate of 64.47% in FFY 2017. A 15% reduction = a loss of \$313,056 GF and a total fund loss of \$881,103 in direct medical services provided to children in their foster home. Resulting in the need for these children to be placed, and remain, in a hospital like setting. An additional 15% reduction = a loss of \$313,056 GF and a total fund loss of \$1,762,206 in direct medical services provided to children in their foster home. Resulting in the need for these children to be placed, and remain, in a hospital like setting. An additional 20% reduction = a loss of \$417,409 GF and a total fund loss of \$2,937,013 in direct medical services provided to children in their foster home. Resulting in the need for these children to be placed, and remain, in a hospital like setting. An additional 50% reduction = a complete elimination of the program and the need for all children with medical needs requiring 24 hour per day care to reside in a hospital like setting.	7/1/2017
85	dhs	CW Well Being	Youth Investment Program: 50% Runaway and Homeless Youth programs provide Street Outreach, Drop-in Center, and Shelter services which improve the safety and wellbeing of unaccompanied youth under the age of 18.	(1,461,121)				(4,485,158)		\$ (5,946,279)			Runaway and Homeless Youth programs provide Street Outreach, Drop-in Center, and Shelter services which improve the safety and wellbeing of unaccompanied youth under the age of 18. In the past year, Street Outreach and Drop-in services have resulted in 79% of youth accessing food, shelter, educational, job and life skills services. Shelter services have resulted in 81% of youth exiting to a safe home, 60% of those reuniting with family; 53% accessing medical and dental services, and 69% getting connected to educational services. A reduction in funding will result in fewer youth being served by these effective programs resulting in an increase of unaccompanied youth in our State and potentially result in upstream costs, in Child Welfare, Self Sufficiency, and/or the Juvenile Justice and Adult Corrections systems.	7/1/2017
86	dhs	CW Well Being	Enhanced Foster Care - elimination The Department reimburses a level of care payment to a certified family on behalf of a child or young adult when the child's behaviors require additional supervision to keep them placed at this lowest level of care	(6,810,351)		(927,184)		(3,767,792)		\$ (11,505,327)			The Department reimburses a level of care payment to a certified family on behalf of a child or young adult when the child's behaviors require additional supervision to keep them placed at this lowest level of care. The department uses process controls of allowing this enhanced supervision only after the 20th day in foster care, requires an annual review and use of a standardized screening instrument tool CANS to determine which level of care for the enhanced supervision needs. Approximately 38% of the children have an enhanced level of supervision needs. The current daily rates are \$7, \$13 and \$28 per day based on the level.  A complete elimination of this program will further the negative attitude toward the department for not supporting foster parents, increase placement disruption rates for children, decrease the number of foster families willing to care for children and increase the placement crisis for children in Oregon.	7/1/2017

87	dhs	CW Well Being	Shelter Foster Care: 50% The Department reimburses a certified family a shelter care payment on behalf of a child or young adult during the first twenty days of substitute care in a certified family home	(1,525,316)		(175,636)		(437,918)		\$ (2,138,870)			The Department reimburses a certified family a shelter care payment on behalf of a child or young adult during the first twenty days of substitute care in a certified family home. This is the only source of funding support to the foster family in the first 20 days. The daily rate is \$24, \$28, or \$31 per day based on the age of the child. These funds cover the food, clothing, shelter, school supplies, hygiene supplies, transportation, additional supervision and other incidentals that are necessary when coming into foster care. The department has process controls in place to allow this service for only the first placement into foster care and for a maximum of 20 days. A 25% reduction in this program will likely increase the negative attitude toward the department in supporting foster families for children when the department rates are so low to start with and any reduction will be seen as a negative toward foster parents. The 25% reduction will be \$1.50, \$1.75, or \$1.75 per day based on age.  A second reduction of an additional 25% reduction (50%) in this program will further the negative attitude toward the department in supporting foster families for children and will likely start to experience foster families who will no longer accept foster children on an emergency basis.  A third reduction of an additional 50% (total of 100%) will further the negative attitude toward the department in supporting foster families for children and foster families who will not accept children in care or add ultimatum that unless a CANS rate exception can be granted they will not accept children into a shelter care placement. At this stage the department should also anticipate some foster families this is merely too much and end being foster parents.	7/1/2017
88	dhs	I-DD	Reduce Brokerage and CDDP Equity by another additional 5% -total reduction of 11% (84% equity)	(4,371,770)		-		(4,486,376)		\$ (8,858,146)	0	0.00	Effective 10/1/17 Reduces the operating funding to CDDPs and Brokerages another 5%, overall reduction of 11%. (84% equity)	10/1/2017
89	dhs	I-DD	Reduce all non-bargained Provider Rates by 4%-Employment, DSA, Non-Medical Transportation, and Adult Supported Living excluded.	(7,949,157)		-		(17,395,277)		\$ (25,344,434)	0	0.00	Effective 10/1/2017 Reduce all non-bargained provider rates by 4%. This would be an across the board reduction of non-bargained rates for all DD service providers who provide services both children and adults, excludes Employment First, Non-Medical Transportation services, DSA, and Adult Supported Living Services.	10/1/2017
90	dhs	I-DD	Reduce Employment rates by 4%- DSA excluded	(1,403,501)		-		(2,391,156)		\$ (3,794,657)	0	0.00	Effective 10/1/2017 Reduce Employment provider rates by 4%. This would be an across the board reduction of non-bargained rates for all DD service providers who provide employment services, excludes DSA services.	10/1/2017
91	dhs	I-DD	Eliminate 1:1 DSA to 24 hr Agency Providers	(3,292,664)		-		(7,520,683)		\$ (10,813,347)	0	0.00	Effective 7/1/2017 Eliminate DSA provider services to 24 hour provider agencies such as group homes and foster homes.	7/1/2017
92	dhs	DHS	Additional 1% vacancy factor - total of 3% reduction.	(6,440,675)		(1,233,888)		(6,154,258)		\$ (13,828,821)			This action reduces the funding for personal services in DHS by taking a third 1% reduction in personal services funding. This is the third 1% reduction totaling 3% across all of DHS. Each reduction include 24/7 SACU. This reduces personal services funding lowering the overall capacity of DHS to complete it's mission.	7/1/2017

93	dhs	I-DD	Reduce all non-bargained Provider Rates by 3%-Employment excluded (Overall Reduction of 7%)	(6,053,239)		-		(13,262,858)		\$ (19,316,097)			Effective 10/1/2017 Reduce all non-bargained provider rates by 3%. This would be an across the board reduction of non-bargained rates for all DD service providers who provide services both children and adults, excludes Employment First services.--Overall reduction of 7%	10/1/2017
94	dhs	I-DD	Reduce all non-bargained Provider Rates by additional 3%-Employment excluded (Overall 10% Reduction)	(6,053,239)		-		(13,262,858)		\$ (19,316,097)			Effective 10/1/2017 Reduce all non-bargained provider rates by 3%. This would be an across the board reduction of non-bargained rates for all DD service providers who provide services both children and adults, excludes Employment First services. --Overall reduction of 10%	10/1/2017
95	dhs	DHS	Forego Other Funds used for local match and/or Reduce DHS programs	-		(60,837,285)		-		\$ (60,837,285)			DHS is statutorily required to provide reduction options totaling 10% of CSL for each fund type. This reduction would be accomplished through a series of action including eliminating local match of federal funds and reductions to programs across DHS that are funded by Other Funds. This is not specific as it will depend on which Other Fund funding sources would be reduced as to the exact reduction. Loss of local match would reduce local provider programs who have expenditures that are legally matched with federal funds. This assumes there is no General Fund backfill available.	7/1/2017
96	dhs	DHS	Forego Federal Funds and Reduce DHS programs	-		-		(220,629,726)		\$ (220,629,726)			DHS is statutorily required to provide reduction options totaling 10% of CSL for each fund type. This reduction would be accomplished through a series of program reductions depending on which federal funding sources are being reduced. This is a real possibility based on the current federal sequestration rules. However, this action is not specific as it will depend on which Federal funding sources would be reduced as to the program needing reduction. This reduction assumes there is no general fund backfill for these reductions.	7/1/2017

# **Department of Human Services 2017-19 Governor's Budget Revenue Narrative**

## **Forecast methods and assumptions**

Revenues for the Oregon Department of Human Services comes from funding sources classified as the state General Fund, Other Funds and Federal Funds. Three major methodologies are used to project revenues for the department:

- The category of expenditures based on estimated Average Daily Populations (ADP) and Cost per Case (CPC) is primarily used for federal entitlement grants.
- Grant cycles and where they fall within the biennium are considered for block grants. Assumptions based on the results of prior grant averaging and the anticipated effect of the federal budget process both are used to project the amount of funds that will be received.
- The historical receipt trends method is used for Other Funds sources such as collections of overpayments and fees unless the agency has additional information, such as anticipated special projects that would increase revenue or a temporary need for additional staff that will change the projections for a specific time period.

## **DHS projects revenue based on assumptions that take into account:**

- Essential packages that adjust the existing base budget to the 2017-19 Agency Request Budget (ARB) and the changes made at the Governor's Budget (GB). Essential packages include phasing program changes in or out, one-time costs, Department of Administrative Services inflation factor, mandated caseload changes, and any needed fund shifts;
- Applicable federal funding limits and requirements, including the availability of state funds to meet matching or maintenance of effort (MOE) requirements;
- Changes in federal policies that affect federal revenue available to DHS programs;
- Expected non-mandated program caseload changes; and

- Recent changes in state or federal statutes and regulations that affect the availability or timing of revenue receipts.
- Adjustments in program funding to support the Governor’s initiatives.

### **Significant known federal revenue changes or risk factors**

#### Sequestration & Reauthorization

The possibility of sequestration being implemented at the federal level could cause a significant impact in federal funding for programs related to Child Welfare, Self Sufficiency and Vocational Rehabilitation. Additionally there are several federal programs up for reauthorization that could also impact funding.

### **Self Sufficiency Program**

#### Temporary Assistance for Needy Families (TANF)

Changes to the calculation formula for the caseload reduction credit resulted in the Self Sufficiency Program (SS) not receiving as much credit as the program realized in the past. This reduction was due mainly to a shift in the baseline data being used, with the baseline moving forward to federal fiscal year 2005. Instead of comparing current caseload to older caseloads that were much higher, the comparison is to a caseload that reflects the agency’s efforts to significantly reduce caseload.

Additionally, if the agency does not meet the federal requirements for monitoring clients’ work, a penalty causes the maintenance of effort requirement to increase an additional 5 percent of the base. This means that rather than the maintenance of effort being set at 75 percent of the base year, it is set at 80 percent of the base year.

#### Child Care and Development Fund (CCDF)

The Deficit Reduction Act (DRA) reauthorized CCDF for five years and increased appropriations requiring additional state matching funds. SS estimates overall demand for child care subsidies will increase due to the added TANF work requirements.

### Targeted case management (TCM)

The DRA contains a more stringent definition for TCM services, while third-party liability language has been changed to reflect that any legally responsible entity can be considered a third-party resource payer before Medicaid pays. Any program that currently uses Medicaid and has another funding source may be at risk for Medicaid reductions. The TCM statute allows the rules of third-party liability to determine if Medicaid will cover services that are normally provided under another program authority, including resources available through SS programs.

### **Child Welfare**

#### Eligibility for Title IV-E adoption assistance

Beginning with FFY 2010, the eligibility criteria for certain children for IV-E adoption assistance has been modified and more children are eligible for assistance. These changes are being phased in to cover all children by FFY 2018.

### Targeted case management (TCM)

Oregon's child welfare system effectively utilizes Medicaid through TCM. The DRA contains a more stringent definition of TCM services, while third-party liability language is changed to reflect that any legally responsible entity can be considered a third-party resource payer before Medicaid pays. Any program that currently uses Medicaid and has another funding source may be at risk for Medicaid reductions. The TCM statute allows the rules of third-party liability to determine if Medicaid will cover services that are normally provided under another program authority, including resources available through child welfare programs.

### Title IV-B child welfare services

In FFY 2008, a new requirement was added to states' Title IV-B reporting. By FFY 2012 states must be achieving 90 percent performance in caseworkers visiting children in foster care on a monthly basis. States submitted targets for performance for each year up to FFY 2012 showing how they intended to improve performance from their base year up to the 90 percent mark. Failure to meet these targets results in a penalty in the form of an increase in state match requirement for their IV-B CWS grant. Oregon failed to meet its target for FFY 2009, which caused a 1

percent increase (from 25 percent to 26 percent) in the state match required for the FFY 2010 grant. Oregon continued to fall below the required 90 percent mark in FFY2011 resulting in the state match rate for the FFY2012 grant going from 26 percent to 30 percent. Improvements in performance has dropped the match rate for FFY2015 and FFY2016 back to 26 percent.

### **Aging and People with Disabilities (APD) and Intellectual & Developmental Disabilities (I/DD)**

#### Targeted case management (TCM)

The DRA provides a more stringent definition of TCM services. Any program that currently uses Medicaid and has another funding source may be at risk of Medicaid reductions. The TCM statute allows the rules of third-party liability to determine if Medicaid will cover services that are normally provided under another program authority, which could include intellectual and developmentally disabled programs (I/DD). Before DHS would be required to stop providing TCM services, viable third-party providers would need to be found to provide or pay for equivalent case management services.

#### Long-term care reform

The DRA increased the look-back period (the period during which the disposition of assets is reviewed to determine eligibility for services) from three to five years. This change in long-term care asset determinations is a greater administrative burden because staff are required to review more client documents; additionally the change increases technical assistance and training requirements.

#### K-Plan and Plan of Care

APD and I/DD implemented the K Plan and the Plan of Care in Biennium 13-15. The K Plan is a Medicaid state plan option that allows Oregon to provide home and community-based services and supports while receiving a six percent increase in federal medical assistance funds for those services. Plan of Care in the I/DD program will replace the need for General Fund allotments to County Developmental Disability Programs and Brokerages allowing all providers to bill on a fee for service basis.

## **Major funding sources**

The following section identifies the major funding sources for DHS. All references to a grant “Title” are references to the originating statute in the federal Social Security Act.

### **Federal Funds**

#### Chafee Foster Care Independence grants (Title IV-E)

The Chafee Foster Care Independent Living program was established to assist youth likely to remain in foster care until 18 years of age and children who “age out” of foster care but have not yet turned 21. The program is designed to help eligible youth make the transition from foster care to independent living. This program also includes the Education and Training Vouchers program.

The Chafee Foster Care Independent Living program is funded with a formula grant based on the number of children in the state in foster care.

This program is funded by two grants. These grants currently fund DHS Well Being programs. The projection of revenue is based on grant cycle. These grants require a 20 percent state match.

- Revenue budgeted in 2015-17 LAB is \$8.1 million
- Revenue budgeted in 2017-19 GB is \$7.0 million

#### Child Abuse Prevention and Treatment Act grant

The Child Abuse Prevention and Treatment Act grant (CAPTA) provides funding to help states improve their child protective service system. The funding is administered by the US Department of Health and Human Services, Administration for Children, Youth and Families. Federal legislation authorizes an annual award of funds to states that submit plans designed to improve their child welfare service system every five years and meet certain other eligibility requirements. The amount of CAPTA funding varies from year to year and has no matching requirement. Funding is provided to the state for use on a statewide basis. A portion of the budget is set aside to support three federally mandated CAPTA panels meant to provide citizen review of and recommendations for improvements to

the state's child welfare system.

This grant currently funds DHS Child Welfare programs. The projection of revenue is based on grant cycle.

- Revenue budgeted in 2015-17 LAB is \$0.6 million
- Revenue budgeted in 2017-19 GB is \$0.6 million

#### Child welfare services (CWS) block grants (Title IV-B)

Title IV-B consists of two formula grants. The first is the basic child welfare services grant. It may be used for many services including homemaker, protective and reunification services, and on a limited basis for foster care, adoptions and day care. The amount of federal funding allotted to the state for this grant is based on the state's population of children and state per capita income. IV-B subpart one requires a 26 percent state match.

The second part of Title IV-B is the Promoting Safe and Stable Families grant. The focus of the grant is on family preservation, family support services, reunification, and adoption promotion and support. The amount of federal funding allotted to the state is based on the number of children in the state receiving Supplemental Nutrition Assistance Program (SNAP, formerly food stamps). Match for IV-B sub-part two is a 25 percent state match.

These grants currently fund DHS Child Welfare programs. The projection of revenue is based on the Federal Fiscal Year (FFY) grant cycle, and show a decrease from the previous biennium as a result of decreased carry forward from the prior phase.

- Revenue budgeted in 2015-17 LAB is \$17.0 million
- Revenue budgeted in 2017-19 GB is \$15.3 million

#### Developmentally Disabled Service Act (DDSA)

Congress sets a national allocation determining the amount of annual funding for this grant, which is administered by the Developmental Disabilities (DD) Council in partnership with DHS. Program expenditures are limited to

programs for clients with developmental disabilities and are guided by a state plan submitted to the federal government. There is a 5 percent limit on administrative expenditures except for expenditures by the DD Council.

This grant currently funds DHS Intellectual & Developmental Disabilities programs. The projection of revenue is expenditures-based using estimated Average Daily Populations (ADP) and Cost per Case (CPC). Federal law requires a state or local match, most of which can be in-kind.

- Revenue budgeted in 2015-17 LAB is \$1.6 million
- Revenue budgeted in 2017-19 GB is \$1.6 million

#### Oregon Disability Determination Services (DDS)

Oregon Disability Determination Services (DDS) provides timely and accurate eligibility determinations for Oregon citizens applying for Social Security disability benefits. Although the disability program, as part of the Social Security Administration (SSA), is administered by the federal government, state agencies make the initial medical determination of disability. The Oregon DDS currently has more than 200 staff and is 100 percent federally funded.

- Revenue budgeted in 2015-17 LAB is \$56.0 million
- Revenue budgeted in 2017-19 GB is \$56.0 million

#### Family Violence Prevention grant

The Family Violence grant is a discretionary grant that supports states in the establishment, maintenance and expansion of programs and projects to prevent incidents of family violence as well as programs that provide immediate shelter and related assistance for victims of family violence and their dependents. This grant is used in support of the Domestic Violence program.

This grant currently funds DHS Child Welfare programs. The projection of revenue is based on grant cycle.

- Revenue budgeted in 2015-17 LAB is \$2.5 million
- Revenue budgeted in 2017-19 GB is \$2.6 million

#### Supplemental Nutrition Assistance Program (SNAP)

The SNAP program provides children and low-income people access to food, a healthy diet and nutrition education. The program is 100 percent federally funded by the Department of Agriculture Food and Nutrition Service (FNS). SNAP benefits are distributed by DHS in the form of an Electronic Benefits Transfer (EBT) card, known as the Oregon Trail Card. The cash out program provides SNAP benefits to selected elderly clients in four counties using a direct cash payment. These benefits are also 100 percent federally funded.

The SNAP employment and training program provides some reimbursement to families and individuals participating in educational activities and finding employment. The program is 100 percent federally funded up to the state's specified cap. Expenditures above the cap are funded with 50 percent state funds and 50 percent Federal Funds.

FNS funds 50 percent of the state's administrative costs for operating the SNAP EBT program, the cash out program and the employment and training program. States may receive enhanced funding for up to 60 percent of their administrative costs if their SNAP error rate is below the national average.

This grant currently funds programs in DHS Self Sufficiency and Aging and People with Disabilities. The projection of revenue is based on estimated Average Daily Populations (ADP) and Cost per Case (CPC).

- Revenue budgeted in 2015-17 LAB is \$2.4 billion
- Revenue budgeted in 2017-19 GB is \$2.8 billion

### Foster care and adoption services (Title IV-E)

The foster care and adoption assistance program is an entitlement program funded under the Social Security Act, Title IV-E. Children taken into custody due to imminent risk of harm because of abuse and neglect are provided foster care placement and medical care through grant funding. Title IV-E eligibility is based on a number of factors including the income of the child and the family. Title IV-E-eligible children are also categorically eligible for Medicaid.

Federal financial participation is available at the Medicaid FMAP rate for program costs (average biennium FMAP for 2015-17 LAB is 64.21 percent), and at the rate of 50 percent for administrative expenditures necessary for the proper and efficient administration of the Title IV-E state plan. The state's cost allocation plan identifies which administrative costs are allocated and claimed under this program. Federal financial participation also is available at the rate of 75 percent for the costs of:

- Training personnel employed or preparing for employment by the state or local agency administering the plan; and
- Providing short-term training to current or prospective foster or adoptive parents and the members of the state licensed or approved child care institutions providing care to foster and adopted children receiving Title IV-E assistance.

All training activities and costs funded under Title IV-E must be included in the state agency's training plan that is part of the Child Welfare services plan.

This grant currently funds DHS Child Welfare programs. The projection of revenue is based on estimated Average Daily Populations (ADP) and Cost per Case (CPC). The increase in expected revenue is based on the caseload forecast showing an increase in cases.

- Revenue budgeted in 2015-17 LAB is \$258.4 million
- Revenue budgeted in 2017-19 GB is \$303.9 million

### Medicaid (Title XIX)

Medicaid provides reimbursement to states for medical care and related services to low income and other medically needy individuals. This includes financing for:

- Health care services provided under the Oregon Health Plan;
- Private insurance premiums;
- Long-term care in institutional and community-based care settings;
- Some client care provided in state hospitals;
- Residential treatment services to adults and youth;
- Central administration of alcohol and drug programs;
- Medical and non-medical transportation for Medicaid eligible individuals;
- Family planning services for individuals not enrolled in the Oregon Health Plan; and
- Uncompensated care provided by hospitals serving a high proportion of Medicaid and uninsured individuals.

State General Fund or Other Funds must be used to match federal Medicaid dollars for administration and direct service payments. The administration match rate is primarily 50 percent. A 75 percent Federal Fund match is available for skilled professional medical personnel, certification of nursing facilities, and related information systems activities, including the Medicaid Management Information System (MMIS) computer system support and Preadmission Screening and Resident Review (PASRR) activities. The current average federal Title XIX match rate for service payments to providers for the 2015-17 biennium is 64.37 percent and 63.26 percent for 2017-19. The cost of services and supplies for Family Planning is matched at 90 percent. The Breast and Cervical Cancer (Treatment) program, which is an optional Medicaid program, receives the enhanced CHIP Title XXI match rate of 95.19 percent the 2015-17 biennium and is receiving an enhanced match rate of 97.28 percent in the 2017-19 biennium.

Most services in Oregon are provided through seven Medicaid programs that require waivers of federal requirements. The Oregon Health Plan is the largest of these waiver programs. DHS must obtain approval from the federal Centers for Medicare and Medicaid Services (CMS) to make changes to its Medicaid program whether the

changes are Medicaid state plan services or waiver services. This approval process can be lengthy, sometimes affecting the timing of program changes and the receipt of associated federal revenues.

Medicaid currently funds services in all DHS programs. The projection of revenue is based on estimated Average Daily Populations (ADP) and Cost per Case (CPC) for Administrative charges, use of time and effort and other measures.

- Revenue budgeted in 2015-17 LAB is \$2.95 billion
- Revenue budgeted in 2017-19 GB is \$3.85 billion

#### Medicaid XIX Local Match

The Intellectual & Developmental Disabilities (I/DD) program matches Medicaid Title XIX funds with funds or services from transit districts, community developmental disability programs and others for providing enhanced non-medical transportation and administrative costs.

- Revenue budgeted in 2015-17 LAB is \$12.7 million
- Revenue budgeted in 2017-19 GB is \$12.7 million

#### Older Americans Act

Funds are allocated to Oregon annually through the Older Americans Act. The Aging and People with Disabilities (APD) program allocates program funds by a federally approved population formula to the 17 area agencies on aging. Emphasis is placed on serving the most economically and socially needy persons 60 years of age and older. There is a 15 percent match requirement of which 10% is met by area agencies on aging and 5% from state sources through local funds, in-kind and Oregon Project Independence (OPI) allocations.

- State administration funds provide for state plan administration. There is a 25 percent match requirement met with OPI funds.

- Title III funds provide for support services such as transportation, legal assistance, in-home care, and congregate and home-delivered meals programs. The act allows for provision of in-home services for frail individuals to prevent premature institutionalization and preventive health services for elderly clients in rural areas. Title III also provides funding for family caregiver support and training and services to prevent abuse of the elderly. The match requirement ranges from 15 to 25 percent depending on whether the funds are paying for administration or program expenditures.
- Title V programs subsidize part-time paid community service work for low-income persons, aged 55 and over and job training skill. There is a 10 percent match requirement, which is met by the program operators.
- Title VII funding provides support for the long-term care ombudsman and prevention of elder abuse, neglect and exploitation. No match is required for Title VII.
- The Nutrition Services Incentive Program grant (NSIP) supplements Title III-C local funds to provide nutrition services to eligible Older Americans Act participants. Funds are 100 percent federal. No match is required.

This grant currently funds APD programs. The projection of revenue is based on actual and projected federal awards.

- Revenue budgeted in 2015-17 LAB is \$31.3 million
- Revenue budgeted in 2017-19 GB is \$24.5 million

### Oregon Project Independence

Oregon Project Independence (OPI) is a state-funded program offering in-home services and related supports to individuals 60 years of age and older or to people who have been diagnosed with Alzheimer’s or a related dementia disorder.

OPI is administered locally by area agencies on aging throughout the state. Client eligibility is determined based upon an assessment of functional ability and natural supports related to activities of daily living. The OPI program has no financial asset limitations. A sliding fee scale is applied to clients with net monthly income between 100 and

200 percent of the federal poverty level (FPL) to pay toward the cost of service. A small minority with income above 200 percent of the FPL pay the full rate for services provided. They generally do so because they need the case management, ongoing support and monitoring that are provided in addition to the actual purchased services.

The OPI program historically has been funded by General Fund and for a short time by excess revenue in the Senior and Disabled Property Tax Deferral Revolving Account. However, due to sharply declining revenue, funds are no longer available from the Department of Revenue property tax deferral account for transfer to the OPI fund. Aging and People with Disabilities received legislatively appropriated General Fund for the purpose of continuing OPI.

- Revenue budgeted in 2015-17 LAB is \$9.6 million
- Revenue budgeted in 2017-19 GB is \$28.0 million

#### Quality of Care Fund

During the 2009 Legislative Session, HB 2442 required the establishment of the Quality of Care Fund and increases in fee schedules for adult foster homes, residential care and assisted living facilities, as well as increases in state civil penalties. Revenue collected from APD and I/DD licensing fees and civil penalties are dedicated to promoting quality of care and life in long-term care settings, including enhancement and maintenance of long-term care facility licensing and regulatory activities and additional training and technical assistance for facilities.

#### Refugee resettlement

The refugee resettlement program provides time-limited cash and medical assistance as well as social services to refugees entering the country. The refugee resettlement program and administration expenditures are 100 percent Federal Funds, as defined by the Immigration and Nationality Act of 1980.

- Revenue budgeted in 2015-17 LAB is \$10.8 million
- Revenue budgeted in 2017-19 GB is \$11.0 million

### Rehabilitation Act grants (US Department of Education)

The Rehabilitation Act grants are the major funding source for programs provided through Vocational Rehabilitation Services. Rehabilitation Act grants currently fund DHS VR – Basic Rehabilitative Services programs. The projection of revenue is based on grant cycle.

### Section 110 (Basic 110 Grant)

Basic 110 Grant, which is available to assist people with disabilities in becoming employed, is a formula grant based on the state's population and per capita income. The funds available to Oregon are divided between Vocational Rehabilitation (84.4 percent) and the Commission for the Blind (15.6 percent). These Federal Funds must be matched with state funds. Under the new Workforce Investments and Opportunities Act, 15% of this grant must be set aside to be spent on pre-employment transition services for youth.

- Revenue budgeted in 2015-17 LAB is \$ 72.2 million
- Revenue budgeted in 2017-19 GB is \$112.4 million

### Section 633 (Title VI-C grant for supported employment)

This grant assists the state in developing programs with public and private agencies for training and services leading to supported employment for individuals with severe disabilities. This grant under the new Workforce Investments and Opportunities Act must set aside 50% for services to the most severely disabled youth. The 50% set aside must be matched with 10% non-federal fund expenditures. The remaining 50% of the grant is 100 percent Federal Funds and does not require state match.

- Revenue budgeted in 2015-17 LAB is \$0.5 million
- Revenue budgeted in 2017-19 GB is \$0.5 million

### Section 711 (independent living rehabilitation, Part B)

Independent living rehabilitation funds support the state Independent Living Council and Independent Living Centers. This grant has a required 10% match.

- Revenue budgeted in 2015-17 LAB is \$0.5 million
- Revenue budgeted in 2017-19 GB is \$0.5 million

#### Assistive technology

The Assistive Technology Act of 1998 supports state efforts to improve the provision of assistive technology (AT). Grant funds allow implementation of programs designed to meet the AT needs of individuals with disabilities, including plans that improve access to and acquisition of AT devices and services for individuals with disabilities.

This grant is a revenue source of the Oregon Disabilities Council, which was transferred to Vocational Rehabilitation (VR) within the VR – Basic Rehabilitative Services program in the 2007-09 biennium.

- Revenue budgeted in 2015-17 LAB is \$0.8 million
- Revenue budgeted in 2017-19 GB is \$0.8 million

#### Social Services Block Grant (SSBG, Title XX)

The Social Services Block Grant (SSBG) is one of the most flexible grants provided by the U.S. Department of Health and Human Services. The objective of SSBG is to provide the social services that best meet the needs of individuals residing in the state. Oregon uses SSBG to fund varied programs, including Child Welfare Prevention and Safety programs, crisis nurseries, supportive remedial day care, youth development and the social service components of residential treatment programs. SSBG has no matching or maintenance of effort requirements. Congress is considering discontinuing this grant.

This grant currently funds DHS Child Welfare programs. The projection of revenue is based on the grant cycle.

- Revenue budgeted in 2015-17 LAB is \$34.7 million
- Revenue budgeted in 2017-19 GB is \$41.9 million

### Children's Health Insurance Program (Title XXI)

The Children's Health Insurance Program (CHIP) provides federal matching funds for medical care of children through age 18 who do not have insurance but whose parents earn too much for traditional Medicaid. These services are covered through the OHP.

This grant currently funds DHS Child Welfare programs. The projection of revenue is based on estimated Average Daily Populations (ADP) and Cost per Case (CPC).

- Revenue budgeted in 2015-17 LAB is \$7.8 million
- Revenue budgeted in 2017-19 GB is \$2.5 million

### Temporary Assistance for Needy Families (TANF, Title IV-A)

Under the Personal Responsibility and Work Act of 1996 (PRWOA), Oregon is eligible to receive an annual Temporary Assistance for Needy Families (TANF) federal block grant. In order to qualify for this grant, the state must expend a minimum of state and local revenues on TANF-related services to meet federal maintenance of effort requirements (MOE).

Some of these state and federal revenues fund Temporary Assistance to Needy Families (TANF)-eligible services. In Oregon, these services are cash assistance for single and two-parent families, domestic violence emergency assistance, and employment and training (JOBS) services. DHS and other agencies also use TANF revenue to fund related programs such as foster care, prevention services, alcohol and drug treatment services, transportation, and housing assistance for homeless persons. Administrative and direct service costs can also be reimbursed using TANF revenues. Administrative costs are limited to no more than 15 percent of total TANF expenditures with certain limited exceptions.

The block grant concept, under which TANF operates, places restraints on service delivery. Federal funds are capped, which means no federal revenue is available for increasing program costs. This limitation on revenue requires Oregon to essentially self-fund any program increases.

This grant currently funds programs in DHS Self Sufficiency. The projection of revenue is based on the grant cycle.

- Revenue budgeted in 2015-17 LAB is \$333.6 million
- Revenue budgeted in 2017-19 GB is \$333.6 million

## **Other Funds**

### Care of state wards

Trust recoveries are Other Funds collected from Social Security Administration (SSA), Social Security Insurance (SSI) and child support payments and used to reimburse the state for the maintenance cost of children in care. Trust recoveries come from collection of SSI disability payments (24 percent), child support payments (53 percent) and SSA death and survivor benefits (23 percent). Trust recoveries are used in place of General Fund to match Title XIX Federal Funds for the long-term care program.

Trust recoveries currently fund Child Welfare (CW) and Intellectual & Developmental Disabilities (I/DD) programs. The projection of revenue is based on caseload trends and historical receipt trends.

- Revenue budgeted in 2015-17 LAB is \$12.8 million
- Revenue budgeted in 2017-19 GB is \$12.8 million

### Collection of overpayment

Overpayment recoveries are recovered program dollars incorrectly paid to or for clients through client error or fraud. Recovery may be made in any of several program areas including food stamps, child care, public assistance cash and public assistance grant reductions. The projection for these revenues are developed using past performance, inflation and changes in caseloads and regulations as indicators of future trends. Public assistance recoveries are applied against program expenditures during the month of the recovery. Food stamp and child care overpayment recoveries are budgeted as Other Funds.

Currently these funds support programs in the CW and APD programs. The projection of revenue is based on historic receipt trends.

- Revenue budgeted in 2015-17 LAB is \$18.1 million
- Revenue budgeted in 2017-19 GB is \$18.1 million

#### Client account collections estate recoveries

Other Funds are collected from the estates of clients to reimburse previous cost of care. Collections are used to reimburse cost and offset both the Title XIX program cost and General Fund costs.

Currently funds APD programs. The projection of revenue is based on estimated Average Daily Populations (ADP) and Cost per Case (CPC). Revenues are projected to increase as a result of increased receipts.

- Revenue budgeted in 2015-17 LAB is \$21.1 million
- Revenue budgeted in 2017-19 GB is \$23.8 million

#### Domestic violence receipts

Enacted in 1981, marriage license fees are dedicated to fund the domestic violence program. The marriage license fee is currently \$25. Legislation directed that the unitary tax and the criminal fines and assessments account provide additional funding for this program. Expenditures are limited to the amount of revenue actually received.

Domestic violence receipts currently fund programs in the Self Sufficiency (SS) programs. The projection of revenue is based on historical receipt trends for marriage license fees and Department of Revenue projections for criminal fines and assessments accounts.

- Revenue budgeted in 2015-17 LAB is \$1.2 million
- Revenue budgeted in 2017-19 GB is \$1.2 million

### Fees and premiums

The CW programs collect fees for adoption home study and registry, sexual abuse therapy fees, and fees for fingerprinting under ORS 409.015. Specific fee amounts are:

- Independent Adoption Placement Reports cost \$675; \$550 passes through to private agencies.
- The fee for registration with the mutual consent registry is \$25. This registry allows individuals who have been a party to adoption access to other party information where both parties have registered and consented to disclosure.
- The non-identifying registry allows registrants to provide genetic, social and health history only for use in the adoption registry. The cost for this registry is \$45.
- The cost of an adoption assisted search is \$400 for the first search request and \$200 for subsequent search requests. This allows individuals to request the agency's assistance in locating biological family members.

### Local school funding for rehabilitation services

Other Funds from local schools are used as the 21.3 percent state match needed for the Basic 110 Grant for rehabilitation services which is funded with 78.7 percent federal funds. The Youth Transition Project (YTP) is a collaborative program with school districts that assists youth with disabilities in their transition from school to the community work force.

The projection of revenue is capped based on agreements with schools.

- Revenue budgeted in 2015-17 LAB is \$1.9 million
- Revenue budgeted in 2017-19 GB is \$1.9 million

### Long-term care facilities tax

The current tax rate is set to collect up to 6 percent of resident service revenues of non-exempt long-term care facilities. Revenue projections are based on previous years' cost reports, current year tax reports, and a growth factor. At present, the agency collects approximately \$15 million per quarter in Other Funds through this tax. The

federal match is approximately \$26 million per quarter. Provider tax dollars are used to offset General Fund expenditures for nursing facility services. The provider tax will sunset in June 2021.

- Revenue budgeted in 2015-17 LAB is \$117.1 million
- Revenue budgeted in 2017-19 GB is \$127.8 million

## ***Mission***

To help Oregonians in their own communities achieve safety, wellbeing and independence through opportunities that protect, empower, respect choice and preserve dignity.

## ***Goals***

- Every Oregon child and youth in our care deserves to grow up safely -- with support for success in school.
- Every Oregon adult deserves to live in safety – free from abuse, neglect and financial exploitation.
- Every Oregonian has the right to live as independently as possible -- with dignity, choice and self-determination.
- Every Oregonian can work to the best of their abilities to contribute to their family and their community.
- All Oregonians deserve efficient and effective services from DHS.

## ***DHS Central Services***

DHS Central Services consist of the Office of the Director; Chief of Staff; Human Resources; Public Affairs; Tribal Affairs, and Equity and Multicultural Services. These offices provide essential supports to programs in achieving the department and programs mission, vision and outcomes.

## **Office of the Director**

The DHS Director's Office is responsible for overall leadership, policy development and administrative oversight for all programs, staff and offices in DHS. These functions are coordinated by the Chief of Staff with the Governor's Office, the Legislature, other state and federal agencies, partners and stakeholders, communities of color, local governments, advocacy and client groups, and the private sector.

The Chief of Staff also oversees the Governor's Advocacy Office (GAO) - This office handles client complaints related to DHS services. This office operates

independently in the investigations performed and reports directly to the Governor by providing a quarterly report on the status of the complaints. The team in this office works closely with field and central office staff; program staff; the Governor's Office; key stakeholders; and the DHS Director's Office to successfully, equitably and respectfully reach a conclusion.

The DHS Director's Office is also home to Tribal Affairs. We are committed to a positive working relationship with the nine tribes in Oregon. Staff regularly holds meetings with tribal governments through tribal liaisons and continually strives to ensure these communities receive sufficient and appropriate human services.

The Office of Human Resources serves as a strategic partner to its customers in, providing proactive and comprehensive human resources services, in alignment with agency and program mission and goals. HR works closely with internal customers on Workforce Strategies that support agency and program needs and strategies, and building a healthy workplace culture of ongoing development and feedback to ensure the agency has a diverse workforce with the right people with the right skills, training, and support to do their work, now and in the future.

The DHS Public Affairs Office is made up of three work units: Communications, Legislative, and Legal. The office provides DHS with unified support and coordination in outreach and communication, legislative action and strategy:

- Communications Unit - This office supports the mission by providing accurate information to a diversity of employees, clients, legislators, stakeholders and interest groups, providers and partners, local governments, other state and federal agencies, policymakers, the news media, targeted audiences and the general public. Effective communication is the primary vehicle to demonstrate public transparency, accountability, and trust. The office also provides support to the department's priority projects as defined by the DHS Director and executive team.
- Legislative Unit - This unit handles all legislative matters for DHS. This team coordinates all DHS legislative matters with legislative offices, key stakeholders and the Governor's Office. This team supports both field and central office staff providing consultation and support in legislative matters, primarily working with central office staff on policy development for program services. During a legislative session, this unit tracks and assigns all bills related to DHS program and operations. Staff in this unit support

the director of DHS, the directors of all program and operations in DHS and the district managers in field offices regarding legislative matters.

- Legal Unit - This Unit manages all lawsuits, tort claims and subpoenas related to DHS program and operations. Staff in this unit provide expert consultation to DHS field and central office staff, Department of Justice (DOJ) and Department of Administrative Services (DAS) Risk Management in policy related to legal matters. This team ensures timely completion of the required judicial documents to move smoothly through a complicated legal matter.

Hearing and Rules Unit supports all DHS field office and central office programs by managing administrative rules and administrative hearings. This unit provides expert technical support to hearing representatives in DHS field services and liaison to the Office of Administrative Hearings and DOJ regarding DHS notices, hearing requests, and contested case hearings. This unit provides expert technical support to program staff writing rules and rule-related documents and handles rule filing and the public comment process for DHS programs. The Rules Coordinator advises, consults, leads, coordinates and trains staff in drafting, interpreting, defining and developing the intent and scope of administrative rules. In addition, the rules coordinator monitors and reviews contested case orders, trains hearing representatives, assists with legal issues and acts as liaison with the Office of Administrative Hearings to discuss performance measures.

Office of Equity and Multicultural Services (OEMS) provides leadership and direction in supporting equity, diversity and inclusion initiatives throughout the agency. OEMS guides systemic changes to both internal workforce developments as well as improve service delivery to all Oregonians. The office also investigates all claims of discrimination and harassment. The goals of the office include reducing service disparities in all program areas; ensuring a diverse and culturally competent workforce; removing barriers to a welcoming work environment; and improving life outcomes for all DHS clients.

### **Office of the Deputy Director – Agency Operations**

The DHS Deputy Director is responsible for Shared Services such as Internal Audits, Business Intelligence, Licensing and Regulatory Oversight, Continuous Improvement, Information Technology (IT) Business Supports, Adult Abuse Prevention and Investigations, Program Integrity, Office of Payment Accuracy and Recovery, and the Chief Financial Officer.

Office of the Chief Financial Officer (OCFO) provides optimal business services to ensure accountability, data driven decisions, and stewardship of resources in support of the mission of DHS. This is done by working closely with DHS and OHA programs and the OHA Chief Financial Officer, to ensure accurate, timely and efficient recording and management of financial resources; culturally competent and equitable services; authorizing the redistribution of available resources to meet changing needs; and establishing administrative controls.

### ***Shared Services***

DHS Shared Services supports both DHS and OHA by providing optimal business services to ensure accountability, data-driven decisions, and stewardship of resources. DHS Shared Services contains the following key offices and programs that serve both DHS and OHA.

#### **Shared Services Administration**

This office provides leadership and direction for shared services offices which support both DHS and OHA.

#### **Budget Center**

This area provides program and administrative budget planning, financial analysis and technical budget support for DHS and OHA. These services are provided for department leadership, program, policy and field managers, staff and external policymakers.

#### **Office of Forecasting and Research Analysis (OFRA)**

OFRA supports DHS and OHA by providing accurate, timely, unbiased caseload forecasts, and related research and analysis to support budgeting, policy development, and operational planning. Additionally, OFRA houses the Office of Enterprise Data Analytics (OEDA) which conducts inter-agency research and advanced statistical modeling to answer cross agency operational questions.

#### **Office of Financial Services (OFS)**

This area provides accounting services, administers employee benefits and payroll, prepares financial reports, and collects funds for DHS and OHA. This area provides accurate, accountable and responsive financial management and business services to clients, providers, vendors, stakeholders and employees to ensure compliance with state laws and federal policies, rules and regulations.

### **Human Resources Center**

This office provides essential HR administrative functions and services for DHS and OHA, and supports organizational development and an improved common culture of leadership and engagement across both agencies, through background checks and fitness determinations; personnel records management; leave administration; centralized position administration; safety and risk response and management; staff and management training; facilitation services and Lean Daily Management System (LDMS) coaching; HR data analysis and reporting; HR policy administration; and internal communication strategies and resources for managers and staff.

### **Office of Facilities Management**

This office provides coordination of facility matters for branch offices and other facilities statewide for both DHS and OHA. Facilities staff supports the mission by maintaining and enhancing buildings, vehicles, telecommunications, and the physical infrastructure in a cost-effective and environmentally responsible manner.

### **Office of Imaging and Records Management (IRMS)**

IRMS provides services tailored to the business and program operational needs related to: agencies delegated authority regarding imaging, electronic and physical document and records management; data entry of documents to send data to mainframe applications to generate payment to medical and childcare providers; image and data capture of source documents into a central repository; image and data capture of documents into electronic workflow eliminating the need for the customer(s) to process physical documents; archive storage of physical records; tracking of archived records; shipping of archived records at customer request; and destruction of physical documents/records per customer agreement and Secretary of State's Office retention schedule.

### **Office of Contracts and Procurement (OC&P)**

The Office of Contracts and Procurement supports all offices of the Department of Human Services, the Oregon Health Authority, and the Home Care Commission by procuring supplies and services in the most cost effective manner through innovative and responsible solutions.

### **Office of Adult Abuse Prevention and Investigations (OAAPI)**

OAAPI is responsible for conducting and coordinating abuse investigations and providing protective services statewide in response to reports of abuse and neglect to people they serve, including:

- Adults over the age of 65
- Adults with physical disabilities
- Adults with intellectual or developmental disabilities
- Adults with mental illness, and
- Children receiving residential treatment services

### **Internal Audit and Consulting (IAC)**

The Internal Audit and Consulting (IAC) Unit provides independent and objective information and consulting services for DHS/OHA. The internal audit team reviews all areas of DHS/OHA including centralized operations and programs, field offices, and institutions. The unit provides other services such as consultation on internal controls and process improvement efforts, facilitation of risk assessment activities, coordination of external audits, and tracking and follow-up on both internal and external audit findings.

### **Office of Payment Accuracy and Recovery (OPAR)**

OPAR provides recovery services by identifying and recovering moneys paid in error to clients or providers; investigates allegations of fraudulent activities; investigates and recovers state funds expended for services when a third party should have covered the service and the recovery of claims made by a client; and recovers funds from the estates of Medicaid recipients for the cost of cash and medical benefits provided.

### **Publications and Design (P&D)**

P&D manages the writing, design, development, printing and distribution of DHS and OHA publications for internal and external audiences, which includes alternate formats and alternate languages. P&D provides consulting to plan professional quality publications that reflect DHS and OHA style guidelines; edit and proof materials created by staff experts and partners in their individual fields; provide graphic design, layout, original and digital illustration, forms creation, graphic artwork and Web and electronic materials.

### ***State Assessments and Enterprise-wide Costs***

DHS also has statewide assessments that include DAS charges such as the State Government Service Charge, Risk Assessment and State Data Center Charges. Rent for all of DHS is in the Facilities budget, IT Direct is for all computer replacement needs. The Shared Services funding is the revenue for the DHS portion of DHS and OHA shared services and Debt services is to pay off Certificates of Participation or Q-Bond loans taken for major DHS projects. Each service, both shared and assessed, are important for DHS to attain its programmatic outcomes. It is critical to continue to look for efficiencies in our systems, processes or staffing.

### ***Program Design Services***

To become outcome-driven, an agency must determine the outcomes it wants to achieve, measure the outcomes, design programs to achieve the outcomes, implement the design through business and IT processes and systematically review whether the processes are being implemented as designed and how well the outcomes are being achieved.

### **Office of Business Intelligence (OBI)**

OBI compiles reports and conducts research to determine whether DHS programs are achieving their goals and desired outcomes. OBI specializes in managing data to ensure it is accurate, consistent, and useful to programs in assessing their success and making decisions to alter their program design. One important part of this role is managing the agency scorecard of outcome and process measures. OBI also conducts professional research requested by programs to give them a more rigorous foundation for their program design.

### **Office of Information Technology Business Supports (ITBS)**

ITBS bridges the gaps between the Aging and People with Disabilities (APD) and Intellectual / Developmentally Disabled (I/DD) program needs and the technology used to deliver assistance. ITBS leads program area efforts to develop functional IT business requirements, document/perform IT solution testing, execute IT project delivery and operate IT systems supporting program client/provider needs across the spectrum of benefit delivery. ITBS fields technology support contacts for internal and external staff, partners, customers and clients seeking assistance with

daily eligibility, enrollment, payments and access/security. ITBS is embedded in DHS program design and is focused on the following areas of concern:

- Stable and reliable IT operations
- Accurate business analysis for solution enhancement, development and documentation
- Broad knowledge of key benefit programs, concerns and supporting systems
- Comprehensive Level of Effort (LoE) estimation for documented business requirements
- Consistent, documented testing of application patches and releases
- Expert IT project/solution delivery using a consistent, professional methodology.

### **Office of Continuous Improvement (OCI)**

OCI helps DHS units implement the Lean Daily Management System and conduct business process improvement events. OCI employs project managers and staff skilled in Lean tools to assist units in making high-priority process improvements and building their own Lean capacity.

### **Office of Licensing & Regulatory Oversight (OLRO)**

OLRO provides for the safety of children, aging and physically disabled, and people with intellectual and developmental disabilities through licensing, regulatory and corrective action functions within programs provided by DHS. This includes Intellectual and Developmentally Disabled (I/DD) programs, Aging and People with Disabilities (APD) programs, Child Welfare (CW) providers, adult foster homes, assisted living facilities, residential care facilities, nursing homes, supportive living and employment programs for people with intellectual and developmental disabilities, and private child care agencies. OLRO strives to ensure service equity and delivery of culturally and linguistically appropriate services are provided to Oregonians. In the GB functions of OLRO are being placed back into program where the accountability for the function lies. In this budget only the Child Welfare related staff are left in OLRO. However, those positions will at some point be moved into Child Welfare likely after the review of that system has been completed.

### **Office of Program Integrity (OPI)**

OPI conducts analysis and tests to determine whether DHS is implementing programs in the way they were designed and trains caseworkers based on their

findings to improve program integrity. The Quality Control Unit conducts operational and case reviews, many mandated by state and federal law, to determine how accurately each program is making eligibility and other determinations. The Quality Assurance Unit and the Centers for Medicare and Medicaid Services Waiver Group conducts field reviews to assess program quality.

## Department of Human Services: Central Services

---

Primary Long Term Focus Area: Excellence in State Government  
 Secondary Long Term Focus Area:  
 Program Contact: Eric Moore

### Program Overview

DHS Central Services consist of the Office of the Director and Policy, the Office of Human Resources, the Central Budget Office, the Office of Communications, the Office of Legislative and Client Resources (LCRO) within the Public Affairs Office and the Office of Equity and Multicultural Services (OEMS). These offices provide essential business supports to programs in achieving the department and programs mission, vision and outcomes.

### Program Funding Request

Percent change	6.53	3.04	3.04	4.78	0.00	0.00

## **Program Description**

### **Office of the Director and Policy**

The DHS Director's Office is responsible for overall leadership, policy development and administrative oversight. These functions are coordinated with the Governor's Office, the Legislature, other state and federal agencies, partners and stakeholders, local governments, advocacy and client groups, and the private sector.

The DHS Director's Office provides leadership in achieving the mission of the agency: helping Oregonians achieve well-being and independence through opportunities that protect, empower, respect choice and preserve dignity. The office supports all DHS field office and central office programs by managing legislative and legal matters, client concerns, written rules, and contested hearings.

### **DHS Office of the Chief Financial Officer (OCFO)**

OCFO provides optimal business services to ensure accountability, data driven decisions, and stewardship of resources in support of the mission of DHS. This is done by working closely with DHS programs and the OHA CFO and programs, to ensure accurate, timely and efficient recording and management of financial resources; culturally competent and equitable services; authorizing the redistribution of available resources to meet changing needs; and establishing administrative controls. The OCFO is responsible to provide leadership and direction to the DHS Budget Office and the fiscal offices located in DHS that serve both DHS and OHA, including the Budget Center, Office of Financial Services, and Office of Forecasting. These offices ensure that accounting, budget, and forecasting practices comply with all applicable laws, rules, and professional standards and ensure transparency and accountability in the financial practices of DHS and OHA.

