EFFECT OF AMENDMENT:

-1 Replaces measure. Prohibits construction of bridge within designated areas of Deschutes Scenic Waterway.

BACKGROUND:

Oregon has recently experienced five unusually dry years, straining wildlife, agricultural, and recreational prospects in the state. Throughout 2016, many streams approached record low levels despite a relatively wet winter and spring. In 2016, Governor Kate Brown issued an executive order directing state agencies to plan for resiliency to drought.

House Bill 2027 would create a fund that would direct money to drought relief and prevention measures.
