

Senate Committee on Health Care

Dear Chair Monnes Anderson and Committee Members,

RE: SB 810 - STRONGLY OPPOSE

SB metals in the free market that is already providing this service. Government has no business competing with the open market.

Once more, the banks and financial institutions that have health savings accounts available will return interest to the consumer, where this bill robs Oregonians of any gain of interest.

This is a bad bill and only demonstrates another growth in government that is a power grab.

Donna Bleiler