### ***Budget, Planning and Analysis (BPA)***

This office functions as the central budget for DHS based programs working under the guidance of the OCFO. The OCFO is responsible to provide leadership and direction to the DHS Budget Office and the fiscal offices located in DHS that serve both DHS and OHA, including the Office of Financial Services, the Central Budget Unit, and Office of Forecasting. These offices ensure that accounting, budget, and forecasting practices comply with all applicable laws, rules, and professional standards and ensure transparency and accountability in the financial practices of DHS and OHA.

### **Office of Human Resources (Dedicated HR)**

HR serves as a strategic partner to its customers in DHS, providing proactive, comprehensive human resources services, in alignment with agency and program mission and goals. HR works closely with internal customers on Workforce Strategies that support agency and program needs and strategies, and building a healthy workplace culture of ongoing development and feedback to ensure the agency has a diverse workforce with the right people with the right skills, training, and support to do their work, now and in the future.

### **Office of Public Affairs**

The DHS Public Affairs Office is made up of three work units: Communications, Legislative, and Legal. The office provides DHS with unified support and coordination in outreach and communication, legislative action and strategy:

- **Communications Unit** - This office supports the mission by providing accurate information to a diversity of employees, clients, legislators, stakeholders and interest groups, providers and partners, local governments, other state and federal agencies, policymakers, the news media, targeted audiences and the general public. Effective communication is the primary vehicle to demonstrate public transparency, accountability, and trust. The office also provides support to the department's priority projects as defined by the DHS Director and executive team.
- **Legislative Unit** - This unit handles all legislative matters for DHS. This team coordinates all DHS legislative matters with legislative offices, key stakeholders and the Governor's Office. This team supports both field and central office staff providing consultation and support in legislative matters, primarily working with central office staff on policy development for program services. During a legislative session, this unit tracks and assigns all bills related to DHS program and operations. Staff in this unit support the director of DHS, the directors of all program and operations in DHS and the district managers in field offices regarding legislative matters.
- **Legal Unit** - This Unit manages all lawsuits, tort claims and subpoenas related to DHS program and operations. Staff in this unit provide expert consultation to DHS field and central office staff, Department of Justice (DOJ) and Department of Administrative Services (DAS) Risk Management in policy related to legal matters. This team ensures timely completion of the required judicial documents to move smoothly through a complicated legal matter.

## Office of Equity and Multicultural Services (OEMS)

OEMS provides leadership and direction in supporting equity, diversity and inclusion initiatives throughout the agency. OEMS guides systemic changes to both internal workforce developments as well as improve service delivery to all Oregonians. The office also investigates all claims of discrimination and harassment. The goals of the office include reducing service disparities in all program areas; ensuring a diverse and culturally competent workforce; removing barriers to a welcoming work environment; and improving life outcomes for all DHS clients.

### Program Justification and Link to Focus Areas

DHS Central Services provide critical leadership and business supports necessary to achieve the mission of the agency: helping Oregonians achieve well-being and independence through opportunities that protect, empower, respect choice and preserve dignity.

DHS Central Services include the cost of DHS Budget, Planning and Analysis, the Director, Governor's Ombudsmen, Legislative and Communications & support, Diversity and Dedicated Human Resources.

The DHS Central Services budgets are structured and administered according to the following principles:

### *Control over major costs*

DHS centrally manages many major costs. Some of these costs, like many DAS charges, are essentially fixed to the agency. Others, like facility rents, are managed centrally to control the costs. DHS also strongly supports and actively participates in statewide efforts to locate work across the enterprise and install performance management systems to perform administrative functions more efficiently and effectively.

### *Performance management system*

DHS has implemented a performance management system containing the following key elements:

- A clear statement of the outcomes DHS must achieve.
- Descriptions of the processes DHS uses to achieve its outcomes.
- Measures of success for each outcome and process.
- Owners for each measure.
- Written “breakthrough” strategies for each initiative that will significantly improve outcomes and processes.
- A quarterly all-day all-leadership review of progress on each measure and strategy.

DHS is now implementing the same system within each program and support service category. The system is contained in the Director’s Office and is managed by the entire executive team.

Best practices in installing performance management require specific skills - especially in project management, Lean tools, data analysis, and professional development of managers. DHS has reallocated resources and used savings to make some of these investments, but it must increase these skills as much more needs to be done.

## **Enabling Legislation/Program Authorization**

ORS 409.010

## **Funding Streams**

- Allocated Costs – Costs benefiting more than one federal or state program are charged to a cost allocation pool. The allocating grant numbers accumulate costs until the monthly cost allocation process is run.

- Direct Charge – Costs benefiting a single federal or state program are charged directly to the grant number representing the program. There is no additional allocation for these costs.
- Monthly Process – The process runs each month based on actual accumulated costs. On a monthly basis, statistics are generated to complete the allocation process. The cost allocation pools are cleared each month by the operation of the cost allocation process to transfer the costs to the final grant and cost objective.
- Federal Financial Participation (FFP) Calculation – After costs are allocated to final cost objectives, DHS calculates and records the level of Federal Financial Participation for the specific grant.

### **Funding Justification and Significant Changes to 17-19 CSL**

There are no POPs relevant to the Central Service Areas. This funding proposal maintains the program at Current Service Level, assuming only the minimal standard inflationary rates.

### Program Description

DHS Shared Services contains the following key offices and programs:

#### **Shared Services Administration**

This office provides leadership and direction for the shared services offices.

The goals of the Shared Services offices are to:

- Implement standardized business practices that are used throughout DHS/OHA;
- Increase the efficiency, effectiveness and coordination of administrative services through the consolidation of functions across DHS/OHA;
- Provide relevant information and recommendations regarding budget, forecasting and analysis of policy issues;
- Ensure effectiveness and efficiency in program management and measurement of results;
- Develop clear, concise information to support effective decision-making;
- Work effectively across DHS/OHA to ensure department policies are incorporated and appropriately reflected in both agencies' budgets; and
- Provide reliable caseload and cost-per-case forecasts for all major programs, incorporating impacts of policy changes, changing demographics and any other relevant information available.

### **Budget Center**

This office provides program and administrative budget planning, financial analysis and technical budget support for DHS and OHA. These services are provided for department and program leadership, policy and field managers, staff and external policymakers.

- Budget Services Financial Support
- Budget Services Quality Assurance and Reporting
- Legislative Fiscal Coordination

### **Office of Forecasting, Research and Analysis**

This office provides client caseload forecasting services for DHS and OHA. The Office of Forecasting, Research and Analysis provides critical forecasting and technical support to assist program managers to determine projected need for services and to develop the department budget to address these needs, anticipate changes in federal and other funding streams that may affect the ability to provide services, assure compliance with federal funding regulations and requirements, manage appropriation allotments and cash flow throughout the biennium, provide

analysis and estimates to respond to inquiries from internal and external parties, and provide information and assistance in managing the DHS/OHA budgets during the biennium.

- Client caseload forecasting:
- Producing semi-annual caseload forecasts for various DHS programs (divisions);
- Monitoring actual client counts compared to the forecast; and
- Tracking and researching local, state and national trends affecting client caseloads

### **Geographic Information Systems (GIS) – Location Data Services**

The GIS Location Data Services group is a part of the Office of Forecasting, Research and Analysis. This group develops, codes and maintains spatial data sets related to program areas within the DHS and OHA. The team is responsible for,

- mapping existing data
- spatial coding of data
- data development
- overlay Analysis
- travel-time and least-cost path analysis

### **Oregon Enterprise Data Analytics**

The 2015 Oregon State Legislature created Oregon Enterprise Data Analytics. This group produces evidence-based, actionable information through inter-agency research to improve the lives of Oregonians. They collaborate across state agencies such as OHA, Education, Housing, Oregon Youth Authority and others to create useful insights and supportive.

### **Office of Financial Services (OFS)**

This office provides accounting services, administers employee benefits and payroll, prepares financial reports, and collects funds owed to DHS and OHA. This office provides accurate, accountable and responsive financial management and business services to DHS and OHA clients, providers, vendors, stakeholders and employees in support of both agencies' missions and in compliance with state laws and federal policies, rules and regulations. OFS is organized by functional area with the goal of maximizing operational efficiency. OFS works closely with the DAS State Controller's Division, other state agencies and the federal government.

- The **Accounts Receivable Unit** produces invoices, collects funds due back to DHS/OHA, and provides DHS/OHA Accounts Receivable collection data annually to the Legislative Fiscal Office (LFO). This unit also receives and processes garnishments levied on the department.
- The **Receipting Unit** deposits all negotiable instruments received by DHS/OHA; accurately records the revenue and reduction of expense transactions into SFMA for these receipts, as well as from credit card and ACH activity in DHS/OHA Treasury accounts.
- The **Disbursements and Travel Unit** processes invoices for goods and services including rent, utilities, supplies, interagency services, SPOTS VISA and travel claims for DHS/OHA employees and other authorized non-state individuals.
- The **Contract Payments Unit** processes contract payments for services with providers and local governments, ensures payments are within contract limitations, and processes contract settlements as needed.
- The **Payroll Unit** processes agency payroll data and ensures that each employee of DHS/OHA receives proper compensation in pay and benefits for work done.
- The **Strategic Systems Unit** takes financial data from the various DHS/OHA proprietary payment and receipting systems, converts the data and interfaces the data into SFMA. Interfaced transactions include payments, payment cancellations, accounts receivable and recoupments. This unit is also responsible for the SFMA structures and cash flow management,
- The **Management Reporting and Cost Allocation Unit** develops, maintains and implements the department-wide cost allocation plan to allocate indirect administrative expenditures to federal, state and other sources; and provides data management support to internal customers as well as division support in the monitoring of budget to actual reporting.
- The **Statewide Financial Reporting and Trust Accounting Unit** prepares annual financial report information for inclusion in the statewide Combined Annual Financial Report; manages trust accounts.
- The **Reconciliation Unit** completes all reconciliation reports, compares results in SFMA, the State Treasury and DHS/OHA proprietary systems.

- The **Federal and Grant Reporting Unit** maintains, analyzes reviews and reports on various grant types such as entitlement, block and categorical grants; and submits, receipts, and distributes federal draw requests for federal expenditure disbursements.
- The **Portland Accounting Unit** provides accounting services for Public Health Division (PHD) programs including accounts payable, monitoring sub-contractor expenditures, cash receipting, accounts receivable, audit coordination, and grant financial review and reporting.
- The **Internal Control and Policy Unit** monitors system security and control structure. Forgery Services Section handles and researches overpayments, forged, counterfeit and altered checks.

### **Office of Human Resources**

This office provides essential HR administrative functions and services for DHS and OHA, and supports organizational development and an improved common culture of leadership and engagement across both agencies, through background checks and fitness determinations; personnel records management; leave administration; centralized position administration; safety and risk response and management; staff and management training; facilitation services and Lean Daily Management System (LDMS) coaching; HR data analysis and reporting; HR policy administration; and internal communication strategies and resources for managers and staff.

- Employee Records and Benefits Administration;
- Workforce Capacity Reports;
- Safety, Health and Wellness;
- Leave Law interpretation/ADA/Workers' Compensation
- Background Checks
- Organizational Advancement

### **Office of Facilities Management**

The Facilities Center is a shared service office that provides Facilities functions for DHS/OHA. The office acquires and administers leases and contracts for

approximately 173 DHS/OHA facilities statewide; coordinates construction, remodeling and modifications of facilities to meet service delivery needs; plans and manages modular furniture installations; monitors energy use; oversees both agencies' motor vehicle fleet; manages mail and parcel delivery; plans, develops, installs, and repairs DHS/OHA telecommunications systems; audits the DHS/OHA telephone bills; and conducts detailed research and analysis of phone systems to determine the most appropriate systems for both agencies' operations.

Facilities Management works with community colleges, cities and county governments to deliver its services. It also helps DHS/OHA managers, staff and community partners develop and organize offices to meet the service delivery needs. Services include:

- Acquisition and administration of DHS/OHA leases and contracts for an estimated 173 leased facilities statewide;
- Oversight of the DHS/OHA motor vehicle fleets;
- Coordination of construction and remodeling of leased facilities, facilities project management; and
- Plans modifications of workspace to accommodate changes in program service delivery needs.

Central Services serves administrative offices located in five buildings in Salem and Portland. Services include:

- Coordination of building maintenance and management of energy use;
- Management of mail and parcel delivery at the Barbara Roberts Human Services Building and the Portland State Office Building;
- State vehicle management and scheduling at the Barbara Roberts Human Services Building and the Portland State Office Building;
- Lobby reception at the Barbara Roberts Human Services Building;
- Security and evacuation management at the Barbara Roberts Human Services Building; and
- Management of the furniture purchasing and centralized furniture warehouse in Salem, including inventory tracking.

Telecommunications administers the DHS/OHA telecommunications. Services include:

- Planning, development and installation of telecommunications systems in 173 buildings statewide;
- Upgrading and repairing current systems;
- Telephone billing audits; and
- Detailed research and analyses of phone systems to determine the most appropriate systems for the department's operations.

### **Office of Imaging and Records Management Services (IRMS)**

This office provides document and records management services for DHS and OHA through imaging, electronic workflow, data entry, archiving and retention services.

- Data capture services for billing claims related to medical and dental services, hospitals, nursing homes, in-home services, home-delivered meals and child care
- Imaging services related to Oregon Health Plan applications, SNAP applications, Senior Prescription Drug applications, Human Resources documents, criminal history background documents, checks, hearing documents, intentional program violations, child care, medical claims, sterilization consent forms, Financial Services documents, and client case records.
- Electronic and physical records archival, retrieval and coordination of destruction services

This office electronically images more than 2,111,000 documents each month. These are related to the Oregon Health Plan, SNAP program, Direct Pay Unit/Child Care programs, Financial Services, Oregon Health Authority, Background Check Unit, and provider and client hearings. IRMS provides images of checks to Financial Services to allow for timely receipt and deposit of funds, and provides images to the Background Check Unit to assist in expediting retrieval of records to answer provider questions.

IRMS also receives an average of 125,620 paper claims and checks each month for data capture. Most are for medical and dental services, hospitals, nursing homes, in-home services, home-delivered meals, and child care. IRMS provides data and images, which allow SNAP programs, Oregon Health Plan and Oregon Health Authority staff to answer provider and client questions regarding eligibility and payment. The Electronic Document Management System (EDMS) electronically images documents and stores the images on a Storage Area Network (SAN), providing a single repository resulting in immediate accessibility to all authorized DHS/OHA staff throughout the state of Oregon.

### **Office of Contracts and Procurement (OC&P)**

This office provides contract and procurement services for DHS and OHA by making purchases, conducting solicitations, and preparing and processing contracts with other government agencies, businesses and service providers.

There are approximately 500 DHS/OHA program personnel who work directly with OC&P to put contracts in place which support both agencies. Additionally, there are approximately 1,000 DHS/OHA administrative support personnel who require OC&P services related to purchases supporting DHS/OHA business operations.

### **Office of Adult Abuse Prevention and Investigations**

This office conducts investigations and provides protective services in response to reported abuse and neglect of seniors and people with physical disabilities; adults with developmental disabilities or mental illness; and children receiving residential treatment services. The types of abuse we investigate may include physical, sexual, verbal and financial abuse; neglect, involuntary seclusion, and wrongful restraint. (See also individual Bid Form for more details)

### **Internal Audits and Consulting**

This unit provides independent and objective information about DHS and OHA operations, programs and activities to help management make informed decisions and improve services.

The unit assists management through reviews of DHS/OHA programs and activities, ensuring effective and efficient use of resources to achieve the department's goals and outcomes. The unit performs independent audits and reviews, which include:

- Reliability and integrity of financial and operational information,
- Effectiveness and efficiency of operations,
- Safeguarding of assets,
- Evaluation of management controls (which may be related to investigations of alleged misconduct and illegal activities), and
- Compliance with laws and regulations, contracts, and grant awards.
- These services are important because they:
  - Help decrease the amount of fraud, waste and abuse;
  - Ensure the reliability and integrity of financial and operational information;
  - Ensure effectiveness and efficiency of operations;
  - Ensure adequacy of internal controls to prevent or minimize alleged misconduct and illegal activities; and
  - Ensure compliance with laws and regulations, contracts and grant awards.

**Office of Payment Accuracy and Recovery (OPAR)**

This office provides recovery services for DHS and OHA by identifying and recovering moneys paid in error to clients or providers; investigates allegations of fraudulent activities; investigates and recovers state funds expended for services when a third party should have covered the service and the recovery of claims made by a client; and recovers funds from the estates of Medicaid recipients for the cost of cash and medical benefits provided.

OPAR strives to improve program integrity, payment accuracy and financial recovery on behalf of many DHS/OHA programs (SNAP, Medicaid, Temporary Assistance to Needy Families (TANF), Child Care, and others). Specific services provided include:

- Audits and investigations
- Establishment of overpayment debts and collection of those debts
- Facilitation of third-party recoveries

- Identification of third-party resources
- Assistance to DHS field staff with data integrity issues
- Recovery of Medicaid, Clawback and General Assistance funds from estates of deceased clients

### **Publication and Design Section**

This section manages the writing, design, development, printing and distribution of DHS and OHA publications for internal and external audiences, which includes alternate formats and alternate languages. Provides consulting to plan professional quality publications that reflect DHS and OHA style guidelines; edit and proof materials created by staff experts and partners in their individual fields; provide graphic design, layout, original and digital illustration, forms creation, graphic artwork and Web and electronic materials.

### **Program Justification and Link to Focus Areas**

DHS Shared Services provide critical business supports necessary to achieve the mission of the agency: helping Oregonians achieve well-being and independence through opportunities that protect, empower, respect choice and preserve dignity.

DHS Shared Services include:

- Payments to DAS and third parties for goods and services that serve the whole agency, such as facility rents, state data center charges, the DAS risk assessment, DAS government service charges, computer replacement, and debt service.
- Payments for DHS's share of the cost of services shared with OHA. When the agency split, DHS and OHA agreed to share information technology, financial, investigations, and other services to avoid cost increases and permit a greater focus on improving performance and efficiency.
- The cost of the DHS/OHA shared services provided by DHS. These costs are entirely Other-funded, paid for by the payments described in the 2nd bullet above and there are similar payments in the OHA budget. From a total fund perspective, these costs are double-counted in the DHS and OHA budgets, but are needed in order for the offices to perform their daily operations.

The DHS Shared Services budget is structured and administered according to the following principles:

### **Control over major costs**

DHS centrally manages many major costs. Some of these costs, like many DAS charges, are essentially fixed to the agency. Others, like facility rents, are managed centrally to control the costs. DHS also strongly supports and actively participates in statewide efforts to locate work across the enterprise and install performance management systems to perform administrative functions more efficiently and effectively.

### **Customer-driven shared services**

When the agency split, DHS and OHA agreed to maintain many administrative functions as shared services to prevent cost increases, maintain centers of excellence, and preserve standards that help the agencies work together.

### **Shared Governance**

DHS and OHA govern their shared services through committees composed of operational leaders of the two agencies. This approach ensures shared services are prioritized and managed to support program needs. The committee and its subgroups have established service level agreements and performance measures for each service, implemented recent budget cuts selectively, moved staff in and out of shared services to rationalize service delivery, and started implementing more integrated systems to support the performance of all our employees.

Best practices in installing performance management require specific skills - especially in project management, Lean tools, data analysis, and professional development of managers. DHS has reallocated resources and used savings to make some of these investments, but in order to increase these skills much more needs to be done.

### **Enabling Legislation/Program Authorization**

ORS 409.010

### **Funding Streams**

Funding streams are billed through an approved cost allocation plan. The model contains a billing allocation module and a grant allocation module.

The billing allocation module allocates Shared Service costs to the two agencies. The billing module allocates costs to customers within each agency. It does not allocate costs directly to Federal grants.

The grant allocation module allocates costs within DHS to State and Federal grants. These costs include those directly incurred by DHS, Shared Service costs allocated to DHS by the billing allocation module, and external costs allocated to DHS by other State agencies.

Both modules allocate aggregated costs on a monthly basis and use similar allocation methods.

**Funding Justification and Significant Changes to CSL**

This does not include statewide reductions. Below is a table of proposed investments in shared services. POP 102 is just the shared portion of the larger POP cost with only the shared services portion displayed below. POP 205 has a corresponding POP in the OHA budget. Funding for these POPs are included in the SAEC budget under the shared services funding line item.

	GF	OF	FF	TF	POS	FTE
<b>GB Build - POPS</b>	-	<b>7,408,872</b>	-	<b>7,408,872</b>	<b>23</b>	<b>11.75</b>
102 - Centralized Abuse Management System	-	157,072	-	157,072	1	0.75
205 - Background Check Unit Workload	-	7,251,800	-	7,251,800	22	11.00

**102 Centralized Abuse Management System**

House Bill 4151 requires the state of Oregon and DHS as its agent, to standardize its processes and technology related to abuse of vulnerable adults. Oregon’s current environment for tracking, reporting, analyzing and investigating incidents of adult abuse relies on accessing information from ten (10) distinct systems or data sources. Additionally, local offices have created their own one-off mechanisms for supporting the abuse investigation processes, further complicating and decentralizing information. Existing systems limitations include the inability to search across program populations, inhibiting the ability to track perpetrators and/or victims over time and between populations. This heightens the risk of not capturing all abuse allegations. This POP requests state funds to complete implementation efforts started in the 2015-17 biennium, for an integrated solution which meets HB 4151 criteria and helps protect vulnerable Oregonians. Not funding this POP will limit Oregon’s ability to achieve the capabilities and

efficiencies of the proposed integrated solution. The Other Funds in this request are carryover Q-Bonds sold in spring of 2017 and is a one time request for limitation. The General Fund is the best current estimate of costs of the ongoing operations and maintenance of the new system.

## **205 Background Check Unit Workload**

Steadily increasing numbers of background checks per year and growing complexity of work combined with stagnant or decreased staffing for the Background Check Unit (BCU) over the last few biennia have resulted in mounting backlogs and processing timelines for background checks. Groups for whom BCU completes checks include but are not limited to home care workers, personal support workers, subsidized child care providers, child caring agencies, System of Care and SPRF providers, and staff and volunteers from residential care, nursing, and adult foster home facilities. The staff requested in this policy option package would meet currently required needs to maintain timely background checks for all regulated groups handled by BCU, and meet projected needs due to program growth and new federal and state statutes implementing during the 2017-2019 biennium. The result would be faster background checks to assist regulated Oregon employers in meeting their required staffing levels while maintaining health, safety and financial wellness for vulnerable Oregonians through quality background checks. In addition, Department of Human Services (DHS) has identified a variety of expansion options to current background check criteria for DHS and OHA providers whose fitness determination is completed by the Background Check Unit (BCU). These options would provide more intensive background checks by accessing a variety of DHS, state and federal information regarding health, safety, abuse and fraud not currently utilized. The result would be increased health, safety and financial wellness for vulnerable Oregonians. The BCU has authority to charge fees but does not currently do so. A fee for service model is an option to cover some or all costs of the BCU.

### Reductions:

- Remove General Assistance from financial services (HB4042). - House Bill 4042 funded the General Assistance Project, beginning July 1, 2016. It serves individuals enrolled in the medical assistance program, who have disabilities that meet Presumptive Medicaid disability criteria, and who are experiencing homelessness. The program provides clients up to \$545 per month for housing, up to \$90 per month for utilities, and \$60 per month for personal incidental funds (PIF). Pursuit of Social Security benefits is a

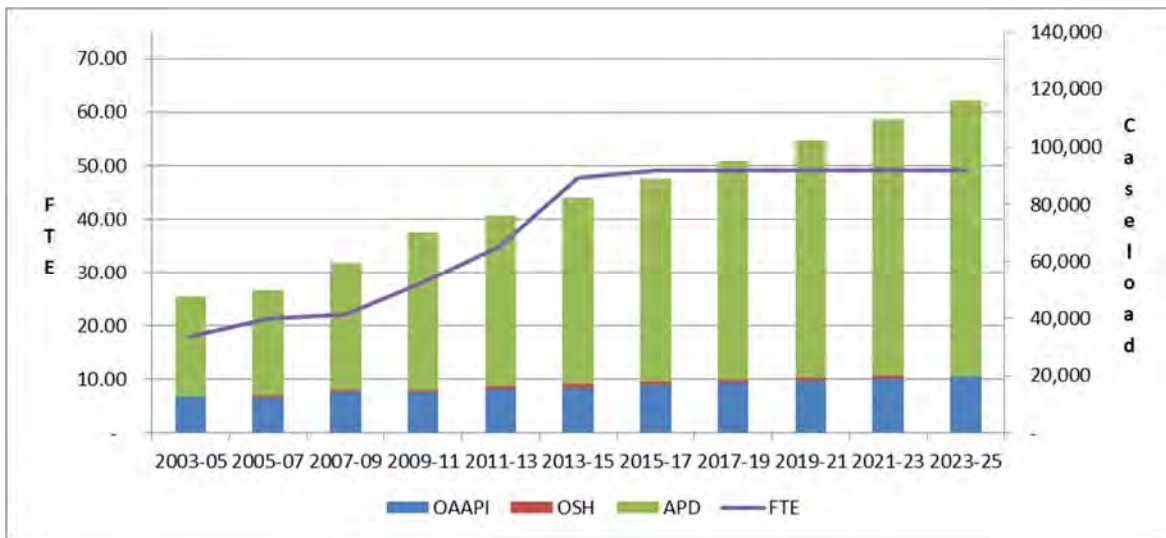

condition of eligibility. Housing payments, utility payments, and PIF expenditures would be recovered from clients' Supplemental Security Income (SSI) lump sum payments when and if benefits are awarded. NOTE: This is the Shared Services portion of the reduction. Please also see APD Delivery for remaining portions. (\$125,194 OF)

# Department of Human Services: Office of Adult Abuse Prevention and Investigations

Primary Long Term Focus Area: Safety  
 Secondary Long Term Focus Area: Healthy People  
 Program Contact: Justin Hopkins, OAAPI Director

**Caseloads by Area of Investigation and Staffing Levels**

*Note: This chart shows caseloads by area of investigation compared to staffing levels, with an almost 68% increase in caseload from FY 05-07 to FY 13-15.*

## **Program Overview**

The Office of Adult Abuse Prevention & Investigations (OAAPI) is a DHS/OHA Shared Service that provides abuse-related services to the Aging & People with Physical Disabilities (APD), Intellectual/Developmental Disabilities Services (I/DD) and Child Welfare (CW) programs at DHS, and the Health Systems Division and the Oregon State Hospital at OHA.

Together with its program partners, OAAPI serves some of Oregon’s most vulnerable individuals, in their own homes or in licensed care facilities. The approximate numbers served include:

- 619,000 older adults and people with physical disabilities;
- 16,300 adults enrolled in Intellectual and Developmental Disabilities (I/DD) programs;
- 57,200 adults receiving Community Mental Health Services or residing in the Oregon State Hospital (OSH); and
- 3,600 children residing in licensed facilities that provide therapeutic treatment, or children enrolled in I/DD services.

OAAPI has a core staff providing specialized abuse-related services statewide. OAAPI’s staff monitors and supports the work of over 250 abuse screeners, investigators, protective service workers and managers around the state who work for many different entities, including state offices, Area Agencies on Aging, and community mental health and developmental disability programs.

In 2015, nearly 43,000 reports of possible abuse or neglect of vulnerable Oregonians were received and screened statewide by OAAPI and its program partners. Of those, 19,041 allegations were assigned for investigation by OAAPI or program staff, to determine if abuse had occurred and to provide protective services to the alleged victim. About 29% of all allegations investigated (5497) were substantiated in 2015.

**Program Funding Request**

OAAPI	GF	OF	FF	TF	POS	FTE

Percent change	0.0%	4.4%	0.0%	4.4%	-3.6%	-1.7%

**Program Description**

OAAPI exists to ensure a prompt, consistent and equitable response to all reports of abuse of vulnerable adults (and children in certain settings) across the state, to provide proactive prevention training and services to vulnerable populations and those who care for them and to help prevent abuse from happening in the first place.

OAAPI works toward these goals by the provision of the following specialized, abuse-related services to its DHS and OHA program partners:

- Data collection and analysis;
- Quality assurance and continuous improvement activities;
- Staff training and development;
- Research and prevention activities;
- Program coordination and technical assistance; and
- Specialized investigation services.

As a Shared Service with a broad view of adult abuse trends across varying populations and settings, OAAPI is uniquely positioned to provide trend data and outcomes to program and agency partners, who use that information to ensure and enhance the safety of their respective client populations.

For example, in 2014 OAAPI published its second financial exploitation study, providing updated and comprehensive statewide data about financial exploitation – currently the most frequently investigated form of abuse in Oregon. The study allowed OAAPI and its partners to better define and explain the cost of abuse, identify regional trends and enhance community engagement efforts, and has been recognized nationally as a pioneering study.

In 2016, OAAPI published its third Annual Report (Calendar Year 2015) which provided abuse data for all the populations served by OAAPI and its partners, as well as a unified view of the serious risks faced by all vulnerable Oregonians.

Reports such as these provide the important link between research and practice, allowing OAAPI and our partners to use actual data to focus our efforts and drive decision-making and program development.

In addition to supporting program staff in the field, OAAPI screens and responds to reports of abuse in state-operated facilities directly. These settings include Children’s 24-Hour Residential Developmental Disability (DD) programs, the Oregon State Hospital, I/DD Stabilization and Crisis Units (SACU) and Secure Residential Treatment Facilities either operated or contracted by the state, as well as Residential Child Caring Programs. In 2015, approximately 3,000 reports of possible abuse were reported in these settings and over 700 were assigned for investigation by OAAPI staff investigators.

To fulfill its mission, OAAPI works closely with other state agencies and offices, such as the Long Term Care Ombudsman and the Background Check Unit, to respond to allegations of abuse as well as to share abuse-related information, as allowed, to further protect vulnerable Oregonians. When residents of licensed facilities are reported to have been abused, OAAPI works closely with the DHS offices that are responsible for licensing and taking corrective action in facilities, to ensure that appropriate steps are taken to protect the alleged victim and to hold perpetrators accountable.

In regard to Community Engagement, OAAPI collaborates actively with community partners, non-profit agencies, stakeholders, advocacy groups, labor groups, providers' organizations and consumers to ensure that the abuse investigation practices and protective service interventions in use around the state are understood and supported by all involved.

OAAPI also conducts regular community outreach to ensure that anyone who may need to report abuse is able to do so. In 2015, OAAPI participated in 31 outreach events at the local, state and national levels, presenting information about recognizing and reporting abuse to a wide range of audiences at events such as the Child Abuse and Family Violence Summit; the Scam Jam events sponsored by AARP, DOJ and DCBS; the OSU Lifelong Learning Institute; and various outreach events scheduled for World Elder Abuse Awareness Day. In addition, OAAPI has recently hired two new bilingual/bicultural staff to help ensure awareness of, and access to, abuse-related services, both directly and through the publication of abuse-related printed materials in Spanish.

OAAPI's program costs are driven by many factors, including the aging of Oregon's population, the increasing demand for services in both community and facility settings, and an increase in the legal, medical and social complexity of abuse cases. Unfortunately, national research shows that elder abuse is vastly under-reported, with only an estimated one in 23.5 cases reported. Financial abuse is one in 44, and neglect one in 57 (Cornell University, 2011<sup>1</sup>). A 2009 study by MetLife reported a "\$2.9 billion dollar annual loss" as a result of elder financial abuse, which is a 12 percent increase from 2008. This is supported by OAAPI's research, which indicates that in 2013 financial exploitation comprised 45 percent of all substantiated abuse in Oregon and resulted in significant financial loss to

---

<sup>1</sup> Testimony by Mark Lachs, Senate Special Committee on Aging, March 2, 2011 Washington, D.C.

Oregon citizens. Ultimately, all of these factors drive up requests for service and lead to increased costs for OAAPI and the programs that OAAPI supports.

### **Program Justification and Link to Focus Areas**

OAAPI is linked to the Outcome goal of Safer, Healthier Communities for all Oregonians, particularly for vulnerable adults and children. Individuals we serve are at the highest risk of abuse or neglect. National research shows that more than half of people with mental illness or developmental disabilities will experience repeated physical or sexual abuse in their lifetime. Older adults who are victims of abuse have been shown to be three times more likely to die in a given time period than their non-abused peers<sup>2</sup>. The goal of Safety is also supported by the use of OAAPI's abuse history information in employment screening, limiting the ability of substantiated perpetrators to actively seek employment with vulnerable populations.

Research shows that:

- Elder abuse victims are four times more likely to go to a nursing home<sup>3</sup>.
- Victims of abuse use healthcare services at higher rates<sup>4</sup>.
- 90 percent of abusers are family members or trusted others<sup>5</sup>.
- Almost one in 10 financial abuse victims will turn to Medicaid as a direct result of their own monies being stolen from them<sup>6</sup>.

Considering the direct link between robust abuse prevention efforts and potential reductions in health care services, Medicaid costs and nursing home placements, a quick and effective response to reports of abuse is not only critical to the wellbeing of vulnerable Oregonians but a wise investment as well.

### **Program Performance**

OAAPI participates actively in the DHS Fundamentals Quarterly Business Review, whereby process and outcome measures are identified, tracked and reported enterprise-wide on a quarterly basis. Current process measures include the timeliness of the initial response to abuse reports, timely completion of investigations and the rate of inconclusive findings. Outcome measures include the

<sup>6</sup> The Utah Cost of Financial Exploitation, March 2011, Utah Division of Aging and Adult Services.

overall abuse rate by population and the rate of re-abuse within one year. These metrics provide transparency and drive continuous improvement efforts across programs.

As an additional measure of accountability, OAAPI also conducts quality assurance and continuous improvement activities to ensure accuracy of statute/rule compliance, provide mandated oversight to local office investigators, identify abuse and performance trends and target training and community education needs.

# of referrals – beside investigations	2003-05	2005-07	2007-09	2009-11	2011-13	2013-15

Number completed	25,444	27,309	27,906	26,901	31,167	33,494

### **Enabling Legislation/Program Authorization**

The Federal Americans with Disabilities Act, Elder Justice Act of 2009, the Older Americans Act, and the Adoption and Safe Families Act all authorize states to protect vulnerable adults and children from abuse and neglect. Oregon statutes further authorize DHS and OHA to provide protection from abuse to certain populations and training for the individuals who conduct abuse investigations. Statutory authorization for investigating abuse of seniors and people with disabilities is found at ORS 124.005 *et seq.* For people with developmental disabilities or mental illness, authorization is at ORS 430.735 *et seq.*, and for children, authorization is at ORS 419b.005 *et seq.*

### **Funding Streams**

As a Shared Service, the services provided by OAAPI staff are paid for by each program under a Service Level Agreement (SLA), which specifies the services to be provided and the method of cost allocation to be used. The services provided by program staff conducting investigations around the state are paid for by their respective programs. OAAPI regularly seeks revenue-supplementing opportunities including grants, and is consulting with our federal partners regarding federal funds that may become available for adult protective services in coming years.

**Funding Justification, Significant Changes to 17-19 CSL**

This does not include statewide reductions.

OAAPI						
	GF	OF	FF	TF	POS	FTE
<b>GB Build - POPS</b>						
102 - Centralized Abuse Management System		156,444		156,444	1	0.75

**102 Centralized Abuse Management System**

House Bill 4151 requires the state of Oregon and DHS as its agent, to standardize its processes and technology related to abuse of vulnerable adults. Oregon’s current environment for tracking, reporting, analyzing and investigating incidents of adult abuse relies on accessing information from ten (10) distinct systems or data sources. Additionally, local offices have created their own one-off mechanisms for supporting the abuse investigation processes, further complicating and decentralizing information. Existing systems limitations include the inability to search across program populations, inhibiting the ability to track perpetrators and/or victims over time and between populations. This heightens the risk of not capturing all abuse allegations. This POP requests state funds to complete implementation efforts started in the 2015-17 biennium, for an integrated solution which meets HB 4151 criteria and helps protect vulnerable Oregonians. Not funding this POP will limit Oregon’s ability to achieve the capabilities and efficiencies of the proposed integrated solution. The Other Funds in this request are carryover Q-Bonds sold in spring of 2017 and is a one-time request for limitation. The General Fund is the best current estimate of costs of the ongoing operations and maintenance of the new system.

The 17-19 GB is 12% higher than the 17-19 CSL, and 4.4% higher than the 15-17 LAB. The increase is due to the addition of one position, as shown in the Policy Option Packages (POPs) described above. The position is added for CAM Project related to HB 4151 requirement. The funding proposal will directly address the Department’s core value of safety, and help the Department come closer to meeting the Legislature’s expectations regarding the safety of Oregon’s older adults and adults with physical and developmental disabilities.

## Department of Human Services: State Assessments and Enterprise-wide Costs

---

<b>Total SAEC GB</b>	<b>227,531,646</b>	<b>37,673,670</b>	<b>196,675,731</b>	<b>461,881,047</b>

Note: There are no positions or FTE in the SAEC budget

### Program Overview

The SAEC budget includes statewide and other enterprise assessments costs such as State Government Service Charges, the State Data Center, rent, computer replacement costs and the cost of DHS/OHA shared services.

### Program Funding Request

SAEC	GF	OF	FF	TF
LAB 15-17	\$ 207,796,036	\$ 38,893,219	\$ 171,527,345	\$ 418,216,600
GB 17-19	\$ 227,531,646	\$ 37,673,670	\$ 196,675,731	\$ 461,881,047
Difference	\$ 19,735,610	\$ (1,219,549)	\$ 25,148,386	\$ 43,664,447
Percent change	9.5%	-3.1%	14.7%	10.4%

### Program Description

DHS has statewide assessments that include DAS charges such as the State Government Service Charge, Risk Assessment and State Data Center Charges.

Rent for all of DHS is in the Facilities budget. This budget includes the computer replacement budget. The Shared Services funding is the revenue for the DHS portion of DHS and OHA shared services. When the agency split, DHS and OHA agreed to share information technology, financial, investigations, and other services to avoid cost increases and permit a greater focus on improving performance and efficiency.

Debt services is to pay off Certificates of Participation or Q-Bond loans taken for major DHS projects. Each service, both shared and assessed, are important for DHS to attain its programmatic outcomes. It is critical to continue to look for efficiencies in our systems, processes or staffing.

This budget also includes the costs of telecommunications, unemployment insurance and limitation for a line of credit from the Treasury Department used for cash flow purposes at the end of the biennium.

### **Program Justification and Link to Focus Areas**

There is a direct link between this program and Excellence in State Government focus area. DHS strives to control major support costs. DHS centrally manages many major costs. Some of these costs, like many DAS charges, are essentially fixed to the agency. Others, like facility rents, are managed centrally to control the costs. DHS also strongly supports and actively participates in statewide efforts to locate work across the enterprise and install performance management systems to perform administrative functions more efficiently and effectively.

### **Program Performance**

DHS is committed to customer-driven shared services. When the agency split, DHS and OHA agreed to maintain many administrative functions as shared services to prevent cost increases, maintain centers of excellence, and preserve standards that help the agencies work together. DHS and OHA govern their shared services through a joint committee composed of operational leaders of the two agencies. This approach ensures that shared services are prioritized and managed to support program needs. The board and its subgroups have established service level agreements and performance measures for each service, moved staff in and out of shared services to rationalize service delivery, and begun implementing more integrated systems to support the performance of all our employees.

DHS pays for services from the Department of Administrative services including general charges and costs of the State Data Center. DHS also actively supports

statewide projects like HRIS and the rent renegotiation project intended to make government more efficient and cost effective.

**Enabling Legislation/Program Authorization**

The authorization for these budgets comes from legislative budget bills each biennium. Spending authority for the agency is a part of the general authority granted to the agency through statute and federal law. General DHS statutes include ORS 409.010, ORS 409.110 and ORS 409.160.

**Funding Streams**

A mix of state general and federal dollars fund the majority of the services provided in SAEC many of the areas are assessed to federal funds through a cost allocation processes.

**Funding Justification, Significant Changes and Comparison to 17-19 CSL**

This does not include statewide reductions. The following policy option packages (POPs) are recommended in the DHS Governor’s Budget above the current service level for SAEC. In some cases these are costs related to program investments costs related to rent or other enterprise-wide costs or assessments that will be billed to the agency through the SAEC budget.

Many of these investments are the funding for shared services program costs from shared services within both DHS and OHA.

The remaining POPs are described in other “bid” forms in the main program area in which the investment is proposed.

	<b>GF</b>	<b>OF</b>	<b>FF</b>	<b>TF</b>
<b>GB Build - POPS</b>	<b>10,625,157</b>	-	<b>1,221,826</b>	<b>11,846,983</b>
102 - Centralized Abuse Management System	157,072	-	-	<b>157,072</b>
201 - Integrated Eligibility	4,349,819	-	-	<b>4,349,819</b>
205 - Background Check Unit Workload	6,118,266	-	1,221,826	<b>7,340,092</b>

Reductions:

- Disallowed Backfill for Federal Grants - This action assumes that there will be sufficient federal funding to cover assumed shortfalls in capped grants. The agency will be reviewing its federal grant balances to determine the

impact of this reduction closer to the close of the 15-17 budget when ending balances are more clear. NOTE: This is the Shared Services portion of the reduction. Please also see other Program Areas for remaining portions. (\$2,770,443 GF)

- Remove General Assistance from financial services (HB4042) - House Bill 4042 funded the General Assistance Project, beginning July 1, 2016. It serves individuals enrolled in the medical assistance program, who have disabilities that meet Presumptive Medicaid disability criteria, and who are experiencing homelessness. The program provides clients up to \$545 per month for housing, up to \$90 per month for utilities, and \$60 per month for personal incidental funds (PIF). Pursuit of Social Security benefits is a condition of eligibility. Housing payments, utility payments, and PIF expenditures would be recovered from clients' Supplemental Security Income (SSI) lump sum payments when and if benefits are awarded. NOTE: This is the Shared Services portion of the reduction. Please also see APD Delivery for remaining portions. (\$62,597 GF)

## Department of Human Services: Program Design Services

---

Primary Long Term Focus Area:  
Secondary Long Term Focus Area:  
Program Contact:

Safer, Healthier Communities  
Excellence in State Government  
Don Erickson

### **Program Overview**

DHS Program Design Services support program design offices by centralizing service that require specialized skills. This allows each office to set uniformly high standards for each of these services and to develop its staff to those standards. It facilitates cross-training of staff in multiple programs, flexibility in supporting program offices when needs change or staff turnover occurs, and research into the combined impact of our services on clients served by more than one program.

#### *Investment in centralized infrastructure*

Based on the process maps developed in the performance management system, DHS restructured into five programs. DHS Program Design Services include the Office of Business Intelligence (OBI), the Office of Information Technology Business Support (ITBS), the Office of Licensing and Regulatory Oversight (OLRO), and the Office of Program Integrity (OPI).

The five programs were given the essential functions to design and implement their programs within the performance management system. DHS then centralized many support services that previously had been performed separately by each program. This was done with the hope of creating efficiencies, assigning clear accountability for the performance of support services, and allowing targeted investments to improve performance. Better support services ultimately improve performance of all DHS employees and our providers. DHS is in the process of evaluating whether centralizing these services achieved the desired results and may modify certain functions based on the outcome of this work.

**Program Funding Request**

<b>PROGRAM DESIGN SERVICES</b>	<b>General Fund</b>	<b>Other Funds</b>	<b>Federal Funds</b>	<b>Total Funds</b>	<b>Positions</b>	<b>FTE</b>

2017 - 19 GB	29,533,510	18,544,023	110,860,021	158,937,554	141	130.87
Difference	10,815,497	10,546,094	49,702,100	71,063,691	(16)	(6.96)
Percent Change	57.78	131.86	81.27	80.87	(10.19)	(5.05)

**Program Description**

**Office of Business Intelligence (OBI)**

OBI maintains a consolidated DHS data warehouse, compiles data reports and conducts research and analysis to determine whether DHS programs are achieving their goals and desired outcomes. OBI specializes in managing data to ensure it is accurate, consistent, and useful to programs in assessing their success and for making decisions to alter their program design. One important part of this role is managing the agency scorecard of outcome and process measures and reporting on legislative Key Performance Indicators. OBI conducts professional research requested by programs to give them a more rigorous foundation for their program design. OBI also provides data for legislative and media requests, and consults and collaborates with researchers in other state agencies and with the Oregon Enterprise Data Analytic unit to ensure DHS data and programs are understood when analyzed.

**Information Technology Business Supports (ITBS)**

ITBS bridges the gaps between Aging and People with Disabilities (APD), Intellectual and Developmentally Disabled (I/DD) program needs and the technology used by each program to deliver services, benefits and assistance. ITBS leads program efforts to develop functional Information Technology (IT) business requirements, perform solution testing, and implement projects and improvement

efforts. ITBS fields over 15,000 technology support calls every year from program clients, providers and partners seeking assistance with a range of complex eligibility, enrollment, payment and access/security challenges. ITBS is focused on the following areas of concern:

- Stable and reliable IT support and operations;
- Consistent, documented testing of application patches and releases;
- Broad knowledge of key benefit programs, concerns and supporting systems;
- Comprehensive Level of Effort (LoE) estimation for proposed business requirements;
- Accurate business analysis for solution enhancement, development and documentation;
- Expert IT project/solution delivery using a consistent, professional methodology; and
- IT user support (Tier 1, 2, 3) for legacy systems:
  - Oregon ACCESS;
  - eXPRS;
  - ASPEN; and
  - Mainframe (CEP, Pay-in, Client Maintenance, Service Eligibility, etc).

### **Office of Licensing and Regulatory Oversight (OLRO)**

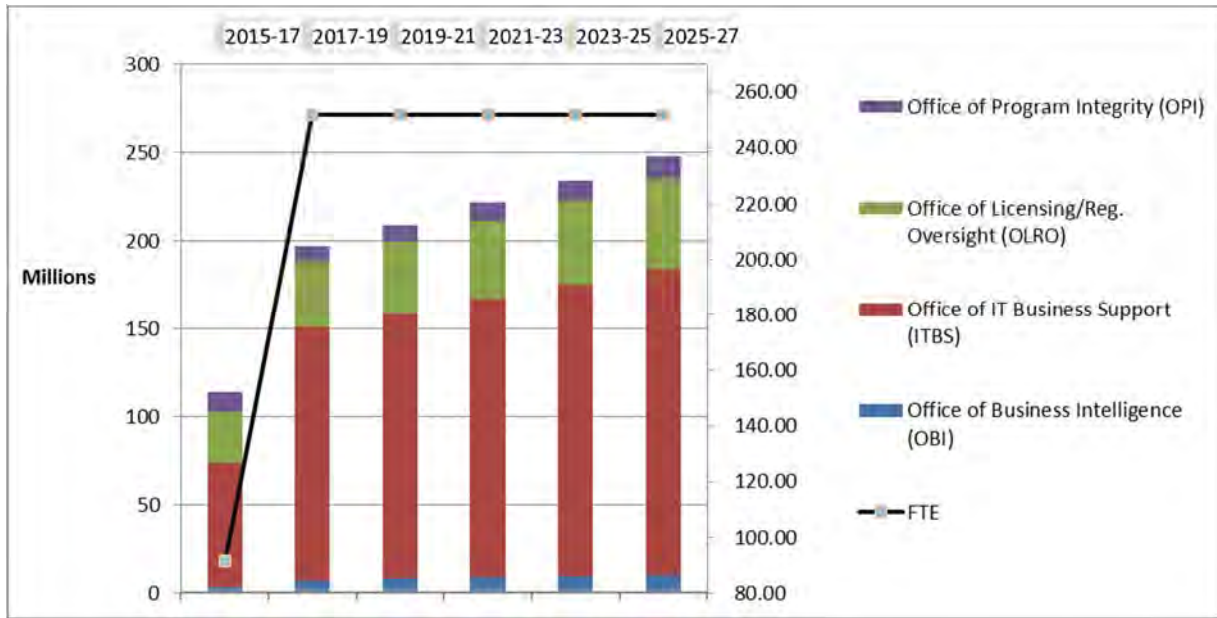

The mission of the Office of Licensing and Regulatory Oversight (OLRO) is to improve the safety, health and quality of care for children and adults served by the Oregon Department of Human Services and others through service providers across the continuum of care.

OLRO provides oversight, investigation of complaints, and reports of potential abuse and corrective action for providers for children, the aging and physically disabled, and people with developmental disabilities served by the Department of Human Services and others. This centralized service is currently under review by DHS as the agency has determined that centralization of the service did not achieved the desired outcomes. The positions will be moved back to program areas during the next “reshoot” of the DHS budget.

## Office of Program Integrity (OPI)

OPI conducts analysis and tests to determine whether DHS is implementing programs in the way they were designed and trains caseworkers based on their findings to improve program integrity. The office conducts operational and case reviews as well as field visits, many mandated by federal law, to determine how accurately each program is making eligibility and other determinations.

### Program Justification and Link to Focus Areas

To become outcome-driven, an agency must:

- Determine the outcomes it wants to achieve;
- Measure the outcomes;
- Design programs to achieve the outcomes;
- Implement the design through business and IT processes; and
- Systematically review whether the processes are being implemented as designed and how well the outcomes are being achieved.

Program Design Services links primarily to the Safer and Healthier Communities Focus Area. Program Design Services employ professionals who specialize in these tasks who help DHS and its programs perform these tasks. OBI specializes in program data used to measure outcomes, including maintaining the agency scorecard, and conducts professional research on the impact of various program designs on achievement of outcomes. OPI determines whether operating units are implementing the program design accurately provides information necessary to

meet federal reporting requirements, as well as provides information necessary for trainers to conduct trainings to close any gaps. ITBS acts as a translator between program staff and IT technical staff to ensure that IT projects more accurately meet business needs. OLRO uses many of these tools to license residential providers who serve clients of DHS and other agency programs as well as private clients.

### **Program Performance**

Program Design Services are concentrating on improving operations of foundational services and covering gaps in services that existed when the services were split. OBI set targets to put all program data into data warehouses, to organize all warehouse data in a format giving program users more access to get data on their own, to automate reports, and to respond more quickly to individual requests. As of March 2016, depending on the program, 88 percent of identified program data was contained in a data warehouse and report automation was at 72 percent. These metrics are generally improving.

OPI and the agency adopted agency-wide metrics to improve accuracy or quality in 12 different program areas. OPI sets targets to complete all accuracy and client service reviews on time and accurately.

OLRO set targets to complete all licensing reviews within federal timelines. Nursing facility reviews, in particular, have been problematic due to the difficulty of recruiting staff, the extensive training and certification required, and the increasing depth of the reviews. OLRO isolated the various factors influencing the ability to complete the reviews, found some techniques to streamline the process and developed a plan to get in compliance.

### **Enabling Legislation/Program Authorization**

ORS 409.010

### **Funding Streams**

- Allocated Costs – Costs benefiting more than one federal or state program are charged to a cost allocation pool. The allocating grant numbers accumulate costs until the monthly cost allocation process is run.
- Direct Charge – Costs benefiting a single federal or state program are charged directly to the grant number representing the program. There is no additional allocation for these costs.
- Monthly Process – The process runs each month based on actual accumulated costs. On a monthly basis, statistics are generated to complete the allocation process. The cost allocation pools are cleared each month by the operation of

the cost allocation process to transfer the costs to the final grant and cost objective.

