

The following is my testimony against HB 2571, public hearing 3/23/17.

Chair Williamson and Members:

I am opposed to HB 2571 because I think there is a disadvantage to small precincts that may have space only for six or fewer precinct persons. I live in a rural county and I was a precinct committee person where there were only 2 openings – one man and one woman. I favor leaving opportunities open for at least one man and one woman to represent a precinct.

Thank you for this opportunity to testify
