

SB 494 Vote No Rebecca Roth

Starving people to death for the convenience of others, comes so naturally to wicked people. Little by little we are becoming a people consumed with self, and we do not care about others enough to feed them or give them water, something we wouldn't do to a dog, watching it suffer for days - We deserve the destruction we embrace for others.

There is a stench in the OR capitol. The fact that this bill got a hearing shows that in fact, the Democrat position is, "But it's only the handicapped."
