Subject: SB 114 and SB 258 n- vote yes
Date: Monday, March 27, 2017 4:21:50 PM

As a land owner in both Florence and Eugene, I am writing in support of SB 114 and SB 258 which are scheduled for hearing on 4/3/2017

It is my firm belief that the citizens of our communities should be able to have a strong voice in how and when their communities expand. A great deal of citizen expense goes into any growth proposal and some can become very costly to each individual. It is only fair those citizens have a say in how they should be obligated to pay for and support their community's growth.

I am personally a proponent of voting for things that are for the good of the community as a whole, even if they may not be in my own personal interest. One shouldn't assume that the people will always vote no. Allowing a public vote is only fair when we are the ones have to live with the end result and increased cost. Not allowing public vote allows deep pocket investors the ability to stick the community with long term costs for their own personal profit. The citizens of each community should be able to decide how their community grows and how to handle the costs.

I strongly urge a yes vote on both SB114 and SB 258

Thank you for your consideration
