

Please do not allow this Senate Bill to move forward.

Concerning SB 797

This bill blatantly:

- denies citizens of their Second Amendment right,
- will encourage the illegal transfer of firearms,
- contains no safeguard to keep this bill from being unfairly administered, and
- provides no procedure to allow a recipient to have their purchase request reviewed and decided upon within a set time period

This bill also probably has very little chance to even save one life. OSP is already so busy that they can't get this job done on a timely bases, this will just allow them to get further behind. I suspect that this bill will take OSP away from other more critical public health and safety issues.

Sincerely Your  
David McFadden  
Medford, Oregon
