Subject: HR Bills 2505,2506 & 2507

Mr Helm:

These bills do not serve to conserve. What your attempting to do is bankrupt and rid yourselves of the few of us that own small acres of land and the water rights that come with it

Your goal is to steal our water, our money and ultimately our land That is Criminal !!

I plead with all of you to Stop this nonsense!

Vote No.

in 1968-69 I fought and Bled for my country against Communist, to keep communism out of our country

Here I stand today watching my government turn against me, how do you call yourselves Americans while attacking and knowingly ruining their life, stealing our freedom from us. All because you cannot live within your Budget? Certainly not for " conservation ".
