Subject: Support of SB 892
Date: Wednesday, April 12, 2017 12:48:05 PM

Dear Chair Dembrow and Members of the Senate Environment Committee,

I support the passage of SB 892 because it will help rural residents have some protection against being caught outside when there is a nearby aerial spray. I am concerned about the health and safety of people in rural communities, and believe that informing residents about aerial sprays is a very simple, ethical, and important thing that can be done.

Please pass SB 892 with a strong recommendation for adoption.

Sincerely,

Sara Worl
