

Please support House Bill 2004!!

It is time to protect renters in Oregon. We are in the midst of a dangerous housing crisis, and people are losing their homes. It's really that simple. People are being priced out, forced out, and it's deepening the homelessness that plagues our city. If you're a renter, you understand the fear that we fundamentally face being at somebody else's mercy. Now that fear is stronger, as the cost to rent SOARS well-beyond most renters' means, and the competition for fair housing is savage. For people that are vulnerable, whether they're physically disabled, on fixed or limited incomes, have criminal records, or are persons of color, finding a place to live is nearly impossible right now. What kind of place will Oregon become if only the rich and privileged can stay here? We are a diverse community of people who embrace the values of all genders, races, religions, and economic classes. Let that be reflected in the laws that we pass to protect people from being taken advantage of, from being unnecessarily displaced from their homes, from becoming victims of greed.

End no-cause evictions and stop the ban on rent control!
