I oppose these bills [HB 2705](#)

[HB 2706](#)

[HB 2707](#)

We the people of Oregon already have too many fees, too many taxes.

It is the practice of the politicians of Oregon to increase taxes, make new taxes, increased fees by 40 percent and 100% and to make new fees.

This is not the answer the people of Oregon already pay too much. The answer is to manage the funds that we already have not to increase the cost to the people.

These bills are only a way to get more money for the politicians of Oregon spend not to budget what we already have. So I am absolutely opposed to these bills.