- Federal Financial Participation (FFP) Calculation – After costs are allocated to final cost objectives, DHS calculates and records the level of Federal Financial Participation for the specific grant.

**Funding Justification and Significant Changes to CSL**

**102 Centralized Abuse Management System**

General Fund	Other Funds	Federal Funds	Total Funds	Positions	FTE
68,192	0	67,966	136,158	1	.58

House Bill 4151 requires the state of Oregon and DHS as its agent, to standardize its processes and technology related to abuse of vulnerable adults. Oregon’s current environment for tracking, reporting, analyzing and investigating incidents of adult abuse relies on accessing information from ten (10) distinct systems or data sources. Additionally, local offices have created their own one-off mechanisms for supporting the abuse investigation processes, further complicating and decentralizing information. Existing systems limitations include the inability to search across program populations, inhibiting the ability to track perpetrators and/or victims over time and between populations. This heightens the risk of not capturing all abuse allegations. This POP requests state funds to complete implementation efforts started in the 2015-17 biennium, for an integrated solution which meets HB 4151 criteria and helps protect vulnerable Oregonians. Not funding this POP will limit Oregon’s ability to achieve the capabilities and efficiencies of the proposed integrated solution. The Other Funds in this request are carryover Q-Bonds sold in spring of 2017 and is a one-time request for limitation. The General Fund is the best current estimate of costs of the ongoing operations and maintenance of the new system (corresponding Bid Form noted in APD).

**116 Nursing Facility Complaint Investigations**

General Fund	Other Funds	Federal Funds	Total Funds	Positions	FTE
253,993	-	1,519,145	1,773,138	8	7.04

Federal requirements specify that nursing facility complaints and self-reported incidents (when necessary) be investigated by federally trained and certified nursing home surveyors. Currently in Oregon, federally qualified nursing facility surveyors investigate approximately one-third of all nursing facility abuse complaints and self-reported incidents and Adult Protective Services investigates the remaining complaints/self-reported incidents. APS workers are not certified by CMS to perform this work. This POP is necessary in order to transition complaints currently investigated by APS, to the nursing facility survey unit (state survey agency) or to a regional field model with federally qualified surveyors. This POP also includes staff necessary to assume many non-abuse complaints that are currently not being investigated.

**201 Integrated Eligibility Project**

General Fund	Other Funds	Federal Funds	Total Funds	Positions	FTE
7,609,969	18,275,000	101,794,707	127,679,676	38	28.29

DHS is seeking legislative approval for a project that would transfer human service eligibility determination functionality from Kentucky to add to the new integrated OregONEligibility system (Debt Service is noted on the SAEC Bid form). This will impact eligibility for Non-MAGI Medicaid, ERDC, SNAP and TANF programs.

# Department of Human Services: Office of Licensing and Regulatory Oversight

---

Primary Outcome Area: Safer and Healthier Communities  
Secondary Outcome Area:  
Program Contact: Tom Van der Veen

## Licensing Oversight: Number of Facilities and Staff that Regulate Them

*Note: The number of facilities requiring licensure by DHS has grown significantly while the FTE for staff responsible for oversight of these facilities has not kept pace.*

### Program Overview

The mission of the Office of Licensing and Regulatory Oversight (OLRO) is to improve the safety, health and quality of care for children and adults served by the Oregon Department of Human Services and others through service providers across the continuum of care.

OLRO provides oversight, investigation of complaints, and reports of potential abuse and corrective action for providers for children, the aging and physically disabled, and people with developmental disabilities served by the Department of Human Services and others.

## **Program Funding Request**

<b>OFFICE OF LICENSING AND REGULATORY OVERSIGHT</b>	<b>General Fund</b>	<b>Other Funds</b>	<b>Federal Funds</b>	<b>Total Funds</b>	<b>Positions</b>	<b>FTE</b>

Percent Change	-86.82	-65.17	-93.84	-90.80	-92.04	-92.03

### **Program Description**

In the past, OLRO has been responsible for the licensing, certification, regulatory and corrective action functions for Aging and People with Disabilities, Child Welfare and the Developmental Disabilities programs. This includes adult foster homes for individuals with developmental disabilities and for the aged and physically disabled, 24-hour residential programs, assisted living facilities, residential care facilities, nursing homes, supported living programs, proctor care for agencies for children, brokerages, provider organizations, employment and alternatives to employment programs, outdoor youth programs, day treatment facilities, adoption agencies, homeless/runaway/transition shelters, foster care agencies, therapeutic boarding schools, academic boarding schools and residential care facilities for children with behavioral, emotional and mental health conditions.

Licensing staff are closely connected to the Office of Adult Abuse Prevention and Investigation (OAAPI). OAAPI conducts investigations and provides protective services in response to reported abuse and neglect of seniors and people with disabilities, and children receiving care from certain licensed provider. When OAAPI conducts an investigation and finds health or safety issues – whether the OAAPI investigation into abuse or neglect is substantiated or not – licensing staff are brought in to determine whether a licensing violation has occurred.

Performed

**Program Justification and Link to Focus Area**

Program Design Services links to the Safer, Healthier Communities focus area. The performance of licensing staff is directly related to the safety of vulnerable Oregonians who find themselves in need of care in a supervised 24-hour living environment. These Oregonians are often unable to protect themselves and they deserve to be free from abuse and neglect by service providers, and free from facilities that engage in practices that are detrimental to their safety and health. Through the timely, thorough and effective oversight of care facilities and homes for children, the elderly and the disabled, licensing staff provide some assurance that conditions exist within these facilities and homes that provide the highest likelihood of safety and quality care. The licensing and certification regulations that are in place are intended to educate providers of required safe practices, prevent unsafe conditions from being perpetuated, and mitigate risk to vulnerable children and adults in care through regular oversight to insure that the regulations are being upheld.

## **Program Performance**

The Department currently measures the timeliness of facility surveys conducted by each individual licensing program. The Department also utilizes several methods of oversight including:

- Initial Licenses
- Renewal/Site Visits
- Corrective Actions
- Civil Money Penalties
- Suspension/Sanction/Revocation
- Investigate Complaints

## **Enabling Legislation/Program Authorization**

Licensure of Nursing Facilities in Oregon is mandated via ORS 441.015 (et seq) “Licensing and Supervision of Facilities and Organizations” and Medicaid Certification via Social Security Act, Title XIX, Sec 1819(g) - “Survey and Certification Process,” “State and Federal Responsibility” Medicare Certification via Social Security Act, Title XIX, Sec 1919(g).

Licensure of Assisted Living Facilities and Residential Facilities is mandated via ORS 443.455 “Residential Facilities and Homes” And Memory Care Endorsement within these facilities is mandated via ORS 443.886 “Alzheimer’s Disease” “Special endorsement required; standards; fees; rules.”

Licensure of Adult Foster Homes for Adults who are Older or Adults with Physical Disabilities is mandated via ORS 443.705 through 443.825.

Licensure of Children’s Care Agency facilities is mandated via ORS 418.205 through 418.327 and ORS 418.990 through 418.998.

Certification of Homes for Children with Developmental Disabilities is mandated via ORS 443.830 and 443.835. Licensure of Adult Foster Homes for Persons with Developmental Disabilities is mandated via ORS 443.705-443.825. Licensure of 24-hour Residential Programs for Children and Adults with Developmental Disabilities is mandated via ORS 443.400-443.455.

Endorsement of Employment Services for Individuals with Developmental Disabilities is mandated via ORS 427.007, 430.610, 430.662-430.670.

Endorsement of Supported Living Programs for Adults with Developmental Disabilities is mandated via ORS 430.610, 430.662 and 430.670. Endorsement of Community Living Services is mandated via ORS 417.340-417.355, 427.005, 427.007, 430.610, 460.620, and 460.662-430.695.

Agency Certification and Endorsement to Provide Developmental Disabilities Services in Community-Based Settings is mandated via ORS 427.005, 427.007, 430.610, 430.620, and 430.662-430.695.

**Funding Streams**

This program and its accompanying positions are funded with a mix of state funding, General Fund and Federal Funding from the following federal grants: Title XIX Medicaid at the Program Rate, Title XIX Medicaid at the Administrative Rate, and Title IV-E.

**Funding Justification, Significant Changes to CSL**

<b>OFFICE OF LICENSING AND REGULATORY OVERSIGHT</b>	<b>General Fund</b>	<b>Other Funds</b>	<b>Federal Funds</b>	<b>Total Funds</b>	<b>Positions</b>	<b>FTE</b>
2015 - 17 LAB	12,650,957	10,056	16,607,476	29,268,489	113	112.87
2017 - 19 GB	1,667,114	3,503	1,022,745	2,693,362	9	9.00
Difference	(10,983,843)	(6,553)	(15,584,731)	(26,575,127)	(104)	(103.87)
Percent Change	-86.82	-65.17	-93.84	-90.80	-92.04	-92.03

**116 Nursing Facility Complaint Investigations**

<b>General Fund</b>	<b>Other Funds</b>	<b>Federal Funds</b>	<b>Total Funds</b>	<b>Positions</b>	<b>FTE</b>
253,993	-	1,519,145	1,773,138	8.00	7.04

Federal requirements specify that nursing facility complaints and self-reported incidents (when necessary) be investigated by federally trained and certified nursing home surveyors. Currently in Oregon, federally qualified nursing facility surveyors investigate approximately one-third of all nursing facility abuse complaints and self-reported incidents and Adult Protective Services investigates the remaining complaints/self-reported incidents. APS workers are not certified by CMS to perform this work. This POP is necessary in order to transition complaints currently investigated by APS, to the nursing facility survey unit (state survey agency) or to a regional field model with federally qualified surveyors. This POP

also includes staff necessary to assume many non-abuse complaints that are currently not being investigated.

In late 2015, the Department began making specific, targeted organizational changes to increase clarity and safety for consumers, and to enhance the connections between licensing staff and DHS programs and providers. In 2016, OLRO began a multi-phase process to restructure licensing functions within DHS to better ensure the safety of the vulnerable children and adults it serves. The reorganization of OLRO calls for integrating licensing functions into the program divisions whose directors have ultimate accountability for licensing decisions: Aging and People with Disabilities, Child Welfare or Developmental Disabilities. The integration is likely to continue through the 2017-19 biennium.

OLRO functions are being integrated into program divisions as follows:

<b>From OLRO</b>	<b>To Program Division</b>	<b>Licensing Function Description</b>
Adult Foster Homes	APD	Works with 1,900 homes for Aging and Physically Disabled. These are licensed through APD with technical assistance, corrective action and licensure policy development occurring in the Office of Licensing and Certification.
Nursing Facilities	APD	Works with 139 Licensed Nursing Facilities where licensure is achieved and maintained, in part, through annual on-site review by teams of trained Client Care Monitoring Surveyors using a rigorous oversight, monitoring and corrective action process that is prescribed by the Centers for Medicare and Medicaid Services and Oregon statute and rule. On-site visits are conducted to ensure the safety and well-being of the approximate 5,000 most medically compromised and vulnerable elderly residents served in these facilities. Currently 42 FTE (majority federally funded) are employed to survey all Nursing Facilities on the federally mandated survey schedule. Surveyors are also charged with the investigation of allegations of rule violation, including abuse and neglect.

Residential Care and Assisted Living	APD	<p>Works with 516 Assisted Living Facilities and Residential Care Facilities where licensure is achieved through on-site surveys conducted every two years. These facilities provide 24-hour care and services to elderly and disabled residents. This is the fastest growing level of care within the continuum for seniors and is anticipated to continue to expand within the service delivery system in the years to come. There is currently a capacity for over 23,000 Oregonians who may reside at this level of care, representing the largest population of Oregon's elderly citizens. The purpose of on-site visits is to ensure the safety and well-being of the vulnerable population served in these facilities. There are 15 surveyors that conduct on-site surveys in an industry that continues to increase in capacity each year while the number of FTE allocated for surveyors remains stagnate. There are eight FTE responsible for providing technical assistance to providers, consumers and local office staff. They also apply civil money penalties, sanctions and interventions to facilities that fail to provide adequate care and supervision. Industry growth exceeds our ability to provide adequate staff resource to do risk mitigation for the residents in these care settings.</p>
Homes and Facilities for children and adults with developmental disabilities	DD	<p>Works with 1,929 homes and facilities serving approximately 6,500 children and adults with developmental disabilities where licensure is achieved through reviews. This includes on-site licensing/certification visits, monitoring and corrective action. The Developmental Disabilities Licensing Unit is responsible for the oversight of a variety of facility and program types. The regulatory activity occurs every year for Adult Foster Homes; every two years for 24-Hour Residential Programs and Child Foster Homes; and every five years for Supported Living Programs, Employment and</p>

		<p>Alternatives to Employment programs, Proctor Care agencies for children, Supported Living Program, Brokerages, and Provider Organizations. Adult foster homes and residential facilities for children with Developmental Disabilities are licensed and certified by nine client care surveyors within this office.</p>
<p>Private Child Caring Agencies</p>	TBD	<p>Works with 240 Private Child Caring Agency facilities and programs with a capacity to serve approximately 10,000 children. Licensure is achieved through regulatory reviews every two years. This includes on-site surveying, monitoring and corrective action. Children’s Care Licensing Programs are statutorily mandated to oversee a variety of facility and program types, some of which are funded through Federal and State funding streams and others which are private. This includes the Oregon Youth Authority, the Oregon Health Authority and county juvenile departments. Currently this work is done by two Licensing Coordinators. This licensing unit is only able to respond to wrong-doing that has already occurred and is unable to mitigate risk to children through proactive efforts with provider agencies.</p>
<p>Business, Innovation and Resource Unit</p>	APD	<p>Identifies systemic failures and gaps regarding the Department’s regulatory responsibilities. Prioritizes and supports systemic improvements regarding regulatory functions within and across program areas. Tests, monitors and reports the effectiveness and quality of statutorily authorized mechanisms to achieve safety, health and independence for people in DHS-regulated settings. Establishes and maintains best practices in regulation across all programs in the Department.</p>

To ensure and improve collaboration and communication across licensing functions and programs, the DHS Director’s Office established a Department-wide

Licensing and Safety Review process in November 2015. The Licensing and Safety Review created a cross-program forum to elevate and problem-solve issues with licensed providers the Department has safety, licensing or financial concerns about. The Licensing and Safety Review touches multiple business lines within DHS and outside the Department. At times, it may include the Oregon Health Authority, Oregon Youth Authority or other state agencies. OLRO staff have participated in the process and will continue to do so following their transition into program divisions.

## **Department of Human Services**

### **Self Sufficiency Program**

---

#### ***Mission***

To provide a safety net, family stability and a connection to careers that guide Oregonians out of poverty.

#### ***Program***

The Self-Sufficiency Program (SSP) is designed to provide low-income Oregonians with services to create stability and prepare participants for employment so they are equipped to work their way out of poverty. The programs emphasize the safety and healthy development of children, and often serve to prevent abuse or neglect that may lead to out-of-home placement in the more expensive foster care program.

Oregonians access SSP services when they are in need and have no other alternatives. SSP participants access services through a network of local offices in every county.

SSP works to achieve its mission by focusing its efforts on five foundational operating principles:

- Family engagement;
- Economic stability;
- Collective impact;
- Integrity and stewardship; and
- Professional Development.

The services offered through SSP are:

- Employment Related Day Care (ERDC)
- Supplemental Nutritional Assistance Program (SNAP)
- Temporary Assistance for Needy Families (TANF)
- TANF-related programs such as the Job Opportunity and Basic Skills (JOBS) program and Family Support and Connections (FS&C)
- Temporary Assistance for Domestic Violence Survivors (TA-DVS)
- Refugee Program
- Youth Services Program
- Program Design and Delivery

Challenges from the Great Recession linger, and SSP caseloads continue to be higher than they were prior to the recession. Many SSP participants are working but have lower wages or fewer hours than they did prior to the recession and don't earn enough to make ends meet on their own. There continues to be an uneven distribution of poverty based on factors such as geography, race/ethnicity, and age. In Oregon, poverty rates in rural counties tend to be higher than urban areas.

## **Services**

### **Employment Related Day Care program (ERDC)**

ERDC helps low-income, working families arrange and pay for quality child care. The program provides low-income families with the same opportunity for reliable, quality child care as other families with higher incomes.

ERDC helps parents gain self-sufficiency by assisting with the consistent, stable child care parents need to maintain employment. It also contributes to the school readiness of children and supports children with special needs, as well as offering resources to support providers who come from diverse cultural backgrounds.

Providers are required to meet a set of health and safety standards, and pass required background checks before they can become DHS providers and receive payment. In addition, all license-exempt providers are required to take an online health and safety training. License exempt providers who are not related to a child in their care, must take additional pre-service trainings and pass a monitoring visit by the Early Learning Divisions, Office of Child Care.

### **Supplemental Nutrition Assistance Program (SNAP)**

SNAP is a federally funded benefit program to help low-income individuals and families buy food to meet their nutritional needs. Benefits to participants are 100 percent federally funded; however, the administration of the program requires a 50 percent state match. Approximately one in five Oregonians receive food assistance through SNAP.

SNAP is an important and constantly growing anti-poverty program. Recent research has shown that SNAP benefits reduce the depth and severity of poverty, and have a particularly strong effect on reducing child poverty.

Self-Sufficiency offices across the state serve the majority of the SNAP population. The balance of the population includes elderly persons (60 and older)

plus persons with disabilities who require services. They are assisted by Aging and People with Disabilities (APD) Program offices and their contracted agencies: Area Agencies on Aging, Disability Services Offices and Councils of Government.

States administering SNAP are federally required to offer a limited companion employment and training program. Oregon serves voluntary SNAP clients in one of the following programs: Oregon Food Stamp Employment and Training (OFSET) Program, The Able-Bodied Adults Without Dependents (ABAWD) Program, or the 50/50 Employment and Training Program.

Food and Nutrition Service (FNS) within the United States Department of Agriculture regulates SNAP. Although federal regulations do allow a few options, any significant variation from the regulations must be approved by FNS through a formal process.

### **Commodities Supplemental Food Program (CSFP)**

The CSFP Program provides a prescribed nutritious commodity package to help meet the needs of low-income elderly persons (aged 60 or older) in Oregon. Through local agencies, each participant receives a monthly package of commodities. Food packages include canned fruits and vegetables, canned meat, poultry and other protein items, and grain products such as pasta, as well as other foods. While CSFP food packages do not provide a complete diet, they are good sources of the nutrients typically lacking in the diets of the target population. Participants in CSFP are also offered the opportunity to receive nutrition education instruction and information.

### **The Emergency Food Assistance Program (TEFAP)**

TEFAP is a federal program that helps supplement the diets of low-income Oregonians by providing them with emergency food and nutrition assistance at no cost. The amount of food Oregon receives is based on the number of unemployed persons and the number of people with incomes below the federal poverty level. The State of Oregon provides USDA commodities, as well as administrative funds, to the Oregon Food Bank (OFB) who is the State Distributing Agency. The OFB works with a cooperative network of regional food banks, partner agencies, and programs to distribute emergency food to hungry families.

### **Temporary Assistance for Needy Families (TANF)**

TANF is a collection of programs directed at improving the lives of very low-income Oregon families with children. It is a critical safety net program for

families with children living in extreme poverty and helps families from a variety of diverse backgrounds to address their most basic needs. TANF provides eligible families with cash assistance, connections to support and community resources, case management, and employment and training services.

Safety net programs are usually the last step for families with few or no resources left, and any assistance can have an immediate impact on their health, safety and well-being. These families typically use TANF funds to prevent homelessness and to help with other factors contributing to family instability. The goal of the program is to help families address barriers, gain skills and access employment opportunities to become self-sufficient.

### **TANF-Related Programs**

- **Job Opportunity and Basic Skills (JOBS) Program:** Most adults must meet additional requirements to receive TANF services. A TANF family may participate in the JOBS program and access a variety of other programs and services as part of the plan to move a participant towards self-sufficiency. The JOBS Program provides employment and skill-building services to individuals of families receiving TANF assistance. Individuals participate in JOBS to gain skills necessary to join the workforce and retain employment.
- **Family Support and Connections:** Family Support and Connections provides supports to prevent children in the TANF program from entering the child welfare system. Home visiting and community-based services are some of the interventions used to build on family strengths and address family functioning issues.

### **Temporary Assistance to Domestic Violence Survivors (TA-DVS)**

TA-DVS provides temporary financial assistance and support services to families with children affected by domestic violence during crisis or emergent situations when other resources are not available. TA-DVS is used to help the domestic violence survivor and their children address their safety concerns and stabilize their living situation, which reduces the likelihood of the survivor returning to the abuser. These services maintain the safety of these vulnerable children and their parents, and can prevent life-threatening situations. They also help prevent child abuse and the need for child welfare intervention.

## **Refugee Program**

The Refugee Program serves individuals and families who fled persecution in their country of origin and were legally admitted for resettlement by the United States government. The program helps refugees and people who have been granted asylum successfully resettle in this country by providing financial, employment-related and acculturation services. The program guides refugees into self-sufficiency through employment as early as possible. The program serves only those persons in immigration categories approved by the Federal Office of Refugee Resettlement (ORR).

## **Youth Services Program**

The Youth Services Program is an age-appropriate, medically accurate, sexual health education program. This service supports community prevention efforts to help families break the generational connection to public assistance. The Youth Services Program expands on the historical teen pregnancy prevention program to provide education and tools for youth to resist multiple risk-taking behaviors. DHS partners with the Oregon Department of Education and the My Future - My Choice Advisory Committee to develop and implement the program.

## **Program Design and Delivery**

Program Design and Delivery provides program design, personnel and service delivery in addition to oversight, planning, reporting, implementation, training, eligibility and benefit issuance for SSP.

Staff at state and local levels also coordinate closely with other DHS programs, including Child Welfare, with the goal of working with families to increase their stability and prevent Child Welfare involvement. This collaboration helps to support safety by ensuring children are cared for regardless of the system of service.

SSP also collaborates with other agencies and statewide initiatives, including the alignment and improvement of the state's workforce system. This effort, supported by the Governor, is to ensure that service delivery and outcomes are improved for both employer and job seeker. Other collaborations have been built around domestic violence, housing, addictions and mental health treatment, vocational rehabilitation, health care and education.

# Department of Human Services: Temporary Assistance for Needy Families – Cash Assistance

Primary Long Term Focus Area: Safer, Healthier Communities  
 Secondary Long Term Focus Area: Excellence in State Government  
 Program Contact: Belit Burke

## Program Overview

Temporary Assistance for Needy Families (TANF) is a critical safety net program for families with children living in extreme poverty. TANF helps families, including more than 43,000 children, from a variety of diverse backgrounds to address their most basic needs. TANF provides eligible families with cash assistance, connections to support and community resources, case management, and employment and training services. The goal of the program is to engage families in becoming self-sufficient by helping them address challenges, gain skills, and access employment opportunities.

## **Program Funding Request**

Percent change	44.0%	0.0%	-12.7%	4.4%

### **Program Description**

TANF is a collection of programs directed at improving the lives of very low-income Oregon families with children. Our overall TANF program provides immediate cash assistance at a point when families have exhausted all other resources. We also provide employment and training services, linkages to services in the community and short-term interventions, such as support to strengthen parenting skills or the healthy development of children.

Most parents and caretaker relatives must meet additional requirements to continue receiving TANF services, such as participating in the Job Opportunity and Basic Skills (JOBS) program. These individuals participate in JOBS to gain the skills necessary to join the workforce and retain employment. A TANF family may participate in the JOBS program and access a variety of programs and services as part of the plan to move towards self-sufficiency.

To qualify for TANF, a family of three must be below 31 percent of the Federal Poverty Limit (FPL). This means the family's income cannot be more than \$616 per month. Currently the maximum monthly benefit for a family of three is \$506 (approximately 25 percent of FPL). There is a 60-month time limit for adults to receive TANF.

The TANF program serves a diverse population with a wide range of abilities and challenges. Ninety-five percent of TANF recipients have no current earnings and about 60 percent of TANF households have a person with a disability. 81 percent of families are paying for housing without any assistance from a federal housing program or other subsidy. Culturally appropriate eligibility and case management services are provided in numerous languages on a continual basis. They include but are not limited to Spanish, Russian, Vietnamese, Somali, Bosnian, Mandarin, etc. In situations where the office does not have staff to provide specific language services, interpreters are available.

Young children make up a large number of those served within TANF. Approximately 46 percent of all children in TANF are 0-6 years old. In about 25 percent of TANF households, the adults receive assistance for the children but not for themselves. In these households, many have an adult who is disabled and receives Social Security benefits or a caretaker relative, such as an aunt, uncle or grandparent, who is caring for the children. Many of these families have unique needs in both providing basic support for children and in navigating resources that can help them provide a stable, safe home environment.

The State Family Pre-SSI/SSDI (SFPSS) Program is designed to assist TANF-eligible individuals with disabilities obtain Social Security disability benefits through the Supplemental Security Income (SSI) and Social Security Disability Insurance (SSDI) programs. The program serves individuals who are not required to participate in the JOBS program. The program provides families with a cash grant, professional assistance with Social Security Administration (SSA) applications and appeals as well as case management services. Once a client is awarded SSI benefits, the department recovers a portion of the payments it made to the family during the application process from the client's initial SSI lump-sum payment.

Recent investments in TANF have brought about additional supports to help families transition off TANF and into employment leading to financial independence. These changes include:

- An increased exit limit – the new exit limit is double the payment standard allowing families to begin earning money before losing the supports provided through the TANF program. For a family of three, the limit goes from \$616 to \$1,012 per month.
- Employment payments for families exiting TANF with earnings. The payments total \$225 and are paid out over three months and provide an additional financial incentive as TANF benefits come to an end.
- A reduced Employment Related Day Care (ERDC) co-pay of \$27 a month for the first three months after a family exits TANF due to employment allows the family to transition into the full cost of child care.

### **Program Justification and Link to Focus Areas**

The TANF and Pre-SSI/SSDI cash assistance programs are key safety net programs that help provide assistance to the most vulnerable of Oregonians and relate to the safer, healthier communities focus. Without TANF cash assistance, more families would be homeless, which makes finding and maintaining employment extremely difficult. Being in a constant state of crisis can negatively impact children, including their ability to attend school and make progress in their learning. The program works with families to identify a pathway to self-reliance and a reduction in poverty. Providing the cash assistance along with skill development and job placement helps families to meet their basic needs while striving to move forward. Meeting the basic needs of families along with preparing them to be job-ready, or to receive disability benefits, creates safer and healthier communities.

The TANF program has reinvested funds into efforts that maximize the dollars for benefits targeted at building participant progression in work related activities, identifying and building on skills and leveraging community collaborations to provide solid foundations that lead not only to employment placement but retention and advancement.

### **Program Performance**

TANF Children, Adults and Cases - January 2005 to September 2016

In September 2016, the TANF and Pre-SSI/SSDI programs served 24,253 families. These households included 43,108 children and 24,253 adults from a diverse range of abilities, cultures and communities.

TANF cash assistance expenditures increased since the onset of the economic recession but are slowly decreasing as the caseload drops. The program was strained during the recession and the immediate aftermath due to a high caseload and insufficient resources, including case management staff. With the support of the Governor and the Oregon Legislature, the Department repurposed a portion of Human Service Specialist 3 positions into case management positions. By July 2014, the level of case management staffing shifted from 35 percent of need to 59 percent of need. As of the spring 2015 forecast, we were at 78% of need for the 2015-2017 Biennium. We will be able to maintain 78% percent of need through the 2017-2019 biennium, even with anticipated changes in workload and 41 more Family Coaches (case managers). The case management resources are critical for improving outcomes of engaging clients in plans to achieve self-reliance, increase family stability, maintain federal participation rates, and achieve enhanced employment placements.

### **Enabling Legislation/Program Authorization**

The TANF program is authorized under Title IV-A of the Social Security Act, as amended by the Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (PRWORA), and the Deficit Reduction Act of 2005. A significant portion of the TANF eligibility criteria is codified in state statute chapters 411 and 412.

### **Funding Streams**

TANF is funded primarily through General Fund dollars and the TANF Federal block grant that requires a minimum state expenditure level, known as Maintenance of Effort (MOE). Oregon's TANF block grant is \$166.8 million per year. Oregon's MOE requirement is equal to 80 percent of the state's historic expenditures or approximately \$98 million per year. Expenditures counted towards MOE must not be from a federal source and must not be matched to other federal funds. Oregon generally meets MOE through a combination of eligible DHS and other agency expenditures.

Both the TANF federal block grant and MOE expenditures must be spent in a manner reasonably calculated to meet one of the four federally-mandated TANF purposes which are: 1) provide assistance to needy families; 2) end dependence of needy parents by promoting job preparation, work and marriage; 3) prevent and reduce out-of-wedlock pregnancies, and 4) encourage and maintain family formations.

While TANF benefits for most single-parent families are funded with a split of TANF Federal block grant funds and General Fund dollars counted towards Oregon's MOE requirement, TANF benefits for two-parent families are funded solely with General Fund dollars that are not counted towards Oregon's TANF MOE requirement. In addition, the State Family Pre-SSI/SSDI (SFP) program is funded with General Fund dollars not counted towards Oregon's MOE requirement. The Department recovers a portion of SFP funds expended through client reimbursements.

**Funding Justification, and Significant Changes to 17-19 CSL:**

This does not include statewide reductions.

The TANF Program is funded at Current Service Level to include the following:

- TANF Contingency Funds GF Backfill \$24,000,000
- TANF Re-Investment Program Phase in: \$10,712,043

# Department of Human Services: Job Opportunity and Basic Skills – Temporary Assistance for Needy Families

Primary Long Term Focus Area: A Thriving Oregon Economy  
 Secondary Long Term Focus Area: Safer, Healthier Communities  
 Program Contact: Belit Burke

## Program Overview

The Job Opportunity and Basic Skills (JOBS) program is an employment and training program for those receiving Temporary Assistance for Needy Families (TANF) cash benefits. The goal is to help adults, caretaker relatives, and minor parents in TANF families gain the skills needed to become self-sufficient through employment, training and education, as well as family stability-related services that address other obstacles to employment.

Those who access TANF are extremely poor families with children who represent an increasingly diverse population. Most parents or caretakers in these families are required to participate in the JOBS program to maintain their eligibility for cash assistance. They can face sanctions that include losing benefits if they do not

participate. Job preparation services are provided through the DHS field offices and a network of contracted JOBS program providers in every county.

For the period July 1, 2015 through June 30, 2016 (FY 2016), the average monthly number of TANF families receiving cash assistance was 24,420. The average monthly number of individuals required to participate in JOBS activities was 15,117, which relates to 62 percent of TANF families.

**Program Funding Request**

<b>JOBS</b>	<b>GF</b>	<b>OF</b>	<b>FF</b>	<b>TF</b>
LAB 15-17	\$ 42,203,407	\$ 184,320	\$ 36,950,298	\$ 79,338,025
GB 17-19	\$ 44,747,215	\$ 184,320	\$ 36,958,972	\$ 81,890,507
Difference	\$ 2,543,808	\$ -	\$ 8,674	\$ 2,552,482
Percent change	6.0%	0.0%	0.0%	3.2%

**Program Description**

DHS family coaches work with TANF families to develop individualized case plans to achieve self-sufficiency, provide supports and monitor progress in achieving family goals. These plans guide what JOBS activities the participant will engage in and outline any needs for support services, such as transportation and child care. The department coordinates with several organizations to deliver services.

The JOBS program provides an array of employment and training services which include: job preparation and training, work experience, subsidized employment, job placement services, and limited education services to eligible families.

DHS administers the JOBS program through an extensive, statewide network of community partners that help deliver services. Partners include contracted JOBS service providers, Workforce Innovation and Opportunity Act (WIOA) agencies, community colleges, the Oregon Employment Department, Work Source Oregon One-Stop offices, and many local and county-based organizations, including those that can provide services for a culturally diverse clientele. Services are delivered at partner locations and some are available on-site at local DHS offices.

JOBS also offers a Job Participation Incentive (JPI) food benefit to Supplemental Nutrition Assistance Program (SNAP) participants with dependent children who meet the TANF federal work participation rate by working in unsubsidized employment.

Since 2008, the program's capacity has been severely limited through a combination of factors: A high caseload, low staffing levels for case managers, and a struggling economy that triggered severe state program budget cuts and a lack of jobs to transition clients into. The economy impacted the JOBS program services offerings and the number of participants that can be served at any one time. The program's low capacity impacted the state's ability to meet federal work participation requirements. In general, 50 percent of work-eligible adults in the TANF program are required to participate in work preparation activities.

In July 2011, the JOBS program was cut by more than 50 percent, which caused cuts in the program's service offerings and its capacity to serve eligible participants. Approximately 75 percent of contractor staffing was eliminated, greatly impacting the program's capacity to serve those needing to participate in an activity, and the department struggled to meet federal participation requirements for TANF. Reductions made during subsequent legislative sessions made it difficult to maintain elements of the redesign, and funding cuts greatly reduced the program's ability to help parents or caretaker relatives participate in skill-building activities and find work. Effective July 2013, flexibility was afforded the program to add back activities that had been eliminated during the previous biennium; however, it remains difficult with the continued reduced level of base JOBS funding. The JOBS program need remains higher than budgeted as well as the related need for support services such as child care assistance and transportation to get to and from self-sufficiency and employment activities.

Oregon was not compliant in 2007 because the State Legislature was not in session when the federal government established the work participation requirement; preventing Oregon from making a statute change needed to re-design the TANF program in time to meet the requirement. In the subsequent years the program has not met participation targets due to the economic conditions and reduced program resources.

The state had until September 30, 2014 to correct its participation rate violations in order to avoid up to \$19.2 million in penalties for FY 2008 and FY 2009. The department submitted a corrective compliance plan that outlined the steps to be taken to meet participation goals. These penalties, had they been assessed, would have meant fewer resources to fund employment and training programs that help TANF families' transition out of extreme poverty through employment. By following the corrective compliance plan, working with partner agencies to employ

participation strategies, and fully utilizing the case management resources to engage more families in the program, the state is projected to meet federal participation requirements and avoid penalties for FY 2008 and FY 2009.

With the passage of HB3535 in July 2015, the projected savings from caseload reduction was reinvested back in to the TANF program resulting in strategies and policy changes to improve outcomes for children and families. Funding was added to: 1) provide community-based collaborative impact contracts with a focus on family stabilization, preventing entry into TANF and promoting job retention and 2) increase flexibility in support services payments and family supportive services. These efforts support increased engagement with families.

JOBS participants include individuals from diverse populations. Program service delivery is designed to ensure when activities are offered service equity is practiced, equal access is achieved, and culturally specific services are available. Contract providers are selected based on having the capacity to provide culturally specific services. Training for cultural sensitivity and service equity is available to all community partners to educate and expand knowledge to develop and provide services that best meet the needs of families served. Language translations/services and accommodations for participants with physical needs are also available.

### **Program Justification and Link to Focus Areas**

The primary focus area of the JOBS program is to impact and actively contribute to a thriving Oregon economy. The JOBS program aims to reduce unemployment (including underrepresented and underserved individuals) and create job-ready communities that contribute to Oregon's overall economic well-being.

There is also a direct link to a secondary focus area of safer, healthier communities. JOBS is an integral part of Oregon's workforce service delivery system by providing employment and training services to low-income families receiving TANF. Many of the parents or caretakers of the children in this program have limited or no work experience. The JOBS employment and training program provides activities and services focused on preparing participants to enter the workforce, help them find employment and support them as they transition off public assistance.

Under the recent WIOA federal authorization of workforce programs, TANF becomes a required partner. TANF was already a participating workforce partner under Oregon statute, so connections and collaborations were in existence. While

WIOA programs serve all Oregonians, the JOBS program provides services geared to address specific needs of TANF participants to obtain job skills and work experience-related training, assist with connections to employment opportunities, and family stability efforts. WIOA affords the state additional opportunities to expand and maximize coordination of employment and training workforce partners at the state and local levels in order to improve outcomes for all job seekers.

### **Program Performance**

DHS tracks performance and outcome measures to gauge its ability to help people become employed or improve their employment situation through participation in the JOBS program. JOBS program outcomes were severely impacted by the 50 percent funding reduction during the 2011-2012 program year and by the low staffing levels for case managers. Many services were eliminated because of these cuts. Eliminated services include vocational training, Adult Basic Education, and life skills classes. Other services were eliminated that helped participants remove other barriers to employment such as home visitor specialists, vocational nurse consultants and specialists who helped parents or caretaker relatives with criminal history or fines work with the courts on expungement. They also provided guidance to clients for talking with prospective employers during job searches about these issues.

In the 2013-15 biennium, the budget provided for added flexibility in contracts and support services so that families in the TANF program can have support in vocational education, GED completion and life skills classes. Among the services that remained were job search, work experience, supported work, and JOBS Plus. Child care, transportation assistance and other supports continue to be available in a reduced manner.

With the support of the Legislature, the added case management resource for 2015-17 is helping test strategies to engage families in ways that improve outcomes in the areas of engagement in a self-sufficiency plan, improving family stability, improving federal participation rates, and increasing employment placements.

The agency measures total employment placements reported by parents or caretaker relatives served by the JOBS program each month. While there is considerable seasonal variation in placements, the number of placements remained relatively constant until 2007. Due to the economic downturn, placements began dropping in FY 2008. The average monthly placements for FY 2010 were 30 percent lower than in FY 2008. Placements gradually increased through the early

part of 2011; however, they dropped again after program reductions, including a loss of 75 percent of contracted staff. Effective July 2013, JOBS program restrictions were loosened to allow districts more flexibility to address the needs of local populations. With these modifications as well as slight improvements in the overall economy, the average monthly placements increased 36 percent since FY 2012. Monthly placements continued to increase with averages of 988 in FY2014 to 1,281 in FY2015. The average monthly placements leveled out slightly in FY2016 at 1,127. The last time that occurred was in FY 2008 (December 2007). The average monthly placements for FY 2016 was 1,128. In FY2016, 17 percent of all placements were benchmark placements, which are those that are at least 30 hours per week and earn at least \$11.55 per hour.

In May 2016, the statewide average wage for full or part-time wages combined was \$10.94 per hour, ranging between \$9.90 and \$11.46. The state minimum wage was \$9.25.

Another measure is the percentage of parents or caretaker relatives who exit TANF due to employment and do not return within 18 months. Currently, 70 percent of parents or caretaker relatives do not return within 18 months. The average rate for 2013 was 64 percent, indicating a positive increase of 6 percent parents or caretakers who did not return to TANF 18 months after the case closed due to employment. Recent data shows that for cases closed in August 2015, as of February 2016, 84 percent were not receiving TANF.

### **Enabling Legislation/Program Authorization**

The TANF program is authorized under Title IV-A of the Social Security Act, as amended by the Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (PRWORA), and the Deficit Reduction Act of 2005. A significant portion of the JOBS program is codified in state statute chapters 411 and 412.

### **Funding Streams**

The JOBS program is currently funded primarily through the Federal TANF block grant and General Fund dollars that count towards the state Maintenance of Effort (MOE) requirement. Oregon's TANF block grant is \$166.8 million per year. Oregon's MOE requirement is equal to 80 percent of the state's historic expenditures or approximately \$98 million per year.

Expenditures counted towards MOE must not be from a federal source and must not be matched to other federal funds. Oregon generally meets MOE through a

combination of eligible DHS and other agency expenditures. Both the TANF federal block grant and MOE expenditures must be spent in a manner reasonably calculated to meet one of four TANF purposes, which are: 1) provide assistance to needy families; 2) end dependence of needy parents by promoting job preparation, work and marriage; 3) prevent and reduce out-of-wedlock pregnancies, and 4) encourage and maintain family formations. Federal Child Care Development Funds from the Employment Department's Child Care Division provide Other Funds used for related child care costs.

### **Funding Justification, And Significant Changes**

This does not include statewide reductions.

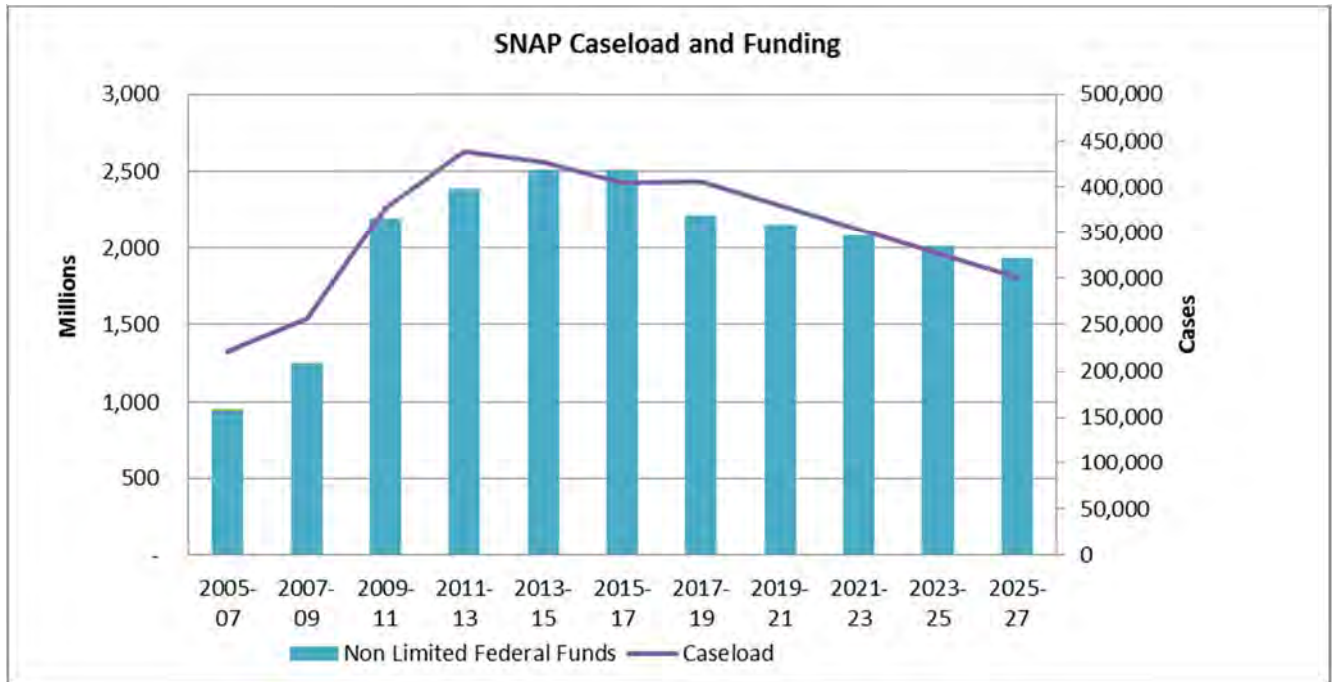

Jobs Program is funded at current service level.

# Department of Human Services: Supplemental Nutrition Assistance Program (SNAP)

---

Primary Long Term Focus Area:  
Secondary Long Term Focus Area:  
Program Contact:

A Thriving Oregon Economy  
Safer Healthier Communities  
Belit Burke

## Program Overview

The Supplemental Nutrition Assistance Program (SNAP) is a federally funded food benefit program. SNAP provides supplemental food benefit dollars to low-income families, seniors, single adults, people with disabilities, and children to help purchase food to meet their nutritional needs. Currently, one in five Oregonians receive these benefits. Benefits to clients are 100 percent federally funded; the administration of the program requires a 50 percent state match.

Money from the program spreads quickly through the state economy. The United States Department of Agriculture (USDA) calculates that for every \$5 of SNAP benefits, there is \$9 of total economic activity. SNAP also has been an important and constantly growing anti-poverty program. Recent research has shown that SNAP benefits reduce the depth and severity of poverty, and have a particularly strong effect on reducing the depth and severity of child poverty.

## **Program Funding Request**

<b>SNAP</b>	<b>GF</b>	<b>OF</b>	<b>FF</b>	<b>TF</b>
LAB 15-17	\$ -	\$ -	\$ 2,514,345,331	\$ 2,514,345,331
GB 17-19	\$ -	\$ -	\$ 2,214,345,331	\$ 2,214,345,331
Difference	\$ -	\$ -	\$ (300,000,000)	\$ (300,000,000)
Percent change	0.0%	0.0%	-11.9%	-11.9%

## **Program Description**

SNAP serves as a crucial safety net and food benefits are intended to be a supplement to what families already provide. However, for households with little or no income, it is the primary means to feed their families. Food and Nutrition Service (FNS) within the USDA regulates SNAP. Although Federal regulations do allow a few state options, any significant variation from the regulations must be approved by FNS through a formal process.

For the last three years, even during times of high caseload growth, Oregon has been ranked as one of the top three states nationally for program participation. The participation rate is the percentage of potentially SNAP-eligible persons in the state receiving SNAP benefits. Outreach efforts along with policy and procedural changes have helped significantly increase participation in SNAP in recent years. Non-profit partners such as the Hunger Relief Task Force, the Oregon Food Bank and 211info have been invaluable in helping increase Oregon's SNAP participation rates.

The program caseload is slowly declining as the economy continues to recover. Simplifying policies and making it easier for Oregonians to apply and meet eligibility requirements continues to support timely benefit delivery. Approximately one in five Oregonians or 21 percent of the population receive SNAP benefits. In May of 2016, a total of 719,503 Oregonians received SNAP benefits, which includes 88,658 cases (households). In May of 2016, a total of \$88,658,864 SNAP benefit dollars were paid to Oregonians which are spent in clients' local communities. According to the USDA's Economic Research Service, 8,900 to 17,900 full-time jobs are created per \$1 billion in SNAP benefits.

### **Program Justification and Link to Focus Areas**

SNAP directly addresses the 10-Year Outcome for Healthy People by providing an important economic boost to struggling households and access to nutritious foods. According to the USDA Economic Research Service, receipt of SNAP benefits reduced the national poverty rate by almost eight percent during the recent recession. The SNAP program can also provide limited assistance with job search and links to employment resources through the Oregon Food Stamp Employment and Training (OFSET) program and the 50/50 Employment and Training Program.

### **Program Performance**

The goals of the SNAP program are to ensure that benefits are delivered accurately and in a timely manner to those who are eligible for the program. It also aims to ensure those who are eligible for the program have access to program benefits. Oregon's program has enabled the state to maintain a high participation rate along with a high Federal Quality Control (QC) rate. Oregon's SNAP program has continually performed above the national average and not paid a performance penalty in eight years.

Oregon has received multiple federal bonuses because of the state's high SNAP participation rate and has also been the recipient of multiple competitive national grants. Oregon was one of six states recognized for the timeliness of SNAP application processing and received two awards with performance bonuses totaling \$5 million. Oregon has consistently been among the best in the nation. The bonus award funding has been used over the years to support partner agencies, help meet the program's goals and, frequently, to shore up needs in other programs through the State General Fund.

Oregon is considered a model state by FNS in terms of timeliness and commitment to customer service. One example of this is Oregon's Lean process, which has streamlined and standardized the eligibility process statewide to ensure that most applicants receive benefits within 48 hours of applying. The process continues to receive federal and national recognition resulting in visits from federal partners and other states to observe best practices.

The 2010 census data showed that 15.8 percent of Oregonians lived in poverty, which was slightly higher than the national average of 15.3 percent. SNAP participation in Oregon peaked in August 2012 at 445,374 cases serving 813,556 people. From 2007 when Oregon issued \$487,482,626 in benefits, to 2013 when that amount had more than doubled to \$1,236,125,996, SNAP has been an important and constantly growing anti-poverty program. Money from the program spreads quickly through the economy. The USDA calculates that for every \$5 of SNAP benefits, there is \$9 of total economic activity.

<b>Calendar Year</b>	<b>SNAP Benefits Issued in Oregon</b>
2007	\$487,482,626
2008	\$579,344,356
2009	\$910,919,825
2010	\$1,098,444,539
2011	\$1,211,274,990
2012	\$1,262,115,384
2013	\$1,236,125,966
2014	\$1,165,393,102
2015	\$1,144,509,141

Although the American Recovery Reinvestment Act of 2009 (ARRA) stimulus package increased SNAP benefits by 14 percent nationwide, this funding stimulus sunset on September 30, 2013. The stimulus ensured a minimum benefit increase of \$16 a month for one- or -two person groups. The result of this funding sunset meant a recalibration of the Thrifty Food Plan Benefit level (an effort to recalculate benefits across the board) which reset SNAP benefit levels and resulted in a net reduction in benefits and the minimum benefit level for households.

**Enabling Legislation/Program Authorization**

SNAP is guided by federal legislation found in the "Farm Bill" authorized by The Agricultural Act of 2014 (P.L. 113-79, Feb 7, 2014). Program policy is reauthorized every five years through the Farm Bill. The Farm Bill is due for reauthorization in 2018.

### **Funding Streams**

SNAP benefits are 100 percent federally funded. Oregon is responsible for 50 percent of the administrative costs. Oregon's portion of the administrative costs for SNAP comes from the State General Fund.

### **Funding Justification, And Significant Changes**

This does not include statewide reductions.

The Youth Services Program is funded at current service level and the department removed \$300 million of limitation in base due to reducing caseloads.

# Department of Human Services: Supplemental Nutrition Assistance Program – Employment and Training

---

Primary Long Term Focus Area: A Thriving Oregon Economy  
 Secondary Long Term Focus Area: Safer Healthier Communities  
 Program Contact: Belit Burke, Program Director

## Program Overview

Oregon is currently undertaking an effort to fully develop and expand the Employment and Training 50/50 Reimbursement Program (E&T) as part of our ongoing investment in the Oregon economy and our communities. Oregon is moving in the direction of building a continuum of services in partnership with key stakeholders engaged in the Workforce Innovation and Opportunity Act (WIOA). Oregon will provide SNAP participants who are unemployed or underemployed, opportunities to lift themselves out of poverty, while strengthening the workforce

system, and employers will benefit from the number of individuals who are fully trained and prepared for employment.

The Supplemental Nutrition Assistance Program (SNAP) has an Employment and Training (E&T) component. In Oregon, there are currently three different types of SNAP Employment and Training programs:

- The **Oregon Food Stamp Employment and Training (OFSET) Program** provides employment-related services to adult SNAP participants. The services for this program are 100 percent federally funded. There is a support services component required by the state to be provided to participants participating in OFSET services. Support services can only be funded through a 50/50 match, per the United States Department of Agriculture's (USDA) Food and Nutrition Services (FNS). Participants come from a variety of linguistic and cultural backgrounds from across the State. This program assists participants to gain valuable skills, training or experience that will improve employment prospects leading to self-sufficiency and a reduced reliance on SNAP benefits.
- The **50/50 Employment and Training Program** provides employment-related services to SNAP participants who are exempt from mandatory E&T participation but (voluntarily) choose to pursue training and employment resources. There are currently six sites in Oregon that draw down federal funds with their own non-federal match to provide services in their organizations to the populations they serve. During FFY 2017 the program is anticipating to bring on additional providers. Included in the expansion are six community colleges, Workforce Investment Boards, and the Oregon Employment Department.
- Able Bodied Adults without Dependents (ABAWD) policy was implemented in FFY 2016 for Washington and Multnomah Counties, due to the loss of a federal waiver. This policy is a SNAP benefit time limit for people between the ages of 18 to 49 who do not meet an exemption criteria. This policy will expand to Clackamas County in FFY 2017.

