

April 17, 2017 8:00AM - SB 868 Hearing

Senate Judiciary Committee,

As a citizen and voter in the State of Oregon, I am in support of SB 868. As an attorney, I have had several clients who were victims of domestic violence and/or lived with children or spouses who were suicidal. Many of these clients feared for their lives or the lives of their children/significant other. Extreme Risk Protective Orders allow those living in fear of gun violence to seek judicial action to protect themselves and others. It is a proactive measure that will save lives and put little burden on gun owners, who have the ability to contest the ERPO. I ask that this bill be passed as it is in the best interest of those in our state. Thank you,

Victoria Hines
