

House Committee on Judiciary:

We oppose:

HJR 13 – We support law enforcement, but this resolution is broadly drafted and would make a constitutional right subject to the whims of the voters.

HB 2526 - FFLs should not be forced to distribute propaganda created by an openly anti-gun administration disguised as suicide prevention materials.

We support:

HB 3281 - This would ensure that law-abiding citizens are not left defenseless simply because they work for a state agency.