Civil Rights Training is required annually of all DHS staff involved in the administration of the SNAP program (which includes contracted partners and their staff) so they understand civil rights related laws, regulations, procedures, and directives. All publications include the non-discrimination statement. The "And Justice for All" poster is mandatory for all branch offices to display in their lobby.

Participants are informed of their rights and responsibilities at certification, interim change and recertification. This includes the right to receive information in an (alternate) format or language they understand. DHS follows the Americans with Disabilities Act and Section 504 of the Rehabilitation Act and will do its best to meet a participants' special needs if they have a disability.

Contract staff must provide services to DHS clients without regard to race, religion, national origin, sex, age, marital status, sexual orientation or disability (as defined under the Americans with Disabilities Act). Contractor services must reasonably accommodate the cultural, language and other special needs of participants. Contractors that do not have individuals who speak the language, when possible, contact an interpretive service for the customer and provide materials in the participants' language preferences. Participants may file a report of discrimination at any time.

Oregon's SNAP program has a proven record of partnering with a wide variety of organizations to expand and reach underserved populations. The SNAP program works closely with the refugee program. Through the implementation of ABAWD, agreements were modified to allow communication between the Immigrant and Refugee Community Organization (IRCO) and the ABAWD contractor to streamline and minimize potential barriers. A significant portion of the refugee population resettles in the Portland Metropolitan area. As new groups move into the area, local district leadership meet with the leadership from those communities to get a better understanding of the culture and the needs of the community and staff receiving training. In addition to job-related work activities, contractors provide services that enhance the employment skills of clients. These activities include educational programs such as Basic Adult Education, GED preparation, and English as a Second Language (ESL) classes.

To support client access to services and information, the department has increased the number of languages for translation. For example, additional languages were added to the Multilingual Insert for Decision Notices ([AFS 97](#)), Amharic, Arabic, Burmese, French, Hindi, Karen, Mandarin, Nepali, Oromo, Pashto/Pashtu, Swahili, Tagalog, Tigrinya, and Zomi. In addition, the specific notices created for ABAWDs were translated in the following languages: Arabic, Bosnian, Burmese, Cambodian, Farsi, Hmong, Korean, Laotian, Mein, Romanian, Russian, Simplified Chinese, Somali, Spanish, and Vietnamese. The department is actively working on how to improve equitable access.

### **Program Description - OFSET**

Oregon has 19 contracts with employment-related partners in all Oregon counties to deliver E&T components. Contractors specialize in workforce development and job placement. Components are designed to assist SNAP participants to move into employment. Typically participants have an assessment followed by job search training and supported independent job search. Participation is limited to a maximum of eight weeks per year. The two primary program components are:

**Job search training:** Trains participants on specific skills and strategies for finding and keeping a job. Information is geared towards the local labor market. Topics include resume building, interview skills, and other soft skills for finding or retaining employment.

**Job Search:** Includes job search techniques, referrals to the local Oregon Employment Department for I-Match registration, and the assignment and monitoring of required monthly employer contacts. Participants are required to complete 12 employer contacts per month over the course of eight weeks.

Contractors may ask participants to participate in a combination of components as needed. Other allowable activities include Adult Basic Education (GED), English as a Second Language (ESL), job retention activities, and short-term vocational training. At this time, contractors are not providing services in these areas due to funding limitations.

The USDA FNS determines the annual allotment of E&T administrative funding. FNS has a set amount of funding for all states. Each state's share is based on a formula using, in part, the state's SNAP mandatory client figure. Mandatory participants are defined as those aged 18 to 59 (or age 16 and 17 if the client is the primary person/head of household) and who do not meet a federal exemption. Federal exemptions include the following:

- Caretaker of a dependent child under age six;

- Caretaker of an incapacitated individual;
- Physical or mental barriers to employment;
- TANF participant;
- Receipt of unemployment benefits;
- Participation in alcohol or drug rehabilitation;
- Eligible students enrolled at least half time; and/or
- Employed 30 hours a week at federal minimum wage.

The FNS annual allotment is the major cost driver for the E&T program. As this number is adjusted annually, services provided by contractors are scaled back to stay within budget.

A limited amount of support service funding is available to participants. Support services are provided to pay a participants' up-front transportation expense related to independent job search efforts, such as transportation to job interviews, submitting job applications and informal, in-person job search. The majority of reimbursements are vendor payments in the form of gas vouchers and bus tickets. Contractors use the lowest cost alternative available to maximize the number of participants who may receive a support service payment.

The support service budget is funded by 50 percent General Fund and 50 percent Federal Fund per FNS regulations. Since 2009, the annual Oregon support service budget has been \$1.2 million. This figure is based on 20,000 anticipated participants using \$60 in support services per participant. Contractors historically serve more than 20,000 participants annually, which bring the average support service cost per person significantly down. For Federal Fiscal Year (FFY) 2015, the average support service payment per participant is \$21.

SNAP E&T contractors work to leverage resources with other workforce programs. While E&T dollars cannot be utilized for participants where there is a prior resource available (for example, job preparation activities for TANF participants would be funded with JOBS dollars and not E&T dollars), the program does work with programs funded through TANF and WIOA to coordinate services and refer participants into services that may not be funded by E&T but could benefit the job seeker. An example of this would be a referral of a SNAP E&T participant to a WIOA-funded training program or the leveraging of job openings and referrals with co-located job placement programs.

### **Program Justification and Link to Focus Areas**

The SNAP E&T program's goal is to assist participants to gain skills that will improve their employment prospects and reduce reliance on SNAP benefits. Participants improve job skills, which add to the diversity and strength of Oregon's workforce. Using local contractors to deliver the E&T program results in a higher quality workforce because services can be tailored to the area and local economies benefit from these expenses. The program supports the Thriving Oregon Economy focus area with the goal of long-term economic prosperity and resiliency through people-based strategies.

### **Program Performance**

Current funding supports 20,890 individuals, or 1,741 people monthly. For FFY 2016, DHS projects a total of 82,009 participants are eligible for this program. However, the program is only able to serve about 26 percent of these individuals per year because of the amount of funding received. In FFY 2015, approximately 320 participants are placed into employment each month, about 13 percent of those served.

While not all participants find employment after the eight-week E&T program, participants do become connected to employment specialists in their local area. Some participants choose to continue accessing other services available from local employment specialists once their mandatory participation in E&T ends. This link assists participants in continuing and enhancing job search efforts.

### **Enabling Legislation/Program Authorization**

This program is mandated by federal legislation found in the Food and Nutrition Act of 2008, authorized by the 2008 Farm Bill. In February 2014, President Obama signed the 2014 Farm Bill (aka. the Agricultural Act of 2014). Program policy is reauthorized every five years through the Farm Bill and the next reauthorization will happen in 2019.

### **Funding Streams**

This program is funded primarily through Federal Funds, with a small amount of General Fund dollars. E&T administrative costs are 100 percent Federal Funds based on a fixed formula. For 2017, administrative costs are estimated at \$2,024,659. E&T participant support service costs are funded through 50 percent General Fund dollars and 50 percent Federal Funds. For 2017, support service costs are \$600,000 General Fund. The total E&T program budget is \$3,224,659.

### **50 Percent Reimbursement Programs (50/50)**

SNAP's E&T 50 Percent Reimbursement Program works in partnership with community organizations that offer employment and training opportunities to participants. Each community organization provides wraparound services to compliment E&T services that increase protective factors and success rates. The E&T program is a package of services, which includes assessment, component activities, participant reimbursements and case management. The allowable E&T components activities provided by these organizations include job search-related activities, unpaid work experience or training, short term education such as vocational training, and job retention efforts.

Oregon currently has the 50/50 partnerships with

- Multnomah County, Outside In
- Multnomah County, New Avenues for Youth
- Multnomah County, Central City Concern
- Lane County, Goodwill Industries
- Multnomah and Washington Counties, Worksystems, Inc. (WSI)

### **Funding Stream(s)**

Partner agencies use their own funds to pull down the funding for the match. In other words, partner agencies use their own non-federal funds for the allowable cost of E&T components and receive 50% federal reimbursement money. This allows Oregon to conserve limited resources while expanding the services available to SNAP E&T participants.

### **Funding Justification, And Significant Changes**

This does not include statewide reductions.

This program is funded at the current service level.

## **Department of Human Services: Food Assistance Programs (TFAP, and CFSP)**

Program Contact:

A Thriving Oregon Economy  
Safer Healthier Communities  
Belit Burke

### **Program Overview**

#### **The Emergency Food Assistance Program (TEFAP)**

TEFAP is a federally funded program that helps supplement the diets of low-income Americans, including elderly people, by providing them with emergency food assistance at no cost. The Oregon Food Bank is primary grantee in Oregon and works with the Oregon Food Bank network to deliver services across Oregon.

Through TEFAP, the U.S. Department of Agriculture (USDA) purchases a variety of nutritious, high-quality USDA Foods, and makes those foods available to state distributing agencies. The amount of food each state receives out of the total amount of food provided is based on the number of unemployed persons and the number of people with incomes below the poverty level in the state. States provide the food to local agencies that they have selected, usually food banks, which in turn distribute the food to local organizations, such as soup kitchens and food pantries that directly serve the public. States also provide the food to other types of local organizations, such as community action agencies, which distribute the foods directly to low-income households.

#### **Commodity Supplemental Food Program (CSFP)**

CSFP is a federally funded program that works to improve the health of low-income elderly persons at least 60 years of age by supplementing their diets with nutritious USDA Foods.

Oregon currently has a case load size of about 1776 elderly people receiving these commodities. Currently all of the service delivery is occurring through partnerships with the Oregon Food Bank.

## **Oregon Hunger Response Fund**

The Oregon Hunger Response Fund is an allocation from the Legislature to the Oregon Food Bank to help build infrastructure and transport food to food pantries and other important efforts to support the Food Bank and Food Bank Networks.

Oregon Housing and Community Services, with legislative approval, transferred the Oregon Hunger Response Fund to the Department of Human Services effective 10/1/2015.

OAR chapter 461, division 192 establishes and implements the Oregon Hunger Response Fund, which is funded by General Fund moneys and carries out the Department's responsibility as the lead public body in administering the state policy on hunger under ORS 458.525 to 458.545. The Oregon Hunger Response Fund is the means by which the Department allocates funds for the statewide network of food banks and emergency food programs to acquire food and new food sources, build network capacities and link emergency food clients to other services.

## **Oregon Hunger Task Force**

The story of Partners for a Hunger-Free Oregon begins back in 1989, when the Oregon State Legislature created the Oregon Hunger Task Force (ORS 458.532). At that time, Oregon ranked high for hunger among states, and the legislature declared that "All persons have the right to be free from hunger." –

The 28-seat task force was directed to "serve as an advocate for hungry persons," studying the problem of hunger, making recommendations, and helping local communities implement changes.

Working with partners throughout Oregon, the task force has since worked to promote community awareness, compile research, develop proposals for government action, and conduct outreach to expand participation in nutrition programs. (*Oregon, 2016*)

## Department of Human Services: Employment Related Day Care

Primary Long Term Focus Area: A Seamless System of Education  
 Secondary Long Term Focus Area: A Thriving Oregon Economy  
 Program Contact: Belit Burke

*Note: Out years assume static costs per case with funding inflated each year and invested in additional cases. Added funding could also be used for other quality activities in lieu of increasing the caseload cap.*

### Program Overview

The Employment Related Day Care program (ERDC) helps low-income working families from a variety of cultural and linguistic backgrounds in urban and rural communities pay for quality child care. Child care helps parents stay employed and gain self-sufficiency by assisting with the consistent, stable child care parents need to remain on the job.

Children in Employment Related Day Care, ages 0 to 6								10/1/2015 – 12/31/2015
	All	African American	Asian	Caucasian	Hispanic (any race)	Native American	Pacific Islander	More than one race

Percent change	18.2%	-9.5%	0.0%	2.3%

House Bill 2015 and the Reauthorization of Child Care and Development Fund act of 2014 have strengthened the Employment Related Day Care Program through several program enhancements. DHS implemented enhancements on October 1, 2015. Working students, and self-employed families can access affordable quality child care while they improve their life circumstances, making it easier to move out of poverty. A 12 month eligibility period, three months of work search for a parent who has lost a job, continued child care coverage while on medical leave and a higher exit income limit allow for continuity of care for children and reduces the cliff affect. A reduced cliff effect offers an easier transition off of subsidy. Additional changes include incentive payments for child care providers who hold a three, four or five quality improvement star rating for each full-time DHS subsidy child in their care and a reduced copay incentive for parents who use a provider who holds a three, four or five star rating. Program improvements have reduced the number of cases lost through attrition, meaning families are staying on ERDC longer allowing for continuity of care for children.

**Program Description**

ERDC provides low-income families with the same opportunity to have quality child care as other families with higher income. This helps reduce the achievement gap and end the poverty cycle. Quality child care nurtures a child’s learning and development so the child is better prepared to succeed in school and later in the workforce, helping them form more stable families of their own.

To be eligible for the program, a family’s income must be less than 185 percent of the 2016 Federal Poverty Level. For a family of three, this amount is \$3,108 gross income per month.

ERDC subsidy families share the cost of child care. Families choose their child care provider and ERDC pays the approved provider directly on behalf of the family for the subsidy portion of the payment. The amount ERDC pays is based on the location where care is provided, type of care and hours needed. The family’s portion of the child care is called a copayment. The copayment is based on a sliding scale depending on family income and size. The family’s copay remains

stable during the 12 month certification period. Families who have had an increase in income will see an increase in their copayment at their 12 month recertification. Copayment increases help to prepare the family to pay the full child care amount once child care assistance ends. Parents must pay their copayment to remain eligible in the program. Families may pay additional costs, when a provider charges more than the maximum rate DHS can pay.

Information available to parents and providers about ERDC subsidy or becoming a DHS approved provider is available in English, Spanish, Russian, Somali, and Vietnamese. DHS offers an interpreter line when a language is not available. DHS branch offices have bi-lingual staff to assist families whose first language is not English and offer alternate formats.

Child care providers are self-employed. When they choose to become listed with DHS as an approved provider, they must meet a set of health and safety standards and pass a background check including a criminal history and child protective services check. Licensed providers must pass a background check through the Department of Education, Early Learning Division, Office of Child Care. Providers exempt from licensure (license-exempt) must pass a background check through the DHS Background Check Unit and complete a health and safety training prior to being approved by DHS. Non-relative license-exempt child care providers, as part of the 2014 Reauthorization, are required to take additional training. Training includes both pre-service classes and six hours of ongoing training every two years. All providers have access to, and are encouraged to continue their education by taking additional training.

Providers must be listed with the DHS Direct Pay Unit in order to receive payment through DHS. Licensed family child care providers are represented by the American Federation of State, County and Municipal Employees Council 75 (AFSCME). Licensed-exempt child care providers are represented by the Service Employees International Union Local 503 (SEIU).

DHS collaborates and works with multiple partners in support of child care system activities. The department contracts with 211info to provide consumer education to assist parents, employers, care givers, and others interested in the ERDC program. Consumer education includes components on the importance of maintaining and providing quality child care. 211info helps to educate parents on the importance of choosing the right caregiver. Many parents are not familiar with indicators of high-quality care, as well as licensing standards for child care. This service is also

provided through DHS offices in every county. DHS partners with eight Head Start programs to offer full-day, full-year contracts for ERDC families. The DHS partnership with Child Care Resource and Referral (CCR&R) agencies supports recruitment of new providers and to offer training as well as provides guidance to child care providers statewide. CCR&R offers training to child care providers in multiple languages. Multnomah and Washington County CCR&Rs work closely with the Immigrant & Refugee Community Organization (IRCO) to assist with trainings and working with refugees in need of child care or who are interested in becoming a child care provider. Refugees located in Multnomah and Washington County interested in becoming self-employed as a child care provider have access to additional supports through the Oregon Refugee Child Care Microenterprise Program. This program offers support in accessing provider trainings, becoming licensed through the Early Learning Division, Office of Child Care and approved by DHS to provide culturally relevant care for subsidy children. DHS also works closely with the Oregon Department of Education (ODE), Early Learning Division, Office of Child Care on policy implementation, quality child care and the CCDF state plan.

The major cost drivers for the program are the number of families receiving ERDC, program enhancements, child care provider rates and more families accessing licensed child care. The cost per case prior to October 1, 2015 was \$558, current cost per case is \$775. The anticipated cost per case by January 2017 is approximately \$800. Additional cost drivers are contracted services such as Head Start, 211info and Child Care Resource and Referral.

The ERDC program serves approximately 12 percent of eligible Oregon families. Priority is given to families transitioning from TANF. The number of intakes of TANF transition cases to ERDC in 2014 was approximately 400 per month. The average over the past 10 years has been 245 per month. In 2015, there was a slight decrease from 2014; however, the average per month remained high at 317.

The ERDC program maintains a reservation list for families that are eligible but not served by the program. As the budget allows, families waiting on the reservation list are invited to apply. Program enhancements in October 2015 have decreased the caseload attrition rate from approximate 400 cases per month to an average of 100 per month. This means families are staying on the program longer, increasing continuity of care for children.

DHS coordinates services across its program areas in order to be as efficient as possible in our service delivery. Families receiving services generally are clients of other programs. Maintaining employment for these families is important as they work towards long-term self-sufficiency. In April 2016, there were 7,375 ERDC cases and 6,863 (93 percent) were receiving food benefits through the Supplemental Nutrition Assistance Program (SNAP). In 2014 the percentage of families receiving both ERDC and SNAP was 97.3 percent. The lower percentage in 2016 is due to the ERDC higher exit income limit. More families are continuing on ERDC after their SNAP benefits end when the family goes over the SNAP income limit. In August of 2016 the ERDC reservation list was deactivated. More than 3,000 families were sent letters inviting them to apply for the program. By September of 2016 the caseload had increased by more than 700 cases to 8,034 serving 15,265.

### **Program Justification and Link to Focus Areas**

Quality child care supports children's development. Research indicates children who receive a high quality early childhood education have better math, language and social skills as they enter school. As the children grow older, they require less special education, progress further in school, have fewer interactions with the justice system and have higher earnings as adults. Early learning opportunities for children are generally provided by the parents. Access to quality child care for low-income families is important. All children need the same opportunities to develop cognitive, social, emotional and behavioral skills to be ready for school.

Children who have attended preschool show positive long-term effects on important adolescent and young adult outcomes, such as high school graduation, years of education completed, earnings, reduced crime and teen pregnancy<sup>1</sup>. Low-income families are faced with difficult choices when it comes to child care expenses. They may rely on an older sibling or a variety of family and friends. This may lead to inconsistent or unstable care that interferes with the employment of the parent.

The Governor's Early Learning Council (ELC) and the opportunity through the Race to the Top federal grant embraced the importance of investing in measureable, quality child care. DHS supports improving safety, quality and enrichment of child care programs that support parent engagement and family stability as well as ensuring low-income families have easy access to a variety of

---

<sup>1</sup> Hirokazu Yoshikawa, Christina Weiland, etc., *From Investing in Our Future: The Evidence Base on Preschool Education*, Society for Research in Child Development, Foundation for Child Development, October 2013.

child care settings. High-quality early childhood education programs are among the most cost-effective educational investments and are likely to be profitable investments for society as a whole. DHS partners with the Early Learning Division, Office of Child Care and other stakeholders to plan continued improvements to DHS programs, to strengthen outcomes for our children and their parents.

DHS offers contracted child care slots for ERDC families with full-year Head Start programs and providers participating in the Early Head Start Child Care Partnership. The goals of the contracted slots are to provide continuity of care for infant, toddler and preschool children in quality programs, access to continuous care for low-income working families and stable funding for quality early learning programs serving low-income children. DHS has expanded contracted child care opportunities as Head Start Grantees partner with Child Care programs in their communities on the Early Head Start Child Care Partnership (EHS CCP) federal opportunity. These partnerships provide more of Oregon's children with the opportunity to have high quality child care and give them the start they need to be successful in school and life.

Research shows that ERDC is critical in helping low-income families maintain employment. Program enhancements have increased the support for a thriving economy, with child care now accessible for low-income working students, working toward a degree, GED or other education to improve their marketable job skills. Self-employed families are also able to receive child care assistance. This enables them to maintain and grow their business. Child care providers employed by ERDC clients are contributing members to local economies throughout the state.

### **Program Performance**

In September 2016 there were 8,034 ERDC cases that served 15,239 children. The average cost per case was \$775. This rate fluctuates greatly depending on the specific family needs. As of October 2016 there were 1,621 licensed child care providers actively providing child care for DHS families across the state.

Researchers have identified education and training as an indicator of quality that has been proven to be associated with positive short-term and long-term child outcomes. Parent education on selecting quality care is provided through DHS contracts with 211info. DHS contracts with Child Care Resource and Referral to offer child care provider training to increase the quality of care. DHS provides a

higher maximum rate, above the standard rate, for license-exempt providers who meet the same basic training requirements that are required of licensed family providers.

In 2015, 241 license exempt providers took additional classes to become an enhanced provider. These trainings increase quality care available to subsidized families who, may not be able to access licensed care due to non-standard work hours. There has been a steady increase in the percentage of children receiving care from licensed providers. The rate has increased by 11 percent from January 2013 to December 2015. The percentage of children in license-exempt enhanced care has remained stable at just over five percent during the same time frame.

In December 2015, child care subsidy payments were issued for 12,985 children through the ERDC program. Of those children, 61.22 percent were enrolled in licensed care. An additional 5.55 percent of children were in care with providers who are exempt from Office of Child Care licensing but have completed required training through the Oregon Registry. Participation in licensed care is generally highest among preschool aged children (ages three to six) at 68.8 percent in December 2015. Infant and toddler participation (ages zero to three) is slightly lower at 67.92 percent followed by school aged (six through 17) at 51.05 percent.

The earliest years, from birth to age three, are critical for young children's healthy development. Experiences during the infant and toddler years shape the architecture of the brain – including cognitive, linguistic, social and emotional capacities – at a phenomenal rate and lay the foundation for future growth and learning.<sup>2</sup> Subsidy policy improvements need to be made in order to provide parents of infants and toddlers greater access to high quality licensed programs.

The number of children and families the department serves in this program is based on available funding. The program is currently capped at 8,100 through legislative action.

---

<sup>2</sup> Shonkoff and Phillips, etc., *From Neurons to Neighborhoods: The Science of Early Childhood Development*, National Research Council and Institute of Medicine, 2000.

**Enabling Legislation/Program Authorization:**

ORS 409.010(2) (c), 411.141 and 418.485 provide statutory authority to DHS for administration of the ERDC program.

Child Care and Development Fund (CCDF) grants are administered by the Department of Health and Human Services, Administration for Children and Families Office of Child Care. They are authorized by the Child Care and Development Block Grant (CCDBG); 45 CFR Part 98 and 99. On November 19, 2014, the president signed into law the CCDBG Act of 2014 (P.L. 113-186), which reauthorizes the program for the first time since 1996. The law adds new state requirements and makes significant advancements by defining health and safety requirements for child care providers, outlining family-friendly eligibility policies, ensuring parents and the general public have transparent information about the child care choices available to them, and activities to improve the quality of child care. In collaboration with the Office of Child Care (OCC), DHS has implemented several program enhancements and is working toward implementation of the remaining federal child care policy reform.

The Department of Education, Early Learning Division, and Office of Child Care<sup>3</sup> is designated as the lead agency in Oregon to administer these funds. CCDF funding is transferred from ODE to DHS.

### **Funding Streams**

The Other Funds are the CCDF Federal Funds that are transferred from ODE. The General Funds are state revenue that is used for our Maintenance of Effort (MOE) as part of the Federal Fund requirement. The department also spends General Funds on our administrative expenses and uses that money for MOE. DHS spends \$12 million in General Funds per biennium in order to meet our CCDF MOE requirements.

### **Funding Justification, And Significant Changes to 17-19 CSL**

This does not include statewide reductions.

The ERDC Program is funded at Current Service Level

---

<sup>3</sup> The DHS ERDC proposal needs to be reviewed with OCC's proposal.

# Department of Human Services: Domestic Violence, Refugee and Youth Services

Primary Long Term Focus Area: Safer, Healthier Communities  
 Secondary Long Term Focus Area: N/A  
 Program Contact: Belit Burke

TA-DVS, Refugee, Youth Services	GF	OF	FF	TF

Difference	\$ 651,283	\$ -	\$ -	\$ 651,283
Percent change	-100.0%	0.0%	0.0%	2.9%

**Program Overview – Domestic Violence**

Temporary Assistance for Domestic Violence Survivors (TA-DVS) provides temporary financial assistance and support to families affected by domestic violence during crisis or emergent situations when other resources are not available. TA-DVS is used to help the domestic violence survivor and the children address their safety concerns and stabilize their living situation, thus reducing the likelihood of the survivor returning to the abuser. The most common need for TA-DVS is when the domestic violence survivor flees the abuser. Many domestic violence survivors need assistance to create safety and stability in order to be successful in finding and maintaining a job, all keys to becoming self-supporting without public assistance.

## **Program Funding Request**

<b>TA-DVS</b>	<b>GF</b>	<b>OF</b>	<b>FF</b>	<b>TF</b>
LAB 15-17	\$ (651,283)	\$ -	\$ 8,693,857	\$ 8,042,574

Difference	\$ 651,283	\$ -	\$ -	\$ 651,283
Percent change	-100.0%	0.0%	0.0%	8.1%

### **Program Description**

TA-DVS provides up to \$1,200, over a three-month period. Payments can include but are not limited to: Initial months' move-in fees, rent or utilities, moving costs, and items to help address safety. The program serves families with minor children or individuals who are pregnant, who are low-income, and meet eligibility requirements of the Temporary Assistance for Needy Families (TANF) program. Case managers, through DHS field offices, meet with the clients to review their situation and develop a safety plan. Depending on the service needs, payments are made directly to vendors including landlords, truck rental companies, or other retailers. DHS also works in partnership with local non-profit domestic violence and sexual assault service providers who assist families with additional safety planning and emergency shelter.

### **Program Justification and Link to Focus Areas**

The TA-DVS program is directly linked to the Safer, Healthier Communities focus area. Futures without Violence (formerly the Family Violence Prevention Fund) indicates that about 30 percent of women receiving public assistance have experienced domestic violence. Research has shown that individuals impacted by domestic violence have more chronic health issues<sup>i</sup> including depression and post-traumatic stress, more difficulty obtaining and maintaining employment<sup>ii</sup>, and that these impacts can be mitigated by addressing safety.<sup>iii</sup> This program provides economic support to very low income families who are seeking services to meet basic needs while they are working towards self-sufficiency. Ensuring safety and stability helps the domestic violence survivor be more successful when they engage in job training or job search.

### **Program Performance**

For the fiscal year ending in June 2016, the TA-DVS program served on average 1,584 cases per month. Of these 1,584 cases on average 404 received TA-DVS funds. The average payment per family was \$720.96. The low number of eligible individuals accessing the funds is primarily the result of a lack of affordable housing.

### **Enabling Legislation/Program Authorization**

Domestic violence emergency assistance also known as TA-DVS is mandated under ORS 411.117 (1) (e). Federal authorization through the TANF block grant includes use of the TANF funds to meet non-recurrent, short-term benefits to deal with specific crisis situations including domestic violence. (See 45CFR 260.31 (b))

### **Funding Streams**

TA-DVS is funded with the Federal TANF block grant. (See 45CFRPart260)

### **Funding Justification, And Significant Changes to 17-19 CSL**

This does not include statewide reductions.

The TA DVS Program is funded at Current Service Level

## Refugee Services

### Program Overview – Refugee Services

The Refugee Program serves individuals and families who fled persecution in their country of origin and were legally admitted for resettlement by the United States government. The program guides refugees into self-sufficiency through employment as early as possible by providing financial services, employment related services, and acculturation services, so they can become independent and contributing members of Oregon’s economy.

### Program Funding Request

Refugee	GF	OF	FF	TF
LAB 15-17	\$ -	\$ -	\$ 13,740,633	\$ 13,740,633
GB 17-19	\$ -	\$ -	\$ 13,740,633	\$ 13,740,633
Difference	\$ -	\$ -	\$ -	\$ -
Percent change	0.0%	0.0%	0.0%	0.0%

## **Program Description**

The Refugee Services Program can serve only those persons in immigration categories approved by the Federal Office of Refugee Resettlement (ORR): Refugees, asylees, Cuban/Haitian entrants and parolees, Amerasians, victims of human trafficking (international) and certain family members, and Iraqi/Afghan special immigrant visa holders.

Resettlement services are comprehensive. Initial resettlement and most case coordination services are delivered by non-profit resettlement agencies located in the Portland tri-county area (Multnomah, Clackamas and Washington counties), where the majority of refugees seek services. These services may include essential tasks such as picking up refugees at the airport, finding them a place to live and helping to furnish their home with basic necessities. There has been some expansion of resettlement outside of the tri-county area in an effort to locate available affordable housing.

During Federal Fiscal Year (FFY) 2015, the average monthly caseload for all resettlement agencies was 376 refugee cases. Employment-related services are delivered by the Immigrant and Refugee Community Organization (IRCO) in Portland. IRCO services may include: assistance with job search, employment acculturation, pre-employment training, English language classes, citizenship, and naturalization help. During FFY 2015, these services assisted an average of 900 refugees per month. Those refugees who resettle outside the tri-county area are served through a local DHS field office.

Those served through the Refugee Program come from all over the world. During FFY 2015, Oregon's Refugee Program assisted people from over 18 different countries. Most refugees who are resettled in the U.S. speak little to no English. Limited English capacity is expected and integrated into Refugee Program services.

## **Program Justification and Link to Focus Areas**

This program is directly linked to Safer, Healthier Communities. Refugees receive help to become safe, healthy, and independent by learning how to understand and navigate the prevalent culture, become self-sufficient through employment as early as possible and become contributing members of Oregon's thriving economy. These services enhance the ability of arriving refugees to succeed in the U.S. and also helps them become integrated members of the community. Most services are

provided for up to eight months after arrival. Employment services can extend to a maximum of 60 months after arrival.

### **Program Performance**

ORR requires states to establish goals related to self-sufficiency of refugees. Two of the more significant measures are the percentage of clients who become employed and the percentage who remain employed 90 days after placement. During Federal Fiscal Year (FFY) 2015, the Refugee Program was able to help gain employment for about 67 percent of the on-going caseload, with the goal being 72 percent. The retention goal of 73 percent fell short of the goal with only 70 percent for those still employed after 90 days.

### **Enabling Legislation/Program Authorization**

The Refugee Program is authorized and operates under the Federal Immigration and Nationality Act and the Refugee Act (8 U.S.C. 1522). The Refugee Program operates as a public assistance program under ORS 411.060, 409.010(2) (c), and 409.010(2) (h).

### **Funding Streams**

During the initial resettlement period, the Refugee Program serves two different populations of refugees: those refugees who are eligible for Temporary Assistance for Needy Families (TANF) and those refugees who are eligible for ORR-funded services. The TANF eligible refugees receive cash assistance and services paid with TANF funding, and all other refugees are served with ORR funds, which are federal funds. (8 U.S.C. 1522)

### **Funding Justification, And Significant Changes to 17-19 CSL**

This does not include statewide reductions.

The Refugee Program is funded at Current Service Level

## Youth Services

### Program Overview - Youth Services

Youth Services include sexual health education, leadership and mentor programs. These services support community prevention efforts to enable Temporary Assistance for Needy (TANF) families to break the generational dependence on public assistance.

### Program Funding Request

Youth Services	GF	OF	FF	TF
LAB 15-17	\$ -	\$ -	\$ 910,829	\$ 910,829
GB 17-19	\$ -	\$ -	\$ 910,829	\$ 910,829
Difference	\$ -	\$ -	\$ -	\$ -
Percent change	0.0%	0.0%	0.0%	0.0%

### **Program Description**

The “My Future-My Choice” program includes age-appropriate, medically accurate sexual health education curriculum and services for sixth and seventh grade, and a high school leadership and mentor component. These services support community prevention efforts to enable TANF families in breaking the generational dependence on public assistance. The “My Future-My Choice” program expands on the historical teen pregnancy prevention program to provide education and tools for youth to resist multiple risk taking behaviors. DHS partners with the Oregon Department of Education and the My Future-My Choice Advisory Committee to develop and implement the program. During the 2015-2016 school year this curriculum was implemented in 15 counties and 24 school districts. Various school districts implement the program throughout the year; the 2015-2016 school year data will be available August 1, 2016.

### **Program Justification and Link to Focus Areas**

The “My Future-My Choice” program is directly linked to the Safer, Healthier Communities focus area. An analysis from the National Campaign to Prevent Teen Pregnancy shows that teen childbearing (ages 19 and younger) in Oregon cost taxpayers (federal, state and local) at least \$88 million in 2010. Of the total 2010 teen childbearing costs in Oregon, 32 percent were Federal costs and 68 percent were state and local costs. Investing in preventing teen pregnancy reduces the risk to teen pregnancy, which can lead to a lifetime of poverty for both the teen parent and the child. The teen birth rate in Oregon declined 49 percent between 1991 and 2010. The progress Oregon has made in reducing teen childbearing saved taxpayers an estimated \$116 million in 2010 alone compared to the costs they would have incurred had the rates not fallen.

### **Program Performance**

Oregon teen pregnancy rates have consistently stayed below the national average. The teen birth rate in Oregon declined seven percent between 2013 and 2014. According to national data from the U.S. Department of Health and Human Services, the 2015 national rate for births to teens between the ages of 15 and 19 is 22 per 1,000 teen girls. The Oregon rate is 20 births per 1,000 females. Teen Pregnancy rates among Oregon females aged 15-17 years have declined from 25.8 per 1,000 in 2008 to 12.4 in 2014.

### **Enabling Legislation/Program Authorization**

The Oregon Legislature passed HB 2509 in 2009, which requires that all schools provide comprehensive sexual health education. The My Future–My Choice curriculum complies with all requirements of this legislation for sixth and seventh grades. DHS partners with Oregon Health Authority and Oregon Department of Education to share in responsibility for collaborative efforts to increase youth sexual health education and services.

### **Funding Streams**

The Title V Federal Abstinence Education Program grant provides annual funding of approximately \$818,000 to the My Future–My Choice Program through 2018. DHS submits a request for funding each year and continued funding is contingent on federal budget approval.

### **Funding Justification, And Significant Changes**

This does not include statewide reductions.

The Youth Services Program is funded at Current Service Level

# Department of Human Services: Family Support and Connections Program

Primary Long Term Focus Area: Safer, Healthier Communities  
 Secondary Long Term Focus Area: N/A  
 Program Contact: Belit Burke

## Program Overview

Family Support and Connections (FS&C) is a child abuse and neglect prevention program that provides a wide array of services including home visits, resource brokering and parenting classes. These families primarily are eligible for the Temporary Assistance for Needy Families (TANF) program, which is a safety net program that provides cash assistance to parents. FS&C services are generally provided to families with barriers or issues putting them at a higher risk of involvement with the Child Welfare system.

## **Program Funding Request**

<b>FAMILY SUPPORT &amp; CONNECTIONS</b>	<b>GF</b>	<b>OF</b>	<b>FF</b>	<b>TF</b>
LAB 15-17	\$ 265,881	\$ -	\$ 3,943,763	\$ 4,209,644
GB 17-19	\$ 275,719	\$ -	\$ 3,943,763	\$ 4,219,482
Difference	\$ 9,838	\$ -	\$ -	\$ 9,838
Percent change	3.7%	0.0%	0.0%	0.2%

## **Program Description**

FS&C is a component of the continuum of community supports to prevent child abuse and neglect. This program focuses on TANF families who may be at risk for involvement with the child welfare and foster care systems. DHS collaborates with numerous local and state, informal and formal prevention services, and activities to meet families' needs. Program staff work within the existing community structure to coordinate referrals and deliver direct services where gaps or needs exist for a family.

Services are designed to increase parental protective factors and decrease the risk factors of child abuse and neglect. Services are delivered in part through use of home visit models proven effective with this population. For the fiscal year ending June 2015, the program served 3,102 new families. This program provides home visiting services in all 36 counties and works collaboratively with Self Sufficiency and Child Welfare program staff, contracted staff and other community partners.

FS&C also provides services and supports for families helping them move towards greater independence while promoting the health and well-being of all family members. The service array focuses on immediate crisis needs of families but also provides prevention and early intervention services to help families avoid reaching a crisis.

Because a diverse population is served through the program, FS&C providers are asked to design their program in a culturally appropriate way to best meet the needs of the families served. This is achieved, in part, by hiring staff who reflect the demographics of the local community. Local FS&C Steering Committees give guidance and direction on how services are provided to ensure community linkages are established. The local steering committees are also required to have membership representative of the cultural diversity in the district they serve. The steering committees also include representatives from local agencies working with minority and special needs populations, and faith-based organizations.

Occasionally referrals are made to Child Welfare but in the cases where risk does exist, the early intervention and assistance from FS&C can help keep children safe and stabilize families sooner.

The program provides short-term interventions including home visits, family assessments, advocacy for services in the community, supports to strengthen parenting, coping and other skills to support the healthy development of children, individualized interventions and joint outcome-based case planning. The services are community-based and tailored to meet a family's needs. FS&C advocates support the family by working with them to identify risks and strengths. Together they tackle issues before there is irreversible damage, reducing the incidence of child abuse and neglect.

FS&C aims to build genuine partnerships with families that recognize their strengths in the context of the family's culture. This program combines the best practices of a family strengthening model with a unique partnership providing joint case planning with FS&C, Self Sufficiency, and Child Welfare programs. FS&C also uses a combination of principles with an empowerment approach and building a helping alliance with the family. Families may volunteer for the program.

The major cost drivers are the number of families in need of child abuse and neglect prevention services as well as the number of contracted staff needed to provide the preventative interventions. The program has a small budget which does not accommodate the actual need.

### **Program Justification and Link to Focus Areas**

This program focuses on building safer, healthier communities by promoting its goal of increasing child safety and contributing to family stability. By achieving this goal, the program helps to reduce or prevent TANF children from entering the child welfare and foster care system. Children who enter foster care are more likely to struggle with school, experience homelessness and unemployment, and may become part of the juvenile and adult corrections system. Most TANF families served through FS&C have significant needs that include needing help with parenting, housing or other stabilization services. TANF is an important part of the service array, providing cash assistance, case management, and employment and training services to families with children living in extreme poverty.

**Program Performance**

The primary performance measure is the percentage of children entering foster care who received TANF 60 days prior to foster care entry. Since the recession and the slow economic recovery, more families have been accessing programs for low-income Oregonians such as TANF. The display below shows the percentage of children entering foster care who had received TANF has also been increasing.

There continues to be a high percentage and disproportionate number of African-American children who received TANF prior to entering foster care. The TANF program and FS&C is aligning with Child Welfare, and other family stability efforts such as the Strengthening, Preserving and Reunifying Families (SPRF) initiative to better serve all at-risk families and improve equity in outcomes for populations which are overrepresented in both TANF and Child Welfare. The SPRF funding has increased local service provision availability in communities specific to this population. Applicants had to demonstrate in their request that the community demographics were included and plans to implement programs equitably.

### **Enabling Legislation/Program Authorization**

Title II of the Child Abuse Prevention and Treatment Act (CAPTA), as amended by P.L. 111-320, authorizes grant funds to be released to the states and names the program Community-Based Grants for the Prevention of Child Abuse and Neglect (CBCAP). The grant requires a 20 percent match of State General Funds.

The TANF program is authorized under Title IV-A of the Social Security Act, as amended by the Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (PRWORA), and the Deficit Reduction Act of 2005.

### **Funding Streams**

The FS&C program is funded with a blend of TANF Federal Funds, CBCAP grant funds and State General Fund dollars. The CBCAP grant awards additional leveraged funds each year based on a formula giving credit for the previous year's contribution of state General Fund dollars. In addition, individual contracted programs in the DHS districts add leveraged funds on the local level from agency donations, grants and fundraising.

### **Funding Justification, and Significant Changes**

This does not include statewide reductions.

Family Support and Connections is funded at Current Service Level

# Department of Human Services: Delivery and Design

Primary Long Term Focus Area: Safer, Healthier Communities  
 Secondary Long Term Focus Area: Excellence in State Government  
 Program Contact: Dan Haun

## Program Overview

This program provides design, personnel and service delivery in addition to oversight, planning, reporting, implementation, training, eligibility and benefit issuance for programs that support a diverse, low-income population in need of economic supports and self-sufficiency services to meet their basic needs. The last economic recession triggered a dramatic increase in demand for these services which include food and cash assistance, and other programs that enhance employability and support job retention among clients.

Self Sufficiency reallocated staff resources to meet client demand and increase positive outcomes for TANF clients. This was accomplished by staff reallocation approved in the 2013-15 biennium. These positions provide families, who are

living at an estimated 37 percent of the federal poverty Level, with services to stabilize their living situations and increase their earning potential to move them off of state-provided services. This investment increased case managers from 35 percent of workload to 59 percent of workload by the end of the 2013-15 biennium. As of the spring 2016 forecast, we were at 78 percent of need for the 2015-2017 Biennium. We are projecting to maintain 78 percent of need through the 2017-2019 biennium,

The TANF program has reinvested funds into efforts that maximize the dollars for benefits that are targeted at building participant progression in work related activities, identifying and building on skills and leveraging community collaborations to provide solid foundations that lead not only to employment placement but retention and advancement. The recent investments in the program have led to consistent employment placements of 13,531 for the SFY 2016.

House Bill 2015 and the Reauthorization of Child Care and Development Fund act of 2014 have strengthened the Employment Related Day Care Program through several program enhancements. DHS implemented enhancements on October 1, 2015. Working students, and self-employed families can access affordable quality child care while they improve their life circumstances, making it easier to move out of poverty. A 12 month eligibility period, three months of work search for a parent who has lost a job, continued child care coverage while on medical leave and a higher exit income limit allow for continuity of care for children. Additional changes include incentive payments for quality rated child care providers and a reduced copay incentive for parents who use a quality rated child care provider. Program improvements have reduced the number of cases lost through attrition, meaning families are staying on ERDC longer allowing for continuity of care for children.

Percent Change	7.30%	61.46%	5.89%	6.67%	0.10%	0.50%

## **Program Description**

This program encompasses and supports the personnel necessary to provide eligibility and family engagement services to vulnerable Oregonians who request assistance to meet basic needs such as food and shelter, and need access to employment programs. Self Sufficiency family stability and work support programs include the following:

- Temporary Assistance for Needy Families (TANF) provides cash assistance, job preparation services and community connections to low-income families with children while they strive for self-sufficiency.
- TANF Jobs Opportunity and Basic Skills (JOBS) program is an employment and training program.
- Supplemental Nutrition Assistance Program (SNAP) helps low-income families buy healthy foods to meet their nutritional needs.
- SNAP can also provide limited assistance with job search and links to employment resources through the Oregon Food Stamp Employment and Training (OFSET) program and the 50/50 Employment and Training Program.
- Employment Related Day Care (ERDC) helps low-income, working families with quality child care.
- Family Support and Connections (FS&C) provides local advocates who work with families to help those overcome parenting challenges in order to create family stability and reduce the risks of Child Welfare involvement.
- Temporary Assistance for Domestic Violence Survivors (TA-DVS) provides up to \$1,200 to help pregnant women and families flee or stay free from domestic violence.
- Refugee Services support the successful resettlement of families in the U.S. who are fleeing persecution in their countries of origin.

Since the start of the last recession, demand for these services grew dramatically. The department continues to handle high caseloads in its primary self-sufficiency programs. In 2015, on average, 759,119 people – or one in five Oregonians – got help purchasing food for their families through programs like SNAP.

Approximately 62,897 individuals are receiving cash assistance through TANF to cover their family's basic living expenses such as rent and utility payments. Other programs, such as the child care subsidy, help parents provide the safe, reliable child care that keeps parents employed.

Major cost drivers for the personnel need for Self-Sufficiency Program Delivery and Design are federal or state program mandates, economic conditions which affect caseload size, such as the number of Oregonians needing assistance, personnel turnover, the related training and travel costs, the work effort required to provide services, and personnel packages such as position cost, infrastructure improvements, etc.

### **Program Justification and Link to Focus Areas**

This program primarily supports the Safer, Healthier Communities focus area by helping Oregonians meet their basic needs such as food, housing and medical care referrals in order for people to be healthy and have the best possible quality of life at all ages. It also links to the Economy and Jobs, and Safety Outcome areas.

Staff supports basic needs programs such as financial assistance, food assistance, medical insurance (referral only), child care, domestic violence services, employment and training, refugee and youth services. Also, staff is responsible for disaster program delivery when needed and as identified by the federal program.

Staff at the state and local levels coordinates with Child Welfare to work with families to increase their stability and prevent Child Welfare involvement. This collaboration helps to support the focus by ensuring children are cared for regardless of the system of service. Other collaborations have been built around domestic violence, housing, alcohol, drug and mental health treatment, workforce development, vocational rehabilitation, health care, and education.

### **Program Performance**

Personnel resources provide performance in the delivery of programs within Self Sufficiency. A workload model is used to provide a basis for determining personnel needs to adequately support those seeking services. The spring 2016 forecast below provides a comparison of the delivery positions authorized by the 2015-2017 Legislature, showing the investment of reallocating positions, and the need based on work effort to meet the service delivery need:

SSP   Workload Model					17-19 GB

The work of staff in administration and central support is not included in the workload model; however, the work of central support staff is vital to the delivery of services in field offices. Central support provides the oversight of policy development, program design, and changes required through legislation, as well as federal reporting compliance, and has not been adequately staffed for several years.

The chart below provides a comparison of the caseload growth to the personnel growth providing a stark display of how our current resources are struggling to keep pace with the need of vulnerable Oregonians.

The above chart represents only SSP. It does not show the total SNAP Caseload nor the staff associated with APD.

We are committed to continually evaluating how to work in a more lean and efficient way to help streamline our efforts and improve outcomes for our clients and our budgets. As an example, improvements continue in how we interview and

determine eligibility for SNAP and TANF. This greatly improved the capacity of staff to see clients and issue benefits quickly, and helps us gain monetary performance awards to further benefit the state. The United States Department of Agriculture (USDA) Food and Nutrition Service (FNS) recognized Oregon as a national model for effective administration of the SNAP program. FNS awarded Oregon performance bonuses totaling \$3.2 million for its timeliness in issuing benefits and for program accessibility.

This active process of identifying ways to improve efficiencies allowed the Self Sufficiency Program to reinvest staff resources to close the gap between positions needed and those authorized in the 2013-2015 biennium. The Self Sufficiency Program continues to identify opportunities for other efficiencies as the delivery programs are at 66 percent of needed positions based on client demand. We are developing new models of delivery that will include online applications, electronic workflow and distribution which, over time, will allow staff to spend less time on paperwork and more time working directly with clients providing services such as referrals to community resources, employment and training assistance, and case management.

Additionally, program areas are developing strategic plans for program delivery, including high priority areas where breakthroughs are desired in either outcomes or the way work is done. One high priority area we share with the Vocational Rehabilitation and the Aging and People with Disabilities programs is on increasing employment outcomes for clients. We can best meet the needs of our clients by collaborating across programs to help them progress quickly along the road to self-sufficiency.

### **Enabling Legislation/Program Authorization**

Self-sufficiency programs have varying levels of mandates from federal law and the Oregon constitution. SNAP and Medicaid are federally mandated programs. TANF is a federal block grant program. It is authorized under Title IV-A of the Social Security Act, as amended by the Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (PRWORA), and the Deficit Reduction Act of 2005. A significant portion of the TANF eligibility criteria is codified in State statute chapters 411 and 412. DHS has statutory authority to administer the ERDC program through ORS 409.010(2) (c), 411.141 and 418.485. Family Support and Connections services are authorized through the Title II of the Child Abuse Prevention and Treatment Act (CAPTA), as amended by P.L. 111-320.

### **Funding Streams**

Funding for personnel for Program Delivery and Design is determined through Random Moment Sampling Surveys to identify which programs are being worked on in the moment and the funding split for administration of the program. With RMSS, field delivery staff are required at random intervals to indicate the time spent on various activities to determine the level of federal funding which directly supports our ability to provide Self Sufficiency Program services. The funding is a mixture of Federal and General Funds that cover the work done by the employees to support the programs that they work in. The main grant used is SNAP Administration funded 50 percent Federal and 50 percent General Funds. TANF and CCDF funds also are used and both are 100 percent General Fund for administration.

### **Funding Justification, And Significant Changes to 17-19 CSL**

This does not include statewide reductions. Self Sufficiency Design & Delivery is funded at current service level.

## Department of Human Services

### Child Welfare Program

---

#### *Mission*

Protect Oregon's children by assisting families in improving their capacity to provide safe and nurturing living environments for their children; and providing for the safety, well-being and permanency for children experiencing out of home care.

#### *Goals*

Safe and equitable reduction in the number of children experiencing foster care.

- **Safety:** Protect children from abuse and neglect, keeping them safely at home whenever possible and appropriate
- **Permanency:** Find safe, permanent stable homes for children
- **Well-Being:** Ensure children in foster care are well cared for, remain connected to family, siblings and support networks, and receive appropriate services
- **Service Equity:** Provide culturally appropriate, equal access and equitable treatment for all children served by the Department
- **Quality Assurance/Continuous Quality Improvement:** Continue an integrated practice of quality assurance and continuous quality improvement for defining, measuring, and improving outcomes for Oregon's children and families

#### *Program*

Child Welfare Programs serve children and families when children are subject to abuse and neglect. Trained child welfare staff respond to all reports of child abuse and neglect, and if a child cannot be safe at home, a foster care placement is made. The primary goal of child welfare is to keep children safe, while providing services to support timely and safe return to their families. Whenever possible, services are provided to prevent out-of-home placements.

The program areas within Child Welfare are:

- Safety
- Well-Being
- Permanency
- Program Design & Delivery
- Federal Program Performance & Reporting

### *Individuals We Serve*

Children served in Federal Fiscal Year (FFY) 2016:

- 11,493 children spent at least one day in foster care
- 73,359 reports of abuse and neglect were received
- 34,045 reports were referred for investigation
- 7,679 reports were founded for abuse or neglect involving 10,004 victims
- 46.1 percent of the victims were younger than 6 years old

### **Child Safety**

The Child Safety program provides protective and social services to children and families when allegations of child abuse or neglect are reported. Specially trained workers conduct comprehensive safety assessments and make determinations about the following: child safety, the presence of abuse, if services would benefit a family or whether safety intervention is required due to the presence of safety threats. Safety services are delivered through Department staff or contracted providers in a linguistically and culturally appropriate way.

