Subject: support SB 929
Date: Sunday, March 26, 2017 9:51:58 PM

Dear Senator Dembrow & committee members

I'm writing to urge you to support passage of SB 929.

Pollinators are nature's workhorses that provide essential services to our environment, not the least among them being a critical step in creating many of the foods we eat. Neonicotinoids, applied by people with no knowledge of the risks if improperly applied, can devastate a pollinator population as well as negatively impact the surrounding environment.

Please restrict the sale and use of products containing neonicotinoids to licensed professionals that have been properly trained in the use of such pesticides.

Vote YES on SB 929.
