

The Oregon Promise is a fund that has allowed me to attend Rogue Community College without having to continually worry about how I will pay for my tuition. It has given me an opportunity beyond measures to allow me to continue a higher education. As I know I speak on behalf of others who as well receive the Oregon Promise. It has allowed me and other students to fulfill our dreams of receiving a college degree to be able to enter into the profession we have always dreamed about. It gives us college students hope and courage to want to continue to chase our goals because there are funding's like the Oregon Promise that help us along the way to chase those dreams and goals of ours. The Oregon Promise has really benefited me in many ways that I cannot describe. I hope the Oregon Promise funding continues to allow me to achieve my dreams of becoming a Nurse Practitioner one day.
