

20  
3-APRIL-17

Dear Mr Sessions, I'm writing you  
concerning the conduct of the  
State of Oregon. I've grown medical  
marijuana for several years. Now  
the state of Oregon changed the  
rules for the worst. They have made  
it impossible due to the state  
charging 4,500.00 to medical growers.  
The state has hijacked it's medical  
growers. The black market will thrive  
due to these ridiculous rules that  
enrich the states pockets. I used  
to rid my excess to medical dispensaries  
but the state has put them and us  
out of business. The state of Oregon  
is greedy and don't look out for it's  
medical growers who opened this  
business up in the first place.  
Please address these man made  
problems so everyone can endure (survive)  
my daughter lives in Anandale, VA.  
and works for the FBI and FEMA  
Admtr. Very proud of her. She was  
in the command ctr during the hunt  
for the Boston Marathon bombers. She  
does a good job for U.S. Sir.  
Please help put medical marijuana  
back on the map. There are thousands  
of medical marijuana patients in Oregon  
who can't find a grower for them,  
and who can't grow them selves.

?

It's because of the Fees that  
The State Charges it's Medical  
Growers now. IF I Grow for 3  
People the State will charge me  
200<sup>00</sup> Per Person to Grow  
for them. This is all new.  
The State of Oregon is Greedy  
and Dont Care about the Very  
People who Started this Medical  
Growing. Medical Growers are  
all upset over this stiff Arming  
by the State. IF you have to  
Outlaw recreational Marijuana, Please  
do so. respect for Medical Growers  
dont exist anymore in Oregon.  
I would Gladly come to a meeting if  
asked, and Testify.

Very Sincere

Larry Schneider

P.S I donate alot of my  
excess to Cancer Patients. = V.50
