BACKGROUND:

Currently, a school district, private school or public charter school may conduct a criminal record check on a volunteer, if the volunteer consents, using the Law Enforcement Data System. House Bill 2992 requires that each school district board and public charter school governing body develop a policy that requires this criminal record check for volunteer who will have direct and unsupervised contact with school children. It also allows the governing body of a private school to adopt this same policy. HB 2992 is operative on January 1, 2018. However, HB 2992 allows a school district board, public charter school governing body or private school governing body to take necessary action prior to that date.
