

**Re: HB 2122**

Representative Mitch Greenlick, Chair  
House Healthcare Committee  
900 Court Street, NE, H 493  
Salem, Oregon 97301

Dear Representative Greenlick:

I understand the House Healthcare Committee is considering making changes to Coordinated Care Organizations (CCOs). As you have these discussions, I want you to be aware of the positive relationship we've developed with the CCO in Lane County, Trillium Community Health Plan. It is important we are able to continue working together to serve the healthcare needs of our patients.

Trillium has done an excellent job in its outreach to underrepresented and underserved communities. The role of CCOs in serving the least fortunate among us is critical to maintaining a healthcare network that serves the greatest number of people in our community. As city councilor for Ward 6 (Bethel Area) in the City of Eugene, I represent some of the most economically disadvantaged constituents in the city. Our partnership with Trillium Community Health Plan is a unique and vital part of the health care system in our city and region.

Please don't hesitate to contact me if you have questions or need more information.

Sincerely,

*Greg Evans*

Greg Evans, M.Ed.
