Subject: Testimony on SB 5542, OWRD Budget
Date: Wednesday, April 12, 2017 9:05:53 PM

Dear Legislators: Where we live (Central Oregon) most people depend on wells for drinking water. It's a necessity! We and our neighbors support SB5542 Pkg 101 to support that vital resource. We also request that the funding for the states ground water studies, observation wells and gauging stations be retained. We are aware of the USGS measurements of some observation wells in our area have shown lowered water levels. Please continue funding for a vital resource! Thank you!
