

PLEASE OPPOSE S B 892

I own 250 acres of timber land in Benton County.

I do clear cut and thinning harvests on my tree farm each year.

Following clear cut harvests I aerial spray to site prep for replanting.

Scheduling spray jobs is a difficult practice to do already.

The additional provisions of SB 892 would cause great undue hardship on forest land operators like me.

For the above reasons I request you oppose SB 892.
