EFFECT OF AMENDMENT:

BACKGROUND:

Under current law, a part-time faculty member is eligible for the same health care benefits as a full-time faculty member if the part-time faculty member is eligible for membership in the Public Employees Retirement System or another plan by teaching at a single institution or multiple institutions during the prior year. Part-time faculty members are currently responsible for paying the entirety of their insurance premiums for health care benefit unless otherwise provided for in the policies of the employing institution or in a collective bargaining agreement.
