Oregon Senate Committee on Environment and Natural Resource,

I strongly support SB 847 that creates process for State Land Board, Dept. of State Lands and Legislative Assembly to coordinate transfer of certain trust lands managed for benefit of Common School Fund that have limited performance potential as assets of Common School Fund to certain other public bodies better positioned to manage lands for benefit of public.

SB 847 is an excellent solution for management of some Common School Fund Lands. Please vote yes in support of SB 847. It will provide options to keep Public Land Public.

Thank you
