---

Good morning committee members,  
I oppose any budget cuts to the ODFW's budget, especially as regards their water study program. I am a southern Oregon resident and serve as a board member on our local watershed council. I know how critical it is to be able to make informed decisions about stream flows that effect a wide range of outdoor recreational activities in our region. Please do not cut the ODFW budget!  
Thanks!  
Paul Ancell
