While I admit some support for the bill, I must in ANY conscious call upon you to vote unequivocally **NO** on SB797; The fail point is this so-called “*Charleston Loophole*,” allowing gun sales to proceed after three business days.

What the bills supporters are “demanding” is better known as “the New Jersey Ban,” wherein law enforcement agencies are allowed (ENCOURAGED) to pretend to be unable to process said checks, making it a defacto ban. This cynical, underhanded, and murderous PLOT was conceived to advance this agenda item, covered up with a fig leaf of marginally decent (and already requisite) of good law (“*sliding the mold in under the bread*” one called it). Kill this bill. It needs to die, before another it causes Umpqua Community College.
