Good morning, Everyone. I requested an add awhile back for M [REDACTED] and it hasn't ever been approved. She is my daughter in law. Dr Marshack reported her to CPS or DHS, whatever alphabet they go by now, when my grandson was first born because she refused vaccinations. They came in to her home with a sheriff and went thru drawers and everything, without a search warrant, due to her noncompliance. She was so stressed she lost her milk. The baby got sick from formula, and Marshack claimed he was sick because he was not vaccinated. Yesterday she got called in to the DHS office and was told she has until the end of this month to vaccinate the baby, or they implied they will remove him from the home for child abuse because, they stated, not vaccinating is child abuse. She really needs the support and wisdom of this group's knowledge. I need to get to work and can't relay messages or info, but we need help. Thank you!

[REDACTED] Thank you. Yes, she told CPS that she was delaying for his first year, and they said that was unacceptable. She is really being strong armed!
