**Subject:** BILL SB687

My name is Beth Schultz and I live in Roseburg. I will be unable to attend the SB 687 hearing in person tomorrow so I wish to submit this testimony in writing in favor of SB 687.

This bill is very important to me. I hear the stories all too often that new mothers are threatened to give the Hepatitis B vaccine in the hospital or they will not be able to bring their baby home. No mother should be coerced to give their baby a medical treatment. This Bill will help give parents the confidence to make decisions for their families without fear.

I was lucky that my doctors were respectful of my autoimmune disease and did not push vaccines on my family. One nurse did not know that my doctors agreed vaccines were a bad idea for my baby and started to threaten me as my doctor came in and told her to stop. It was a stress I did not need.

Thank you for your time. I truly hope you will vote to protect the freedom of Oregonians.
