**Date:** Tuesday, March 28, 2017 9:48:55 AM

---

I had meant to refer, in my message below, to ODFW, although I also support full funding of the OWRD as well. I have corrected the reference to ODFW in the copy below.

**Subject:** Comment in Support of POP 108

I urge you to approve HB 5010 and to fully fund Policy Option Package (POP) 108. Adequately managing the state's water and natural resources is essential to our state's vitality and is the foundation for our future generations. I and my family are fishers, duck hunters, irrigation district water patrons and we are dependent on groundwater for domestic water supply. Water is essential to my family's life and to all life. It's proper management and appropriate use is essential. Please ensure that the ODFW and its water management projects are funded in accord with POP 108.
