Dear Senators,

Thank you for your service to Oregon. I strongly encourage you to support education about and enforcement of the laws that Oregon currently has rather than adding extra laws that are not needed such as the senate bills under consideration this week: SB 764, SB 797, and SB 868.

People who legally own guns are almost never a threat to public safety. **Criminals** are the threat that law-makers like yourselves need to be protecting citizens from. Please spend your time and energy on other issues such as balancing the state budget.

Sincerely,

Sally Freeman
Warrenton
