Subject: HB 2705, HB 2706, HB 2707

All,

HB 2705, HB 2706, HB 2707 will be a massive government overreach. The state already controls **all** the water in the state. These are an unacceptable bills that should not go any further. If this moronic bill should come to fruition, my thought is the people of Portland should then pay for our wells and service them as well. Again the people of Portland overstep their bounds into rural Oregon. If in fact it were up to rural Oregonians, we'd build a fence around Portland keeping your liberal thoughts to yourselves.

More laws and regulations are not the answer.

Thank you,

Ryan Sauvageau
