---

Dear Senator Roblan;

I urge you to support SB 892 so that we citizens of Oceanside can have advance notification of aerial spraying of pesticides.

Notification is important for two reasons:

- 1) our water district can make appropriate decisions to protect our health;
- 2) I can protect my granddaughter who is highly immune deficient now as she undergoes chemo and radiation for a brain tumor.

Thank you for being willing to protect us.

Meg Eastman Thompson
