Dear Senators,

I'm writing to ask you to **stop advancing SB 432, SB 602, SB 608, SB 612, and SB 618!**

I live and farm in Curry County and am worried about the potential for these bills to negatively impact our agricultural landscape and economy here, and throughout the state. I'm proud of our land use planning system and what it has done to protect agriculture for decades in the face of development pressures of all kinds. Please don't destroy one of the things that makes Oregon unique, beautiful, and a great place to farm!

Thank you,
Zoë
