Subject: Testimony for HB 2269

Hi Beth,

Clean air (and water) is critical, which is why I'm submitting testimony for support of HB 2269, which – as you know – funds the vital work of Cleaner Air Oregon. DEQ is already overworked, so receiving the funding from this bill is vital, especially in light of the fact the federal budget cuts are poised to severely curtail environmental regulations.

We must support our environmental regulators at the DEQ so that they can stand up to the deep pockets of the corporate power brokers, and Keep Oregonians Safe, and supplied with clean, safe air and water.

Thank you for listening to WE THE PEOPLE not the profits of the corporations!

Thanks for all you do for Oregon,

--Gregg
