Dear Beth,

Please support HB 2269 to fund the critical work of Cleaner Air Oregon. If DEQ doesn't receive funding for this work, we know it will not happen, especially with the federal budget cuts we're facing. It makes no sense to go this far and not finish the job. Thank you for listening to the people not the profits!

As a person with chemical sensitivities to air pollution and seasonal allergies, this bill is important to me personally. My health is impacted by chemical fumes. I have had to move from one city to another because of my allergies and sensitivities.

Please support HB 2269
