

Thank you for intelligent consideration of Senate Bill 797.

I firmly support this legislation.

The stakes are high.

Our society is flooded with guns already.

Taking steps to prevent unstable people from purchasing guns  
(and ammunition!) is a high priority for us all.

Taking a stand in favor of rational protections  
and against frothing fear-mongers is right and brave.

I applaud the Oregon leaders who take a stand  
in favor of protections that will lead to a safer future.