With very few exceptions, a child abuse report begins with a call to a child abuse hotline. Trained Social Service Specialists screen reports and collect key information. If the report meets criteria to be assigned for an in-person investigation, the family's information is given to a trained Child Protective Services (CPS) worker who will conduct a comprehensive safety assessment.

### *Family Support Teams (also referred to as Addiction Recovery Teams or ART Teams)*

These teams provide coordinated, culturally appropriate multi-disciplinary services to substance abusing family members whose issues are identified through a comprehensive safety assessment.

### *Domestic Violence/Sexual Assault*

DHS makes grants available to domestic violence and sexual assault service providers throughout Oregon. These providers offer crisis lines, crisis response, emergency shelter and other related services to survivors of sexual assault, survivors of domestic violence, and their children, in a culturally and linguistically appropriate manner.

### *Strengthening, Preserving and Reunifying Families (SPRF)*

The Strengthening Preserving and Reunifying Families law (ORS 418.575-418.598) allows funding for an array of services for families through collaboration between DHS and local community partners. The Department has developed outcome-based contracts for services to specifically address the needs of children and families who come to the attention of child welfare through a screened in report of abuse or neglect. These outcome based contracts are foundational for an overall ability to report on results associated with SPRF services and funding.

### *In-Home Safety and Reunification Services (ISRS)*

This program provides culturally appropriate intensive, short term services to families with children who can remain safely in their homes, or communities, and to children and families who are safely reunited. ISRS provides a combination of safety and strengths-based services that lead to lasting safety changes within the family. These services are time limited and are complemented by SPRF services for families in need of longer term or more intensive services.

### *System of Care (SOC)*

System of Care funds support Oregon's most vulnerable children by providing local child welfare offices with the flexibility to purchase specific services to meet a family's needs; to assure the safety, permanency and well-being of their child(ren). Services are identified and planned for through family involvement in case planning. Whenever possible, shared funding of custom-designed services is achieved through collaboration with community partners.

### *Differential Response (DR)*

Differential Response is a family-centered approach which focuses on protecting children to ensure a successful future. DR occurs at the front end of the child welfare system and allows for an alternative path of intervention for a family with a screened in report of abuse or neglect when safety can be assured at home.

There are three parts to Oregon's implementation of DR:

1. Continued focus on practice fidelity to the Oregon Safety Model (OSM);
2. Strengthening, Preserving and Reunifying Families (SPRF) services; and
3. Staged implementation of Oregon's DR model.

The goals of implementing Differential Response in Oregon are as follows:

- More children will be kept safely at home and in their communities
- The community and DHS will work in partnership with a shared responsibility for keeping children safe
- Families will partner with DHS to realize their full potential and help develop solutions to their challenges
- Fewer children will re-enter the child welfare system
- Disproportionality will be reduced among children of color

Differential Response started in Lane, Klamath and Lake Counties in May of 2014. DR is now in place in 12 counties with four more, including Multnomah County, in the readying stage. DR was put on hold in May of 2016, pending the arrival of the new Child Welfare Director. Although the new Director began in early November 2016, it is likely a final decision regarding DR will not occur until the spring of 2017, pending the findings of the interim evaluation report due in January 2017. DHS has contracted with an external evaluator to conduct this analysis.

For more information please visit the Differential Response website:

<http://www.oregon.gov/DHS/CHILDREN/DIFFERENTIAL-RESPONSE/pages/index.aspx>

### *Interstate Compact on the Placement of Children (ICPC)*

The Interstate Compact was adopted into law by the 1975 Oregon Legislature. At this time, all states are members of the Compact, as well as the District of Columbia and the U.S. Virgin Islands. The Compact requires entities seeking to place children with out-of-state families, or into certain types of out-of-state treatment facilities, to obtain approval from the Child Welfare authority in the receiving state before making the placement.

### **Well-Being**

#### *Foster Care*

Foster Care services include Relative Care, Family Foster Care and professional level of care such as Shelter Care and Behavioral Rehabilitation Services provided in therapeutic home settings or residential settings, through contracted Child Caring Agencies (CCAs). The foster care system operates 24 hours per day, seven days per week to accept and care for children who cannot remain safely at home. Oregon's goal aligns with the federal requirement of placing a child in the least

restrictive, most appropriate setting that meets the child's individual needs when the child cannot safely be cared for by his or her parent(s).

This program focuses on the Well-Being of children while they are in foster care and is responsible for recruitment, certification, training, and providing support to retain families that provide foster care (both general applicants and relative providers). Families are trained by agency staff and through contracted providers. They participate in, and must pass, a Structured Analysis Family Evaluation (SAFE) home study, designed to evaluate a family's suitability and readiness to meet the needs of children that enter the child welfare system, they must also pass a criminal background check, reference checks, and a review of Oregon's abuse registry which includes all prior abuse reports on children or adults. In addition to the above, this program provides recruiting, contracting, training, support and monitoring of all contracted child caring agencies.

DHS partners with community members, local and national foster care organizations, provider organizations, youth led organizations and organizations representing diverse cultural perspectives to deliver services throughout the State.

DHS works in collaboration with multiple State and local government agencies such as the Oregon Health Authority, Oregon Department of Education, local law enforcement, community programs, schools, the faith community and volunteer programs to identify and develop a local array of services. The Well-Being program is responsible for the overall well-being of children in DHS care by addressing behavioral, emotional and social functioning, meeting core educational needs, assuring appropriate physical, dental and mental health care, and maintaining safe family and community connections.

#### *Youth Transition Services*

The Independent Living Program (ILP) serves current and former foster youth up to age 21. Services include assistance with developing life skills including money management and budgeting, communication and social skills, establishing community connections and healthy supportive relationships, informed decision-making, parenting, health, education support, housing, and job readiness. A primary focus is to develop transitional plans to ensure high school completion and a successful transition to post-secondary education or employment at a level that allows youth to be self-sufficient. Housing support options are available to eligible

youth through the federal Chafee housing and independent living subsidy programs.

Youth Transition Services also include services for Homeless and Runaway Youth. The Department has a dedicated Homeless Runaway Youth program coordinator responsible for leading a quarterly advisory committee, contracting with and otherwise supporting statewide services for Homeless and Runaway Youth.

### *Medical Services*

DHS puts a high priority on assuring that children in out-of-home care receive appropriate medical, dental and mental health care. Effective August 15, 2016, DHS established a program requiring that every child placed in out-of-home care receive an assessment by a contracted registered nurse shortly after their placement. This in no way eliminates the need for a child to be seen by a physician, dentist and mental health provider as required by policy, but is an additional step to assure that children's needs are being met upon their entry into care, and that any conditions are identified and acted upon as early as possible. In addition, annual medication reviews are completed for every child in out-of-home care that is prescribed three or more psychotropic medications and for every child under age six prescribed any psychotropic medication to assure appropriate care.

### **Permanency**

DHS' first goal always is to safely and successfully reunify children their parent(s). Unfortunately this is not always possible and when a child is unable to safely reunify with his or her parent(s), DHS helps find a permanent family through adoption or guardianship. Once children are placed with a permanent adoptive or guardian family, the Permanency program continues to provide services and supports up to age 18, to help meet the special needs and challenges children who have been abused and neglected may experience.

DHS is also responsible for the coordinating the Voluntary Adoption Search and Registry Program for Oregon's public and private adoptions. This registry may also include adoptions for children with relatives living in other countries pursuant to The Hague Convention and the Inter-country Adoption Act.

### *Title IV-E Waiver Demonstration Project*

Oregon's Title IV-E Waiver project is titled *Leveraging Intensive Family Engagement (LIFE)*. LIFE is a locally-developed values-based intervention

focused on addressing gaps and challenges to reduce the time to permanency for high risk children. LIFE has four key features:

- Family Finding: identify and engage a broad network of family support and placement resources
- Case Planning Meetings (CPMs): case planning and monitoring support informed by child and family voice
- Peer Parent Mentors: help parents engage in CPMs and services to assist them in navigating the child welfare/service systems
- Collaborative team planning between service providers, DHS, and the family involved with the case

The goal of the LIFE project is to safely and equitably reduce the number of children who might otherwise remain in care for three years or longer. Eligible children and their siblings are identified shortly after removal based on key indicators. Then the Family Engagement Facilitator begins intensive work with the caseworker, child, parents, and family to develop a plan of reunification, adoption, or guardianship in a timely manner.

### **Program Design & Delivery**

Oregon has a state run, county administered child welfare program. Staff in the central office support field staff through policy and rule development, assuring compliance with federal and state regulations, quality monitoring, technical assistance, evaluation and program analysis, developing consistent business processes and standards, and identifying best practices. Other services provided include coaching, training and continuous quality improvement aimed at improving outcomes for Oregon's children and families.

Managers and supervisors in local child welfare offices provide clinical supervision of direct service staff. Whenever possible Child Welfare staff coordinate service delivery with staff from our Self-Sufficiency offices to support family stability and prevent entry/re-entry into the child welfare system. In addition, child welfare staff coordinate with other child and family serving systems including Housing, Oregon Health Authority, Oregon Department of Education, county-based health and support services, and others.

Child Welfare employees provide direct services in local offices. For a list, see: <http://www.oregon.gov/DHS/children/child-abuse/Pages/Reporting-Numbers.aspx>

### *Indian Child Welfare Act (ICWA)*

Native American children are currently over-represented in Oregon's child welfare system. Compliance with the Indian Child Welfare Act is a Federal mandate. DHS has Tribal Liaisons in the child welfare field offices to enhance relationships with Tribal governments and to work with Tribal children and families to reduce disparities, improve compliance with the Act, and improve outcomes for Tribal families.

### **Federal Program Performance & Reporting (FPPR)**

This program is responsible for ensuring Child Welfare remains in compliance with federal program standards to assure continued federal financial support for the Child Welfare programs and services described above. In addition, FPPR is responsible for all required federal reporting. The primary goal of FPPR is to maximize the use of federal funds while assuring the following funds are used solely for allowable services, administrative costs, and activities.

- Title IV-B, Subpart 1 & 2
- Title IV-D – Child Support
- Title IV-E – Foster Care, Adoption Assistance and Guardianship Assistance
- Title XIX – Medicaid
- Title XX – Social Services Block Grant
- TANF EA – Emergency Assistance

# Department of Human Services: Child Safety

Primary Long Term Focus Area: Safer, Healthier Communities

Secondary Long Term Focus Area:

Program Contact: Stacey Ayers, Child Safety Manager

## Program Overview

This program provides protective and social services to children and families when allegations of child abuse or neglect are reported. Specially trained workers conduct comprehensive safety assessments and make determinations about the following: child safety, the presence of abuse, if services would benefit a family or whether safety intervention is required due to the presence of safety threats. Services are delivered through DHS staff or contracts that require linguistically and culturally appropriate service provision. They are delivered in a manner that is designed to keep children safely with their parents, whenever possible, and to quickly and safely reunite children with their parents when they have been removed.

### **Program Description**

The Child Safety Program is comprised of Child Protective Services (CPS) and Differential Response (DR); and is responsible for assuring child safety throughout the State. On May 1, 2014, the Department officially began DR in three Oregon counties: Lane, Klamath and Lake. As of November 1, 2016, DR is being practiced in a total of 12 counties, which includes 9 additional counties: Linn, Benton, Lincoln, Washington, Clackamas, Coos, Curry, Jackson and Josephine.

Approximately, half of the DHS child welfare staff in the state are practicing DR. In May 2016, DR was put on hold pending a decision on how to move forward by the incoming child welfare director. The new director started in November, 2016 and will make a decision regarding further implementation of DR based on a review of the first Outcomes Evaluation, and a recommendation from the DR Advisory Committee, meeting early in 2017. In the traditional response, CPS staff in field offices respond to and assess allegations of child abuse and neglect and are usually the first contact for families with the child welfare system. DR provides more than one way for CPS workers to respond to allegations of child abuse and neglect. One way is the traditional response and the other is the alternative, response. By design, the alternative response has the potential for engaging families differently from the beginning to assess child safety and provide a better connection for families with preventive, community based services that may prevent further contact with the child welfare system.

The alternative response allows CPS workers to seek safety through more intentional family engagement and collaborative partnerships with community organizations. This approach also focuses less on investigative fact finding and more on assessing and ensuring child safety, and helping families identify their needs to keep their children safe. Whether a family receives a traditional response or an alternative response is a decision that will be made by a specially trained child welfare screener. That response decision will depend primarily on the severity of the reported abuse and neglect. More severe allegations like sex abuse, and allegations of severe physical abuse will receive a traditional response, while allegations of neglect with no severe harm to a child will be assigned an alternative

response. Comprehensive safety assessments will occur in both the traditional response and the alternative response. DR is one of the Department's strategies for safely and equitably reducing foster care.

Generally, the Child Safety Program is the program area where children enter the State foster care system. Foster care is a temporary service, designed to keep children safe while we work to manage safety threats and enhance the parents' protective capacities. We work with families to make sure that children are only removed when they cannot safely remain at home. When children are placed in care, which can only be done with court approval, we place urgency on ensuring that children get home quickly and connect to family or other relatives whenever possible. Child abuse investigations are not voluntary. They are inherently intrusive and can be traumatic to families. The DR system is being implemented with an emphasis on reducing the intrusive nature of child abuse investigations, when possible and focusing on family engagement. The Child Safety Program can best be described in three sections: Screening, Assessment and In-Home services.

### **Screening**

Screening is the front door of the service delivery system that with few exceptions, begins with a child abuse report at a child abuse hotline. Trained staff screen approximately 69,972 child abuse reports from all across the State each year and collect key information from the reporter of the abuse in order to determine how the report of child abuse and neglect should be handled. If the report meets the criteria to be assigned for an in-person investigation, the family's information is given to a DHS Child Protective Services (CPS) trained worker who will conduct a comprehensive safety assessment of the family in a respectful and sensitive manner. If DR continues to be implemented in Oregon, screeners will have increased responsibilities once a determination has been made that a report meets criteria to be assigned. In counties where DR has been implemented, screeners will also be required to determine the type of response a family will receive.

### **Assessment**

Of all reports of child abuse or neglect, approximately 32,682 cases per year were referred for investigation. As part of the comprehensive safety assessment the DHS CPS worker gathers information in the following categories: Extent of the maltreatment, circumstances surrounding the abuse, adult functioning, child functioning, parenting practices and disciplinary practices. With DR, this type of comprehensive safety assessment will continue to be required with a traditional or alternative response assessment. Cultural and linguistic considerations are also

factored into the process. This important information is used to determine overall child safety. In counties where DR has been implemented, in addition to the comprehensive safety assessment, families with safe children may receive additional voluntary services based on their level of need. This approach is based on two key principles: 1) Identifying family issues and intervening early leads to better results than waiting until a family is in greater crisis. 2) Families can more successfully resolve issues when they voluntarily engage in solutions and drive service selection and supports.

### **In-Home Safety and Reunification Services (ISRS)**

The ability to keep children safely at home is in large part dependent on the services that can be wrapped around the family to support them while safety concerns are addressed. Services are available to families during the course of child abuse assessments when child safety issues are present. Services are designed to ensure a safe environment for children without removing them from their parent or caregiver. If circumstances require a child be removed from their parent or caregiver, these services provide necessary support to the family so the child can be safely reunited with their family. These services are specifically intended to help families remove barriers to managing identified safety threats with the goals of prevention of foster care placement by maintaining a child safely in the home with a parent or returning a child home to a parent.

These services support crucial child welfare initiatives to increase the number of children who can remain safely at home after a safety threat is identified, and decrease the length of time a child spends in foster care if removal is required. By contracting with a wide variety of providers, ISRS also allows for a culturally and linguistically specific approach in an effort to reduce the disproportionate placement of children of color in foster care.

Legislation in 2011 created Strengthening, Preserving, and Reunifying Families (SPRF) programs and identified them as another primary program to serve families involved in the child welfare system. The goal of these programs is to foster collaborations between state and community programs and resources, as well as help children remain safely with their families. This must occur through partnerships and collaborations with State and community programs and resources that will stabilize the family in their time of need, work with the family to develop goals for family preservation services, family reunification services and empower the family to make changes which may alleviate the need for an out-of-home placement.

These programs are potentially an enhancement to ISRS services, and are delivered through contracts with community providers. Parents and families benefit from DHS and communities working together to provide stronger up front services and use voluntary engagement in solutions, services, and supports to achieve more successful resolution of issues.

An additional anticipated outcome will be the safe and equitable reduction of children in the foster care system by increasing the number of African American and Native American children remaining home with their families by providing culturally relevant and linguistically specific whenever available.

A key necessary partner for program success is the Attorney General's Office who provides most of the legal representation to DHS for all children under its jurisdiction. DOJ also files and litigates termination of parental rights cases. In most cases, the local County District Attorney office provides legal services representing the State, from the petition until jurisdiction.

### **Program Justification and Link to Focus Areas**

There is a direct link between the Child Safety Program and the Safety Outcome that Oregonians will be safe where they live, work and play. Each year, thousands of Oregon families come through the child welfare system due to allegations of child abuse or neglect.

The services are designed to strengthen families and to prevent further child abuse and neglect. We provide support to prevent the unnecessary removal of children from families, and promote the reunification of families where appropriate. Drug and alcohol abuse, together with domestic violence, are the two major family stressors contributing to children entering foster care in Oregon. By supporting families early with services designed to keep children safely with their parents, costly foster care placements are avoided. The average monthly cost per child in foster care is approximately \$2,500.

Without the services and interventions that are provided to parents and their children there are costs that will be felt at a later date in the Safety and other Outcomes areas. For example, often it is the risk of having their children placed in foster care that motivates parents who are deep into drug or alcohol addiction to seek treatment and maintain sobriety. Not only does seeking treatment and maintaining sobriety help keep their children in their home, but it also allows

parents to take the steps needed to be self-sufficient, reducing costs in the Economy and Jobs Outcomes area. It decreases the likelihood that these parents will engage in illegal activities and any resulting criminal proceedings or incarceration, reducing future costs to the Safety Outcomes area.

Similarly, helping a family deal with their domestic violence issues so that the children and non-offending parent can live without fear and further violence reduces long-term costs that are associated with the child's education performance (Education Outcomes Area) and the child's and non-offending parent's health and well-being (Healthy People outcomes area). Being able to provide In-Home and Reunification Services reduces the costs of foster care (Safety Outcomes area).

### **Program Performance**

The Child Safety Program measures its performance in three primary categories:

- **First contact:** As a way to measure how well DHS assures initial child safety, the timeliness of first contact is measured for those reports of child abuse and neglect that are assigned for in-person investigation. In 2014, timeliness of first contact dropped to 60.1 percent. The Department will be developing a Program Improvement Plan to improve this measure.
- **Assessment:** DHS measures the comprehensiveness of the CPS assessment, the level of services that were provided and the appropriateness of safety planning for the child by monitoring whether the child experienced repeat maltreatment within 12 months of a prior abuse. The time period for this measure recently changed from 6 months to 12 months which has changed the outcome of this measure.
- **Re-abuse** From 2007 through 2010 re-abuse rates improved incrementally. Since 2012 the re-abuse rate has remained between 2.6 percent and 4.2 percent. By expanding the time frame the actual rate has also increased. Currently the department is equal to the national standard for this measurement at 9.1 percent. The number is trending in a positive which suggests that CPS assessors are doing a better job assessing child safety and intervening to prevent additional incidents of abuse.

### **Enabling Legislation/Program Authorization**

ORS 419B.020 is the statute that mandates the Department and Law Enforcement to conduct investigations upon receipt of reports of child abuse or neglect.

The Federal Child Abuse Prevention and Treatment Act (CAPTA) is one of the key pieces of legislation that guides child protection. CAPTA, in its original inception, was signed into law in 1974 (P.L. 93-247). It has been reauthorized in on multiple occasions since then with multiple amendments that have strengthened and refined the scope of the law.

ORS 418.575 through 418.598, Strengthening, Preserving and Reunifying Families legislation, was passed during the 2011 legislative session. The Federal Indian Child Welfare Act (ICWA) also applies.

### **Funding Streams**

Funding for this program area comes from a combination of sources that are dedicated and do not require a match, as well as leveraged funds which are matched. The following list is inclusive of each of the funding sources:

- Federal Social Security Block Grant (SSBG) accounts for 11 percent of the child safety budget
- Federal Title IV-B part 1 makes up 5 percent
- Federal Title IV-B part 2 makes up 14 percent
- State only General Fund makes up 13 percent
- Federal Family Violence Prevention and Services Program makes up 4 percent
- Federal Title IV-E Waiver makes up 46 percent

### **Funding Justification and Significant Changes to CSL**

This does not include statewide reductions.

Significant reductions are caused by moving two areas (System of Care \$11.4 M Total Funds; and Youth Investment Program \$11.9 M Total funds) to the Well Being Program area. Additionally, we phased out the Designated Health Service Program (\$5.0 M Federal Funds) as it was the end of the 5 year Medicaid waiver program.

Reductions:

- Sexual Assault Victims Services is funding that is specifically designed to assist adult sexual assault survivors with shelter and support services. These services are provided to the community at large, not just Child Welfare involved families. In 2015, Oregon domestic and sexual violence programs

answered 134,888 calls for help, a 3 percent increase over 2014. This included calls about domestic violence, sexual assault, stalking and other issues with 1,484 adult sexual assault survivors receiving services. An elimination of these services would leave many adult victims of sexual assault unable to find safety and support.

- Domestic Violence Services is funding that is specifically designed to assist victims of domestic violence and their children in accessing safe shelter, community based services such as hospital accompaniment and support groups, and in an effort to end violence before it begins, programs provide education and awareness events. In 2015, Oregon domestic and sexual violence programs answered 134,888 calls for help, a 3 percent increase over 2014. This included calls about domestic violence, sexual assault, stalking and other issues. These services are provided to the community at large, not just Child Welfare involved families. In 2015 there were 10,196 requests for shelter unmet with no reduction. An elimination of these services would leave many adult victims of domestic violence and their children unable to find safety and support.
- Recovering Family Mutual Homes - A cut of 30% is larger than appears as these budgets have a Federal match. These services currently provide payment directly to housing for child welfare parents, with their children, coming out of residential A&D treatment settings in three counties. Any cut in these services leads directly to the elimination of housing for individual parents with small children. This reduction will create immediate instability for families whose parent has recently completed A&D treatment. Cutting these services will result in increased barrier to children remaining with their parents which means increases in foster care. Additionally, it will increase length of stay in foster care.
- Recovering Family Mutual Homes additional 15% reduction: A cut of 15% is larger than appears as these budgets have a Federal match. These services currently provide payment directly to housing for child welfare parents, with their children, coming out of residential A&D treatment settings in three counties. Any cut in these services leads directly to the elimination of housing for individual parents with small children. This reduction will create immediate instability for families whose parent has recently completed A&D treatment. Cutting these services will result in increased barrier to children remaining with their parents which means increases in foster care. Additionally, it will increase length of stay in foster care.

- Reduce ISRS budget by 15%, eliminating in-home supports for approximately 390 abused children each year. - ISRS provides services to help manage the safety threats within the family, stabilize the family and provide for the immediate safety of children at risk of maltreatment or when children have been placed in protective custody or foster care this service is to help them return to their parents. A 15% reduction to In-Home Safety and Reunification Services will impact child welfare's ability to: 1) safely keep children at home; 2) return children home in a timely manner; and 3) provide the family supports and services to ensure children aren't re-abused and don't re-enter the foster care system. This reduction is estimated to impact approximately 847 children each year who will now need to enter or remain in foster care rather than safely remain in the home with their parents or safely reunify with their parents. This reduction will impact the department's ability to meet Indian Child Welfare Act and other court-ordered requirements. This reduction will also mean more "no reasonable efforts" or "failure to meet active efforts for ICWA children" findings by the courts, which would impact federal funding for Oregon's foster care (out-of-home care) program. In addition to increased costs in foster care, there will be an increase in costs to courts, defense attorneys, Citizen Review Boards, and others involved in the dependency system. Finally, contractors who provide these services will be impacted and may lay off staff.
- Reduce Strengthening, Preserving, & Reunifying Families (SPRF) budget by 15%. SPRF programs provide a broad array of services that are designed to maintain children safely at home with their parents or caregivers, safely and equitably reduce the number of children in the foster care system, reduce child trauma, reduce the length of stay in foster care, and to reduce the referral or reentry rates of families in the Child Welfare system. SPRF also provides services to families with safe children and moderate to high needs through Admin Only cases through Differential Response and this is the only way these families would be able to access Child Welfare services. A reduction in these services will result in approximately 487 children coming into foster care, staying longer periods of time in foster care or coming back to the attention of child welfare. This reduction will also impact the department's ability to meet Indian Child Welfare Act and other court-ordered requirements. This reduction will also mean more "no reasonable efforts" or "failure to meet active efforts for ICWA children" findings by the courts, which would impact federal funding for Oregon's foster care (out-of-home care) program. In addition to increased costs in foster care, there will

be an increase in costs to courts, defense attorneys, Citizen Review Boards, and others involved in the dependency system. Finally, contractors who provide these services will be impacted and may lay off staff.

- Eliminate Family Support Teams / Addiction Recovery Teams (ART) program, impacting services to approximately 13,400 families and 22,800 abused or neglected children. A 70% reduction would eliminate the statewide program. Elimination of these services will mean more and longer foster care placements; higher re-abuse rates, a decline in parents entering treatment quickly, and an increase in the number of parents who struggle with sustaining their recovery. It will also increase caseworker workload, including A&D referral, treatment monitoring, transport, client tracking and case management, making it more difficult for caseworkers to meet other state and federal mandates. This would eliminate any ability of DHS to respond to clients in relapse, require more children remain in foster care, and eliminate the majority of personnel who serve as DHS liaison to local treatment providers. Longer stays in foster care will increase costs to the state, result in poorer outcomes for children and poorer treatment outcomes for their parents. This would also result in eliminating approximately 50-55 contracted jobs at local employers. Cutting these services will result in increased barrier to children remaining with their parents which means increases in foster care. Additionally, it will increase length of stay in foster care.

## Department of Human Services: Well Being

Primary Long Term Focus Area: Safer, Healthier Communities  
 Secondary Long Term Focus Area:  
 Program Contact: Kevin George, 503-945-5987

Note: On average, there are 8,524 children in substitute care on any given day in Oregon.

### **Program Overview**

The Child Well-Being Program, also known as the Foster Care Program, is designed as a critical safety net for children with immediate safety needs for their basic care. DHS is responsible for accepting and caring for children who cannot remain safely with their parents per ORS 418.015. These children are dependent, neglected, mentally or physically disabled, and placed in the legal custody of DHS by a court. Under limited circumstances and for a short time, a family may place a child in State custody on a voluntary basis. However, most of the children served in foster care are there involuntarily as a result of abuse or neglect they experienced in their family home.

## **Program Funding Request**

<b>CHILD WELFARE</b>	<b>GF</b>	<b>OF</b>	<b>FF</b>	<b>TF</b>
LAB 15-17	\$ 112,535,882	\$ 15,139,405	\$ 98,745,968	\$ 226,421,255
GB 17-19	\$ 140,201,838	\$ 16,535,001	\$ 125,042,253	\$ 281,779,092
Difference	\$ 27,665,956	\$ 1,395,596	\$ 26,296,285	\$ 55,357,837
Percent change	24.6%	9.2%	26.6%	24.4%

*NOTE: significant changes are caused by moving two areas (System of Care \$11.4 M Total Funds; and Youth Investment Program \$11.9 M Total funds) to the Well Being Program area from the Safety Program.*

## **Program Description**

The foster care services program operates 24 hours a day, seven days a week to accept and care for children and youth who cannot remain safely in their family homes. The children and youth range in age from birth to 21 years old. A total of 11,238 children spent at least one day in some kind of foster care in federal fiscal year 2015. The vast majority of these children and youth (88.2%) reside in family foster home settings. There are 3,847 (on 9/30/2015) Oregon families who have stepped forward to be a foster parent for the children. Approximately 40.6% of these certified families are relatives or friends known to child's family who become certified to care for the children.

DHS partners with community members and organizations representing diverse community and cultural perspectives to deliver foster care services to children and youth across the State. The agency has federal and state mandates to provide efforts to reunify children to their parents. Just over 56 percent of children entering care return home to a parent in FFY 2015. There are approximately 30 licensed private child placing agencies in Oregon who are caring for children and youth, most often because the child or youth has a significant behavior or mental health need. Approximately 320 children are placed with Licensed Child Caring Agencies to provide a higher level of therapeutic care.

The Child Well-Being program also responds to the overall well-being of the child or youth in care. Well-being is identified as caring and attending to child's behavioral, emotional, education, health and social functioning. This is best identified through meeting the core educational needs, physical, dental, and mental health needs, needs for family, and community connections.

To be successful in meeting the needs of the children and youth for their safety and well-being, we support current programs while expanding the available service

array. DHS works in collaboration with multiple state and local governmental agencies such as the Oregon Health Authority, Oregon Youth Authority, Oregon Department of Education, and local law enforcement in addition to a significant number of community programs, schools, business and faith communities, and volunteer programs. The Department continues to focus on safely and equitably reducing the number of children that enter the foster care system, and provide for the care and well-being of children who enter the system. Those children who must enter the foster care system generally have greater needs than those who can remain at home or with relatives. The ability of staff to meet the needs of these children and adequately support the foster families caring for them is directly related to staffing levels in the program.

The average monthly cost per child in foster care is approximately \$2,500. There are multiple cost drivers to this program area including the number of children entering the substitute care system due to abuse or neglect, and the number of children who remain in the substitute care system due to the inability to be reunified with family or successfully transitioned to an adoptive family. A significant cost driver is the increased cost of living within the community and daily expenses for providing food, clothing, shelter, education or other support services for children and youths. As an example, foster parents caring for a 10 year old child are currently reimbursed at a rate of \$21.53 per day. This is intended to cover the cost of providing food, clothing, shelter, school supplies, and the cost to participate in activities, etc. Often the additional costs for the child are paid for by the foster parent which remains a barrier for many families and the private child caring agencies across the state. Oregon has not increased the daily rate for family foster care since 2009. In 2009 the rates were increased to reach a percentage of what it would cost to raise a child in 2007. Then in 2011, these rates were decreased by 10%.

Efficiencies to improve outcomes include planning and beginning implementation of Differential Response (described in the Safety Program bid sheet), and a reinvestment in local community services to strengthen families to reduce the need for foster care. In addition, for children who are in foster care, increased attention on the need for educational supports and school placement continuity, increased access and continuity of comprehensive health care (physical, mental and dental health), and increased financial and structural support for foster families, and private agencies who care for the children and youth.

The Well-Being program is also responsible for the certification and support of foster families that care for children in the Department's custody. This includes recruitment, assessment, retention, training, and support. Training of these families is conducted both by agency staff and through contracted providers. Families participate in a Structured Analysis Family Evaluation (SAFE) home study assessment, designed to evaluate a family's readiness to meet the needs of children that enter the system.

### **Program Justification and Link to Focus Areas**

The Child Well-Being Program is an integral part of the State's Plan to achieve a Safer, Healthier Community for the residents of Oregon. As a state policy Child Well-Being programs are necessary to ensure safety for children if and when they are unable to remain safely with their families. The reliance on the foster care system over the years has reached a capacity that is no longer sustainable in Oregon. The Financial support for this system has not kept up with the growing costs which has negatively impacted the ability for potential foster families to step forward to provide family foster care.

Ongoing research indicates if substantive preventive services can be immediately put into place, many children can safely remain at home which reduces the need for children to be placed into the foster care system. Re-directing resources away from the removal of children from families and increasing the capacity of families who currently have children in the substitute care system by investing in upfront and in-home services within communities will pay far greater dividends to Oregon in meeting the outcomes identified in the state's plan.

### **Program Performance**

Program performance is measured in the following ways:

- The number of children entering foster care (3,793) during FFY 2015 increased by 9.3 percent from the FFY 2014 level. The number of children leaving foster care has decreased by 3.2 percent in the same time-frame.
- 56 percent (56.1) of children who left foster care were reunified with their families.
- Median months to exit foster care is 18.3 months, a slight decrease from the year before.

- The numbers of foster families in 9/30/2015 was 3,847 families. This is continuing a downward trend of available foster families from 4,006 in 2014 & 4,229 foster families in 2013.

### **Enabling Legislation/Program Authorization**

There are a number of Federal acts that are centered on the care for children through substitute care programs. Some of the more prominent Federal acts and Federal regulations are noted below.

- *Adoption Assistance and Child Welfare Act P.L. 96-272.* To establish a program of adoption assistance, strengthen the program of foster care assistance for needy and dependent children, and improve the child welfare, social services, and aid to families with dependent children programs. Requires states to ensure and the Courts to determine that reasonable efforts continue to be made on each individual child to mitigate the need for continued foster care.
- *Indian Child Welfare Act (ICWA) PL 95-60.* To establish standards for the placement of Indian children in foster and adoptive homes and to prevent the breakup of Indian families.
- *Adoption and Safe Family Act PL 105-89.* To promote the adoption of children in foster care by placing limitations and timelines.
- *Fostering Connection to Success and Increasing Adoption Act PL 110-35.* To support and connect relative caregivers, improve outcomes for children in foster care.

Title IV-E, The Federal Foster Care Program, helps to provide safe and stable out-of-home care for children until the children are safely returned home, placed permanently with adoptive families or placed in other planned arrangements for permanency. Title IV-B provides grants to States and Indian tribes for programs directed toward the goal of keeping families together. They include preventive interventions so that, if possible, children will not have to be removed from their homes. Finally, the Social Security Act contains the primary sources of Federal funds available to States for child welfare, foster care and adoption activities.

Oregon Revised Statutes that specify which children are involved in the Substitute Care Program can be found under ORS 418.015 Custody and Care of Needy Children by Department and ORS 418.312 When Transfer of Custody Not

Required; Voluntary Placement Agreement; Review of Children Placed in Certain Institutions.

**Funding Streams**

There is a combination of funding sources in the Well-Being Programs. Leveraged funds include: Title IV-E, 28 percent; Medicaid, 25 percent; Title IV-E Waiver three percent; Independent Living, three percent; Other Federal Funds, three percent; TANF 12 percent; Chafee one percent; Social Service Block Grant Federal Funds, four percent; Title IV-B, two percent. The remaining funding is General Fund State Only, approximately 20 percent.

**Funding Justification and Significant Changes to CSL**

This does not include statewide reductions.

**108 Family Foster Care Rate Reimbursement**

General Fund	Other Funds	Federal Funds	Total Funds
7,817,214	0	4,729,612	12,546,826

Reimbursement rates for Family Foster Care have not been adjusted to the cost of living for a decade. In 2009 rates were adjusted to 90% of the cost of care based on a 2007 rate methodology. In 2011, these rates were reduced by an additional 10% due to department budget cuts. The number of families coming forward to provide foster care has continued to diminish over the last 5 years in part due to the low reimbursement rates. The current daily rate is \$18.90 per day for a child under age 5 years old or \$24.36 per day for a teenager. This is intended to cover the costs of food, shelter, clothing, school supplies, extracurricular activities, etc. Based on the methodology created in 2009 Oregon is currently providing only 40-46% of the actual cost of care. Other states have been sued due to the low rate of family foster care payments and Oregon continues to increase the risk of a class action lawsuit. Additional funding for this POP is included in the Permanency bid form.

**109 BRS rates**

General Fund	Other Funds	Federal Funds	Total Funds
2,116,547	0	3,823,804	5,940,351

Update the rate model for Behavioral Rehabilitation Services (BRS) program to pay contracted providers for cost increases above inflation. Rates directly impact state agency's access to these programs. The BRS rate model has not been kept current since first established in 1998. Simply adding inflation to the previous biennium rate has not kept pace with significantly increasing costs. Some of the most heavily used programs have closed over the past two biennia. More programs have signaled if they don't receive more financial support from the state they will have to close soon. This package is most importantly about child and youth safety as well as maintaining access to this essential part of the system serving Oregon's most needy children. Without increases to the rate state agencies will continue to have pressure on the BRS system as provider costs increase and the rate remains inadequate.

#### Reductions:

- Reduce Client Transportation Program by 15%. Any reduction to funding for Client Transportation will have a negative impact on direct services for children, negatively impact their education outcomes, and potentially delay child and family reunification. Currently 69% is being spent on transportation for visits between child(ren) and parents, another 20% for transporting children to and from their school of origin, 2% for transportation to medical appointments, and 9% for transportation to/from activities such as court hearings, and case planning activities. A 15% reduction would result in fewer visits between children and their parents, negatively impacting the child's well-being and causing unnecessary delays in reunification. Any delay in reunification could cause the department to fail the Adoptions and Safe Families Act (AFSA – Public Law 105-89) requirements of moving to terminate parental rights for children who have been in foster care for 15 out of the past 22 months, or cause the department to move toward termination of parental rights without proper and consistent visitation having occurred between a child and their parents.
- Reduce Court Ordered Other Medical Program by 15%. Other Medical funds are used by DHS to obtain services to assist the caseworker in making good case planning decisions for the child and family and to better inform the Courts. Currently, 53% of Other Medical funds are spent on case consultation services, with licensed experts to review case information accumulated over time and assist in developing a timely well-focused case plan; and 47% is spent on psychological evaluations and other testing of parents (including drug testing), used to inform case planning. Other

Medical funding also allows the department to request medical records for a child in care and to request formally supervised parent/child, and sibling interactions.

- Reduce System of Care (SOC) by 15% - flexible fund resource dollars to meet the individual needs of foster children and their families. System of Care flexible funds are used by local offices to address not only the individualized service needs of children and parents, but also and more recently payments that promote a parent's ability to maintain housing while working toward reunification with their children. Cutting SOC by 15% will likely result in reduced ability to meet the unique needs of children and families through client specific services.
- Personal Care: 50% this is closely tied to the reduction of Nursing Assessments. Personal Care is a Medicaid State Plan option in Oregon that allows us to maintain children with medical needs safely in a home-like setting. "This is closely tied to the reduction of Nursing Assessments. Personal Care is a Medicaid State Plan option in Oregon that allows us to maintain children with medical needs safely in a home-like setting. Payment is made under this state plan option to compensate the foster care provider for the delegated medical services they perform for the child in their care. These services are matched at the Federal Medical Assistance Percentage (FMAP) rate of 64.47% in FFY 2017. A 15% reduction = a loss of \$313,056 GF and a total fund loss of \$881,103 in direct medical services provided to children in their foster home. Resulting in the need for these children to be placed, and remain, in a hospital like setting. An additional 15% reduction = a loss of \$313,056 GF and a total fund loss of \$1,762,206 in direct medical services provided to children in their foster home. Resulting in the need for these children to be placed, and remain, in a hospital like setting. An additional 20% reduction = a loss of \$417,409 GF and a total fund loss of \$2,937,013 in direct medical services provided to children in their foster home. Resulting in the need for these children to be placed, and remain, in a hospital like setting. An additional 50% reduction = a complete elimination of the program and the need for all children with medical needs requiring 24 hour per day care to reside in a hospital like setting.
- Youth Investment Program: 50% Runaway and Homeless Youth programs provide Street Outreach, Drop-in Center, and Shelter services which improve the safety and wellbeing of unaccompanied youth under the age of 18. Runaway and Homeless Youth programs provide Street Outreach, Drop-in Center, and Shelter services which improve the safety and wellbeing

of unaccompanied youth under the age of 18. In the past year, Street Outreach and Drop-in services have resulted in 79% of youth accessing food, shelter, educational, job and life skills services. Shelter services have resulted in 81% of youth exiting to a safe home, 60% of those reuniting with family; 53% accessing medical and dental services, and 69% getting connected to educational services. A reduction in funding will result in fewer youth being served by these effective programs resulting in an increase of unaccompanied youth in our State and potentially result in upstream costs, in Child Welfare, Self Sufficiency, and/or the Juvenile Justice and Adult Corrections systems.

- **Enhanced Foster Care – elimination** The Department reimburses a level of care payment to a certified family on behalf of a child or young adult when the child’s behaviors require additional supervision to keep them placed at this lowest level of care. The Department reimburses a level of care payment to a certified family on behalf of a child or young adult when the child’s behaviors require additional supervision to keep them placed at this lowest level of care. The department uses process controls of allowing this enhanced supervision only after the 20th day in foster care, requires an annual review and use of a standardized screening instrument tool CANS to determine which level of care for the enhanced supervision needs. Approximately 38% of the children have an enhanced level of supervision needs. The current daily rates are \$7, \$13 and \$28 per day based on the level. A complete elimination of this program will further the negative attitude toward the department for not supporting foster parents, increase placement disruption rates for children, decrease the number of foster families willing to care for children and increase the placement crisis for children in Oregon.
- **Shelter Foster Care: 50%.** The Department reimburses a certified family a shelter care payment on behalf of a child or young adult during the first twenty days of substitute care in a certified family home. "The Department reimburses a certified family a shelter care payment on behalf of a child or young adult during the first twenty days of substitute care in a certified family home. This is the only source of funding support to the foster family in the first 20 days. The daily rate is \$24, \$28, or \$31 per day based on the age of the child. These funds cover the food, clothing, shelter, school supplies, hygiene supplies, transportation, additional supervision and other incidentals that are necessary when coming into foster care. The department has process controls in place to allow this service for only the first placement

into foster care and for a maximum of 20 days. A 25% reduction in this program will likely increase the negative attitude toward the department in supporting foster families for children when the department rates are so low to start with and any reduction will be seen as a negative toward foster parents. The 25% reduction will be \$1.50, \$1.75, or \$1.75 per day based on age. A second reduction of an additional 25% reduction (50%) in this program will further the negative attitude toward the department in supporting foster families for children and will likely start to experience foster families who will no longer accept foster children on an emergency basis. A third reduction of an additional 50% (total of 100%) will further the negative attitude toward the department in supporting foster families for children and foster families who will not accept children in care or add ultimatum that unless a CANS rate exception can be granted they will not accept children into a shelter care placement. At this stage the department should also anticipate some foster families this is merely too much and end being foster parents.

# Department of Human Services: Permanency

---

Primary Long Term Focus Area: Safer, Healthier Communities

Secondary Long Term Focus Area:

Program Contact: Kathy Prouty

## Program Overview

Children in foster care receive assistance through the Child Permanency and Post-Adoption/Guardianship Support Programs. DHS helps foster children achieve legal permanency through reunification, adoption or guardianship. If children achieve legal permanency through adoption or guardianship, this program continues providing support to the families to meet the special needs and lifelong challenges of children who have been abused and neglected.

## **Program Funding Request**

<b>CHILD WELFARE - Permanency</b>	<b>GF</b>	<b>OF</b>	<b>FF</b>	<b>TF</b>
LAB 15-17	\$ 73,932,070	\$ 1,280,038	\$ 83,611,136	\$ 158,823,244
GB 17-19	\$ 77,974,749	\$ 1,293,015	\$ 84,805,811	\$ 164,073,575
Difference	\$ 4,042,679	\$ 12,977	\$ 1,194,675	\$ 5,250,331
Percent change	5.5%	1.0%	1.4%	3.3%

## **Program Description**

The first and primary permanent plan for all children who enter the foster care system is reunification with a parent. Reunification services are delivered through the efforts of field staff with consultation, support, training, and technical assistance from central office consultation staff. Only after it is determined that a foster child is unable to be safely reunited with a parent, will the alternate plans of adoption or guardianship be implemented.

Adoption and guardianship services are delivered through the joint efforts of field and central office staff. When children are unable to return to their parents' custody, the Department's efforts are directed to finding a permanent family so the children can leave the foster care system. Research shows that children who turn 18 and age out of the foster care system have poorer outcomes than children who are raised in a permanent home. The process of preparing children for adoption or guardianship, searching for an appropriate family, transitioning the children and monitoring the placement until the adoption or guardianship is finalized is work that is carried out by field staff. The process of ensuring the completeness of the file for adoption or guardianship, supporting the field in determining which children are not able to return to their parents, finalizing the adoption and supporting families after the adoption or guardianship is carried out by central office staff.

During the last biennium, DHS completed 1630 adoptions and 655 guardianships. Most children adopted or placed in guardianships through Oregon's foster care system are eligible for ongoing financial support and medical coverage. Overall, approximately 12,000 families receive ongoing adoption and guardianship financial support to meet children's special needs. We also provide administrative oversight in all private, international, and independent adoptions, and operate a Search and Registry Program, which is mandated by law. This adds program responsibility for an additional 700-900 children who are adopted privately or independently each year in Oregon.

DHS works closely with the Department of Justice (DOJ) who provides legal representation for DHS caseworkers. DOJ also represents the department in termination of parental rights cases and in guardianship petitions. Other key partners include county District Attorneys, private mediators and attorneys, private adoption and recruitment agencies, the Child Protective Services and Foster Care programs of DHS, and the Division of Medical Assistance Programs at the Oregon Health Authority.

Primary cost drivers for the Permanency and Adoption/Guardianship Assistance Programs include the legal costs of freeing and placing children for adoption or filing for legal guardianships and the number of eligible children for adoption and guardianship subsidies. Based on their history of abuse and trauma, almost 100 percent of the children adopted annually from the child welfare system are considered special needs children and eligible for an adoption subsidy. Families for approximately 95 percent of the eligible children choose to receive some monetary adoption assistance to assist in meeting these children's special needs. Children entering into legal guardianships have the same history of abuse and trauma and are also eligible for subsidies. Most families accept the monetary support and medical coverage to meet the ongoing special needs of their guardian children.

### **Program Justification and Link to Focus Areas**

The Child Permanency and Adoption/Guardianship Support Programs are designed to impact the safe and equitable reduction of children in foster care which promotes safer and healthier communities. Children in the foster care system need targeted, family focused, timely, and culturally responsive services in order to achieve reunification. Those who cannot safely be reunified with their biological parents need safe and appropriate alternate forms of permanency. Evidence shows that children who do not have permanency experience issues in the future such as lack of education, unemployment, homelessness, and incarceration at much higher rates than the general population. Specifically, former foster children who age out have high rates of mental illness with over half having clinically diagnosed mental health problems, including depression and Post-Traumatic Stress Disorder. These former foster children have a greater chance of coming into contact with the corrections community, experiencing early parenting, and/or using the services provided by the Oregon Health Authority and the Addictions and Mental Health program. The safety and stability that come with a permanent home help mitigate the risk of poor future outcomes for those who were abused and placed into foster care as children.

The Education and Economy focus areas may also be impacted if children cannot find permanency through adoption and guardianship. Grown former foster children who age-out tend to complete high school at a rate comparable to the general population. However, more of the high school completion is done via a GED versus a high school diploma, known to lead to lower wage jobs. Further, completion of post-secondary education is low for this group, affecting the lifelong earnings and living standards of these former foster children. The low educational achievement and mental health issues result in many of the former foster children who age-out living at or below the poverty level and requiring more public assistance. A 2005 study shows that one-third of the former foster children who age-out lived in poverty and one-third had no health insurance. The rate at which these foster children used Temporary Assistance to Needy Families (TANF) was five times higher than the general population.

Other non-monetary post-adoption and guardianship services are also important in assisting families in providing care for children who often enter adoption and guardianship with significant special needs. Children who have experienced significant abuse and neglect will be challenged to address their history as they move through different developmental stages. Ongoing support of the families who are parenting these children is essential to preserve the placements. Post-adoption and guardianship services include information and referral, consultation in response to imminent and current family crises, in-home family therapy, support groups, training, and a lending library. Each year, approximately 1,400 to 1,600 contacts are made to the post-adoption services program for help. Some of these contacts are for reported crises or disruption-related issues. Children who disrupt from adoption or guardianship re-enter the foster care or residential treatment system at a significant cost to the state.

### **Program Performance**

Program performance is measured in a number of ways and data is consistently used to evaluate effectiveness. Currently the Child Permanency program is focusing on some specific performance measures and designing its program activities to impact these areas. They include early placement with relatives and siblings, reducing the median months for children to exit the foster care system to reunification, adoption and guardianship, and improving the number of legally free children who are adopted in less than 12 months.

**CM.08 Initial placement with relatives (of those entering care)**  
 Percent of children entering foster care who were placed with relatives upon removal, over time  
 Report Time Period: October 1, 2015 - October 28, 2016

**OR.05 Median Length of Stay at Exit (of those exiting)**  
 Of children discharged, the median number of months to discharge (median is middle score where half were more and half less), over time  
 Report Time Period: October 1, 2015 - October 28, 2016

PA.12 Adopted in less than 12 months of TPR (of those TPR 12 months ago)  
 Percent of children that became legally free for adoption (TPR) 12 months ago who were discharged to a finalized adoption in less than 12 months of becoming legally free (TPR).  
 Report Time Period: October 1, 2015 - October 28, 2016

Oregon is doing pretty well with initial placements with relatives but the other measures show that the Department has work to do in getting children out of the foster care system in a timely manner, and in timely matching children to the family who can best meet their long-term needs for safety, well-being, and permanency.

### **Enabling Legislation/Program Authorization**

The following Federal and State laws mandate the operation of permanency planning for children in the foster care system:

- Public Law 96-272 Adoption Assistance and Child Welfare Act of 1980 which established the program of adoption assistance and introduced the requirement to make reasonable efforts to keep children out of foster care
- Public Law 105-89 The Adoption and Safe Families Act which set federal time lines for moving children out of foster care
- Social Security Act , Section 473 which mandates the payment of adoption assistance for eligible children
- Social Security Act, Section 473 which allows non mandatory payment of guardianship assistance for eligible children
- Oregon Revised Statute 418.330 which provides state funded guardianship assistance
- The Indian Child Welfare Act (ICWA)

- ORS 419A and 419B which provide a series of requirements for services to children in the foster care system
- ORS 109.309 which mandates the Department of Human Services to provide administrative services for independent adoptions and to operate a state Search and Registry program

**Funding Streams**

A combination of General and Federal Title IV-E funds the adoption and guardianship subsidy programs. Title XIX Medicaid funds the provision of medical coverage for children in adoptions and guardianship subsidies. A combination of General Fund and Title IV-B funds support programs such as recruitment and retention of foster and adoptive homes, post-adoption support and services and training.

**Funding Justification and Significant Changes to CSL**

This does not include statewide reductions.

**108 Family Foster Care Rate Reimbursement**

General Fund	Other Funds	Federal Funds	Total Funds
108,976	0	128,375	237,351

Reimbursement rates for Family Foster Care have not been adjusted to the cost of living for a decade. In 2009 rates were adjusted to 90% of the cost of care based on a 2007 rate methodology. In 2011, these rates were reduced by an additional 10% due to department budget cuts. Families coming forward to provide foster care has continued to diminish over the last 5 years in part due to the low reimbursement rates. The current daily rate is \$18.90 per day for a child under age 5 years old or \$24.36 per day for a teenager. This is intended to cover the costs of food, shelter, clothing, school supplies, extracurricular activities, etc. Based on the methodology created in 2009 Oregon is currently providing only 40-46% of the actual cost of care. Other states have been sued due to the low rate of family foster care payments and Oregon continues to increase the risk of a class action lawsuit. Additional funding for this POP is included in the Well Being bid form.

