Dear State Senator Dembrow,

Please support HB 2269 to fund the critical work of Cleaner Air Oregon. If DEQ doesn't receive funding for this work, we know it will not happen, especially with the federal budget cuts we're facing. It makes no sense to go this far and not finish the job. I am particularly concerned about air quality in Portland now that we know we have arsenic, cadmium and diesel pollution problems. We need to identify all the sources and correct them. Thank you for listening to the people not the profits!"
