

Dear Dennis Linthicum, Floyd Prozanski, Kim Thatcher, Michael Dembrow, Dennis Linthicum, and James Manning,

I request, as your constituent, to please vote NO on the new amendments to SB719. I have estranged family, and under the wording of amendments to SB719, family members who I have not even spoken to for nearly 5 years can potentially cause me, the family I financially support and live with, and my community considerable harm! I don't trust my estranged family, and I don't trust the wording of these new amendments to SB719! PLEASE, vote NO on this. I work for a private armed security company in Southern Oregon and am registered, trained, and tested under Oregon Department of Public Safety Standards and Training, and my services provide peace of mind and safety for hundreds of businesses and private homes, the thought that an estranged family member that no longer even knows me, a family member that does not like me because I side with my mother when it comes to non-safety issues and normal family matters, that their biased and potential false accusations can disarm me and therefore have me lose my job, and make this community a more unsafe place to live, IS EXTREMELY ABSURD!

Thank you for understanding and voting/stopping these amendments to SB719 from going through,

your constituent,

Oregon Resident 27 Years.