Reductions:

- "Private Adoptions: 25% Cut Fee for services, budgeted at \$1,202,890 per biennium. Payment for placement and supervision services for DHS foster

children in in-state and out-of-state adoptive families studied and supervised by private agencies. Reduce the number of in-state private agency placements but keep out-of-state private placements at the current level. General applicant Oregon families can get home studies through their local DHS offices (although waiting times will increase), but out-of-state general applicants (non-relatives) would have no means to get a study through their local child welfare office for Oregon children, as ICPC covers home studies with relatives only. Reductions impact the number of adoptive families overall and reduces the overall number of adoptive placements being made.

- Contracted Adoption Services - 25% Reduction The Multnomah County District Attorney contract, Whitney Investigations contract, and Black Helterline Attorney contract are all essential legal services that will be deferred to the Department of Justice if these contracts are cut or eliminated (see explanation below in the 100% elimination section), so cuts to these contracts in contracted adoption services would result in a cost shift to the DOJ budget. Of the remaining contracted adoption services, leave Oregon Adoption Resource Exchange and Northwest Adoption Resource Exchange intact.
- Permanency: 25% Reduction Post Adoption Services program, impacting supports for over 400 adoptive and guardianship families each year. (IV-B portion of budget). Reduce training, library purchases, and support group start-up for information and referral, advocacy and support, and crisis intervention.
- Permanency: additional 50% Reduction Post Adoption Services program, impacting supports for over 400 adoptive and guardianship families each year. (IV-B portion of budget) Eliminate training, library purchases, and support group start-up for information and referral, and crisis intervention only

## Department of Human Services: Delivery and Design

---

Primary Long Term Focus Area: Safer, Healthier Communities

Secondary Long Term Focus Area:

Program Contact: Laurie Price, Deputy Director Child Welfare

### Program Overview

This program represents the structure that supports the safety of children across Oregon who are abused or neglected. As of January 1, 2016, there are 1,412 legislatively approved child welfare caseworker positions across Oregon. These caseworkers respond to over 32,000 reports of abuse and neglect, and serve approximately 11,200 abused children who experience foster care, each year. The program also finalizes approximately 800 adoptions each year, creating a permanent home for children that cannot safely return to their parents. This structure is administered in our central office in Salem and supports DHS field staff through supervision, technical support, establishing policies and standards, evaluation, analysis, and continuous quality improvement of program areas in Child Welfare.

The staffing investment in 2015-2017 brought the Child Welfare caseworkers to approximately 86 percent of the workload model, assuming all positions are filled.

These staff are critical to the integrity of the Oregon Safety Model, our child welfare practice model for safety assessment and safety management.

**Program Description**

This program provides the personnel necessary for the entire array of Child Welfare programs and services; which includes screening and evaluation of calls reporting abuse and neglect, assessment of families and determination of child safety, case management for all open child welfare cases, assessment , recruiting and retention of substitute care resources, visitation for children with their parents and family while experiencing out-of-home care, court preparation and review, transition planning for children over 14 years of age, permanency planning, and case management services through completion of a permanency plan. The program also provides clinical supervision of direct service staff, critical to building worker competencies including reinforcing professional social work ethics and values, self-reflection and critical thinking skills, casework practice through a trauma informed and culturally appropriate lens, mentoring and coaching to develop professional skills, and supporting the worker through casework decision-making and crises. This is partially achieved through lower staff-to-supervisor ratios as recommended by the Child Welfare League of America (CWLA). Oregon has adopted a specific model for evaluating and ensuring safety throughout the life of a case. This model, the Oregon Safety Model, is Oregon’s child welfare practice model that requires safety assessment and safety management at all stages of case management, from screening through case closure.

Child Welfare design and delivery coordinates with Self Sufficiency design and delivery to support family stability and prevent entrance into the foster care system for their common clients. In addition, Child Welfare partners with other child and family serving systems including Oregon Housing Authorities, Oregon Health

Authority, Oregon Department of Education, Oregon Youth Authority, community and faith based organizations, etc. Child Welfare also contracts with numerous community service providers and individuals, to provide families and children the individualized services they need to be successful. This program continues to work to eliminate disparities and ensure equitable outcomes for families and children. Currently, Native American and African American children are disproportionately represented in the foster care system.

Major cost drivers for the personnel need are: Program mandates (Federal and State); the number of reports received alleging abuse; family stress factors which affect abuse risk and case complexity (substance abuse, unemployment, mental or physical health issues, criminal history, domestic violence, etc.); personnel turnover (training/travel costs); work effort required to provide services, and personnel packages (i.e., position cost, etc.). Additional drivers of cost include representation from the Department of Justice connected to dependency matters, court-ordered services and workload associated with Federal mandates such as the Indian Child Welfare Act (ICWA).

DHS has implemented Lean Daily Management Systems in all districts across the State and in central office. This active process of identifying ways to improve efficiencies allows DHS to reinvest staff resources to close the gap between positions earned and authorized positions as they are identified. Currently this effort is directed at decreasing the time spent on the processes used to deliver the work. There has also been a significant investment in ensuring each office has streamlined business systems.

Child Welfare continues with a primary focus of safely and equitably reducing the number of children who experience the foster care system. Critical elements of the program are thorough and comprehensive assessment of child safety, certification of adequate and appropriate substitute care providers and timely permanency outcomes. Oregon's Round 3 Federal Child and Family Services Review includes specific strategies to address these areas of needed improvement in Oregon's child welfare practice.

### **Program Justification and Link to Focus Areas**

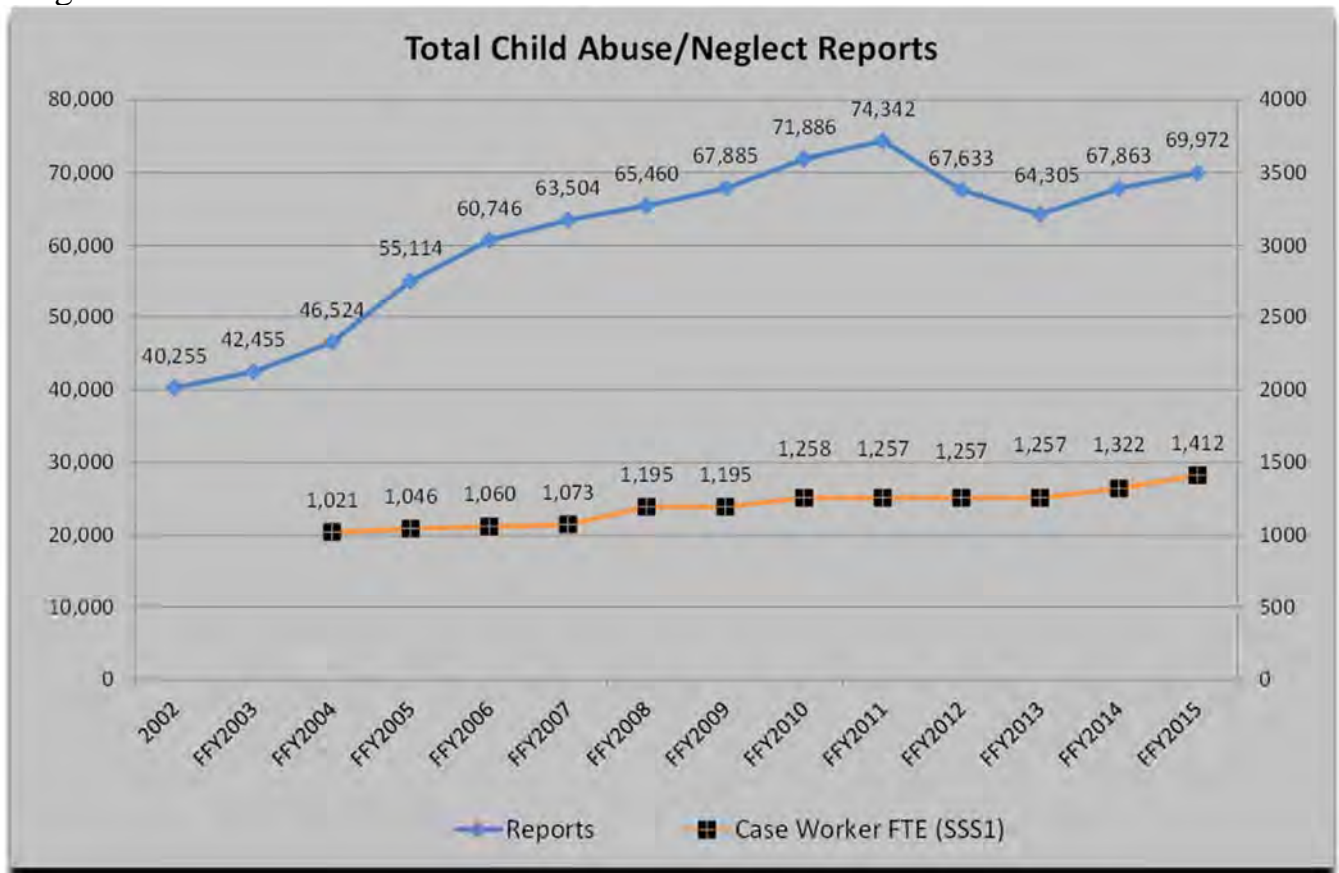

There is a direct link between the program design and delivery for Child Welfare and Safer, Healthier Communities. The Child Welfare Program supports increased family stability and child safety; prevents vulnerable youth from entering the foster care system; and implements social justice reinvestment practices. Through Child

Welfare interventions, safety for abused and neglected children is established. The program’s work with families enhances their ability to safely parent their children and prevent foster placements.

Child Welfare Program delivery and design provides the personnel to administer, design and deliver child safety supports through abuse investigation, service identification and procurement, family development and reunification where possible, or alternative child safety planning when necessary, which all have a direct impact on Safe, Healthier Communities.

**Program Performance**

Personnel resources are necessary to provide performance in the delivery of programs within Child Welfare. At current staffing levels, the Child Welfare Program is performing below federal standards in most categories. The chart below provides a comparison of the caseload growth (74%) to the personnel growth (38%) over time which provides a display of how our resources directly impact the Department’s ability to keep pace with the need of vulnerable Oregonians.

Safety for children is measured through the performance metrics of: timeliness of responding to reports of abuse and neglect, re-abuse rates, our ability to have regular and frequent face-to-face contact with children and families, and the timeliness of achieving a permanent plan for a child to minimize the duration of a stay in foster care. All of these performance measures are impacted by the staffing levels for the Child Welfare Program. Child safety is jeopardized when there is not adequate staff to respond, visit children and families, ensure family stability prior to return, or move children to a permanent home.

Having a staff that is representative of the children and families that we serve is essential to child safety. Additionally, staff must also be able to respond to the variety of cultural and language needs of our families. Although additional staff were added in the 2009-2011 legislative session, the hiring freezes of 2010 and 2011 eroded the gains made on completing assessments within 60 days. Adding additional staff in 2013-2015 was critical to reestablishing a positive trend in foster care reduction. While we were also able to see an initial bump in the number of assessments completed within 60 days, we are now at our lowest point in the last 9 years. Increasing caseloads and workload expectations, vacancies, and other factors have led to a steady turnover rate which impacts our ability to gain solid traction in all areas. Normally, it takes up to two years for new staff to become fully able to carry the workload effectively.

With the assistance of McKinsey & Company, a workload model was developed to record the work effort to provide program delivery. The workload model provides a basis for determining personnel needs to adequately support the work of Child Welfare. The Fall Forecast matrix below provides a comparison of the delivery positions authorized by the 2015-2017 Legislature and the need, based on work effort to meet the need. The Child Welfare central support was not included in the workload modeling by McKinsey. However, the work of Child Welfare central support is vital to the delivery of services in field offices. Central support provides the oversight of policy development, program design and changes required through legislation, Federal reporting compliance, and direct practice support to the field. In April of 2016, the worker surveys and field validation work was completed for re-calculation of the workload for delivery positions. This provides a current workload assessment to do the work.

<b>Totals</b>	<b>2325.83</b>	<b>2,689.57</b>	<b>86.5%</b>	<b>(363.74)</b>	<b>2325.83</b>	<b>2709.93</b>	<b>85.8%</b>	<b>(384.10)</b>

**Enabling Legislation/Program Authorization**

Child Welfare services are mandated by multiple Federal and State laws including PL96-272, Adoption Assistance and Child Welfare Act; PL95-608, Indian Child Welfare Act PL 105-89, Adoption and Safe Families Act; PL 110-351, Foster Connections to Success and Increasing Adoption Act; Social Security Act Title IV-E and Title IV-B; ORS Chapter 418, and ORS Chapter 419B.

**Funding Streams**

Personnel for program design and delivery is determined through Random Moment Sampling Surveys (RMSS) where field delivery staff are required at random intervals to indicate the time spent on various activities to determine the level of

Federal funding which directly supports our ability to provide critical child welfare services. Block grant funds include Social Services Block Grant (SSBG) and Temporary Assistance for Needy Families (TANF) funds. Leveraged funds include Medicaid, Title IV-E and IV-B funds. State-only General Funds also comprise a portion of the budget.

**Funding Justification and Significant Changes to CSL**

This does not include statewide reductions.

**110 Legal Representation in Child Welfare**

General Fund	Other Funds	Federal Funds	Total Funds
6,916,041	0	12,957,561	19,873,602

Historically, DOJ’s billable hour model has been considered cost-prohibitive in juvenile dependency cases and has been a deterrent to DHS accessing and utilizing DOJ for full representation, including attendance at all hearings, regular case consultation, impromptu legal advice, and regular participation in case worker training, meetings, and staffing. A block grant model will allow DOJ to manage cases according to a workload method of case assignment with each DOJ attorney carrying a consistent number of weighted cases. In this model, each dependency case is assigned to an attorney who handles it from petition to permanency. This case assignment method will provide DHS caseworkers with continuous representation which, in turn, will promote attorney-caseworker collaboration, improve caseworker job satisfaction and retention, avoid the risk for unlawful practice of law by case workers, and improve the overall efficiency and cost-effectiveness of the system. This Policy Option Package assumes a total fund block grant funding model of \$45 million total fund for full representation and assumes the exception to DHS representation in these cases is lifted. If the representation exception is continued DHS is still short \$4.5 million GF in order to meet projected CW AG costs in 2017-19.

Reductions:

- Staffing Workload Reduction in GB: This reduction is to CSL earned positions. The positions were earned at 24 months but was cut back to 12 months in this reduction. Staffing levels are critical in Child Welfare to ensuring the safety of Oregon Children.

- Screening Positions in GB: This reduction is to CSL earned positions. The positions were earned at 24 months but was cut back to 12 months in this reduction. Staffing levels are critical in Child Welfare to ensuring the safety of Oregon Children.

## **Department of Human Services Vocational Rehabilitation Program**

---

### ***Mission***

Vocational Rehabilitation's (VR) mission is to assist Oregonians with disabilities to achieve and maintain employment and independence. VR partners with Oregonians with disabilities to gain employment through a variety of services designed to assist in identifying and mitigating the functional impediments created by disability.

### ***Program***

This is a state and federal program authorized by state law and the federal Rehabilitation Act of 1973, amended in 1998 and in 2014.

VR helps Oregonians with disabilities gain employment through a variety of services. This includes helping youth with disabilities transition to jobs as they become adults, helping employers realize the benefit of employing people with disabilities, and partnering with other state and local organizations that coordinate employment and workforce programs. A total of 350,586 working-age Oregonians experience a disability, but only 35 percent are employed. Employment helps people with disabilities progress towards self-sufficiency, become involved in their communities, and live more engaged and satisfying lives.

All working-age Oregonians who experience a disability and are legally entitled to work are potentially eligible for VR services. Individuals who experience a medical, cognitive or psychiatric diagnosis that results in a functional impediment to employment are typically eligible for services. Recipients of Social Security disability benefits are presumed eligible for services.

Approximately 99 percent of all eligible clients currently served by VR are people with significant disabilities. These individuals experience multiple functional impediments requiring several services provided over an extended period of time.

VR has counselors with expertise in the areas of intellectual and developmental disabilities (I/DD), deafness and hearing impairments, mental health, motivational intervention, spinal injury, and traumatic brain injury.

### *Individuals we serve*

Vocational Rehabilitation employees provide direct services through a network of local offices across Oregon. For a list, see:

<http://www.oregon.gov/dhs/vr/Pages/officelocation.aspx>

Services are provided by rehabilitation counselors and support staff who deliver direct client services through 34 field offices and multiple single employee outstations in Work Source Oregon Centers and other human services agencies across the state. As the demographics in Oregon are changing, VR is adapting accordingly in order to provide culturally-specific services to Oregonians and to help diversify the State workforce.

### VR Data:

- Helped 16,488 individuals and obtained 2,973 employment outcomes in federal fiscal year 2016.
- Contract with 39 school districts and consortia on behalf of 115 schools to provide serves for approximately 1,300 students each year.
- Assisted 620 individuals with intellectual and developmental disabilities (I/DD) and 67 individuals with psychiatric disabilities obtain jobs in federal fiscal year 2016. Of those 620 individuals with I/DD who obtained jobs, 403 are maintaining their job through supported employment services.

### *Services Provided*

VR is designed under four primary areas: basic services, youth programs, supported employment, and independent living. In addition, VR is also engaged in Oregon's Employment First program in partnership with the Office of Developmental Disability Services and is actively engaged in improving workforce partnerships.

**Basic Services:** These are basic services provided to individuals whose disabilities present a potential barrier to employment. A rehabilitation counselor conducts a comprehensive assessment to evaluate vocational potential, including diagnostic and related services necessary for the determination of eligibility for services as well as the nature and scope of services to be provided. Vocational counseling and guidance builds on this assessment and helps the client identify a vocational goal. The counselor, in partnership with the client, develops an individualized plan for employment and authorizes appropriate services in support of the plan while maintaining a counseling relationship with the client.

**Youth Transition Program (YTP):** YTP operates as a partnership between (VR), the Oregon Department of Education (ODE), the University of Oregon's College of Education, and local Oregon school districts. At least 70 percent of students with disabilities in YTP complete high school and transition to a job or postsecondary education, a rate that exceeds the national average. This internationally and nationally-recognized school-to-work transition approach is a best practice for young people with disabilities. YTP bridges the gap between school and work by providing coordinated vocational rehabilitation services while the student is in school and ensuring a smooth transition to adult services and employment after completion of school. YTP currently serves about 1,880 students in 112 school districts.

**Supported Employment Services:** These services target individuals with the most significant disabilities for whom employment was not possible through traditional means, but who can obtain and maintain competitive employment in the community with the provision of job coaching and ongoing supports. Basic vocational rehabilitation services are provided on a time-limited basis for each client. Oregon Health Authority (OHA), the Office of Developmental Disability Services (ODDS), other community programs, families and private employers are responsible for the follow-along services once VR has completed placement and training services. Supported Employment Services combine traditional VR services and support services provided by job coaches, typically at job sites.

**Independent Living:** Services are available through seven Centers for Independent Living (CILs). The CILs are nonprofit organizations that provide information and referral, independent living skills training, peer counseling, both systems and individual advocacy and transition services for youth and those wanting to leave institutional living. CILs also provide a range of services based on local needs, many of which compliment services provided through other state and federally funded programs. Services are provided through a peer-mentoring model, with an emphasis on self-help, self-advocacy, and consumer responsibility.

CILs are a federal program established in the Rehabilitation Act of 1973. Oregon's State Independent Living Council was established by Governor's Executive Order 94-12 in 1994. VR has the responsibility to:

- Receive, account for, and disburse funds received by the state;
- Provide administrative support services to the CILs;

- Keep records and provide access to such records as required by the Administration on Community Living (the Federal authority for the Independent Living program); and
- Fund and support the State Independent Living Council's resource plan.

In addition, VR is working with the CILs and Disability Rights Oregon (a private nonprofit) to sustain the Work Incentive Network (WIN). WIN was developed as a pilot project through a Medicaid Infrastructure Grant and is an evidence-based practice, providing benefits and work incentives planning to individuals with significant disabilities who want to obtain, maintain, or increase their employment, but should not lose other benefits and medical coverage. This allows people on disability benefits to become employed, gain more levels of self-sufficiency, become engaged in their communities, and live a higher quality of life. They also begin paying taxes and reduce reliance on those publicly-funded services.

**Employment First:** Youth and adults with intellectual and developmental disabilities (I/DD) are significantly underrepresented in Oregon's workforce. With appropriate services and assistance, people with I/DD can work successfully in the community. The state is seeking to increase employment of people with I/DD in integrated workplaces through increased efforts around the Employment First policy and the Settlement Agreement (Lane v Brown) with targeted outcomes

The Governor's Executive Order 13-04 and subsequent EO 15-01 directs state agencies and programs, including VR, DHS' Office of Developmental Disability Services (ODDS) and the Oregon Department of Education (ODE), to increase community-based employment services for people with I/DD and to reduce state support of sheltered work. VR has specialized counselors around the state committed to working with people with I/DD to find employment in the community.

**Workforce Partnerships:** Historically, VR services have also been viewed as outside looking into the workforce system. With the passage and implementation of the Workforce Opportunity and Innovation Act (WIOA) of 2014, VR has been named a core partner in the workforce system. VR has been busy working closely with the core workforce partners to create a workforce system that is less siloes and more efficient.

VR, DHS-SSP, the Oregon Employment Department, local workforce development boards, and Adult Basic education programs around the state have been meeting to ensure all of our services are aligned, there is minimized duplication, and there are opportunities to expand services that meet the needs of our joint client needs. Moving towards this shared purpose has increased awareness of the needs of individuals with disabilities seeking employment while creating more opportunities for our clients in the local economies.

As part of our movement into the core of the workforce system, VR has joined all nine local workforce development boards in the state. We also have a larger role with in the statewide Workforce Investment Board. This last year, VR's state plan was submitted as part of the larger statewide combined plan that included the strategic vision of the OWIB.

VR continues to create opportunities for individuals with disabilities to access and benefit from various workforce strategies. Moving forward, VR will enhance employer outreach strategies to engage employers and conduct outreach and education to show that clients are reliable, dependable, and skilled workers who also happen to have disabilities. VR will also engage employers to provide work-based learning opportunities for all clients, including youth transitioning into post-secondary careers.

## Vocational Rehabilitation Funding Sources, Caseload Levels and FTEs

*Note: Cost per case increase is the result of a growing number of people with cognitive disorders requiring services that come with higher costs.*

### Program Overview

Vocational Rehabilitation (VR) helps Oregonians with disabilities obtain, maintain, regain and advance in employment through counseling, specialized training and job placement. This includes helping youth with disabilities transition from the educational system to the workforce as they become adults, helping employers overcome barriers to employing people with disabilities, and partnering with other state and local organizations that coordinate employment and workforce programs. The public workforce system in Oregon, includes the following state agency partners: Oregon Employment Department (OED), Self Sufficiency Program (SSP), Vocational Rehabilitation (VR), and the Higher Education Coordinating Commission (HECC). Agencies work in conjunction with the governor's office and Local Workforce Development Boards. There is a Workforce System Executive Team tasked with communication among partners and assuring system alignment.

A total of 350,586 working-age Oregonians experience a disability, but only 35 percent are employed. Employment helps people with disabilities become more self-sufficient, involved in their communities, and live more engaged and satisfying lives.

All working-age Oregonians who experience a disability that creates a barrier to employment and are legally entitled to work are potentially eligible for VR services. Individuals who experience a medical, cognitive or psychiatric diagnosis that results in an impediment to employment typically are eligible for services. Recipients of Social Security disability benefits are presumed eligible for services. Approximately 95 percent of all eligible clients currently served by VR are people with significant disabilities. These individuals typically experience multiple functional limitations requiring several services provided over an extended period.

VR has counselors who specialize in the areas of intellectual and developmental disabilities (I/DD), deafness and hearing impairments, mental health, motivational intervention, spinal injury, and traumatic brain injury however the majority of VR counselors provide services to a wide array of Oregonians with disabilities.

Services are provided by rehabilitation counselors and support staff who deliver direct client services through 34 field offices and multiple single employee outstations in one-stop career centers and other human services agencies across the state.

Specialized services that help clients be as independent as possible are provided through seven Centers for Independent Living (CILs) located throughout the state.

VR staff work in partnership with community organizations and businesses to develop employment opportunities for people with disabilities. These activities range from live resume events and job fairs to presenting disability awareness workshops in local businesses. VR also offers business services that include consultations with employers about diversifying their workforces by hiring people with disabilities and pre-screening services to match employers with clients who are qualified, reliable job candidates.

Percent change	11.1%	0.5%	0.6%	2.9%

### **Program Description**

VR is designed under four primary areas: basic services, youth programs, supported employment, and independent living. VR is also engaged in Oregon's Employment First initiative. VR is a core partner in the implementation of the Workforce Innovations and Opportunities act and is committed to improving access to the Workforce System for Oregonians with Disabilities. VR works with the Commission for the Blind and Oregon's Tribal VR (121) Programs.

### **Basic Services**

These are basic services provided to individuals whose disabilities present an impediment to employment. The Vocational Rehabilitation Counselor (VRC) conducts a comprehensive assessment to evaluate vocational potential, including diagnostic and related services necessary for the determination of eligibility for services as well as the nature and scope of services to be provided. Vocational counseling and guidance builds on this assessment and helps the client identify a vocational goal. The counselor, in partnership with the client, develops an individualized plan for employment and authorizes services and training in support of the plan while maintaining a counseling relationship with the client.

### **Youth Transition Program (YTP)**

YTP operates as a partnership between VR, the Oregon Department of Education (ODE), the University of Oregon's College of Education, and local Oregon school districts. At least 70 percent of students with disabilities in YTP complete high school and transition to a job or postsecondary education, a rate that exceeds the national average. This internationally and nationally-recognized school-to-work transition approach is a best practice for young people with disabilities. YTP bridges the gap between school and work by providing coordinated vocational rehabilitation services while the student is in school and ensuring a smooth transition to adult services and employment after completion of school. YTP currently serves about 1,800 students in 112 school districts.

We will be reviewing the Youth Transition Program in the context of Pre-Employment Transition Services as required by the WIOA. It will require a 15% “set aside” of VR funds in order to meet this requirement. This will reduce funds available to meet the needs of other population groups we serve.

### **Supported Employment Services**

These services enable Oregonians with the most significant disabilities, including youth with the most significant disabilities, to achieve and maintain competitive integrated employment. Vocational rehabilitation supported employment services (i.e., job coaching, training normally done at the job site) are time-limited; lasting from job placement until the individual is stable in their job and long term supports are in place. Addictions and Mental Health (AMH); Office of Developmental Disability Services (ODDS); community programs; families or private employers provide long term supports after the individual reaches job stabilization, which continue after the client has exited the VR program..

### **Independent Living**

Services are available through seven Centers for Independent Living (CILs). The CILs are nonprofit organizations that provide information and referral, independent living skills training, peer counseling, and both systems and individual advocacy. CILs also provide a range of services based on local needs, many of which compliment services provided through other state and federally funded programs. Services are provided through a peer-mentoring model, with an emphasis on self-help, self-advocacy, and consumer responsibility. CILs, along with Oregon’s Area Agencies on Aging (AAAs), provide leadership statewide and nationally in the formation of the “No Wrong Door” experience for seniors and people with disabilities accessing Long Term Care Supports & Services via the Aging & Disabilities Resource Connection (ADRC) network.

### **Program Justification and Link to Focus Areas**

VR assists individuals with disabilities to establish a foundation by identifying a personal vision, goals and steps necessary to achieve success in education and employment, and become independent, productive citizens. The VR program and the services provided primarily link to the Governors initiative relating to Safer and Healthier Communities. It has been shown that higher rates of employment result in healthier and safer communities. This is especially true in regards to Oregonians with Disabilities who are underrepresented in the workforce. Secondly, by creating better access to the Workforce System, we are increasing the number of employable Oregonians, many of whom bring in skills and attributes

necessary to today's economy, thereby contributing to a Thriving Oregon Economy.

### **Employment and Jobs**

- The VR Program has developed a plan in partnership with the Workforce System as defined by the Workforce Innovations and Opportunities Act (WIOA) which includes goals regarding employment outcomes for clients, to increase skills upgrading and certification of Oregonians with Disabilities seeking employment
- As a result of the Settlement from Lane v Brown, The state is seeking to increase employment of people with intellectual and developmental disabilities (I/DD) in integrated workplaces through increased efforts around the Employment First initiative. The Governor's Executive Order 15-01 and the Settlement Agreement directs state agencies and programs, including VR, DHS' Office of Developmental Disability Services (ODDS) and the Oregon Department of Education (ODE), to increase community-based employment services for people with I/DD and to reduce state support of sheltered work. VR has specialized counselors around the state committed to working with people with I/DD to find employment in the community.
- VR assisted 620 people with I/DD and 624 individuals with psychiatric disabilities obtain jobs in federal fiscal year 2016.
- In federal fiscal year 2016, 2,975 individuals obtained and maintained work through the basic rehabilitation program. VR Employer Services provides training and technical assistance to employers for new hires and incumbent workers, and identifies and refers qualified candidates. A 2013 Portland State University study found that VR returned \$4.03 in tax revenues to the state of Oregon for every \$1 spent in the program.
- VR continues to contract and collaborate with the Latino Connection program in reaching out to and providing specialized job placements services to native Spanish-speaking individuals with disabilities. The focus of these services has been in Portland, Clackamas, Salem and Woodburn, which have large Latino communities. This program had a 73.6 percent rehabilitation rate in federal fiscal year 2016.
- VR is continuing to increase community engagement with communities of color, non- or limited English speaking communities and other communities across the state. VR works with DHS to provide information in alternative formats and language to communities across the state.

**Program Performance**

Vocational Rehabilitation measures its performance primarily by employment outcomes. Employment outcomes are defined as the number of individuals who obtained and successfully maintained employment for a minimum of 90 days. The chart below shows employment outcomes for the program since FFY2012.

<b>Vocational Rehabilitation</b>						
Year		FFY16	FFY15	FFY14	FFY13	FFY12
# Served	Youth	4,215	3,887	3,449	2,051	1,886
	Adult	12,245	12,171	12,150	13,694	13,859
Employment Outcomes	VR Overall	2,973	2,723	2,376	2,314	2,032
	SE	660	414	254	290	228
	Youth	765	672	552	548	439
	SSI/SSDI	967	815	646	539	558
Percent Rehabilitated		61.8%	62.6%	62.0%	59.0%	58.0%
Avg. Hourly Wage		\$ 13.09	\$ 12.18	\$ 12.07	\$ 11.76	\$ 11.63
Avg. Weekly Hours		26	27	27	27	27
Cost per Rehabilitation		\$ 6,574.50	\$ 6,471.00	\$ 6,473.59	\$ 3,132.00	\$ 2,848.00

Under the new Workforce Innovation and Opportunities Act of 2015 there has been several added measures with emphasis on long term employment. The graph below displays some of the new measures the program will be expected to achieve.

## Education

- The internationally-recognized Youth Transition Program has expanded to 112 school districts in Oregon. More than 70 percent of students with disabilities in YTP complete high school and transition to a job or postsecondary education, a rate that exceeds the national average. YTP bridges the gap between school and entry into the work by providing coordinated vocational rehabilitation services while the student is in school

and ensuring a smooth transition to adult services and employment after completion of school. YTP currently serves about 1,800 students in 112 school districts.

- VR utilizes Supported Employment, an evidence-based model, which allows individuals with developmental and intellectual disabilities to work in competitive employment in the community with needed supports.
- The Independent Living program partners with schools and families to support the transition of students with disabilities to secondary education and/or work.
- Memorandums of Agreement with the Office of Developmental Disabilities Services and the Oregon Department of Education are designed to more effectively align transition services, identify opportunities to braid and leverage funding in order to increase the number of students with disabilities.
- Introduction of services in partnership with ODE to meet WIOA requirements to expend 15% of our Federal funds to meet Pre Employment Transition Services as required by the WIOA.

### **Safety**

- CILs train seniors and people with disabilities to develop personal preparedness plans and on empowerment and safety as a preventative for crime and abuse often faced by these populations.
- CILs also provide training and mentoring to parents with disabilities, which enhances skills for management of their homes and families.

Oregon's seven Centers for Independent Living (CILs) continue to be innovative catalysts to independence for people with disabilities in Oregon. Leveraging community partnership funds and empowering people with disabilities with peer supports, CILs provide a Return on Investment (ROI) for Oregonians estimated at about a \$6 return for every \$1 invested. The ROI, conducted by the Association of Oregon Centers for Independent Living, is based on statistical studies of consumers served and cost savings achieved in 2008 with an updated 2014 analysis pending for winter 2015 publication. The chart below shows Independent Living Program outcomes since 2009.

## Independent Living Program

YEAR	FY2014	FY2013	FY2012	FY2011	FY2010	FY2009
# Served	18,940	16,497	14,791	11,863	7,358	5,688
Consumer Goals	3,015	2,913	3,853	4,225	3,533	4,317
% Goals Achieved	56%	55%	61%	60%	60%	62%
Consumer Satisfaction	81%	74%	73%	87%	89%	92%

### **Enabling Legislation/Program Authorization**

VR is a state and federal program authorized by Oregon state law (ORS 344.511 et seq.) and the Workforce Innovation and Opportunity Act of 2014.

The Independent Living Program is a federal program established in Title VII of the Rehabilitation Act of 1973, as amended, and regulated by the Code of Federal Regulations, Title 34, and Parts 364-367. In conjunction, Oregon's State Independent Living Council was established in 1994 by Governor's Executive Order 94-12. VR is listed as the designated state unit for this program in the State Plan for Independent Living, per Section 704 of Title VII.

### **Funding Streams**

VR is funded through the federal Department of Education. It receives a formula-based grant with Match and Maintenance of Effort requirements. The match rate for Vocational Rehabilitation is 21.3% General Fund; 78.7% Federal Fund. For Independent Living the match rate is 10% General Fund; 90% Federal Fund. Grant dollars cannot be utilized by other programs. Program income, which is reinvested back into VR, includes Social Security reimbursement and Youth Transition Program grants.

## **Funding Justification and significant Changes to 17-19 CSL**

This does not include statewide reductions.

### Reductions:

- Use one time ReAllotment revenues to backfill CSL GF in GB - OVRS has successfully been awarded one time ReAllotment funding allowing a partial one time backfill of GF. If possible this reduction should replace the program and position reduction so VR does not enter an order of selection. (\$7,400,000 GF)

## **Department of Human Services Aging and People with Disabilities Program**

---

### ***Mission***

The Department of Human Services Aging and People with Disabilities (APD) program assists a diverse population of older adults and people with disabilities to achieve well-being through opportunities for community living, employment, family support and long term services and supports that promote independence, choice and dignity.

### ***Goals***

- Ensure the safety and protection of the population we serve with a focus on prevention.
- Facilitate broad awareness of, and easy access to, services.
- Invest in preventive services to keep people independent, safe and healthy for longer periods of time.
- Provide person centered services and supports.
- Serve people in an equitable and culturally sensitive manner.
- Promote high quality services by APD, its local partners and providers.
- Increase advocacy efforts to improve outcomes for APD consumers.
- Administer programs with the utmost integrity.

### ***Individuals we serve***

During the 2017-2019 biennium, we expect to serve:

- More than 5,000 people age 60 and older through Oregon Project Independence.
- More than 36,000 older adults and people with physical disabilities per month with long-term care services paid through Medicaid.
- More than 450,000 older individuals with Older Americans Act services.
- More than 150,000 Oregonians with direct financial support services.

Oregonians needing information and referral services about any of the aforementioned programs or services may contact the Aging and Disability Resource Connection (ADRC) of Oregon. The ADRC is a collaborative public-private partnership that streamlines consumer access to a complicated and confusing aging and disability service delivery system. ADRC services are free to

Oregonians and the service raises visibility and awareness of the full range of options available. The ADRC provides trusted information and assistance, and empowers people to make informed decisions. Through trained options counselors, Oregonians can develop action plans to address long-term services and supports needs that align with consumer preferences, their financial situation, strengths, values and needs. If a person is likely to be eligible for Medicaid long-term care services, they will be referred to APD local offices or Area Agencies on Aging (AAAs) for a full assessment. During the last biennium the ADRC took more than 18,000 calls and received 164,000 web hits. Employees from both APD local offices and AAAs throughout Oregon are responsible for providing direct client services. Employees also determine eligibility around the aging and people with disabilities population for medical programs provided through the Oregon Health Authority (OHA).

APD is impacted by demographic growth in the older adult population and is increasingly serving a more diverse population. APD strives to identify disparities in outcomes for diverse populations and identify strategies to serve all individuals in a culturally and linguistically appropriate manner.

### **Adult Protective Services**

APD and AAA offices are responsible for investigating instances of adult abuse across the state. Elder abuse and other adult abuse is costly both from a human and financial perspective. A person who has experienced abuse is likely to have increased health and long-term care costs. In 2014, more than 18,000 allegations of abuse were received and the number of investigations of abuse conducted increased by 10 percent. More than 3,500 instances of abuse were substantiated. Financial exploitation and neglect remain the most common forms of abuse for people served by APD.

### **Medicaid Services**

Approximately 33,000 older adults and physically disabled Oregonians use Medicaid long-term services each month, with more than 36,000 forecasted for the 2017-2019 biennium. By federal law, each state must develop criteria for access to nursing facility care paid by Medicaid. Criteria must include financial and asset tests as well as service eligibility criteria. The federal government, through Centers for Medicare and Medicaid Services (CMS), must approve any criteria established by the states.

DHS created service priority levels (SPLs) to establish eligibility for Medicaid long-term services. SPLs prioritize services for older adults and people with physical disabilities whose well-being and survival would be in jeopardy without services. Level 1 reflects the most impaired while Level 17 reflects the least impaired; levels are based on the ability of the person to perform activities of daily living (ADLs). Because of budget constraints, only levels 1-13 are funded. ADLs are personal activities required for continued well-being. These include eating, personal hygiene, cognition, toileting and mobility. Many individuals with disabilities need assistance from other people to perform daily activities. APD assists thousands of Oregonians who require ADL services in selecting competent providers and establishing effective working relationships with those service providers. Due to the increasingly diverse population served, the program requires supports that are equally diverse, linguistically and culturally appropriate.

### ***Programs***

APD's budget is sectioned into three key areas; program services, program design and program delivery.

### **Program Services**

Program services focus on supporting fundamental ADLs such as bathing, dressing, mobility, cognition, eating and personal hygiene. Long-term services ensure that the person is living in a safe and healthy environment. All services promote choice, independence and dignity. Services can be provided in nursing facilities, or community settings such as residential care facilities, foster homes or in the person's own home.

Program services are provided through six programs:

- Older Americans Act
- Oregon Project Independence
- Direct financial support
- In-home services
- Community-based care facilities
- Nursing facilities

## **Older Americans Act**

This is a federal program and is administered through APD. It provides federal funding for locally developed support programs for individuals ages 60 and older. APD distributes funds to local Area Agencies on Aging (AAAs) for service delivery through subcontractors. More than 230,000 Oregonians accessed these services in 2015. The AAAs develop services that meet the needs and preferences unique to individuals in their local area. Program mandates require services target those with the most significant economic and social need, to minorities and those residing in rural areas. There are no income or asset requirements to receive services except those related to the Senior Community Service Employment Program (SCSEP).

APD distributes federal funds to the AAAs using a federally approved intra-state funding formula based on the demographics and square mileage of each area. APD encourages and incentivizes culturally-specific and linguistically competent supports within all programs. Programs might include; family caregiver supports, medication management, nutrition via congregate and home-delivered meal programs, senior employment, legal services or elder abuse prevention services. They may also provide assistance to senior centers and sponsor and promote evidence-based wellness and chronic health condition management activities.

## **Oregon Project Independence (OPI)**

This is a state-funded program offering in-home services and related supports to individuals 60 years of age and older or people who have been diagnosed with Alzheimer's or a related dementia disorder. Approximately 5,000 Oregonians are served in this program. It represents a critical element in Oregon's strategy to prevent or delay individuals from leaving their own homes to receive services in more expensive facility-based settings, or depleting their personal assets sooner than necessary and accessing more expensive Medicaid health and long-term service benefits. The program was expanded by the 2005 Oregon Legislature to include younger adults with disabilities. In 2014 and 2015 a pilot program was funded expanding the program to adults ages 19-59 with physical disabilities. Through this pilot more than 500 individuals have been served.

OPI is administered statewide by local Area Agencies on Aging (AAAs). Many areas have waiting lists due to high demand and limited program funding. Client eligibility is determined by an assessment of functional ability and natural supports

related to activities of daily living. Typical services include assistance with housekeeping, bathing, grooming, health care tasks, meal preparation, caregiver respite, chore services, adult day services and transportation.

The OPI program has no financial asset limitations for clients. A sliding fee scale is applied to clients with net monthly income between 100 and 200 percent of the federal poverty level (FPL) to pay toward the cost of service. A small group with income above 200 percent of FPL pays the full rate for services provided. Generally this is because they benefit from the case management; ongoing support and monitoring, in addition to the actual purchased services.

### **Direct financial support**

Programs are designed to meet a variety of special circumstances for certain low-income populations.

#### *Cash payments – special needs*

APD is required to meet maintenance of effort (MOE) payment for low-income aged and disabled Oregonians who receive federal Supplemental Security Income (SSI) benefits. These benefits are focused on payments that allow clients to retain independence and mobility in a safe environment. Examples of special needs payments include help for non-medical transportation, repairs of broken appliances such as a furnace, or for such things as adapting a home's stairs into a ramp.

#### *Employed Persons with Disabilities Program (EPD)*

This program allows people with a disability to work to their full extent and not lose Medicaid coverage. To be eligible, a person must be deemed to have a disability by Social Security Administration criteria, be employed and have adjusted income of less than 250 percent of FPL. Eligible individuals pay a monthly participation fee and are eligible for the full range of Medicaid benefits and services.

#### *Other benefits*

The Centers for Medicare and Medicaid Services (CMS) requires DHS to coordinate with Medicare in many areas and clients need help accessing other programs for which they are eligible. The federal Medicare program is the most

common program clients need assistance with. APD determines client eligibility and submits client data to CMS for two Medicare-related programs: Medicare buy-in and Medicare Part D low-income subsidy. APD served more than 140,000 clients in these two programs over one year. These programs help low-income beneficiaries with their cost-sharing requirements. Securing this coverage also ensures Medicare remains in a “first payor” status, ultimately saving the state’s Medicaid program significant money.

## **In-home services**

In-home services are the cornerstone of Oregon's community-based care system. For older adults or people with physical disabilities, the ability to live in their own homes is compromised by the need for support in regular activities of daily living. For more than 25 years, Oregon has created options to meet people’s needs in their own homes. All options are funded with support of the Medicaid program through home- and community-based waivers or state plan options. Oregon has been able to create cost-effective programs that meet people’s needs in their homes and other community settings using these options and spared Oregonians from the unnecessary use of much higher cost services, primarily offered in nursing facilities.

Services to older adults and people with physical disabilities are designed to support assistance with fundamental activities of daily living (ADLs), such as mobility, cognition, eating, personal hygiene, dressing, toileting and bathing. In order to receive in-home services, an individual must be financially eligible for Medicaid. A case manager works with the client and together they identify needs and develop a plan for the in-home services.

### *Medicaid client-employed Home Care Workers*

Home Care Workers (HCW) are hired directly by the client and provide many of the services Medicaid clients need to remain in their own homes. The client, or his or her selected representative, is responsible for performing the duties of an employer. These duties include selecting, hiring and providing on-site direction in the performance of the care provider duties authorized by a case manager to meet the client’s individual needs and circumstances. The HCW must pass a criminal background check. In conjunction with the client, APD develops and authorizes a service plan, makes payment to the HCW on behalf of the client and provides ongoing contact with the client to ensure his or her service needs are met. More

than 18,000 clients are expected to receive services supplied by HCWs each month in 2015-17.

The Oregon Home Care Commission (HCC) was established in 2000 by an amendment to the Oregon Constitution. It is a public commission dedicated to ensuring high-quality home care services to APD clients using client-employed providers. Service Employees International Union Local 503, Oregon Public Employees Union, represents approximately 17,000 HCWs. For purposes of collective bargaining, HCC serves as the HCW employer of record. The Commission maintains a statewide, computerized registry of workers and provides an extensive training curriculum. The HCC also makes training available to clients to better understand their employer responsibilities and increase their skill in managing the use of HCWs.

#### *In-home agency services*

Many clients prefer to receive their in-home services through a home care agency. In-home agencies are licensed by the Oregon Health Authority. These agencies employ, assign and schedule caregivers to perform the tasks authorized by the client's case manager. APD contracts with licensed in-home care agencies throughout the state. Agencies work closely with DHS case managers and clients to ensure services are provided as authorized and to ensure the quality of the work performed.

#### *Medicaid Independent Choices*

This program offers a choice to clients in the way they receive in-home services and increases clients' self-direction and independence. Clients receive a cash benefit based on their assessed need. They purchase and directly pay for services. Clients are responsible for locating providers, paying their employees, and withholding and paying necessary taxes. Depending upon how they are able to manage their service benefit, many are able to purchase a few additional services or items otherwise not covered by Medicaid to increase their independence or well-being.

### *Medicaid adult day services*

These services provide supervision and care for clients with functional or cognitive impairments. Service may be provided for half or full days in stand-alone centers, hospitals, senior centers and licensed care facilities.

### *Medicaid home-delivered meals*

Home-delivered meals are provided for to those who are homebound and unable to go to sites, such as senior centers, for meals. These programs generally provide a hot midday meal and, often, frozen meals for days of the week beyond the provider's delivery schedule.

### *Medicaid personal care services*

Services are limited to no more than 20 hours a month. Personal care can be used only for tasks related to the performance of activities of daily living, such as mobility, bathing, grooming, eating and personal health assistance.

### *Medicaid specialized living services*

Services are provided to a special-need client base, such as those with traumatic brain injuries or other specific disabilities that require a live-in attendant or other 24-hour care. The services are provided through a contract with APD and targeted to a specific group of clients living in their own apartments, and assisted by a specialized program offering direct service and structured supports.

## **Community-based care**

### *Community-based facilities*

These include a variety of 24-hour care settings and services to provide an alternative to nursing facilities. Services include assistance with activities of daily living, medication oversight and social activities. Services can include nursing and behavioral supports to meet complex needs. State and federal guidelines related to health and safety of these facilities have to be met.

### *Adult foster homes*

Services are provided in home-like settings licensed for five or fewer individuals who are not related to the foster home provider. Homes may specialize in certain services, such as serving ventilator-dependent residents.

### *Residential care facilities*

Licensed 24-hour service settings serve six or more residents and facilities range in size from six to more than 100 beds. Different types of residential care include 24-hour residential care for adults and specialty memory care facilities. Registered nurse consultation services are required by regulation.

### *Enhanced care services*

Specialized 24-hour programs in licensed care settings that provide intensive behavioral supports for seniors and people with physical disabilities who have needs that cannot be met in any other setting. These programs support clients with combined funding from APD and the Oregon Health Authority.

### *Assisted living facilities*

These facilities are licensed 24-hour settings for six or more residents, including private apartments. Services are comparable to residential care facilities. Registered nurse consultation services are required by regulation.

### *Memory Care Community Endorsement*

These facilities are licensed as an Assisted Living Facility or Residential Care Facility and serve individuals with Alzheimer's disease, other forms of dementia and other cognitive diseases. They are required to have enhanced training and a more secure setting for their residents. The endorsement is in addition to the underlying licensure.

### *Providence Elder Place*

This is a capped Medicare/Medicaid Program of All-inclusive Care for the Elderly (PACE) providing an integrated program for medical and long-term services. Nearly 1,200 Oregonians age 55 and older are served in this program that generally allows them to attend adult day services and live in a variety of settings. The Elder

Place program is responsible for providing and coordinating their clients' full health and long-term service needs in all of these settings.

### **Nursing facilities**

Institutional services for older adults and people with physical disabilities are provided in nursing facilities licensed and regulated by DHS. Nursing facilities provide individuals with skilled nursing services, housing, related services and ongoing assistance with activities of daily living.

Oregon has led the nation since 1981 in the development of lower cost alternatives to institutional (nursing facility) care. Home- and community-based alternatives to nursing facility services emphasize independence, dignity and choice and offer needed services and supports at lower costs than medical models.

### ***Program Design***

Staff and services support the administration of APD programs, including:

- Central leadership and administration
- Medicaid eligibility and federal waiver administration
- Development and maintenance of policy and administrative rules
- Support and leadership for various advisory councils.
- Administration of the Older Americans Act
- Home Care Commission

### ***Program Delivery***

Staff and services provide direct services to Oregonians, including:

- Direct service staff located in local offices throughout the state
- Presumptive Medicaid Disability Determination Team
- State Family/ Pre-SSI
- Disability Determination Services
- Administration of Medicare Modernization Act and Buy-in programs
- Provider payments and relations
- Adult Protective Services investigations
- Adult Foster Home licensing

Eligibility and case management services are delivered throughout the state by APD and AAA employees. ORS Chapter 410 allows AAAs to determine which

populations they wish to serve and which programs they wish to administer. Type B Transfer AAAs choose to provide Medicaid services in addition to Older Americans Act and OPI services. In areas where the AAAs (Type A AAAs) do not provide Medicaid services, APD has local offices to serve older adults and people with physical disabilities.

## **History**

During the past 30 years there has been a profound shift in society's understanding of the importance of independence for aging and people with physical disabilities. Traditionally, states had provided services to these individuals in institutional settings such as nursing facilities. Oregon's first nursing facility opened in the 1940s. With the passage of the federal statute creating Medicaid, the state began to pay for nursing facility services for eligible individuals in the 1960s.

The Older Americans Act also passed in the 1960s, which over time, has expanded additional protections and services to vulnerable older adults, including access to home-delivered meals, senior centers, transportation, family caregiver support, legal services and the Office of the Long Term Care Ombudsman to uphold rights and resolve complaints.

Professional standards and public thinking about how to best serve people with disabilities began to change and community living became more accessible. Civil rights were strengthened and expanded by the Americans with Disabilities Act, in the areas of employment, public accommodations, transportation and housing. Community integration, a right, became more available to individuals with disabilities as accessibility increased and society began to accept people with disabilities as part of the community. Families had the ability to remain intact and to keep their loved ones — child, adult or senior — at home.

Federal dollars to fund Medicaid waivers first became available in 1981 for "Home and Community-Based Services." That same year, the Oregon Legislature updated its policies around disabilities and found that significant numbers of people with disabilities lived in institutions because adequate community services did not exist. The Legislature mandated that the state work to empower people with disabilities, keep them as independent as possible, and develop service settings that were alternatives to institutionalization. The 1981 Oregon Legislature also created the Senior Services Division and a strong statutory mandate to support seniors in their own homes and community settings outside of institutions. This action forged the

way for Oregon to lead the nation in the development of lower-cost alternatives to institutional care.

