The following is my testimony against SB 797.

Dear Chairman Prozanski and Members:

I am opposed to SB 797 because of Section 5 (3) (d) (B) which denies qualification on the basis that the investigative department “is unable to determine if the transferee is qualified or disqualified.” A possible qualified transferee is denied a right because of a bureaucratic nightmare of guilty because there is no information. This is no way to treat our law abiding citizens. Better access to records should “close the loophole”. Please do not deny rights to innocent potential transferees.

Please vote no and do not bring this bill out of your Committee.

Thank you for this opportunity to testify.
