

**SUPPORT SB 914** which establishes that is unlawful for an employer to mandate vaccine for employees.

I am Susan Jorg, a life-long citizen of the State of Oregon, 67 years of residence. I am a graduate of Oregon State University where I majored on Horticulture and Landscape Architecture. I worked at one of the largest plant nurseries in the state and I am now retired.

It is apparent nationwide that pharmaceutical companies are attempting to preserve their profits by making vaccines mandatory for all of mankind, and our government is helping in this process. Our government has already given vaccine manufactures freedom from liability, no other product in the USA is privy to this arrangement.

Vaccines are neither safe nor effective, if they were they would sell themselves.

Diversity is a trait endow by our Creator in order to preserve humanity in case certain factions become deranged and seek self-annihilation. SB 914 preserves diversity.

Every human has the right to self-determination. They have a right to say "NO" to being injected with substances they deem poisonous: formaldehyde, aluminum, polysorbate 80, foreign DNA. SB 914 protects the individual from draconian laws that would prevent employment due to vaccination status.

I support the passage of SB 914.

Thank you for your time and consideration of this bill.

Sincerely,  
Susan Jorg
