

I believe the following problems exist with this bill!

If passed, this bill will allow your guns to be confiscated based on accusations from family members that you are dangerous or suicidal. You do NOT have to be convicted of a crime. You do NOT have to actually be dangerous.

This is however a very dangerous legislation and of course it solves nothing. If a person is really dangerous or suicidal there is not one word in this legislation that addresses that .

Truly dangerous people need interventions and people who are not dangerous should not lose their rights because of the accusations of a vindictive family member. This incredibly ill conceived legislation is going to get people killed.

We can do better than this junk. Let's pass some reasonable legislation that actually accomplishes something besides taking away innocent peoples rights!

Thank You,