In response to that mandate, Oregon applied for, and received, the first home and community-based waiver that allowed Medicaid funds to provide long-term services outside an institution. Throughout the 1980s and 1990s, Oregon received waivers that allowed services for unique groups of people. For Medicaid-eligible older adults and people with disabilities in Oregon, this has meant that the provision of long-term care has, in large measure, shifted away from nursing facilities to in-home services, assisted living facilities, residential care facilities and adult foster homes.

### **Future populations**

The aging population is growing rapidly. The number of people in the United States over age 65 is projected to nearly double from 40.2 million in 2010 to more than 71.4 million people by 2030. In 2010, approximately 13 percent of Oregon's population was 65 years or older. By 2030, the percentage is expected to increase to nearly 20 percent. In Oregon, people 85 years or older make up a small but rapidly growing group within the total population. By the end of 2010, approximately 76,000 Oregonians will have reached age 85. By 2030, the number is expected to reach nearly 120,000, an increase of almost 57 percent. Cultural diversity, including individuals of different races, ethnicities and sexual orientation will require new approaches to service delivery that ensure all individuals achieve desired outcomes.

## Department of Human Services: Older Americans Act

---

Primary Long Term Focus Area: Safer, Healthier Communities  
 Secondary Outcome Area:  
 Program Contact: Ashley Carson Cottingham

*Older Americans Act funding comes primarily from the federal government. In 2011, OAA funding helped serve nearly 380,000 Oregonians.*

### **Program Overview**

Services and supports provided to individuals under the Older Americans Act (OAA) provide vital assistance designed to prevent or delay entry into Medicaid-funded long-term care such as In-Home or 24-hour residential services. The OAA is a Federal law that set out a national aging network structure consisting of the U.S. Administration on Aging (AoA) now part of the Administration for Community Living, State Units on Aging (DHS/Aging and People with Disabilities program), and Area Agencies on Aging (AAAs). The OAA authorizes funding and services through this network to serve older individuals in their homes and communities, through local entities. All individuals, aged 60 or older,

regardless of income are eligible to receive services but the programs are targeted towards those in greatest social or economic need. A specific focus on how to better serve diverse populations of older adults across race/ethnicity, sexual orientation, gender, veteran status, and other intersecting categories are essential with the continually changing demographics of Oregon.

**Program Funding Request**

Older Americans Act				
	GF	OF	FF	TF
15-17 LAB	\$ 2,077,127	\$ -	\$ 31,055,014	\$ 33,132,141
17-19 GB	\$ 2,153,981	\$ -	\$ 32,204,050	\$ 34,358,031
Difference	\$ 76,854	\$ -	\$ 1,149,036	\$ 1,225,890
% Difference	4%	0%	4%	4%

**Program Description**

Older Americans Act services are administered entirely by local Area Agencies on Aging. To qualify for OAA supported services an individual must meet the following criteria:

- Be 60 years of age or older;
- Be a caregiver of someone 60 years of age or older (or younger if the person is diagnosed with Alzheimer’s Disease or related dementia) or an older individual caring for a child 18 years of age or younger;
- Be 55 or older and have an adjusted income at or below 125 percent of Federal Poverty Level for the Senior Community Service Employment Program (Title V).

Please Note: There is no income or asset/resource criteria for eligibility, except for the Senior Community Service Employment Program (Title V).

**The Older Americans Act authorizes services and funding by title**

Title III

*Supportive Services*

Provides assistance to maintain independence through assisted transportation, information and referral/assistance, in-home care, adult day care, chore services, home modification and other housing help, legal assistance, mental health

outreach, and assistive devices. Title III also funds Oregon's Aging and Disability Resource Connection (ADRC), which provides unbiased information, referral, and options counseling for individuals (consumers, family members, caregivers) needing long-term services and supports.

#### *Nutrition Services*

In order to reduce hunger and food insecurity and promote socialization, health, and well-being the Act authorizes both home-delivered (commonly known as Meals on Wheels) and congregate (community setting, senior center, community center, etc.) meals programs. The Act also provides nutrition education and counseling.

#### *Services Incentive Program (NSIP)*

Supplements funding authorized under Title III for food used in meals served under the Older Americans Act. States receive an allocation based on the number of meals served under the OAA in the state in proportion to the total number of meals served by all states.

#### *Preventive Health Services*

Authorizes evidence-based programs that promote healthy lifestyles through physical activity, appropriate diet and nutrition, self-management of chronic health conditions and regular health screenings.

#### *National Family Caregiver Support Program*

Provides individual and group options counseling, training, and respite care for family members and friends who are primary caregivers to seniors. This program also provides support to grandparents raising grandchildren.

#### **Title V**

#### *Senior Community Service Employment Program (SCSEP)*

Authorizes a community service and work-based training program for older workers that provides subsidized, service-based training for low-income persons 55 or older who are unemployed and have poor employment prospects.

Participants are paid minimum wage for approximately 20 hours per week while they develop valuable skills and connections to help them find and keep jobs in their communities. Title V funding is awarded to DHS/APD from the U.S.

Department of Labor and is competitively sub-granted to a qualified job training organization.

## Title VII

### *Elder Rights Services*

Provides a focus on the physical, mental, emotional and financial well-being of older Americans. Services include pension counseling, legal assistance, and elder abuse prevention education.

### *Ombudsman Program*

Establishes an Office of the State Long-Term Care Ombudsman program to identify, investigate, and resolve complaints made by or on behalf of residents of licensed care facilities (nursing homes, assisted living, and adult foster homes) and promote system changes that will improve the quality of life and care for residents. The allocation for this program is 100 percent passed through to the Office of the Long-Term Care Ombudsman, a separate state agency from APD.

### *OAA Funding*

OAA funding is granted to each State Unit on Aging (DHS/APD) based on a population formula. The State Unit on Aging sub-grants Title III funds to Oregon's 17 designated Area Agencies on Aging (AAA) based on a state population formula. The AAAs work with their local communities to assess and develop a menu of services that meet the needs of older adults in their planning and service area. Subsequently, the AAA submits an Area Plan to the State describing the delivery of OAA services in their communities; this is basis for the funding agreement between the AAA and DHS/APD.

## **Program Justification and Link to Focus Areas**

OAA program services contribute to the Safer, Healthier Communities goal. The OAA, in partnership with providers and clients, provides vital support for older adults who are at significant risk of losing their independence by providing food, job training/opportunities, social support, transportation, chronic disease self-management and fall prevention.

Annual State Program reports are submitted to the Administration on Community Living, consisting of service unit data and client demographics. Evidence-based programs supported by the preventive health services funding under Title III have provided an opportunity to demonstrate health care cost-saving based on the research supporting the programs. The Senior Community Service Employment Program tracks six performance measures each year including employment and retention. Performance standards and measures have recently been established for

the Aging and Disability Resource Connections Program and will be tracked appropriately.

### **Program Performance**

- **Number of people served/items produced**  
OAA data reporting requires AAAs to capture identifiable unduplicated clients who receive “registered services” and an estimated number of clients receiving “non-registered services.” Registered services include personal care, home care, chore, meals, day care, case management, assisted transportation, caregiver, and nutrition counseling. Non-registered services include but are not limited to information and assistance, health promotion programs, group education, etc. The estimated number of non-registered service clients is 5-6 times that of the registered services clients (e.g. in 2011 OAA served 50,649 registered clients and an estimated 338,234 non-registered participants).
- **Quality of the services provided**  
Program standards have been established for the major services and annual program monitoring is conducted.
- **Timeliness of services provided**  
The Family Caregiver Support Program of the OAA is the only service area that consistently encounters wait lists.
- **Cost per service unit**  
Varies depending on the level of community support, the OAA funding on average supports about one-third of the cost of service. Further funding comes from local governments, donations, and fundraising.

The following are selected examples of program performance for the OAA:

## Older Americans Act Nutrition Program

	FY 07	FY 08	FY 09	FY 10	FY 11	FY 12	FY 13	FY14*

## Enabling Legislation/Program Authorization

Federal Law: 45 CFR, Part 1321.

## **Funding Streams**

OAA funds are 100 percent federal. The law has a required Maintenance of Effort and state match of \$5 million per biennium, which is met with state funding authorized for the Oregon Project Independence Program (ORS 410.410 to 410.480). OAA funding was never intended nor does it fully fund services. Each dollar of OAA funding is leveraged with \$2 of state and local funds, participant donations, and community fundraising. Additionally, the services are enhanced with the in-kind support of volunteers, donated community space and equipment, etc.

## **Funding Justification and Significant Changes to CSL**

This does not include statewide reductions. The agency's request is to continue at the current service level for 2017-2019.

# Department of Human Services: Medicaid Long-Term Care In-Home Services

---

Primary Long Term Focus Area: Safer, Healthier Communities  
 Secondary Long Term Focus Area:  
 Program Contact: Ashley Carson Cottingham

*In the 13-15 biennium, in-home agency and personal care budgets were moved from 'other services' to In-Home care for reporting purposes.*

## **Program Overview**

In-home services are the least restrictive service offered in Oregon’s long-term care continuum. This program funds Medicaid long-term care services to seniors and people with disabilities in their own homes for individuals who are eligible to receive the same services in a nursing facility. In 2013, Oregon added a new Medicaid, 1915(k) State Plan Option, or “K plan,” that provides additional flexibility and funds. Approximately 52.5 percent of individuals served in Oregon’s long term care system are served in their own homes. In-home services

offer an opportunity to provide differentiated care in a respectful, sensitive, and inclusive manner to Oregonians from a variety of diverse backgrounds.

<b>Difference</b>	<b>\$ 46,418,081</b>	<b>\$ 203,779</b>	<b>\$ 81,252,915</b>	<b>\$ 127,874,775</b>
<b>% Difference</b>	<b>15%</b>	<b>5%</b>	<b>12%</b>	<b>13%</b>

**Program Description**

This cost-effective program enables eligible low-income seniors and people with disabilities to remain in their own homes and established communities. Individuals from culturally diverse backgrounds benefit from this program that provides enhanced independence, health, safety, and quality of life. Oregon’s model of long-term care is referred to as a social model, distinctly different from a medical model of care. Social models of care focus on client autonomy, respect, choice, and individualized care planning. Individuals are viewed holistically, with provided supports that enhance independence, dignity, and respect.

Eligibility for services is based upon a combination of financial criteria and service needs. An individual’s service needs are calculated as a “service priority level” which ranges from 1 (highest need) to 18 (lowest need). In the 2003 budget crisis, funding to serve individuals with service priority levels 14 through 18 was eliminated. These levels remain unfunded through Medicaid; however, some (not all) of the needs can be met for these individuals through Older Americans Act and Oregon Project Independence programs.

In-home supports include necessary assistance with activities of daily living (walking, transferring, eating, dressing, grooming, bathing, hygiene, toileting, and cognition) and instrumental activities of daily living (meal preparation, housekeeping, laundry, shopping, medication, and oxygen management). Assistance ranges from several hours per week to 24 hours per day. Without these supports, more than 17,000 individuals would likely receive services in a more costly nursing facility. Oregon provides a variety of in-home service options available to individuals based on preference, choice, and cost-effectiveness.

## **Consumer-Employed Provider Program**

Individuals participating in this program receive services from hourly or live-in homecare workers. The in-home recipient is considered the employer and is empowered and responsible to hire, train, supervise, track hours worked, address performance deficiencies, and discharge providers. Homecare workers are paid a set rate established through collective bargaining, which the State pays on the individual's behalf. The Oregon Home Care Commission establishes homecare worker enrollment standards and training for homecare workers, both of which contribute to the quality of in-home services. APD is forecasted to serve more than 20,000 individuals in this program in the 2017-2019 biennium.

## **Independent Choices Program**

This program is a 1915(j) State Plan Option and allows individuals to exercise more decision-making authority in identifying, accessing, managing, and purchasing goods and services that enhance independence, dignity, choice, and well-being. This option is popular among individuals who wish to take complete control over the planning and provision of services. In the Independent Choices Program, the cost of the established service plan is "cashed-out" and deposited into the eligible individual's dedicated Independent Choices Program checking account. The individual then pays providers directly based on a negotiated rate. Participants have the flexibility to use a portion of the funds to purchase goods that enhance their independence and are unavailable through the medical plan, such as a wheelchair lift for a vehicle or a wheelchair ramp for their home. The state performs periodic monitoring with an emphasis on safety and program integrity. APD is forecasted to serve 587 individuals in this program in the 2017-2019 biennium.

## **Specialized Living Services**

These services are designed to serve a specific special-needs consumer base, such as those with traumatic brain injuries or other specific disabilities who would otherwise require a live-in attendant or other 24-hour care. The services are provided through contracts with qualified vendors who provide specialized, shared-attendant services to individuals living in their own homes or apartments. APD is forecasted to serve more than 200 individuals in this program in the 2017-2019 biennium.

## **Cost Drivers**

The major cost drivers of the in-home services program are the current number of eligible individuals, their level of needed assistance, the length of time receiving services, and the growing population of those requiring services. The population served is much different than it was 30 years ago when Oregon first received a waiver. With the advancement of medical technology and treatment options, individuals are living longer with chronic disease and significant disabilities. Another major cost driver is the provision of wages and benefits for homecare workers tied to collective bargaining. This includes set wages, paid time off, workers' compensations premiums, unemployment insurance, and other benefits.

## **Program Justification and Link to Focus Areas**

In-home services link to the Safer, Healthier Communities focus area. In the early 1980s, Oregon was the first state awarded a Medicaid 1915(c) Home and Community-Based Services waiver from the Centers for Medicare and Medicaid Services, which allowed Oregon to serve individuals in their homes and communities. In 2013, Oregon added a new, 1915(k) State Plan Option, or "K plan," that provides additional flexibility and funds. In an independent study conducted by AARP, Oregon received an overall ranking of 3rd out of 50 states in terms of choice of settings and providers, quality of life and quality of care, and effective transitions from nursing facilities back into the community. Across the nation, Oregon continues to be a leader for serving individuals in their own homes.

The program empowers individuals to direct their own services and make choices that enhance their quality of life, live with dignity, and remain as independent as possible. Health is maintained through the provision of necessary assistance with activities of daily living and instrumental activities of daily living. Consistent provision of services, including medication management and the preparation of nutritious meals, delays or diverts an individual's entry into more costly care settings.

## **Program Performance**

A key goal of the Department of Human Services (DHS) is that people are safe and living as independently as possible. DHS currently measures this goal based on the percentage of individuals living in their own homes in lieu of a licensed care facility, as well as the percentage of individuals who move to a less restrictive service setting. Currently, DHS is serving 87.2 percent of all recipients in home- and community-based settings. In the 2017-2019 biennium, DHS is forecast to increase this level to 88.9 percent.

## **Enabling Legislation/Program Authorization**

Medicaid is an entitlement program that was enacted in 1965 under Title XIX of the Social Security Act. Eligible individuals have the right to receive long-term care services in a nursing facility. While states are not required to participate in Medicaid, they must follow Medicaid rules to receive federal matching funds. Oregon's Long Term Care system operates under a variety of Medicaid options which allows long term care services to be provided in home and community based settings.

## **Funding Streams**

In-home services are funded through the Medicaid program. Therefore, the federal government pays approximately 69 percent and the state pays 31 percent. There is a small amount of funding from the estates of former recipients. When a Medicaid recipient dies, DHS is required by federal law to recover money spent for the individual's care from the recipient's estate. These funds are reinvested in services for other individuals, offsetting the need for general funds.

## **Funding Justification and Significant Changes to CSL**

This does not include statewide reductions. The agency's request is to continue at the current service level for 2017-2019.

Reductions:

- Eliminate the Live-in Program as of July 1, 2017 – move consumers to Hourly program - At the time of this report, there are approximately 350 individuals remaining in the Live-in care program (\$20,823,405 GF).

# Department of Human Services: Oregon Project Independence

---

Primary Long Term Focus Area: Safer, Healthier Communities

Secondary Long Term Focus Area:

Program Contact: Ashley Carson Cottingham

## Program Overview

Oregon Project Independence (OPI) provides preventive and in-home services and supports to a diverse population of eligible individuals to reduce the risk of out-of-home placement and promote self-determination. This program optimizes eligible individuals' personal and community support resources to prevent or delay spend down to Medicaid-funded long-term care, which could consist of in-home or other 24-hour residential services.

## Program Funding Request

Oregon Project Independence

% Difference	-81%	0%	-100%	-87%

## Program Description

Oregon Project Independence (OPI) is a state-funded program offering in-home services and related supports to a diverse population of Oregonians. DHS/APD strives to deliver in-home services in a culturally and linguistically appropriate manner. OPI provides essential services such as personal care, homecare and chore assistance, adult day care, service coordination, registered nursing (teaching/delegation of nursing tasks to caregivers), and home-delivered meals. This program complements services provided under the Older Americans Act.

Traditionally, OPI has served individuals who are 60 years of age or older are assessed as needing assistance with activities of daily living (eating, dressing/grooming, bathing/personal hygiene, mobility, elimination, and cognition) and/or instrumental activities of daily living (housekeeping, shopping, transportation, medication management and meal preparation) and are not receiving Medicaid. Also, individuals under age 60 who have been diagnosed with Alzheimer's disease or a related disorder are also eligible. The program was expanded by the 2005 Oregon Legislature to include younger adults with disabilities and recently \$6 million to continue funding for a pilot program has been made available to support this expansion.

There are neither income nor resource requirements for eligibility; however, these factors are taken into consideration when assessing the individual's risk of needing Medicaid long-term care. OPI clients do not pay a charge for the service coordination services they receive. Services other than service coordination are provided at no cost to families with net incomes at or below 150 percent of the federal poverty level (FPL). Families with net incomes from 150 percent to 400 percent FPL pay a fee toward services using a sliding scale based on income. Families with net incomes at or above 400 percent FPL pay the full cost of the services provided (other than service coordination).

In a 2012 study of selected comparable clients, OPI clients used 24 percent of the hours that Medicaid clients used. The hourly rates are the same for homecare worker services in the two programs. OPI clients used 24 percent of the billed hours compared to Medicaid. Due to budget restrictions, the OPI program has capped the number of hours available to each client. In addition to personal and home care hours, Medicaid eligibility also provides individuals with benefits for comprehensive healthcare under the Oregon Health Plan (OHP) and pays for these costs. OPI clients do not access OHP so the healthcare expenditures are \$0.

Oregon Project Independence services are delivered statewide through the network of 17 designated Area Agencies on Aging (AAAs). Administrative cost efficiencies have been realized in one area of the state where neighboring AAAs collaborated to jointly secure contracted services of a single in-home care agency. Similar partnerships should be encouraged statewide.

### **Program Justification and Link to Focus Areas**

OPI contributes to the Safer, Healthier Communities focus area and has a desired outcome to “decrease the number of older Oregonians that access Medicaid-funded long-term care.” Data reported by the Area Agencies on Aging in 2009 revealed that 63.6 percent of OPI clients had income below the FPL (33.1 percent between 100 percent and 200 percent of FPL and 3.3 percent over 200 percent of FPL). This data also revealed that fewer than 10 percent of OPI clients transitioned to Medicaid-funded services, despite the high rate of OPI clients whose income was at or below the FPL. AAAs are currently maintaining waiting lists of individuals who are eligible to be served by OPI. Annually, the “unable to serve” lists of individuals will be evaluated to determine how many of these individuals accessed Medicaid-funded services while waiting to be served by OPI.

This program empowers individuals to direct their own services and make choices that enhance their quality of life, live with dignity, and remain as independent as possible. Health is maintained through the provision of necessary assistance with activities of daily living and instrumental activities of daily living.

## **Program Performance**

- **Recent data on number of individuals accessing OPI:**

	15-Sep	15-Oct	15-Nov	15-Dec	16-Jan	16-Feb	16-Mar	16-Apr
60+ years	2,790	2,617	2,591	2,534	2,450	2,382	2,272	2,139
19-59 years	296	286	297	304	309	314	310	307
Total	3,086	2,903	2,888	2,838	2,759	2,696	2,582	2,446

- **Quality of the services provided**

Personal and home care services are delivered via licensed in-home care agencies or registered home care workers. Quality of care standards for in-home care agencies are set forth in licensing rules found in OAR Chapter 333, Division 536; compliance with licensing standards is monitored by the Health Care Licensing and Certification unit of the Public Health Division. Home Care Workers who provide services to OPI clients are required to be registered with the Home Care Commission and receive background checks and ongoing training.

- **Cost per service unit**

The average monthly cost of services to an OPI client is \$332. This average is calculated using a combination of direct, administrative, and other costs.

## **Enabling Legislation/Program Authorization**

OPI is authorized under Oregon law at ORS 410.410 to 410.480.

## **Funding Streams**

OPI is comprised of majority State General Funds with a small amount of Federal match funding. Services are expanded through the utilization of program income generated from client cost sharing based on a sliding fee schedule.

OPI serves as the required Maintenance of Effort (45 CFR Sec. 1321.49) and state match (45 CFR Sec. 1321.47) to receive federal funding under the Older Americans Act. At least \$5 million per biennium in state funds is needed to maintain the Maintenance of Effort and match requirements of the OAA.

## **Funding Justification and Significant Changes to CSL**

This does not include statewide reductions. The agency's request is to continue at the current service level for 2017-2019.

Reductions:

- Eliminate OPI for people with disabilities - Approximately 300 individuals per month will lose access to the OPI people with disabilities program if funding is eliminated (\$6,000,000 GF).
- Reduce OPI by \$10M - We estimate that approximately 1,000 of the over 2,100 individuals currently being served per month by the traditional OPI program will no longer have access to these services if OPI is reduced by this amount (\$10,000,000 GF).
- Reduce OPI by another \$6M - We estimate that approximately 1,000 of the over 2,100 individuals currently being served per month by the traditional OPI program will no longer have access to these services if OPI is reduced by this amount. This is an additional \$6 M, leaving \$5 M to cover the Maintenance of effort requirements for the OAA Federal Grants (\$6,000,000 GF).

# Department of Human Services: Medicaid Long-Term Care Community-Based Care

---

Primary Long Term Focus Area: Safer, Healthier Communities  
Secondary Long Term Focus Area:  
Program Contact: Ashley Carson Cottingham

*Access to care was challenging when a robust private-pay market existed in the mid-2000s. An investment by the Legislative Assembly in 2008 strengthened access considerably.*

## **Program Overview**

Community-based care is considered the middle layer of Oregon’s long-term care continuum and includes a variety of 24-hour care settings and services for low-income seniors and people with physical disabilities who cannot meet their own activities of daily living. These services are part of Oregon’s nationally recognized home and community-based care system, which provides a critical, cost-effective alternative to nursing facilities.

## Program Funding Request

Community Based Care				
	GF	OF	FF	TF

% Difference	24%	0%	23%	24%

## Program Description

The State of Oregon strives to meet the needs and expectations of increasingly diverse populations, and community-based care provides a critical alternative to nursing facilities for seniors and people with disabilities who cannot meet their own daily needs.

Eligibility for long-term care services and supports is based upon a combination of financial criteria and service needs. Recipients contribute their own funds toward room and board directly to community-based care facilities, while the state pays for services consisting mostly of assistance with activities of daily living (walking, transferring, eating, dressing, grooming, bathing, hygiene, toileting, and cognition) and instrumental activities of daily living (meal preparation, housekeeping, laundry, shopping, medication, and oxygen management). Nursing facility care is a guaranteed Medicaid benefit to eligible individuals. If the state did not use alternatives to nursing facility level of care, more than 12,000 individuals would likely be receiving services in nursing facilities at more than 300 percent of the cost of community-based care services.

Community-based care includes:

- Adult foster homes, which serve five or fewer individuals in a home-like setting.
- Residential care facilities (RCF), which serve six or more individuals in a facility with private or shared rooms and common areas.
- Assisted living facilities (ALF), which serve individuals in their own apartments.

- Memory care facilities, dually licensed as either an ALF or RCF, specializes in serving individuals with dementia.
- Enhanced-care services, which serve individuals with significant limitations complicated by mental health needs. This program is jointly funded between DHS and the Oregon Health Authority - Addictions and Mental Health Division).
- Program of All-Inclusive Care for the Elderly (PACE) serves more than 1,000 individuals via a fully capitated premium. The program is jointly funded with Medicare and Medicaid dollars and provides an integrated program for medical and long-term services. Participants are 55 years of age or older, generally attend adult day services, and live in a variety of settings representative of Oregon's long-term care continuum. Oregon's only PACE provider, Providence Elderplace, is responsible for providing and coordinating the full health and long-term service needs of their clients in all of these setting types.

APD competes with the private pay market for access to most community-based care. Most facilities have a mix of private pay and Medicaid residents. As the society ages and the economy strengthens, APD may lose access due to competition for open beds with the private pay market.

Adult foster homes are represented by SEIU and have collective bargaining rights. Factors such as safety and quality cannot be negotiated; however, issues such as training and service rates are mandatory subjects of bargaining.

Each community-based care setting must meet federal and state laws and regulations related to health, safety and service delivery. Mandatory services include assistance with activities of daily living, medication oversight, and social activities. Some settings that serve individuals with more complex needs may include additional services, such as nursing and behavioral supports.

### **Program Justification and Link to Focus Areas**

Community-based care is a direct link to the Safer, Healthier Communities focus area (Oregonians are healthy and have the best possible quality of life at all ages). The program maximizes federal resources while reducing unnecessary costs in higher levels of care. With one of the lowest levels of nursing facility utilization in the country, Oregon is at the forefront of using community-based care as a core

alternative to nursing facilities. With ongoing support, Oregon can meet the target of serving 90 percent of the publicly funded long-term care caseload in-home and community-based care in the next ten years (up from 86 percent).

### **Program Performance**

A key goal of the Department of Human Services (DHS) is that people are safe and living as independently as possible. DHS currently measures this goal based on the percentage of individuals living in their own homes in lieu of a licensed care facility, as well as the percentage of individuals who move to a less restrictive service settings such as community-based care. As of May 2016, DHS served 11,750 individuals in community based care, compared to 4,297 in nursing facilities.

Community-based care service plans have been proven to be a cost-effective alternative to nursing facility care. Costs range by facility type and assessed need of the individual. The monthly average cost by setting is:

- AFHs \$2,576
- RCFs \$1,634
- ALFs \$2,346

The cost of similar services provided in a nursing facility exceeds \$8,400 per month.

### **Enabling Legislation/Program Authorization**

Community-based care is operated under a variety of Medicaid home and community-based services. The newest mechanism is the 1915(k) State Plan Option or, “K plan.” The state provides services that substitute for nursing facility services, the mandated benefit for Medicaid eligible individuals under Title XIX of the Social Security Act. Additionally ORS 410 and ORS 443 provide statutory policy and structure to the services offered.

### **Funding Streams**

Community-based care services are funded through the Medicaid program. Therefore, the federal government pays approximately 69 percent and the state pays 31 percent. There is a small amount of funding from the estates of former

recipients. When a Medicaid recipient dies, the state is required by federal law to recover money spent for the individual's care from the recipient's estate. These funds are reinvested in services for other individuals, offsetting the need for general funds.

**Funding Justification and Significant Changes to CSL**

This does not include statewide reductions. The agency's request is to continue at the current service level for 2017-2019.

# Department of Human Services: Medicaid Long-Term Care Nursing Facilities

Primary Long Term Focus Area: Safer, Healthier Communities  
 Secondary Long Term Focus Area:  
 Program Contact: Ashley Carson Cottingham

*State general fund investments decreased with the passage of the provider tax. Caseload has shifted toward an overall downward trend as more and more individuals choose to receive long-term care services in a home or community-based setting.*

## Program Overview

Nursing facility services are the institutional option available in Oregon’s long-term care continuum, which also consists of in-home and community-based care. Nursing facilities are generally considered the most restrictive setting of the three options offered; however, this program is important for individuals with the highest levels of acuity and is a mandated federal benefit under the Medicaid program. Nursing facility level of care is the guaranteed benefit (entitlement) by federal law.

## **Program Funding Request**

<b>Nursing Facilities</b>				
	<b>GF</b>	<b>OF</b>	<b>FF</b>	<b>TF</b>
<b>15-17 LAB</b>	<b>\$ 173,620,301</b>	<b>\$ 118,315,172</b>	<b>\$ 539,928,011</b>	<b>\$ 831,863,484</b>
<b>17-19 GB</b>	<b>\$ 168,445,175</b>	<b>\$ 127,159,741</b>	<b>\$ 511,149,918</b>	<b>\$ 806,754,834</b>
<b>Difference</b>	<b>\$ (5,175,126)</b>	<b>\$ 8,844,569</b>	<b>\$ (28,778,093)</b>	<b>\$ (25,108,650)</b>
<b>% Difference</b>	<b>-3%</b>	<b>0%</b>	<b>-5%</b>	<b>-3%</b>

## **Program Description**

Nursing facilities are most appropriate for people with high acuity needs requiring 24-hour medical oversight and a protective/structured setting. They offer short-term care for individuals who need rehabilitation or 24-hour nursing. They may be appropriate for a limited number of individuals who need long-term care due to permanent health problems too complex or serious for in-home or community-based care settings.

Nursing facility rates cover basic, complex, pediatric, enhanced care, and post-hospital extended care. Services will vary in nursing care facilities, but generally consist of the following:

- Medical treatment prescribed by a doctor
- Physical, speech, and occupational therapy
- Assistance with personal care activities such as eating, walking, bathing, and using the toilet (custodial care)
- Social services.

Oregon currently has 137 licensed nursing facilities with 11,173 licensed beds, a decrease in both since the 2015 Legislative Session. These facilities have approximately 2.65 million annual resident days, of which approximately 59 percent are Medicaid clients. The annual resident days increased by approximately 12,000 in 2015, the first increase since we began measuring total days. The majority of residents were admitted directly from acute care hospitals with a very small percentage from home. In 2015, the average length of stay for nursing facility residents is 133 days with a median of 23. Approximately 82 percent of all nursing facility residents stayed less than 3 months. Over 80 percent of nursing facility residents are aged 65 and older.

<b>Payer</b>	<b>Long-Term Care – Nursing Facility</b>
Medicare	23%
Medicaid	59%
Private Pay	16%

The main cost drivers are low census in nursing facilities, the length of stay in a nursing facility, and the steady increase in the daily reimbursement rate. The nursing facility reimbursement rate is tied to the provider assessment statute. The current nursing facility reimbursement rate is \$281.08 per resident per day, and the provider assessment rate is \$22.99. In the 2017-2019 biennium, the provider assessment is expected to account for approximately \$127.6 million of \$2.1 billion in expenditures.

**Program Justification and Link to Focus Areas**

Nursing facility services link to the Safer, Healthier Communities focus area. Though nursing facility level of care is a guaranteed benefit, Oregon has been the national leader in creating cost-effective alternatives that meet people’s needs in their homes and other community settings, such as assisted living facilities, in-home care, retirement communities, residential care, and adult foster homes. Oregon continues to work closely with individuals and their families to offer the full array of community-based services. The new State Plan Authority approved by the Centers for Medicare and Medicaid Services in July 2013 provides Medicaid-funded resources to assist individuals in transitioning from nursing facilities. Oregon strives to provide quality services in a linguistically and culturally competent manner.

Nursing facilities are an important service in our continuum, meeting the needs of some individuals with higher acuity levels; however, DHS still believes there are opportunities to decrease its usage. Oregon continues to highlight, strengthen, and encourage the use of community-based care facilities instead of nursing facilities. DHS has established a goal of decreasing the percentage of long-term care recipients utilizing nursing facility services to 10 percent by 2020. As of May 2016, the percentage of long term care recipients utilizing nursing facilities services is 12.7 percent.

## **Program Performance**

Nursing facilities are heavily regulated by the federal government and are licensed and routinely monitored by the state. The state establishes requirements for nursing facilities that promote quality of care and maximization of personal choice and independence for residents.

DHS remains diligent in diverting and relocating people who receive Medicaid-funded long-term care services from nursing facilities into home or community settings. One way performance is measured in this program is by the occupancy percentage of nursing facilities. Oregon has the lowest occupancy in the nation at 64%, compared with the national average of 82 percent.

The 2013 Legislative Assembly approved legislation (HB 2216) that is intended to reduce this unnecessary nursing facility capacity and thereby reduce increasing cost per resident day. HB 2216 established a statewide bed reduction target to reduce licensed beds by 1,500 by December 31, 2015. The legislation provided incentives for providers to buy and close nursing facilities through an augmented rate of \$9.75 per Medicaid resident day that lasts for four years. If the bed reduction target is not met, the statutorily set rate methodology will be reduced. As of June 2016, the nursing facility industry has reduced its capacity by 1,159 beds or 77 percent of the goal.

## **Enabling Legislation/Program Authorization**

Medicaid is an entitlement program that was enacted in 1965 under Title XIX of the Social Security Act. While states are not required to participate in Medicaid, in order to receive federal matching funds states must follow the Medicaid rules. Oregon's long-term care system operates under Medicaid state plan authority. All clients qualify for nursing facility care have the choice of receiving care in other settings such as in-home or in community-based care settings.

Oregon's nursing facility reimbursement rate and accompanying provider assessment authorization in promulgated in ORS 409.736. The 2013 Legislative Assembly reauthorized the provider assessment through 2020.

## **Funding Streams**

Nursing facility services are funded through the Medicaid program; therefore, the federal government pays approximately 64 percent with the remaining 36 percent being split between state general funds and provider taxes. In the 2017-2019 biennium, provider taxes from nursing facilities are expected to total \$127.6 million. There is \$27.2 million in biennial funding from the estates of former recipients. When a Medicaid recipient dies, the state is required by federal law to recover expenditures for the individual's care from the recipient's estate. These funds are reinvested in services for other individuals, offsetting the need for general funds.

## **Funding Justification and Significant Changes to CSL**

This does not include statewide reductions. The agency's request is to continue at the current service level for 2017-2019.

Reductions:

- Reduce the complex medical add-on for nursing facilities by 50%. This reduction would eliminate half of the 40% premium paid to nursing facilities that serve individuals with certain complex medical conditions. Taking this reduction will require a statutory change to implement (\$6,590,581 GF).
- Hold nursing facility rates flat at the rate being reimbursed at 6/30/17. This would require a statutory change. No impact on consumers or access is anticipated with this reduction. Nursing facilities could likely absorb this without much consequence (\$18,345,151 GF).

## Department of Human Services: Other Services

---

Primary Long Term Focus Area: Safer, Healthier Communities

Secondary Long Term Focus Area:

Program Contact: Ashley Carson Cottingham

*Costs for 2009-2011 and 2011-2013 are higher due to the transfer of the funding for Medicare Part A and Medicare Part B buy-in programs from the Oregon Health Authority (OHA) to Aging and People with Disabilities (APD). These funding sources were transferred back to OHA in 2013-2015, but APD continues to administer the programs.*

### **Program Overview**

The other services category was previously dominated by federally mandated programs, such as the Medicare Buy-in and the Medicare Part D low-income subsidy programs, which help low-income Medicare beneficiaries meet their cost sharing requirements. This cost-effective investment ensures that Medicare remains in a first-payer position, thereby reducing or eliminating costs to the State's Medicaid health programs (Oregon Health Plan). Other services also includes programs that support individuals living as independently as possible in the community. For example, home-delivered meals provide a critical support to many individuals who otherwise may not be able to remain independent in their own home.

## Program Funding Request

APD Other Services				
	GF	OF	FF	TF
15-17 LAB	\$ 18,788,937	\$ 1,845,606	\$ 11,258,128	\$ 31,892,670
17-19 GB	\$ 16,462,345	\$ 1,955,077	\$ 11,554,645	\$ 29,972,067
Difference	\$ (2,326,592)	\$ 109,471	\$ 296,517	\$ (1,920,603)
% Difference	-12%	6%	3%	-6%

## Program Description

As stated above, the majority of funding in other services was previously dedicated to the Medicare Buy-in programs that support low-income individuals in accessing their federal Medicare benefits. Federal law requires states to provide payments for Medicare beneficiaries who meet specific income guidelines. APD helps consumers access this benefit. Medicare beneficiaries include individuals aged 65 or older and people with disabilities who have been receiving Social Security Disability payments for at least two years. The passage of the Medicare Improvements for Patients and Providers Act (MIPPA) of 2008 expanded the asset allowance and eliminated the estate recovery component of Medicare Savings Programs. These changes eliminated many of the barriers to the Medicare buy-in programs for a significant number of Oregonians.

Oregon is expected to serve more than 150,000 seniors and people with disabilities in the following programs:

- **State Medicare buy-in:** By purchasing Medicare Part B (which has a federally required premium) for individuals eligible for both Medicare and Medicaid (dual-eligibles), the Medicaid program pays for medical services (such as physician, radiology and laboratory services) only after Medicare has paid as primary payer.
- **Medicare savings programs:** Clients in these programs receive federally mandated assistance with their Medicare Part B premiums. Specified low-income Medicare beneficiaries and qualified individuals are those individuals who have income between 100 and 135 percent of the federal poverty level.

- **Qualified Medicare Beneficiaries:** Beneficiaries receive state assistance for the costs associated with the Medicare hospital benefit, Part A, and physician services, Part B, that would otherwise be required of them, including premiums, deductibles and co-payments. These clients have income equal to or less than 100 percent of the federal poverty level.
- **Medicare Part D:** Medicare Part D is the Medicare pharmacy benefit. All clients in the Medicare buy-in programs receive assistance from CMS with their Medicare Part D premiums and co-insurance amounts. Oregon pays a per-person monthly premium to Medicare for eligible clients.

APD works to provide services that support individuals in their own home. These supports reduce reliance on nursing facilities and licensed community-based care while simultaneously improving quality of life and saving taxpayers' money. These programs provide supplemental services as needed to in-home clients and are not tracked as a separate caseload. These programs include:

- **Medicaid Adult Day Services:** Adult day services provide supervision for adults with functional or cognitive impairments who cannot be left alone for significant periods of times. Services may be provided for half or full days in stand-alone centers, hospitals, senior centers, and licensed care facilities.
- **Medicaid Home-Delivered Meals:** Home-delivered meals are provided for Medicaid eligible clients receiving in-home services who are homebound and unable to go to the congregate meal sites, such as senior centers, for meals. These programs generally provide a daily hot mid-day meal and often frozen meals for days of the week beyond the provider's delivery schedule.
- **Cash payments:** APD makes special-needs payments to reduce the need for more expensive long-term care payments and to allow a client to retain independence and mobility in a safe environment. Special needs payments may be used for such things as adapting a home's stairs into a ramp or repairing a broken furnace. Clients can also receive cash payments to help pay Medicare Part D prescription drug copays, payments for non-medical transportation, and a one-time emergency payment for an unexpected loss (such as stolen cash, a car repair or a broken appliance). The budget supporting these payments meets the federal requirement for APD's maintenance of effort (MOE).

## **Program Justification and Link to Focus Areas**

Other services are targeted supports that help Oregonians remain in the least restrictive setting possible. The Department strives to provide services in a respectful, culturally and linguistically appropriate manner. These services tie to Strategy 1 on changing how health care is delivered in Oregon by supporting efforts to increase home- and community-based care to 90 percent of the total Medicaid long-term care caseload. The Safer, Healthier Communities focus area also envisions an integrated system that these community supports will help realize.

These services allow individuals to receive services at the right time and in the right place. They maximize expenditures by using the federal portion of Medicaid funding to provide person-centered services when the person needs them. It ties directly to the desired outcome of Ensuring Financial Stability for the Long-Term Care Service Systems and Supports.

Other Services complement and enhance in-home service plans, contributing to overall cost-effectiveness and the sustainability of the plan. Other services not only have a positive impact on consumers but also their natural support system (relatives/friends/neighbors), preventing burnout and the need for higher cost services.

## **Program Performance**

In an independent study conducted by AARP, Oregon received an overall ranking of 3rd out of 50 states in terms of choice of settings and providers, quality of life, quality of care, and effective transitions from nursing facilities back into the community. With approximately 53 percent of the Medicaid caseload served in their own homes, Oregon continues to rank in the highest percentile.

## **Enabling Legislation/Program Authorization**

Services in this category are operated under both the Medicaid state plan options, including the “K plan” and Oregon’s Home and Community Based Care 1915(c) waiver. The state provides services that “waive” against nursing facility services, the mandated entitlement for Medicaid eligible individuals under Title XIX of the

Social Security Act. Additionally, ORS 410 and ORS 443 provide statutory policy and structure to the services offered.

### **Funding Streams**

Other services are mostly funded through the Medicaid program; therefore, the federal government pays approximately 69 percent and the state pays 31 percent. There is a small amount of funding that is state general fund only, which serves to meet the state's maintenance of effort requirements. Finally, there is a small amount of funding from the estates of former recipients. When a Medicaid recipient dies, the state is required by federal law to recover money spent for the individual's care from the recipient's estate. These funds are reinvested in services for other individuals, offsetting the need for general funds.

### **Funding Justification and Significant Changes to 17-19 CSL**

This does not include statewide reductions. The agency's request is to continue at the current service level for 2017-2019.

Reductions:

- Remove General Assistance - House Bill 4042 funded the General Assistance Project, beginning July 1, 2016. It serves individuals enrolled in the medical assistance program, who have disabilities that meet Presumptive Medicaid disability criteria, and who are experiencing homelessness. The program provides clients up to \$545 per month for housing, up to \$90 per month for utilities, and \$60 per month for personal incidental funds (PIF). Pursuit of Social Security benefits is a condition of eligibility. Housing payments, utility payments, and PIF expenditures would be recovered from clients' Supplemental Security Income (SSI) lump sum payments when and if benefits are awarded (\$1,597,705 GF).

# Department of Human Services: Delivery and Design

Primary Long Term Focus Area: Safer, Healthier Communities  
 Secondary Long Term Focus Area:  
 Program Contact: Ashley Carson Cottingham

*APD is seeing tremendous growth in the individuals it serves with relatively flat staffing levels. The increase from 2015-2017 is driven by the reintegration of licensing staff into the APD program.*

## Program Overview

The Aging and People with Disabilities (APD) program delivery system provides services and supports to Oregonians over the age of 65 and to adults with physical disabilities. The population is a diverse cross-section of Oregonians that requires supports that take into account race, ethnicity and language; lesbian, gay, bisexual, and transgender (LGBT) older adults; homeless seniors; older adult immigrants; and many other populations that qualify for services. Design and Delivery includes staff who design and provide technical assistance for Oregon’s long-term care system as well as the staff and partners who directly provide services in over 50 offices located throughout the state.

## Program Funding Request

	General Fund	Other Fund	Federal Fund	Total Fund	Positions	FTE
15-17 LAB	193,650,643	47,732,570	232,269,289	473,652,502	1,253	1,242.28
17-19 GB	226,502,507	42,541,780	283,706,448	552,750,735	1,451	1,381.93

% Difference	15%	-12%	18%	14%	14%	10%

## Program Description

The APD program delivery system provides respectful and inclusive services and eligibility determinations to over 170,000 Oregonians. Some of the services accessed by individuals include:

- Medical assistance (Oregon Health Plan and Medicare premium assistance)
- Disability determinations
- Supplemental nutrition assistance

This caseload is growing rapidly and is served by eligibility staff only; case management services are not provided to individuals accessing only the services above. Approximately 34,000 of the 170,000 individuals APD serves access long-term care services and supports. For these individuals, case management services are provided, which generally consists of assessment, choices counseling, service plan development, and monitoring. Additionally, local offices have memorandums of understanding (MOUs) with local Coordinated Care Organizations. These MOUs focus on joint accountability for coordinating care for individuals accessing long-term care services. State and Area Agency on Aging (AAA) case managers will be the front line in ensuring effective care coordination occurs for individuals served by APD's long-term care system.

Local staff also license adult foster homes, including those that do not participate in Medicaid. Local staff provide adult protective services, consisting of investigations of abuse and neglect against seniors and people with disabilities.

APD has historically earned local service delivery staff through a caseload ratio model (e.g. one eligibility worker for every 500 cases). For the 13-15 biennium, the Legislature authorized the transition to the workload model. This model differs

from the caseload ratio model in that it accurately measures time required to perform tasks and captures work performed for individuals who are never found eligible.

The delivery system is comprised of both state staff and AAA staff located in communities throughout Oregon. Under ORS 410.270, AAAs have the right to elect to deliver Medicaid services locally. Currently, four AAAs have elected this option. These four AAAs (Multnomah County, Northwest Senior and Disability Services, Oregon Cascades West Council of Government, and Lane Council of Governments) serve the most populous areas of Oregon. With the exception of Washington and Clackamas counties, state staff serves areas with lower population densities.

The Oregon Home Care Commission (HCC) is also included in the Design and Delivery Program Area. Under Oregon's constitution, the HCC is responsible for ensuring the quality of home care services for seniors and people with disabilities. The Commission maintains a web-site of home care workers that can be accessed by all Oregonians, including those not served by Medicaid. Training is provided to both consumers and home care workers in a variety of areas addressing safety and quality. The efforts of the HCC are critical to the successful delivery of long-term care services to Oregonians.

APD's Design and Delivery area also includes the staff that design and administer services centrally. Some of the major services provided include:

- Negotiating system design with federal partners
- Developing program policy and maintaining administrative rules
- Paying providers
- Executing contracts
- Negotiating and implementing collective bargaining agreements
- Maintaining provider rates

### **Program Justification and Link to Focus Areas**

There is a direct link between this program and the goal of Safer, Healthier Communities. The APD Delivery system supports individuals living in their communities in settings of their choice, whether in their own home, a community-based care facility or a nursing facility. Partnerships between local law

enforcement, local court systems, and local advocates are critical to ensuring the senior and disability populations are protected from neglect and abuse.

**Program Performance**

A primary goal of the APD program is to ensure that older adults and people with disabilities are receiving appropriate services at a level that allows them to live independently and safely within their home and community. Local case managers work with a broad diversity of individuals and community partners to ensure appropriate supports are in place, including those that are culturally or linguistically needed. Each individual and family is unique in its strengths and needs. The following chart reflects the work of our nursing facility diversion and transition effort over the past five years. Not only are nursing facility placements the most expensive setting, they are generally viewed as the least desirable by consumers. Our local staff is critical in accomplishing this win-win outcome.

## **Enabling Legislation/Program Authorization**

Oregon Revised Statutes 410.070 charges the agency with primary responsibility for the planning, coordination, development, and evaluation of policy, programs and services for older adults and people with disabilities in Oregon. Area Agencies on Aging have universal responsibilities as articulated in ORS 410.210. Additionally, ORS 410.270 authorizes Area Agencies on Aging to perform services locally that would otherwise be administered by state staff if they elect to do so.

## **Funding Justification and Significant Changes to CSL**

This does not include statewide reductions. The agency's request is to continue at the current service level for 2017-2019. A mix of state general and federal dollars fund the majority of the services provided in APD Design and Delivery. Local partners also provide local matching funds to the Department, which the Department uses to leverage federal Medicaid dollars. This allows local entities to enhance services such as additional staffing and transportation.

### **102 Centralized Abuse Management System\***

General Fund	Other Funds	Federal Funds	Total Funds	Positions	FTE
1,694,922	2,050,000	147,945	3,892,867	2	1.50

House Bill 4151 requires the state of Oregon and DHS as its agent to standardize its processes and technology related to abuse of vulnerable adults. Oregon's current environment for tracking, reporting, analyzing, and investigating incidents of adult abuse relies on accessing information from ten (10) distinct systems or data sources. Additionally, local offices have created their own one-off mechanisms for supporting the abuse investigation processes, further complicating and decentralizing information. Existing systems limitations include the inability to search across program populations, inhibiting the ability to track perpetrators and/or victims over time and between populations. This heightens the risk of not capturing all abuse allegations.

This POP requests state funds to complete implementation efforts started in the 2015-17 biennium, for an integrated solution which meets HB 4151 criteria and helps protect vulnerable Oregonians. Not funding this POP will limit Oregon's

ability to achieve the capabilities and efficiencies of the proposed integrated solution. The Other Funds in this request are carryover Q-Bonds sold in spring of 2017 and is a one time request for limitation. The General Fund is the best current estimate of costs of the ongoing operations and maintenance of the new system.

\* This is the APD portion of this POP. Please see Shared Services and Program Design Services (ITBS) for remaining portions.

## **Reductions**

- Additional 1% Vacancy Savings - This action reduces the funding for personal services in DHS by taking a 1% reduction in personal services funding. This action reduces personal services funding lowering the overall capacity of DHS to complete its mission (\$1,015,971 GF). This is the APD Delivery and Design portion of this reduction. Please also see all other Program Areas for remaining portions.
- Remove inflation from S&S - This action reduces the funding for general inflation in most services and supply line items in DHS. This reduces service and supply funding lowering the overall capacity of DHS to complete its mission (\$506,588 GF). This is the APD Delivery and Design portion of this reduction. Please also see all other Program Areas for remaining portions.
- Disallow Backfill for Federal Grants - This action assumes that there will be sufficient federal funding to cover assumed shortfall in capped grants. The agency will be reviewing its federal grant balances to determine the impact of this reduction closer to the close of the 15-17 budget when ending balances are more clear (\$546,791 GF). This is the APD Delivery and Design portion of this reduction. Please also see all other Program Areas for remaining portions.
- Statewide Reductions to S&S - This action reduces the funding for services and supplies in DHS by taking a 3% reduction in services and supplies funding. This reduces service and supply funding lowering the overall capacity of DHS to complete its mission (\$351,488 GF). This is the APD Delivery and Design portion of this reduction. Please also see all other Program Areas for remaining portions.
- State Staffing Workload Reduction - This reduction is to CSL earned positions. The positions were earned at 24 months but was cut back to 12 months in this reduction. Staffing levels are critical in APD to ensuring the safety of Oregon's aging and people with disabilities (\$5,480,377 GF).
- Equity Model Reduction - This reduction is to CSL-earned positions for AAA's at 24 months. Positions were "earned" that are then priced for the

contract amount to the providers. This reduced the number of earned positions back to 12 months in this reduction. Staffing levels are critical in Aging and People with Disabilities to ensuring the safety of Oregon Seniors (\$9,680,044 GF).

- Remove General Assistance (HB4042) - House Bill 4042 funded the General Assistance Project, beginning July 1, 2016. It serves individuals enrolled in the medical assistance program, who have disabilities that meet Presumptive Medicaid disability criteria, and who are experiencing homelessness. The program provides clients up to \$545 per month for housing, up to \$90 per month for utilities, and \$60 per month for personal incidental funds (PIF). Pursuit of Social Security benefits is a condition of eligibility. Housing payments, utility payments, and PIF expenditures would be recovered from clients' Supplemental Security Income (SSI) lump sum payments when and if benefits are awarded. (\$225,590 GF) NOTE: This is the APD Delivery portion of this reduction. Please also see APD Program, Shared Services and SAEC for remaining portions.

# **Department of Human Services**

## **Intellectual and Developmental Disabilities Services Program**

---

### ***Mission***

The Department of Human Services Intellectual and Developmental Disabilities Services program (I/DD) provides support across the lifespan to Oregonians. Our mission is to help individuals be fully engaged in life and, at the same time, address critical health and safety needs.

