

I object to SB 797 for 1 very simple reason. As a tax payer, I have an expectation of performance from state employees. SB 797 removes the requirement that the state process background checks in a timely fashion.

Contrast with Utah, where a concealed carry permit must be processed in 30 days. The people of the state of Utah have a performance guarantee from the employees.

I also object because I think this could be an end-run around the 2nd Amendment. Defunding the office that processes the background checks could permanently end all gun sales in the state.
