

House Health Care Committee members,

During the public hearing today (April 7th) on HB 2310, Clackamas County Commissioner Sonya Fischer stated that Clackamas County was the only county in Oregon that was nationally accredited by the Public Health Accreditation Board. While Clackamas County was one of the first fifty counties in the country to receive this accreditation in 2014, we are not the only county in Oregon.

Our apologies for this oversight.

Thank you,
Jack Dempsey
Representing Clackamas County
