

*Testimony submitted via email.*

Representative,

I'm writing to let you know of my support of House Bill 2778. I use acupuncture and find it to be a very beneficial medicine.

Pre-authorization is unfair and it will limit the access I have to get the health care I desire and need. I cannot take additional time to go see a general doctor to approve prescribed acupuncture. This new rule will improve the health care system.

I appreciate your time.

Thank you,

Brian Wiebe
