

HB 2597 -2 STAFF MEASURE SUMMARY

House Committee On Judiciary

Prepared By: Whitney Perez, Counsel

Meeting Dates: 2/27

WHAT THE MEASURE DOES:

Renames offense of operating a motor vehicle while using mobile communication device and expands it to cover operating a motor vehicle while using mobile electronic device. Defines key terms. Increases penalty for first offense. Increases penalty for subsequent offense or if first offense contributes to an accident. Allows court to suspend fine upon first offense if person completes distracted driving avoidance course. Directs Department of Transportation to create standards for distracted driving avoidance courses.

REVENUE: May have revenue impact, but no statement yet issued

FISCAL: May have fiscal impact, but no statement yet issued

ISSUES DISCUSSED:

EFFECT OF AMENDMENT:

-2 Expands prohibition on operating a motor vehicle while using a mobile electronic device to include incidents committed on premises open to the public. Makes amendments and new provisions operative on October 1, 2017. Declares emergency, effective July 1, 2017. Makes technical corrections.

BACKGROUND:

In 2007, HB 2872 was enacted, making it a traffic violation for a minor to operate a motor vehicle while using a mobile communication device. In 2009, HB 2377 expanded this law to prohibit any person from operating a motor vehicle while using a mobile communication device. This offense was originally a Class D traffic violation. In 2013, SB 9 elevated this offense to a Class C traffic violation. In 2015, the Oregon Court of Appeals, in *State v. Rabanales-Ramos*, reviewed this legislative history and determined that the law "prohibits talking and texting on a mobile communication device, but not *all* activities that can be performed using such a device." (Emphasis original). For example, the statute would not prohibit a person from holding a cell phone to listen to music while driving.

In 2016, a Distracted Driving Task Force (task force) began work on the issue of distracted driving. The task force issued a report in February 2017, which included a recommendation to amend the law to broaden the definition of device usage and eliminate certain exceptions.

House Bill 2597 encompasses the task force's recommendations. It renames the offense and expands it to cover operating a motor vehicle while using a mobile electronic device. It also defines mobile electronic device and other key terms. HB 2597 eliminates several exceptions contained in existing law, such as use of a mobile electronic device for the purpose of farming or agricultural operations. HB 2597 also increases the penalty for a first offense from a Class C traffic violation to a Class B traffic violation. It further increases the penalty to a Class A traffic violation for a subsequent offense or if the first offense contributes to an accident. Finally, HB 2597 allows the court to suspend a fine imposed on a first offense if a person completes a distracted driving avoidance course and directs the Department of Transportation to establish standards for these courses.
