

Hello,

I was disheartened to hear that the OR House will hear a bill which would significantly weaken protections for rays and sharks covered in the recently passed Measure 100. Measure 100 was passed by OR voters overwhelmingly in November, with 70% of voters in favor of adding protections for endangered species from around the world here in OR. For the House to vote yes on HB 3429 it would be going AGAINST what the majority of Oregonians want in terms of protection for animals. This is a cause near and dear to many Oregonians hearts, and voting in favor of stripping animals of their rights would resonate with them for many years to come. Please do not go against OR voters and choose to vote NO on HB 3429.

Thank you,