### ***Vision***

Oregon's system of supports is simple to use and responsive to the strengths, needs and direction of the people and families who live as valued members of their community.

### ***Program***

The I/DD program strives to support individuals with intellectual and developmental disabilities and their families within communities by promoting and providing services that are person-centered, self-directed, flexible, community inclusive, culturally appropriate, and supportive of the discovery and development of each individual's unique gifts, talents and abilities.

We are committed to work toward service options to ensure people with intellectual and developmental disabilities have the opportunity to have fulfilling and meaningful lives allowing them to contribute to and enjoy their communities.

As a result of the state's adoption of the Community First Choice Option (or K Plan), an increased number of children and adults with I/DD are able to access Medicaid-funded, community-based services to meet their needs, instead of having to meet crisis eligibility in order to access the appropriate level of support.

We seek to achieve the following outcomes and goals:

- Provide an array of options that are properly distributed to ensure access through equitable and culturally competent services
- Be responsive to emerging consumer demands for individualized, self-directed services and provide sufficient service choices

- Ensure the health and safety of individuals served
- Promote maximum independence and engagement in homes and communities
- Leverage use of available federal funding options
- Address improvements in business practices such as payment and information systems to achieve overall operational efficiencies
- Maintain sustainability of the program

### *Individuals We Serve*

Individuals eligible for services must have an intellectual or developmental disability that significantly impedes their ability to function independently. Intellectual and developmental disabilities include intellectual disability, cerebral palsy, down syndrome, autism and other neurological conditions originating in the brain that occur during childhood. These disabilities must be expected to be lifelong in their effect and have a significant impact on the person's ability to function independently. Some people with I/DD may also have significant medical or mental health needs. Most individuals with I/DD meet Medicaid financial eligibility requirements. The majority of I/DD program services are now administered under the Medicaid State Plan Community First Choice Option (CFCO). Case management and employment services are available through traditional, home- and community-based service waivers.

### **Community First Choice Option Services**

Historically, the I/DD service system was comprised of three basic components. There were two separate program service areas — Support Services and Comprehensive Services. The third major component was program design and delivery. While program design and delivery remains the same, Support and Comprehensive Services are now primarily offered through the Community First Choice Option (CFCO).

With CFCO, eligible individuals receive a functional needs assessment that informs the amount and/or rate for services that are available to the individual. The assessment also informs the Individual Support Plan (ISP) which documents the person's needs and their goals for the next year. It also documents the services the person will access in order to meet those goals. The amount of service a person receives is based on the functional assessment, not whether they are in the Support Services or Comprehensive Services programs.

## **Program Services**

I/DD offers a broad array of services in order to optimize consumer choice and offer an array of cost effective services based on functional need. Importantly, implementation of CFCO has expanded access to children with I/DD and has eliminated the hard cap that had been in place with the Support Services program. Since implementation of CFCO, Oregon has increased the number of children with I/DD that receive services and adults no longer have to be in crisis to receive 24-hour supports in an out-of-home setting.

The shift to CFCO required that most I/DD services be categorized as attendant care. This has been challenging for the system because people with I/DD, their families, providers and advocates are more familiar with Oregon's important history of self-directed and strengths-based support system. It was critical that we refocus on the new vision for the I/DD system and affirm our commitment to person-driven supports. This process resulted in a firm understanding that the person, their family and the goals they want to achieve remain at the core of our system and the move to CFCO can be achieved in a manner consistent with Oregon's strong history of person-centeredness and self-direction.

## **Attendant Care**

Attendant Care provides support for people to perform activities of daily living and instrumental activities of daily living (ADL/IADL). With CFCO, this is the primary service available to people with I/DD. Most Support and Comprehensive Services are considered attendant care services and are generally categorized based on the setting in which the person lives.

Services that now fall under attendant care include:

- In-home supports for children and adults
- Children's intensive in-home services
- 24-hour services:
  - Group home for children and adults
  - Adult and child foster care
  - Supported living (adults only)
- Day supports
- Stabilization and Crisis Unit (SACU)

### *In-home supports for children and adults*

These services are designed to provide ADL/IADL supports in the home or in the community. Children that receive these supports live with family, and adults live either with family or in their own home. In-home services are provided to a majority of individuals served by the I/DD program. As a result of the expanded accessibility to these services, I/DD anticipates an increase in the utilization of this service over the 2017–19 biennium.

When families are supported to provide the core care, even individuals with the most significant needs have active and engaged lives in their community. Without in-home services, many individuals would require much more expensive out-of-home services such as group or foster homes.

Individuals who remain in their own home or with their family and have changes in support needs can access interim or short-term services. Interim services may include increased attendant care, behavior consultation or technical assistance to determine if an intervention will assist in maintaining the current placement. Depending on the change in support needs, environmental modifications may also increase the individual's likelihood of remaining at home.

For both children and adults, in-home services are provided by Personal Support Workers (PSWs) or certified provider agency Direct Support Professionals (DSPs). Personal Support Workers are directly hired by the individual or their employer representative. Direct Support Professionals are employees of private organizations that contract with the state to provide services.

### *Children's Intensive In-Home Services (CIIS)*

These services consist of three model waiver programs which provide intensive supports in the family home. One of these programs is for children with intensive behavioral issues who, without supports, would require specialized out-of-home services. The second program is for children with medical conditions who, without supports, would require nursing home services. The third program is for children with intense medical needs. These are children that are dependent on life support technology such as ventilators that, without these in-home services, would require services in a hospital setting. With the implementation of the Community First Choice Option, children who do not have the intensive needs described above may now be able to access in-home support services through their local Community

Developmental Disability Programs (CDDP) upon completion of a needs assessment and an Individualized Support Plan (ISP).

### *24-Hour Services*

These services are for children and adults who can no longer remain at home or adults who choose to receive services in a 24-hour setting. Under CFCO, these services are also categorized as attendant care. These services are primarily 24-hour supports, usually provided in settings outside the family home through group home, supported living or foster care providers.

These important services provide an alternative to institutional care. Community-based, as opposed to institutional care, remains a more cost-effective program as well as being the most desirable by individuals receiving services and supports from the department. Group home and supported living services are provided by private organizations that contract with the state. Adult foster care providers are represented by the State Employees International Union (SEIU). Child foster care providers are private providers licensed through either Child Welfare or the local Developmental Disability office.

Individuals usually receive 24-hour services when they are unable to stay at home on their own or with their family. This may be due to an individual's needs or the caregiver's ability to continue providing services. Under CFCO, adults can choose 24-hour services without meeting a threshold of need or crisis criteria.

For children with disabilities, they enter 24-hour comprehensive services as a voluntary placement because the intensive needs of the child cannot be met in the family home, or may be involuntary through child welfare action. Child Welfare programs maintain responsibility for the court relationship but I/DD provides the specific disability related care.

### *Day Services*

Day services are available for people that are over 18 and out of school. Many adults receiving 24-hour services also receive day services ancillary to their residential services. These services are available for about 20–25 hours a week for out-of-home activities, including employment-related activities. Adults receiving in-home supports are also able to receive day services as part of their attendant care. Day support activities that fall under the category of attendant care are

provided through CFCO and provide supports needed to promote integration, independence, and participation in the individual's community.

### *Transportation*

Non-medical transportation is also provided to help individuals with I/DD in in-home and 24-hour services when public transportation is not available, or not feasible, to help individuals participate in employment or other services.

### *Stabilization and Crisis Unit (SACU)*

SACU is a 24-hour service now provided under the CFCO. SACU provides a safety net for Oregon's most vulnerable, intensive, medically and behaviorally challenged individuals with intellectual and/or developmental disabilities. SACU provides services when no other community-based option is available for an individual. This includes people with I/DD coming out of the Oregon State Hospital, corrections systems, and from crisis situations where counties and private providers cannot meet the needs of the individual to ensure their health and safety. SACU focuses on supporting people in community-based settings and enabling them to return to less intensive service levels as quickly as possible.

SACU provides 24-hour residential and day supports to individuals with I/DD from all across the state who have significant medical or behavioral needs. The services are provided in licensed five-bed group homes. The SACU cannot refuse to serve anyone because their needs are too high.

SACU started in 1987 when Oregon moved all individuals with developmental disabilities living at the state institution (Fairview Training Center and Eastern Oregon Training Center) to private providers. There were a small number of individuals with complex medical or behavioral needs who could not yet be supported by private providers.

From the first homes that were opened by SACU to today, the profile of the individuals served has changed. As private agencies increase their skills to meet challenging needs and agree to provide services, the person who needs a safety net has changed. In 2000, SACU had six homes serving 30 people that were considered "medical," which means they serve people with high medical needs. In the past, the numbers of people with intensive behaviors often had a diagnosis of autism. Today, intensive behaviors are more related to co-occurring mental health diagnosis and/or criminal convictions.

## *Ancillary Services*

In addition, people with I/DD served through I/DD are able to access vital ancillary services. Examples of these services include:

- Behavioral consultation
- Assistive devices
- Assistive technology
- Long-term care community nursing
- Home-delivered meals
- Environmental modifications
- Specialized nursing

## **Case Management - Service Coordination and Personal Agent Services**

These services are provided through certified entities called Support Service Brokerages or through Community Developmental Disability Programs (CDDPs). CDDPs support children and adults while Brokerages support adults.

The individual receives case management services from the Brokerage or CDDP. Additionally, the CDDPs are responsible for eligibility determination and redeterminations, crisis response and protective service investigations. After eligibility is established through the CDDP, adults can choose to be served by the CDDP or a Brokerage.

A functional needs assessment is administered to determine the person's level of need and the amount or rate of services that will be available. The Service Coordination (SC) or Personal Agent (PA) then works with the individual, family and others important in the person's life to complete an individual support plan (ISP) and career development plan (CDP). They then work with the individual to identify necessary supports required to meet the needs identified through the assessment and the goals identified in the ISP/CDP.

## **Employment Services**

These services have been strengthened and improved as part of the important Employment First initiative. I/DD has restructured employment services to encourage integrated, competitively paid employment for people with I/DD. Employment services are no longer bundled with attendant care services, they have been broken out into discrete services to support individuals as they learn about,

find and maintain employment. Employment services are not offered through the CFCO, they remain available through the Medicaid waiver.

Employment services include:

- Job discovery
- Small-group supported employment
- Job coaching

### *Employment First Policy*

This policy states that employment in fully integrated work settings will be the first and priority option explored in service planning for all working-age and transition-age individuals with I/DD. This policy is based on the general philosophy that individuals with developmental disabilities have the ability, with the right supports, to be productive and contributing members of their communities through work. This philosophy also recognizes intrinsic and financial benefits of paid work to the individuals with disabilities and their families. To support the policy and philosophy of fully integrated work settings, as of July 1, 2015 the department no longer fund services for new people to enter sheltered workshops. Employment services are also provided consistent with the provisions and expectations of Executive Order 15-01, “Providing Employment Services to Individuals with Intellectual and Developmental Disabilities,” reissued in January 2015.

### **Family Support Services**

These services are available to any family with a child under the age of 18 not eligible for Medicaid. The program offers minimal support services with the most common request being for relief-care services.

All children in this program have case managers through their county CDDP and state-funded services are allocated based on need. Most children are also in school programs and the case manager coordinates between school and home. Family support services can be more cost effective by allowing the family to support the child with a small amount of funding, without accessing Medicaid.

### *Family-to-Family Networks*

These family-driven networks provide training, information, referral, and general support with families providing support among one another. Just having another

family to connect with or problem solve with is often what it takes to be supported in the family home.

### ***Program Design and Delivery***

Staff and services support the administration of I/DD programs through a central office providing strategic planning, program funding, policy development, general oversight, and technical support to community services and support and leadership for various advisory councils.

The structure for service delivery and design includes a central program administration office within DHS and contracted services with Community Developmental Disabilities Programs (CDDP) and Support Service Brokerages. Contracted CDDPs, usually operated by county government, are responsible for service eligibility determination, program enrollment, case management, abuse investigation, provider development, quality assurance, and crisis response. CDDPs are also responsible for local planning and resource development, and documentation of service delivery to comply with state and federal requirements. Brokerages provide case management services, including assessment and service planning for adults.

### ***Brokerages and Community Developmental Disability Programs (CDDP) field reviews***

The I/DD Quality Assurance unit conducts field reviews on a two-year cycle in each CDDP and Brokerage. The reviews are focused on ensuring Centers for Medicare and Medicaid Services (CMS) Assurances are met through performance measures approved by CMS. Areas of review include accuracy and reporting of level of care, case management functions performed and reported timely and accurately; individuals are made aware of their rights, including, abuse reporting, fair hearing and complaints; providers are qualified; individuals' health and safety needs are met; service plans are developed in accordance with needs identified through assessments and are person-centered focused. The reviews assist I/DD in identifying program specific strengths and areas requiring improvement allowing for focused training and technical assistance. The reviews assist with identifying individual issues needing to be corrected as well as allow for analyzing common trends across the state that may suggest a need for system changes, improvements, best practices and training.

The Intellectual/Developmental Disabilities (I/DD) Licensing Unit oversees a statewide program responsible for licensing and the quality of care in programs serving individuals with intellectual/developmental disabilities, including the licensing of adult foster homes and 24-hour residential facilities. It oversees, and is responsible for, the Medicaid-agency certification of agencies and the endorsement of 24-hour residential programs, supported living programs, and employment programs. It also certifies Support Service Brokerages and Child Foster Homes throughout the state. Through licensing and certification the DD licensing team ensures that providers of services comply with requirements for federal and state reimbursement. The I/DD Licensing team conducts complaint investigations and determines necessary corrective action up to and including civil penalties or revocation of a license or certificate.

### **History — Future Trends**

The state of Oregon is recognized nationally as an innovative leader in developing community-based services for individuals with developmental disabilities. Oregon is one of the few states that have no state or privately operated institutional level services specifically for people with developmental disabilities. In fact, the majority of individuals with developmental disabilities in Oregon are served in their own home or their family's home.

That is the result of two decades of work to aggressively “re-balance” the developmental disabilities system by moving from an institutional model with expensive, one-size-fits-all approach to a self-directed, family involved, individually focused, culturally appropriate, and less expensive approach to service. Individuals and families report a high level of satisfaction through increased control over services, the ability to more fully integrate in their home communities and the benefits of home community life.

Nationally, and in Oregon, the number of people with developmental disability-related needs is growing. There also is an increase in the number of people who need services that have co-occurring mental health needs or are coming to us from the corrections system. However, to maintain high levels of satisfaction, to further advance the inclusion of people with intellectual and other developmental disabilities in their communities of choice, and to serve the increasing number of people with I/DD accessing services, the system has an urgent need to continue its evolution in a fiscally sustainable manner.

# Department of Human Services: Program Services

Primary Long Term Focus Area: Safer and Healthier Communities  
 Secondary Long Term Focus Area:  
 Program Contact: Lilia Teninty

## Program Services – Caseload and Funding

Note: Effective 2013-2015, K Plan increased enrollment as well as lifted spending caps.

## Program Overview

Oregon home- and community-based services for people with intellectual and developmental disabilities are provided under several Medicaid authorities including Community First Choice Option (CFCO), also known as K Plan; and five 1915(c) waiver programs. ODDS also operates a small Family Support Services program funded by state general funds providing limited flexible supports for individuals and families.

Currently, ODDS home- and community-based services support more than 25,300 adults and children with intellectual and developmental disabilities to live their lives in their communities. About 12,000 of them receive services in their own of family homes.

## **Program Funding Request**

I/DD Program Services	GF	OF	FF	TF

Percent change	22%	-16%	15%	17%

## **Program Description**

Oregon home- and community-based services for people with intellectual and developmental disabilities are provided under several Medicaid authorities including Community First Choice Option (CFCO), also known as K Plan; and five 1915(c) waiver programs. Supports provided under K Plan are services such as attendant services that support individuals in accomplishing activities of daily living and instrumental activities of daily living (ADL/IADL), relief care, behavioral support services, transportation, environmental modifications, and assistive technology and devices.

Support Services Waiver and Comprehensive Waiver provide services such as case management, employment services, and other ancillary services (direct nursing services, specialized medical supplies, environmental safety and vehicle modifications, and family training). Services through the Comprehensive Waiver are provided to children and adults in all settings, including family homes, group homes, foster care, and supported living (adults only) through County Developmental Disabilities Programs (CDDPs). Services through Support Services waiver are provided to adults, age 18 and older, who reside in their own or family home through Support Services Brokerages. Individuals receiving services through either waiver are able to access all K Plan services. Under CFCO, an individual can elect to live in any setting of their choice, but it may impact whether they receive case management support through CDDP or Brokerage.

Of the 25,300 individuals enrolled in services, 2,790 live in 24-hour group homes, 3,150 in foster homes, 700 in supported living. 12,230 individuals reside in their own or family homes. 7,680 of the adults served at home receive case management support through Support Services Brokerages; 4,800 children and adults living in-home receive case management through CDDP system. In-home support services average approximately \$2,590 per month per individual while out-of-home services average approximately \$6,850 per month.

For both children and adults, the direct care services are provided through Personal Support Workers (PSWs), provider agencies, behavior consultants, and respite providers. Personal Support Workers were provided collective bargaining rights in 2010 through HB 3618.

### **Employment services**

ODDS currently offers supported employment services, such as job development, job coaching, supported small-group employment, discovery, and Employment Path. Discovery and Employment Path help individuals explore and learn skills to help them gain competitive integrated employment. These services are currently provided through the Comprehensive and Support Services Waivers.

People who are employed in the community have the highest level of integration and have stronger social networks. The more people with developmental disabilities are able to achieve paid employment, the less dependence there is on public resources and the greater the state's flexibility in designing future services that respond to the need of this population.

Oregon has been very successful in developing community-based care to move away from institutions as a model of care. Individuals with developmental disabilities fully engaging with their communities brings positive outcomes while being fiscally beneficial. Based on new federal requirements, community employment services will be the only employment services to receive federal funding as of March 2019.

### **Model Waivers**

ODDS administers three Model Waivers through the Children's Intensive In-Home Services (CIIS) unit: Medically Involved Children's Waiver, Medically Fragile Model Waiver, and Behavioral Model Waiver for children. Currently, these waivers serve about 398 kids. Children receiving service through Model Waivers are also able to access K Plan services. These services are substantially the same as individuals served through the Comprehensive and Support Services Waivers, including attendant services, relief care, behavioral support services, environmental modifications, and assistive technology and devices.

## **Family Support Program**

Limited supports for children are offered by ODDS through the Family Support Program and are available to any family of a child under age 18. The program is funded by general fund and offers flexible supports with the most common request being for attendant care and respite services. On average, during 2015-17 biennium, the program served 90 families per month at an average monthly cost of about \$200. Surveys tell us this support is of great value to families. All children in these programs have case managers through their county Community Developmental Disabilities Program (CDDP).

## **Family-to-Family Networks**

ODDS also provides \$1.24 million in funding to the Oregon Consortium of Family Networks (OCFN) with support and technical assistance through Oregon Council on Developmental Disabilities (OCDD). OCFN collaborates with community partners and others to help families have an empowered vision of a full life for themselves and their children. They facilitate opportunities for families to support each other in accessing the information they need, navigating the many systems they encounter, and helping local community resources increase capacity to include and welcome families experiencing disability. OCFN believes that supporting families in this way will improve their quality of life and support greater sustainability of the formal support system over the long term.

## **Program Justification and Link to Focus Areas**

ODDS services and supports for people with intellectual and developmental disabilities link to the Safer, Healthier Communities area through its focus on individuals with intellectual/developmental disabilities (I/DD) to ensure they are healthy and have the best possible quality of life in their communities among families and friends, and are working or attending school in order to achieve their greatest potential. Additionally, ODDS continuously works to ensure that services are provided in a linguistically and culturally competent manner.

When compared to the entire Medicaid population, adults in the Medicaid-funded home- and community-based services with I/DD are uniquely more reliant on the service system to make lifestyle changes and to adequately access health care. Funding I/DD programs to support the necessary lifestyle choices that reliably and consistently follow through with medical recommendations will result in

significant cost savings to the state's medical programs. Families and case managers are critical to help with health care coordination in the communication and implementation of treatment.

I/DD services are critical to the financial stability of a family and to the person with intellectual/developmental disabilities. With supports, families are not forced to decide between working and supporting their family member. It is also important that working-age adults with developmental disabilities are supported to work. Oregon has implemented an Employment First policy. This prioritizes individuals in actively engaging in developing work skills and defining work interests, pursuing job development or being employed in the community, and receiving support to maintain employment.

Executive Order 15-01 (which supersedes and replaces Executive Order 13-04 (issued in April 2013)) directs state agencies to take numerous steps that will advance the State's Employment First policy in Oregon. The goal of this Order is to further improve Oregon's system of designing and delivering employment services to those with intellectual and developmental disabilities in achieving integrated employment, including a significant reduction over time of state support of sheltered work and an increase in investment in employment services. The Order covers the time period of July 1, 2014 through July 1, 2022 and specifies certain benchmarks and metrics to be achieved each year.

Individuals with intellectual/developmental disabilities who are employed may provide additional resources for their family unit. In addition to being happier and healthier, individuals with I/DD who are employed broaden their network of supports, contributing to the Thriving Oregon Economy focus area.

The success of having people live with families for as long as they can is dependent on the families themselves being supported. In the 2015-2017 budget, funding was provided to the Office Developmental Disabilities Services for a total of eight Family-to-Family Networks. These are family-directed organizations that provide education, resource connections, and personal outreach and support to families experiencing similar needs.

## **Program Performance**

Supporting individuals to live at home or live on their own is the most desirable outcome for people with I/DD and is most cost effective for the state. The number of people supported at home has been the largest area of growth in the I/DD system.

*Graph has been updated with Fall 2016 Forecast*

## **Enabling Legislation/Program Authorization**

Oregon Revised Statutes 427.005, 427.007, and 430.610 through 430.695 enable the provision of family support for children with developmental disabilities. Oregon Revised Statutes 427.410 enables the provision of Support Services for adults through Support Services Brokerages.

At the federal level, in addition to all applicable Medicaid statutes and regulations, services must comply with the Title II of the Americans with Disabilities Act (ADA) of 1990 and Section 504 of the Rehabilitation Act of 1973. Compliance with these federal laws is subject to the U.S. Supreme Court's Olmstead Decision of 1999 and the U.S. Department of Justice's interpretation of that decision as it relates to the ADA and Rehabilitation Act. The Olmstead ruling applies.

## **Funding Streams**

The services are designed and approved using a Medicaid 1915c Home and Community-Based Waivers, and primarily, the Community First Choice Option in the Medicaid State Plan. The program funding match rate is 63 percent Federal funds and 37 percent State General Funds for waiver services and 69 percent Federal funds and 31 percent State General Funds for State Plan services.

## **Funding Justification and Significant Changes to CSL**

### **105 Stable and competent workforce for I/DD**

General Fund	\$22,094,082		
Other Funds	\$0		
Federal Funds	\$49,038,894	Positions	0
Total Funds	\$71,132,976	FTE	0

*Additional funding included in Design & Delivery Bid Form.*

Perpetually low wages from an outdated rate model for the I/DD provider workforce has created a record level of turnover and a critical shortage of direct support professionals (DSPs). DSPs provide support for people with I/DD to live and work in a safe and healthy manner as members of their communities. DHS and stakeholders created the existing rate structure based on 2007 fiscal data. This model needs to be updated to align with current economic realities, new minimum wage requirements, new DOL Overtime Rule, and expectations around service quality, safety, and competency/training requirements. A stable and well-trained workforce is critical to the ability of I/DD provider network to providing high quality of services to individuals and assuring their health and safety. The provider rate structure needs to reflect these requirements and provide adequate compensation to ensure that individuals with I/DD are served by competent workers. This POP will ensure adequate DSP wages that are above minimum wage to reflect DHS' longstanding policy that DSP work is not minimum wage work; address compression effect of minimum wage increases on wages of house managers and supervisors; address cost impact of new DOL requirements around overtime pay for workers earning less than \$913 a week (\$47,476 a year); provide financial incentives for providers to ensure their staff achieves highest level of training and competency and by making available College of Direct Support training to Oregon DSPs and provide one FTE for ODDS to coordinate provider training requirements and programs.

Reductions taken for 2017-2019 GB:

- Effective 7/1/17, eliminate funding to Family to Family Networks. This program began in 2012 after 2011 made significant reductions in the Family Support Program. The funding (\$1.3M) supports up to eight networks. The work already accomplished by these groups includes family training, identification of local resources, and general support from one family to another. The networks leverage parent time and local resources in an effort to provide support at no cost to DHS/DD.
- Effective 7/1/17, eliminates options to help families and individuals with I/DD remove housing barriers by funding things such as ramps, accessible bathing options, and other housing modifications. Requires a statute change.

# Department of Human Services: Stabilization and Crisis Unit (SACU)

Primary Long Term Focus Area: Safer, Healthier Communities  
 Secondary Long Term Focus Area: N/A  
 Program Contact: Jana Mclellan

\*A 7 percent overall budget reduction occurred in 2011.

## Program Overview

The Stabilization and Crisis Unit (SACU) provides a safety net for Oregon’s most vulnerable, intensive, behaviorally and medically challenged individuals with developmental disabilities. This includes people with developmental disabilities coming out of crisis situations, including mental hospitals, correctional systems, and private providers who cannot meet the needs of the individual to ensure their health and safety. Almost all individuals present with dual diagnosis of mental health and I/DD issues. This program is an integral part of the overall intellectual/developmental disabilities continuum of services. SACU focuses on supporting people in community-based settings and preparing them to return to less intensive service levels once stabilized.

**Program Funding Request**

Percent change	3.61	(9.84)	(0.49)	0.97	0.00	0.00

**Program Description**

SACU provides 24-hour residential services to individuals with intellectual/developmental disabilities who have significant medical or behavioral care needs. The services are provided in 5-bed group homes located across seven counties from the Portland metropolitan area south to Eugene.

As individuals enter into SACU, staff work with each person to modify behaviors and increase individual skills. Many of the people have frequent and intense behaviors and staff must provide physical interventions as trained through the Oregon Intervention System (OIS). All individuals have focused behavioral protocols that require frequent staff training and a high level of data collection and review.

There is an active referral list of adults and children waiting to enter SACU. Before entry into SACU, individuals are first referred by the CDDP and region to private community-based providers across the state but when they are denied or terminated from a current provider program, they move to a SACU placement. Nearly all individuals served have co-morbid (co-occurring) disorders of intellectual/developmental disability and mental illness. The acuity level of challenging behavior requires intensive 24-hour supervision and behavioral support services to ensure the safety to themselves and the community. Challenging behaviors range from aggression toward people or property inclusive of self-injurious behaviors. SACU also supports up to 10 individuals with medically fragile conditions that require 24-hour nursing care and support services.

More than 50 percent of these individuals have a history of criminal charges and/or current or pending legal sanctions. The convictions range from such crimes as assault, criminal mischief, theft, harassment, public indecency, possession, rape, sex abuse, and murder. A number have legal sanctions as a result such as parole,

probation, Psychiatric Security Review Board (PRSB), or are registered sex offenders. Some are civilly committed as they have been found to be a danger to themselves or others. The majority of individuals referred to SACU have an identified need for a secured facility due to their risk of flight and/or offensive behavior. In addition, a large percentage of individuals require “hardened” facilities where walls, windows, and fixtures are non-breakable to avoid injury to self and others.

SACU serves 79 adults who are in need of acute stabilization and crisis services. These individuals have been identified due to extreme behavioral and psychiatric needs that have not been successfully provided in the community.

SACU has 10 beds for children (up to 18 years old) who are in acute crisis and require stabilization. These children come from a variety of settings including the family home, foster care, 24-hour group home care, and institutional care.

SACU serves up to 10 individuals in specialized medical facilities due to their fragile medical conditions.

In all of the homes, SACU staff provides services that ensure health and safety needs are met and that the individual has the ability to participate in the community. As the goal of the program is to have the individual live in the most independent, least restrictive community setting, it is important to ensure the individual can be supported in the same type of setting.

All of the individuals in SACU qualify for Medicaid, currently use the Oregon Health Plan and are served by Coordinated Care Organizations, to meet their medical needs. Since there is high medical, behavioral and mental health needs, the program treatment plans are critical for individual stabilization and coordination of health services.

From the initial homes in 1987 to today, the profile of the individuals served by SACU has dramatically changed. As private agencies increase their skills to meet challenging needs and are able to provide services, the person who needs safety net services has changed. In 2000, SACU had six homes serving 30 people with high medical needs. Today these medical homes serve only up to 10 individuals. These individuals now receive care in community and nursing facilities.

In the past, the numbers of people with intensive behaviors were people who had a diagnosis of autism. Today, intensive behaviors are related to co-occurring mental health diagnosis and/or criminal convictions.

To respond to an individual in crisis, the program has always developed exit plans with providers and counties for people ready to leave at the same time new individuals are admitted; however, in 2011, the Legislature reduced the SACU budget. This prompted a comprehensive review of individuals in state care to determine if any could be moved out of SACU to reduce the overall number of individuals. Several individuals were identified and recommended for private care. They are still individuals who are assessed at the highest levels of acuity but have behavioral or medical needs that are predictable and can be supported by a private agency.

The 2011-13 budget reduction resulted in six homes being closed over the course of that biennium. This reduced overall individual capacity by 22 percent. With 104 funded beds in the 2015-2017 budget, the individuals that remain in SACU or will be entering as a new individual continue requiring the highest level of staffing and support.

With the 2015-2017 budget, SACU completely transformed the organizational structure in order to increase efficiencies and lower injuries and overtime. The agency formed seven island structures within the existing three regions and created a staffing float pool, which allows for more flexibility in direct care staffing. SACU also created the Crisis Outreach Assessment Team (COAT), a rapid-response team that responds to an individual's crisis as it is occurring. COAT also completes mental health assessments allowing SACU to better support the individuals served. In addition, SACU contracted with a national consultant, Benchmark, to review SACU as a whole and make recommendations for improved services as well as individual and staff safety. Lastly, the 2015 Senate Bill 226 called for a governor-appointed taskforce focusing on individual and staff safety. It is currently convening and will publish its recommendations.

### **Program Justification and Link to Focus Areas**

SACU links to the Safer, Healthier Communities focus area. SACU helps individuals with intellectual/developmental disabilities be healthy and have the best possible quality of life by helping them live in their communities and to work or attend school to achieve their potential. Stabilization and training are provided

for adults and children who have entered the program in crisis. SACU helps individuals transition back into community settings with support from their families, caregivers, or private providers.

Individuals enrolled generally have no other alternatives for a residential placement. They are in crisis due to a family breakdown; discharge from a hospital, psychiatric or correctional setting, or discharge from a private provider who can no longer support them due to the intensity of their behavioral or medical needs. SACU provides a critical alternative to assist the person to return to a healthy and productive life through a high quality residential program, including community-based housing, appropriate nutritional and medical care, and interventions.

In addition, the safety net provided by SACU allows for targeted, community-based support to individuals in crisis or with otherwise unmet intensive needs, individuals receive the services they need for the time they need them, and are then assisted to transition back to families or private providers.

### **Program Performance**

Staff ratios are quite high; at minimum all require a 1:1 staffing level. Many require a greater staffing level while in the community. The goal is to stabilize behaviors or health issues in a residential setting so that transition to a private provider is successful. Average length of stay for SACU adults overall (in both medical and behavioral beds) is 6.9 years which is down slightly from previous years. The average stay for SACU adults in behavioral beds only is down to 5.9 years.

SACU is focusing on placement of these long-term individuals in private care. These types of individuals, who can now be served by private providers due to improvements in community service skills and capacity, are no longer prioritized for this program.

SACU continues to build strong data tracking, including clinical data (individuals' incidents, medication errors, safety records, restraints, and a number of other elements), staffing data (ratios, overtime), and programmatic data (admissions, transfers, exits, length of stay). SACU uses this data to make programmatic changes.

### **Enabling Legislation/Program Authorization**

Virtually all individuals served by SACU are funded through Medicaid Home and Community-Based Waivers and the 1915(k) Medicaid State Plan. The individuals served by SACU would be entitled to nursing home or intermediate care facilities for persons with Mental Retardation (ICF/MR) institutional services. Oregon no longer uses institutional care but the service would be required if we could not meet the need in the community.

Other federal laws or rulings that impact services delivered through SACU are the Americans with Disabilities Act and the Supreme Court Ruling on Olmstead, which generally require individuals to be served in least restrictive, non-institutional settings. Oregon commitment statutes in ORS 427 also require the State to provide care and custody to a person who presents harm to themselves or others, and SACU's status as the safety net is integral to accomplishing this.

Additional statutes that guide the delivery and program are found in ORS 412, 430, 409 and 410. The Oregon Administrative Rules (OARs) that govern the operations of SACU require that individuals be supported in the community and in pursuit of educational and vocational activities.

At the Federal level, in addition to all applicable Medicaid statutes and regulations, services must comply with the Title II of the Americans with Disabilities Act (ADA) of 1990 and Section 504 of the Rehabilitation Act of 1973. Compliance with these Federal laws is subject to the U.S. Supreme Court's Olmstead Decision of 1999 and the U.S. Department of Justice's interpretation of that decision as it relates to the ADA and Rehabilitation Act. The Olmstead ruling is relevant to SACU in that it requires all services allowed in the waiver, including SACU, are ones that create inclusion in the community equitably across the state.

### **Funding Streams**

The services are designed and approved using a Medicaid 1915(c) Home and Community-Based Waiver and a 1915(k) Medicaid State Plan which provides a Federal match to the program's General Funds. The program funding match rate is 63 percent Federal Funds and 37 percent State General Funds for waiver services and 69 percent Federal Funds and 31 percent State General Funds for 1915(k) State Plan services. Based on their income level, some individuals also pay an Other Funds contribution toward their room and board costs.

## **Funding Justification and Significant Changes to CSL**

The 2017-19 funding proposal for SACU maintains the program at Current Service Level in 2017-19.

# Department of Human Services: Employment First

Primary Outcome Area: Thriving Oregon Economy  
 Secondary Outcome Area: Safer Healthier Communities  
 Program Contact: Acacia McGuire Anderson, 503-947-5099

## Employment First – Caseload and Funding

*Graph represents employment caseloads provided through Employment waiver services compared to the funding. As of 2015-2017, funding for Daily Support Activities is reported under K Plan Program services. As of 2017-2019 GB, the Employment First budget will capture employment services reported under the brokerages.*

### Program Overview

Employment First is a nationwide initiative which helps individuals with I/DD reach and maintain competitive integrated employment by ensuring that employment is the first and priority option in each state. Research has shown that

people who are employed in the community have the highest level of integration and have stronger social networks. The more people with developmental disabilities that achieve paid employment, the less dependence there is on public resources and the greater the State’s flexibility in designing future services that respond to the need of this population. For these reasons and many more, in 2008 Oregon was an early adopter of the Employment First initiative. Employment First is both a national initiative and a state policy. In Oregon, Employment First includes the Office of Developmental Disabilities Services (ODDS), Vocational Rehabilitation (VR), and the Oregon Department of Education (ODE). Employment First is working to increase employment opportunities for individuals with intellectual and developmental disabilities (I/DD). New federal regulations, as well as the Lane v. Brown settlement agreement, place even greater emphasis on the state’s need to provide community-based employment services to people with I/DD. The state is also working to help providers that current provide facility-based services (also known as sheltered workshops) to transform their services to community-based.

Employment First Funding Request does not include funding for Daily Support Activities.*

**Program Description**

Employment First is based on the general philosophy that individuals with intellectual and developmental disabilities have the ability to be productive and contributing members of their communities through work. This philosophy also recognizes intrinsic and financial benefits of paid work to the individuals with disabilities and their families. This improved economic self-sufficiency has shown to also reduce reliance on government services. Oregon has been very successful in developing community-based care to move away from institutions as a model of care. Having individuals with developmental disabilities fully engaged in their communities is highly desirable as an outcome and fiscally efficient. The Employment First initiative is designed to ensure that employment supports are provided in the community.

All people with developmental disabilities who are eligible to receive services

through either the Comprehensive or Support Services waiver and the Community First Choice (K Plan) may choose to receive residential support through in-home services, foster care, group homes, or supported living services, as well as employment and/or day services. Employment supports include:

- Employment Path services — individuals learn employment skills
- Supported Small Group services — supports for individuals to work in the community with up to seven other individuals who have disabilities and make minimum wage or better
- Job coaching — support to work independently in a community-based job making minimum wage or better
- Discovery — a time-limited service designed to help an individual learn more about their employment strengths and potential job interests
- Day services— intended to help the person be integrated in the community and be engaged in meaningful activities, including both activities of daily living and skills training

The Employment First policy states that work in integrated jobs is the first and priority option in planning employment services for working-age adults and youth. Services should be planned using person-centered practices that identify an individual's talents, skills, and interests. This information can then help inform employment options and career opportunities.

In 2014, CMS issued additional guidance regarding their Home and Community Based Services (HCBS) regulation requiring that employment supports be community-based by March 2019 in order to receive any federal match. Further, DHS reached a settlement in the Lane v. Brown case in January 2016 which requires that ODDS, VR, and ODE work together to ensure that individuals who are currently in a sheltered workshop (or who have been in a sheltered workshop as of 2012) or transitioning out of high school with I/DD receive supported employment services to help them obtain competitive integrated employment. Additionally, the Rehabilitation Act was amended formally as of June 30, 2016 via the Workforce Innovation and Opportunity Act, which requires competitive integrated employment as the outcome to be considered a successful placement through VR.

All of these federal and state changes, as well as implementing Employment First policies, require some fundamental systems transformation. Many providers need support to change business practices to support individuals in jobs throughout

their communities. It is also critical for business partners to embrace the benefits of hiring people with developmental disabilities. Employment First partners with the Oregon Council on Developmental Disabilities and other stakeholder and advocacy organizations to develop policies and communications that strengthen employment outcomes.

As part of the department's strategic planning to integrate those with developmental disabilities into their communities, as well as new federal regulations which require that all employment supports be community-based, efforts are being made to move away from the sheltered workshop model in favor of jobs in the community. For people with developmental disabilities, the goal is that their time in career exploration and hours working in the community will increase and time spent in sheltered workshops decreases. This goal aligns with federal regulations, as well as the Lane v. Brown settlement agreement.

### **Program Justification and Link to Focus Areas**

Employment First links to the Thriving Oregon Economy focus area. Individuals with developmental disabilities are healthier, safer, and happiest when they are engaged in meaningful work. Individuals are more likely to be able to live with their family longer when they have their own daily schedule that is similar to working parents. As with all other citizens, for individuals with I/DD, employment has many positive impacts. These impacts include increasing self-worth, building relationships, and access to community resources. Employment improves economic well-being as well as physical and mental health. Employment supports are key in moving people with developmental disabilities away from 24-hour support services, which results in less public funds being spent.

Employment First also links to other economic development strategies to increase workforce diversity while meeting business needs in ways that result in jobs and prosperity for all Oregonians.

### **Program Performance**

Employment trends have been tracked since 2007. Since Employment First began in 2008, there has been growth in community employment. Additionally, according to the March 2016 Employment Outcomes System (EOS), 841 people received individual supported employment services. This is an increase of 264 people working in individual supported employment services from March 2015. From July 2015 to July 2016 (SFY 2016), Vocational Rehabilitation (VR) had 563 closures

that led to competitive integrated employment for those people also receiving ODDS services. The average number of VR case closures that led to competitive integrated employment has more than doubled, from 22 closures per month in 2011 to 48 per month in 2015. Based on a March 2016 EOS count, there were 1,452 people in ODDS services working in a sheltered setting, a decrease of 485 individuals from the March 2015 count.

Employment First and its partners have reached the goals outlined in the 2015-2017 Bid ensuring that by 2016, no transition age youth may enter a sheltered workshop when leaving school as there were no new entry into a sheltered workshop setting allowed by Oregon Administrative Rule as of 7-1-2015. As stated above, the census and hours of individuals in a sheltered workshop setting have been reduced while the census of individuals in supported employment has increased.

For more details regarding process, please visit our bi-annual data reports:

<http://www.oregon.gov/DHS/EMPLOYMENT/EMPLOYMENT-FIRST/Pages/data-reports.aspx>

### **Employment First Goals:**

By June 30, 2019, based on the Lane v. Brown Settlement, Employment First (through ODDS and Vocational Rehabilitation) must place 1,115 individuals currently or recently in a sheltered workshop in competitive integrated employment; and

By June 30, 2019, based on the Lane v. Brown Settlement and Executive Order 15-01, Employment First must provide supported employment services to 4,600 transition age youth or individuals currently or recently in a sheltered workshop. This is required by the Lane v. Brown Settlement Agreement and DHS along with ODE is progressing toward system change in order to ensure these outcomes are reached.

### **Enabling Legislation/Program Authorization**

The provisions of employment-related services for individuals with developmental disabilities are in ORS 430.610, .650 and .670. The enabling statutes are in ORS 409.050 and ORS 410.070.

At the federal level, in addition to all applicable Medicaid statutes and regulations such as the Home and Community Based Services regulation and Workforce

Innovation and Opportunity Act mentioned above, services must comply with the Title II of the Americans with Disabilities Act (ADA) of 1990. Compliance with these federal laws are subject to the U.S. Supreme Court's Olmstead Decision of 1999 and the U.S. Department of Justice's interpretation of that decision as it relates to the ADA and Rehabilitation Act. ADA and Olmstead are relevant to Employment First since the program must assure statewide access in the least restrictive environment.

As of January 2016, the Lane vs. Brown case has been formally settled and Oregon via DHS and ODE are mandated to effectively implement policies to achieve the required outcomes of the Settlement Agreement, which is mandated under federal jurisdiction.

### **Funding Streams**

All funding for Employment First through ODDS is matched through the Medicaid 1915(c) Home and Community-Based Waiver. When a person is getting job development from Vocational Rehabilitation (VR), OVR Title 1 case service funding is used.

Primary Long Term Focus Area: Safer, Healthier Communities  
Secondary Long Term Focus Area: N/A  
Program Contact: Anna Lansky

Figure I: Funding of I/DD Delivery and Design (not reflective of funding for the Stabilization and Crisis Unit (SACU)).

## Program Overview

The Office of Developmental Disabilities Services (ODDS) manages a lifespan program that provides support and funding to children and adults with intellectual and developmental disabilities (I/DD) to live fully engaged lives in their communities. Oregon has stopped using institutional models to care for people with intellectual and developmental disabilities and has focused all efforts on people living in their community. Programs are provided in the community in the person’s own home, family home or in a foster care, group home or in supported living programs. Design and Delivery provides administrative and operational support to these programs.

**Program Description**

There are over 26,000 Oregonians with I/DD receiving case management and other supports through the ODDS program. Since implementation of Community First Choice Option (CFCO), also known as K Plan, in July 2013, the Oregon I/DD service delivery system has undergone significant changes. Due to CFCO implementation, ODDS now can provide services to all eligible children, while in the past families with children with I/DD had to reach crisis before being able to access services and supports. Additionally, K Plan has expanded in-home services for adults as well, lifting budget caps previously imposed on amount of services adults with I/DD were able to access in their own or family homes. Under CFCO, the amount of in-home services is determined based on functional needs assessment. As a result of these changes, the number of individuals served within I/DD system has significantly increased. During this biennium, since July 2015, over 2,300 new individuals enrolled into the I/DD service delivery system increasing total population by 9.7 percent. The trend is expected to continue into the 2017-19 biennium.

The structure for service delivery and design includes a central program administration office, Children Intensive In-Home Services (CIIS) unit, and contracted services with Community Developmental Disabilities Programs (CDDP) and Support Service Brokerages (Brokerages). Additionally, the ODDS central office provides strategic planning, program funding, policy development, provider licensure and certification, general oversight, and technical support to community services. Contracted county Community Developmental Disability Programs (CDDPs) are responsible for eligibility determination, program enrollment, case management, abuse investigation, and quality assurance. Adults receiving in-home services can also choose to get case management through contracted Brokerages.

Services are offered on a continuum-of-care model and are provided as the first option of supports for a person with developmental disabilities. With CFCO, people can choose the setting in which they live, which increases the importance of supporting and strengthening the ability of families and communities to include and provide natural supports to those with I/DD.

ODDS delegates the responsibility for administration to local county government, Community Developmental Disabilities Programs (CDDPs), in accordance with state statutes (ORS 407). DHS has Intergovernmental Agreements with all but six counties. In those counties, the state contracts with a private agency. Local oversight responsibilities include determining eligibility for developmental disabilities, planning and resource development, developing and monitoring Individual Support Plans, documentation of service delivery to comply with state and federal requirements. Counties also are responsible for case management services, evaluation and coordination of services, abuse investigations of adults and quality assurance services. ODDS provides funding for the equivalent of nearly 865 full time employees of CDDPs through contracts. CDDPs provide case management for all individuals, except adults choosing to be served by a Support Service Brokerage. Adults living in their own or family home have a choice of case management providers, between the local CDDP and a Brokerage. Children are all served by the CDDPs, except those case managed by ODDS staff through the Children's Intensive In-Home Services or Children's Residential Services programs.

There are 14 Support Service Brokerages statewide. Brokerages vary in size and support from 251 to 720 people. People with I/DD are enrolled in Brokerages from the county when they select Brokerage case management services. Once in a Brokerage, the Brokerage Personal Agent (PA) completes a needs assessment, develops the Individual Support Plan, and assists the person in determining services needed, amount of service and possible workers or agencies. PA's help the individual to design plans that meet their needs as determined by the needs assessment. ODDS provides funding for 307 full-time employees to the Brokerages<sup>1</sup>. In order to not duplicate services, once a person is in a Brokerage, they do not also get case management from the CDDP.

The majority of individuals receiving services are eligible for Medicaid. Oregon no longer uses institutional models of care for people with I/DD. Instead, the State

---

<sup>1</sup> Spring 2016 Forecasted caseload for 2017-2019 CSL

uses Medicaid Home and Community-Based Services (HCBS) that allow for shared funding from the Federal government. Through the CFCO State Plan Option, the states receives FMAP plus an additional 6 percent in federal match.

ODDS staff provide policy and program design, technical support, provider licensure and certification, quality assurance, and field support of CDDPs, Brokerages, and direct service providers. There are more than 250 private service provider agencies, approximately 1,120 foster care providers and over 11,900 Personal Support Workers. Regulatory oversight for licensed settings is provided by the ODDS Office of Licensing and Regulatory Oversight.

Central office staff provides programmatic and budget analysis support to Department of Administrative Services Labor Management, collective bargaining, for the Adult Foster Homes, Home Care Workers, and Personal Support Workers.

The Delivery system also includes the Children’s Intensive In-Home Services (CIIS) and the Children’s Residential Services comprised of state staff under ODDS’ umbrella. These units operate and provide case management services to the three Model Waivers for children and provide case management support to children in residential services.

### **Program Justification and Link to Focus Areas**

This program links to the Safer, Healthier Communities focus area. The program delivery system, designed and monitored by central staff and implemented through either the CDDP or Brokerage, is designed to assure supports are provided so the individual is healthy and safe, and fully engaged in their community. The goal is to help them have the best possible quality of life at any age. Person-centered strategies are used to maximize the person’s outcomes and use of natural supports. The CDDP and Brokerage report on critical incidents and the data are used to track trends and determine strategies to improve healthy living outcomes.

### **Program Performance**

Adequate personnel resources are necessary to ensure delivery of programs and provision of services within Developmental Disabilities in a linguistically and culturally competent manner. The chart below provides a comparison of the caseload growth to the equivalent contracted CDDP and Brokerage personnel: CDDP Service Coordinators and the Brokerage Personal Agents.

Figure II: Growth of I/DD Caseload and CDDP Service Coordinators and Brokerage Personal Agents.

### **Enabling Legislation/Program Authorization**

The services are designed and approved using Medicaid 1915c Home and Community-Based Waivers and the CFCO Medicaid State Plan. Without the waivers and state plan, individuals would be entitled to Institutional Care for Individuals with Intellectual and Developmental Disabilities (ICF/IDD).

Individuals can also be court committed to the state care and custody under ORS 427. Case Management is authorized under the Medicaid State Plan. Federal authorization for all services is at 42 C.F.R. 441 and Section 1915(c) of the Social Security Act. Authorization to provide the services in Oregon is in ORS 410.070, 409.050.

At the federal level, in addition to all applicable Medicaid statutes and regulations, services must comply with the Title II of the Americans with Disabilities Act (ADA) of 1990 and Section 504 of the Rehabilitation Act of 1973. Compliance with these federal laws are subject to the U.S. Supreme Court’s Olmstead Decision of 1999 and the U.S. Department of Justice’s interpretation of that decision as it relates to the ADA and Rehabilitation Act. The Olmstead Decision requires states to provide services and supports in non-segregated settings.

## **Funding Streams**

The services are designed and approved using the Community First Choice Option in the Medicaid State Plan and Home and Community-Based Waivers, which provide a Federal match to the program's General Funds. The program funding match rate for waived services is 63 percent Federal Funds and 37 percent State General Funds and for CFCO services is 70 percent Federal Funds and 30 percent State General Fund.

The administration of CDDP, Brokerage, and Central Office staff are funded at the Medicaid administrative match of 50/50. Authorization to provide the services in Oregon is in ORS 410.070, 409.050.

### **105 Stable and competent workforce for I/DD**

General Fund	Other Funds	Federal Funds	Total Funds	Positions	FTE
200,160	0	18,687	218,847	1	1.00

Perpetually low wages from an outdated rate model for the I/DD provider workforce has created a record level of turnover and a critical shortage of direct support professionals (DSPs). DSPs provide support for people with I/DD to live and work in a safe and healthy manner as members of their communities. DHS and stakeholders created the existing rate structure based on 2007 fiscal data. This model needs to be updated to align with current economic realities; new minimum wage requirements; new DOL Overtime Rule, and expectations around service quality, safety and competency/training requirements. A stable and well-trained workforce is critical to the ability of I/DD provider network to providing high quality of services to individuals and assuring their health and safety. Provider rate structure needs to reflect these requirements and provide adequate compensation to assure that individuals with I/DD are served by competent workers. This POP will: Ensure adequate DSP wages that are above minimum wage to reflect DHS' longstanding policy that DSP work is not minimum wage work; address compression effect of minimum wage increases on wages of house managers and supervisors; address cost impact of new DOL requirements around overtime pay for workers earning less than \$913 a week (\$47,476 a year); provide financial incentives for providers to ensure their staff achieves highest level of training and competency and by making available College of Direct Support training to Oregon DSPs, and provide one FTE for ODDS to coordinate provider training requirements and programs.

## **Reductions**

- Eliminate Regional Staff – Effective July 1, 2017, this reduction eliminates the regional staff that support the CDDPs with crisis situations.
- Reduce Brokerage and CDDP equity by four percent from 95 percent to 91 percent – Effective October 1, 2017, this reduction reduces the operating funding to CDDPs and Brokerages by four percent.
