---

Dear Joint Ways and Means Committee Members,

I support full funding of POP 108. My husband and I enjoy seeing salmon spawn in Deadwood Creek (which runs through our property) and know their return is dependent on the management that ODFW provides.

While Deadwood Creek is closed to most fishing, it flows into Lake Creek, then to the Siuslaw River and on to the Pacific Ocean. So many of us enjoy fishing in these waters. Full funding of ODFW is necessary to keep these fish coming back.

Sincerely,

Nancy Nichols
