Dear Committee on Environmental & Natural Resources:

Senate Bill 100 is the one and only reason why Oregon still has a viable future. The protections afforded under SB100 are crucial to keep, yet do not go far enough to protect Oregon.

And now before you are SB432, SB602, SB608, SB612 and SB618, all designed to promote sprawl and especially disaffect Eastern Oregon. DENY THESE BILLS.

Here in Josephine County, most things run counter to SB100 as much as possible. Our backwater entitlement mentality is for profit, power, and all forms of taking away, which do not require men or women. Only giving does. These new bills are defeatist for kids' futures in Oregon and the U.S. Only land-use planning with wisdom combined can mitigate the storms of population increase and overusage typical of man.

Protect our state, our ecosystems that keep humans alive, and our children. Please think and act for sustainability.

Respectfully,

Hal B. Anthony
