

Dear Senate Judiciary Committee:

Please vote “Yes” for SB797 in support of common sense gun control.

I am a teacher. My husband is a surgeon. My father-in-law is a retired pediatrician. My mother is a retired social worker who spent years rehabilitating court-mandated sex offenders to include stalkers. Our connections to gun violence run deep and wide throughout this community, the community you call home. I have done schoolhouse drills with students and I have held children in my arms while consoling them after the loss of a family member or friend to gun violence. My husband has faced gun violence in trauma bays. My father-in-law has advocated for years through the American Pediatric Association for gun control. I look at SB797 as a common sense approach that safeguards our community members, your constituents, against gun violence. Let THIS be your legacy vote.

Sincerely,

Susan D. Callahan
