Subject: support HB 2269

Dear Ms. Patrino,

As an Oregonian who breathes the air, I strongly support HB 2269, to fund the DEQ to do the work of Cleaner Air Oregon. We Oregonians must pay to ensure clean air because we cannot count on help from the dysfunctional federal government.

I am not swayed by the self-serving arguments of the Association of Oregon Industries. The simple truth is that people need clean air to breathe! We must protect ***our*** air from corporations that would rather not bother. With filthy air, neither people nor corporations can survive. In places without clean-air protections—take a look at how bad the air pollution has become in [Beijing, China](#)—the air is black and people have to breathe through surgical masks.

It is all of our responsibility to help keep Oregon clean.

Thank you,
Lisa Strycker
