Subject: Strong Support for Senate Bill 1007
Date: Monday, April 10, 2017 7:23:26 PM

Dear Senators Dembrow, Olsen, Baertschiger, Prozanski and Robian,

I am proud of Oregon's forward-thinking in creating the "Oregon Climate Test", which would subject new fossil fuel projects to a review that would measure:

- 1) their emission profile and their impact on the global climate, and
- 2) their true economic viability, i.e. would it really manifest jobs, etc.

Senate Bill 1007 is such SWEET REASON! Thank you for your support.

Sincerely,

Olive Streit
